THE MARCUS CORPORATION

CONDENSED NOTES TO FINANCIAL STATEMENTS FOR THE THIRTEEN AND THIRTY-NINE WEEKS ENDED FEBRUARY 23, 2006 (Unaudited)

1. General

Accounting Policies Refer to the Company's audited financial statements (including footnotes) for the fiscal year ended May 26, 2005, contained in the Company's Form 10-K Annual Report for such year, for a description of the Company's accounting policies.

Basis of Presentation The consolidated financial statements for the thirteen and thirty-nine weeks ended February 23, 2006 and February 24, 2005 have been prepared by the Company without audit. In the opinion of management, all adjustments, consisting only of normal recurring accruals necessary to present fairly the unaudited interim financial information at February 23, 2006, and for all periods presented, have been made. The results of operations during the interim periods are not necessarily indicative of the results of operations for the entire year.

Comprehensive Income Accumulated other comprehensive loss consists of the accumulated net unrealized gain on available for sale securities and the minimum pension liability, both net of tax. Prior to November 24, 2005, accumulated other comprehensive loss also contained the unrecognized loss on hedging transactions, net of tax. Accumulated other comprehensive loss was \$362,000 and \$532,000 as of February 23, 2006 and May 26, 2005, respectively. Total comprehensive income for the thirteen and thirty-nine weeks ended February 23, 2006 was \$4,772,000 and \$25,426,000, respectively. Total comprehensive income for the thirteen and thirty-nine weeks ended February 24, 2005 was \$6,616,000 and \$96,421,000, respectively.

Earnings Per Share (EPS) Basic earnings per share is computed by dividing net earnings by the weighted-average number of common shares outstanding. Diluted earnings per share is computed by dividing net earnings by the weighted-average number of common shares outstanding, adjusted for the effect of dilutive stock options and non-vested restricted stock using the treasury method.

The following table illustrates the computation of basic and diluted earnings per share for earnings from continuing operations and provides a reconciliation of the number of weighted-average basic and diluted shares outstanding:

Stock-Based Compensation The Company has elected to follow Accounting Principles Board Opinion No. 25, Accounting for Stock Issued to Employees (APB No. 25), in accounting for its employee stock options. Under APB No. 25, because the number of shares is fixed and the exercise price of the Company's employee stock options equals the market price of the underlying stock on the date of grant, no compensation expense is recognized.

For purposes of pro forma disclosures, the estimated fair value of the options is amortized to expense over the options' vesting period. Had compensation cost been determined based upon the fair value at the grant date for awards under the plans based on the provisions of Statement of Financial Accounting Standards No. 123 (SFAS 123), Accounting for Stock-Based Compensation, the Company's pro forma earnings and earnings per share would have been as follows:

	13 Weeks Ended February 23, 2006	13 Weeks Ended February 24, 2005	39 Weeks Ended February 23, 2006	39 Weeks Ended February 24, 2005

2. Discontinued Operations

On September 3, 2004, the Company sold substantially all of the assets of its limited-service lodging division. At the time of the sale, a portion of the sales proceeds were held in escrow pending completion of certain customary transfer requirements on several locations and several joint venture properties were excluded from the transaction. During the first three quarters of fiscal 2006, the necessary transfer requirements for the remaining six escrowed locations were met and one of the three remaining joint ventures was sold. As a result, net proceeds of \$24,581,000 were received and the Company recognized gains on the sales of \$6,102,000, net of income taxes of \$4,130,000. The Company is exploring opportunities to sell the two remaining joint venture properties.

In accordance with the provisions of Statement of Financial Accounting Standards No. 144, Accounting for the Impairment or Disposal of Long-Lived Assets (SFAS 144), the results of operations of the limited-service lodging division have been reported as discontinued operations in the consolidated statement of earnings for all periods presented. Limited-service lodging revenues, including equity income (loss) from joint ventures, for the thirteen and thirty-nine weeks ended February 23, 2006 were \$(193,000) and \$589,000, respectively. Limited-service lodging revenues for the thirteen and thirty-nine weeks ended February 24, 2005 were \$(76,000) and \$42,727,000, respectively. Limited-service lodging operating income (loss) for the thirteen and thirty-nine weeks ended February 23, 2006 was \$(294,000) and \$(1,205,000), respectively. Limited-service lodging operating income (loss) for the thirteen and thirty-nine weeks ended February 24, 2005 was \$(1,038,000) and \$5,967,000, respectively.

The Company incurred approximately \$1.8 million in one-time severance related costs during fiscal 2005, of which approximately \$1.6 million of these costs were paid out during fiscal 2005. The remaining costs were paid out during the first half of fiscal 2006.

