REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Trustees and Participants of American Electric Power System Retirement Savings Plan:

We have audited the accompanying statements of net assets available for benefits of the American Electric Power System Retirement Savings Plan (the "Plan") as of December 31, 2008 and 2007, and the related statements of changes in net assets available for benefits for the years then ended. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. The Plan is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, such financial statements present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2008 and 2007, and the changes in net assets available for benefits for the years then ended in conformity with accounting principles generally accepted in the United States of America.

Our audits were conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplemental schedules of (1) assets held as of December 31, 2008, and (2) assets acquired and disposed of for the Plan year ended December 31, 2008, are presented for the purpose of additional analysis and are not a required part of the basic financial statements, but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. These schedules are the responsibility of the Plan's management. Such schedules have been subjected to the auditing procedures applied in our audit of the basic 2008 financial statements and, in our opinion, are fairly stated in all material respects when considered in relation to the basic financial statements taken as a whole.

/s/ Deloitte & Touche LLP

AMERICAN ELECTRIC POWER SYSTEM RETIREMENT SAVINGS PLAN

NOTES TO FINANCIAL STATEMENTS

1. PLAN DESCRIPTION

The following description of the American Electric Power System Retirement Savings Plan (the Plan) is provided for general information purposes only. Participants should refer to the Plan documents for more complete information.

The Plan is a defined contribution plan that became effective and commenced operations on January 1, 1978. The Plan covers eligible regularly-scheduled full-time and part-time employees of the participating subsidiaries of American Electric Power Company, Inc. ("AEP" or the "Company"). Eligible employees will be automatically enrolled in the plan with a 3% pretax deferral unless they elect to opt out of the automatic enrollment or revise their elections during a 30-day grace period. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). Generally, eligible employees participating in the Plan may make contributions (pre-tax, after-tax or, effective beginning July 1, 2006, designated Roth 401(k) contributions) in 1% increments up to 50% of their eligible pay (within IRS limits). Participants who are age 50 and older are able to save additional pre-tax or Roth 401(k) amounts as catch up contributions. The catch-up contribution limit was \$5,000 for 2008 and 2007. The Company contributes to the Plan, on behalf of each participant, an amount equal to 75% of the participant's contributions up to 6% of the participant's eligible compensation for each payroll period, subject to certain limitations. All contributions are deposited to the American Electric Power System Retirement Savings Plan Trust after each pay period. The Plan, in a manner consistent with the requirements under section 401 et seq., of the Internal Revenue Code, restricts the amount that certain participants who are deemed highly compensated may contribute to the Plan. Participants are immediately vested in their pre-tax, after-tax, Roth 401(k) and the Company matching contributions, including earnings thereon.

American Electric Power Service Corporation (AEPSC) is the plan administrator (Plan Administrator) and plan sponsor (Plan Sponsor). AEPSC is a wholly-owned subsidiary of AEP.

JP Morgan Chase Bank N.A. is the custodian and trustee and JP Morgan Retirement Plan Services LLC is the record keeper with respect to the Plan. The investment options offered by the Plan are a series of separately managed accounts, interests in commingled and collective trusts and self-directed mutual fund brokerage accounts for which JP Morgan affiliates provide custody, trustee, recordkeeping and other services.

The AEP Stock Fund, a Plan investment option, is an Employee Stock Ownership Plan ("ESOP"). As a result, participants can elect to have dividends generated from their AEP Stock Fund holdings paid out in cash, rather than automatically reinvested in the fund. The dividend payouts are made periodically, but no less than annually, and are treated as ordinary income for tax purposes. The 10 percent early withdrawal penalty for individuals under age 59-1/2 does not apply to these dividend payouts.

Participants may transfer the value of their cumulative contributions, in any whole percentage or dollar amount, among investments, and change their investment elections on a daily basis. Participants may change their payroll contribution elections coinciding with the Company's payroll periods. Excluding their pre-tax and Roth 401(k) contributions, participants may make an unlimited number of withdrawals of their interest in the Plan, including Company matching contributions, which are immediately vested. Pre-tax and Roth 401(k) contributions are not eligible for withdrawal by participants until age 59-1/2, except under hardship (as defined by the Plan) or termination of employment. Individual accounts are maintained for each Plan participant. Each participant's account is credited with an allocation of Company contributions, his or her employee contribution, and Plan earnings. The benefit to

which a participant is entitled is the benefit that can be provided from the participant's account.

Participants may borrow from their savings plan accounts a minimum of \$1,000 but no more than the lesser of \$50,000 or 50% of their account balance. Loan terms range from 12 months to 60 months (or up to 180 months for certain residential loans), or any monthly increment in-between. Interest rates, fixed for the life of the loan, are calculated by adding 1% to the prime rate, as reported in the Wall Street Journal. For loans taken before July 1, 2006, the interest rate is in effect as of the first business day of the calendar quarter in which the loan is taken. For loans taken after July 1, 2006, the interest rate is in effect as of the first business day of the calendar month in which the loan is taken. Active employees repay principal and interest payments through payroll deductions.

