NOTES TO THE FINANCIAL STATEMENTS
October 31, 2011

NOTE 1. ORGANIZATION AND DESCRIPTION OF BUSINESS

Business description

Blink Couture, Inc. (the "Company") was originally incorporated as Fashionfreakz International Inc. on October 23, 2003 under the laws of the State of Delaware. On December 2, 2005, Fashionfreakz International Inc. changed its name to Blink Couture Inc. Until March 4, 2008, the Company's principal business was the online retail marketing of trendy clothing and accessories produced by independent designers. On March 4, 2008, the Company discontinued its prior business and changed its business plan. The Company's business plan now consists of exploring potential targets for a business combination through the purchase of assets, share purchase or exchange, merger or similar type of transaction. The Company has limited operations and in accordance with SFAS # 7, the Company is considered a development stage company.

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. BASIS OF ACCOUNTING AND PRESENTATION

The accompanying balance sheet and statement of equity as of October 31, 2011 and the related statements of operations and cash flows for the three months ended October 31, 2011 and 2010 are unaudited. The unaudited financial statements have been prepared according to the rules and regulations of the Securities and Exchange Commission ("SEC") and, therefore, certain information and disclosures normally included in financial statements prepared in accordance with accounting principles generally accepted in the United States have been omitted.

The accompanying unaudited condensed consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America for interim financial information and with Article 10 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by accounting principles generally accepted in the United States of America for annual financial statements. In the opinion of management, all adjustments, consisting of normal recurring accruals considered necessary for a fair presentation, have been included. Operating results for the three months ended October 31, 2011 are not necessarily indicative of the results that may be expected for the year ending July 31, 2012. For further information, refer to the financial statements and footnotes thereto for the year ended July 31, 2011.

B. CASH EQUIVALENTS

The Company considers all highly liquid investments with a maturity of three months or less when purchased to be cash equivalents.

C. USE OF ESTIMATES

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

(A Development Stage Company)
NOTES TO THE FINANCIAL STATEMENTS

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Cont'd)

D. DEVELOPMENT STAGE

The Company continues to devote substantially all of its efforts to exploring potential targets for a business combination through the purchase of assets, share purchase or exchange, merger or similar type of transaction.

E. BASIC EARNINGS PER SHARE

Pursuant to the authoritative guidance, basic net loss per share amounts is computed by dividing the net income by the weighted average number of common shares outstanding. Diluted earnings per share are the same as basic earnings per share due to the lack of dilutive items in the Company.

F. INCOME TAXES

Income taxes are provided in accordance with the authoritative guidance. A deferred tax asset or liability is recorded for all temporary differences between financial and tax reporting and net operating loss carryforwards. Deferred tax expense (benefit) results from the net change during the year of deferred tax assets and liabilities.

Deferred tax assets are reduced by a valuation allowance when, in the opinion of management, it is more likely than not that some portion or all of the deferred tax assets will not be realized. Deferred tax assets and liabilities are adjusted for the effects of changes in tax laws and rates on the date of enactment.

G. REVENUE RECOGNITION

The Company has not recognized any revenues from its operations.

H. RECENTLY ISSUED ACCOUNTING PRONOUNCEMENTS

Subsequent Events

From time to time new accounting pronouncements are issued by the Financial Accounting Standards Board or other standard setting bodies that may have an impact on the Company's accounting and reporting. The Company believes that such recently issued accounting pronouncements and other authoritative guidance for which the effective date is in the future will not have an impact on its accounting or reporting or that such impact will not be material to its financial position, results of operations and cash flows when implemented.

NOTE 3. GOING CONCERN

The accompanying financial statements have been prepared assuming that the Company will continue as a going concern. The Company generated net losses of \$344,054 during the period of October 23, 2003 (inception) to October 31, 2011 and its current liabilities and total liabilities exceed its current assets and total assets by \$270,328. These conditions, among others, raise substantial doubt about the Company's ability to continue as a going concern. The Company's continuation as a going concern is dependent on its ability to meet its obligations, to obtain additional

financing as may be required and ultimately to attain profitability. The financial statements do not include any adjustments that might result from the outcome of this uncertainty.

