Cautionary Statement Regarding Forward-Looking Statements

Statements in this Quarterly Report on Form 10-Q that are not purely historical are forward-looking statements within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934, including statements regarding management's expectations, hopes, intentions or strategies regarding the future. Forward-looking statements include statements regarding the Trust's future operations and prospects, the markets for real estate in the areas in which the Trust owns real estate, applicable zoning regulations, the markets for oil and gas, production limits on prorated oil and gas wells authorized by the Railroad Commission of Texas, expected competition, management's intent, beliefs or current expectations with respect to the Trust's future financial performance and other matters. All forward-looking statements in this Report are based on information available to us as of the date this Report is filed with the Securities and Exchange Commission, and we assume no responsibility to update any such forward-looking statements, except as required by law. All forward-looking statements are subject to a number of risks, uncertainties and other factors that could cause our actual results, performance, prospects or opportunities to differ materially from those expressed in, or implied by, these forward-looking statements. These risks, uncertainties and other factors include, but are not limited to, the factors discussed in Item 1A "Risk Factors" of Part I of our Annual Report on Form 10-K for the year ended December 31, 2014, and in Part I, Item 2 "Management's Discussion and Analysis of Financial Condition and Results of Operations" and Part II, Item 1A "Risk Factors" of this Quarterly Report on Form 10-Q.

TEXAS PACIFIC LAND TRUST

NOTES TO UNAUDITED FINANCIAL STATEMENTS

JUNE 30, 2015

(1) In the opinion of management, the accompanying unaudited financial statements contain all adjustments (consisting of only normal recurring accruals) necessary to present fairly the financial position of Texas Pacific Land Trust (the "Trust") as of June 30, 2015 and the results of its operations for the three month and six month periods ended June 30, 2015 and 2014, respectively, and its cash flows for the six month periods ended June 30, 2015 and 2014, respectively. The financial statements and footnotes included herein should be read in conjunction with the Trust's annual financial statements as of December 31, 2014 and 2013 and for each of the years in the three year period ended December 31, 2014 included in the Trust's Annual Report on Form 10-K for the year ended December 31, 2014. Beginning with the second quarter of 2015, the Trust updated the format of the revenue section in the Statements of Income and Total Comprehensive Income to provide more detail regarding revenue sources.

(2) We evaluate events that occur after the balance sheet date but before financial statements are, or are available to be, issued to determine if a material event requires our amending the financial statements or disclosing the event. We evaluated subsequent events through August 6, 2015, the date we issued these financial statements.

(3) No value has been assigned to the land held by the Trust other than parcels which have been acquired through foreclosure and a limited number of parcels which have been acquired because they were offered for sale and were contiguous to parcels already owned by the Trust. Consequently, no allowance for depletion is computed, and no charge to income is made, with respect thereto, and no cost is deducted from the proceeds of the land sales in computing gain or loss thereon.

(4) The Sub-shares and the Certificates of Proprietary Interest are freely interchangeable in the ratio of one Certificate of Proprietary Interest for 3,000 Sub-shares or 3,000 Sub-shares for one Certificate of Proprietary Interest.

(5) The Trust's effective Federal income tax rate is less than the 35% statutory rate because taxable income is reduced by statutory percentage depletion allowed on mineral royalty income.

(6) The results of operations for the three-month and six-month periods ended June 30, 2015 are not necessarily indicative of the results to be expected for the full year.

Edgar Filing: TEXAS PACIFIC LAND TRUST - Form 10-Q

The Trust invests cash in excess of daily requirements primarily in bank deposit and savings accounts and (7) certificates of deposit with maturities of ninety days or less. Such investments are deemed to be highly liquid debt instruments and classified as cash equivalents for purposes of the statements of cash flows.

Supplemental cash flow information for the six month periods ended June 30, 2015 and 2014 is summarized as follows:

	2015	2014
Income taxes paid	\$12,386,479	\$7,630,210

ASC 280, “*Segment Reporting*,” establishes standards for the way public business enterprises are to report information about operating segments. In accordance with ASC 280, the Trust utilizes the management approach as a basis for identifying reportable segments. The management approach is based on the way that management organizes the segments within the enterprise for making operating decisions and assessing performance. The Trust’s management views its operations as one segment and believes the only significant activity is managing the land which was conveyed to the Trust in 1888. The Trust’s management makes decisions about resource allocation and performance assessment based on the same financial information presented in these financial statements. Managing the land includes sales and leases of such land, and the retention of oil and gas royalties.

In May 2014, the FASB issued ASU 2014-09 that introduces a new five-step revenue recognition model in which an entity should recognize revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. This ASU also requires disclosures sufficient to enable users to understand the nature, amount, timing, and uncertainty of revenue and cash flows arising from contracts with customers, including qualitative and quantitative disclosures about contracts with customers, significant judgments and changes in judgments, and assets recognized from the costs to obtain or fulfill a contract. This standard is effective for fiscal years beginning after December 31, 2017, including interim periods within that reporting period. The Trust is currently evaluating the new guidance to determine the impact it will have on our financial statements.