Retirees/surviving spouses may make monthly loan payments using a coupon book or through automatic withdrawal from their bank account. Participant loans and the accrued interest are collateralized by the account balance, and upon default, the outstanding balance is subject to income taxes and possible tax penalty.

2. ACCOUNTING POLICIES

As of January 1, 2008, the Plan adopted the provisions of Statement on Financial Accounting Standards ("SFAS") No. 157 ("SFAS 157"), Fair Value Measurements, for its investments. SFAS 157 establishes a single authoritative definition of fair value, sets out a framework for measuring fair value, and expands fair value disclosures. Although the adoption of SFAS 157 did not materially impact the Plan's financial statements, the Plan is now required to provide additional disclosures as part of its financial statements

The accompanying financial statements are prepared on an accrual basis of accounting, in conformity with accounting principles generally accepted in the United States of America.

Participants direct the investment of their contributions into various investment options offered by the Plan. Investments are reported in the Statements of Net Assets Available for Benefits at fair value, except for its benefit responsive investment contracts, which are stated at contract value.

Quoted market prices are used to value investments (including, but not limited to, the shares of AEP common stock held in the AEP Stock Fund), except investments in registered investment companies, collective trust funds or commingled funds, which are stated at estimated fair values based on the value of the underlying securities and assets as provided by the Trustee of the investment. All participant loan balances are recorded at amortized cost which approximates fair value.

The Managed Income Fund includes investment contracts valued at fair value, which is equal to cost (contributions), plus interest, less withdrawals. As described in Financial Accounting Standards Board Staff Position, AAG INV-1, Reporting of Fully Benefit-Responsive Contracts Held by Certain Investment Companies Subject to the AICPA Investment Company Guide and Defined-Contribution Health and Welfare and Pension Plans (FSP AAG INV-1), the Managed Income Fund is included at fair value in participant-directed investments in the statements of net assets available for benefits, and an additional line item is presented representing the adjustment from fair value to contract value. The statement of changes in net assets available for benefits is presented on a contract value basis.

Purchases and sales of securities have been recorded on a trade-date basis. Interest income is recorded on an accrual basis. Dividends are recorded on the ex-dividend date. These amounts are reinvested by the Trustee in the same funds that generated such income with the exception of the AEP Stock Fund, which pays out or reinvests dividends at the direction of each participant.

Administrative and Management Fees paid to JPMorgan during 2008 and 2007 totaled \$3,008,464 and \$2,860,390 respectively. The Plan directly pays for administrative, recordkeeping and management fees.

Distributions are recorded when paid. There were no material amounts of distributions due to participants who requested distributions from the Plan as of December 31, 2008 and 2007.

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein and disclosure of contingent assets. Actual results could differ from those estimates.

The Plan utilizes various investment instruments, including common stock, bonds, commingled funds and investment contracts. Investment securities, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the financial statements.

3. INVESTMENT CONTRACTS

At December 31, 2008, the Managed Income Fund provides a self managed stable value investment option to participants that includes synthetic guaranteed investment contracts ("GIC") which simulates the performance of a guaranteed investment contract through an issuer's guarantee of a specific interest rate (the wrapper contract) and a portfolio of financial instruments that are owned by the Plan. The Plan entered into four synthetic GIC contracts in July 2006. The synthetic GIC contracts include underlying assets, which are held in a trust owned by the Plan and utilizes benefit-responsive wrapper contracts issued by four banking institutions. The contracts provide that participants execute plan transactions at contract value. Contract value represents contributions made to the fund, plus earnings, less participant withdrawals. The interest rates are reset quarterly based on market rates of other similar investments, the current yield of the underlying investments and the spread between the market value and contract value, but the rate cannot be less than 0%. Certain events such as plan termination or a plan merger initiated by the Plan Sponsor, may limit the ability of the Plan to transact at contract value or may allow for the termination of the wrapper contract at less than contract value. The Plan Sponsor does not believe that any events that may limit the ability of the plan to transact at contract value are probable. During the year ended December 31, 2008, the credited rate and the average yield based on annualized earnings and interest credited to participants were 4.69% and 4.75%, respectively. During the year ended December 31, 2007 the credited rate and average yield based on annualized earnings and interest credited to participants were 5.34% and 5.06% respectively.

4. INVESTMENTS

The Plan utilizes various investment instruments, including common stock, bonds, commingled funds, managed income funds, and investment contracts. The financial statements include investments in commingled funds valued at \$889 million (35% of net assets) and \$1,180 million (37% of net assets) as of December 31, 2008 and 2007, respectively. Of these balances, \$31 million and \$54 million were invested as of December 31, 2008 and 2007, respectively, in the JPMorgan Strategic Property Fund a real estate investment fund. The remaining portion of the commingled funds' underlying investments were funds invested in equity securities and bonds. Additionally, the financial statements include investments in a Managed Income Fund valued at \$888 million (35% of net assets) and \$828 million (26% of net assets) as of December 31, 2008 and 2007, respectively. This fund invests in bond funds and guaranteed investment contracts whose fair values have been estimated by management in the absence of readily determinable fair values. Management's estimates regarding the fair value of these commingled and managed income funds are based on information provided by the fund managers.