The Company is dependent on advances from its principal shareholders for continued funding. There are no commitments or guarantees from any third party to provide such funding nor is there any guarantee that the Company will be able to access the funding it requires to continue its operations.

NOTE 4. RELATED PARTY TRANSACTIONS (Cont'd)

At October 31, 2011, the Company had loans and notes outstanding from a shareholder in the aggregate amount of \$258,773, which represents amounts loaned to the Company to pay the Company's expenses of operation.

NOTE 5. INCOME TAXES

The Company recognizes deferred income tax liabilities and assets for the expected future tax consequences of events that have been recognized in the financial statements or tax returns. Under this method, deferred tax liabilities and assets are determined based on the differences between the financial statement carrying amounts and the tax basis of assets and liabilities using enacted tax rates in effect in the years in which the differences are expected to reverse. The Company has not incurred any income tax liabilities since its inception due to operating losses of approximately \$344,000. The expected income tax benefit for the net operating loss carryforwards is approximately \$96,000. The difference between the expected income tax benefit and non-recognition of an income tax benefit in each period is the result of a valuation allowance applied to deferred tax assets.

This results in a net deferred tax asset, assuming an effective tax rate of 28% or approximately \$96,000 at October 31, 2011. A valuation allowance in the same amount has been provided to reduce the deferred tax asset, as realization of the asset is not assured.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following discussion should be read in conjunction with our unaudited financial statements and the notes thereto.

Forward-Looking Statements

This quarterly report contains forward-looking statements and information (within the meaning of the Private Securities Litigation Reform Act of 1995) relating to Blink Couture, Inc. ("we," "us," "our" or the "Company") that are based on the beliefs of our management as well as assumptions made by, and information currently available to, our management. When used in this report, the words "believe," "anticipate," "expect," "estimate," "intend," "plan" and similar expressions, as they relate to us or our management, are intended to identify forward-looking statements. These statements reflect management's current view of us concerning future events and are subject to certain risks, uncertainties and assumptions, including among many others: a general economic downturn; a downturn in the securities markets; federal or state laws or regulations having an adverse effect on proposed transactions that we desire to effect; Securities and Exchange Commission ("SEC") regulations which affect trading in the securities of "penny stocks,"; and other risks and uncertainties. Although the Company believes its assumptions underlying the forward-looking statements are reasonable, any of the assumptions could prove inaccurate and, therefore, there can be no assurance the forward-looking statements included in this quarterly report will prove to be accurate. In light of the significant uncertainties inherent in the forward-looking statements included herein, the inclusion of such information should not be regarded as a representation by the Company or any other person that the objectives and plans of the Company will be achieved.

Description of the Business

The Company was incorporated in the State of Delaware on October 23, 2003, under the name Fashionfreakz International Inc. On December 2, 2005, the Company changed its name to Blink Couture, Inc. Until March 4, 2008, the Company's principal business was the online retail marketing of trendy clothing and accessories produced by independent designers. On March 4, 2008, the Company discontinued its prior business and changed its business plan. The Company's business plan now consists of exploring potential targets for a business combination through the purchase of assets, share purchase or exchange, merger or similar type of transaction.

The Company is currently considered to be a "blank check" company. The SEC defines those companies as "any development stage company that is issuing a penny stock, within the meaning of Section 3(a)(51) of the Securities Exchange Act of 1934, as amended (the "Exchange Act"), and that has no specific business plan or purpose, or has indicated that its business plan is to merge with an unidentified company or companies." Many states have enacted statutes, rules and regulations limiting the sale of securities of "blank check" companies in their respective jurisdictions. The Company is also a "shell company," defined in Rule 12b-2 under the Exchange Act as a company with no or nominal assets (other than cash) and no or nominal operations.

We will not be restricted in our search for business combination candidates to any particular geographical area, industry or industry segment, and may enter into a combination with a private business engaged in any line of business, including service, finance, mining, manufacturing, real estate, oil and gas, distribution, transportation, medical, communications, high technology, biotechnology or any other. Management's discretion is, as a practical matter, unlimited in the selection of a combination candidate. Management will seek combination candidates in the United States and other countries, as available time and resources permit, through existing associations and by word of mouth. This plan of operation has been adopted in order to attempt to create value for our stockholders.

