PPG INDUSTRIES INC
Form 10-Q
July 20, 2018

UNITED STATES
SECURITIES AND EXCHANGE COMMISSION
WASHINGTON, D.C. 20549

FORM 10-Q

QUARTERLY REPORT UNDER SECTION 13 or 15(d) OF
THE SECURITIES EXCHANGE ACT OF 1934
For Quarter Ended June 30, 2018
Commission File Number 1-1687

PPG INDUSTRIES, INC.
(Exact name of registrant as specified in its charter)

Pennsylvania	25-0730780
(State or other jurisdiction of incorporation or organization)	(I.R.S. Employer Identification No.)
One PPG Place, Pittsburgh, Pennsylvania	15272
(Address of principal executive offices)	(Zip Code)

(412) 434-3131
(Registrant’s telephone number, including area code)

Indicate by check mark whether the Registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months, and (2) has been subject to such filing requirements for the past 90 days.   Yes ý No ¨
Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files).   Yes ý   No ¨
Indicate by check mark whether the Registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, a smaller reporting company, or an emerging growth company. See the definitions of “large accelerated filer,” “accelerated filer,” “smaller reporting company,” and "emerging growth company" in Rule 12b-2 of the Exchange Act. (Check one):

Large accelerated filer ý	Accelerated filer o
Non-accelerated filer o (Do not check if a smaller reporting company)	Smaller reporting company o
	Emerging growth company o

If an emerging growth company, indicate by check mark if the Registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act. ¨
Indicate by check mark whether the Registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act).   Yes ¨   No ý
As of June 30, 2018, 242,018,104 shares of the Registrant’s common stock, par value $1.66 2/3 per share, were outstanding.

EXPLANATORY NOTE

As described in additional detail in the Explanatory Note to its amended Annual Report on Form 10-K/A for the year ended December 31, 2017 (the “2017 Form 10-K/A”), PPG Industries, Inc. (together with its subsidiaries, the "Company" or "PPG") restated its audited consolidated financial statements for the years ended December 31, 2017 and 2016 and certain unaudited quarterly results related to the quarters ended December 31, 2016, March 31, 2017, June 30, 2017, September 30, 2017 and December 31, 2017, including the six months ended June 30, 2017, in its 2017 Form 10-K/A as a result of certain misstatements identified by the Company. The impact of the restatement on the Company's condensed consolidated financial statements included herein is further described in Note 2, "Restatement of Previously Reported Condensed Consolidated Quarterly Financial Statements."

PPG INDUSTRIES, INC. AND SUBSIDIARIES
Notes to Condensed Consolidated Financial Statements (Unaudited)

1. Basis of Presentation
The condensed consolidated financial statements included herein are unaudited and have been prepared following the requirements of the Securities and Exchange Committee (the "SEC") and accounting principles generally accepted in the United States of America ("U.S. GAAP") for interim reporting. Under these rules, certain footnotes and other financial information that are normally required for annual financial statements can be condensed or omitted. These statements include all adjustments, consisting only of normal, recurring adjustments, necessary for a fair presentation of the financial position of PPG as of June 30, 2018, and the results of its operations and cash flows for the three and six months ended June 30, 2018 and 2017. All intercompany balances and transactions have been eliminated. Material subsequent events are evaluated through the report issuance date and disclosed where applicable. These condensed consolidated financial statements should be read in conjunction with the consolidated financial statements and notes included in PPG's 2017 Form 10-K/A .
Net sales, expenses, assets and liabilities can vary during each quarter of the year. Accordingly, the results of operations for the three and six months ended June 30, 2018 and the trends in these unaudited condensed consolidated financial statements may not necessarily be indicative of the results to be expected for the full year.
Certain prior period amounts have been reclassified to conform to the current period presentation and reflect the adoption of certain accounting standard updates, including the information presented for our reportable segments. These reclassifications had no impact on our previously reported net income, total assets, cash flows or shareholders' equity.
2. Restatement of Previously Reported Condensed Consolidated Quarterly Financial Statements
As described in additional detail in the Explanatory Note to its 2017 Form 10-K/A, the Company restated its audited consolidated financial statements for the years ended December 31, 2017 and 2016 and certain unaudited quarterly results related to the quarters ended December 31, 2016, March 31, 2017, June 30, 2017, September 30, 2017 and December 31, 2017, including the six months ended June 30, 2017.
On April 16, 2018, PPG received a report through the Company's internal reporting system alleging violations of the Company's accounting policies and procedures regarding the failure to accrue certain specified expenses in the first quarter of 2018. Based on the Company's initial review at that time, the Company identified approximately $1.4 million of expenses (including legal fees, property taxes and performance-based compensation) that should have been accrued in the first quarter of 2018 and that were then reflected in PPG's earnings for the quarter ended March 31, 2018, released on April 19, 2018. In addition, the report alleged that there may have been other unspecified expenses, potentially up to $5 million in the aggregate, that were improperly not accrued in the first quarter.
The Audit Committee of the Board of Directors (the "Audit Committee") oversaw an investigation of the matters set forth in the internal report, with the assistance of outside counsel and forensic accountants. The investigation identified the following items with respect to the quarter ended March 31, 2018, in addition to the approximately $1.4 million of expenses described above: (1) failure to record amortization expense in the amount of $1.4 million to correct for amortization of an intangible asset that was inadvertently not recorded over a three-year period and discovered in March 2018; (2) understatement of a health insurance accrued liability in the amount of $0.5 million; and (3) failure to record an adjustment increasing the value of inventory in PPG's Europe, Middle East and Africa region in the amount of $2.2 million due to inflation of raw materials costs which, when corrected, had a positive effect on income in the first quarter of 2018. These three items resulted in a net increase to income from continuing operations before income taxes of approximately $0.3 million.
The investigation also identified certain inadvertent errors with respect to the quarter ended March 31, 2018. Correction of such inadvertent errors, together with the matters discussed in the immediately preceding paragraph, resulted in a net decrease in income from continuing operations before income taxes of $5.7 million for the quarter ended March 31, 2018.
The investigation identified the following items with respect to the year ended December 31, 2017: (1) improper reclassifications of gains from income from discontinued operations to income from continuing operations in total

pre-tax amounts of $2.5 million in the quarter ended June 30, 2017 and $4.7 million in the quarter ended December 31, 2017; (2) improper shifting of pre-tax expenses between quarterly periods in 2017, including a total of $3.5 million in compensation expense recorded in the third and fourth quarters of 2017 that should have been recorded in the quarter ended June 30, 2017; an additional expense accrual for health care claims in the amount of $3.5 million recorded in

---

Table of Contents

the third quarter of 2017 that should have been recorded in the quarter ended June 30, 2017; and additional expense for paid vacation in the amount of $2.2 million recorded in the quarter ended December 31, 2017 that should have been recorded in the second and third quarters of 2017.

The investigation also identified an improper reduction in the payout assumption for certain performance-based restricted stock units that had the impact of recognizing a $6.8 million reduction in stock based compensation expense in the fourth quarter of 2016. In the first quarter of 2017, the payout assumption for these same performance-based restricted stock units was increased, resulting in $6.8 million of stock-based compensation expense in the first quarter of 2017 that would not have been recorded if the payout assumption had not been reduced in the fourth quarter of 2016.

On May 10, 2018, management, in consultation with the Audit Committee and the Company’s independent registered public accounting firm, PricewaterhouseCoopers LLP ("PwC"), concluded that the Company’s consolidated financial statements for the year ended December 31, 2017 included in the Company's originally filed 2017 Annual Report on Form 10-K and the related report of PwC, and for the quarterly and year-to-date periods in 2017, should no longer be relied upon because of certain misstatements contained in those financial statements.

On June 27, 2018, the Audit Committee determined that its investigation was complete, and authorized the filing of our restated audited consolidated financial statements for the years ended December 31, 2017 and 2016 and certain quarterly periods within those fiscal years in order to correct our previously issued financial statements.

Impact of the Restatement

As a result of the restatement, reported net income from continuing operations and earnings per diluted share from continuing operations was adjusted for the interim period ended June 30, 2017 as follows:

- For the quarter ended June 30, 2017, net income from continuing operations decreased $7 million, or $0.03 per diluted share, and income from discontinued operations, net of tax, increased by $2 million, or $0.01 per diluted share.
- For the six months ended June 30, 2017, net income from continuing operations decreased $4 million, or $0.02 per diluted share, and income from discontinued operations, net of tax, increased by $2 million, or$0.01 per diluted share.

The categories of misstatements and their impact on previously reported condensed consolidated financial statements are described below:

(a) Customer Rebates

The Company did not properly recognize expense associated with certain customer rebates, resulting in a misstatement of Net sales in the first and second quarters of 2017. The misstatements overstated previously reported Income from continuing operations before income taxes by $1.4 million and $1.8 million for the three and six months ended June 30, 2017, respectively.

(b) Employee Vacation Pay

The Company did not properly recognize expense associated with a change in the Company’s vacation policy in the second and third quarters of 2017. Rather, the entire amount of expense associated with this change was recognized in the fourth quarter of 2017, resulting in a misstatement of expense in the second, third and fourth quarters of 2017. The misstatements overstated previously reported Income from continuing operations before income taxes by $0.9 million for the three and six months ended June 30, 2017.

(c) Compensation Expense

The Company did not properly record compensation expense related to a payment made to an employee upon his separation from the Company in the second quarter of 2017. Rather, the expense associated with this payment was recognized in the second, third and fourth quarters of 2017 resulting in a misstatement of expense in each of these periods. The misstatements overstated previously reported Income from continuing operations before income taxes by $3.5 million for the three and six months ended June 30, 2017.

(d) Health Care Claims

The Company did not properly recognize expense associated with the Company’s liability for employee health care claims in the second quarter of 2017. Rather, this expense was recognized in the third quarter of 2017, resulting in a misstatement of expense in the second and third quarters of 2017. The misstatements overstated previously reported Income from continuing operations before income taxes by $3.5 million for the three and six months ended June 30, 2017.

Table of Contents

(e) Classification of Continuing Operations and Discontinued Operations

Certain items of income related to PPG's former Glass segment were inappropriately recorded in continuing operations rather than in discontinued operations. The misstatements overstated previously reported Income from continuing operations before income taxes by $2.5 million for the three and six months ended June 30, 2017. The misstatements understated previously recorded Income from discontinued operations, net of tax, by $1.5 million for the three and six months ended June 30, 2017.

(f) Stock-Based Compensation

In the fourth quarter of 2016, the Company improperly reduced the payout assumption for the 2015 grant of performance-based restricted stock units from 150% to 100%, which had the effect of reducing stock-based compensation expense in that period by $6.8 million. In the first quarter of 2017, the Company increased the payout assumption for these same restricted stock units from 100% back to 150%. These improper changes to the payout assumption for these restricted stock units resulted in a misstatement of stock-based compensation expense in the first quarter of 2017. The misstatements understated previously reported Income from continuing operations before income taxes by $6.8 million for the six months ended June 30, 2017.

(g) Environmental Reserve

In the first quarter of 2017, the Company failed to appropriately update the discount rate used to calculate a long-term environmental remediation reserve, which had the effect of understating Other expense by $0.5 million in the quarter. The misstatement overstated previously reported Income from continuing operations before taxes by $0.5 million for the six months ended June 30, 2017.

(h) Income Taxes

Adjustments related to the income tax effects of other restatement adjustments noted above.

The financial statements included in this Form 10-Q have been restated to reflect the adjustments described above. The tables below summarizes the effects of the restatement on the Condensed Consolidated Statements of Income for the three and six months ended June 30, 2017.

Quarterly Condensed Consolidated Statement of Comprehensive Income (unaudited) - Summary of Restatement

In the condensed consolidated statement of comprehensive income for the three and six months ended June 30, 2017, Net income attributable to the controlling and noncontrolling interests reflects the impact of the restatement adjustments. The restatement adjustments had no impact to the previously disclosed components of Other comprehensive income, net of tax.

Quarterly Condensed Consolidated Statement of Cash Flows (unaudited) - Summary of Restatement

There was no net impact of the restatement adjustments on net cash provided by operating activities, net cash provided by investing activities or net cash used in financing activities in the condensed consolidated statement of cash flows for the six months ended June 30, 2017. The adjustments only had an impact on certain captions within cash from operating activities.

3. New Accounting Standards

Accounting Standards Adopted in 2018

Effective January 1, 2018, PPG adopted Accounting Standard Updates (“ASU”) No. 2017-07, "Improving the Presentation of Net Periodic Pension Cost and Net Periodic Postretirement Benefit Cost." This ASU requires the service cost component of these costs to be disaggregated from all other components and to be reported in the same line item or items as other compensation costs. The other components of these costs are required to be presented in the income statement separately from the service cost component. This ASU required retrospective adoption for all prior periods presented.

The effect of the retrospective adoption on the condensed consolidated statement of income related to the net periodic pension and other postretirement benefit costs was as follows:

	Three Months Ended June 30, 2017		
($ in millions)	As Previously Reported [1]	Reclassifications	As Revised
Cost of sales, exclusive of depreciation and amortization	$2,082	$1	$2,083
Selling, general and administrative	872	4	876
Research and development, net	113	(1)	112
Other charges	12	(4)	8
Income from continuing operations before income taxes	659	—	659

	Six Months Ended June 30, 2017		
($ in millions)	As Previously Reported [1]	Reclassifications	As Revised
Cost of sales, exclusive of depreciation and amortization	$3,987	($2)	$3,985
Selling, general and administrative	1,754	(3)	1,751
Research and development, net	223	(2)	221
Other charges	26	7	33
Income from continuing operations before income taxes	1,105	—	1,105

(1) Previously reported amounts reflect the impact of the restatement as described in Note 2, "Restatement of Previously Reported Condensed Consolidated Quarterly Financial Statements" and in the 2017 Form 10-K/A

In February 2018, the Financial Accounting Standards Board (“FASB”) issued ASU No. 2018-02, “Reclassification of Certain Tax Effects from Accumulated Other Comprehensive Income.” This ASU allows a reclassification from Accumulated other comprehensive income to Retained earnings for stranded tax effects resulting from the Tax Cuts and Jobs Act. PPG early adopted this standard in the first quarter of 2018 using the specific identification method and recorded a reclassification from other comprehensive income to retained earnings of $107 million.

Effective January 1, 2018, PPG adopted ASU No. 2014-09, “Revenue from Contracts with Customers: Topic 606.” See Note 4, “Revenue Recognition” for further details regarding the impact of adoption of this standard.

