Notes to Condensed Consolidated Financial Statements

(in thousands, except per share amounts)

(Unaudited)

1. Description of the Business, Basis of Presentation and Summary of Significant Accounting Policies

Fox Factory Holding Corp. (the "Company") designs and manufactures high-performance suspension products primarily for mountain bikes, side-by-side vehicles, on-road and off-road vehicles and trucks, all-terrain vehicles, snowmobiles, specialty vehicles and applications, and motorcycles. The Company acts both as a tier one supplier to leading action sports original equipment manufacturers ("OEM") and provides aftermarket products to retailers and distributors ("AM").

Throughout this Form 10-Q, unless stated otherwise or as the context otherwise requires, the "Company," "FOX," "Fox Factory," "we," "us," "our," and "ours" refer to Fox Factory Holding Corp. and its wholly owned operating subsidiaries on a consolidated basis.

Basis of Presentation - The accompanying condensed consolidated financial statements are unaudited. These unaudited interim condensed consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America ("GAAP") and applicable rules and regulations of the Securities and Exchange Commission ("SEC") regarding interim financial reporting. Certain information and footnote disclosures normally included in the financial statements prepared in accordance with GAAP have been condensed or omitted pursuant to such rules and regulations. Accordingly, these interim condensed consolidated financial statements should be read in conjunction with the audited consolidated financial statements for the year ended December 31, 2013 included in the Company's Annual Report on Form 10-K as filed with the SEC. In management's opinion, the unaudited interim consolidated financial statements reflect all adjustments, which are of a normal and recurring nature, that are necessary for a fair presentation of financial results for the interim periods presented. Operating results for the three and six months ended June 30, 2014 are not necessarily indicative of the results that may be expected for the year ending December 31, 2014.

Initial Public Offering- On August 13, 2013, the Company completed the initial public offering ("IPO") of its common stock pursuant to a registration statement on Form S-1. In the IPO, the Company sold 2,857 shares of common stock and the selling stockholders sold a total of 7,000 shares of common stock (including the shares sold pursuant to the exercise of the option granted to the underwriters) at an initial public offering price to the public of \$15.00 per share. The Company received net proceeds from the IPO of approximately \$36,122 from its sale of 2,857 shares of common stock after deducting underwriting discounts, commissions and offering expenses. The Company did not receive any proceeds from the sale of shares by the selling stockholders. The Company used the net proceeds it received to pay down related party debt. In July 2014, certain selling stockholders completed a secondary offering of the Company's common stock, which is described more fully in Note 8 - Stockholders' Equity.

Principles of Consolidation- These condensed consolidated financial statements include the accounts of the Company and its wholly owned subsidiaries. The Company's subsidiaries include: Fox Factory, Inc, ST USA Holding Corp. and Fox Factory GmbH. All intercompany accounts and transactions have been eliminated in consolidation.

Summary of Significant Accounting Policies- There have been no changes to our significant accounting policies described in our Annual Report on Form 10-K for the fiscal year ended December 31, 2013 that have had a material impact on our condensed consolidated financial statements and related notes.

Use of Estimates- The preparation of the Company's condensed consolidated financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of income and expenses during the reporting period. These estimates are based on information available as of the date of the financial statements; therefore, actual results could differ from management's estimates.

In the second quarter of 2014, the Company concluded an analysis of legal developments and business practices relative to the apportionment of income for state tax purposes that resulted in a change in estimate regarding income taxes. See Note 10 - Income Taxes.

Table of Contents

FOX FACTORY HOLDING CORP.

Notes to Condensed Consolidated Financial Statements - continued

(in thousands, except per share amounts)

(unaudited)

Certain Significant Risks and Uncertainties- The Company is subject to those risks common in manufacture-driven markets, including, but not limited to, competitive forces, dependence on key personnel, customer demand for its products, the successful protection of its proprietary technologies, compliance with government regulations, and the possibility of not being able to obtain additional financing when needed.

Recent Accounting Pronouncements- In May 2014, the Financial Accounting Standards Board ("FASB") and International Accounting Standards Board issued their converged standard on revenue recognition, Accounting Standards Update No. 2014-09, "Revenue from Contracts with Customers". This standard outlines a single comprehensive model for companies to use in accounting for revenue arising from contracts with customers and supersedes most current revenue recognition guidance, including industry-specific guidance. The core principle of the revenue model is that revenue is recognized when a customer obtains control of a good or service. A customer obtains control when it has the ability to direct the use of and obtain the benefits from the good or service. Transfer of control is not the same as transfer of risks and rewards, as it is considered in current guidance. We will also need to apply new guidance to determine whether revenue should be recognized over time or at a point in time. This standard will be effective for the first interim period within annual reporting periods beginning after December 15, 2016, with no early adoption permitted, and the Company can choose to apply this standard retrospectively for each prior reporting period presented or retrospectively with the cumulative effect of initially applying the standard recognized at the date of the initial application in retained earnings.

Reclassifications- We have reclassified certain prior period amounts within our condensed consolidated statement of cash flows for the six months ended June 30, 2013 to conform to our current year presentation.

2. Inventory

Inventory consisted of the following:

	As of June 30, 2014	As of December 31, 2013
Raw materials	\$44,611	\$30,299
Work-in-process	2,303	1,155

Fair value of warranty assumed in acquisition	—	—	192	—
Costs incurred	(876) (974) (1,886) (2,274
Ending warranty liability	\$3,880	\$3,995	\$3,880	\$3,995

6. Debt

2013 Credit Facility Amended and Restated

In August 2013, the Company entered into a credit facility with Sun Trust Bank and other named lenders (the "2013 Credit Facility"). The 2013 Credit Facility provided a revolving line of credit. On March 31, 2014, in connection with its asset purchase of Sport Truck, the Company amended and restated the 2013 Credit Facility (the "Amended and Restated 2013 Credit Facility"). The Amended and Restated 2013 Credit Facility provides a maturing secured term loan in the principal amount of \$50,000, subject to quarterly principal payments, and extends the term of the 2013 Credit Facility through March 31, 2019. The proceeds of the term loan were used, in part, to fund the acquisition of Sport Truck and to pay down the revolving line of credit provided under the 2013 Credit Facility of \$5,000.

The Amended and Restated 2013 Credit Facility provides for interest at either a rate based on the London Interbank Offered Rate, or LIBOR, plus a margin ranging from 1.50% to 2.50%, or based on the prime rate offered by SunTrust Bank plus a margin ranging from 0.50% to 1.50%. At June 30, 2014 the one month LIBOR and prime rates were 0.015% and 3.25%, respectively. The Amended and Restated 2013 Credit Facility is secured by substantially all of the Company's assets, restricts the Company's ability to make certain payments and engage in certain transactions, and also requires that the Company satisfy customary financial ratios. The Company was in compliance with the covenants as of June 30, 2014.