On December 1, 2004, the Company sold the Miramonte Resort. In accordance with SFAS 144, the results of operations of the Miramonte, which have historically been included in the hotels and resorts division financial results, have been reported as discontinued operations in the consolidated statement of earnings for all periods presented. Miramonte revenues for the thirteen and thirty-nine weeks ended February 24, 2005 were \$104,000 and \$3,445,000, respectively. Miramonte's operating loss for the thirteen and thirty-nine weeks ended February 23, 2006 was \$18,000 and \$73,000, respectively. Miramonte's operating loss for the thirteen and thirty-nine weeks ended February 24, 2005 was \$301,000 and \$1,928,000, respectively.

The components of the assets and liabilities of discontinued operations included in the consolidated balance sheets are as follows:

3. Acquisition

On May 30, 2005, the Company purchased the Wyndham Milwaukee Center hotel, consisting primarily of land, building and fixtures, for a total purchase price of \$23,580,000, net of cash acquired. The results of operation of the Wyndham Milwaukee Center hotel are included in the consolidated statement of earnings since the acquisition date. The fair value of the net assets acquired approximates the purchase price. The consolidated financial statements reflect the preliminary allocation of the purchase price to the assets acquired and liabilities assumed, based on their respective fair values.

4. Contingencies

The Company has approximately eight years remaining on a ten and one half-year office lease. On July 7, 2005, the lease was amended in order to exit leased office space for our former limited-service lodging division. To induce the landlord to amend the lease, the Company guaranteed the lease obligations of the new tenant of the relinquished space throughout the remaining term of the lease. The maximum amount of future payments the Company could be required to pay if the new tenant defaults on its lease obligations was approximately \$3,419,000 as of February 23, 2006.

5. Business Segment Information

The Company's primary operations are reported in the following business segments: Theatres and Hotels/Resorts. Corporate items include amounts not allocable to the business segments. Corporate revenues consist principally of rent and the corporate operating loss includes general corporate expenses. Corporate information technology costs and accounting shared services costs are allocated to the business segments based upon several factors, including actual usage and segment revenues.

Following is a summary of business segment information for the thirteen and thirty-nine weeks ended February 23, 2006 and February 24, 2005 (in thousands):

6. Subsequent Events

On February 24, 2006, the Company paid a special cash dividend of \$7.00 per share, returning to shareholders approximately \$214,576,000 in proceeds resulting from the sale of the limited-service lodging division.

On March 17, 2006, the Company signed a definitive agreement for the purchase of The Westin Columbus hotel in downtown Columbus, Ohio. The transaction is expected to close in mid-April 2006.

Item 2. Management's Discussion and Analysis of Results of Operations and Financial Condition

Special Note Regarding Forward-Looking Statements

Certain matters discussed in this Management's Discussion and Analysis of Results of Operations and Financial Condition are forward-looking statements intended to qualify for the safe harbors from liability established by the Private Securities Litigation Reform Act of 1995. These forward-looking statements may generally be identified as such because the context of such statements include words such as we believe, anticipate, expect or words of similar import. Similarly, statements that describe our future plans, objectives or goals are also forward-looking statements. Such forward-looking statements are subject to certain risks and uncertainties which may cause results to differ materially from those expected, including, but not limited to, the following: (1) the availability, in terms of both quantity and audience appeal, of motion pictures for our theatre division, as well as other industry dynamics such as the maintenance of a suitable window between the date such motion pictures are released in theatres and the date they are released to other distribution channels; (2) the effects of increasing depreciation expenses and preopening and start-up costs due to the capital intensive nature of our businesses; (3) the effects of adverse economic conditions in our markets, particularly with respect to our hotels and resorts division; (4) the effects of adverse weather conditions, particularly during the winter in the Midwest and in our other markets; (5) the effects on our occupancy and room rates from the relative industry supply of available rooms at comparable lodging facilities in our markets; (6) the effects of competitive conditions in our markets; (7) our ability to identify properties to acquire, develop and/or manage and continuing availability of funds for such development; and (8) the adverse impact on business and consumer spending on travel, leisure and entertainment resulting from terrorist attacks in the United States, the United States' responses thereto and subsequent hostilities. Shareholders, potential investors and other readers are urged to consider these factors carefully in evaluating the forward-looking statements and are cautioned not to place undue reliance on such forward-looking statements. The forward-looking statements made herein are made only as of the date of this Form 10-Q and we undertake no obligation to publicly update such forward-looking statements to reflect subsequent events or circumstances.

