UNITED STATES  
SECURITIES AND EXCHANGE COMMISSION  
Washington, D.C. 20549

FORM 10-Q

QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE  
SECURITIES EXCHANGE ACT OF 1934

For the quarterly period ended October 31, 2011

OR

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE  
SECURITIES EXCHANGE ACT OF 1934

For the transition period from \_\_\_\_\_ to \_\_\_\_\_

Commission file number 000-14798

American Woodmark Corporation  
(Exact name of registrant as specified in its charter)

Virginia  
(State or other jurisdiction of  
incorporation or organization)

54-1138147  
(I.R.S. Employer  
Identification No.)

3102 Shawnee Drive, Winchester, Virginia  
(Address of principal executive offices)

22601  
(Zip Code)

(540) 665-9100  
(Registrant's telephone number, including area code)

Not Applicable  
(Former name, former address and former fiscal year, if changed  
since last report)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes  No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if

Edgar Filing: AMERICAN WOODMARK CORP - Form 10-Q

any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes  No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See the definitions of “large accelerated filer,” “accelerated filer” and “smaller reporting company” in Rule 12b-2 of the Exchange Act.

Large accelerated filer	<input type="checkbox"/>	Accelerated filer	<input checked="" type="checkbox"/>
Non-accelerated filer (Do not check if a smaller reporting company)	<input type="checkbox"/>	Smaller reporting company	<input type="checkbox"/>

Indicate by check mark whether the registrant is a shell company (as defined by Rule 12b-2 of the Exchange Act). Yes  No

Indicate the number of shares outstanding of each of the issuer's classes of common stock, as of the latest practicable date.

As of November 28, 2011, 14,357,593 shares of the Registrant’s Common Stock were outstanding.

AMERICAN WOODMARK CORPORATION  
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS  
(Unaudited)

NOTE A--BASIS OF PRESENTATION

The accompanying unaudited condensed consolidated financial statements have been prepared in accordance with U.S. generally accepted accounting principles for interim financial information and with the instructions to Form 10-Q and Article 10 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by U.S. generally accepted accounting principles for complete consolidated financial statements. In the opinion of management, all adjustments (consisting of normal recurring accruals) considered necessary for a fair presentation have been included. Operating results for the three and six month periods ended October 31, 2011 are not necessarily indicative of the results that may be expected for the year ending April 30, 2012. The unaudited condensed consolidated financial statements should be read in conjunction with the audited consolidated financial statements and footnotes in the Company's Annual Report on Form 10-K for the fiscal year ended April 30, 2011 filed with the U.S. Securities Exchange Commission (SEC).

NOTE B--NEW ACCOUNTING PRONOUNCEMENTS

In June 2011, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) No. 2011-05, "Comprehensive Income (Topic 220): Presentation of Comprehensive Income," which requires an entity to present the total of comprehensive income, the components of net income, and the components of other comprehensive income either in a single continuous statement of comprehensive income, or in two separate but consecutive statements. Additionally, ASU 2011-05 eliminates the option to present comprehensive income and its components as part of the statement of shareholders' equity. The ASU does not change the items that must be reported in other comprehensive income. ASU 2011-05 will be effective for the Company beginning May 1, 2012.

NOTE C--COMPREHENSIVE LOSS

The Company's comprehensive loss was \$2.6 million and \$5.0 million for the three months and six months ended October 31, 2011, respectively, and \$7.1 million and \$10.2 million for the three months and six months ended October 31, 2010, respectively. Comprehensive loss differs from net loss due to the changes in the Company's pension benefits liability. See Note J "Pension Benefits" for more information regarding the Company's pension costs.

## NOTE D--EARNINGS (NET LOSS) PER SHARE

The following table sets forth the computation of basic and diluted earnings (net loss) per share:

(in thousands, except per share amounts)	Three Months Ended October 31		Six Months Ended October 31	
	2011	2010	2011	2010
Numerator used for both basic and diluted earnings (net loss) per share:				
Net loss	\$(2,976 )	\$(7,384 )	\$(5,692 )	\$(10,802 )
Denominator:				
Denominator for basic earnings (net loss) per share-weighted average shares	14,331	14,240	14,315	14,231
Effect of dilutive securities:				
Stock options and restricted stock units	--	--	--	--
Denominator for diluted earnings (net loss) per share-weighted average shares and assumed conversions	14,331	14,240	14,315	14,231
Net loss per share				
Basic	\$(0.21 )	\$(0.52 )	\$(0.40 )	\$(0.76 )
Diluted	\$(0.21 )	\$(0.52 )	\$(0.40 )	\$(0.76 )

Potentially dilutive securities of 119,000 and 30,000 shares for the three-month periods ended October 31, 2011 and 2010, respectively, and 134,000 and 36,000 shares for the six-month periods ended October 31, 2011 and 2010, respectively, have not been considered in the calculation of net loss per share, as the effect would be anti-dilutive.

