#### Fair Value Measurements

In determining the fair value of the Fund's investments, various inputs are used. These inputs are summarized in the three broad levels listed below:

Level 1 – Quoted prices in active markets for identical securities.

Level 2 – Other significant observable inputs (including quoted prices for similar securities, interest rates, prepayment speeds, credit risk, etc.).

Level 3 – Significant unobservable inputs (including management's assumptions in determining the fair value of investments).

The inputs or methodologies used for valuing securities are not an indication of the risk associated with investing in those securities. The following is a summary of the Fund's fair value measurements as of January 31, 2011:

	Level 1	Level 2	Level 3	Total

#### **Income Tax Information**

The following information is presented on an income tax basis. Differences between amounts for financial statement and federal income tax purposes are primarily due to timing differences in recognizing taxable market discount, timing differences in recognizing certain gains and losses on investment transactions and the treatment of investments in inverse floating rate securities reflected as financing transactions, if any. To the extent that differences arise that are permanent in nature, such amounts are reclassified within the capital accounts on the Statement of Assets and Liabilities presented in the annual report, based on their federal tax basis treatment; temporary differences do not require reclassification. Temporary and permanent differences do not impact the net asset value of the Fund.

At January 31, 2011, the cost of investments was \$82,595,350.

Gross unrealized appreciation and gross unrealized depreciation of investments at January 31, 2011, were as follows:

Gross unrealized:

Appreciation \$2,228,305
Depreciation (3,928,191)
Net unrealized appreciation (depreciation) of investments \$(1,699,886)

All percentages shown in the Portfolio of Investments are

- (1) based on net assets.
  - Optional Call Provisions: Dates (month and year) and
- (2) prices of the earliest optional call or redemption.

  There may be other call provisions at varying prices at later dates. Certain mortgage-backed securities may be subject to periodic principal paydowns.

  Backed by an escrow or trust containing sufficient U.S.
- (4) Government or U.S. Government agency securities, which ensure the timely payment of principal and interest. Such investments are normally considered to be equivalent to AAA rated securities. Investment, or a portion of investment, has been pledged to

- (6) meet its future interest payment obligations and has directed the Fund's custodian to cease accruing additional income on the Fund's records. Investment valued at fair value using methods determined
- (7) in good faith by, or at the discretion of, the Board of Directors/Trustees. For fair value measurement disclosure purposes, investment categorized as Level 3.
- N/R Not rated.