RESULTS OF OPERATIONS**General**

We report our consolidated and individual segment results of operations on a 52-or-53-week fiscal year ending on the last Thursday in May. Fiscal 2006 and 2005 are both 52-week years. Our upcoming Fiscal 2007 will be a 53-week year. We divide our fiscal year into three 13-week quarters and a final quarter consisting of 13 or 14 weeks. Our primary operations are reported in the following two business segments: movie theatres and hotels and resorts. As a result of our sale of substantially all of the assets of our limited-service lodging division during fiscal 2005, this segment has been presented as discontinued operations in the accompanying financial statements and in this discussion. As a result of our sale of the Miramonte Resort during fiscal 2005, we have also presented this asset and related results of operations, previously included in our hotels and resorts segment, as part of our discontinued operations in the accompanying financial statements and in this discussion.

The following table sets forth revenues, operating income, earnings from continuing operations, earnings from discontinued operations, net earnings and earnings per share for the comparable third quarter and first three quarters of fiscal 2006 and 2005 (in millions, except for per share and variance percentage data):

	Third Quarter				First Three Quarters

Revenues increased at both of our operating divisions during the third quarter of fiscal 2006 compared to the same period last year. An increase in revenues from our hotels and resorts division, due in part to the addition of two new hotels, offset a decrease in revenues from our theatre division during the first three quarters of fiscal 2006 compared to the same period last year. Operating income (earnings before other income/expense and income taxes) from our theatre division increased during the third quarter, offsetting a small decrease in operating income from our hotels and resorts division during the third quarter compared to the same period last year. Through the first three quarters of fiscal 2006, our total operating income remained below its prior year level, despite improved results from our hotels and resorts division, due to particularly weak first quarter theatre operating results. Our theatre division operating results improved during the third quarter of fiscal 2006 due to a stronger slate of movies compared to the prior year. Our third quarter hotels and resorts division operating results were negatively impacted by start-up costs and non-comparable winter season operating losses at our two newest hotels, but our year-to-date improvement compared to the prior year reflects an overall improved business travel environment.

Our fiscal 2006 first three quarters earnings from continuing operations increased compared to the same period last year due to increased investment income, reduced interest expense and increased gains on disposition of property, equipment and investments in joint ventures. Our overall net earnings decreased during our fiscal 2006 third quarter and first three quarters compared to the same periods of the prior year due to the fact that our prior year's results included the gains on sale and the results from our discontinued limited-service lodging division and Miramonte Resort.

We recognized investment income of \$2.6 million and \$6.3 million during the third quarter and first three quarters of fiscal 2006, respectively, compared to \$2.0 million and \$3.8 million during the same periods last year. The increase in investment income was the result of interest earned on our substantial cash balances, received primarily as a result of the sale of our limited-service lodging division during fiscal 2005. The majority of our \$292.7 million of cash and cash equivalents at the end of the fiscal 2006 third quarter was invested in federal

Edgar Filing: MARCUS CORP - Form 10-Q

tax-exempt short-term financial instruments. Our estimated effective income tax rate for continuing operations through the end of our third quarter was 33.2%, reflecting this current method of investment.

13

On January 17, 2006, our Board of Directors approved a special cash dividend of \$7.00 per share, payable on February 24, 2006, the first day of our fiscal 2006 fourth quarter. The special dividend returned approximately \$214.6 million of the proceeds resulting from the sale of the limited-service lodging division to our shareholders. As a result, our investment income will be reduced in future periods compared to prior periods. Based upon anticipated cash needs during our fiscal 2006 fourth quarter, we currently expect that we will still have approximately \$40-50 million of invested cash and cash equivalents at the end of our fiscal year. A majority of those funds will likely continue to be invested in federal tax-exempt short-term financial instruments, which will continue to favorably impact our effective income tax rate.

Our interest expense totaled \$3.7 million and \$11.0 million for the third quarter and first three quarters of fiscal 2006, respectively, compared to \$3.7 million and \$11.4 million during the same periods last year. We do not expect our interest expense to change substantially in future periods, other than as a result of the payment of scheduled current principal maturities. Current maturities of long-term debt on our balance sheet as of February 23, 2006 included \$25.2 million related to a mortgage note on our new Chicago hotel with an initial maturity date of June 2006. We currently anticipate extending the maturity date of this note, which would result in the majority of this amount being reclassified as long-term.

We did not report significant gains on the disposition of property, equipment and investments in joint ventures during the third quarter of fiscal years 2006 and 2005. Continuing operations gains on the disposition of property and equipment for the first three quarters of fiscal 2006 were \$3.3 million compared to gains of \$2.3 million during the first three quarters of fiscal 2005. The timing of periodic sales of our property and equipment may vary from quarter to quarter, resulting in variations in our gains or losses on the disposition of our property and equipment. We anticipate periodic additional sales of non-core property and equipment with the potential for additional disposition gains during the remainder of fiscal 2006. It is possible that we may also report significant gains during fiscal 2007 from the intended sale of two valuable theatre parcels in conjunction with our building of a nearby replacement theatre in Brookfield, Wisconsin.