## NOTE E--STOCK-BASED COMPENSATION

The Company has various stock compensation plans. During the quarter ended October 31, 2011, the Board of Directors of the Company approved grants of a total of 20,000 service-based restricted stock units to non-employee directors. These service-based restricted stock units vest daily through the end of the two-year vesting period as long as the recipient remains a member of the Board, and entitle the recipient to receive one share of the Company's common stock per unit granted. During the six months ended October 31, 2011, the Board of Directors of the Company also approved grants of non-statutory stock options and service-based and performance-based restricted stock units to key employees. The employee non-statutory stock option grants totaled 130,000 shares of the Company's common stock with an exercise price of \$18.16 per share. The options vest evenly over a three-year period and have a ten-year contractual term. The employee performance-based restricted stock units totaled 134,250 units and the employee service-based restricted stock units totaled 44,750 units. The performance-based restricted stock units entitle the recipients to receive one share of the Company's common stock per unit granted if applicable performance conditions are met and the recipient remains employed with the Company until the units vest. The service-based units entitle the recipient to receive one share of the Company's common stock per unit granted if they remain employed with the Company until the units vest. The Company's restricted stock units granted to employees cliff-vest three-years from the grant date.

Total compensation expense related to stock-based awards during the three-month periods ended October 31, 2011 and 2010 was \$0.9 million and \$1.0 million, respectively, and for the six-month periods ended October 31, 2011 and

Edgar Filing: AMERICAN WOODMARK CORP - Form 10-Q

2010 was \$1.8 million and \$1.8 million, respectively. For the three-month and six-month periods ended October 31, 2011 and 2010, stock-based compensation expense was allocated as follows:

(in thousands)	Three Months Ended October 31,		Six Months Ended October 31,	
	2011	2010	2011	2010
Cost of sales and distribution	\$ 138	\$ 186	\$ 298	\$ 330
Selling and marketing expenses	187	222	389	399
General and administrative expenses	529	545	1,146	1,071
Stock-based compensation expense	\$ 854	\$ 953	\$ 1,833	\$ 1,800

## NOTE F--CUSTOMER RECEIVABLES

The components of customer receivables were:

(in thousands)	October 31, 2011	April 30, 2011
Gross customer receivables	\$30,505	\$33,039
Less:		
Allowance for doubtful accounts	(98 )	(67 )
Allowance for returns and discounts	(1,735 )	(1,905 )
Net customer receivables	\$28,672	\$31,067

## NOTE G--INVENTORIES

The components of inventories were:

(in thousands)	October 31, 2011	April 30, 2011
Raw materials	\$9,759	\$9,275
Work-in-process	16,662	16,597
Finished goods	8,413	8,679
Total FIFO inventories	34,834	34,551
Reserve to adjust inventories to LIFO value	(10,086 )	(10,080 )
Total LIFO inventories	\$24,748	\$24,471

Interim LIFO calculations are based on management's estimates of expected year-end inventory levels and costs. Since these items are estimated, interim results are subject to the final year-end LIFO inventory valuation.

## NOTE H--PRODUCT WARRANTY

The Company estimates outstanding warranty costs based on the historical relationship between warranty claims and revenues. The warranty accrual is reviewed monthly to verify that it properly reflects the remaining obligation based on the anticipated expenditures over the balance of the obligation period. Adjustments are made when actual warranty claim experience differs from estimates. Warranty claims are generally made within three months of the original shipment date.

The following is a reconciliation of the Company's warranty liability:

(in thousands)	Six Months Ended October 31	
	2011	2010
Beginning balance at May 1	\$1,738	\$1,582
Accrual	4,432	3,151
Settlements	(4,392 )	(3,244 )
Ending balance at October 31	\$1,778	\$1,489

## NOTE I--CASH FLOW

Supplemental disclosures of cash flow information:

(in thousands)	Six Months Ended October 31	
	2011	2010
Cash paid during the period for:		
Interest	\$185	\$181
Income taxes	\$160	\$204

## NOTE J--PENSION BENEFITS

Net periodic pension cost consisted of the following for the three months and six months ended October 31, 2011 and 2010.

(in thousands)	Three Months Ended October 31		Six Months Ended October 31	
	2011	2010	2011	2010
Service cost	\$1,283	\$1,180	\$2,566	\$2,359
Interest cost	1,677	1,567	3,353	3,134
Expected return on plan assets	(1,656 )	(1,540 )	(3,312 )	(3,080 )
Amortization of net loss	522	499	1,044	998
Amortization of prior service cost	20	21	40	43
Net periodic pension cost	\$1,846	\$1,727	\$3,691	\$3,454

The Company expects to contribute \$2.9 million to its pension plans in fiscal 2012, which represents both required and discretionary funding. As of October 31, 2011, \$0.5 million of contributions have been made. The Company was not required to make, and did not make, any contributions to the pension plans in fiscal 2011.