The following table summarizes the line of credit under the Amended and Restated 2013 Credit Facility:

	As of June 30, 2014
Amount outstanding	\$—
Available borrowing capacity	\$60,000
Maximum borrowing capacity	\$60,000

Table of Contents

FOX FACTORY HOLDING CORP.

Notes to Condensed Consolidated Financial Statements - continued

(in thousands, except per share amounts)

(unaudited)

As of June 30, 2014, future principal payments for long-term debt, including the current portion, are summarized as follows:

Fiscal Year	
2014 (remaining six months)	\$1,250
2015	2,500
2016	3,438
2017	3,750
2018	4,687
Thereafter	29,750
Total	45,375
Less: current portion	2,500
Long-term debt less current portion	\$42,875

7. Commitments and Contingencies

Operating Leases—The Company has operating lease agreements for office, research and development, manufacturing and sales and marketing space that expire at various dates. The Company recognizes rent expense on a straight-line basis over the lease term and records the difference between cash rent payments and the recognition of rent expense as a deferred rent liability.

Indemnification Agreements—In the ordinary course of business, the Company may provide indemnifications of varying scope and terms to customers, vendors, lessors, business partners, and other parties with respect to certain matters, including, but not limited to, losses arising out of breach of such agreements, services to be provided by the Company or from intellectual property infringement claims made by third parties. In addition, the Company has entered into indemnification agreements with directors and certain officers and employees that will require the Company, among other things, to indemnify them against certain liabilities that may arise by reason of their status or service as directors, officers or employees. While the outcome of these matters cannot be predicted with certainty, the Company does not believe that the outcome of any claims under indemnification arrangements will have a material effect on the Company's results of operations, financial position or liquidity.

Other Commitments—In connection with our acquisition of Sport Truck, we have agreed to pay up to \$29,295 in additional consideration through 2017, contingent upon the achievement of certain financial performance goals through 2016. See [Note 13 - Acquisition](#). No other material contractual obligation has changed since the Company's Annual Report on Form 10-K for the year ended December 31, 2013, as filed with the SEC on March 11, 2014.

8. Stockholders' Equity

Secondary Offering

In July 2014, selling stockholders, including Compass Group Diversified Holdings LLC, sold 5,750 shares of our common stock at a price of \$15.50 per share, less underwriting discounts and commissions, in a secondary public offering. The total shares sold include 750 shares, which were also sold by certain selling stockholders, in connection with the underwriters' option to purchase additional shares. The Company did not sell or receive any proceeds from the sales of shares by the selling stockholders. The Company incurred approximately \$400 of expenses in connection with the offering during the three and six months ended June 30, 2014.

Equity Incentive Plans

During the six months ended June 30, 2014, 421 shares of common stock were issued due to the exercise of stock options, resulting in net proceeds to the Company of approximately \$1,750. There were no stock options granted during the six months ended June 30, 2014. There were 19 stock options forfeited during the six months ended

June 30, 2014 .

Vested	(5) 17.53
Unvested at June 30, 2014	903	\$ 17.34

The fair value of the RSUs granted is determined using the fair value of the Company's common stock on the date of grant. Stock-based compensation expense is amortized on a straight-line basis over the requisite service period. As of June 30, 2014, the Company had approximately \$13,374 of unrecognized stock-based compensation expense related to RSUs, which will be recognized over the remaining weighted-average vesting period of approximately 3.42 years. Additionally, as of June 30, 2014, the Company had approximately \$947 of unrecognized stock-based compensation expense related to stock options, which will be recognized over the remaining weighted-average vesting period of approximately 2.73 years.

9. Fair Value Measurements

The FASB's Accounting Standards Codification 820, "Fair Value Measurements and Disclosures" requires the valuation of assets and liabilities required or permitted to be either recorded or disclosed at fair value based on hierarchy of available inputs as follows:

Level 1: Unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities;

Level 2: Quoted prices for similar assets and liabilities in active markets, quoted prices for identical assets and liabilities in markets that are not active, or inputs which are observable, either directly or indirectly, for substantially the full term of the asset or liability; and

Level 3: Prices or valuation techniques that require inputs that are both significant to the fair value measurement and unobservable (i.e. supported by little or no market activity).

As of June 30, 2014, the carrying amount of the principal under the Company's Amended and Restated 2013 Credit Facility approximates fair value because it has a variable interest rate that reflects market changes in interest rates and changes in the Company's net leverage ratio. As of June 30, 2014, the Company used Level 2 inputs to determine the fair value of its Amended and Restated 2013 Credit Facility.

The Company measured its contingent consideration liability of \$19,035 arising from the acquisition of Sport Truck using Level 3 unobservable inputs (see Note 13 - Acquisition). The fair value of the contingent consideration liability associated with the achievement of adjusted EBITDA targets was estimated by applying a Black-Scholes model to the Company's financial projection. The unobservable inputs to the valuation model that have the most significant effect on the estimated fair value of the Company's contingent consideration liability are the probabilities that actual results will exceed the projection and the volatility surrounding the expected results. The Company estimated these inputs at 75% and 41%, respectively. There were no adjustments to the fair value of contingent consideration in the three months ended June 30, 2014, as the Company finalized its valuation in July 2014. The fair value of the contingent consideration will be measured at each period end. Future changes in the fair value of contingent consideration resulting from changes in estimates or actual payments will be recorded in the statement of operations.

10. Income Taxes

	For the three months ended June 30,		For the six months ended June 30,		
	2014	2013	2014	2013	
(Benefit) provision for income taxes	\$(41)	\$3,373	\$1,687	\$4,962	
Effective tax rates	(0.4)%	37.1	% 10.4	% 34.9	%

For the three and six months ended June 30, 2014, the difference between the Company's effective tax rate and the 35% federal statutory rate resulted primarily from a second quarter discrete tax benefit of \$3,848, or \$0.10 per basic and fully diluted share for the three months ended June 30, 2014 and \$0.11 and \$0.10 per basic and fully diluted share, respectively, for the six months ended June 30, 2014, related to the reapportionment of income amongst the jurisdictions where the Company does business. The Company periodically evaluates opportunities to enhance tax efficiencies and to minimize tax liabilities through operating, legal and administrative strategies. The reapportionment benefit relates to tax years 2009 through 2013 and resulted from the Company's examination of evolving laws, existing court cases, and its business practices. The tax benefit includes the impact of a reduction in the rate used to measure the Company's net deferred tax liability and unrecognized tax benefit. The benefit has been accounted for as a change in estimate. The Company anticipates filing amended state tax returns in the affected jurisdictions.

Additionally, the Company recorded a benefit for the domestic production activity deduction. In the three and six months ended June 30, 2014, these income tax benefits were partially offset by 2014 state taxes.