Net earnings during the fiscal 2006 third quarter and first three quarters included after-tax earnings from discontinued operations of \$1.6 million and \$5.3 million, respectively, compared to after-tax earnings from discontinued operations of \$4.8 million and \$78.9 million during the prior year's same periods. Net earnings during the third quarter and first three quarters of fiscal 2005 included after-tax gains on sale of discontinued operations of \$5.6 million and \$76.6 million, respectively. A detailed discussion of these items is included in the Discontinued Operations section.

Theatres

The following table sets forth revenues, operating income and operating margin for our theatre division for the third quarter and first three quarters of fiscal 2006 and 2005 (in millions, except for variance percentage and operating margin):

	Third Quarter				First Three Quarters			
	F2006	F2005	Variance		F2006	F2005	Variance	
			Amt.	Pct.			Amt.	Pct.
Revenues	\$ 39.8	\$ 38.5	\$ 1.3	3.6%	\$ 113.8	\$ 117.8	\$ (4.0)	-3.4%
Operating income	9.4	9.1	0.3	2.7%	26.2	29.0	(2.8)	-9.8%
Operating margin (% of revenues)	23.5%	23.7%			23.0%	24.6%		

Consistent with the seasonal nature of the motion picture exhibition industry, our third quarter is typically one of the strongest periods for our theatre division due to the traditionally strong holiday season. Our theatre division reported improved operating results for our fiscal 2006 third quarter compared to last year's results during the same period, but its year-to-date operating results remain below the prior year. Our operating margin during the fiscal 2006 third quarter was negatively impacted by a one-time charge of approximately \$500,000 related to a minor restructuring of our administrative and theatre supervision organization. Contributing to the decreased operating margins during the first three quarters of fiscal 2006 compared to the prior year same period were decreased box office and concession revenues, partially offset by reduced film rental costs and concession cost of sales.

Edgar Filing: MARCUS CORP - Form 10-Q

The following table breaks down the components of revenues for the theatre division for the third quarter and first three quarters of fiscal 2006 and 2005 (in millions, except for variance percentage):

	Third Quarter				First Three Quarters			
	F2006	F2005	Variance		F2006	F2005	Variance	
			Amt.	Pct.			Amt.	Pct.
Box office receipts	\$ 25.4	\$ 25.0	\$ 0.4	1.6%	\$ 73.2	\$ 76.6	\$ (3.4)	-4.3%
Concession revenues	12.6	11.7	0.9	7.7%	35.3	36.1	(0.8)	-2.2%
Other revenues	1.8	1.8	--	4.5%	5.3	5.1	0.2	2.2%
Total revenues	\$ 39.8	\$ 38.5	\$ 1.3	3.6%	\$ 113.8	\$ 117.8	\$ (4.0)	-3.4%

The increase in our box office receipts and concession revenues for the third quarter of fiscal 2006 compared to the same period last year was entirely due to a slight increase in attendance. Conversely, the decrease in our year-to-date box office receipts and concession revenues was the result of an overall decrease in attendance during the first three quarters of fiscal 2006 compared to the same period last year. Our average ticket price increased 0.7% and 2.5%, respectively, during the third quarter and first three quarters of fiscal 2006 compared to the same periods last year, attributable primarily to modest price increases. Our average concession sales per person during the fiscal 2006 third quarter and first three quarters also increased 6.4% and 4.6%, respectively, compared to the same periods last year. Concession pricing and film product mix are the two primary factors that impact our average concession sales per person. Films that appeal to families and teenagers, such as several of the top pictures during this year's third quarter, generally produce greater concession sales compared to more adult-oriented films. Other revenues, which include management fees, pre-show advertising income, miscellaneous theatre revenues and family entertainment center revenues, increased slightly during our fiscal 2006 first three quarters compared to the prior year.

15

Total theatre attendance increased 1.0% during the third quarter of fiscal 2006 compared to the same period last year. For the first three quarters of fiscal 2006, total attendance was down 6.7% compared to the first three quarters of fiscal 2005. The division's fiscal 2006 third quarter results benefited from a strong four-week period beginning in late December when our box office receipts averaged double-digit increases compared to the prior year. This year's results were negatively impacted by the fact that, during this year's holiday season, Christmas Eve (the only night of the year on which our theatres close) and Christmas Day, as well as New Year's Eve and New Year's Day, were on a Saturday and Sunday, which are normally two of the biggest movie-going days of the week. February box office receipts were even with the prior year, representing a continued improvement compared to negative box office trends during the first half of fiscal 2006. Our highest grossing films during the quarter included *Chronicles of Narnia: The Lion, The Witch and The Wardrobe*, *King Kong* and *Harry Potter and the Goblet of Fire*. Each of these films grossed over \$200 million nationally—the first time in history that three films exceeded that level during the holiday season.

