## GENERAL MILLS, INC. AND SUBSIDIARIES NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Unaudited)

### (1) Background

The accompanying Consolidated Financial Statements of General Mills, Inc. (we, us, our, or the Company) have been prepared in accordance with accounting principles generally accepted in the United States for interim financial information and with the rules and regulations for reporting on Form 10-Q. Accordingly, they do not include certain information and disclosures required for comprehensive financial statements. In the opinion of management, all adjustments considered necessary for a fair presentation have been included and are of a normal recurring nature. Operating results for the quarterly and nine-month periods ended February 24, 2008, are not necessarily indicative of the results that may be expected for the fiscal year ending May 25, 2008.

These statements should be read in conjunction with the Consolidated Financial Statements and footnotes included in our Annual Report on Form 10-K for the fiscal year ended May 27, 2007. The accounting policies used in preparing these Consolidated Financial Statements are the same as those described in Note 2 to the Consolidated Financial Statements in that Form 10-K, except as discussed in Notes 6, 16, and 18 to these Consolidated Financial Statements. In addition, certain reclassifications to our previously reported financial information have been made to conform to the current period presentation.

### (2) Acquisitions and Divestitures

During the third quarter of fiscal 2008, the 8<sup>th</sup> Continent soymilk business was sold. Our 50 percent share of the after-tax gain on the sale was \$2.2 million. During the third quarter, we recognized \$1.7 million of this gain in after-tax earnings from joint ventures. We will record an

## Edgar Filing: GENERAL MILLS INC - Form 10-Q

additional after-tax gain of up to \$0.5 million in the first quarter of fiscal 2010 if certain conditions are satisfied.

During the first quarter of fiscal 2008, we acquired a controlling interest in HD Distributors (Thailand) Company Limited. Prior to acquiring the controlling interest, we accounted for our investment as a joint venture. The purchase price, net of cash acquired, resulted in a \$1.3 million cash inflow classified in acquisitions on the Consolidated Statements of Cash Flows. The pro forma effect of this acquisition was not material.

During the first quarter of fiscal 2007, our Cereal Partners Worldwide (CPW) joint venture acquired the Uncle Tobys cereal business in Australia for \$385.6 million. We funded our 50 percent share of the purchase price by making additional advances to and equity contributions in CPW totaling \$135.1 million (classified as investments in affiliates, net, on the Consolidated Statements of Cash Flows) and by acquiring a 50 percent beneficial interest in certain intellectual property for \$57.7 million (classified as acquisitions on the Consolidated Statements of Cash Flows). During the nine-month period ended February 24, 2008, we completed the allocation of our purchase price and reclassified \$16.3 million from goodwill to other intangible assets on our Consolidated Balance Sheets. We also sold our par-baked bread product line, including plants in Chelsea, Massachusetts and Tempe, Arizona, and recorded a \$5.9 million loss on the sale, including the write-off of \$6.2 million of goodwill, in restructuring, impairment, and other exit costs during the nine-month period ended February 25, 2007.

7

---

### Table of Contents

#### (3) Restructuring, Impairment, and Other Exit Costs

Restructuring, impairment, and other exit costs (income) were as follows:

Expense (income), in millions	Quarter Ended		Nine-Month Period Ended	
	Feb. 24, 2008	Feb. 25, 2007	Feb. 24, 2008	Feb. 25, 2007
Closure of Poplar, Wisconsin plant	\$ 0.7	\$	\$ 2.7	\$
Closure of Allentown, Pennsylvania frozen waffle plant	1.3		10.8	
Closure of Trenton, Ontario frozen dough plant			9.8	
Restructuring of production scheduling and discontinuation of cake products line at Chanhassen, Minnesota plant			3.0	
Gain on sale of previously closed Vallejo, California plant			(7.1)	
Gain on sale of previously closed plant in San Adrian, Spain		0.5		(8.1)
Impairment of long-lived assets and write off of associated goodwill related to par-baked bread line, including its plants in Chelsea, Massachusetts and Tempe, Arizona				5.9
Charges associated with restructuring actions previously announced	3.0	0.2	3.1	(0.1)
Total	\$ 5.0	\$ 0.7	\$ 22.3	\$ (2.3)

During the third quarter of fiscal 2008, we recorded an additional charge of \$2.8 million related to previously announced Bakeries and Foodservice segment restructuring actions. This amount consisted entirely of employee severance for 38 employees.