For the three and six months ended June 30, 2013, the difference between the Company's effective tax rate and the 35% federal statutory rate resulted from state taxes, partially offset by a benefit for the domestic production activity deduction and research and development tax credits. On January 3, 2013, the American Taxpayer Relief Act of 2012 was signed into law reinstating the federal research and development credit for the 2012 and 2013 years. Accordingly, the benefit related to the 2012 federal research and development credit of approximately \$440 was recorded in the first quarter of 2013 as a discrete item. The benefit related to 2013 research activities was included in the full year effective tax rate. There was no federal research and development credit for the three and six months ended June 30, 2014.

The following table summarizes the activity related to the Company's unrecognized tax benefits (in thousands):

Beginning balance as of December 31, 2013	\$7,796
Increases related to current year tax positions	269
Decrease due to change in estimated state tax rate	(381)
Ending balance as of June 30, 2014	\$7,684

As of June 30, 2014, the Company had \$7,684 of unrecognized tax benefits, of which approximately \$6,000, if recognized, would favorably impact the effective tax rate. The Company regularly engages in discussions and negotiations with tax authorities regarding tax matters in various jurisdictions. The Company believes it is reasonably possible that certain federal, foreign, and state tax matters may be concluded in the next 12 months. Specific positions that may be resolved include issues involving the deductibility of amortization and depreciation deductions which were incurred as a result of the acquisition of the Company in 2008. The Company estimates that it is reasonably possible that the unrecognized tax benefits at June 30, 2014 could be reduced by approximately \$1,700 in the remaining six months of 2014.

11. Earnings Per Share

Basic earnings per share ("EPS") amounts are computed by dividing net income for the period by the weighted average number of common shares outstanding during the period. Diluted EPS amounts are computed by dividing net income for the period by the weighted average number of shares of common stock and potentially dilutive common stock outstanding during the period. Potentially dilutive common shares include shares issuable upon the exercise of outstanding stock options and restricted stock units, which are reflected in diluted earnings per share by application of the treasury stock method.

Table of Contents

FOX FACTORY HOLDING CORP.

Notes to Condensed Consolidated Financial Statements - continued

(in thousands, except per share amounts)

(unaudited)

The following table presents the calculation of basic and diluted earnings per share:

	For the three months ended June 30,		For the six months ended June 30,	
	2014	2013	2014	2013
Net income	\$11,581	\$5,721	\$14,522	\$9,271
Weighted average shares used to compute basic earnings per share	36,648	33,460	36,534	33,460
Dilutive effect of employee stock plans	1,164	1,207	1,200	1,210
Weighted average shares used to compute diluted earnings per share	37,812	34,667	37,734	34,670
Earnings per share:				
Basic	\$0.32	\$0.17	\$0.40	\$0.28
Diluted	\$0.31	\$0.17	\$0.38	\$0.27

The Company did not exclude any potentially dilutive shares from the calculation of diluted earnings per share for the three and six months ended June 30, 2014 and 2013, as none of these shares would have been antidilutive.

12. Segments

The Company has determined that it has a single operating and reportable segment. The Company considers operating segments to be components of the Company in which separate financial information is available that is evaluated regularly by the Company's chief operating decision maker in deciding how to allocate resources and in assessing performance. The chief operating decision maker for the Company is the Chief Executive Officer. The Chief Executive Officer reviews financial information presented on a consolidated basis for purposes of allocating resources and evaluating financial performance. The following table summarizes total sales generated by geographic location of the customer:

	For the three months ended June 30,		For the six months ended June 30,	
	2014	2013	2014	2013
United States	\$39,143	\$26,448	\$63,176	\$45,353
International	47,231	43,868	79,306	79,841
Total sales	\$86,374	\$70,316	\$142,482	\$125,194

The Company's long-lived assets by geographic location are as follows:

	As of June 30, 2014	As of December 31, 2013
United States	\$17,208	\$12,259
International	1,438	1,159
Total long-lived assets	\$18,646	\$13,418

(unaudited)

13. Acquisition

Sport Truck, USA, Inc.

On March 31, 2014, the Company acquired certain assets and assumed certain liabilities of Sport Truck USA, Inc. ("Sport Truck"). The transaction was accounted for as a business combination. In connection with the acquisition, the Company paid cash of \$40,770, after certain working capital adjustments, in accordance with the asset purchase agreement. Certain members of Sport Truck's executive management team have agreed to refund up to \$1,432 of the proceeds from the sale, on a graduated basis, if they terminate employment prior to March 31, 2017. As a result, such payments have been excluded from the acquisition consideration, and will be recognized as compensation expense over the expected three year service period. As of June 30, 2014, prepaid compensation of \$487 and \$824 is included in prepaids and other current assets and other assets, respectively, in the accompanying condensed consolidated balance sheet.

Prior to the acquisition, Sport Truck was a distributor of the Company's products. The total consideration was increased by the effective settlement of trade receivables in the amount of \$473, which represented the recorded amount and as a result, no gain or loss was recorded upon settlement.

The Company agreed to contingent consideration of up to \$29,295 upon achievement of adjusted earnings before interest, taxes, depreciation and amortization ("EBITDA") targets of the acquired business through 2016, subject to adjustments defined in the asset purchase agreement. Performance compared to the targets is measured annually over a three year period, and payment of the contingent consideration will be made upon final determination of the adjusted EBITDA for each year. The estimated fair value of the contingent consideration was \$19,035, based on a Black-Scholes model. See [Note 9 - Fair Value Measurements](#).

The purchase price of Sport Truck is allocated to the assets acquired and liabilities assumed based on their estimated respective fair values as of March 31, 2014 with the excess purchase price allocated to goodwill. The Company's allocation of the purchase price to the net tangible and intangible assets acquired and liabilities assumed is as follows:

Acquisition consideration	
Cash consideration	\$40,770
Settlement of pre-existing accounts	473
Contingent consideration	19,035
Total consideration at closing	\$60,278

Fair Market Values

Other current and non-current assets	\$10,534
Property, plant and equipment	4,488
Customer relationships	19,000
Trademarks and brands	16,270
Goodwill	11,962
Total assets acquired	62,254

Accounts payable and accrued expenses	1,976
Total liabilities assumed	1,976
Purchase price allocation	\$60,278

The values assigned to the identifiable intangible assets were determined by discounting the estimated future cash flows associated with these assets to their present value. The goodwill of \$11,962 reflects the strategic fit of Sport Truck with the Company's operations. Sport Truck is well-aligned with the Company's mission of improving vehicle performance, delivering best in-class service, and entering into strategic and adjacent markets. The Company will amortize the acquired customer relationships asset over its expected useful life of 15 years. Trademarks, brand names

and goodwill are expected to

14

Table of Contents

FOX FACTORY HOLDING CORP.

Notes to Condensed Consolidated Financial Statements - continued

(in thousands, except per share amounts)

(unaudited)

have an indefinite life, and will be subject to impairment testing. The goodwill is expected to be deductible for income tax purposes.