PPG’s adoption of the following ASU's in 2018 did not have a significant impact on PPG's consolidated financial position, results of operations or cash flows:

Accounting Standard Update	
2017-12	Derivatives and Hedging - Targeted Improvements to Accounting for Hedging Activities
2017-09	Stock Compensation - Scope of Modification Accounting
2016-16	Intra-Entity Transfers of Assets Other Than Inventory
2016-05	Classification of Certain Cash Receipts and Cash Payments
2016-01	Recognition and Measurement of Financial Assets and Liabilities

Accounting Standards to be Adopted in Future Years

In June 2016, the FASB issued ASU No. 2016-13, “Financial Instruments - Credit Losses.” This ASU requires an organization to measure all expected credit losses for financial assets held at the reporting date based on historical experience, current conditions, and reasonable and supportable forecasts. Financial institutions and other organizations will now use forward-looking information to better inform their credit loss estimates. The amendments in this ASU are effective for fiscal years beginning after December 15, 2019 and for interim periods therein. Entities may choose to

Table of Contents

adopt the new ASU as of its fiscal year beginning after December 15, 2018. PPG does not believe this ASU will have a material impact on its consolidated financial position, results of operations or cash flows.
In February 2016, the FASB issued ASU No. 2016-02, "Leases." This ASU requires all lessees to recognize on the balance sheet right to use assets and lease liabilities for the rights and obligations created by lease arrangements with terms greater than 12 months. The amendments in this ASU are effective for fiscal years beginning after December 15, 2018 and for interim periods therein. PPG is in the process of assessing the impact the adoption of this ASU will have on its consolidated financial position, results of operations and cash flows. At a minimum, total assets and total liabilities will increase in the period the ASU is adopted. Early adoption of this ASU is permitted. At December 31, 2017, PPG's undiscounted future minimum payments outstanding for lease obligations were approximately $840 million.

4. Revenue Recognition

In May 2014, the FASB issued ASU No. 2014-09, "Revenue from Contracts with Customers: Topic 606." This ASU replaces nearly all existing U.S. GAAP guidance on revenue recognition. The standard prescribes a five-step model for recognizing revenue, the application of which may require significant judgment. The new guidance requires PPG to evaluate the transfer of promised goods or services to customers and recognize revenue in an amount that reflects the consideration which the Company expects to be entitled to receive in exchange for those goods and services.
The Company recognizes revenue when control of the promised goods or services is transferred to the customer and in amounts that the Company expects to collect. The timing of revenue recognition takes into consideration the various shipping terms applicable to the Company's sales. For most transactions, control passes in accordance with agreed upon delivery terms. This approach is consistent with the Company's historical revenue recognition methodology.
The Company delivers products to company-owned stores, home centers and other regional or national consumer retail outlets, paint dealers, concessionaires and independent distributors, company-owned distribution networks, and directly to manufacturing companies and retail customers. Each product delivered to a third party customer is considered to satisfy a performance obligation. Performance obligations generally occur at a point in time and are satisfied when control of the goods passes to the customer. The Company is entitled to collection of the sales price under normal credit terms in the regions in which it operates.
The Company also provides services by applying coatings to customers' manufactured parts and assembled products and by providing technical support to certain customers. Performance obligations are satisfied over time as critical milestones are met and as services are provided. PPG is entitled to payment as the services are rendered. For the three and six months ended June 30, 2018 and 2017, service revenue constituted approximately 5% of total revenue, while the balance constituted standard ship and bill, retail or consignment arrangements. Accounts receivable are recognized when there is an unconditional right to consideration. Payment terms vary from customer to customer, depending on creditworthiness, prior payment history and other considerations.
Net sales by segment and region for the three and six months ended June 30, 2018 and 2017 were as follows:

($ in millions)	Performance Coatings		Industrial Coatings		Total Net Sales	
	Three Months Ended June 30		Three Months Ended June 30		Three Months Ended June 30	
	2018	2017 As Restated	2018	2017	2018	2017 As Restated
United States and Canada	$1,173	$1,093	$619	$588	$1,792	$1,681
EMEA	811	740	468	412	1,279	1,152
Asia-Pacific	277	238	403	370	680	608
Latin America	237	228	143	135	380	363
Total	$2,498	$2,299	$1,633	$1,505	$4,131	$3,804

Table of Contents

($ in millions)	Performance Coatings		Industrial Coatings		Total Net Sales	
	Six Months Ended June 30		Six Months Ended June 30		Six Months Ended June 30	
	2018	2017 As Restated	2018	2017	2018	2017 As Restated
United States and Canada	$2,147	$2,055	$1,230	$1,169	$3,377	$3,224
EMEA	1,518	1,369	941	806	2,459	2,175
Asia-Pacific	519	458	791	733	1,310	1,191
Latin America	474	434	292	266	766	700
Total	$4,658	$4,316	$3,254	$2,974	$7,912	$7,290

The Company adopted the ASU using the modified retrospective approach which required the financial statements to reflect the new standard as of January 1, 2018, and as a result, contracts that ended prior to January 1, 2018 were not included within the Company's assessment. Accordingly, the amounts in the comparative condensed consolidated statements of income and condensed consolidated balance sheet have not been recast. The ASU also provided additional clarity that resulted in reclassifications to or from Net sales, Cost of sales, exclusive of depreciation and amortization, Selling, general and administrative and Other income. Certain costs historically reported in Selling, general and administrative costs will now be recorded in Cost of sales, exclusive of depreciation and amortization in the condensed consolidated statement of income, as they represent costs incurred in satisfaction of performance obligations. In addition, the cost of certain customer incentives are now recorded as a reduction of Net sales rather than Cost of sales, exclusive of depreciation and amortization or Selling, general and administrative costs.

The following table summarizes the impact of the adoption of this ASU on the condensed consolidated statement of income for the three and six months ended June 30, 2018:

	Three Months Ended June 30, 2018		
($ in millions)	Without adoption	Adjustments	As Reported
Net sales	$4,134	($3)	$4,131
Cost of sales, exclusive of depreciation and amortization	2,360	19	2,379
Selling, general and administrative	963	(18)	945
Other income	(26)	2	(24)
Income from continuing operations before income taxes	479	—	479

	Six Months Ended June 30, 2018		
($ in millions)	Without adoption	Adjustments	As Reported
Net sales	$7,919	($7)	$7,912
Cost of sales, exclusive of depreciation and amortization	4,517	43	4,560
Selling, general and administrative	1,892	(41)	1,851
Other income	(53)	5	(48)
Income from continuing operations before income taxes	900	—	900

5. Acquisitions and Divestitures

Acquisitions

In January 2018, PPG acquired ProCoatings, a leading architectural paint and coatings wholesaler located in The Netherlands. ProCoatings, established in 2001, distributes a large portfolio of well-known professional paint brands through its network of 23 multi-brand stores.

In January 2017, PPG completed the acquisition of DEUTEK S.A., a leading Romanian paint and architectural coatings manufacturer, from the Emerging Europe Accession Fund. DEUTEK, established in 1993, manufactures and markets a large portfolio of well-known professional and consumer paint brands, including OSKAR® and DANKE!®. The company’s products are sold in more than 120 do-it-yourself stores and 3,500 independent retail outlets in Romania.

In January 2017, PPG also acquired certain assets of automotive refinish coatings company Futian Xinshi ("Futian"), an automotive refinish coatings company based in the Guangdong province of China. Futian distributes its products in China through a network of more than 200 distributors.

Table of Contents

Taiwan Chlorine Industries

Taiwan Chlorine Industries ("TCI") was established in 1986 as a joint venture between PPG and China Petrochemical Development Corporation ("CPDC") to produce chlorine-based products in Taiwan, at which time PPG owned 60 percent of the venture. In conjunction with the 2013 separation of its commodity chemicals business, PPG conveyed to Axiall Corporation ("Axiall") its 60% ownership interest in TCI. Under PPG's agreement with CPDC, if certain post-closing conditions were not met following the three year anniversary of the separation, CPDC had the option to sell its 40% ownership interest in TCI to Axiall for $100 million. In turn, Axiall had a right to designate PPG as its designee to purchase the 40% ownership interest of CPDC. In April 2016, Axiall announced that CPDC had decided to sell its ownership interest in TCI to Axiall. In June 2016, Axiall formally designated PPG to purchase the 40% ownership interest in TCI. In August 2016, Westlake Chemical Corporation acquired Axiall, which became a wholly-owned subsidiary of Westlake. On April 11, 2017, PPG finalized its purchase of CPDC's 40% ownership interest in TCI. The difference between the acquisition date fair value and the purchase price of PPG's 40% ownership interest in TCI was recorded as a loss in discontinued operations during the second quarter 2017.

Divestitures

Glass Segment

The net sales and income from discontinued operations related to the former Glass reportable business segment for the three and six months ended June 30, 2017 were as follows:

($ in millions)	Three Months Ended June 30, 2017 As Restated	Six Months Ended June 30, 2017 As Restated
Net sales	$84	$167
Income from operations	$12	$21
Income tax expense	4	8
Income from discontinued operations, net of tax	$8	$13

6. Inventories

($ in millions)	June 30, 2018	December 31, 2017
Finished products	$1,218	$1,083
Work in process	204	177
Raw materials	500	437
Supplies	34	33
Total Inventories	$1,956	$1,730

Most U.S. inventories are valued using the last-in, first-out method. These inventories represented approximately 33% and 34% of total inventories at June 30, 2018 and December 31, 2017, respectively. If the first-in, first-out method of inventory valuation had been used, inventories would have been $113 million and $103 million higher as of June 30, 2018 and December 31, 2017, respectively.

7. Goodwill and Other Identifiable Intangible Assets

The change in the carrying amount of goodwill attributable to each reportable segment for the six months ended June 30, 2018 was as follows:

($ in millions)	Performance Coatings	Industrial Coatings	Total
January 1, 2018	$3,104	$838	$3,942
Acquisitions	53	1	54

Foreign currency	(62)	(14)	(76)
June 30, 2018	$3,095	$825	$3,920

Table of Contents

A summary of the carrying value of the Company's identifiable intangible assets is as follows:

($ in millions)	June 30, 2018 Gross Carrying Amount	Accumulated Amortization	Net	December 31, 2017 Gross Carrying Amount	Accumulated Amortization	Net
Trademarks - indefinite lives	$1,142	N/A	$1,142	$1,158	N/A	$1,158
Customer-related intangibles	$1,414	($781)	$633	$1,437	($762)	$675
Acquired technology	630	(502)	128	613	(489)	124
Trade names	166	(91)	75	166	(87)	79
Other	43	(35)	8	44	(35)	9
Total	$2,253	($1,409)	$1,986	$3,418	($1,373)	$2,045

The Company’s identifiable intangible assets with finite lives are being amortized over their estimated useful lives.

($ in millions)	Three Months Ended June 30 2018	2017	Six Months Ended June 30 2018	2017
Amortization expense related to identifiable intangible assets	$34	$32	$70	$63

As of June 30, 2018, estimated future amortization expense of identifiable intangible assets is as follows:

($ in millions)	Future Amortization Expense
Remaining six months of 2018	$60
2019	120
2020	110
2021	105
2022	105
2023	95
Thereafter	249

8. Business Restructuring

The Company records restructuring liabilities that represent charges incurred in connection with consolidations of certain operations, including operations from acquisitions, as well as headcount reduction programs. These charges consist primarily of severance costs and asset write-downs.

On April 23, 2018, the Company approved a business restructuring plan which includes actions to reduce its global cost structure. The program is in response to the impacts of a customer assortment change in our U.S. architectural coatings business during the first quarter 2018 and sustained, elevated raw material inflation. The program aims to further right-size employee headcount and production capacity in certain businesses based on current product demand, as well as reductions in various global functional and administrative costs.

A pretax restructuring charge of $83 million was recorded in PPG's second quarter 2018 financial results, of which $80 million represents employee severance and other cash costs. The remainder of the charge represents the write-down of certain assets. In addition, other cash costs of approximately $25 million will be incurred, consisting of approximately $10 million of incremental restructuring-related cash costs for certain items that are required to be expensed on an as-incurred basis and approximately $15 million for items which are expected to be capitalized. The Company also expects approximately $20 million of incremental non-cash accelerated depreciation expense for certain assets due to their reduced expected asset life as a result of this program, $5 million of which was recognized in the second quarter of 2018. Substantially all actions from this business restructuring plan are expected to be complete by the end of the second quarter of 2019.

Table of Contents

The 2018 restructuring charge and the reserve activity for the quarter ended June 30, 2018 were as follows:

($ in millions, except for employees impacted)	Severance and Other Costs	Asset Write-offs	Total Reserve	Employees Impacted
Performance Coatings	$49	$3	$52	1,032
Industrial Coatings	21	—	21	298
Corporate	10	—	10	348
Total second quarter 2018 restructuring charge	$80	$3	$83	1,678
2018 Activity	(2)	(3)	(5)	(358)
Foreign currency impact	(2)	—	(2)	—
June 30, 2018	$76	$—	$76	1,320

In December 2016, PPG's Board of Directors approved a business restructuring program which includes actions necessary to reduce the Company's global cost structure. The program is focused on certain regions and end-use markets where business conditions are the weakest, as well as reductions in production capacity and various global functional and administrative costs. The restructuring actions will result in the net reduction of approximately 2,000 positions, with substantially all actions to be completed in 2018.

In the first quarter of 2018, adjustments of approximately $17 million were recorded to reduce the remaining restructuring reserves established in 2016 to reflect the current estimate of the costs to complete these actions. Also in the first quarter of 2018, some additional restructuring actions were approved and charges of approximately $17 million were recorded.

The following table summarizes the reserve activity related to the 2016 restructuring charge for the six months ended June 30, 2018:

($ in millions, except for employees impacted)	Severance and Other Costs	Employees Impacted
December 31, 2017	$102	949
2018 Activity	(30)	(491)
Foreign currency	(3)	—
June 30, 2018	$69	458

9. Borrowings

In February 2018, PPG completed a public offering of $300 million aggregate principal amount of 3.2% notes due 2023 and $700 million aggregate principal amount of 3.75% notes due 2028. These notes were issued pursuant to PPG's existing shelf registration statement and pursuant to an indenture between the Company and The Bank of New York Mellon Trust Company, N.A., as trustee, as supplemented. The Indenture governing these notes contains covenants that limit the Company's ability to, among other things, incur certain liens securing indebtedness, engage in certain sale-leaseback transactions, and enter into certain consolidations, mergers, conveyances, transfers or leases of all or substantially all the Company's assets. The terms of these notes also require the Company to make an offer to repurchase Notes upon a Change of Control Triggering Event (as defined in the Indenture) at a price equal to 101% of their principal amount plus accrued and unpaid interest. The Company may issue additional debt from time to time pursuant to the Indenture.