On November 10, 2011, we entered into an Agreement and Plan of Merger (the “Merger Agreement”), pursuant to which we intend to acquire Latitude Global, Inc. (“Latitude Global”), a company which, through its subsidiaries, currently operates a combined restaurant and entertainment facility in Jacksonville, Florida. Please see Part II, Item 5 of this Report for additional information on the proposed merger.

Results of Operations

The Company has not conducted any active operations since March 4, 2008, except for its efforts to locate suitable acquisition candidates. No revenue has been generated by the Company from October 23, 2003 (Inception) to October 31, 2011. It is unlikely the Company will have any revenues unless it is able to effect an acquisition or merger with an operating company. On November 10, 2011, we entered into the Merger Agreement with Latitude Global. While it is our intent to close a merger transaction with Latitude Global, there can be no assurance that we will be able consummate this transaction or an acquisition of any other operating company. It is management's assertion that these circumstances may hinder the Company's ability to continue as a going concern. The Company's plan of operation for the next twelve months, if the merger with Latitude Global is not consummated, shall be to continue its efforts to locate suitable acquisition candidates.

Three Months ended October 31, 2011 Compared to Three Months ended October 31, 2010.

For the three months ended October 31, 2011, the Company had a net loss of \$19,627 compared to a net loss of \$19,501 for the three months ended October 31, 2010. This increase in net loss of \$126 (0.6%) between the comparable periods was primarily attributable to an increase in interest expense from \$2,352 for the three months ended October 31, 2010 to \$3,427 for the same quarter in 2011 (\$1,075), which was almost entirely offset by a reduction in general and administrative expenses from \$1,149 for the three months ended October 31, 2010 to \$200 for the three months ended October 31, 2011 (\$949). The increase in interest expense between the comparable periods reflects additional interest payable by the Company with respect to additional loans made by Regent Private Capital, LLC, the Company's principal stockholder ("Regent"), since December 29, 2009, to pay all expenses incurred by the Company.

Plan of Operation

The Company currently does not engage in any business activities that provide cash flow. During the next twelve months, in the event we do not consummate the merger with Latitude Global, we anticipate incurring costs related to:

- (i) filing Exchange Act reports, and
- (ii) investigating, analyzing and consummating an acquisition.

We believe we will be able to meet these costs through use of funds in our treasury, through deferral of fees by certain service providers and additional amounts, as necessary, to be loaned to or invested in us by our stockholders, management or other investors.

If the merger with Latitude Global is not consummated, the Company may consider acquiring another business which has recently commenced operations, is a developing company in need of additional funds for expansion into new products or markets, is seeking to develop a new product or service, or is an established business which may be experiencing financial or operating difficulties and is in need of additional capital. In the alternative, any such business combination may involve the acquisition of, or merger with, a company which does not need substantial additional capital but which desires to establish a public trading market for its shares while avoiding, among other things, the time delays, significant expense, and loss of voting control which may occur in a public offering.

Any target business that is selected may be a financially unstable company or an entity in its early stages of development or growth, including entities without established records of sales or earnings. In that event, we will be subject to numerous risks inherent in the business and operations of financially unstable and early stage or potential emerging growth companies. In addition, we may effect a business combination with an entity in an industry

characterized by a high level of risk, and, although our management will endeavor to evaluate the risks inherent in a particular target business, there can be no assurance that we will properly ascertain or assess all significant risks.

The Company anticipates that the selection of a business combination will be complex and extremely risky. Because of general economic conditions, rapid technological advances being made in some industries and shortages of available capital, our management believes that there are numerous firms seeking even the limited additional capital which we will have and/or the perceived benefits of becoming a publicly traded corporation. Such perceived benefits of becoming a publicly traded corporation include, among other things, facilitating or improving the terms on which additional equity financing may be obtained, providing liquidity for the principals of and investors in a business, creating a means for providing incentive stock options or similar benefits to key employees, and offering greater flexibility in structuring acquisitions, joint ventures and the like through the issuance of stock. Potentially available business combinations may occur in many different industries and at various stages of development, all of which will make the task of comparative investigation and analysis of such business opportunities extremely difficult and complex.