Film product for the fourth quarter has thus far underperformed compared to the prior year, but Easter is three weeks later this year and the studios typically time the release of their more promising films to coincide with the holiday vacation period. Projected hit films for early spring include *Ice Age 2: The Meltdown* and *Scary Movie 4*. May, the last month of our fiscal year, has the potential for four blockbusters, with *Mission Impossible III*, *Poseidon*, *Over the Hedge* and *The Da Vinci Code* all opening that month, compared with just one blockbuster movie—*Star Wars: Episode III—Revenge of the Sith*, which opened during this period last year. Looking ahead to the first quarter of fiscal 2007, potential hits include three computer-generated animated features with Pixar's newest film *Cars*, along with *Monster House* and *Ant Bully*. Additional potential hits include *X-Men 3*, *Click*, *The Break-Up*, *Superman Returns*, *Pirates of the Caribbean: Dead Man's Chest*, *Miami Vice* and M. Night Shyamalan's latest movie, *Lady in the Water*. We are currently estimating that we will show approximately 180 films on our screens during calendar 2006 compared to 167 during calendar 2005. Generally, an increase in the quantity of films increases the potential for more blockbusters in any given year.

Revenues for the theatre business and the motion picture industry in general are heavily dependent upon the general audience appeal of available films, together with studio marketing campaigns and the maintenance of the current windows between the date a film is released in theatres and the date a motion picture is released to other channels, including video on demand and DVDs. These are factors over which we have no control. We continue to evaluate the potential impact that in-home technology, such as large screens and video gaming, has on movie-going. We also are analyzing the possible issues and advantages related to the anticipated introduction of digital projection technology in our theatres. We currently plan on testing digital cinema hardware and software in several of our theatres, possibly as early as our fourth quarter of fiscal 2006.

16

Edgar Filing: MARCUS CORP - Form 10-Q

We ended the first three quarters of fiscal 2006 with a total of 464 company-owned screens in 41 theatres and 40 managed screens in four theatres compared to 451 company-owned screens in 40 theatres and 40 managed screens in four theatres at the end of the same period last year. We have recently begun construction on a new 13-screen theatre in Sturtevant, Wisconsin. This theatre, which will include our seventh *UltraScreen®*, will ultimately replace two smaller theatres with the same number of total screens in Racine, Wisconsin. We also expect to begin construction in the next few weeks on a new 12-screen theatre in Green Bay, Wisconsin that will eventually replace an existing eight-screen theatre in that city. We continue to prepare a site in Brookfield, Wisconsin for development of our new flagship 16-screen *UltraCinema* that will replace two smaller existing theatres with 17 total screens in the same market. Construction on this theatre, which will include two *UltraScreens*, expanded food and beverage options and other upscale features and amenities previously not provided in our markets, is expected to begin this summer. The Sturtevant and Green Bay theatres may open as soon as December 2006 and the Brookfield Majestic theatre is tentatively targeted to open in Spring 2007. We continue to review opportunities for additional new locations and screen additions at existing locations. The actual timing of additional future development can and will change as we continue to evaluate the current theatre environment and what it may mean to the future design, size and features of our new theatres.

Hotels and Resorts

The following table sets forth revenues, operating income and operating margin for our hotels and resorts division for the third quarter and first three quarters of fiscal 2006 and 2005 (in millions, except for variance percentage and operating margin).

	Third Quarter				First Three Quarters			
	F2006	F2005	Variance		F2006	F2005	Variance	
			Amt.	Pct.			Amt.	Pct.
Revenues	\$ 29.4	\$ 23.7	\$ 5.7	24.2%	\$ 111.4	\$ 93.1	\$ 18.3	19.6%
Operating income (loss)	(2.2)	(2.1)	(0.1)	-2.9%	11.4	10.5	0.9	9.1%
Operating margin (% of revenues)	-7.3%	8.9%			10.2%	11.2%		

Our third quarter is historically the weakest quarter of the year for our hotels and resorts division due to reduced travel during the winter months to our predominantly Midwestern properties. Despite that, our hotels and resorts division recognized record revenues during our fiscal 2006 third quarter and first three quarters. Continued improvement in business travel, particularly from the short-term transient business traveler, and our two new company-owned hotels contributed to our improved revenues during the third quarter and first three quarters compared to the same periods last year. Operating income decreased slightly during the fiscal 2006 third quarter. Winter season operating losses at our two newest hotels (compared to no activity last year when these properties were not part of our portfolio) and start-up losses at our Oklahoma City Hilton Skirvin project negatively impacted our fiscal 2006 third quarter operating income comparison to the prior year by nearly \$1.1 million. On a year-to-date basis, however, operating income has increased during the first three quarters compared to the prior year periods, despite over \$400,000 of preopening expenses associated with our new hotels and continued start-up costs associated with our Oklahoma City project and Las Vegas condominium hotel project. The aforementioned items contributed to a slightly lower operating margin for our first three quarters of fiscal 2006.