## NOTE K—FAIR VALUE MEASUREMENTS

The Company utilizes the hierarchy of fair value measurement to classify certain of its assets and liabilities based upon the following definitions:

Level 1- Investments with quoted prices in active markets for identical assets or liabilities. The Company's cash equivalents are invested in money market funds, mutual funds and United States Treasury instruments. The Company's mutual fund investment assets represent contributions made and invested on behalf of the Company's named executive officers in a supplementary employee retirement plan.

Level 2- Investments with observable inputs other than Level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities. The Company has no Level 2 assets or liabilities.

Level 3- Investments with unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities. The

Company has no Level 3 assets or liabilities.

The following table summarizes the fair values of assets that are recorded in the Company's unaudited condensed consolidated financial statements as of October 31, 2011 and April 30, 2011 at fair value on a recurring basis (in thousands):

	Fair Value Measurements As of October 31, 2011		
	Level 1	Level 2	Level 3
ASSETS:			
Money market funds	\$46,227	\$--	\$--
Mutual funds	1,504	--	--
Total assets at fair value	\$47,731	\$--	\$--
	As of April 30, 2011		
	Level 1	Level 2	Level 3
ASSETS:			
Money market funds	\$61,226	\$--	\$--
Mutual funds	1,574	--	--
Total assets at fair value	\$62,800	\$--	\$--

NOTE L--OTHER INFORMATION

The Company is involved in suits and claims in the normal course of business, including without limitation product liability and general liability claims and claims pending before the Equal Employment Opportunity Commission. On at least a quarterly basis, the Company consults with its legal counsel to ascertain the reasonable likelihood that such claims may result in a loss. As required by FASB Accounting Standards Codification Topic 450, "Contingencies," (ASC 450), the Company categorizes the various suits and claims into three categories according to their likelihood for resulting in potential loss: those that are probable, those that are reasonably possible, and those that are deemed to be remote. The Company accounts for these loss contingencies in accordance with ASC 450. Where losses are deemed to be probable and estimable, accruals are made. Where losses are deemed to be reasonably possible or remote, a range of loss estimates is determined and considered for disclosure. Where no loss estimate range can be made, the Company and its counsel perform a worst-case estimate. In determining these loss range estimates, the Company considers known values of similar claims and consults with independent counsel.

The Company believes that the aggregate range of loss stemming from the various suits and asserted and unasserted claims which were deemed to be either probable or reasonably possible was not material as of October 31, 2011.

Item 2.

Management's Discussion and Analysis of Financial Condition  
and Results of Operations

The following discussion should be read in conjunction with our unaudited condensed consolidated financial statements and the related notes, both of which are included in Part I, Item 1 of this report. The Company's critical accounting policies are included in the Company's Annual Report on Form 10-K for the fiscal year ended April 30, 2011.

Forward-Looking Statements

This report contains statements concerning the Company's expectations, plans, objectives, future financial performance, and other statements that are not historical facts. These statements are "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995. In most cases, the reader can identify these forward-looking statements by words such as "anticipate," "estimate," "forecast," "expect," "believe," "should," "could," "would," "plan," "may" or other similar words. Forward-looking statements contained in this report, including in Management's Discussion and Analysis of Financial Condition and Results of Operations, are based on current expectations and our actual results may differ materially from those projected in any forward-looking statements. In addition, the Company participates in an industry that is subject to rapidly changing conditions and there are numerous factors that could cause the Company to experience a decline in sales and/or earnings or deterioration in financial condition. These include:

- general economic or business conditions and instability in the financial and credit markets, including their potential impact on our (i) sales and operating costs and access to financing, (ii) customers and suppliers and their ability to obtain financing or generate the cash necessary to conduct their respective businesses;
- the cyclical nature of the Company's industry, which is particularly sensitive to changes in consumer confidence, the amount of consumers' income available for discretionary purchases, and the availability and terms of consumer credit;
  - economic weakness in a specific channel of distribution;
- the loss of sales from specific customers due to their loss of market share, bankruptcy or switching to a competitor;
- risks associated with domestic manufacturing operations, including fluctuations in capacity utilization and the prices and availability of key raw materials as well as fuel, transportation, warehousing and labor costs and environmental compliance and remediation costs;
  - the need to respond to price or product initiatives launched by a competitor;
- the Company's ability to successfully implement initiatives related to increasing market share, new products, maintaining and increasing its sales force and new product displays; and
- sales growth at a rate that outpaces the Company's ability to install new capacity or a sales decline that requires reduction or realignment of the Company's manufacturing capacity.

Additional information concerning the factors that could cause actual results to differ materially from those in forward-looking statements is contained in this report, including elsewhere in Management's Discussion and Analysis of Financial Condition and Results of Operations and also in the Company's most recent Annual Report on Form 10-K for the fiscal year ended April 30, 2011, filed with the U.S. Securities and Exchange Commission, including under "Management's Discussion and Analysis of Financial Condition and Results of Operations," Item 1A, "Risk Factors," and Item 7A, "Quantitative and Qualitative Disclosures about Market Risk." While the Company believes that these risks are manageable and will not adversely impact the long-term performance of the Company, these risks could, under certain circumstances, have a material adverse impact on its operating results and financial condition.