Item 2. Management’s Discussion and Analysis of Financial Condition and Results of Operations

The following discussion and analysis should be read together with (i) the factors discussed in Item 1A “Risk Factors” of Part I of our Annual Report on Form 10-K for the year ended December 31, 2014, (ii) the factors discussed in Part II, Item 1A “Risk Factors,” if any, of this Quarterly Report on Form 10-Q and (iii) the Financial Statements, including the Notes thereto, and the other financial information appearing elsewhere in this Report. Period-to-period comparisons of financial data are not necessarily indicative, and therefore should not be relied upon as indicators, of the Trust’s future performance. Words or phrases such as “does not believe” and “believes”, or similar expressions, when used in this Form 10-Q or other filings with the Securities and Exchange Commission, are intended to identify “forward-looking statements” within the meaning of the Private Securities Litigation Reform Act of 1995.

Results of Operations for the Quarter Ended June 30, 2015 Compared to the Quarter Ended June 30, 2014

Earnings per Sub-share certificate were \$.90 for the second quarter of 2015, compared to \$1.17 for the second quarter of 2014. Total operating and investing revenues were \$11,795,134 for the second quarter of 2015 compared to \$15,583,264 for the second quarter of 2014, a decrease of 24.3%. This decrease in revenue and earnings was due

primarily to decreases in oil and gas royalty revenue and land sales.

Oil and gas royalty revenue was \$5,699,594 for the second quarter of 2015, compared to \$7,863,507 for the second quarter of 2014, a decrease of 27.5%. Oil royalty revenue was \$4,279,109 for the second quarter of 2015, a decrease of 32.1% from the second quarter of 2014 when oil royalty revenue was \$6,301,472. Crude oil production subject to the Trust's royalty interest increased 34.9% in the second quarter of 2015 compared to the second quarter of 2014. This increase in production was offset by a 49.6% decrease in the average price per royalty barrel of crude oil during the second quarter of 2015 compared to the second quarter of 2014. Gas royalty revenue was \$1,420,485 for the second quarter of 2015, a decrease of 9.1% from the second quarter of 2014 when gas royalty revenue was \$1,562,035. This decrease in gas royalty revenue resulted from a price decrease of 32.8% in the second quarter of 2015 compared to the second quarter of 2014, which was partially offset by a volume increase of 35.2%.

In the second quarter of 2015, the Trust sold approximately 320 acres for a total of \$160,000, or approximately \$500 per acre. In the second quarter of 2014, the Trust sold approximately 1,395 acres for a total of \$1,670,605, or approximately \$1,198 per acre.

Easements and sundry income was \$5,802,945 for the second quarter of 2015, a decrease of 1.0% compared to the second quarter of 2014 when easements and sundry income was \$5,863,269. This decrease resulted primarily from decreases in seismic permit income and sundry lease rental income, which were partially offset by increases in pipeline easement income and sundry income. This category of income is unpredictable and may vary significantly from quarter to quarter.

Other income, including interest on investments, was \$132,595 for the second quarter of 2015 compared to \$185,883 for the second quarter of 2014, a decrease of 28.7%. Grazing lease income was \$109,068 for the second quarter of 2015, compared to \$144,003 for the second quarter of 2014, a decrease of 24.3%. This decrease is primarily attributable to a decrease in land inventory available for lease. Interest on notes receivable for the second quarter of 2015 was \$16,268, a decrease of 57.7% compared to the second quarter of 2014 when interest on notes receivable was \$38,500. This decrease is primarily due to principal prepayments received on notes due the Trust. As of June 30, 2015, notes receivable for land sales were \$850,672 compared to \$1,286,529 at June 30, 2014, a decrease of 33.9%. Interest income earned from investments was \$7,259 for the second quarter of 2015, an increase of 114.8% from the second quarter of 2014. Interest on investments is affected by such variables as cash on hand for investment and the rate of interest on short-term investments.

Taxes, other than income taxes, were \$342,302 for the second quarter of 2015 compared to \$447,703 for the second quarter of 2014, a decrease of 23.5%. This decrease is primarily attributable to a decrease in oil and gas production taxes which resulted from the decrease in oil and gas royalty revenue discussed above.

General and administrative expenses were \$503,799 for the second quarter of 2015 compared to \$422,649 for the second quarter of 2014, an increase of 19.2%. This increase was primarily due to increases in legal expenses and employment expenses.

Results of Operations for the Six Months Ended June 30, 2015 Compared to the Six Months Ended June 30, 2014

Earnings per Sub-share certificate were \$3.58 for the first six months of 2015, compared to \$2.03 for the first six months of 2014. Total operating and investing revenues were \$46,534,487 for the first six months of 2015 compared to \$27,165,217 for the first six months of 2014, an increase of 71.3%. This increase in revenue and earnings was due primarily to increases in land sales and easements and sundry income. These increases were partially offset by a

decrease in oil and gas royalty revenue and other income.