The total revenue per available room, or RevPAR, for comparable company-owned properties increased 15.6% and 8.8%, respectively, during our fiscal 2006 third quarter and first three quarters compared to the same periods last year. The increases in RevPAR were partially due to an increase in occupancy percentage (number of occupied rooms as a percentage of available rooms) of 5.0 and 3.4 percentage points, respectively, during these same periods. In addition, our overall average daily room rate, or ADR, for these comparable properties increased 4.4% and 3.4%, respectively, during the third quarter and first three quarters of fiscal 2006, compared to the same periods last year. The relative lack of new hotel supply growth and continued improvement in business travel demand contributed to these ADR increases after several years of stagnant or declining rates at our hotels and throughout the hotel industry.

During the first week of our fiscal 2006 first quarter, we purchased the 220-room Wyndham Milwaukee Center hotel for a total cash purchase price of \$23.6 million. The hotel features 12,000 square feet of meeting space, on-site parking, a restaurant and two lounges and complements our other two downtown Milwaukee, Wisconsin hotels. We anticipate our major renovation of this property will begin in our fiscal 2006 fourth quarter. This renovation will likely have some negative impact on this hotel's operating results during the renovation period, which may carry into our fiscal 2007 year.

Edgar Filing: MARCUS CORP - Form 10-Q

We also opened another new hotel during the first week of our fiscal 2006 first quarter the Four Points by Sheraton Chicago Downtown/Magnificent Mile. This hotel features 226 units (including 130 suites), an indoor swimming pool and fitness center, high-tech meeting rooms and an on-site parking facility. It also will lease space to several area restaurants. As previously noted, preopening expenses incurred at this property during the first quarter and non-comparable winter season operating losses have resulted in a small negative impact on division operating income comparisons year-to-date. Despite this circumstance, the initial guest response to this new hotel has exceeded our expectations to-date and we expect to benefit from favorable comparisons to last year during our fiscal 2006 fourth quarter and fiscal 2007 first quarter due to preopening expenses incurred at this property during those periods last year.

Construction continues on our Las Vegas condominium hotel joint venture, the Platinum Hotel & Spa, with the property currently expected to open in early fiscal 2007. We expect to incur preopening costs related to this hotel during our fiscal 2006 fourth quarter, but as previously noted, we had similar preopening costs from our Chicago hotel during the same period last year. We also currently anticipate reporting a significant development profit from this project during our fiscal 2007 first quarter.

During this year's third quarter, we also completed work on the creation of a public-private venture that will restore the historic Skirvin Hotel in Oklahoma City. Renovation of this landmark hotel has begun, with a target opening date of February 2007. We will be the principal equity partner in this venture and, as a result, the hotel will be reported as a company-owned hotel when opened. We currently anticipate that our total equity investment in this venture will be approximately \$10 million. During fiscal 2007, we expect to benefit from net federal and state historic tax credits of over \$6.0 million related to this project. As a result, we anticipate that our fiscal 2007 overall effective income tax rate will continue to be significantly lower than our historical 39-40% range.

The near-term outlook for the future performance of this division remains promising. Group business, which has been inconsistent during our fiscal 2006 first three quarters, particularly at our Grand Geneva Resort, appears to be improving. Our advanced bookings for the remainder of our fiscal 2006 fourth quarter and early months of fiscal 2007 are very encouraging. Subject to economic conditions and the potential negative impact of the start-up costs associated with new hotel projects, we currently expect continued improvement in our division operating results during the remainder of fiscal 2006 and early fiscal 2007.

18

We continue to pursue several new growth opportunities as well. On March 17, 2006, we signed a definitive purchase agreement to acquire the Westin Columbus Hotel in downtown Columbus, Ohio. The Westin Columbus is a AAA four-diamond full-service historic hotel that currently includes 186 guest rooms and suites, more than 12,000 square feet of meeting, banquet and ballroom space, a restaurant and a cocktail lounge. We plan on remodeling the guest rooms and food and beverage facilities to further enhance the historic features of this hotel. The transaction is currently scheduled to close in April 2006. A number of the additional projects that we are currently exploring focus on expanding our hotel management business but may also include some small equity investments. We are also currently beginning several significant projects at the Grand Geneva Resort and Pfister Hotel in order to maintain and enhance the value of those properties.