The Company incurred \$222 and \$1,247 of transaction costs in conjunction with the Sport Truck acquisition for the three and six months ended June 30, 2014, respectively, which is included in general and administrative expense in the accompanying condensed consolidated statements of income. Additional costs of \$278 were incurred in association with financing the transaction and are included in loan fees. See the Note 6 - Debt.

The following unaudited pro forma financial information shows the combined results of operations of the Company and Sport Truck, as if the acquisition had occurred as of the beginning of the periods presented. The pro forma results include the effects of the elimination of intercompany sales and profits, the amortization of purchased intangible assets and acquired inventory valuation step-up, interest expense on the term debt secured to finance the acquisition, and the net tax benefit of the above adjustments calculated at the statutory federal tax rate of 35%. Sport Truck was operated as a S Corporation for federal taxation purposes. A pro forma adjustment has been made to reflect the income taxes that would have been recorded at the federal statutory rate based on Sport Truck's net income. This pro forma data is presented for informational purposes only and does not purport to be indicative of the results of future operations or of the results that would have occurred had the acquisition taken place in the periods noted below.

	For the six months ended June 30,	
	2014	2013
Pro forma sales	\$ 151,929	\$ 142,159
Pro forma net income	\$ 15,287	\$ 9,654
Pro forma basic earnings per share	\$ 0.42	\$ 0.29
Pro forma diluted earnings per share	\$ 0.40	\$ 0.28
Total Sport Truck sales included in the condensed consolidated statements of income	\$ 12,446	
Sport Truck net income included in the condensed consolidated statements of income	\$ 1,448

ITEM 2. Management’s Discussion and Analysis of Financial Condition and Results of Operations

The following discussion and analysis of our financial condition and results of operations should be read in conjunction with our unaudited condensed consolidated financial statements and related notes thereto included elsewhere in this Quarterly Report on Form 10-Q and with our audited consolidated financial statements and related notes included in our Annual Report on Form 10-K for the year ended December 31, 2013, as filed with the Securities and Exchange Commission (“SEC”) on March 11, 2014 and our Quarterly Report on Form 10-Q for the quarter ended March 31, 2014 as filed with the SEC on May 7, 2014. In addition to historical condensed consolidated financial information, the following discussion contains forward-looking statements that reflect our plans, estimates, and beliefs. Our actual results could differ materially from those discussed below. Factors that could cause or contribute to these differences include those discussed below and elsewhere in this Quarterly Report on Form 10-Q, particularly in the “Risk Factors” section included in Part II, Item 1A.

Unless the context otherwise requires, the terms “FOX,” the “Company,” “we,” “us,” and “our” in this Quarterly Report on Form 10-Q refer to Fox Factory Holding Corp. and its wholly owned operating subsidiaries, on a consolidated basis.

Cautionary Note Regarding Forward-Looking Statements

This quarterly report includes forward-looking statements, which are subject to the “safe harbor” created by section 27A of the Securities Act of 1933, as amended, and section 21E of the Securities Exchange Act of 1934, as amended. We may make forward-looking statements in our SEC filings, press releases, news articles, earnings presentations and when we are speaking on behalf of the Company. Forward-looking statements generally relate to future events or our future financial or operating performance which involve substantial risks and uncertainties. In some cases, you can identify forward-looking statements because they contain words such as “may,” “might,” “will,” “would,” “should,” “expect,” “anticipate,” “could,” “intend,” “target,” “project,” “contemplate,” “believe,” “estimate,” “predict,” “likely,” “potential” or “could be” or the negative of these words or other similar terms or expressions that concern our expectations, strategy, plans or intentions. Forward-looking statements contained in this Quarterly Report on Form 10-Q are subject to numerous risks and uncertainties, including but not limited to risks related to:

- our ability to develop new and innovative products in our current end-markets;
- our ability to leverage our technologies and brand to expand into new categories and end-markets;
- our ability to increase our aftermarket penetration;
- our ability to accelerate international growth;
- our ability to improve operating and supply chain efficiencies;
- our future financial performance, including our sales, cost of sales, gross profit or gross margins, operating expenses, ability to generate positive cash flow and ability to maintain our profitability;
- our ability to maintain our premium brand image and high-performance products;
- our ability to maintain relationships with the professional athletes and race teams we sponsor;
- our transition of the majority of our mountain bike manufacturing operations to Taiwan and our expectations related to such transition;
- our ability to selectively add additional dealers and distributors in certain geographic markets;
- the growth of the markets in which we compete, our expectations regarding consumer preferences and our ability to respond to changes in consumer preferences;
- changes in demand for high-end suspension and ride dynamics products;
- our ability to successfully identify, evaluate and manage potential acquisitions and to benefit from such acquisitions; and
- future economic or market conditions.

You should not rely upon forward-looking statements as predictions of future events. We have based the forward-looking statements contained in this Quarterly Report on Form 10-Q primarily on our current expectations and projections about future events and trends that we believe may affect our business, financial condition, results of operations, and prospects and the outcomes of any of the events described in any forward-looking statements are subject to risks, uncertainties, and other factors. In addition to the risks, uncertainties and other factors discussed above and elsewhere in this Quarterly Report on Form 10-Q, the risks, uncertainties and other factors expressed or

implied discussed in Item 1A, "Risk Factors" of Part I of our 2013 Annual

16

Table of Contents

Report on Form 10-K filed with the SEC on March 11, 2014 could cause or contribute to actual results differing materially from those set forth in any forward-looking statement. Moreover, we operate in a very competitive and challenging environment. New risks and uncertainties emerge from time to time, and it is not possible for us to predict all risks and uncertainties that could have an impact on the forward-looking statements contained in this Quarterly Report on Form 10-Q. We cannot assure you that the results, events, and circumstances reflected in the forward-looking statements will be achieved or occur. Actual results, events, or circumstances could differ materially from those contemplated by, set forth in, or underlying any forward-looking statements. For all of these forward-looking statements we claim the protection of the safe harbor for forward-looking statements in Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. The forward-looking statements made in this Quarterly Report on Form 10-Q relate only to events as of the date on which the statements are made. We undertake no obligation to update any forward-looking statements made in this Quarterly Report on Form 10-Q to reflect events or circumstances after the date of this Quarterly Report on Form 10-Q or to reflect new information or the occurrence of unanticipated events, except as required by law. We may not actually achieve the plans, intentions, or expectations disclosed in our forward-looking statements and you should not place undue reliance on our forward-looking statements. Our forward-looking statements do not reflect the potential impact of any future acquisitions, mergers, dispositions, joint ventures or investments we may make.

Recent Developments

Secondary Offering

In July 2014, certain selling stockholders, including Compass Group Diversified Holdings LLC ("Compass"), sold 5.75 million shares of our common stock at a price of 15.50 per share, less underwriting discounts and commissions, in a secondary public offering. The total shares sold include 0.75 million shares, which were also sold by certain selling stockholders, in connection with the underwriters' option to purchase additional shares. The Company did not sell or receive any proceeds from the sales of shares by the selling stockholders. The Company incurred approximately \$0.4 million of expenses in connection with the offering during the three and six months ended June 30, 2014.