The aggregate cash proceeds from the notes, net of discounts and fees, was $992 million. A portion of the notes were converted from a fixed interest rate to a floating interest rate using interest rate swap contracts. For more information, refer to Note 15, "Financial Instruments, Hedging Activities and Fair Value Measurements."

Table of Contents

10. Earnings Per Share

The effect of dilutive securities on the weighted average common shares outstanding included in the calculation of earnings per diluted common share for the three and six months ended June 30, 2018 and 2017 were as follows:

	Three Months Ended June 30		Six Months Ended June 30	
(number of shares in millions)	2018	2017	2018	2017
Weighted average common shares outstanding	244.9	257.1	247.4	257.4
Effect of dilutive securities:				
Stock options	0.8	1.1	0.8	1.1
Other stock compensation awards	0.7	0.8	0.7	0.8
Potentially dilutive common shares	1.5	1.9	1.5	1.9
Adjusted weighted average common shares outstanding	246.4	259.0	248.9	259.3

Excluded from the computation of earnings per diluted share due to their antidilutive effect were 1.1 million outstanding stock options for the three and six months ended June 30, 2018 and 0.6 million outstanding stock options for the three and six months ended June 30, 2017.

11. Income Taxes

	Six Months Ended June 30	
	2018	2017 As Restated
Effective tax rate on pre-tax income from continuing operations	21.2%	24.2 %

The effective tax rate for the six months ended June 30, 2018 was slightly higher than the U.S. federal statutory rate primarily due to earnings in foreign jurisdictions which were taxed at higher rates than the U.S. statutory rate and the impact of state and local income tax expense in the U.S. These impacts were partially offset by discrete tax benefits recognized in the first and second quarters of 2018, including the release of reserves for uncertain tax positions related to settlements of certain tax returns. The effective tax rate for 2017 of 24.2% was lower than the U.S. federal statutory rate in effect at that time primarily due to earnings in foreign jurisdictions which were taxed at rates lower than the U.S. statutory rate and the impact of certain U.S. tax incentives.

In December 2017, the U.S. enacted the Tax Cuts and Jobs Act ("the Act") which, among other things, lowered the U.S. corporate statutory income tax rate from 35% to 21%, eliminated certain deductible items and added other deductible items for corporations, imposed a tax on unrepatriated foreign earnings and eliminated U.S. taxes on most future foreign earnings. PPG recorded a provisional amount as of December 31, 2017, which represented the Company's best estimate as of February 1, 2018. The Company anticipates U.S. regulatory agencies will issue further regulations during 2018, which may alter this estimate. The Company is still evaluating among other things, its position with respect to permanent reinvestment of foreign earnings overseas and other related outside basis difference considerations and the amount of tax owed on unrepatriated earnings by subsidiaries. The Company believes its remeasurement of its U.S deferred tax assets and liabilities is complete, except for changes in estimates that can result from finalizing the filing of our 2017 U.S. income tax return, which are not anticipated to be material, and changes that may be a direct impact of other provisional amounts recorded due to the enactment of the Act. The Company will refine its estimates to incorporate new or better information as it becomes available through the filing date of its 2017 U.S. income tax returns in the fourth quarter of 2018.

The tax owed by PPG on its unrepatriated foreign earnings is payable over eight years and is subject to a prescriptive calculation to determine the portion payable in 2018 and beyond. PPG's current estimate, using this prescriptive method, indicates its tax payable will be increased by approximately $1 million to $3 million per year through 2025. As such, the portion of the tax on unrepatriated foreign earnings not payable within the next 12 months is presented within "Other liabilities" on the consolidated balance sheet.

The Company files federal, state and local income tax returns in numerous domestic and foreign jurisdictions. In most tax jurisdictions, returns are subject to examination by the relevant tax authorities for a number of years after the returns have been filed. The Company is no longer subject to examinations by tax authorities in any major tax jurisdiction for years before 2007. In addition, the Internal Revenue Service has completed its examination of the Company’s U.S. federal income tax returns filed for years through 2013.

Table of Contents

12. Pensions and Other Postretirement Benefits

Effective January 1, 2018, PPG adopted ASU No. 2017-07, "Improving the Presentation of Net Periodic Pension Cost and Net Periodic Postretirement Benefit Cost." See Note 3, "New Accounting Standards" for more information. Service cost for net periodic pension and other postretirement benefit costs is included in Cost of sales, exclusive of depreciation and amortization, Selling, general and administrative, and Research and development, net in the accompanying condensed consolidated statements of income. All other components of net periodic benefit cost are now recorded in Other charges, except for pension settlement charges, in the accompanying condensed consolidated statements of income.

The net periodic pension and other postretirement benefit costs for the three and six months ended June 30, 2018 and 2017 were as follows:

	Pension			
	Three Months Ended June 30		Six Months Ended June 30	
($ in millions)	2018	2017	2018	2017
Service cost	$8	$8	$16	$17
Interest cost	24	25	48	49
Expected return on plan assets	(38)	(36)	(76)	(70)
Amortization of actuarial losses	16	19	32	38
Pension settlement charge	—	—	—	22
Net periodic benefit cost	$10	$16	$20	$56

	Other Postretirement Benefits			
	Three Months Ended June 30		Six Months Ended June 30	
($ in millions)	2018	2017	2018	2017
Service cost	$3	$3	$5	$5
Interest cost	6	5	12	12
Amortization of actuarial losses	4	1	9	6
Amortization of prior service credit	(15)	(17)	(30)	(30)
Net periodic benefit cost	($2)	($8)	($4)	($7)

PPG expects its 2018 net periodic pension and other postretirement benefit cost to be approximately $30 million, with pension expense representing approximately $40 million and other postretirement benefit cost representing a benefit of approximately $10 million.

Contributions to Defined Benefit Pension Plans

	Three Months Ended June 30		Six Months Ended June 30	
($ in millions)	2018	2017	2018	2017
U.S. defined benefit pension contributions	$—	$—	$25	$29
Non-U.S. defined benefit pension mandatory contributions	$5	$3	$10	$8

PPG made a $25 million voluntary contribution to its U.S. defined benefit pension plans in January 2018. PPG expects to make mandatory contributions to its non-U.S. pension plans in the range of $10 million to $20 million during the remaining 6 months of 2018 and may make voluntary contributions to its defined benefit pension plans in 2018 and beyond.

U.S. Non-qualified Pension
In the first quarter 2017, PPG made lump-sum payments to certain retirees who had participated in PPG's U.S. non-qualified pension plan (the "Nonqualified Plan") totaling approximately $40 million. As the lump-sum payments were in excess of the expected 2017 service and interest costs for the Nonqualified Plan, PPG remeasured the periodic benefit obligation of the Nonqualified Plan as of March 1, 2017 and recorded a settlement charge totaling $22 million million ($14 million after-tax).

Table of Contents

13. Shareholders' Equity

Changes to shareholders’ equity for the six months ended June 30, 2018 and 2017 were as follows:

($ in millions)	Total PPG Shareholders’ Equity	Non-controlling Interests	Total
January 1, 2018	$5,557	$115	$5,672
Net income	705	10	715
Other comprehensive income, net of tax	(218)	(8)	(226)

June 30, 2017	($1,450)	($605)	($4)	($2,059)

(a) Unrealized foreign currency translation adjustments related to the translation of foreign denominated balance sheet account balances are not presented net of tax given that no deferred U.S. income taxes have been provided on the undistributed earnings of non-U.S. subsidiaries because they are deemed to be reinvested for an indefinite period of time.

(b) The tax cost (benefit) related to unrealized foreign currency translation adjustments on cross currency swaps and debt instruments for the six months ended June 30, 2018 and 2017 was $31 million and ($113) million, respectively.

(c) The tax benefit related to the adjustment for pension and other postretirement benefits for the six months ended June 30, 2018 and 2017 was ($3) million and ($14) million, respectively.

(d) The tax benefit related to the changes in the unrealized gain (loss) on derivatives for the six months ended June 30, 2018 and 2017 was $(1) million and ($8) million, respectively.

(e) Reclassifications from AOCI are included in the computation of net periodic pension and other post-retirement benefit costs (See Note 12, "Pensions and Other Postretirement Benefits") and in the gain recognized on cash flow hedges (See Note 15, "Financial Instruments, Hedging Activities and Fair Value Measurements").

15. Financial Instruments, Hedging Activities and Fair Value Measurements

Financial instruments include cash and cash equivalents, short-term investments, cash held in escrow, marketable equity securities, accounts receivable, company-owned life insurance, accounts payable, short-term and long-term debt instruments, and derivatives. The fair values of these financial instruments approximated their carrying values at June 30, 2018 and December 31, 2017, in the aggregate, except for long-term debt instruments.

Hedging Activities

The Company has exposure to market risk from changes in foreign currency exchange rates and interest rates. As a result, financial instruments, including derivatives, have been used to hedge these underlying economic exposures. Certain of these instruments qualify as cash flow, fair value and net investment hedges upon meeting the requisite criteria, including effectiveness of offsetting hedged or underlying exposures. In certain cases, PPG employs foreign currency contracts to economically hedge net foreign currency exposures, which do not qualify for hedge accounting. Accordingly, changes in the fair value of such derivatives are recognized in income from continuing operations in the period incurred.

PPG’s policies do not permit speculative use of derivative financial instruments. PPG enters into derivative financial instruments with high credit quality counterparties and diversifies its positions among such counterparties in order to reduce its exposure to credit losses. The Company did not realize a credit loss on derivatives during the three and six month periods ended June 30, 2018 and 2017.

All of PPG's outstanding derivative instruments are subject to accelerated settlement in the event of PPG’s failure to meet its debt or payment obligations under the terms of the instruments’ contractual provisions. In addition, should the

Table of Contents

Company be acquired and its payment obligations under the derivative instruments' contractual arrangements not be assumed by the acquirer, or should PPG enter into bankruptcy, receivership or reorganization proceedings, the instruments would also be subject to accelerated settlement.

There were no derivative instruments de-designated or discontinued as hedging instruments during the three and six month periods ended June 30, 2018 and 2017 and there were no gains or losses deferred in Accumulated other comprehensive loss that were reclassified to income from continuing operations during the six month periods ended June 30, 2018 and 2017 related to hedges of anticipated transactions that were no longer expected to occur.

Cash Flow Hedges

PPG designates certain foreign currency forward contracts as cash flow hedges of the Company's exposure to variability in exchange rates on intercompany and third party transactions denominated in foreign currencies.

Fair Value Hedges

The Company manages its interest rate risk by balancing its exposure to fixed and variable rates while attempting to minimize its interest costs. PPG principally manages its fixed and variable interest rate risk by retiring and issuing long-term and short-term debt from time to time and occasionally through the use of interest rate swaps. In February of 2018, PPG entered into interest rate swaps which converted $525 million of fixed rate debt to variable rate debt. The swaps are designated as fair value hedges. As such, these swaps are carried at fair value. Changes in the fair value of these swaps and that of the related debt are recorded in Interest expense in the accompanying condensed consolidated statement of income.

Net Investment Hedges

PPG uses cross currency swaps and euro-denominated debt to hedge a portion of its net investment in its European operations.

In February 2018, PPG entered into U.S. dollar to euro cross currency swap contracts with a total notional amount of $575 million and designated these contracts as hedges of the Company's net investment in its European operations. During the term of these contracts, PPG will receive payments in U.S. dollars and make payments in euros to the counterparties. The Company also settled outstanding U.S. dollar to euro cross currency swap contracts with a total notional amount of $560 million in February 2018.

As of June 30, 2018 and December 31, 2017, PPG had designated €2.3 billion of euro-denominated borrowings as hedges of a portion of its net investment in the Company's European operations. The carrying value of these instruments as of June 30, 2018 and December 31, 2017 was $2.7 billion.

Gains/Losses Deferred in Accumulated Other Comprehensive Loss

As of June 30, 2018, the Company had accumulated pre-tax unrealized net foreign currency translation gains in Accumulated other comprehensive loss related to the euro-denominated borrowings, foreign currency forward contracts and cross currency swaps of $95 million. As of December 31, 2017, the Company had accumulated pre-tax unrealized net foreign currency translation gains of $16 million.

The following table summarizes the location within the condensed consolidated financial statements and amount of gains (losses) related to derivative financial instruments activity for the six months ended June 30, 2018 and 2017. All dollar amounts are shown on a pre-tax basis.

Table of Contents

($ in millions)	June 30, 2018 Gain (Loss) Deferred in OCI	June 30, 2018 Gain (Loss) Recognized	June 30, 2017 Loss Deferred in OCI	June 30, 2017 Gain Recognized	Caption In Condensed Consolidated Statement of Income
Not Designated as Hedging Instruments:					
Foreign currency forward contracts [1]		$23		$—	Other charges
Fair Value					
Interest rate swaps		2		—	Interest expense
Cash Flow					
Foreign currency forward contracts	($3)	(3)	($20)	6	Other charges and Cost of sales
Total Cash Flow	($3)	$22	($20)	$6	
Net Investment					
Foreign currency forward contracts			($3)		
Cross currency swaps	$5	$5	($38)		Interest expense
Foreign denominated debt	74		(254)		
Total Net Investment	$79	$5	($295)		

(1) For the period ended June 30, 2018, the amounts excluded from effectiveness testing recognized in earnings based on an amortized approach was expense of $2 million, with a deferred loss balance of $1 million remaining in accumulated other comprehensive income as of June 30, 2018.

Fair Value Measurements

The Company follows a fair value measurement hierarchy to measure its assets and liabilities. As of June 30, 2018 and December 31, 2017, the assets and liabilities measured at fair value on a recurring basis were cash equivalents, equity securities and derivatives. In addition, the Company measures its pension plan assets at fair value (see Note 13, "Employee Benefit Plans" under Item 8 in the 2017 Form 10-K/A for further details). The Company's financial assets and liabilities are measured using inputs from the following three levels:

Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets and liabilities that the Company has the ability to access at the measurement date. Level 1 inputs are considered to be the most reliable evidence of fair value as they are based on unadjusted quoted market prices from various financial information service providers and securities exchanges.

Level 2 inputs are directly or indirectly observable prices that are not quoted on active exchanges, which include quoted prices for similar assets and liabilities in active markets, quoted prices for identical or similar assets or liabilities in markets that are not active, inputs other than quoted prices that are observable for the asset or liability and inputs that are derived principally from or corroborated by observable market data by correlation or other means. The fair values of the derivative instruments reflect the instruments' contractual terms, including the period to maturity, and uses observable market-based inputs, including forward curves.