Any forward-looking statement that the Company makes, speaks only as of the date of this report. The Company undertakes no obligation to publicly update or revise any forward-looking statements or cautionary factors, as a result of new information, future events or otherwise, except as required by law.

## Overview

American Woodmark Corporation manufactures and distributes kitchen cabinets and vanities for the remodeling and new home construction markets. Its products are sold on a national basis directly to home centers, major builders and home manufacturers, and through a network of independent dealers and distributors. At October 31, 2011, the Company operated 11 manufacturing facilities and 9 service centers across the country.

The three-month period ended October 31, 2011 was the Company's second quarter of its fiscal year that ends on April 30, 2012 (fiscal 2012). During the second quarter of fiscal 2012, the Company experienced a continuation of, but slight uptick in, the difficult housing market conditions that have prevailed since the market peaked in 2006. In new home construction, total homes started during the first 6 months of the Company's fiscal year 2012 approximated an annualized level of 608,000, up 7% above prior year levels, but still only approximately 40% of their long-term average. In remodeling, existing homes sold during the same period were about 4% above the same period of the prior year. Gross private fixed investment in residential property, as supplied by the Bureau of Economic Analysis, declined by 1% during the first half of fiscal 2012, and remained well below half of their peak levels. Cabinet sales reported by members of the Kitchen Cabinet Manufacturers Association (KCMA) were also down by low single-digits in the first half of fiscal 2012. Since the KCMA data was down slightly but includes both new construction (which appears to have increased with housing starts) and remodeling sales, it appears that market remodeling sales declined during the first half of fiscal 2012.

Faced with these challenging market conditions, the Company's largest remodeling customers and competitors have continued to utilize aggressive sales promotions in the Company's product category to boost sales. These promotions typically included free products and cash discounts to consumers based upon the amount and/or type of cabinets they purchased. The Company's competitors have participated vigorously in these promotional activities and the Company has generally chosen to set its promotional offerings in line with those of its competitors. Price-conscious consumers responded favorably to these promotional offerings and the Company realized increased sales volumes. The Company's remodeling sales rose by more than 10% during the second quarter of fiscal 2012 and by more than 20% during its first half when compared to the same periods in fiscal 2011.

The Company also realized strong sales gains in its new construction channel, where sales increased by more than 20% in the second quarter and by more than 10% in the first half of fiscal 2012 when compared to the same periods of fiscal 2011, each outpacing the improvement in housing starts.

Despite a flat overall market, the Company's net sales rose by 19% during the second quarter of fiscal 2012 and by 20% during its first half, indicative of strong market share gains in both its remodeling and new construction sales channels. The Company's sales increase helped the gross margin rate improve to 12.5% in the second quarter of fiscal 2012, compared with 9.1% in the prior year's second quarter and to 13.3% in the first half of fiscal 2012, compared with 11.2% in the prior year's first half. The improvement in the Company's gross margin during the three- and six-month periods was driven by the beneficial impact of increased sales volume upon direct labor and manufacturing overhead costs. These beneficial factors were partially offset by the unfavorable impact of higher material and fuel costs during both periods and by the impact of higher sales promotion costs in the six-month period.

Despite the present housing market downturn, the Company believes that the long-term fundamentals for the American housing industry continue to remain positive, based upon continued population and household growth, favorable demographics, job creation and low long-term interest rates. Based upon this belief, the Company has continued to invest in improving its operations and its capabilities to service its customers. The Company remains focused on growing its market share and continuing to invest in developing and launching new products and expanding its marketing reach to new customers.

The Company regularly assesses its long-lived assets to determine if any impairment has occurred, and regularly evaluates its deferred tax assets to determine whether a valuation allowance is necessary. Although the Company is presently operating at a loss in what appears to be the bottom of the housing market, the Company expects that a combination of continued market share gains and cost containment will enable it to return to profitability. Accordingly, the Company has concluded that neither its long-lived assets pertaining to its 11 manufacturing plants or any of its other long-lived assets were impaired and that no valuation allowance on its deferred tax assets was necessary as of October 31, 2011.

## Results of Operations

(in thousands)	Three Months Ended October 31			Six Months Ended October 31			
	2011	2010	Percent Change	2011	2010	Percent Change	
Net Sales	\$128,418	\$107,613	19 %	\$259,617	\$216,916	20 %	%
Gross Profit	16,114	9,816	64 %	34,521	24,203	43 %	%
Selling and Marketing Expenses	14,508	15,805	(8 %)	30,484	29,908	2 %	%
General and Administrative Expenses	6,166	6,040	2 %	12,507	11,862	5 %	%

Net Sales. Net sales were \$128.4 million for the second quarter of fiscal 2012, an increase of 19% as compared with the second quarter of fiscal 2011. For the first six months of fiscal 2012, net sales were \$259.6 million, reflecting a 20% increase compared with the same period of fiscal 2011. Overall unit volume for the three- and six-month periods ended October 31, 2011 improved by 12% and 14%, respectively. Average revenue per unit increased by 7% and 5% during the three- and six-month periods ended October 31, 2011, respectively, driven by improvements in the Company's sales mix.