Asset Acquisition of Sport Truck, USA, Inc.

On March 31, 2014, through our wholly owned subsidiary, ST USA Holding Corp. ("ST USA"), we acquired certain assets and assumed certain liabilities of Sport Truck USA, Inc. ("Sport Truck"), a full service, globally recognized distributor of aftermarket suspension solutions, some of which have historically incorporated our products. Sport Truck designs, markets, and distributes high quality lift kit solutions primarily through its brands, BDS Suspension and Zone Offroad Products.

In connection with the acquisition, we paid cash of approximately \$40.8 million. The acquisition was financed with debt and includes a potential earn-out opportunity of up to a maximum of \$29.3 million payable over the next three years contingent upon the achievement of certain performance-based financial targets. See Item 1A, "Risk Factors" of Part I of our 2013 Annual Report on Form 10-K filed with the SEC on March 11, 2014 for a discussion of risks related to acquisitions.

2013 Credit Facility Amended and Restated

In August 2013, we entered into a credit facility with Sun Trust Bank and other named lenders (the "2013 Credit Facility"). The 2013 Credit Facility provided a revolving line of credit. On March 31, 2014, in connection with our asset purchase of Sport Truck, we amended and restated the 2013 Credit Facility (the "Amended and Restated 2013 Credit Facility"). The Amended and Restated 2013 Credit Facility provided a maturing secured term loan in the principal amount of \$50.0 million, subject to quarterly amortization payments, and extended the term of the 2013 Credit Facility through March 31, 2019. The proceeds of the term loan were used, in part, to fund the acquisition of Sport Truck and to pay down the revolving line of credit provided under the facility.

Table of Contents

Critical Accounting Policies and Estimates

There have been no material changes to our critical accounting policies and estimates as compared to the critical accounting policies and estimates described in our Annual Report on Form 10-K for the year ended December 31, 2013, as filed with the SEC on March 11, 2014, other than below.

Critical Accounting Policies

Fair Value of Financial Instruments - Financial Accounting Standards Board Accounting Standards Codification ("ASC") 820, "Fair Value Measurements and Disclosures" requires the valuation of assets and liabilities required or permitted to be either recorded or disclosed at fair value based on hierarchy of available inputs as follows:

Level 1: Unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities;

Level 2: Quoted prices for similar assets and liabilities in active markets, quoted prices for identical assets and liabilities in markets that are not active, or inputs which are observable, either directly or indirectly, for substantially the full term of the asset or liability;

Level 3: Prices or valuation techniques that require inputs that are both significant to the fair value measurement and unobservable (i.e. supported by little or no market activity).

We apply fair value accounting for all financial assets and liabilities and non-financial assets and liabilities that are recognized or disclosed at fair value in the financial statements on a recurring basis. We define fair value as the price that would be received from selling an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. When determining the fair value measurements for assets and liabilities, which are required to be recorded at fair value, we consider the principal or most advantageous market in which we would transact and the market-based risk measurements or assumptions that market participants would use in pricing the asset or liability, such as risks inherent in valuation techniques, transfer restrictions and credit risk.

As of June 30, 2014, we used Level 2 inputs to determine the fair value of our Amended and Restated 2013 Credit Facility because it has a variable interest rate that reflects market changes in interest rates and changes in the Company's net leverage ratio. We measured our contingent consideration liability of \$19.0 million arising from our acquisition of Sport Truck using Level 3 unobservable inputs. The preliminary fair value of the contingent consideration liability associated with the achievement of adjusted EBITDA targets was estimated by applying a Black-Scholes model to our financial projection. The unobservable inputs to the valuation model that have the most significant effect on the estimated fair value of our contingent consideration liability are the probabilities that actual results will exceed the projection and the volatility surrounding the expected results. We estimated these inputs at 75% and 41%, respectively. Changes in the estimated fair value of the contingent consideration to reflect changing circumstances, including the calculation of actual adjusted EBITDA in each of the three annual measurement periods and the periodic revision of estimated results in future periods, could materially increase or decrease net income in the period of change.

Changes in Estimates

In the second quarter of 2014, we concluded an analysis of legal developments and business practices relative to the apportionment of income for state tax purposes that resulted in a change in estimate regarding income taxes. As a result, we recorded a discrete tax benefit in the three and six months ended June 30, 2014 of \$3.8 million, or \$0.10 per basic and fully diluted share for the three months ended June 30, 2014 and \$0.11 and \$0.10 per basic and fully diluted share, respectively, for the six months ended June 30, 2014, related to the reapportionment of 2009 to 2013 income amongst the jurisdictions where the Company does business.

Recent Accounting Pronouncements

See Note 1 to the accompanying notes to unaudited condensed consolidated financial statements included in this Quarterly Report on Form 10-Q.

Table of Contents

Seasonality

Our business is seasonal. In each of the last three fiscal years, our quarterly sales have been the lowest in the first quarter and the highest during our third quarter of the year. We believe this seasonality is due to the delivery of new products, including our suspension products related to the new mountain bike season, during the late spring and summer each year.

Results of Operations

The table below summarizes our results of operations.

(in thousands)	For the three months ended June 30,		For the six months ended June 30,

Three months ended June 30, 2014 compared to three months ended June 30, 2013

Sales

Sales for the three months ended June 30, 2014 increased approximately \$16.1 million, or 22.8%, compared to the same period in 2013. The sales increase reflects 52.6% growth in powered vehicle products and 7.4% growth in mountain bike products for the three months ended June 30, 2014 compared to the same prior year period.

Sales growth was primarily driven by an increase of \$12.8 million in sales to aftermarket customers in the three months ended June 30, 2014 compared to the same period in 2013. The increase in sales to aftermarket customers was primarily due to the acquisition of Sport Truck, along with higher end user demand for our FOX branded products. Sport Truck contributed \$12.4 million to our sales in the three months ended June 30, 2014. A portion of Sport Truck's sales consist of the value of FOX products sold through Sport Truck. Sales to our OEMs increased approximately \$3.3 million to \$57.8 million during the three months ended June 30, 2014 compared to \$54.5 million for the same period in 2013.

Cost of sales

Cost of sales for the three months ended June 30, 2014 increased approximately \$9.5 million, or 19.0%, compared to the same period in 2013. The increase in cost of sales was driven primarily by an increase in product sales, partially offset by cost reductions resulting from initiatives which are targeted at improving factory and supply chain efficiencies, as well as continued execution of our overall product design for manufacturability program.

For the three months ended June 30, 2014 our gross margin was 31.2% compared to 29.0% for the same period in 2013. The 2.2% improvement in our gross profit margin was primarily due to the continued execution of these operational efficiency initiatives.