Discontinued Operations

Early in the second quarter of fiscal 2005, we sold substantially all of the assets of our limited-service lodging division and we reported a significant after-tax gain on the sale of discontinued operations. At the time of the sale, a portion of the sale proceeds was held in escrow pending completion of certain customary transfer requirements on several locations and several joint venture properties were excluded from the transaction. During the first quarter of fiscal 2006, the necessary transfer requirements for two of the escrowed locations were met and during the second quarter of fiscal 2006, one of the three remaining joint venture properties was sold. During the fiscal 2006 third quarter, the necessary transfer requirements for the remaining four escrowed locations were met and the sales of those properties were completed. As a result, additional net proceeds of \$24.6 million were received and additional after-tax gains on sale of discontinued operations of \$6.1 million were recognized during the first three quarters of fiscal 2006.

The results of our limited-service lodging division have been accounted for as discontinued operations in our consolidated financial statements for the third quarter and first three quarters of fiscal 2006 and 2005. The following table sets forth revenues, operating income, income from discontinued operations and gain on sale of discontinued operations, net of applicable taxes, for our limited-service lodging division for the third quarter and first three quarters of fiscal 2006 and 2005 (in millions, except for variance percentage):

	Third Quarter				First Three Quarters

Our fiscal 2006 third quarter and first three quarters operating results included results from the remaining joint venture Baymont Inns & Suites that were excluded from the sale and are now operating as Baymont franchises. We are actively exploring opportunities to sell the remaining two properties and, as a result, we continue to include their operating results in discontinued operations. Our fiscal 2006 first three quarters loss from discontinued operations included a one-time charge to earnings related to the costs associated with exiting leased office space for our former limited-service lodging division.

19

Early in our fiscal 2005 third quarter, we sold the Miramonte Resort, which had previously been included in our hotels and resorts segment results. The results of the Miramonte Resort have been accounted for as discontinued operations in our consolidated financial statements for the third quarter and first three quarters of fiscal 2006 and 2005. The following table sets forth revenues, operating loss, loss from discontinued operations and gain on sale of discontinued operations, net of applicable taxes, for the Miramonte Resort for the third quarter and first three quarters of fiscal 2006 and 2005 (in millions, except for variance percentage):

	Third Quarter				First Three Quarters			
			Variance				Variance	
	F2006	F2005	Amt.	Pct.	F2006	F2005	Amt.	Pct.
Revenues	\$ --	\$ 0.1	\$ (0.1)	-100.0%	\$ --	\$ 3.4	\$ (3.4)	-100.0%
Operating loss	--	(0.3)	0.3	94.0%	(0.1)	(1.9)	1.8	96.2%
Loss from discont. operations (net of income taxes)	--	(0.2)	0.2	94.5%	--	(1.2)	1.2	96.2%

FINANCIAL CONDITION

Our movie theatre and hotels/resorts businesses each generate significant and consistent daily amounts of cash because each segment's revenue is derived predominantly from consumer cash purchases. We believe that these relatively consistent and predictable cash sources, together with our substantial cash balances and the availability of \$125 million of unused credit lines as of the end of the third quarter, will be adequate to support the near-term anticipated ongoing operational liquidity needs of our businesses.

Net cash provided by operating activities increased by \$21.7 million during the first three quarters of fiscal 2006 to \$28.3 million, compared to \$6.6 million during the prior year's first three quarters. The increase was due primarily to our payment of significant income taxes related to the gain on sale of the limited-service lodging division and Miramonte Resort during fiscal 2005, partially offset by reduced earnings from discontinued operations and an unfavorable comparison in other current assets and collections of accounts and notes receivable.

Net cash provided by investing activities during the fiscal 2006 first three quarters totaled \$13.5 million, compared to net cash provided by investing activities of \$183.0 million during the fiscal 2005 first three quarters. The decrease in net cash provided by investing activities was primarily the result of \$349.2 million of net cash proceeds received from the sale of our limited-service lodging division and \$28.5 million of net cash proceeds received from the sale of our Miramonte Resort during fiscal 2005 (of which \$155.2 million was invested with intermediaries in conjunction with tax deferral opportunities we were exploring at the time), and increased fiscal 2006 capital expenditures and acquisition costs. Fiscal 2006 net cash provided by investing activities also benefited from \$24.6 million in net cash proceeds received from the sale of our remaining limited-service lodging properties and \$29.0 million in proceeds received from intermediaries upon expiration of the tax deferral opportunities we were exploring. In addition, we have received \$7.8 million year-to-date from Oklahoma City in conjunction with their contribution to the renovation of the Hilton Skirvin Hotel. Upon completion of this project, the city's total contribution, which is expected to be over \$11 million, will be reported as an offset to our property and equipment and will reduce future depreciation expense for this asset.