Gross Profit. Gross profit margin for the second quarter of fiscal 2012 was 12.5%, compared with 9.1% for the same period of fiscal 2011. Gross profit margin was 13.3% for the first half of fiscal 2012, compared with 11.2% in the first half of fiscal 2011. Overhead and labor costs were reduced by a combined 5.0% of net sales in the second quarter of fiscal 2012 and 4.9% in the first half, as compared with the comparable prior year periods. The increase in gross profit margin for the second quarter and first six months of fiscal 2012 was primarily due to the improvement in sales, which in turn drove improved labor efficiencies and more favorable absorption of fixed overhead costs compared with the same periods of fiscal 2011.

Higher sales promotion costs partially offset these improvements during the six-month period, as these costs increased by 1.5% of net sales compared with the same period in the prior year. Sales promotional costs incurred during the Company's second quarter of fiscal 2012 were essentially in line with cost levels incurred for these activities during the previous four quarters. The prior year's first quarter marked the last time that sales promotional levels were at a lower, more traditional cost level. For this reason, sales promotional costs were relatively flat for the second quarter of fiscal 2012 compared with prior year. Since most of these sales promotions involved the use of free product or reimbursements back to the Company's large retail customers, their associated costs were deducted from gross margin as opposed to being classified as operating expenses. Materials and freight costs also increased by 1.6% and 1.3% of net sales, respectively, during the second quarter and first six months of fiscal 2012, as a result of inflationary pressures in finishing materials, lumber, cartons, imported components and diesel fuel.

Selling and Marketing Expenses. Selling and marketing expenses were 11.3% of sales in the second quarter of fiscal 2012, compared with 14.7% of sales for the same period in fiscal 2011. For the first six months of fiscal 2012, selling and marketing costs were 11.7% of sales, compared with 13.8% of sales for the same period of fiscal 2011. Sales and marketing costs decreased by 8% in relation to the 19% increase in net sales for the second quarter of fiscal 2012, and increased by 2% in relation to the 20% increase in net sales for the first half of fiscal 2012. Although the breadth of the Company's fall product launch was in line with both its recent launches and with its internal product release schedule, efficiencies from lower marketing collateral costs were of a sufficient magnitude to reduce overall cost levels.

General and Administrative Expenses. General and administrative expenses were 4.8% of sales in both the second quarter and first half of fiscal 2012, compared with 5.6% of sales in the prior year's second quarter and 5.5% of sales in the prior year's first half. The Company's general and administrative costs increased by 2% during the second quarter and 5% during the first six months of fiscal 2012 compared with the prior year, driven by increased

incentive-based compensation expenses. As of October 31, 2011, the Company had approximately \$0.1 million of accounts with aggregate receivables from customers with a higher perceived level of risk.

**Effective Income Tax Rates.** The Company's effective income tax rates for the second quarter and first six months of fiscal 2012 were 34.2% and 32.5%, respectively, as compared with 38.3% in the comparable periods of fiscal 2011. The lower effective tax rates in fiscal 2012 were the result of the Company operating at a lower net loss than prior year, coupled with less favorable permanent tax differences and a tax basis adjustment.

**Outlook.** The Company expects the continuing impact of housing supply overhang, unemployment and weak consumer confidence will cause the remodeling and new construction markets for its products to remain subdued until these conditions are resolved. The Company believes that if changes in the economic and political climate can help to enable consumer confidence to be restored to its levels reached earlier in the calendar year, then housing starts may increase during fiscal 2012 by approximately 10%, and that the remodeling market may be flat to slightly positive.

## LIQUIDITY AND CAPITAL RESOURCES

The Company's cash, cash equivalents and restricted cash totaled \$71.5 million at October 31, 2011, representing a \$1.7 million increase from its April 30, 2011 balance, and a \$1.2 million increase from October 31, 2010. At October 31, 2011, total long-term debt (including current maturities) was \$25.3 million, down \$0.3 million from its balance at April 30, 2011 and down \$0.9 million from October 31, 2010. The Company's ratio of long-term debt to total capital was 14.0% at October 31, 2011 compared with 13.8% at April 30, 2011.

The Company's main source of liquidity is its existing cash and cash equivalents on hand and cash generated from its operating activities. The Company maintains a \$35 million secured revolving credit facility with Wells Fargo Bank, N.A. (Wells Fargo). Pursuant to the terms of the Wells Fargo credit facility, \$14.4 million of the Company's cash served as security for borrowings under this facility and was classified as restricted cash at both October 31, 2011 and April 30, 2011.