Level 3 inputs are unobservable inputs employed for measuring the fair value of assets or liabilities. The Company does not have any recurring financial assets or liabilities that are recorded in its consolidated balance sheets as of June 30, 2018 and December 31, 2017 that are classified as Level 3 inputs.

Table of Contents

Assets and liabilities reported at fair value on a recurring basis:

	June 30, 2018			December 31, 2017		
($ in millions)	Level 1	Level 2	Level 3	Level 1	Level 2	Level 3

Long-Term Debt

($ in millions)	June 30, 2018 [(a)]	December 31, 2017 [(b)]
Long-term debt - carrying value	$5,038	$4,123
Long-term debt - fair value	$5,204	$4,341

(a) Excluding capital lease obligations of $14 million and short term borrowings of $18 million as of June 30, 2018.
(b) Excluding capital lease obligations of $15 million and short term borrowings of $8 million as of December 31, 2017.

The fair values of the debt instruments were based on discounted cash flows and interest rates then currently available to the Company for instruments of the same remaining maturities and were measured using level 2 inputs.

16. Stock-Based Compensation

The Company's stock-based compensation includes stock options, restricted stock units ("RSUs") and grants of contingent shares that are earned based on achieving targeted levels of total shareholder return. All current grants of stock options, RSUs and contingent shares are made under the PPG Industries, Inc. Amended and Restated Omnibus Incentive Plan (the "PPG Amended Omnibus Plan"), which was amended and restated effective April 21, 2016. Shares available for future grants under the PPG Amended Omnibus Plan were 7.4 million as of June 30, 2018.

Stock-based compensation and the income tax benefit recognized during the three and six months ended June 30, 2018 and 2017 were as follows:

	Three Months Ended June 30		Six Months Ended June 30	
($ in millions)	2018	2017	2018	2017
				As Restated
Stock-based compensation	$9	$8	$18	$17

Income tax benefit recognized	$2	$2	$4	$5

Table of Contents

Grants of stock-based compensation during the six months ended June 30, 2018 and 2017 were as follows:

	Six Months Ended June 30			
	2018		2017	
Grant Details	Shares	Fair Value	Shares	Fair Value
Stock options	532,705	$25.27	590,058	$21.15
Restricted stock units	230,363	$107.73	215,105	$97.48
Contingent shares (a)	52,450	$115.64	57,817	$110.20

(a) The number of contingent shares represents the target value of the award.

Stock options are generally exercisable 36 months after being granted and have a maximum term of 10 years. Compensation expense for stock options is recorded over the vesting period based on the fair value on the date of grant. The fair value of the stock option grants issued during the six months ended June 30, 2018 was calculated with the following weighted average assumptions:

Weighted average exercise price	$115.98	
Risk-free interest rate	2.9	%
Expected life of option in years	6.5	
Expected dividend yield	1.7	%
Expected volatility	21.0	%

The risk-free interest rate is determined by using the U.S. Treasury yield curve at the date of the grant and using a maturity equal to the expected life of the option. The expected life of options is calculated using the average of the vesting term and the maximum term, as prescribed by accounting guidance on the use of the simplified method for determining the expected term of an employee share option. The expected dividend yield and volatility are based on historical stock prices and dividend amounts over historical time periods equal in length to the expected life of the options.

Time-based RSUs generally vest over the three-year period following the date of grant, unless forfeited, and will be paid out in the form of stock, cash or a combination of both at the Company’s discretion at the end of the vesting period. Performance-based RSUs vest based on achieving specific annual performance targets for earnings per share growth and cash flow return on capital over the three calendar year-end periods following the date of grant. Unless forfeited, the performance-based RSUs will be paid out in the form of stock, cash or a combination of both at the Company’s discretion at the end of the three-year performance period if PPG meets the performance targets.

Contingent share grants (referred to as “TSR awards”) are made annually and are paid out at the end of each three-year period following the date of grant based on PPG's performance. Performance is measured by determining the percentile rank of the total shareholder return of PPG common stock in relation to the total shareholder return of the S&P 500 as it existed at the beginning of the three-year performance period excluding any companies that have been removed from the index because they ceased to be publicly traded during the performance period. Any payments made at the end of the award period may be in the form of stock, cash or a combination of both at the Company's discretion. The TSR awards qualify as liability awards, and compensation expense is recognized over the three-year award period based on the fair value of the awards (giving consideration to the Company’s percentile rank of total shareholder return) remeasured in each reporting period until settlement of the awards.

17. Commitments and Contingent Liabilities

PPG is involved in a number of lawsuits and claims, both actual and potential, including some that it has asserted against others, in which substantial monetary damages are sought. These lawsuits and claims may relate to contract, patent, environmental, product liability, asbestos exposure, antitrust, employment, securities and other matters arising out of the conduct of PPG’s current and past business activities. To the extent that these lawsuits and claims involve personal injury and property damage, PPG believes it has adequate insurance; however, certain of PPG’s insurers are contesting coverage with respect to some of these claims, and other insurers, as they had prior to the asbestos settlement described below, may contest coverage in the future. PPG’s lawsuits and claims against others include claims against insurers and other third parties with respect to actual and contingent losses related to environmental,

asbestos and other matters.

The results of any current or future litigation and claims are inherently unpredictable. However, management believes that, in the aggregate, the outcome of all lawsuits and claims involving PPG, including asbestos-related claims, will not have a material effect on PPG’s consolidated financial position or liquidity; however, such outcome may be material to the results of operations of any particular period in which costs, if any, are recognized.

Asbestos Matters

Prior to 2000, the Company had been named as a defendant in numerous claims alleging bodily injury from (i) exposure to asbestos-containing products allegedly manufactured, sold or distributed by the Company, its subsidiaries, or for which they are otherwise alleged to be liable; (ii) exposure to asbestos allegedly present at a facility owned or leased by the Company; or (iii) exposure to asbestos-containing products of Pittsburgh Corning Corporation (“PC”) for which the Company was alleged to be liable under a variety of legal theories (the Company and Corning Incorporated were each 50% shareholders in PC).

Pittsburgh Corning Corporation asbestos bankruptcy

In 2000, PC filed for Chapter 11 in the U.S. Bankruptcy Court for the Western District of Pennsylvania in an effort to permanently and comprehensively resolve all of its pending and future asbestos-related liability claims. At the time of the bankruptcy filing, the Company had been named as one of many defendants in approximately 114,000 open claims. The Bankruptcy Court subsequently entered a series of orders preliminarily enjoining the prosecution of asbestos litigation against PPG until after the effective date of a confirmed PC plan of reorganization. During the pendency of this preliminary injunction staying asbestos litigation against PPG, PPG and certain of its historical liability insurers negotiated a settlement with representatives of present and future asbestos claimants. That settlement was incorporated into a PC plan of reorganization that was confirmed by the Bankruptcy Court on May 24, 2013 and ultimately became effective on April 27, 2016. With the effectiveness of the plan, the preliminary injunction staying the prosecution of asbestos litigation against PPG expired by its own terms on May 27, 2016. In accordance with the settlement, the Bankruptcy Court issued a permanent channeling injunction under Section 524(g) of the Bankruptcy Code that prohibits present and future claimants from asserting claims against PPG that arise, in whole or in part, out of exposure to asbestos or asbestos-containing products manufactured, sold and/or distributed by PC or asbestos on or emanating from any PC premises. The channeling injunction, by its terms, also prohibits codefendants in cases that are subject to the channeling injunction from asserting claims against PPG for contribution, indemnification or other recovery. The channeling injunction also precludes the prosecution of claims against PPG arising from alleged exposure to asbestos or asbestos-containing products to the extent that a claimant is alleging or seeking to impose liability, directly or indirectly, for the conduct of, claims against, or demands on PC by reason of PPG’s: (i) ownership of a financial interest in PC; (ii) involvement in the management of PC, or service as an officer, director or employee of PC or a related party; (iii) provision of insurance to PC or a related party; or (iv) involvement in a financial transaction affecting the financial condition of PC or a related party. The foregoing PC related claims are referred to as “PC Relationship Claims.”

The channeling injunction channels the Company’s liability for PC Relationship Claims to a trust funded in part by PPG and its participating insurers for the benefit of current and future PC asbestos claimants (the “Trust”). The Trust is the sole recourse for holders of PC Relationship Claims. PPG and its affiliates have no further liability or responsibility for, and will be permanently protected from, pending and future PC Relationship Claims. The channeling injunction does not extend to present and future claims against PPG that arise out of alleged exposure to asbestos or asbestos-containing products historically manufactured, sold and/or distributed by PPG or its subsidiaries or for which they are alleged to be liable that are not PC Relationship Claims, and does not extend to claims against PPG alleging personal injury allegedly caused by asbestos on premises presently or formerly owned, leased or occupied by PPG. These claims are referred to as non-PC Relationship Claims.

In accordance with the PC plan of reorganization, PPG's equity interest in PC was canceled. PPG satisfied its funding obligations to the Trust on June 9, 2016, when it conveyed to the Trust the stock it owned in Pittsburgh Corning Europe and 2,777,778 shares of PPG’s common stock and made a cash payment to the Trust in the amount of $764 million. PPG’s historical insurance carriers participating in the PC plan of reorganization are required to make cash payments to the Trust of approximately $1.7 billion, subject to a right of prepayment at a 5.5% discount rate.

On October 13, 2016, the Bankruptcy Court issued an order entering a final decree and closing the Chapter 11 case. That order provided that the Bankruptcy Court retained jurisdiction to enforce any order issued in the case and any agreements approved by the court, enforce the terms and conditions of the modified third amended Plan, and consider any requests to reopen the case.

Table of Contents

Non-PC relationship asbestos claims

At the time PC filed for bankruptcy, PPG had been named as one of many defendants in one or more of the categories of asbestos-related claims identified above. Over the course of the 16 years during which the PC bankruptcy proceedings, and corresponding preliminary injunction staying the prosecution of asbestos-related claims against PPG, were pending, certain plaintiffs alleging premises claims filed motions seeking to lift the stay with respect to more than 1,000 individually-identified premises claims. The Bankruptcy Court granted motions to lift the stay in respect to certain of these premises claims and directed PPG to engage in a process to address any additional premises claims that were the subject of pending or anticipated lift-stay motions. As a result of the overall process as directed by the Bankruptcy Court involving more than 1,000 premises claims between 2006 and May 27, 2016, hundreds of these claims were withdrawn or dismissed without payment and approximately 650 premises claims were dismissed upon agreements by PPG and its insurers to resolve such claims in exchange for monetary payments.

With respect to the remaining claims still reportable within the inventory of 114,000 asbestos-related claims at the time PC filed for bankruptcy, the Company considers such claims to fall within one or more of the following categories: (1) claims that have been closed or dismissed as a result of processes undertaken during the bankruptcy; (2) claims that may have been previously filed on the dockets of state and federal courts in various jurisdictions, but are inactive as to the Company; and (3) claims that are subject, in whole or in part, to the channeling injunction and thus will be resolved, in whole or in part, in accordance with the Trust procedures established under the PC bankruptcy reorganization plan. As a result of the foregoing, the Company does not consider these three categories of claims to be open or active litigation against it, although the Company cannot now determine whether, or the extent to which, any of these claims may in the future be reinstituted, reinstated, or revived such that they may become open and active asbestos-related claims against it.

Current open and active claims post-Pittsburgh Corning bankruptcy

As of June 30, 2018, the Company was aware of approximately 420 open and active asbestos-related claims pending against the Company and certain of its subsidiaries. These claims consist primarily of non-PC Relationship Claims and claims against a subsidiary of PPG. The Company is defending the remaining open and active claims vigorously.

Since April 1, 2013, a subsidiary of PPG has been implicated in claims alleging death or injury caused by asbestos-containing products manufactured, distributed or sold by a North American architectural coatings business or its predecessors which was acquired by PPG. All such claims have been either served upon or tendered to the seller for defense and indemnity pursuant to obligations undertaken by the seller in connection with the Company's purchase of the North American architectural coatings business. The seller has accepted the defense of these claims subject to the terms of various agreements between the Company and the seller. The seller's defense and indemnity obligations in connection with newly filed claims ceased with respect to claims filed after April 1, 2018.

PPG has established reserves totaling approximately $180 million for asbestos-related claims that would not be channeled to the Trust which, based on presently available information, we believe will be sufficient to encompass all of PPG's current and potential future asbestos liabilities. These reserves include a $162 million reserve established in 2009 in connection with an amendment to the PC plan of reorganization. These reserves, which are included within "Other liabilities" on the accompanying condensed consolidated balance sheets, represent PPG's best estimate of its liability for these claims. PPG does not have sufficient current claim information or settlement history on which to base a better estimate of this liability in light of the fact that the Bankruptcy Court's injunction staying most asbestos claims against the Company was in effect from April 2000 through May 2016. PPG will monitor the activity associated with its remaining asbestos claims and evaluate, on a periodic basis, its estimated liability for such claims, its insurance assets then available, and all underlying assumptions to determine whether any adjustment to the reserves for these claims is required.

The amount reserved for asbestos-related claims by its nature is subject to many uncertainties that may change over time, including (i) the ultimate number of claims filed; (ii) the amounts required to resolve both currently known and future unknown claims; (iii) the amount of insurance, if any, available to cover such claims; (iv) the unpredictable aspects of the litigation process, including a changing trial docket and the jurisdictions in which trials are scheduled; (v) the outcome of any trials, including potential judgments or jury verdicts; (vi) the lack of specific information in many cases concerning exposure for which PPG is allegedly responsible, and the claimants' alleged diseases resulting

from such exposure; and (vii) potential changes in applicable federal and/or state tort liability law. All of these factors may have a material effect upon future asbestos-related liability estimates. As a potential offset to any future asbestos financial exposure, under the PC plan of reorganization PPG retained, for its own account, the right to pursue insurance coverage from certain of its historical insurers that did not participate in the PC plan of reorganization. While the ultimate outcome of PPG’s asbestos litigation cannot be predicted with certainty, PPG believes that any financial exposure

Table of Contents

resulting from its asbestos-related claims will not have a material adverse effect on PPG's consolidated financial position, liquidity or results of operations.

Environmental Matters

It is PPG's policy to accrue expenses for environmental contingencies when it is probable that a liability has been incurred and the amount of loss can be reasonably estimated. Reserves for environmental contingencies are exclusive of claims against third parties and are generally not discounted. In management's opinion, the Company operates in an environmentally sound manner and the outcome of the Company's environmental contingencies will not have a material effect on PPG's financial position or liquidity; however, any such outcome may be material to the results of operations of any particular period in which costs, if any, are recognized. Management anticipates that the resolution of the Company's environmental contingencies will occur over an extended period of time. See Note 14, "Commitments and Contingent Liabilities," under Item 8 of the 2017 Form 10-K/A for additional descriptions of the following environmental matters.

