REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Plan Administrator of the
Constellation Energy Group, Inc.
Employee Savings Plan

We have audited the accompanying statements of net assets available for benefits of the Constellation Energy Group, Inc. Employee Savings Plan (the Plan), as of December 31, 2003 and 2002, and the related statements of changes in net assets available for benefits for the years then ended. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2003 and 2002, and the changes in its net assets available for benefits for the years then ended in conformity with accounting principles generally accepted in the United States of America.

Our audits were conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplemental schedule of financial information for the year ended December 31, 2003 is presented for the purpose of additional analysis and is not a required part of the basic financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. This supplemental information is the responsibility of the Plan's management. The supplemental information has been subjected to the auditing procedures applied in the audits of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

Notes to Financial Statements

Note 1. General Description of the Plan

Baltimore Gas and Electric Company (BGE) established the Baltimore Gas and Electric Company Employee Savings Plan and Trust Agreement on July 1, 1978. Effective April 30, 1999, BGE shareholders approved the formation of a holding company Constellation Energy Group, Inc. (Company) and the Baltimore Gas and Electric Company Employee Savings Plan was amended, restated, and renamed as the Constellation Energy Group, Inc. (CEG) Employee Savings Plan (Plan).

The Plan is a defined contribution plan, subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Eligibility An employee must have one month of service to be eligible to participate in the Plan.

Administration The Plan Administrator is the Director Benefits, Human Resources Division of Constellation Energy Group, Inc. The assets are held and managed by the Trustee, T. Rowe Price Trust Company (Trustee). TRP Retirement Plan Services, Inc. provides the record keeping for the Plan.

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA.

Contributions Eligible participants may contribute from 1% to 25% of their eligible pay through payroll deductions, on a before-tax basis (Deferred Compensation Option), from 1% to 15% of their eligible pay through payroll deductions, on an after-tax basis (Thrift Option), or a combination thereof. The maximum combined contribution rate for both the before-tax and the after-tax contributions is 25%.

The Plan allows participants to postpone, until withdrawal or distribution, any income tax liability on (1) all Company contributions; (2) participant contributions under the before-tax option; and (3) earnings on their contributions and Company contributions. Participant contributions under the after-tax option are included in current year's taxable income.

The maximum amount a participant can contribute to the Plan on a before-tax basis is limited per year by the Internal Revenue Service. The limitation for 2003 was \$12,000.

Edgar Filing: CONSTELLATION ENERGY GROUP INC - Form 11-K

Effective January 1, 2002 catch-up contributions were permitted for participants age 50 and above.

The Plan accepts rollovers of employees' eligible rollover distributions from other qualified plans.

Participants have the right, on a daily basis, to change the amount of their payroll deductions, effective the beginning of the following month. Participants also have the right to change, on a daily basis, the percentage of their future contributions being invested in each of the available investment funds as provided in the Plan.

Effective April 1, 2003:

Plan Mergers

The Constellation Operating Services Inc. Retirement Plan and participant balances including loans were merged into the Plan with the exception of the represented employees of Central Wayne.

Employees of A/C Power became employees of Constellation Operating Services, Inc., and their account balances previously held in the A/C Power Retirement Plan were merged into the Plan.

Employees of Trona Operating Partners became employees of Constellation Operating Services, Inc., and their balances in the Trona Operating Partners Retirement Plan were merged into the Plan.

At the time of the merger, all three Plans held assets in the T. Rowe Price Science & Technology Fund. That fund was added to the Plan but was closed to new investments.

These balances are reflected on the Statement of Changes of Net Assets Available for Benefits as plan transfers in.

Company Matching Contributions In general, the Company contributes an amount equal to one-half of the participant's first six percent of contributions. However, the Company Matching Contribution for employees of Constellation New Energy is 100% of the first five percent of contributions. All company matching contributions are fully and immediately vested upon being credited to the participant's account. Company contributions are initially invested in the CEG Common Stock Fund. Once credited, the participant can transfer the funds at his or her discretion.

