Section 1 – Business and Operations

Item 1.01. Entry into a Material Definitive Agreement.

On August 16, 2012, Parametric Technology Corporation (“PTC”) entered into a new multi-currency bank revolving credit facility with a syndicate of banks for which JPMorgan Chase Bank, N.A. acts as Administrative Agent. The new credit facility replaced PTC’s prior credit facility, as described in Item 1.02 below. As with the prior credit facility, PTC expects to use the new credit facility for general corporate purposes of PTC and its subsidiaries, including acquisitions of other businesses, and may also use it for working capital.

The credit facility consists of a \$150 million term loan and a \$300 million revolving credit facility, each of which may be increased by up to an additional \$150 million in the aggregate if the existing or additional lenders are willing to make such increased commitments. PTC is the sole borrower under the credit facility. The obligations under the credit facility are guaranteed by PTC’s material domestic subsidiaries and are secured by a pledge of 65% of the voting equity interests of PTC’s material first-tier foreign subsidiaries. Currently, the material domestic subsidiaries that are guarantors under the credit facility are Parametric Holdings Inc., Computervision LLC, PTC International, Inc., PTC Netherlands LLC, Arbortext Inc., Relex Software Corporation and Parametric Technology International, Inc. There was approximately \$140 million outstanding under the prior credit facility which was repaid with the proceeds of the \$150 million term loan under the new credit facility.

Interest rates for the term loan and the revolving credit facility are available at the option of PTC and would range from 1.25% to 1.50% above the Eurodollar rate for Eurodollar-based borrowings or would range from 0.25% to 0.50% above the defined base rate for base rate borrowings, in each case based upon PTC’s leverage ratio. Additionally, PTC may borrow certain foreign currencies at rates set in the same range above the respective London interbank offered interest rates for those currencies, based on PTC’s leverage ratio. A quarterly commitment fee on the undrawn portion of the credit facility is required, ranging from 0.20% to 0.30% per annum, based upon PTC’s leverage ratio. At closing of the credit facility, the applicable interest rate and commitment fee were at 1.375% above the Eurodollar rate for Eurodollar-based borrowings, 0.375% above the defined base rate for base rate borrowings and a quarterly commitment fee of 0.25% pursuant to the terms of the credit facility until PTC provides its financial results for the first full fiscal quarter ending after the date of the credit facility.

The credit facility limits PTC’s and its subsidiaries’ ability to, among other things: incur additional indebtedness; incur liens or guarantee obligations; pay dividends and make other distributions; make investments and enter into joint ventures; dispose of assets; and engage in transactions with affiliates, except on an arms-length basis.

Under the credit facility, PTC and its material domestic subsidiaries may not invest cash or property in, or loan to, PTC’s foreign subsidiaries in aggregate amounts exceeding \$50 million for any purpose and an additional \$75 million for acquisitions of businesses. In addition, under the credit facility, PTC and its subsidiaries must maintain the following financial ratios:

- a leverage ratio, defined as consolidated funded indebtedness to consolidated EBITDA, of no greater than 2.50 to 1.00 at any time; and
- a fixed charge coverage ratio, defined as the ratio of (1) consolidated EBITDA less consolidated capital expenditures to (2) consolidated fixed charges, of no less than 3.50 to 1.00 at any time.

Any failure to comply with the financial or operating covenants of the credit facility would not only prevent PTC from being able to borrow additional funds, but would constitute a default, permitting the lenders to, among other things, accelerate the amounts outstanding, including all accrued interest and unpaid fees, under the credit facility and to

terminate the credit facility. A change in control of PTC also constitutes an event of default, permitting the lenders to accelerate the indebtedness and terminate the credit facility.

The credit facility matures on August 16, 2017, when all amounts outstanding will be due and payable in full. The revolving credit facility does not require amortization of principal. The term loan requires repayment of principal at the end of each calendar quarter, beginning with the quarter ending December 31, 2012. The first four payments are in the principal amount of \$1.875 million each, the following eight payments are in the principal amount of \$3.75 million each, the following four payments are in the principal amount of \$5.625 million each, and

the last three payments are in the principal amount of \$22.5 million each; any amounts outstanding thereafter would be due on the maturity date. Both the revolving credit facility and the term loan may be prepaid before maturity in whole or in part at PTC's option without penalty or premium.

The foregoing description of the Credit Agreement is qualified in its entirety by reference to the full text of the Credit Agreement, a copy of which is filed as Exhibit 10 hereto.

Item 1.02. Termination of a Material Definitive Agreement.

On August 16, 2012, in connection with entering into the new credit facility described in Item 1.01, PTC terminated its Credit Agreement dated August 23, 2010 by and among PTC, JPMorgan Chase Bank, N.A., KeyBank National Association, RBS Citizens, N.A., Bank of America, N.A, HSBC Bank USA, N.A., Silicon Valley Bank, Sovereign Bank, TD Bank, N.A., Wells Fargo Bank, N.A., and The Huntington National Bank. The material terms of the terminated Credit Agreement are set forth in Item 1.01 of PTC's Form 8-K filed August 24, 2010, Item 1.01 of PTC's Form 8-K filed October 5, 2011, [and] Item 1.01 of PTC's Form 8-K filed August 8, 2012, Exhibit 10.1 to PTC's Form 10-Q for the period ended January 1, 2011 and Exhibit 10.1 to PTC's Form 10-Q for the period ended July 2, 2011 and are incorporated herein by reference. The Credit Agreement was to mature on September 30, 2016. It could be paid before maturity in whole or in part at PTC's option without penalty or premium. Approximately \$140 million was outstanding under the Credit Agreement at the time of termination, which amount was repaid in connection with a borrowing of \$150 million under the new credit facility upon closing of the new facility.