Table of Contents

Operating expenses

Total operating expenses for the three months ended June 30, 2014 increased approximately \$5.0 million, or 48.9%, over the same period in 2013. Approximately \$1.9 million of the increase in operating expenses was due to the inclusion of Sport Truck's operating expenses in our consolidated results for the three months ended June 30, 2014. Approximately \$0.8 million of the increase was due to the expenses related to significant corporate transactions. Additionally, \$0.7 million of the increase in operating expense was due to additional stock compensation incurred in the three months ended June 30, 2014 when compared to the prior year period. The additional stock compensation expense is a result of equity awards with a four year vesting and expense recognition period. The balance of the growth in operating expenses was due to additional costs incurred to operate as a public company and normal growth in the business as we make additional investments in infrastructure, brand and technology.

When expressed as a percentage of sales, operating expenses increased to 17.6% of sales for the three months ended June 30, 2014 compared to 14.5% of sales in the same period in 2013.

Within operating expenses, our sales and marketing expenses increased in the three months ended June 30, 2014 by approximately \$1.6 million to \$5.1 million from \$3.5 million in the same period in 2013. The increase was due to additional personnel, promotional activities and outside services as we continue to invest in promoting our company and brand, and was also due to the inclusion of \$0.8 million of Sport Truck's sales and marketing expenses in our results.

Our research and development expenses increased in the three months ended June 30, 2014 by approximately \$1.0 million to \$3.6 million from \$2.6 million in the same period in 2013. Approximately \$0.3 million of the increase was due to additional personnel, with the balance due to additional product development related expenses as we continue to invest in new and innovative technologies.

Our general and administrative expenses increased in the three months ended June 30, 2014 by approximately \$2.0 million to \$4.8 million from \$2.8 million in the same period in 2013. Approximately \$0.8 million of the increase was due to the expenses related to significant corporate transactions, including the recently completed secondary offering of our common stock by certain selling stockholders including Compass, the Sport Truck acquisition, and costs incurred to claim a \$3.8 million tax benefit related to the reapportionment of income. Stock compensation expense attributable to general and administrative personnel increased by approximately \$0.6 million when compared to the same period in 2013. Additionally, as a result of our August 2013 IPO, we incurred approximately \$0.5 million of incremental costs in the quarter associated with operating as a public company. The remaining balance of the increase was due to the inclusion of approximately \$0.7 million of Sport Truck's general and administrative expenses in our results, partially offset by the non-recurrence of certain expenses incurred in the three months ended June 30, 2013. Amortization of purchased intangible assets in the three months ended June 30, 2014 increased by approximately \$0.3 million, primarily as a result of the acquisition of Sport Truck.

Income from operations

Income from operations for the three months ended June 30, 2014 increased approximately \$1.6 million, or 15.7%, compared to income from operations in the same period in 2013.

Other expense, net

Other expense, net for the three months ended June 30, 2014 decreased by approximately \$0.9 million to \$0.2 million in the three months ended June 30, 2014 compared to \$1.1 million in the same period in 2013 due to decreased interest expense. Within other expense, net, interest expense decreased in the three months ended June 30, 2014 by \$0.7 million due to a decrease in average borrowings and a more favorable borrowing rate under our 2013 Credit Facility. Other income, net for the three months ended June 30, 2014 was consistent with the insignificant amounts of other expense, net for the same period in 2013.

Income taxes

In the three months ended June 30, 2014, we recorded an income tax benefit of \$0.04 million, compared with expense of \$3.4 million for the three months ended June 30, 2013, resulting in a decrease in tax expense of approximately \$3.4 million. The decrease resulted primarily from a discrete tax benefit of \$3.8 million related to the reapportionment of income amongst the jurisdictions where we do business. We periodically evaluate opportunities to enhance our tax efficiency and minimize our tax

Table of Contents

liabilities through operating, legal and administrative strategies. The reapportionment benefit relates to tax years 2009 through 2013 and resulted from our examination of evolving laws, existing court cases and our business practices. The effective tax rates were (0.4)% and 37.1% for the three months ended June 30, 2014 and 2013, respectively. For the three months ended June 30, 2014, the difference between our effective tax rate and the 35% federal statutory rate resulted primarily from the \$3.8 million reapportionment benefit. Additionally, our effective tax rate was benefited as a result of the domestic production activity deduction. These income tax benefits were partially offset by 2014 state taxes.

For the three months ended June 30, 2013, the difference between our effective tax rate and the 35% federal statutory rate resulted from state taxes, partially offset by a benefit for the domestic production activity deduction and research and development tax credits.

Net income

As a result of the factors described above, our net income increased \$5.9 million, or 102.4%, to \$11.6 million in the three months ended June 30, 2014 from \$5.7 million for the same period in 2013.

Six months ended June 30, 2014 compared to six months ended June 30, 2013

Sales

Sales for the six months ended June 30, 2014 increased approximately \$17.3 million, or 13.8%, compared to the same period in 2013. The sales increase reflects 35.2% growth in powered vehicle products and a 2.3% growth in mountain bike products for the six months ended June 30, 2014 compared to the same prior year period.

Our aftermarket sales increased approximately \$14.9 million in the six months ended June 30, 2014 compared to the same period in 2013. The increase in sales to aftermarket customers was primarily due to the acquisition of Sport Truck, along with higher end user demand for our FOX branded products. Sport Truck contributed \$12.4 million to our sales in the six months ended June 30, 2014. A portion of Sport Truck's sales consist of the value of FOX products sold through Sport Truck. Sales to our OEMs increased approximately \$2.4 million to \$100.6 million during the six months ended June 30, 2014 compared to \$98.2 million for the same period in 2013.

Cost of sales

Cost of sales for the six months ended June 30, 2014 increased approximately \$9.4 million, or 10.5%, compared to the same period in 2013. The increase in cost of sales was driven primarily by an increase in product sales, partially offset by cost reductions resulting from initiatives which are targeted at improving factory and supply chain efficiencies, as well as continued execution of our overall product design for manufacturability program.

For the six months ended June 30, 2014 our gross margin was 30.9% compared to 28.8% for the same period in 2013. The 2.1% improvement in our gross profit margin was due to the continued execution of these operational efficiency initiatives.

Operating expenses

Total operating expenses for the six months ended June 30, 2014 increased approximately \$7.6 million, or 38.3%, over the same period in 2013. Approximately \$1.9 million of the increase was due to the inclusion of Sport Truck's operating expenses incurred since the acquisition date in our consolidated results for the six months ended June 30, 2014. Approximately \$1.8 million of the increase was due to the expenses related to significant corporate transactions. Additionally, \$0.8 million of the increase in operating expense was due to additional stock compensation incurred in the six months ended June 30, 2014 when compared to the prior year period. The balance of the growth in operating expenses was due to additional costs incurred to operate as a public company and normal growth in the business as we make additional investments in infrastructure, brand and technology.