During the nine-month period ended February 24, 2008, we took additional restructuring actions beyond the item described above. We approved a plan to transfer *Old El Paso* production from our Poplar, Wisconsin facility to other plants and close the Poplar facility to improve capacity utilization and reduce costs. This action affects 113 employees at the Poplar facility and resulted in a charge of \$2.7 million consisting entirely of employee severance. Due to declining financial results, we decided to exit our frozen waffle product line (retail and foodservice) and to close our frozen waffle plant in Allentown, Pennsylvania, affecting 111 employees. We recorded a charge of \$10.8 million related to this closure, consisting mainly of \$3.9 million of employee severance and a \$6.2 million non-cash impairment charge against long-lived assets at the plant. We also completed an analysis of the viability of our Bakeries and Foodservice frozen dough facility in Trenton, Ontario, and decided to close the facility, affecting 470 employees. We recorded a \$9.8 million charge largely for employee severance expenses and curtailment charges associated with a defined benefit pension plan. These actions, including the anticipated timing of the disposition of the plants we will close, are

## Edgar Filing: GENERAL MILLS INC - Form 10-Q

expected to be completed by February 28, 2009. We also restructured our production scheduling and discontinued our cake product line at our Chanhassen, Minnesota Bakeries and Foodservice plant. These actions affected 125 employees, and we recorded a charge for employee severance of \$3.0 million. These actions are expected to be completed by the end of fiscal 2008.

Collectively, the charges we expect to incur with respect to these fiscal 2008 restructuring actions total approximately \$73.0 million, of which approximately \$50.0 million is expected to be recognized in fiscal 2008. This includes a \$17.4 million non-cash charge related to accelerated depreciation on long-lived assets at our Trenton, Ontario plant. The accelerated depreciation charge is recorded in cost of sales in our Consolidated Statements of Earnings and in unallocated corporate expenses in our segment results.

8

---

### Table of Contents

During the nine-month period ended February 24, 2008, we sold our previously closed Vallejo, California plant and received \$10.6 million in proceeds.

In the nine-month period ended February 25, 2007, we sold our previously closed plant in San Adrian, Spain, for proceeds of \$9.5 million. We also received net proceeds of \$11.7 million from the divestiture of our par-baked bread product line.

### (4) Goodwill and Other Intangible Assets

The changes in the carrying amount of goodwill during fiscal 2008 were as follows:

In millions	U.S. Retail	International	Bakeries and Foodservice	Joint Ventures	Total
Balance as of May 27, 2007	\$ 5,202.9	\$ 142.2	\$ 981.8	\$ 508.5	\$ 6,835.4
Finalization of purchase accounting		(0.3)		(16.3)	(16.6)
Adoption of FIN 48	(110.9)	(10.6)	(30.4)		(151.9)
Other activity, primarily foreign currency translation	16.8	10.1	4.7	50.6	82.2
Balance as of Feb. 24, 2008	\$ 5,108.8	\$ 141.4	\$ 956.1	\$ 542.8	\$ 6,749.1

The changes in the carrying amount of other intangible assets during fiscal 2008 were as follows:

In millions	U.S. Retail	International	Joint Ventures	Total
Balance as of May 27, 2007	\$ 3,175.2	\$ 460.9	\$ 57.9	\$ 3,694.0
Finalization of purchase accounting		14.7	16.3	31.0
Other activity, primarily foreign currency translation		28.3	4.8	33.1
Balance as of Feb. 24, 2008	\$ 3,175.2	\$ 503.9	\$ 79.0	\$ 3,758.1

### (5) Inventories

The components of inventories were as follows:

In millions	Feb. 24, 2008	May 27, 2007
Raw materials and packaging	\$ 262.9	\$ 242.1

## Edgar Filing: GENERAL MILLS INC - Form 10-Q

Finished goods	1,066.6	898.0
Grain	437.7	111.4
Excess of FIFO or weighted-average cost over LIFO cost	(131.7)	(78.1)
Total	\$ 1,635.5	\$ 1,173.4

### (6) Derivatives and Hedging Activities

Application of hedge accounting under Statement of Financial Accounting Standards (SFAS) No. 133, Accounting for Derivative Instruments and Hedging Activities, as amended (SFAS 133), requires significant resources, recordkeeping, and analytical systems. As a result of the rising compliance costs and the complexity associated with the application of hedge accounting, we have elected to discontinue the use of hedge accounting for all commodity derivative positions entered into after the beginning of fiscal 2008. Accordingly, the changes in the values of these derivatives are recorded currently in cost of sales in our Consolidated Statements of Earnings.

