Item 7.01 Regulation FD Disclosure.

On December 29, 2017, Northwest Natural Gas Company (NW Natural), for the first time since 2011, has filed for a general rate increase with the Public Utility Commission of Oregon (OPUC). The filing includes a requested \$52.4 million annual revenue requirement increase, or a net revenue increase of \$40.4 million or about 6% after an adjustment for the Company's conservation tariff deferral. The revenue requirement is based upon the following assumptions or requests:

- Capital structure of 50% debt and 50% equity;
- Return on equity of 10.0%;
- Cost of capital of 7.62%; and
- Rate base of \$1.19 billion or an increase of \$304 million since the last rate case.

This general rate case filing does not include the impact of the newly passed federal tax legislation. The implications of tax reform will be addressed with the OPUC in the coming months through this general rate case filing or as part of other regulatory processes that could include all utilities in Oregon.

A copy of the press release announcing this filing is attached as Exhibit 99.1.

The information contained in this Item 7.01 and in the accompanying exhibit shall not be incorporated by reference into any filing of NW Natural, whether made before or after the date hereof, regardless of any general incorporation language in such filing, unless expressly incorporated by specific reference to such filing. The information in this Item 7.01, including the exhibit hereto, shall not be deemed "filed" for purposes of Section 18 of the Securities Exchange Act of 1934, as amended, or otherwise subject to the liabilities of that section or Sections 11 and 12(a)(2) of the Securities Act of 1933, as amended.