When expressed as a percentage of sales, operating expenses increased to 19.3% of sales for the six months ended June 30, 2014 compared to 15.9% of sales in the same period in 2013.

Within operating expenses, our sales and marketing expenses increased in the six months ended June 30, 2014 by approximately \$2.2 million to \$9.0 million from \$6.8 million in the same period in 2013. The increase was primarily due to

Table of Contents

additional personnel, promotional activities and outside services as we continue to invest in promoting our company and brand, and due to the inclusion of \$0.8 million in Sport Truck's sales and marketing expenses in our results.

Our research and development expenses increased in the six months ended June 30, 2014 by approximately \$1.9 million to \$6.8 million from \$4.9 million in the same period in 2013. The increase was primarily due to an additional \$0.5 million in personnel related expenses and an increase of approximately \$0.4 million in proto-type products and projects as we continue to invest in new and innovative technologies.

Our general and administrative expenses increased in the six months ended June 30, 2014 by approximately \$3.2 million to \$8.7 million from \$5.5 million in the same period in 2013. Approximately \$1.8 million of the increase was due to the expenses related to significant corporate transactions, including the recently completed secondary offering of our common stock by certain selling stockholders, including Compass, the Sport Truck acquisition, and costs incurred to claim a \$3.8 million tax benefit related to the reapportionment of income. Stock compensation expense attributable to general and administrative personnel increased by approximately \$0.7 million when compared to prior year. Additionally, as a result of our August 2013 IPO, we incurred approximately \$1.0 million of incremental costs in the six months ended June 30, 2014 associated with operating as a public company. The remaining balance of the increase was due to the inclusion of approximately \$0.7 million of Sport Truck's general and administrative expenses in our results, partially offset by the non-recurrence of certain expenses incurred in the six months ended June 30, 2013.

Amortization of purchased intangible assets in the six months ended June 30, 2014 increased approximately \$0.4 million, primarily as a result of the acquisition of Sport Truck.

Income from operations

Income from operations for the six months ended June 30, 2014 increased approximately \$0.3 million, or 1.7% compared to income from operations in the same period in 2013.

Other expense, net

Other expense, net for the six months ended June 30, 2014 decreased by approximately \$1.7 million to \$0.3 million compared to \$2.0 million in the same period in 2013 due to decreased interest expense. Within other expense, net, interest expense decreased in the six months ended June 30, 2014 by \$1.6 million due to a decrease in average borrowings and a more favorable borrowing rate under our 2013 Credit Facility. Other income, net for the six months ended June 30, 2014 was consistent with the insignificant amounts of other expense, net for the same period in 2013.

Income taxes

Income tax expense for the six months ended June 30, 2014 decreased by approximately \$3.3 million to \$1.7 million compared to income tax expense of \$5.0 million in the same period in 2013. The decrease in expense resulted primarily from the aforementioned reapportionment benefit of \$3.8 million.

The effective tax rates were 10.4% and 34.9% for the six months ended June 30, 2014 and 2013, respectively.

For the six months ended June 30, 2014, the difference between our effective tax rate and the 35% federal statutory rate resulted primarily from the \$3.8 million reapportionment benefit. Additionally, our effective tax rate was benefited as a result of the domestic production activity deduction. These income tax benefits were partially offset by 2014 state taxes.

The effective tax rate for the six months ended June 30, 2013 was approximately equal to the 35% federal statutory rate. State taxes were offset by the benefit of the domestic production activity deduction and research and development tax credits, including \$0.4 million related to 2012 activities but recorded upon the reinstatement of the lapsed research and development credit in the first quarter of 2013.

Net income

As a result of the factors described above, our net income increased \$5.4 million, or 56.6%, to \$14.5 million in the six months ended June 30, 2014 from \$9.3 million for the same period in 2013.

Table of Contents

Liquidity and Capital Resources

Our primary cash needs are to support working capital and capital expenditures. We have generally financed our historical needs with operating cash flows and borrowings under our credit facilities. These sources of liquidity may be impacted by various factors, including demand for our products, investments made by us in acquired businesses, our plant and equipment and other capital expenditures, and expenditures on general infrastructure and intellectual technology. A summary of our operating, investing and financing activities are shown in the following table:

(in thousands)	For the six months ended June 30,	
	2014	2013
Net cash provided by (used in) operating activities	\$4,053	\$(4,021)
Net cash used in investing activities	(44,415)	(1,810)
Net cash provided by financing activities	40,510	5,979
Effect of exchange rate changes on cash	25	21
Increase in cash and cash equivalents	\$173	\$169

Operating activities

Cash provided by or used in operating activities primarily consists of net income, adjusted for certain non-cash items primarily, depreciation and amortization, stock-based compensation, and deferred income taxes, offset by cash invested in working capital.

In the six months ended June 30, 2014, cash provided by operating activities was \$4.1 million and consisted of net income of \$14.5 million plus non-cash items totaling \$3.0 million less changes in operating assets and liabilities and other adjustments totaling \$13.3 million. Non-cash items and other adjustments consisted primarily of depreciation and amortization of \$4.5 million and stock-based compensation of \$1.9 million, offset by an excess tax benefit from the exercise of stock options of \$1.7 million and a \$1.9 million change in deferred taxes. Cash invested in operating assets and liabilities is a result of increases in inventory and accounts receivable of \$11.8 million and \$4.0 million, respectively, and a decrease in accrued expenses of \$2.4 million, partially offset by increases in accounts payable and income taxes payable of \$6.0 million and \$1.6 million, respectively. Our working capital investment is driven by normal growth of our business. Additionally, there was an increase in prepaid expenses and other current assets of \$1.8 million, resulting primarily from prepaid compensation expense related to amounts paid for Sport Truck and renewal payments made under our corporate insurance programs.

In the six months ended June 30, 2013, cash used in operating activities was \$4.0 million. Net income of \$9.3 million plus non-cash items totaling \$5.0 million were offset by changes in operating assets and liabilities totaling \$18.2 million. Non-cash items and other adjustments consisted primarily of depreciation and amortization of \$3.8 million and stock-based compensation of \$1.1 million. Cash invested in operating assets and liabilities consisted primarily of an increase in inventory and accounts receivable of \$16.8 million and \$15.2 million, respectively, partially offset by an increase in accounts payable of \$14.2 million.

Investing activities

Cash used in investing activities primarily relates to strategic acquisitions of businesses and investments in our manufacturing and general infrastructure through the acquisition of property and equipment.

In the six months ended June 30, 2014, cash used in investing activities was \$44.4 million which consisted primarily of \$40.8 million in cash consideration paid for the acquisition of Sport Truck and we invested \$2.2 million in property and equipment.

In the six months ended June 30, 2013, cash used in investing activities was \$1.8 million, which consisted of purchases of property and equipment.