9

---

### Table of Contents

Regardless of designation for accounting purposes, we believe all of our commodity hedges are economic hedges of our risk exposures, and as a result we consider these derivatives to be hedges for purposes of measuring segment operating performance. Thus, these gains and losses are reported in unallocated corporate expenses outside of segment operating results until such time that the exposure we are hedging affects earnings. At that time we reclassify the hedge gain or loss from unallocated corporate expenses to segment operating profit, allowing our operating segments to realize the economic effects of the hedge without experiencing any resulting mark-to-market volatility, which remains in unallocated corporate expenses. Commodity derivatives previously accounted for as cash flow hedges are not affected by this change, and any gains or losses deferred to accumulated other comprehensive income (loss) in stockholders' equity will remain there until the hedged item affects earnings.

Pursuant to this policy, unallocated corporate expenses for the quarter and nine-month period ended February 24, 2008 included:

	Quarter Ended	Nine-Month Period Ended
In millions	Feb. 24, 2008	Feb. 24, 2008
Mark-to-market net gains on commodity derivative positions, primarily from agricultural derivatives	\$ 103.8	\$ 145.9
Net realized gains on hedge positions reclassified to segment operating profit, primarily agricultural derivatives	(16.6)	(46.6)
Net gain recognized in unallocated corporate expenses	\$ 87.2	\$ 99.3

### (7) Debt

The components of notes payable were as follows:

	Feb. 24, 2008	May 27, 2007
In millions		
U.S. commercial paper	\$ 768.1	\$ 476.9
Euro commercial paper	1,529.7	639.0

## Edgar Filing: GENERAL MILLS INC - Form 10-Q

Financial institutions	136.7	138.5
Total	<b>\$ 2,434.5</b>	\$ 1,254.4

Our commercial paper borrowings are supported by fee-paid committed credit lines consisting of a \$1.9 billion facility expiring in October 2012 and a \$1.1 billion facility expiring in October 2010. As of February 24, 2008, we did not have any outstanding borrowings under these agreements.

As of October 25, 2007, we terminated our credit agreement dated August 3, 2007, which provided an aggregate revolving commitment of \$750.0 million and was scheduled to expire on December 6, 2007.

On October 15, 2007, we and an affiliate of Lehman Brothers Holdings, Inc. (Lehman Brothers) settled the forward purchase contract established in October 2004 in conjunction with the issuance by Lehman Brothers of \$750.0 million of notes that were mandatorily exchangeable for shares of our common stock. In settlement of that forward purchase contract, we issued 14.3 million shares of our common stock and received \$750.0 million in cash from Lehman Brothers. We used the cash to reduce outstanding commercial paper balances.

### Table of Contents

On October 9, 2007, we entered into a new five-year credit agreement with an initial aggregate revolving commitment of \$1.9 billion which is scheduled to expire in October 2012. Concurrent with the execution of the new credit agreement, we terminated our five-year credit agreement dated January 20, 2004, which provided \$750.0 million of revolving credit and was scheduled to expire in January 2009, and our amended and restated credit agreement dated October 17, 2006, which provided \$1.1 billion of revolving credit and was scheduled to expire in October 2007.

On August 29, 2007, we completed the sale of \$700.0 million of 5.65 percent fixed-rate notes due September 10, 2012. The proceeds of the notes were used to repay outstanding commercial paper. Interest on the notes is payable semi-annually in arrears. The notes may be redeemed at our option at any time for a specified make-whole amount. The notes are senior unsecured, unsubordinated obligations and contain a change of control provision, as defined in the instruments governing the notes.

On March 17, 2008, we completed the sale of \$750.0 million of 5.2 percent fixed-rate notes due March 17, 2015. The proceeds of the notes were used to repay outstanding commercial paper. Interest on the notes is payable semi-annually in arrears. The notes may be redeemed at our option at any time for a specified make-whole amount. The notes are senior unsecured, unsubordinated obligations and contain a change of control provision, as defined in the instruments governing the notes.