As of June 30, 2018 and December 31, 2017, PPG had reserves for environmental contingencies associated with PPG's former chromium manufacturing plant in Jersey City, N.J. and associated sites ("New Jersey Chrome") and for other environmental contingencies, including National Priority List sites and legacy glass and chemical manufacturing sites. These reserves are included in Accounts payable and accrued liabilities and Other liabilities in the accompanying condensed consolidated balance sheet.

Environmental Reserves

($ in millions)	June 30, 2018	December 31, 2017
New Jersey Chrome	$141	$136
Legacy glass and chemical	71	71
Other	47	51
Total	$259	$258
Current portion	$67	$73

Pre-tax charges against income for environmental remediation costs are included in Other charges in the accompanying condensed consolidated statement of income. The pre-tax charges and cash outlays related to such environmental remediation for the three and six months ended June 30, 2018 and 2017 were as follows:

	Three Months Ended June 30		Six Months Ended June 30	
($ in millions)	2018	2017	2018	2017
Environmental remediation pre-tax charges	$1	$1	$35	$2
Cash outlays for environmental remediation activities	$14	$10	$31	$22

Environmental remediation of the NJ Chrome sites and our legacy glass and chemical sites is ongoing. In the first quarter 2018, charges were taken to increase the existing reserves for the NJ Chrome and legacy glass and chemical sites by $26 million and $8 million, respectively.

Remediation: New Jersey Chrome

In June 2009, PPG entered into a settlement agreement with the New Jersey Department of Environmental Protection ("NJDEP") and Jersey City, New Jersey (which had asserted claims against PPG for lost tax revenue) which was in the form of a Judicial Consent Order (the "JCO"). Under the JCO, PPG accepted sole responsibility for the remediation activities at its former chromium manufacturing location in Jersey City and 19 additional sites. The principal contaminant of concern is hexavalent chromium. The JCO also provided for the appointment of a court-approved Site Administrator who is responsible for establishing a master schedule for the remediation of the 20 PPG sites which existed at that time. One site was subsequently removed from the JCO process during 2014 and will be remediated separately at a future date. A total of 19 sites remain subject to the JCO process.

The most significant assumptions underlying the estimate of remediation costs for all New Jersey Chrome sites are those related to the extent and concentration of chromium impacts in the soil, as these determine the quantity of soil that must be treated in place, the quantity that will have to be excavated and transported for offsite disposal, and the nature of disposal required. The reserve for the estimated costs to remediate all New Jersey Chrome sites are exclusive of any third party indemnification, as the recovery of any such amounts is uncertain.

Table of Contents

Groundwater remediation at PPG's former chromium manufacturing site in Jersey City and five adjacent sites is expected to occur over several years after NJDEP's approval of a work plan. Ongoing groundwater monitoring will be utilized to develop a final groundwater remedial action work plan which is currently expected to be submitted to NJDEP in 2021.

PPG’s financial reserve for remediation of all New Jersey Chrome sites is $141 million at June 30, 2018. The major cost components of this liability continue to be related to excavation, transportation and disposal of impacted soil, as well as construction services. These components each account for approximately 22%, 25% and 29% of the accrued amount, respectively.

There are multiple, future events yet to occur, including further remedy selection and design, remedy implementation and execution and applicable governmental agency or community organization approvals. Considerable uncertainty exists regarding the timing of these future events for the New Jersey Chrome sites. Final resolution of these events is expected to occur over the next several years. As these events occur and to the extent that the cost estimates of the environmental remediation remedies change, the existing reserve for this environmental remediation matter will continue to be adjusted.

Remediation: Other Legacy Sites

Among other sites at which PPG is managing environmental liabilities, remedial actions are occurring at a legacy chemical manufacturing site in Barberton, Ohio, where PPG has completed a Facility Investigation and Corrective Measure Study under the USEPA’s Resource Conservation and Recovery Act (“RCRA”) Corrective Action Program. PPG has also been addressing the impacts from a legacy plate glass manufacturing site in Kokomo, Indiana under the Voluntary Remediation Program of the Indiana Department of Environmental Management. PPG is currently performing additional investigation activities at this location.

With respect to certain other waste sites, the financial condition of other potentially responsible parties also contributes to the uncertainty of estimating PPG’s final costs. Although contributors of waste to sites involving other potentially responsible parties may face governmental agency assertions of joint and several liability, in general, final allocations of costs are made based on the relative contributions of wastes to such sites. PPG is generally not a major contributor to such sites.

Remediation: Reasonably Possible Matters

In addition to the amounts currently reserved for environmental remediation, the Company may be subject to loss contingencies related to environmental matters estimated to be as much as $100 million to $200 million. Such unreserved losses are reasonably possible but are not currently considered to be probable of occurrence. These reasonably possible unreserved losses relate to environmental matters at a number of sites, none of which are individually significant. The loss contingencies related to these sites include significant unresolved issues such as the nature and extent of contamination at these sites and the methods that may have to be employed to remediate them. The impact of evolving programs, such as natural resource damage claims, industrial site re-use initiatives and domestic and international remediation programs, also adds to the present uncertainties with regard to the ultimate resolution of this unreserved exposure to future loss. The Company’s assessment of the potential impact of these environmental contingencies is subject to considerable uncertainty due to the complex, ongoing and evolving process of investigation and remediation, if necessary, of such environmental contingencies, and the potential for technological and regulatory developments.

Other Matters

The Company had outstanding letters of credit and surety bonds of $162 million and guarantees of $14 million as of June 30, 2018. The Company does not believe any loss related to such guarantees is likely.

18. Reportable Business Segment Information

PPG is a multinational manufacturer with 9 operating segments that are organized based on the Company’s major product lines. These operating segments are also the Company’s reporting units for purposes of testing goodwill for impairment. The operating segments have been aggregated based on economic similarities, the nature of their products, production processes, end-use markets and methods of distribution into two reportable business segments. Effective January 1, 2018, the coatings services operating segment was merged into the industrial coatings operating segment to achieve operational efficiencies and to realign management teams and operations to better deliver the

Company's total value proposition and provide optimal solutions to its customers.

Table of Contents

The Performance Coatings reportable segment is comprised of the automotive refinish, aerospace, architectural coatings – Americas and Asia-Pacific, architectural coatings - EMEA, and protective and marine coatings operating segments. This reportable segment primarily supplies a variety of protective and decorative coatings, sealants and finishes along with paint strippers, stains and related chemicals, as well as transparencies and transparent armor.
The Industrial Coatings reportable segment is comprised of the automotive original equipment manufacturer ("OEM") coatings, industrial coatings, packaging coatings, and the specialty coatings and materials operating segments. This reportable segment primarily supplies a variety of protective and decorative coatings and finishes along with adhesives, sealants, metal pretreatment products, optical monomers and coatings, precipitated silicas, Teslin® and other specialty materials, and coatings services.
Reportable segment net sales and segment income for the three and six months ended June 30, 2018 and 2017 were as follows:

	Three Months Ended June 30		Six Months Ended June 30	
($ in millions)	2018	2017 As Restated	2018	2017 As Restated
Net sales:				
Performance Coatings	$2,498	$2,299	$4,658	$4,316
Industrial Coatings	1,633	1,505	3,254	2,974
Total	$4,131	$3,804	$7,912	$7,290
Segment income: [(a)]				
Performance Coatings	$428	$405	$708	$689
Industrial Coatings	223	264	462	540
Total	$651	$669	$1,170	$1,229
Corporate [(a)]	(23)	(27)	(66)	(88)
Interest expense, net of interest income	(24)	(22)	(45)	(43)
Legacy items [(a),(b)]	1	1	5	(5)
Business restructuring charge	(83)	—	(83)	—
Accelerated depreciation related to restructuring actions	(5)	—	(5)	—
Legacy legal settlements	(10)	18	(10)	18
Accounting investigation costs	(9)	—	(9)	—
Impairment of a non-manufacturing asset	(9)	—	(9)	—
Costs related to customer assortment change	(10)	—	(14)	—
Environmental remediation charges	—	—	(34)	—
Gain from sale of a business	—	25	—	25
Transaction-related costs [(c)]	—	(5)	—	(9)
Pension settlement charge	—	—	—	(22)
Income from continuing operations before income taxes	$479	$659	$900	$1,105

(a) During the first quarter 2018, PPG recast 2017 segment income, legacy items and corporate to present the non-service cost components of pension and other post-retirement benefit costs as corporate costs. Segment income only includes the service cost component of pension and other post-retirement benefit costs for all periods presented. See Note 3, "New Accounting Standards" for more information.

(b) Legacy items include current costs related to former operations of the Company, including pension and other postretirement benefit costs, certain charges for legal matters and environmental remediation costs, and certain other charges which are not associated with PPG's current business portfolio.

(c) Transaction-related costs include advisory, legal, accounting, valuation and other professional or consulting fees incurred to effect significant acquisitions, as well as similar fees and other costs to effect disposals not classified as discontinued operations. These costs may also include the flow-through cost of sales for the step up to fair value of

inventories acquired in acquisitions.

Item 2. Management’s Discussion and Analysis of Financial Condition and Results of Operations

The following discussion and analysis of our financial condition and results of operations should be read in conjunction with our unaudited financial statements and the notes thereto included in the condensed consolidated financial statements in Part I, Item 1, “Financial Statements,” of this report and in conjunction with the 2017 Form 10-K/A. As described in Note 2, “Restatement of Previously Reported Consolidated Annual and Condensed Consolidated Quarterly (unaudited) Financial Statements,” we restated our audited consolidated financial statements for the years ended December 31, 2017 and 2016. We have also restated certain unaudited quarterly results related to the three months ended December 31, 2016, March 31, 2017, June 30, 2017 (and six months ended), September 30, 2017 (and nine months ended) and December 31, 2017. The impact of the restatement is reflected below in Management's Discussion and Analysis of Financial Condition and Results of Operations.

Executive Overview

Below are our key financial results for the three months ended June 30, 2018:

- Net sales were approximately $4.1 billion, up 8.6% compared to the prior year.
- Cost of sales, exclusive of depreciation and amortization ("Cost of sales") was $2.4 billion, up 14.2% versus prior year. As a percentage of sales, Cost of sales increased 2.8%.
- Selling, general and administrative ("SG&A") expense was $0.9 billion, up 7.9% year-over-year. As a percentage of sales, SG&A expense decreased 0.1%.
- Income before income taxes was $479 million.
- The effective tax rate was 21.7%.
- Income from continuing operations, net of tax (attributable to PPG) was $371 million.
- Earnings per diluted share from continuing operations was $1.51.

For the six months ended June 30, 2018:

- Cash flows from operating activities - continuing operations was $131 million, a decrease of $301 million year-over-year.
- Capital expenditures, including acquisitions (net of cash acquired), was $216 million.
- The Company paid $222 million in dividends and repurchased $1,063 million of its outstanding common stock.

Table of Contents

Performance in the second quarter of 2018 compared to the second quarter of 2017
Performance Overview
Net Sales

($ in millions, except percentages)	Three Months Ended June 30		Percent Change	
	2018	2017	2018 vs. 2017	
		As Restated		
United States and Canada	$1,792	$1,681	6.6	%
Europe, Middle East and Africa (EMEA)	1,279	1,152	11.0	%
Asia-Pacific	680	608	11.8	%
Latin America	380	363	4.7	%
Total	$4,131	$3,804	8.6	%

2018 vs. 2017
Net sales increased $327 million due to the following:

- Higher sales volumes (+3%)
- Favorable foreign currency translation (+2%)
- Higher selling prices (+2%)
- Net sales from acquired businesses (+1%)

In the United States and Canada region, sales volumes were higher by a low-single-digit percentage. Aerospace coatings, automotive refinish coatings and packaging coatings had above-market sales volume performance driven by customers' continuing adoption of PPG's technology advantaged products. Architectural company-owned stores same store sales increased by a high-single-digit percentage and architectural national retail (DIY) sales were up modestly aided by the launch of PPG OLYMPIC® stain at The Home Depot®. Lower sales volumes in the architectural independent dealer channel partially offset these gains. The automotive OEM coatings, general industrial coatings and protective and marine coatings businesses had modest sales volume growth during the quarter.
In the Europe, Middle East and Africa (EMEA) region, sales volumes were modestly higher. Strong sales volume growth in general industrial coatings, automotive OEM coatings, and packaging coatings was offset by a low-single-digit percentage decrease in architectural coatings. Sales volumes in the protective and marine coatings business continued to be lower due to customer project delays.
In the Asia-Pacific region, sales volumes grew a mid-single-digit percentage with above market growth in aerospace coatings, automotive refinish coatings, general industrial coatings and protective and marine coatings partially offset by lower sales volume growth in packaging coatings.
In the Latin America region, sales volumes expanded by a high-single-digit percentage versus the prior year led by automotive OEM coatings, general industrial coatings, packaging coatings and automotive refinish coatings. The architectural coatings business grew organic sales by a high-single-digit percentage driven by strong waterborne product and project sales. PPG automotive OEM coatings continued to perform at above-market levels driven by new business secured in 2017.
Net sales from acquired businesses, net of dispositions added approximately $30 million, primarily from The Crown Group.
Foreign currency translation increased net sales approximately $90 million as the U.S. dollar weakened against several foreign currencies versus the prior year, most notably the Mexican peso and the euro.

Table of Contents

Cost of Sales, exclusive of depreciation and amortization

($ in millions, except percentages)	Three Months Ended June 30 2018	2017	Percent Change 2018 vs. 2017
Cost of sales, exclusive of depreciation and amortization	$2,379	$2,083	14.2 %
Cost of sales as a percentage of net sales	57.6 %	54.8 %	2.8 %

2018 vs. 2017

Cost of sales, exclusive of depreciation and amortization, increased $296 million primarily due to the following:

- Higher raw material costs
- Foreign currency translation
- Higher sales volumes
- Cost reclassifications associated with the adoption of the new revenue recognition standard. Refer to Note 4, "Revenue Recognition" within Part 1 of this 10-Q.
- Cost of sales attributable to acquired businesses

Partially offset by:

- Lower manufacturing costs, including restructuring cost savings

Selling, general and administrative expenses

($ in millions, except percentages)	Three Months Ended June 30 2018	2017 As Restated	Percent Change 2018 vs. 2017
Selling, general and administrative expenses (SG&A)	$945	$876	7.9 %
Selling, general and administrative expenses as a percentage of net sales	22.9 %	23.0 %	(0.1)%

2018 vs. 2017

SG&A expense increased $69 million primarily due to the following:

- Foreign currency translation
- Wage and other cost inflation
- SG&A expenses attributable to acquired businesses

Partially offset by:

- Cost reclassifications associated with the adoption of the new revenue recognition standard. Refer to Note 4, "Revenue Recognition" within Part 1 of this 10-Q.
- Restructuring cost savings
- Lower selling and advertising expense

Other costs and income

($ in millions, except percentages)	Three Months Ended June 30 2018	2017 As Restated	Percent Change 2018 vs. 2017
Interest expense, net of Interest income	$24	$22	9.1 %
Other charges	$6	$8	(25.0)%
Other income	($24)	($69)	(65.2)%

Other income

Other income was lower in the second quarter of 2018 due to the absence of the gain on the sale of the Plaka business of $25 million and income from a legacy legal settlement of $18 million recorded in the second quarter of 2017.

