### EL PASO'S FIVE-POINT BUSINESS PLAN

El Paso Corporation has developed and is making excellent progress on a five-point business plan for 2003 designed to address a volatile business environment. With this plan, we are confident that the company is headed in the right direction.

#### EL PASO IS COMMITTED TO:

**PRESERVING AND ENHANCING THE VALUE OF OUR CORE BUSINESSES**--natural gas pipelines, production, and midstream. We will continue to invest efficiently in these businesses to maintain their leadership positions. Our capital expenditure plan reflects that commitment with nearly 90 percent of 2003 capital devoted to our core businesses.

**EXITING NON-CORE BUSINESSES QUICKLY, BUT PRUDENTLY.** We are exiting the energy trading business and aggressively working to liquidate our remaining portfolio. In addition to the \$3.9 billion of non-core assets we sold in 2002, we plan to sell \$3.4 billion of non-core assets in 2003.

**STRENGTHENING AND SIMPLIFYING THE BALANCE SHEET WHILE MAXIMIZING LIQUIDITY.** We have completed a number of financing transactions that provide significant value to all our stakeholders by further improving our liquidity position while simplifying and strengthening our balance sheet. These transactions also provide us flexibility to aggressively reduce our leverage with cash flow from operations and the proceeds from our asset sales program. In addition to our financing activities, we reduced capital expenditures substantially to \$2.6 billion for 2003, a decrease of 35 percent from 2002 levels and a 54-percent decrease from 2001. Finally, we announced a reduction in our common stock dividend to \$.16 per share annually. While this decision was difficult for the board of directors, the reduction will provide us with approximately \$425 million in cash per year and reduce our balance sheet leverage by more than 1.5 percentage points per year.

**AGGRESSIVELY PURSUING ADDITIONAL COST REDUCTIONS.** In 2002, we achieved our goal of \$300 million in cost reductions. For 2003, we have targeted \$150 million in cost reductions, and we are targeting at least \$250 million of additional pre-tax cost savings and business efficiencies by the end of 2004. To achieve these goals, we have launched a company-wide initiative to develop--from the ground up--a cost structure that will be in line with what we are going to be--not what we were.

**CONTINUING TO WORK DILIGENTLY TO RESOLVE LITIGATION AND REGULATORY MATTERS FACING THE COMPANY.** We reached an agreement in principle to resolve the principal litigation and claims against us relating to the sale or delivery of natural gas and electricity in the Western United States from September 1996 to the present. This settlement is a milestone that removes significant market uncertainties surrounding the company. It is subject to the negotiation of definitive settlement documents and review and approval by the courts and the Federal Energy Regulatory Commission.

Although much remains to be done, we have made significant progress on our business plan. The board and management of El Paso will continue to be strong, focused, and flexible as we implement this plan.

### EL PASO'S SLATE OF NOMINEES

## Edgar Filing: EL PASO CORP/DE - Form DEFA14A