Investment Options Participants can elect to have their contributions invested in the following:

CEG Common Stock Fund

Interest Income Fund

T. Rowe Price Mutual Funds:

T. Rowe Price Balanced Fund

T. Rowe Price Equity Income Fund

T. Rowe Price Equity Index 500 Fund

T. Rowe Price Growth Stock Fund

T. Rowe Price International Stock Fund

T. Rowe Price Mid-Cap Growth Fund

T. Rowe Price New Horizons Fund

T. Rowe Price New Income Fund

*T. Rowe Price Science & Technology Fund

T. Rowe Price Small Cap Value Fund

* This Fund is closed to new investments such as contributions, loan repayments and transfers (exchanges).

CEG Common Stock Fund Participant and company matching contributions in the CEG Common Stock Fund are invested in Constellation Energy Group, Inc. common stock.

Employee Stock Account An Employee Stock Account was automatically established for each participant who transferred their balance from the Baltimore Gas and Electric Company Employee Stock Ownership Plan upon the termination of that plan in 1989 and/or received shares of stock credited under the Corporate Performance Award Program. No additional allocations are being made to this account.

Interest Income Fund Amounts held in the Interest Income Fund are invested in contracts issued by insurance companies or other financial institutions and in short-term investments. Each contract specifies a fixed or variable rate of interest for a certain period of time. A component of the Interest Income Fund is invested in the T. Rowe Price Managed Bond Common Trust Fund (Managed Bond Fund), a direct filing entity, pursuant to Department of Labor Regulations. An additional component is the T. Rowe Price Stable Value Common Trust Fund, an investment similar in nature to the underlying investments in the Interest Income Fund, with a higher degree of diversification. All maturing contracts are being invested in the Stable Value Common Trust Fund.

The interest rate earned by the Interest Income Fund is a blend of the rates under the various investments. The annual effective rates for 2003 and 2002 were 4.95% and 5.60%, respectively. The crediting interest rates for the investment contracts as of December 31, 2003 and 2002 were 4.84% and 5.40%, respectively.

At December 31, 2003 and 2002, there were no investments in the individual contracts of any issuer in the Interest Income Fund which exceeded five percent of net assets available for benefits. Contracts included in the Interest Income Fund have been reported at their contract value, which approximates fair value. All the investments in this fund are held for purposes other than trading.

Investment Income All dividends and interest earned are automatically reinvested in that fund.

Prior to February 2002, the Trustee invested dividends received on shares of CEG common stock in the Employee Stock Account, in income-producing investments. Annually, a check was sent to the participant representing the total dividends credited. Any income earned on the dividends was reinvested and used to purchase additional shares of CEG common stock in the Employee Stock Account. In February 2002, a final distribution was made of all remaining dividends earned on the Employee Stock Account. Currently, all dividends are reinvested to purchase additional shares of stock.

Transfers Participants are allowed to initiate, on a daily basis, a transfer of the value of their account, among the available investment funds.

Participant Loan Provisions Participants may obtain a loan in any amount between a minimum of \$1,000 and a maximum of \$50,000, but not more than 50% of the participant's account balance. Participants may elect up to five years to repay the loan, unless the loan is used for the purchase of a principal residence, in which case they may elect up to 30 years for repayment. Participants are allowed to have up to two loans outstanding at any time. Principal and interest are repaid through regular payroll deductions or by direct payment. The interest rate for loans is equal to the prime rate plus one percent on the last day of the month preceding the month the loan is initiated. The interest rate on amounts borrowed is set at the time the loan is executed and remains in effect for the duration of the loan.