Cash provided by operating activities in the first half of fiscal 2012 was \$7.9 million, compared with \$7.6 million in the comparable period of fiscal 2011. The prior year's operating cash flows included the beneficial impact of approximately \$7 million of incremental tax refunds received. Excluding this favorability, the Company's operating activities generated an additional \$7.3 million of increased cash during the first half of fiscal 2012, driven primarily by the \$5.1 million reduction in the Company's net loss, as well as the timing of cash receipts and disbursements.

The Company's primary investing activities are capital expenditures and investments in promotional displays. Cash used for capital expenditures and promotional displays was \$4.6 million in the first half of fiscal 2012, compared with \$3.9 million in the comparable period of fiscal 2011. Net cash used for investing activities was \$2.2 million higher in the first half of fiscal 2012 compared with prior year, driven by the \$0.7 million increase in capital outflows, as well as the absence of \$1.5 million in proceeds received in the prior year from the sale of a closed plant. Capital expenditures made in both six-month periods of fiscal 2011 and 2012 did not include any new plant construction activities. The Company expects its investments in capital expenditures and promotional displays for fiscal 2012 will increase to approximately \$10 million for fiscal 2012, up from \$8.4 million in fiscal 2011.

The Company's financing activities typically consist of returning a portion of its free cash flow (defined as net cash provided by operating activities less net cash used for investing activities) to its shareholders and repayments of debt, net of any proceeds received from the exercise of stock options. During the first half of fiscal 2012, net cash used by financing activities was \$1.6 million, compared with net cash used in the comparable period of fiscal 2011 of \$2.5 million. The primary use of cash for financing activities during both periods was to return cash to the Company's shareholders in the form of dividends. Despite the Company's strong liquidity and positive free cash flow, the

Company's Board of Directors elected to suspend the Company's regular quarterly dividend during its meeting on August 25, 2011. This decision was made in consideration of recent events, both in the US and abroad, that have significantly increased the level of economic uncertainty and reduced consumer confidence. The Company made no repurchases of its common stock during either period and had \$93.3 million of remaining stock repurchases authorized by its Board of Directors as of October 31, 2011.

The Company generated positive free cash flow of \$3.2 million in the first half of fiscal 2012, compared with \$5.2 million in the first half of fiscal 2011. Excluding the prior year favorability from the increased income tax refund and the building sale which aggregated \$8.5 million, the Company's free cash flow improved by \$6.5 million during the first half of fiscal 2012, driven primarily by the \$5.1 million reduction in its net loss.

The Company can borrow up to \$35 million under its revolving credit facility with Wells Fargo; however, its aggregate debt under the credit facility cannot exceed the collateral value of the Company's cash and specified investments held in accounts pledged to the credit facility issuer. At October 31, 2011, \$10 million of loans and \$3.7 million of letters of credit were outstanding under the credit facility, and \$14.4 million of the Company's cash was held as security. Under the terms of the credit facility, the Company must maintain at the end of each fiscal quarter a ratio of total liabilities to tangible net worth not greater than 0.9 to 1.0 and must comply with other customary affirmative and negative covenants. The Company's ratio of total liabilities to tangible net worth at October 31, 2011 was 0.8 to 1.0. The credit facility does not limit the Company's ability to use unrestricted cash to pay dividends or repurchase its common stock as long as the Company maintains the required ratio of total liabilities to tangible net worth. As of October 31, 2011, the Company was in compliance with all covenants specified in the credit facility.

The Company's cash flow from operations combined with accumulated cash and cash equivalents on hand are expected to be more than sufficient to support forecasted working capital requirements, service existing debt obligations, and fund capital expenditures for the remainder of fiscal 2012.

The timing of the Company's contractual obligations as of April 30, 2011 is summarized in the table below.

(in thousands)	Total Amounts	FISCAL YEARS ENDED APRIL 30			
		2012	2013 – 2014	2015 – 2016	2017 and Thereafter
Revolving credit facility	\$10,000	\$--	\$10,000	\$--	\$--
Economic development loans	3,524	--	--	--	3,524
Term loans	4,359	416	761	763	2,419
Capital lease obligations	7,700	512	1,057	1,099	5,032
Interest on long-term debt(a)	2,494	500	731	556	707
Operating lease obligations	15,772	3,707	5,909	5,079	1,077
Pension contributions(b)	35,936	2,871	18,565	14,500	--
<b>Total</b>	<b>\$79,785</b>	<b>\$8,006</b>	<b>\$37,023</b>	<b>\$21,997</b>	<b>\$12,759</b>

(a) Interest commitments under interest bearing debt consist of interest under the Company's primary loan agreement, term loans and capitalized lease agreements. Amounts outstanding under the Company's revolving credit facility, \$10 million at April 30, 2011, bear a variable interest rate determined by the London Interbank Offered Rate (LIBOR) plus 1.25%. Interest under the Company's term loans and capitalized lease agreements is fixed at rates between 2% and 6%. Interest commitments under interest bearing debt for the Company's revolving credit facility are at LIBOR plus the spread as of April 30, 2011, throughout the remaining term of the facility.