Table of Contents

Effective tax rate and earnings per diluted share

($ in millions, except percentages)	Three Months Ended June 30 2018	2017 As Restated	Percent Change 2018 vs. 2017
Income tax expense	$104	$157	(33.8)%
Effective tax rate	21.7 %	23.8 %	(2.1)%
Adjusted effective tax rate, continuing operations*	22.0 %	24.3 %	(2.3)%
Earnings per diluted share, continuing operations	$1.51	$1.92	(21.4)%
Adjusted earnings per diluted share*	$1.90	$1.80	5.6 %

*See Regulation G Reconciliation below

The effective tax rate for the three months ending June 30, 2018 reflects the benefit of U.S. tax legislation enacted in December 2017, as well as the impact of certain discrete tax items. The Company expects its full year 2018 effective tax rate will be between 23.0% and 24.0%.

Earnings per diluted share from continuing operations for the three months ended June 30, 2018 decreased year-over-year due to the business restructuring charge as well as other items included in Other income as described further in the Regulation G reconciliation. The Company benefited from the 9.6 million shares repurchased in the first half of 2018 and 5.8 million shares repurchased in the third and fourth quarters of 2017.

Regulation G Reconciliation - Results from Operations

PPG Industries believes investors’ understanding of the Company’s operating performance is enhanced by the disclosure of net income, earnings per diluted share and the effective tax rate adjusted for certain charges. PPG’s management considers this information useful in providing insight into the Company’s ongoing operating performance because it excludes the impact of items that cannot reasonably be expected to recur on a quarterly basis or that are not attributable to our primary operations. Net income, earnings per diluted share and the effective tax rate adjusted for these items are not recognized financial measures determined in accordance with U.S. generally accepted accounting principles (U.S. GAAP) and should not be considered a substitute for net income, earnings per diluted share, the effective tax rate or other financial measures as computed in accordance with U.S. GAAP. In addition, adjusted net income, earnings per diluted share and the effective tax rate may not be comparable to similarly titled measures as reported by other companies.

Table of Contents

Income before income taxes from continuing operations is reconciled to adjusted income before income taxes from continuing operations, the effective tax rate from continuing operations is reconciled to the adjusted effective tax rate from continuing operations and net income from continuing operations (attributable to PPG) and earnings per share – assuming dilution (attributable to PPG) are reconciled to adjusted net income from continuing operations (attributable to PPG) and adjusted earnings per share – assuming dilution below:

	Three Months Ended June 30, 2018				
($ in millions, except percentages and per share amounts)	Income Before Income Taxes	Tax Expense	Effective Tax Rate	Net income from continuing operations (attributable to PPG)	Earnings per diluted share
As reported, continuing operations	$479	$104	21.7 %	$371	$1.51
Adjusted for:					
Costs related to customer assortment change	10	2	24.3 %	8	0.03
Business restructuring charge	83	20	24.2 %	63	0.25
Accelerated depreciation from restructuring actions	5	1	23.8 %	4	0.02
Legacy legal settlement	10	2	24.3 %	8	0.03
Accounting investigation costs	9	2	24.3 %	7	0.03
Impairment of non-manufacturing asset	9	2	24.3 %	7	0.03
Adjusted, continuing operations, excluding certain items	$605	$133	22.0 %	$468	$1.90

As Restated	Three Months Ended June 30, 2017				
($ in millions, except percentages and per share amounts)	Income Before Income Taxes	Tax Expense	Effective Tax Rate	Net income from continuing operations (attributable to PPG)	Earnings per share
As reported, continuing operations	$659	$157	23.8 %	$497	$1.92
Adjusted for:					
Transaction-related costs[1]	5	2	37.9 %	3	0.01
Gain on sale of the Plaka business	(25)	(1)	3.2 %	(24)	(0.09)
Legacy legal settlement	(18)	(7)	37.9 %	(11)	(0.04)
Adjusted, continuing operations, excluding certain items	$621	$151	24.3 %	$465	$1.80

(1) Transaction-related costs include advisory, legal, accounting, valuation and other professional or consulting fees incurred to effect significant acquisitions, as well as similar fees and other costs to effect disposals not classified as discontinued operations.

Table of Contents

Performance of Reportable Business Segments

Performance Coatings

($ in millions, except per share amounts)	Three Months Ended June 30		$ Change	% Change
	2018	2017	2018 vs. 2017	2018 vs. 2017
		As Restated		
Net sales	$2,498	$2,299	$199	8.7 %
Segment income	$428	$405	$23	5.7 %

2018 vs. 2017

Performance Coatings net sales increased $199 million due to the following:

- Higher sales volumes (+4%)
- Higher selling prices (+3%)
- Favorable foreign currency translation (+2%)

Architectural coatings Americas and Asia Pacific sales volumes were slightly higher versus the prior year. This business benefited from one additional shipping day compared to the prior year second quarter. Sales volumes were positive year-over-year in the U.S. and Canada company-owned store network, as well as in Mexico, Central America and China. The architectural coatings business in Mexico grew organic sales by a high-single-digit percentage driven by strong waterborne products, roof coatings and project sales. Organic sales volumes increased by a high-single-digit percentage in the U.S. and Canada company-owned stores. This increase was partially offset by lower independent dealer network sales volumes. The DIY channel was slightly higher than the prior year supported by the launch of OLYMPIC® stain brand at THE HOME DEPOT® during the second quarter of 2018.

Architectural coatings - EMEA sales volumes declined by a low-single-digit percentage year-over-year. Sales volumes were better than the first quarter but impacted by soft regional consumer demand.

Automotive refinish coatings organic sales grew by a mid-single-digit percentage year-over-year, led by above-market performance in all key geographical regions as customers continue to adopt PPG's industry leading technologies. Collision claims in the U.S. and Canada were down in the second quarter of 2018 and miles driven were flat.

Aerospace coatings sales volumes grew slightly more than 10 percent, including above-market volume growth in the U.S. and Asia-Pacific. Aerospace sales grew across all major platforms.

Protective and marine coatings sales volumes increased by a low-single-digit percentage driven by strong protective coatings sales volumes in China. Marine coatings sales volumes were higher year-over-year.

Segment income increased $23 million year-over-year primarily due to strong sales volumes, higher selling prices, and restructuring savings partly offset by inflation in raw material and logistics costs. Favorable foreign currency translation increased segment income by approximately $10 million primarily driven by the Mexican peso and the euro.

Looking Ahead

In the third quarter of 2018, we expect raw material costs to remain elevated at similar levels experienced in the second quarter. There will be no material benefit from acquisition-related sales in the segment, and based on current exchange rates, foreign currency translation is expected to have an unfavorable impact on segment sales and income in the third quarter. We anticipate additional year-over-year growth-related spending of up to $5 million in the third quarter.

From a business perspective, we anticipate lower sales volumes in the DIY channel in the third quarter due to the previously communicated customer assortment change within the Architectural coatings Americas and Asia Pacific business. In Architectural coatings - EMEA, we expect demand patterns to be similar to those experienced in the second quarter of 2018 with the potential for lower industry demand in the U.K. due to consumer apprehension surrounding the "Brexit" process. In automotive refinish coatings, we expect sales volumes to increase at a more modest pace in the third quarter, primarily driven by the U.S. and Canada region. In aerospace coatings, we anticipate a

continuation of the trends seen in the second quarter of 2018. Marine coatings sales volumes are expected to generally trend modestly positive in the third quarter.

Table of Contents

Industrial Coatings

	Three Months Ended June 30		$ Change	% Change
($ in millions, except per share amounts)	2018	2017	2018 vs. 2017	2018 vs. 2017
Net sales	$1,633	$1,505	$128	8.5 %
Segment income	$223	$264	($41)	(15.5)%

2018 vs. 2017

Industrial Coatings segment net sales increased $128 million due to the following:

- Higher sales volumes (+3%)
- Favorable foreign currency translation (+3%)
- Acquisition-related sales (+2%)
- Higher selling prices (+1%)

Sales volumes were up a low-single-digit percentage in the automotive OEM coatings business versus the prior year period, which is consistent with the overall global industry build rate. PPG's sales volume growth was strongest in Latin America. Sales in the Asia Pacific region were flat compared to the prior year primarily due to lower sales in Korea and the exiting of all remaining automotive OEM production in Australia which was completed in late 2017. Sales volumes in China were consistent with automotive industry builds in the region.

Aggregate industrial coatings and specialty coatings and materials sales volumes grew year-over-year. Sales volumes were the strongest in Europe, Asia Pacific and Latin America driven by strong end-market demand for coil, heavy-duty equipment and electronic materials. Selling prices continued to improve. Acquisition-related sales from The Crown Group, acquired in October 2017, added approximately $30 million in sales below segment margins and in-line with the Company's expectations.

Packaging coatings sales volumes were up a mid-single-digit percentage versus the prior year due to ongoing adoption of PPG's new can coating technologies. Sales volumes increased by a high-single-digit percentage in the U.S., Europe and Latin America. Asia-Pacific region volumes decreased stemming from prioritizing selling price increases over volume in the region.

Segment income decreased $41 million year-over-year. Segment income benefited from improving selling prices, restructuring savings and lower manufacturing costs, which were more than offset by elevated raw material costs and logistics costs. Favorable foreign currency translation added $5 million to segment income, primarily related to the Chinese yuan, the euro and the Mexican peso.

Looking ahead

In the third quarter of 2018, we expect modestly lower sequential sales due to seasonal patterns, most notably in the automotive OEM coatings where normal annual production shutdowns are planned. There is greater risk of industrial demand being impacted due to uncertainties regarding global trade policies. We anticipate that the raw material and logistics cost inflationary environment will continue in the third quarter at similar levels as experienced in the second quarter. The company will continue to prioritize selling price increases and operating margin recovery, both of which are expected to improve in the third quarter. Based on current exchange rates, foreign currency translation is expected to have a negative impact on segment sales and income in the third quarter 2018.

From a business perspective, global automotive industry growth in the third quarter is expected to be similar to the second quarter of 2018. We anticipate continued favorable general industrial demand growth trends in aggregate. In packaging coatings, we anticipate sales volume growth will continue due to the ongoing industry conversion to BPA-non-intent interior can coatings with PPG's year-over-year aggregate growth rates continuing at an above-market level.

Table of Contents

Performance in the first six months of 2018 compared to the first six months of 2017
Performance Overview
Net Sales

($ in millions, except percentages)	Six Months Ended June 30		Percent Change	
	2018	2017	2018 vs. 2017	
		As Restated		
United States and Canada	$3,377	$3,224	4.7	%
Europe, Middle East and Africa (EMEA)	2,459	2,175	13.1	%
Asia-Pacific	1,310	1,191	10.0	%
Latin America	766	700	9.4	%
Total	$7,912	$7,290	8.5	%

2018 vs. 2017
Net sales increased $622 million due to the following:
- Favorable foreign currency translation (+4%)
- Higher selling prices (+2%)
- Higher sales volumes (+2%)
- Net sales from acquired businesses (+1%)

U.S. and Canada sales volumes increased modestly versus the prior year. Aerospace coatings and packaging coatings had above market sales volume growth reflecting continued adoption of PPG's technology advanced products. Organic sales in the automotive refinish coatings business grew year-over-year, despite slightly lower industry collision claims. Sales volumes in the industrial coatings business were slightly lower year-over-year. Our architectural coatings company-owned stores continued to perform well, as sales volumes were positive versus the prior year. These increases were more than offset by sales volumes declines in the architectural national retail DIY channel and independent dealer networks, including the unfavorable impact from a customer assortment change in the DIY channel.
In February 2018, PPG announced that Lowe’s will discontinue the sale of OLYMPIC® brand paints and stains in its U.S. retail stores, effective mid-2018. During the second quarter 2018, the Company launched its OLYMPIC® stain products at THE HOME DEPOT® U.S. retail stores, expanding our existing partnership arrangement; however, these incremental sales will not offset expected declines in the overall DIY and independent dealer network. PPG will continue to supply certain specialty building materials to Lowe’s stores.
Europe, Middle East and Africa (EMEA) sales volumes were flat versus the prior year. Strong sales volume growth in general industrial coatings, automotive refinish coatings, automotive OEM coatings and packaging coatings was offset by a mid-single-digit percentage decrease in architectural coatings. Sales volumes in the protective and marine coatings business were lower due to customer project delays.
Asia-Pacific sales volumes were up a low-single-digit percentage from the comparable six-month period, with growth in general industrial coatings, aerospace coatings, automotive refinish coatings and protective coatings offset by lower sales volumes in marine coatings, automotive OEM coatings and packaging coatings.
Latin American sales volumes grew by a high-single-digit percentage versus the prior year, led by our architectural coatings, industrial coatings and automotive OEM coatings businesses. PPG automotive OEM coatings continued to perform at above market levels, driven by new business secured in 2017.
Net sales from acquired businesses, net of dispositions added approximately $65 million, primarily from The Crown Group.
Foreign currency translation increased net sales by approximately $300 million as the U.S. dollar weakened against several foreign currencies versus the prior year, most notably the Mexican peso and the euro.