5. INVESTMENTS EXCEEDING 5% OF PLAN NET ASSETS

Investments exceeding five percent of net assets as of December 31, 2008 and 2007 were:

Edgar Filing: AMERICAN ELECTRIC POWER CO INC - Form 11-K

Total Net (Decline) Appreciation in Investments	\$	(737,313,772)	\$	152,440,809

7. FAIR VALUE MEASUREMENTS

As of January 1, 2008, the Plan adopted the provisions of SFAS 157 for its investments. The statement defines fair value, establishes a fair value measurement framework and expands fair value disclosures. In accordance with SFAS 157, assets and liabilities are classified based on the inputs utilized in the fair value measurement. SFAS 157 provides definitions for two types of inputs: observable and unobservable. Observable inputs are valuation inputs that reflect the assumptions market participants would use in pricing the asset or liability developed based on market data obtained from sources independent of the reporting entity. Unobservable inputs are valuation inputs that reflect the reporting entity's own assumptions about the assumptions market participants would use in pricing the asset or liability developed based on the best information in the circumstances.

As defined in SFAS 157, fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (exit price). SFAS 157 establishes a fair value hierarchy that prioritizes the inputs used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets and liabilities (level 1 measurement) and the lowest priority to unobservable inputs (level 3 measurement).

Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the reporting entity has the ability to access at the measurement date.

Level 2 inputs are inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly or indirectly.

Level 3 inputs are unobservable inputs for the asset or liability. Unobservable inputs shall be used to measure fair value to the extent that the observable inputs are not available, thereby allowing for situations in which there is little, if any, market activity for the asset or liability at the measurement date. Level 3 inputs primarily consist of unobservable market data or are valued based on models and/or assumptions.

The following table sets forth by level within the fair value hierarchy the Plan's assets that were accounted for at fair value on a recurring basis as of December 31, 2008. As required by SFAS 157, financial assets are classified in their entirety based on the lowest level of input that is significant to the fair value measurement. Management's assessment of the significance of a particular input to the fair value measurement requires judgment, and may affect the valuation of fair value assets and their placement within the fair value hierarchy levels.

		Level 1		Level 2	Level 3	Total
Net Assets Available for Benefits:

8. FEDERAL INCOME TAX

The Internal Revenue Service (IRS) has determined that the Plan meets the requirements of Section 401(a) of the Internal Revenue Code (the Code) and recognizes the exempt status of the Plan's Trust pursuant to Section 501(a) of the Code. By letter dated October 14, 2008, the IRS made a favorable determination on the Plan as amended by the various amendments described in the letter.

The Plan has been amended subsequent to the issuance of the IRS determination letter. The Company and Plan management believe that the Plan is currently designed and operated in compliance with the applicable requirements of the Code and that the Plan's Trust continues to be tax-exempt. Therefore, no provision for income taxes has been included in the Plan's financial statements.

9. PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right to discontinue its contributions to the plan at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants remain 100 percent vested in their accounts.

10. EXEMPT PARTY-IN-INTEREST TRANSACTIONS

Certain transactions involving the Plan and its assets involved parties in interest with respect to the Plan, but those transactions were not prohibited transactions under ERISA because of the applicability of one or more exemptions. The exempt party-in-interest transactions involving the Plan included the following: JPMorgan Chase Bank, N.A., has been acting as trustee and custodian under the Plan, while its affiliates have been acting as (a) investment manager for a number of the Plan's investment options, (b) the Plan's record keeper and (c) investment advisor or investment manager for a number of plan participants with respect to the amounts held in their Plan accounts.

At December 31, 2008 and 2007, the Plan held 8,052,649 and 7,367,026 shares, respectively, of common stock of American Electric Power Company, Inc., the Plan Sponsor, with a cost basis of \$290,548,737 and \$266,439,970, respectively. During the years ended December 31, 2008 and 2007, the Plan recorded dividend income of \$12,960,231 and \$12,657,548, respectively, related to this investment.

11. LEGAL ISSUES

In Re AEP ERISA Litigation - In 2002 and 2003, three putative class action lawsuits were filed in Federal District Court, Columbus, Ohio against AEP, certain executives and AEP's ERISA Plan Administrator alleging violations of ERISA in the selection of AEP Common stock as an investment alternative and in the allocation of assets to AEP Common stock. In these actions, the plaintiffs sought recovery of an unstated amount of compensatory damages, attorney fees and costs. Two of the three actions were dropped voluntarily by the plaintiffs in those cases. In 2006, the court entered judgment in the remaining case, denying the plaintiff's motion for class certification and dismissing all claims without prejudice. In 2007, the appeals court reversed the trial court's decision and held that the plaintiff did

have standing to pursue his claim. The appeals court remanded the case to the trial court to consider the issue of whether the plaintiff is an adequate representative for the class of plan participants. In September 2008, the trial court denied the plaintiff's motion for class certification and ordered briefing on whether the plaintiff may maintain an ERISA claim on behalf of the Plan in the absence of class certification. In March 2009, the court granted a motion to intervene on behalf of an individual seeking to intervene as a new plaintiff. The outcome of the litigation cannot be determined at this time.