Financing activities

Cash provided by financing activities primarily relates to changes in our capital structure, including the various forms of debt and equity instruments used to finance our business.

In the six months ended June 30, 2014, net cash provided by financing activities was \$40.5 million, which consisted primarily of proceeds from issuance of term debt of \$49.7 million net of origination fees, partially offset by net repayments of \$8.0 million, all under the 2013 Amended and Restated Credit Facility. Additionally, \$3.4 million was

provided by the exercise of stock options.

24

Table of Contents

In the six months ended June 30, 2013, net cash provided by financing activities was \$6.0 million, which consisted primarily of net borrowings under our related party credit facility which was terminated in conjunction with our August 2013 initial public offering.

2013 Credit Facility Amended and Restated

In August 2013, we entered into the 2013 Credit Facility with Sun Trust Bank and other named lenders. The 2013 Credit Facility provided a revolving line of credit. On March 31, 2014, in connection with our asset purchase of Sport Truck, we amended and restated the 2013 Credit Facility. The Amended and Restated 2013 Credit Facility provides a maturing secured term loan in the principal amount of \$50.0 million, subject to quarterly amortization payments, and extends the term of the 2013 Credit Facility through March 31, 2019. The proceeds of the term loan were used, in part, to fund the acquisition of Sport Truck and to pay down the revolving line of credit provided under the facility. In the three months ended June 30, 2014, we made principal payments of \$4.6 million on the term loan, including \$4.0 million in advance of scheduled maturity. The Amended and Restated 2013 Credit Facility is secured by substantially all of our assets, restricts our ability to make certain payments and engage in certain transactions, and also requires that we satisfy customary financial ratios, including a fixed charged coverage ratio of not less than 1.5:1.0 and a leverage ratio of not greater than 2.75:1.0, both ratios calculated as defined in the agreement. We were in compliance with the covenants as of June 30, 2014.

Other Commitments

In connection with our acquisition of Sport Truck, we have agreed to pay up to \$29.3 million in additional consideration through 2017, contingent upon the achievement of certain financial performance goals through 2016. See Note 13 - Acquisition in our Notes to Condensed Consolidated Financial Statements. No other material contractual obligation has changed since the Company's Annual Report on Form 10-K for the year ended December 31, 2013, as filed with the SEC on March 11, 2014.

Off-Balance Sheet Arrangements

We have no material off-balance sheet arrangements.

Inflation

Historically, inflation has not had a material effect on our results of operations. However, significant increases in inflation, particularly those related to wages and increases in the cost of raw materials could have an adverse impact on our business, financial condition and results of operations.

Table of Contents

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

There have been no material changes in the disclosures discussed in the section “Quantitative and Qualitative Disclosures About Market Risk” in Part II, Item 7A of our Annual Report on Form 10-K for the fiscal year ended December 31, 2013 and filed with the SEC on March 11, 2014.

ITEM 4. CONTROLS AND PROCEDURES

Evaluation of Disclosure Controls and Procedures

Our management, under the direction and with the participation of our Chief Executive Officer and our Chief Financial Officer, evaluated the effectiveness of our disclosure controls and procedures as of June 30, 2014. The term “disclosure controls and procedures,” as defined in Rules 13a-15(e) and 15d-15(e) under the Exchange Act, means controls and other procedures of a company that are designed to ensure that information required to be disclosed by a company in the reports that it files or submits under the Exchange Act is recorded, processed, summarized and reported, within the time periods specified in the SEC’s rules and forms. Disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that information required to be disclosed by a company in the reports that it files or submits under the Exchange Act is accumulated and communicated to the company’s management, including its principal executive and principal financial officers, as appropriate to allow timely decisions regarding required disclosure. Based on the evaluation of our disclosure controls and procedures, our Chief Executive Officer and Chief Financial Officer concluded that our disclosure controls and procedures were effective as of June 30, 2014.

Changes in Internal Control over Financial Reporting

There was no change in our internal control over financial reporting (as defined in Rules 13a-15(f) and 15d-15(f) of the Exchange Act) identified in connection with the evaluation required by Rule 13a-15(d) and 15d-15(d) of the Exchange Act that occurred during the period covered by this Quarterly Report on Form 10-Q that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

Inherent Limitations on Effectiveness of Controls

Our management, including our Chief Executive Officer and Chief Financial Officer, believes that our disclosure controls and procedures and internal control over financial reporting are designed to provide reasonable assurance of achieving their objectives and are effective at the reasonable assurance level. However, our management does not expect that our disclosure controls and procedures or our internal controls will prevent all errors and all fraud. A control system, no matter how well conceived and operated, can provide only reasonable, not absolute, assurance that the objectives of the control system are met. Further, the design of a control system must reflect the fact that there are resource constraints, and the benefits of controls must be considered relative to their costs. Because of the inherent limitations in all control systems, no evaluation of controls can provide absolute assurance that all control issues and instances of fraud, if any, have been detected. These inherent limitations include, but are not limited to, the realities that judgments in decision making can be faulty, and that breakdowns can occur because of a simple error or mistake. Additionally, controls can be circumvented by the individual acts of some persons, by collusion of two or more people or by management override of the controls. The design of any system of controls also is based in part upon certain assumptions about the likelihood of future events, and there can be no assurance that any design will succeed in achieving its stated goals under all potential future conditions. Over time, controls may become inadequate because of changes in conditions, or the degree of compliance with the policies or procedures may deteriorate. Because of the inherent limitations in a cost-effective control system, misstatements due to error or fraud may occur and not be detected.

PART II. OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

From time to time we are involved in legal proceedings incidental to our business, in particular intellectual property related disputes, product liability claims, as well as other litigation of a non-material nature in the ordinary course of business. In accordance with ASC 450, "Contingencies", we have not accrued for material loss contingencies relating to any legal proceedings because we believe that, although unfavorable outcomes in proceedings may be possible, they are not considered by our management to be probable and reasonably estimable. We believe that the outcome of any such pending matters, either individually or in the aggregate, will not have a material impact on our business or financial condition.

ITEM 1A. RISK FACTORS

Our business, financial condition, operating results and prospects could be materially and adversely affected by various risks and uncertainties. There have been no material changes to the risk factors as previously disclosed under Item 1A, "Risk Factors" of Part I of our Annual Report on Form 10-K for the fiscal year ended December 31, 2013 and filed with the SEC on March 11, 2014. The disclosures set forth in such Annual Report on Form 10-K and in our other reports and filings with the SEC are not necessarily a definitive list of all factors that may affect our business, financial condition and future results of operations. If any of the risks actually occur, our business, financial condition, operating results and prospects could be materially and adversely affected. In that event, the trading price of our common stock could decline.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

Not applicable.

ITEM 3. DEFAULTS UPON SENIOR SECURITIES

None.

ITEM 4. MINE SAFETY DISCLOSURES

Not applicable.

ITEM 5. OTHER INFORMATION