Table of Contents

Cost of Sales, exclusive of depreciation and amortization

($ in millions, except percentages)	Six Months Ended June 30		Percent Change
	2018	2017	2018 vs. 2017
Cost of sales, exclusive of depreciation and amortization	$4,560	$3,985	14.4 %
Cost of sales as a percentage of net sales	57.6 %	54.7 %	2.9 %

2018 vs. 2017

Cost of sales, exclusive of depreciation and amortization, increased $575 million primarily due to the following:

- Foreign currency translation
- Higher raw material costs
- Higher sales volumes
- Cost reclassifications associated with the adoption of the new revenue recognition standard. Refer to Note 4, "Revenue Recognition" within Part 1 of this Form 10-Q.
- Cost of sales attributable to acquired businesses

Partially offset by:

- Lower manufacturing costs, including restructuring cost savings

Selling, general and administrative expenses

($ in millions, except percentages)	Six Months Ended June 30		Percent Change
	2018	2017	2018 vs. 2017
		As Restated	
Selling, general and administrative expenses (SG&A)	$1,851	$1,751	5.7 %
Selling, general and administrative expenses as a percentage of net sales	23.4 %	24.0 %	(0.6)%

2018 vs. 2017

SG&A expense increased $100 million primarily due to the following:

- Foreign currency translation
- Wage and other cost inflation
- SG&A expenses attributable to acquired businesses

Partially offset by:

- Cost reclassifications associated with the adoption of the new revenue recognition standard. Refer to Note 4, "Revenue Recognition" within Part 1 of this Form 10-Q.
- Restructuring cost savings
- Lower selling and advertising expense

Table of Contents

Other costs and income

($ in millions, except percentages)	Six Months Ended June 30 2018	2017 As Restated	Percent Change 2018 vs. 2017
Interest expense, net of Interest income	($45)	($43)	4.7 %
Pension settlement charge	—	$22	(100.0)%
Other charges	$47	$33	42.4 %
Other income	($48)	($93)	(48.4)%

Pension settlement charge

During the first quarter of 2017, PPG made lump-sum payments to certain retirees who had participated in PPG's U.S. non-qualified pension plan (the "Nonqualified Plan") totaling approximately $40 million. As the lump-sum payments were in excess of the expected annual service and interest costs for the Nonqualified Plan, PPG remeasured the periodic benefit obligation of the Nonqualified Plan as of March 1, 2017 and recorded a corresponding settlement charge totaling $22 million.

Other charges

Other charges were higher in the six months ended June 30, 2018 compared to the comparable prior year period due to environmental remediation charges of $34 million. Offsetting this increase, the non-service components of net periodic pension and post-retirement benefit costs were lower by $10 million in the six months ended June 30, 2018 compared to the comparable prior year period due to higher expected return on assets and lower amortization of actuarial losses. We expect this trend to continue for the remainder of 2018.

Other income

Other income was lower in the six months ended June 30, 2018 due to the absence of a gain on the sale of a business of $25 million and income from a legacy legal settlement of $18 million recorded in 2017.

Effective tax rate and earnings per diluted share

($ in millions, except percentages)	Six Months Ended June 30 2018	2017 As Restated	Percent Change 2018 vs. 2017
Income tax expense	$191	$267	(28.5)%
Effective tax rate	21.2 %	24.2 %	(3.0)%
Adjusted effective tax rate, continuing operations*	21.5 %	24.7 %	(3.2)%
Earnings per diluted share, continuing operations	$2.81	$3.19	(11.9)%
Adjusted earnings per diluted share*	$3.31	$3.13	5.8 %

*See Regulation G Reconciliation below

The effective tax rate for the six months ending June 30, 2018 reflects the benefit of U.S. tax legislation enacted in December 2017 as well as the impact of certain discrete tax items. The Company expects its full year 2018 effective tax rate will be between 23.0% and 24.0%.

Earnings per diluted share from continuing operations for the six months ended June 30, 2018 decreased year-over-year due to the business restructuring charge, as well as other items included in Other income as described further in the Regulation G reconciliation. The Company benefited from the 9.6 million shares repurchased in the first half of 2018 and 5.8 million shares repurchased in the third and fourth quarters of 2017.

Regulation G Reconciliation - Results from Operations
PPG Industries believes investors' understanding of the Company's operating performance is enhanced by the disclosure of net income, earnings per diluted share and the effective tax rate adjusted for certain charges. PPG's management considers this information useful in providing insight into the Company's ongoing operating performance because it excludes the impact of items that cannot reasonably be expected to recur on a quarterly basis or that are not attributable to our primary operations. Net income, earnings per diluted share and the effective tax rate adjusted

Table of Contents

for these items are not recognized financial measures determined in accordance with U.S. generally accepted accounting principles (U.S. GAAP) and should not be considered a substitute for net income, earnings per diluted share, the effective tax rate or other financial measures as computed in accordance with U.S. GAAP. In addition, adjusted net income, earnings per diluted share and the effective tax rate may not be comparable to similarly titled measures as reported by other companies.

Income before income taxes from continuing operations is reconciled to adjusted income before income taxes from continuing operations, the effective tax rate from continuing operations is reconciled to the adjusted effective tax rate from continuing operations and net income from continuing operations (attributable to PPG) and earnings per share – assuming dilution (attributable to PPG) are reconciled to adjusted net income from continuing operations (attributable to PPG) and adjusted earnings per share – assuming dilution below:

	Six Months Ended June 30, 2018				
($ in millions, except percentages and per share amounts)	Income Before Income Taxes	Tax Expense	Effective Tax Rate	Net income from continuing operations (attributable to PPG)	Earnings per diluted share
As reported, continuing operations	$900	$191	21.2 %	$699	$2.81
Adjusted for:					
Costs related to customer assortment change	14	3	24.3 %	11	0.04
Environmental remediation charges	34	8	25.1 %	26	0.10
Business restructuring charge	83	20	24.2 %	63	0.25
Accelerated depreciation from restructuring actions	5	1	23.8 %	4	0.02
Legacy legal settlement	10	2	24.3 %	8	0.03
Accounting investigation costs	9	2	24.3 %	7	0.03
Impairment of non-manufacturing asset	9	2	24.3 %	7	0.03
Adjusted, continuing operations, excluding certain items	$1,064	$229	21.5 %	$825	$3.31

For the three months ended March 31, 2018, PPG determined that a portion of the Company's reserve for unrecognized tax benefits should be released discretely in the first quarter, rather than be included in the effective tax rate to be applied over the course of the full year, reducing income tax expense for the first quarter by $15 million. In the first quarter Form 10-Q, this was shown as an adjustment to net income from continuing operations, excluding non-recurring items. In the second quarter of 2018, there is an additional $23 million of various tax items that should be treated as discrete items rather than be included in the annual effective tax rate.

PPG has determined that such tax items are likely to be incurred on a regular basis and will be part of PPG's on-going tax expense and should not be treated as adjustments to net income from continuing operations. As such, PPG will not include the $15 million reserve release or similar recurring tax items going forward as an adjustment to net income from continuing operations.

As Restated	Six Months Ended June 30, 2017				
($ in millions, except percentages and per share amounts)	Income Before Income Taxes	Tax Expense	Effective Tax Rate	Net income from continuing operations (attributable to PPG)	Earnings per share
As reported, continuing operations	$1,105	$267	24.2 %	$828	$3.19
Adjusted for:					
Transaction-related costs[(1)]	9	3	37.9 %	6	0.02
Pension settlement charge	22	8	37.9 %	14	0.05
Gain on sale of Plaka business	(25)	(1)	3.2 %	(24)	(0.09)

Legacy legal settlement	(18)	(7)	37.9 %	(11)	(0.04)
Adjusted, continuing operations, excluding certain items	$1,093	$270	24.7 %	$813	$3.13

(1) Transaction-related costs include advisory, legal, accounting, valuation and other professional or consulting fees incurred to effect significant acquisitions, as well as similar fees and other costs to effect disposals not classified as discontinued operations.

Table of Contents

Performance of Reportable Business Segments

Performance Coatings

($ in millions, except per share amounts)	Six Months Ended June 30		$ Change	% Change
	2018	2017	2018 vs. 2017	2018 vs. 2017
		As Restated		
Net sales	$4,658	$4,316	$342	7.9 %
Segment income	$708	$689	$19	2.8 %

2018 vs. 2017

Performance Coatings net sales increased $342 million due to the following:

- Favorable foreign currency translation (+4%)
- Higher selling prices (+2%)
- Higher sales volumes (+2%)

Architectural coatings - Americas and Asia Pacific sales volumes were flat versus the prior year. Sales volumes were positive year-over-year in the U.S. and Canada company-owned store network as well as in Mexico, Central America, Australia and Brazil. The increase was offset by lower DIY and independent dealer network channel declines, including the unfavorable impact from a customer assortment change in the U.S. architectural DIY channel.

Architectural coatings - EMEA sales volumes decreased by a low-single-digit percentage year-over-year consistent with the market. Sales volumes were impacted by harsh weather in the first quarter and soft consumer demand in the retail channel in the second quarter.

Automotive refinish coatings organic sales grew by a mid-single-digit percentage year-over-year, with growth in all key geographic regions as customers adopted PPG's industry leading technologies.

Aerospace coatings sales volumes grew by low-teen-digit percentage versus the prior year, including above-market volume growth in the U.S. and Asia. Strong growth was supported by positive industry demand fundamentals and market outperformance in the U.S. from advantaged technology products.

Protective and marine coatings sales volumes increased by a mid-single-digit percentage year-over-year. Protective coatings sales volumes were up, driven by growth in China. These increases were somewhat offset by moderating decreases in marine coatings.

Segment income increased $19 million year-over-year despite significantly increasing raw material costs and wage and other cost inflation. These cost increases were offset by higher selling prices and lower manufacturing and overhead costs generated from disciplined cost management actions, including further benefits from the Company's 2016 restructuring program. Favorable foreign currency translation increased segment income by approximately $25 million, primarily related to the strengthening of the Mexican peso and the euro.

Table of Contents

Industrial Coatings

	Six Months Ended June 30		$ Change	% Change
($ in millions, except per share amounts)	2018	2017	2018 vs. 2017	2018 vs. 2017
Net sales	$3,254	$2,974	$280	9.4 %
Segment income	$462	$540	($78)	(14.4)%

2018 vs. 2017

Industrial Coatings segment net sales increased $280 million due to the following:

- Favorable foreign currency translation (+4%)
- Higher sales volumes (+2%)
- Acquisition-related sales (+2%)
- Higher selling prices (+1%)

Automotive OEM coatings sales volumes were slightly higher versus the prior year, consistent with the global automotive industry growth rate. PPG’s sales volume growth was strongest in Mexico and South America.

Industrial coatings and specialty coatings and materials sales volumes, in aggregate, continued to grow driven by strong end-market demand for heavy-duty equipment and electronics materials. From a geographic perspective, sales volumes growth was led by EMEA, Latin America and Asia Pacific. Acquisition-related sales from The Crown Group added approximately $60 million in sales during the first half of 2018.

Packaging coatings sales volumes were up a mid-single-digit percentage year-over-year driven by ongoing customer adoption of PPG's new can coating technologies. From a geographic perspective, sales volumes in the developed regions grew a mid-to-high-single-digit percentage, led by Europe and the U.S. and Canada. In the Asia Pacific region, sales volumes decreased.

Segment income decreased $78 million year-over-year primarily due to continuing significant raw material and logistics cost inflation, higher overhead costs and wage inflation, partially offset by lower manufacturing costs, including benefits from business restructuring actions and higher selling prices. Favorable foreign currency translation added $17 million to segment income.

Table of Contents

Liquidity and Capital Resources

PPG had cash and short-term investments totaling $1.1 billion and $1.5 billion at June 30, 2018 and December 31, 2017, respectively.

Cash from operating activities - continuing operations for the six months ended June 30, 2018 was $131 million. Cash from operating activities - continuing operations was $432 million for the six months ended June 30, 2017. Operating cash flow decreased primarily due to higher working capital.

Other uses of cash during the six months ended June 30, 2018 included:

- Capital expenditures, excluding acquisitions, of $118 million.
- Business acquisition cash spending of $98 million.
- Contributions to pension plans of $35 million.
- Cash dividends paid of $222 million.
- Share repurchases of $1,063 million.

In February 2018, PPG completed a public debt offering of $300 million aggregate principal amount of 3.2% notes due 2023 and $700 million aggregate principal amount of 3.75% notes due 2028 and received aggregate net proceeds of $992 million.

Total capital spending in 2018 is expected to be up to 3.0% of full year sales. PPG made a $25 million voluntary contribution to its U.S. defined benefit pension plans in January 2018. PPG expects to make mandatory contributions to its non-U.S. pension plans in the range of $10 million to $20 million during the remaining six months of 2018 and may make voluntary contributions to its defined benefit pension plans in 2018 and beyond.

We intend to deploy our cash in a timely, disciplined manner with a continued emphasis on incremental earnings accretive initiatives, including additional acquisitions and share repurchases. The Company expects cash deployment for acquisitions and share repurchases of at least $2.4 billion for 2018.

PPG's total debt to equity ratio (total debt, including capital leases, to total debt and PPG shareholders’ equity) was 51% at June 30, 2018 and 43% at December 31, 2017.

Operating Working Capital is a subset of total working capital and represents (1) trade receivables – net of the allowance for doubtful accounts, (2) FIFO inventories and (3) trade liabilities. We believe Operating Working Capital represents the key components of working capital under the operating control of our businesses. A key metric we use to measure improvement in our working capital management is Operating Working Capital as a percentage of sales (current quarter sales annualized).

($ in millions, except percentages)	June 30, 2018	December 31, 2017	June 30, 2017 As Restated
Trade Receivables, Net	$3,094	$2,559	$2,785
Inventories, FIFO	2,069	1,833	1,868
Trade Creditors’ Liabilities	2,464	2,321	2,187
Operating Working Capital	$2,699	$2,071	$2,466
Operating Working Capital as a % of Sales	16.3 %	14.1 %	16.2 %
Days sales outstanding	60	57	59
Days payable outstanding	97	96	95

Other Liquidity Information

The Company continues to believe that cash on hand and short term investments, cash from operations and the Company's access to capital markets will continue to be sufficient to fund our operating activities, capital spending, acquisitions, dividend payments, debt service, share repurchases, contributions to pension plans and PPG's contractual obligations.

Table of Contents

Environmental

	Three Months Ended June 30		Six Months Ended June 30	
($ in millions)	2018	2017	2018	2017
Cash outlays for environmental remediation activities	$14	$10	$31	$22

($ in millions)	Remainder of 2018	Annually 2019 - 2022
Projected future cash outlays for environmental remediation activities	$34	$25 - $75

Restructuring

The 2016 restructuring actions have anticipated annual savings of approximately $125 million once fully implemented. The company expects to achieve at least $60 million in savings in 2018.