Our credit facilities and certain of our long-term debt agreements contain restrictive covenants. As of February 24, 2008, we were in compliance with all of these covenants.

### (8) Minority Interests

On August 7, 2007, we repurchased for a net amount of \$843.0 million all of the outstanding Series B-1 limited membership interests (Series B-1 Interests) previously issued by our subsidiary General Mills Cereals, LLC (GMC) as part of a required remarketing of those interests. The purchase price reflected the Series B-1 Interests' original capital account balance of \$835.0 million and \$8.0 million of capital account appreciation attributable and paid to the third party holder of the Series B-1 Interests. The capital appreciation paid to the third party holder of the Series B-1 Interests was recorded as a reduction to retained earnings, a component of stockholders' equity, on the Consolidated Balance Sheets, and reduced net earnings available to common stockholders in our basic and diluted earnings per share (EPS) calculations. We used commercial paper to fund the repurchase.

We and the third party holder of all of GMC's outstanding Class A limited membership interests (Class A Interests) agreed to reset, effective on June 28, 2007, the preferred rate of return applicable to the Class A Interests to the sum of 3 month LIBOR plus 65 basis points. On June 28, 2007, we also sold \$92.3 million of additional Class A Interests to the same third party. There was no gain or loss associated with these transactions. As of February 24, 2008, the carrying value of all outstanding Class A Interests on our Consolidated Balance Sheets was \$242.3 million, and the capital account balance of the Class A Interests, upon which preferred distributions are calculated, was \$248.1 million.

On June 28, 2007, we repurchased for \$150.0 million all of the outstanding Series A preferred stock of our subsidiary General Mills Capital, Inc. using proceeds from the sale of the Class A Interests and commercial paper. There was no gain or loss associated with this repurchase.

# Edgar Filing: GENERAL MILLS INC - Form 10-Q

Our minority interests contain restrictive covenants. As of February 24, 2008, we were in compliance with all of these covenants.

Total comprehensive income \$ 1,288.9 \$ 1,059.1

Except for reclassifications to earnings, changes in other comprehensive income (loss) are primarily non-cash items.

12

## Table of Contents

Accumulated other comprehensive income (loss) balances, net of tax effects, were as follows:

In millions	Feb. 24, 2008	May 27, 2007
Foreign currency translation adjustments	\$ 556.7	\$ 402.1
Unrealized gain (loss) from:		
Securities	5.3	3.9
Hedge derivatives	(35.7)	(36.5)
Pension, other postretirement, and postemployment benefits:		
Net actuarial loss	(429.8)	(448.5)
Prior service costs	(36.8)	(40.7)
Accumulated other comprehensive income (loss)	\$ 59.7	\$ (119.7)

On December 10, 2007, our Board of Directors approved the retirement of 125.0 million shares of common stock in treasury effective December 10, 2007. This action reduced common stock by \$12.5 million, reduced additional paid-in capital by \$5,068.3 million, and reduced common stock in treasury by \$5,080.8 million on our Consolidated Balance Sheets.

## (10) Stock Plans

We have various stock-based compensation programs under which awards, including stock options, restricted stock, and restricted stock units, may be granted to employees and non-employee directors. These programs and related accounting are described on pages 58 to 60 of our Annual Report on Form 10-K for the fiscal year ended May 27, 2007.

On September 24, 2007, our stockholders approved the General Mills, Inc. 2007 Stock Compensation Plan, replacing the General Mills, Inc. 2005 Stock Compensation Plan. No additional shares may be issued under the 2005 Plan. A description of the 2007 Plan can be found in our Proxy Statement for the 2007 Annual Meeting filed with the Securities and Exchange Commission (SEC) on August 14, 2007.

Compensation expense related to stock-based payments recognized in selling, general, and administrative expenses in the Consolidated Statements of Earnings was as follows:

In millions	Quarter Ended		Nine-Month Period Ended	
	Feb. 24, 2008	Feb. 25, 2007	Feb. 24, 2008	Feb. 25, 2007
Compensation expense related to stock-based payments	\$ 23.0	\$ 23.9	\$ 109.6	\$ 104.7

As of February 24, 2008, unrecognized compensation expense related to non-vested stock options and restricted stock units was \$200.2 million. This expense will be recognized over 25 months, on average.