Capital expenditures totaled \$47.4 million, including the \$23.6 million acquisition of the Wyndham Milwaukee Center hotel, during the first three quarters of fiscal 2006 compared to \$40.1 million during the prior year's first three quarters. Fiscal 2006 first three quarters capital expenditures included \$40.6 million incurred in our hotels and resorts division, the majority of which was related to our purchase of the Wyndham Milwaukee Center hotel, completion of our Chicago hotel construction and beginning of construction on the Oklahoma City hotel project. In addition, we incurred capital expenditures of approximately \$5.8 million in our theatre division, including costs associated with a parking structure at one of our Chicago-area theatres, and \$1.0 million in our corporate real estate division. Based upon a review of the projected timing of several previously identified capital projects in our two divisions as of the end of the third quarter, we estimate that our total capital expenditures for all of fiscal 2006 will be approximately \$75 to \$80 million, including the recently announced purchase of the Westin Columbus hotel.

Net cash used in financing activities during the first three quarters of fiscal 2006 totaled \$8.1 million compared to net cash used in financing activities of \$22.9 million during the first three quarters of fiscal 2005. We used certain amounts of our available cash during the first three quarters of last year to reduce our outstanding commercial paper borrowings, accounting for the majority of the change in the first three quarters of fiscal 2006 versus last year same period. Our principal payments on notes payable and long-term debt totaled \$11.4 million during the first three quarters of fiscal 2006 compared to \$39.6 million during the same period last year. New debt of \$5.6 million related to our Chicago hotel was added during the first three quarters of fiscal 2006, compared to \$15.3 million of new debt added during the same period last year. Our debt-capitalization ratio was 0.27 at February 23, 2006. After taking into consideration the impact of our special cash dividend, paid on the first day of our fiscal 2006 fourth quarter, our adjusted debt-capitalization ratio would be .39, still significantly below our historical levels.

In evaluating the use of the proceeds from the sale of our limited-service lodging division, we believed it was appropriate to return a portion of the value we had created in that business to our shareholders and to provide them with added liquidity for their investment. In addition, in order to provide additional stability to our shareholder return and emphasize our commitment to increasing long-term shareholder value, we also increased our regular quarterly dividend by 36% to \$.075 per share of common stock.

We obtained a private letter ruling from the Internal Revenue Service which provided that the special dividend will be treated as a distribution in partial liquidation pursuant to Sections 302(b)(4) and 302(e)(1) of the Internal Revenue Code. For shareholders that are not corporations, this means that the special distribution will generally be treated as payment in exchange for stock in the Company that is constructively redeemed. Non-corporate shareholders will generally recognize capital gain or loss on this constructive exchange to the extent of the difference between the amount of the special distribution and their adjusted basis of the shares constructively surrendered. Corporate shareholders generally will not be eligible for capital gains treatment with respect to the special distribution. Shareholders should consult with their tax advisors with respect to the tax consequences of the special distribution.

The actual timing and extent of the implementation of our current expansion plans and use of the remaining cash on our balance sheet will depend in large part on industry and general economic conditions, our financial performance and available capital, the competitive environment, evolving customer needs and trends and the availability of attractive opportunities. It is likely that our plans will continue to evolve and change in response to these and other factors.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

We have not experienced any material changes in our market risk exposures since May 26, 2005.

Item 4. Controls and Procedures

a. Evaluation of disclosure controls and procedures

Based on their evaluations, as of the end of the period covered by this Quarterly Report on Form 10-Q, our principal executive officer and principal financial officer have concluded that our disclosure controls and procedures (as defined in Rules 13a-15 and 15d-15 under the Securities Exchange Act of 1934 (the "Exchange Act")) are effective to ensure that information required to be disclosed by us in reports that we file or submit under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in Securities and Exchange Commission rules and forms.

b. Changes in internal controls over financial reporting

Edgar Filing: MARCUS CORP - Form 10-Q

There were no significant changes in our internal controls identified in connection with the evaluation required by Rule 13a-15 of the Exchange Act that occurred during the period covered by this Quarterly Report on Form 10-Q that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II OTHER INFORMATION

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds; Purchases of Equity Securities by the Issuer

Through February 23, 2006, our board of directors has approved the repurchase of up to 4.7 million shares of our outstanding Common Stock. Under these authorizations, we may repurchase shares of our Common Stock from time to time in the open market, pursuant to privately negotiated transactions or otherwise. The repurchased shares are held in our treasury pending potential future issuance in connection with employee benefit, option or stock ownership plans or other general corporate purposes. These authorizations do not have an expiration date.

The following table sets forth information with respect to purchases made by us or on our behalf of our Common Stock during the periods indicated. All of these repurchases were from employees who tendered shares in connection with the exercise of stock options and pursuant to the publicly announced repurchase authorizations described above.