Withdrawals and Distributions A participant may, on a daily basis, elect to withdraw all or part of the stock and cash attributable to their after-tax contributions. Except for death, disability, retirement, separation from service or under certain circumstances of hardship, contributions made on a before-tax basis may not be withdrawn until a participant attains age 59 1/2. Participants who withdraw basic before-tax and after-tax contributions that have not been in the Plan for two full calendar years (unmatured), and participants who make a hardship withdrawal, are

suspended from making contributions to the Plan for six months. Company matching contributions that have been in the Plan for two full calendar years (matured) are also eligible to be withdrawn.

Distributions to participants who retire or terminate active employment are automatically deferred until sixty days after they either reach age 65 or cease active employment, whichever is later, unless they request an earlier or later distribution. Generally, participants who reach age 70 1/2 must begin receiving their Plan distribution by April 1 of the following year. Furthermore, active employees who attain age 59 1/2 may request to receive a distribution of their deferred compensation account balances. The distribution options include lump sum or installments paid monthly, quarterly, or annually for up to 10 years.

Withdrawals and distributions to participants are recorded when paid.

Vesting All contributions that are held in participants' accounts are immediately 100% vested.

Administrative costs Administrative fees charged by institutions, which issue contracts for the Interest Income Fund, are reflected in the effective rate earned by the fund. The Company currently pays all the other fees and expenses of the Plan, including those of the Trustee. Brokerage fees, commissions, and transfer taxes associated with the purchase, sale or transfer of shares of common stock for the CEG Common Stock Fund are borne by the CEG Common Stock Fund. All expenses and other charges incurred by the mutual funds are borne by those respective funds. Participants are charged a \$50 loan initiation fee.

Related Party Transactions Certain Plan investments are shares of mutual funds managed by T. Rowe Price, a division of which is also the Plan Trustee, and therefore, these transactions qualify as party-in-interest transactions.

Note 2. Significant Accounting Policies

The financial statements of the Plan are prepared under the accrual method of accounting. The accounting principles and practices that affect the more significant elements of the financial statements are:

Valuation of Investments Shares of common stock in the CEG Common Stock Fund held by T. Rowe Price Trust Company are valued as of year-end, using the quoted closing market price as reported by the NYSE Composite Transactions published in the eastern edition of The Wall Street Journal. Mutual fund shares held in the T. Rowe Price Mutual Funds are valued as of year-end, using the net asset value price of such shares as quoted by the Mutual Fund Quotations for such date in the eastern edition of The Wall Street Journal. Participant loans are valued at cost, which approximates fair value.

The Plan's investments are stated at fair value except for the various contracts issued by insurance companies or other financial institutions, under the Interest Income Fund, which are fully benefit-responsive and are stated at contract value. Contract value is equal to the aggregate of the net contributions and earnings thereon.

The Plan presents in the Statement of Changes in Net Assets Available for Benefits the net appreciation (depreciation) in the fair value of its investments which consists of realized gains or losses and unrealized appreciation (depreciation) on those investments.

Shares of CEG common stock are purchased on the open market, through new issuances, or by other acquisition. Mutual fund shares for the T. Rowe Price Mutual Funds are purchased on the open market, except the Trustee may purchase from time to time a small number of shares at current market value from participants making withdrawals or interfund transfers or obtaining loans from the Plan. The cost of shares sold from the CEG Common Stock Fund and the T. Rowe Price Mutual Funds, as a result of participant distributions, withdrawals, interfund transfers or loans, is determined under the average cost method.

Loans to participants are valued at their outstanding principal amount.

Use of Estimates The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America, requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent gains and losses at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

Note 3. Tax Status

The Company has received the latest favorable determination letter from the Internal Revenue Service (IRS), dated February 18, 2004, with respect to the Plan as restated effective January 1, 2002, qualifying the Plan as a stock bonus plan under Section 401 of the Internal Revenue Code (Code) and an employee stock ownership plan under Section 4975(e)(7) of the Code and exempting the Plan from federal income tax under Section 501 of the Code.

In addition, effective February 28, 2002, the Plan was designated to meet the definition of a participant directed individual account retirement plan as defined by Section 404(c) of ERISA.

Note 4. Investments