Net cash proceeds from the exercise of stock options less shares used for withholding taxes and the intrinsic value of options exercised were as follows:

In millions	Nine-Month Period Ended	
	Feb. 24, 2008	Feb. 25, 2007
Net cash proceeds	\$ 112.2	\$ 225.7
Intrinsic value of options exercised	\$ 64.1	\$ 121.6

13

## Table of Contents

We estimate the fair value of each option on the grant date using the Black-Scholes option-pricing model, which requires us to make predictive assumptions regarding future stock price volatility, employee exercise behavior, and dividend yield. We estimate our future stock price volatility using the historical volatility over the expected term of the option, excluding time periods of volatility we believe a marketplace participant would exclude in estimating our stock price volatility. For the fiscal 2008 grants, we have excluded historical volatility for fiscal 2002 and prior, primarily because volatility driven by the acquisition of Pillsbury does not reflect what we believe to be expected future volatility. We also have considered, but did not use, implied volatility in our estimate, because trading activity in options on our stock, especially those with tenors of greater than 6 months, is insufficient to provide a reliable measure of expected volatility. Our method of selecting the other valuation assumptions is explained on pages 58 and 59 in our Annual Report on Form 10-K for the fiscal year ended May 27, 2007.

The estimated fair values of stock options granted and the assumptions used for the Black-Scholes option-pricing model were as follows:

	Nine-Month Period Ended	
	Feb. 24, 2008	Feb. 25, 2007
Estimated fair values of stock options granted	\$ 10.56	\$ 10.74
Assumptions:		
Risk-free interest rate	5.1%	5.3%
Expected term	8.5 years	8.0 years
Expected volatility	15.6%	19.7%
Dividend yield	2.7%	2.8%

Information on stock option activity follows:

	Shares (thousands)	Weighted- average exercise price	Weighted- average remaining contractual term (years)	Aggregate intrinsic value (millions)
Outstanding as of May 27, 2007	53,773.2	\$ 43.09		
Granted	5,489.3	58.77		
Exercised	(3,169.9)	37.93		
Forfeited or expired	(112.0)	50.38		
Outstanding as of Feb. 24, 2008	55,980.6	44.91	4.65	\$ 681.5
Exercisable as of Feb. 24, 2008	41,158.7	\$ 42.07	3.31	\$ 610.4

## Edgar Filing: GENERAL MILLS INC - Form 10-Q

Information on restricted stock unit activity follows:

	Units (thousands)	Weighted- average grant-date fair value
Non-vested as of May 27, 2007	\$ 4,785.9	\$ 48.74
Granted	1,923.4	58.62
Vested	(1,310.8)	46.61
Forfeited	(143.8)	51.69
Non-vested as of Feb. 24, 2008	\$ 5,254.7	\$ 52.80

The total grant-date fair value of restricted stock unit awards that vested in the nine-month period ended February 24, 2008, was \$61.1 million. The total grant-date fair value of restricted stock unit awards that vested in the nine-month period ended February 25, 2007, was \$20.9 million.

Forward purchase contract (c)		1.2	0.7	0.8
Average number of common shares - diluted EPS	349.7	359.9	345.7	360.1
Earnings per share - basic	\$ 1.28	\$ 0.77	\$ 3.32	\$ 2.65
Earnings per share - diluted	\$ 1.23	\$ 0.74	\$ 3.19	\$ 2.55

(a) See Note 8.

(b)

## Edgar Filing: GENERAL MILLS INC - Form 10-Q

Incremental shares from stock options, restricted stock, and restricted stock units are computed by the treasury stock method. Stock options and restricted stock units excluded from our computation of diluted EPS because they were not dilutive were as follows:

	Quarter Ended		Nine-Month Period Ended	
	Feb. 24, 2008	Feb. 25, 2007	Feb. 24, 2008	Feb. 25, 2007
<b>In millions</b>				
Anti-dilutive stock options and restricted stock units	5.7	5.3	5.1	7.1

(c) On October 15, 2007, we settled the forward purchase contract with Lehman Brothers by issuing 14.3 million shares of common stock.  
(12) Share Repurchases

During the third quarter of fiscal 2008, we repurchased 2.8 million shares of common stock for \$154.1 million. In the nine-month period ended February 24, 2008, we repurchased 23.8 million shares of common stock for \$1,380.6 million.