Liquidity and Capital Resources

We had no cash on hand at October 31, 2011 and had no other assets to meet ongoing expenses or debts that may accumulate. Since inception, we have accumulated a deficit of \$344,054. As of October 31, 2011 we had total liabilities of \$282,828.

We have no commitment for any capital expenditure and foresee none. However, we will incur certain transaction expenses, in connection with our proposed merger with Latitude Global, whether or not such merger is consummated, as well as routine fees and expenses incident to our reporting duties as a public company. If we do not consummate the merger with Latitude Global, we will continue to incur expenses in finding and investigating possible acquisitions and other fees and expenses in the event we make an acquisition or attempt but are unable to complete an acquisition. If we do not consummate the merger with Latitude Global, our cash requirements for the next twelve months are relatively modest, principally accounting expenses and other expenses relating to making filings required under the Exchange Act, which should not exceed \$50,000 in the fiscal year ending July 31, 2012. Any travel, lodging or other expenses which may arise related to finding, investigating and attempting to complete a combination with one or more potential acquisitions could also amount to thousands of dollars.

We will only be able to pay our future obligations and meet operating expenses by raising additional funds, acquiring a profitable company or otherwise generating positive cash flow. As a practical matter, we are unlikely to generate positive cash flow by any means other than acquiring a company with such cash flow. We believe that management members or stockholders will lend funds to us as needed for operations prior to completion of an acquisition. Management and the stockholders are not obligated to provide funds to us, however, and it is not certain they will always want or be financially able to do so. Our stockholders and management members who advance funds to us to cover operating expenses will expect to be reimbursed, either by us or by the company acquired, prior to or at the time of completing a combination. We have no intention of borrowing money to reimburse or pay salaries to any of our officers, directors or stockholders or their affiliates. There currently are no plans to sell additional securities to raise capital, although sales of securities may be necessary to obtain needed funds. Our current management has agreed to continue their services to us and to accrue sums owed them for services and expenses and expect payment reimbursement only.

Should existing management or stockholders refuse to advance needed funds, however, we would be forced to turn to outside parties to either lend funds to us or buy our securities. There is no assurance whatsoever that we will be able to raise necessary funds, when needed, from outside sources. Such a lack of funds could result in severe consequences to us, including among others:

- failure to make timely filings with the SEC as required by the Exchange Act, which may also result in suspension of trading or quotation of our stock and could result in

finances and penalties to us under the Exchange Act;

curtailing or eliminating our ability to locate and perform suitable investigations of potential acquisitions; or

inability to complete a desirable acquisition due to lack of funds to pay legal and accounting fees and acquisition-related expenses.

It is our intention to seek reimbursement from potential acquisition candidates for professional fees and travel, lodging and other due diligence expenses incurred by our management, in connection with our investigation, negotiation and consummation of a business combination with such acquisition candidates. There is no assurance that any potential candidate will agree to reimburse us for such costs.

Going Concern

Our independent auditors have added an explanatory paragraph to their audit issued in connection with the financial statements for the period ended July 31, 2011, relative to our ability to continue as a going concern. We had a working capital deficit of \$270,328 at October 31, 2011; we had an accumulated deficit of \$344,054 incurred through October 31, 2011; and recorded losses of \$19,627 for the three months ended October 31, 2011. The going concern opinion issued by our auditors means that there is substantial doubt that we can continue as an ongoing business for the twelve month period ending July 31, 2012 and thereafter. The financial statements do not include any adjustments that might result from the uncertainty about our ability to continue our business.

Off-Balance Sheet Arrangements

We do not have any off-balance sheet arrangements that have or are reasonably likely to have a current or future effect on our financial condition, changes in financial condition, revenues or expenses, results of operations, liquidity, capital expenditures or capital resources that is material to an investor in our securities.
