Item 5. Other Events

In September 2001, the Board of Directors of EOG Resources, Inc. ('the Company') cancelled the previous share repurchase authorization and issued a new 10 million share repurchase authorization of its common stock. The Company may continue to actively repurchase shares and is currently targeting a reduction

in the range of 1.0 MM to 1.5 MM shares in the second half of 2001.

Item 9. Regulation FD Disclosure

Third and Fourth Quarters and Full Year 2001

The third and fourth quarter and full year 2001 forecasts set forth below are given as of the date of this document only and are based on current available information and expectations.

The Company is focused on achieving above average rates of return on reinvested capital. The Company is closely monitoring gas prices and is currently adjusting production and drilling activity downward in a lower gas price environment as reflected in this 8K.

The Company currently anticipates a mark-to-market gain in the third quarter from outstanding commodity price swaps and collars of \$58.7MM. During the third quarter, the cash realized from outstanding commodity price swaps and collars is expected to be \$28.9MM.

The Company does not provide guidance on other income, other expense, or gain or loss on sales of reserves and related assets unless specifically noted.

The Company projects full year North America natural gas and condensate production to be lower than previously projected due to production moderation in September, October and November 2001 in the current gas price environment. The Company is no longer attempting to achieve the previously stated 4 percent target growth rate for North America.

Updated 2001 Natural Gas Financial Price Swaps and Collars

Physical Sales

From time to time, over and above financial transactions, the Company does engage in the forward physical sales of commodities for one month or more.

Additional estimates are shown in the attached table.

This document includes forward-looking statements within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934. Forwardlooking statements are not guarantees of performance. Although the Company believes its expectations reflected in forward-looking statements are based on reasonable assumptions, no assurance can be given that these expectations will be achieved. Important factors that could cause actual results to differ materially from the expectations reflected in the forward-looking statements include, among others: the timing and extent of changes in commodity prices for crude oil, natural gas and related products and interest rates; the extent and effect of any hedging activities engaged in by the Company; the extent of the Company's success in discovering, developing, marketing and producing reserves and in acquiring oil and gas properties; the accuracy of reserve estimates, which by their nature involve the exercise of professional judgment and may

therefore be imprecise; political developments around the world; and financial market conditions. In light of these risks, uncertainties and assumptions, the events anticipated by the Company's forward-looking statements might not occur. The Company undertakes no obligations to update or revise its forward-looking statements, whether as a result of new information, future events or otherwise.