(b) The estimated cost of the Company's two defined benefit pension plans is determined annually based upon the discount rate and other assumptions at fiscal year end. Future pension funding contributions beyond 2016 have not been determined at this time.

### Seasonal and Inflationary Factors

The Company's business has historically been subject to seasonal influences, with higher sales typically realized in the second and fourth fiscal quarters.

The costs of the Company's products are subject to inflationary pressures and commodity price fluctuations. The Company has generally been able over time to recover the effects of inflation and commodity price fluctuations through sales price increases.

### Critical Accounting Policies

The Company bases its estimates on historical experience and on various other assumptions that are believed to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates under different assumptions or conditions. There have been no significant changes to the Company's critical accounting policies as disclosed in the Company's Annual Report on Form 10-K for the fiscal year ended April 30, 2011.

### Item 3. Quantitative and Qualitative Disclosures of Market Risk

On October 31, 2011, the Company had no material exposure to changes in interest rates for its debt agreements.

The Company does not currently use commodity or interest rate derivatives or similar financial instruments to manage its commodity price or interest rate risks. See "Seasonal and Inflationary Factors" in Management's Discussion and Analysis above for additional information regarding the effects inflation and commodity price fluctuations have on the costs of the Company's products.

### Item 4. Controls and Procedures

Senior management, including the Chief Executive Officer and Chief Financial Officer, evaluated the effectiveness of the design and operation of the Company's disclosure controls and procedures as of October 31, 2011. Based on this evaluation, the Chief Executive Officer and Chief Financial Officer have concluded that the Company's disclosure controls and procedures are effective. In addition, there have been no changes in the Company's internal control over financial reporting that occurred during the quarter ended October 31, 2011 that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

## PART II. OTHER INFORMATION

### Item 1. Legal Proceedings

The Company is involved in various suits and claims in the normal course of business all of which constitute ordinary, routine litigation incidental to the Company's business. The Company does not have any litigation that does not constitute ordinary, routine litigation incidental to its business.

### Item 1A. Risk Factors

Risk factors that may affect the Company's business, results of operations and financial condition are described below. This description includes any material changes to, and supersedes, the description of risk factors associated with the Company's business previously disclosed in Part I, Item 1A, "Risk Factors" of the Company's Annual Report on Form 10-K for the fiscal year ended April 30, 2011. Additional risks and uncertainties not presently known to the Company

or that it currently believes to be immaterial also may become important factors that affect the Company. The risks described below should be considered in addition to all the other information provided in this report, in the Company's Annual Report on Form 10-K for the fiscal year ended April 30, 2011, and in the Company's subsequent filings with the Securities and Exchange Commission. Any of the following risks could materially and adversely affect the Company's business, results of operations and financial condition.

The Company's business is dependent upon remodeling activity and residential construction. The Company's results of operations are affected by levels of home improvement and residential construction activity, including repair and remodeling and new construction. Job creation levels, interest rates, availability of credit, energy costs, consumer confidence, national and regional economic conditions, and weather conditions and natural disasters can significantly impact levels of home improvement and residential construction activity.

Prolonged economic downturns may adversely impact the Company's sales, earnings and liquidity. Through fiscal year 2011, the Company's sales levels have fallen 46% from their peak levels in 2006. The Company's industry historically has been cyclical in nature and has fluctuated with economic cycles, including the current housing downturn. During economic downturns, the Company's industry could experience longer periods of recession and greater declines than the general economy. The Company believes that its industry is significantly influenced by economic conditions generally and particularly by housing activity, consumer confidence, the level of personal discretionary spending, demographics and credit availability. These factors not only may affect the ultimate consumer of the Company's products, but also may impact home centers, builders and the Company's other primary customers. As a result, a continuation or worsening of current conditions could adversely affect the Company's sales and earnings as well as its cash flow and liquidity.

The Company's future financial performance depends in part on the success of its new product development and other growth strategies. The Company has increased its emphasis on new product development in recent years and continues to focus solely on organic growth. Consequently, the Company's financial performance will, in part, reflect its success in implementing its growth strategies in its existing markets and in introducing new products.

The loss of, or a reduction in business from, either of the Company's key customers would have a material adverse effect upon its business. The size and importance to the Company of its two largest customers is significant. These customers could make significant changes in their volume of purchases and could otherwise significantly affect the terms and conditions on which the Company does business. Sales to The Home Depot and Lowe's Companies, Inc. were approximately 73% of total company sales for fiscal 2011. Although builders, dealers, and other retailers represent other channels of distribution for the Company's products, an unplanned loss of a substantial portion of sales to The Home Depot or Lowe's Companies, Inc. would have a material adverse impact on the Company.

Manufacturing realignments and cost savings programs could result in a decrease in the Company's near-term earnings and liquidity. The Company continually reviews its manufacturing operations. These reviews could result in manufacturing realignments and cost savings programs, such as the consolidation and integration of facilities, functions, systems, or procedures, which in turn could result in a charge that would decrease near-term earnings and liquidity until the expected cost reductions are achieved. Any such realignments would likely result in significant costs including, among others, severance, impairment, exit, and disposal costs and capital expenditures.