During the third quarter of fiscal 2007, we repurchased 0.1 million shares of common stock for \$5.3 million. In the nine-month period ended February 25, 2007, we repurchased 17.2 million shares of common stock for \$896.5 million.

15

### Table of Contents

### (13) Interest, Net

The components of interest, including distributions to minority interest holders, net were as follows:

	Quarter Ended		Nine-Month Period Ended	
	Feb. 24, 2008	Feb. 25, 2007	Feb. 24, 2008	Feb. 25, 2007
<b>Expense (income), in millions</b>				
Interest expense	\$ 107.4	\$ 99.8	\$ 334.8	\$ 296.5
Distributions paid on preferred stock and interests of subsidiaries	3.5	15.9	19.7	47.6
Capitalized interest	(1.2)	(0.4)	(3.6)	(1.5)
Interest income	(7.1)	(8.5)	(19.1)	(20.3)
Interest, net	\$ 102.6	\$ 106.8	\$ 331.8	\$ 322.3

### (14) Statements of Cash Flows

During the nine-month period ended February 24, 2008, we made cash interest payments of \$362.5 million, compared to \$348.4 million in the same period last year. In the nine-month period ended February 24, 2008, we made tax payments of \$391.6 million, compared to \$289.8 million in the same period last year. The increase in cash taxes paid is primarily driven by the increase in earnings in the first nine months of fiscal 2008 versus the same period in fiscal 2007, and cash tax payments to settle various prior year income tax matters arising from Internal Revenue Service (IRS) and related audits.

### (15) Retirement and Postemployment Benefits

## Edgar Filing: GENERAL MILLS INC - Form 10-Q

Components of net pension, other postretirement, and postemployment (income) expense for each fiscal period were as follows:

	Defined Benefit Pension Plans		Other Postretirement Benefit Plans		Postemployment Benefit Plans	
	Quarter Ended		Quarter Ended		Quarter Ended	
In millions	Feb. 24, 2008	Feb. 25, 2007	Feb. 24, 2008	Feb. 25, 2007	Feb. 24, 2008	Feb. 25, 2007
Service cost	\$ 20.0	\$ 18.1	\$ 4.1	\$ 4.1	\$ 1.5	\$ 1.2
Interest cost	49.2	46.3	14.7	14.6	1.0	1.0
Expected return on plan assets	(90.2)	(83.1)	(7.6)	(6.8)		
Amortization of losses (gains)	5.7	2.9	3.8	3.9	(0.1)	(0.1)

### (16) Income Taxes

#### Effective Tax Rate

Our consolidated effective income tax rate is influenced by tax planning opportunities available to us in the various jurisdictions in which we operate. The effective tax rate for the third quarter of fiscal 2008 was 32.5 percent compared to 33.6 percent for the third quarter of fiscal 2007. The 1.1 percentage point decrease in the effective tax rate is primarily due to a favorable U.S. Federal District Court decision on an uncertain tax matter, which more than offset an increase in the rate as more income was earned in higher tax jurisdictions. The IRS has appealed the District Court decision, and accordingly, its ultimate resolution is subject to change.

The effective tax rate for the nine-month period ended February 24, 2008 was 34.0 percent compared to 35.2 percent for the same period of fiscal 2007. The 1.2 percentage point decrease in the effective tax rate is primarily the result of the favorable District Court decision discussed in

the preceding paragraph.

### Uncertain Tax Positions

We adopted the provisions of Financial Accounting Standards Board (FASB) Interpretation (FIN) No. 48, Accounting for Uncertainty in Income Taxes – an Interpretation of FASB Statement No. 109, (FIN 48) as of the beginning of fiscal 2008. Prior to adoption, our policy was to establish reserves that reflected the probable outcome of known tax contingencies. The effects of final resolution, if any, were recognized as changes to the effective income tax rate in the period of resolution. FIN 48 requires application of a more likely than not threshold to the recognition and derecognition of uncertain tax positions. FIN 48 requires us to recognize the amount of tax benefit that has a greater than 50 percent likelihood of being ultimately realized upon settlement. It further requires that a change in judgment related to the expected ultimate resolution of uncertain tax positions be recognized in earnings in the quarter of such change.