A pretax restructuring charge of $83 million was recorded in PPG's second quarter 2018 financial results, of which $80 million represents employee severance and other cash costs. The remainder of the charge represents the write-down of certain assets. In addition, other cash costs of approximately $25 million will be incurred, consisting of approximately $10 million of incremental restructuring-related cash costs for certain items that are required to be expensed on an as-incurred basis and approximately $15 million for items which are expected to be capitalized. The Company also expects approximately $20 million of incremental non-cash accelerated depreciation expense for certain assets due to their reduced expected asset life as a result of this program, $5 million of which was recognized in the second quarter of 2018. Substantially all actions from this business restructuring plan are expected to be complete by the end of the second quarter of 2019. The company expects this program to achieve annual savings of $85 million upon full implementation.

In addition, the Company continues to review its cost structure to identify additional cost savings opportunities.

Currency

Comparing exchange rates as of December 31, 2017 to June 30, 2018, the U.S. dollar strengthened against numerous currencies in which PPG operates, most notably the Mexican peso and euro. As a result, consolidated net assets at June 30, 2018 decreased by $166 million compared to December 31, 2017.

Comparing exchange rates during the first six months of 2018 to those of the first six months of 2017, the U.S. dollar weakened against the currencies of most countries in which PPG operates, most notably the euro, Mexican peso and British pound. This had a favorable impact on income from continuing operations before income taxes for the six months ended June 30, 2018 of $43 million from the translation of these foreign earnings into U.S. dollars.

New Accounting Standards

See Note 3, “New Accounting Standards,” to the accompanying condensed consolidated financial statements for further details on recently issued accounting guidance.

Commitments and Contingent Liabilities, including Environmental Matters

PPG is involved in a number of lawsuits and claims, both actual and potential, including some that it has asserted against others, in which substantial monetary damages are sought. See Part II, Item 1, “Legal Proceedings” of this Form 10-Q and Note 17, “Commitments and Contingent Liabilities,” to the accompanying condensed consolidated financial statements for a description of certain of these lawsuits.

As discussed in Part II, Item 1 and Note 17, although the result of any future litigation of such lawsuits and claims is inherently unpredictable, management believes that, in the aggregate, the outcome of all lawsuits and claims involving PPG, including asbestos-related claims, will not have a material effect on PPG's consolidated financial position or liquidity; however, any such outcome may be material to the results of operations of any particular period in which costs, if any, are recognized.

As also discussed in Note 17, PPG has significant reserves for environmental contingencies. Please refer to the Environmental Matters section of Note 17 for details of these reserves. A significant portion of our reserves for environmental contingencies relate to ongoing remediation at PPG's former chromium manufacturing plant in Jersey City, N.J. and associated sites ("New Jersey Chrome"). The Company continues to analyze, assess and remediate the

environmental issues associated with New Jersey Chrome. Information will continue to be generated from the ongoing groundwater remedial investigation activities related to New Jersey Chrome and will be incorporated into a

Table of Contents

final draft remedial action work plan for groundwater expected to be submitted to the New Jersey Department of Environmental Protection no later than 2020.

It is possible that technological, regulatory and enforcement developments, the results of environmental studies and other factors could alter the Company's expectations with respect to future charges against income and future cash outlays. Specifically, the level of expected future remediation costs and cash outlays is highly dependent upon activity related to New Jersey Chrome.

Forward-Looking Statements

The Private Securities Litigation Reform Act of 1995 provides a safe harbor for forward-looking statements made by or on behalf of the Company. Management's Discussion and Analysis and other sections of this Quarterly Report contain forward-looking statements that reflect the Company's current views with respect to future events and financial performance. You can identify forward-looking statements by the fact that they do not relate strictly to current or historic facts. Forward-looking statements are identified by the use of the words "aim," "believe," "expect," "anticipate," "intend," "estimate," "project," "outlook," "forecast" and other expressions that indicate future events and trends. Any forward-looking statement speaks only as of the date on which such statement is made, and the Company undertakes no obligation to update any forward looking statement, whether as a result of new information, future events or otherwise. You are advised, however, to consult any further disclosures we make on related subjects in our reports to the Securities and Exchange Commission. Also, note the following cautionary statements.

Many factors could cause actual results to differ materially from the Company's forward-looking statements. Such factors include global economic conditions, increasing price and product competition by foreign and domestic competitors, fluctuations in cost and availability of raw materials, the ability to achieve selling price increases, the ability to recover margins, the ability to maintain favorable supplier relationships and arrangements, the timing of and the realization of anticipated cost savings from restructuring initiatives, the ability to identify additional cost savings opportunities, difficulties in integrating acquired businesses and achieving expected synergies therefrom, economic and political conditions in international markets, the ability to penetrate existing, developing and emerging foreign and domestic markets, foreign exchange rates and fluctuations in such rates, fluctuations in tax rates, the impact of future legislation, the impact of environmental regulations, unexpected business disruptions, our ability to successfully remediate the material weakness in our internal control over financial reporting disclosed in this report within the time periods and in the manner currently anticipated, the effectiveness of our internal control over financial reporting, including the identification of additional control deficiencies, further expenditures related to our restatement, the results of governmental actions relating to pending investigations, the results of shareholder actions relating to the restatement of our financial statements and the unpredictability of existing and possible future litigation.

Consequently, while the list of factors presented here and in the 2017 Form 10-K/A under the caption "Item 1A Risk Factors" are considered representative, no such list should be considered to be a complete statement of all potential risks and uncertainties. Unlisted factors may present significant additional obstacles to the realization of forward-looking statements.

Consequences of material differences in the results compared with those anticipated in the forward-looking statements could include, among other things, lower sales or earnings, business disruption, operational problems, financial loss, legal liability to third parties, other factors set forth in "Item 1A. Risk Factors" of the 2017 Form 10-K/A and similar risks, any of which could have a material adverse effect on the Company's consolidated financial condition, results of operations or liquidity.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

Foreign Currency Risk

In February 2018, PPG entered into U.S. dollar to euro cross currency swap contracts with a total notional amount of $575 million outstanding, which had a fair value of a net asset of $20 million as of June 30, 2018. As of December 31, 2017, PPG had U.S. dollar to euro cross currency swap contracts with a total notional amount of $560 million outstanding, which had a fair value of a net asset of $2 million. A 10% increase in the value of the euro to the U.S. dollar would have had an unfavorable effect on the fair value of these swap contracts by reducing the value of these instruments by $58 million at June 30, 2018 and December 31, 2017.

Interest Rate Risk

In March of 2018, PPG entered into interest rate swaps which converted $525 million of fixed rate debt to variable rate debt. The fair value of these contracts was a liability of $2 million as of June 30, 2018. An increase in variable interest rates of 10% would lower the fair value of these swaps and increase interest expense by $9 million over the term of the instrument.

Table of Contents

There were no other material changes in the Company’s exposure to market risk from December 31, 2017 to June 30, 2018. See Note 15, “Financial Instruments, Hedging Activities and Fair Value Measurements” for a description of our instruments subject to market risk.

Item 4. Controls and Procedures

a. Evaluation of disclosure controls and procedures. The Company’s management is responsible for establishing and maintaining adequate disclosure controls and procedures as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended (the "Exchange Act"). Disclosure controls and procedures means controls and other procedures of the Company that are designed to ensure that information required to be disclosed by the Company in the reports that it files or submits under the Exchange Act, is recorded, processed, summarized, and reported, within the time periods specified in the SEC’s rules and forms. Disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that information required to be disclosed by the Company in the reports that it files or submits under the Exchange Act is accumulated and communicated to the Company’s management, including its principal executive and principal financial officers, as appropriate to allow timely decisions regarding required disclosure.

The Company’s principal executive officer and principal financial officer have evaluated the effectiveness of the Company’s disclosure controls and procedures as of June 30, 2018 and, due to the existence of the material weakness in internal control over financial reporting described below, the Company’s principal executive and principal financial officers have determined that such disclosure controls and procedures were not effective as of such date. In light of the material weakness, the Company performed additional analysis and other post-closing procedures to ensure the Company’s condensed consolidated financial statements are prepared in accordance with accounting principles generally accepted in the United States. Accordingly, the Company’s management, including its principal executive and principal financial officers, has concluded that the condensed consolidated financial statements included in this Form 10-Q present fairly, in all material respects, the Company’s financial position, results of operations and cash flows for the periods presented in conformity with accounting principles generally accepted in the United States.

Material Weakness

A material weakness is a deficiency, or a combination of deficiencies, in internal control over financial reporting, such that there is a reasonable possibility that a material misstatement of the Company’s annual or interim financial statements will not be prevented or detected on a timely basis.

As described in additional detail in the 2017 Form 10-K/A, the Company did not maintain effective controls within its financial close process. Until this material weakness is remediated, it could result in material misstatements of the Company’s financial statements that would not be prevented or detected.

Remediation of Material Weakness

In connection with the investigation described in Note 2, “Restatement of Previously Reported Condensed Consolidated Quarterly Financial Statements,” the Company identified and implemented, and continues to identify and implement, actions to improve the effectiveness of its internal control over financial reporting and disclosure controls and procedures, including plans to enhance the Company’s resources and training with respect to financial reporting and disclosure responsibilities. Management reviewed and will continue to review such actions with the Audit Committee. To date, the following steps have been taken towards the remediation of the Company’s material weakness:

- The Company has terminated the employment of the former Vice President and Controller. Two employees who acted under his direction have been re-assigned to different positions within the Company where they do not have a role in the Company’s internal control over financial reporting or its disclosure controls and procedures.
- The Company appointed its former Director of Corporate Audit Services and former Assistant Controller, Financial Reporting as Acting Controller and on July 19, 2018 appointed him the Company’s permanent Vice President and Controller.
- The Company’s Chairman and Chief Executive Officer has emphasized to all employees, and to the Company’s finance employees specifically, the importance of acting ethically and adhering to the Company’s Global Code of Ethics.

The Company is committed to maintaining a strong internal control environment and to ensuring that a proper, consistent tone is communicated throughout the organization, including the expectation that previously existing

deficiencies will be remediated through the implementation of processes and controls to ensure strict compliance with generally accepted accounting principles. In addition to the steps set forth above, the Company plans to take other remedial measures as described below:

Table of Contents

- The Company will re-emphasize (1) its commitment to ethical standards, (2) the requirements of the Company's Code of Ethics, (3) reporting obligations and (4) non-retaliation policy for complaints;
- The Company will enhance its corporate finance department by adding personnel with responsibility for areas identified in the investigation and enhance segregation of duties in the finance department;
- The Company will enhance policies and procedures relating to the preparation, approval and entry of journal entries;
- The Company will enhance its process to evaluate and adjust certain significant expense accruals;
- The Company will enhance its policies and procedures relating to inventory standard cost revaluations;
- The Company will enhance its policies and procedures concerning accounting entries related to discontinued operations;
- The Company will require additional annual/onboarding education for finance staff;
- The Company will conduct additional periodic risk assessments and targeted internal audit reviews; and
- The Company will separate the financial forecasting process from financial accounting.

As the Company continues to evaluate and work to improve internal control over financial reporting, the Company may determine to take additional measures to strengthen its internal control environment or modify the remediation efforts described above. Until the remediation efforts discussed above, including any additional remediation efforts that the Company identifies as necessary, are implemented, tested and deemed to be operating effectively, the material weakness described above will continue to exist.

b. Changes in internal control. Other than the changes noted above under the heading "Remediation of Material Weakness," there were no changes in the Company's internal control over financial reporting that occurred during the Company's quarter ended June 30, 2018 that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

Table of Contents

PART II. OTHER INFORMATION

Item 1. Legal Proceedings

PPG is involved in a number of lawsuits and claims, both actual and potential, including some that it has asserted against others, in which substantial monetary damages are sought. These lawsuits and claims may relate to contract, patent, environmental, product liability, asbestos exposure, antitrust, employment, securities and other matters arising out of the conduct of PPG's current and past business activities. To the extent that these lawsuits and claims involve personal injury and property damage, PPG believes it has adequate insurance; however, certain of PPG's insurers are contesting coverage with respect to some of these claims, and other insurers may contest coverage. PPG's lawsuits and claims against others include claims against insurers and other third parties with respect to actual and contingent losses related to environmental, asbestos and other matters.

The Company has self-reported to the SEC information concerning the internal investigation of accounting matters described in Note 2, "Restatement of Previously Reported Condensed Consolidated Quarterly Financial Statements" under Item 1 of this Form 10-Q. The Company's cooperation with the SEC's investigation is continuing.

On May 20, 2018, a putative securities class action lawsuit was filed in the U.S. District Court for the District for the Central District of California against the Company and certain of its current or former officers. This action, captioned Trevor Mild v. PPG Industries, Inc., Michael H. McGarry, Vincent J. Morales, and Mark C. Kelly, asserts securities fraud claims under Sections 10(b) and 20(a) of the Securities Exchange Act of 1934 on behalf of putative classes of persons who purchased or otherwise acquired stock of the Company during various time periods between April 24, 2017 and May 10, 2018. The allegations relate to, among other things, allegedly false and misleading statements and/or failures to disclose information about the Company's business, operations and prospects. This action remains pending. The Company believes this action is without merit and intends to defend itself vigorously.

For many years, PPG has been a defendant in lawsuits involving claims alleging personal injury from exposure to asbestos. For a description of asbestos litigation affecting the Company, see Note 17, "Commitments and Contingent Liabilities" to the accompanying condensed consolidated financial statements under Part I, Item 1 of this Form 10-Q.

In the past, the Company and others have been named as defendants in several cases in various jurisdictions claiming damages related to exposure to lead and remediation of lead-based coatings applications. PPG has been dismissed as a defendant from most of these lawsuits and has never been found liable in any of these cases.

Item 1A. Risk Factors

There were no material changes in the Company's risk factors from the risks disclosed in the 2017 Form 10-K/A.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

Issuer Purchases of Equity Securities

The following table summarizes the Company's stock repurchase activity for the three months ended June 30, 2018:

Month	Total Number of Shares Purchased	Average Price Paid per Share	Total Number of Shares Purchased as Part of Publicly Announced Programs (1)	Maximum Number of Shares That May Yet Be Purchased Under the Programs (1)
April 2018				
Repurchase program	1,383,817	$109.66	1,383,817	26,487,022
May 2018				
Repurchase program	1,526,907	$104.19	1,526,907	26,212,461
June 2018				
Repurchase program	1,457,280	$104.06	1,457,280	24,040,491
Total quarter ended June 30, 2018				
Repurchase program	4,368,004	$105.88	4,368,004	24,040,491

(1) In December 2017, PPG's board of directors approved a $2.5 billion share repurchase program. This program is in addition to the company's share repurchase authorization, which was approved in October 2016. The remaining

shares yet to be purchased under the programs have been calculated using PPG's closing stock price on the last business day of the respective month. These repurchase programs have no expiration date.

Item 6. Exhibits