Impairment charges could reduce the Company's profitability. The Company has significant long-lived tangible, intangible and deferred tax assets recorded on its balance sheets. If operating results decline, the Company could incur impairment charges, which could have a material impact on its financial results. The Company evaluates the recoverability of the carrying amount of its long-lived tangible, intangible and deferred tax assets on an ongoing basis. The outcome of future reviews could result in substantial impairment charges. Impairment assessments inherently involve judgments as to assumptions about market conditions and the Company's ability to generate future cash flows and profitability, given those assumptions. Future events and changing market conditions may impact the Company's assumptions as to prices, costs or other factors that may result in changes in the Company's estimates. Although the Company believes the assumptions used in testing for impairment are reasonable, significant changes in these assumptions could produce a significantly different result.

The Company's operating results are affected by the cost and availability of raw materials. Because the Company is dependent on outside suppliers for raw material needs, it must obtain sufficient quantities of quality raw materials from its suppliers at acceptable prices and in a timely manner. The Company has no long-term supply contracts with its key suppliers. A substantial decrease in the availability of products from the Company's suppliers, the loss of key supplier arrangements, or a substantial increase in the cost of its raw materials could adversely impact the Company's results of operations.

The Company may not be able to maintain or raise the prices of its products in response to inflation and increasing costs. Short-term market and competitive pressures may prohibit the Company from raising prices to offset inflationary raw material and freight costs, which would adversely impact profit margins.

Additional risks and uncertainties that may affect the Company's business, results of operations and financial condition are discussed in this report and in the Company's Annual Report on Form 10-K for the fiscal year ended April 30, 2011, including in Item 7A, "Quantitative and Qualitative Disclosures about Market Risk" and in "Management's Discussion and Analysis of Financial Condition and Results of Operations" under the headings "Forward-Looking Statements," and "Outlook for Fiscal 2012."

## Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

On August 24, 2007, the Company announced that the Company's Board of Directors approved the repurchase of up to \$100 million of the Company's common stock. This authorization has no expiration date. In the second quarter of fiscal 2012, the Company did not repurchase any shares under this authorization. At October 31, 2011, \$93.3 million remained authorized by the Company's Board of Directors to repurchase shares of the Company's common stock.

Item 6. Exhibits

Exhibit Number	Description
3.1 (a)	Articles of Incorporation as amended effective August 12, 1987 (incorporated by reference to Exhibit 3.1 to the Registrant's Form 10-Q for the quarter ended January 31, 2003; Commission File No. 000-14798).
3.1 (b)	Articles of Amendment to the Articles of Incorporation effective September 10, 2004 (incorporated by reference to Exhibit 3.1 to the Registrant's Form 8-K as filed on August 31, 2004; Commission File No. 000-14798).
3.2	Bylaws – as amended and restated December 14, 2009 (incorporated by reference to Exhibit 3.2 to the Registrant's Form 10-K for the fiscal year ended April 30, 2010; Commission File No. 000-14798).
4.1	The Articles of Incorporation and Bylaws of the Registrant as currently in effect (incorporated by reference to Exhibits 3.1 and 3.2).
4.2	Amended and Restated Stockholder's Agreement (incorporated by reference to Exhibit 4.2 to the Registrant's Form S-1 for year ended April 30, 1986; Commission File No. 33-6245).
	Pursuant to Regulation S-K, Item 601(b)(4)(iii), instruments that define the rights of holders of the Registrant's long-term debt securities, where the long-term debt securities authorized under each such instrument do not exceed 10 percent of the Registrant's total assets, have been omitted and will be furnished to the Securities and Exchange Commission on request.
10.1	Form of Grant Letter used in connection with awards of service-based restricted stock units granted under the Company's 2011 Non-Employee Directors Equity Ownership Plan (Filed Herewith).*
31.1	Certification of the Chief Executive Officer Pursuant to Rule 13a-14(a) of the Exchange Act (Filed Herewith).
31.2	Certification of the Chief Financial Officer Pursuant to Rule 13a-14(a) of the Exchange Act (Filed Herewith).
32.1	Certification of the Chief Executive Officer and Chief Financial Officer Pursuant to Rule 13a-14(b) of the Exchange Act and 18 U.S.C. Section 1350, as Adopted Pursuant to Section 906 of the Sarbanes-Oxley Act of 2002 (Filed Herewith).
101	Interactive Data File for the Registrant's Quarterly Report on Form 10-Q for the quarter ended October 31, 2011 formatted in XBRL (eXtensible Business Reporting Language): (i) Condensed Consolidated Balance Sheets, (ii) Condensed Consolidated Statements of Operations, (iii) Condensed Consolidated Statements of Cash Flows, and (iv) Notes to Condensed

Consolidated Financial Statements (Filed Herewith).#