Oil and gas royalty revenue was \$12,224,859 for the first six months of 2015, compared to \$15,105,566 for the first six months of 2014, a decrease of 19.1%. Oil royalty revenue was \$9,512,694 for the first six months of 2015, a decrease of 18.7% from the first six months of 2014 when oil royalty revenue was \$11,696,673. Crude oil production subject to the Trust's royalty interest increased 44.0% in the first six months of 2015 compared to the first six months of 2014. This increase in production was offset by a 43.5% decrease in the average price per royalty barrel of crude oil during the first six months of 2015 compared to the first six months of 2014. Gas royalty revenue was \$2,712,165 for the first six months of 2015, a decrease of 20.4% from the first six months of 2014 when gas royalty revenue was \$3,408,893. This decrease in gas royalty revenue resulted from a price decrease of 33.9% in the first six months of 2015 compared to the first six months of 2014, which was partially offset by a volume increase of 20.6%.

During the first six months of 2015, the Trust sold approximately 20,632 acres for a total of \$20,428,000, or approximately \$990 per acre. In the first six months of 2014, the Trust sold approximately 1,395 acres for a total of \$1,670,605, or approximately \$1,198 per acre.

Easements and sundry income was \$13,605,939 for the first six months of 2015, an increase of 35.6% compared to the first six months of 2014 when easements and sundry income was \$10,031,473. This increase resulted primarily from increases in pipeline easement income and sundry income, which were partially offset by decreases in seismic permit income and sundry lease rental income. This category of income is unpredictable and may vary significantly from quarter to quarter.

Other income, including interest on investments, was \$275,689 for the first six months of 2015 compared to \$357,573 for the first six months of 2014, a decrease of 22.9%. Grazing lease income was \$229,042 for the first six months of 2015, compared to \$246,551 for the first six months of 2014, a decrease of 7.1%. This decrease is primarily attributable to a decrease in land inventory available for lease. Interest on notes receivable for the first six months of 2015 was \$32,695, a decrease of 68.7% compared to the first six months of 2014 when interest on notes receivable was \$104,298. This decrease is primarily due to principal payments received on notes due the Trust. As of June 30, 2015, notes receivable for land sales were \$850,672 compared to \$1,286,529 at June 30, 2014, a decrease of 33.9%. Interest income earned from investments was \$13,952 for the first six months of 2015, an increase of 107.5% from the first six months of 2014. Interest on investments is affected by such variables as cash on hand for investment and the rate of interest on short-term investments.

Taxes, other than income taxes, were \$718,580 for the first six months of 2015 compared to \$874,380 for the first six months of 2014, a decrease of 17.8%. This decrease is primarily attributable to a decrease in oil and gas production taxes which resulted from the decrease in oil and gas royalty revenue discussed above.

General and administrative expenses were \$1,111,263 for the first six months of 2015 compared to \$938,377 for the first six months of 2014, an increase of 18.4%. This increase was primarily due to increases in legal expenses and employment expenses.

Liquidity and Capital Resources

The Trust's principal sources of liquidity are revenues from oil and gas royalties, easements and sundry income, and land sales. In the past, those sources have generated more than adequate amounts of cash to meet the Trust's needs and, in the opinion of management, should continue to do so in the foreseeable future.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

There have been no material changes in the information related to market risk of the Trust since December 31, 2014.

Item 4. Controls and Procedures

Pursuant to Rule 13a-15, management of the Trust under the supervision and with the participation of David M. Peterson, the Trust's Chief Executive Officer, and Robert J. Packer, the Trust's Chief Financial Officer, carried out an evaluation of the effectiveness of the design and operation of the Trust's disclosure controls and procedures as of the end of the Trust's fiscal quarter covered by this Report on Form 10-Q. Based upon that evaluation, Mr. Peterson and Mr. Packer concluded that the Trust's disclosure controls and procedures are effective in timely alerting them to material information relating to the Trust required to be included in the Trust's periodic SEC filings.

There have been no changes in the Trust's internal control over financial reporting during the Trust's most recently completed fiscal quarter that have materially affected, or are reasonably likely to materially affect, the Trust's internal control over financial reporting.

PART II**OTHER INFORMATION****Item 1A. Risk Factors**

There have been no material changes in the risk factors previously disclosed in response to Item 1A “Risk Factors” of Part I of the Trust’s Annual Report on Form 10-K for the year ended December 31, 2014.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

(c) During the second quarter of 2015, the Trust repurchased Sub-share certificates as follows:

Period	Total Number of Sub-shares Purchased	Average Price Paid per Sub-share	Total Number of Sub-shares Purchased as Part of Publicly Announced Plans or Programs	Maximum Number (or Approximate Dollar Value) of Sub-shares that May Yet Be Purchased Under the Plans or Programs