As a result of adoption, we recorded a \$218.1 million reduction to accrued tax liabilities, a \$151.9 reduction to goodwill, a \$57.8 million increase to additional paid in capital and an \$8.4 million increase to retained earnings at the beginning of fiscal 2008.

17

---

### Table of Contents

The following table sets forth changes in our total gross unrecognized tax benefit liabilities, excluding accrued interest, for the nine-month period ended February 24, 2008. Approximately \$152.2 million of this total represents the amount that, if recognized, would affect our effective income tax rate in future periods. This amount differs from the gross unrecognized tax benefits presented in the table because the majority of the liabilities below are the result of acquisition-related tax contingencies. We also would record a decrease in U.S. federal income taxes upon recognition of the state tax benefits included therein.

#### **In Millions**

Balance as of May 28, 2007	\$ 464.9
Tax positions related to current year:	
Additions	43.7
Reductions	
Tax positions related to prior years:	
Additions	37.3
Reductions	(24.7)
Settlements	
Lapses in statutes of limitations	(7.6)
Balance as of Feb. 24, 2008	\$ 513.6

As of February 24, 2008, we have classified approximately \$0.3 million of the unrecognized tax benefits as a current liability as these amounts are expected to be paid within the next 12 months. The remaining amount of our unrecognized tax liability was classified in other noncurrent liabilities.

We report accrued interest and penalties related to unrecognized tax benefits in income tax expense. For the nine-month period ended February 24, 2008, we recognized a net \$18.2 million of tax-related interest expense and penalties, and had \$101.6 million of accrued interest and penalties at February 24, 2008.

We do not expect any significant changes to the estimated amount of liability associated with our uncertain tax positions that arose prior to fiscal 2008, other than the payment of the amount noted above which is identified as a current liability.

Annually we file more than 350 income tax returns in approximately 100 global taxing jurisdictions. The number of years with open tax audits varies depending on the tax jurisdiction. Our major taxing jurisdictions include the United States (federal and state) and Canada. With one exception, we are no longer subject to U.S. federal examinations by the IRS for fiscal years before 2002. During the third quarter of fiscal 2008, we received a favorable District Court decision on an uncertain tax matter related to the fiscal years prior to 2002 and reduced our liability for uncertain tax positions by \$19.8 million. The IRS has appealed the District Court decision, and accordingly, its ultimate resolution is subject to change. During the third quarter we also concluded various matters for fiscal years 1998-2001 which included a payment of \$31.7 million. The IRS recently concluded field examinations for our 2002 and 2003 fiscal years. A payment of \$24.8 million was made during the first quarter of

## Edgar Filing: GENERAL MILLS INC - Form 10-Q

fiscal 2008 to cover the additional tax liability plus interest related to all agreed adjustments for this audit cycle. The IRS also proposed additional adjustments for the 2002-2003 audit cycle including several adjustments to the tax benefits associated with the sale of minority interests in our GMC subsidiary. We believe we have meritorious defenses and intend to vigorously defend our position. Our potential liability for this matter is significant and, notwithstanding our reserves against this potential liability, an unfavorable resolution could have a material adverse impact on our results of operations and cash flows from operations. The IRS initiated its audit of our fiscal 2004 through 2006 tax years during the first quarter of fiscal 2008.

We do not expect that the amount of our tax reserves will change in the next 12 months other than the payment of the amount noted above which is identified as a current liability.

### Table of Contents

Various examinations by United States state taxing authorities could be conducted for any open tax year, which vary by jurisdiction, but are generally from 3 to 5 years. Currently, several state examinations are in progress. The Canada Revenue Agency is conducting an audit of our income tax returns in Canada for fiscal years 2003 (which corresponds to our earliest tax year still open for examination) through 2005. We do not anticipate that any United States state tax or Canadian tax adjustments will have a significant impact on our financial position, cash flows, or results of operations.

### (17) Business Segment Information

We operate in the consumer foods industry. We have three operating segments by type of customer and geographic region as follows: U.S. Retail; International; and Bakeries and Foodservice.

Our U.S. Retail segment reflects business with a wide variety of grocery stores, mass merchandisers, membership stores, natural food chains, and drug, dollar, and discount chains operating throughout the United States. Our major product categories in the United States are ready-to-eat cereals, refrigerated yogurt, ready-to-serve soup, dry dinners, shelf stable and frozen vegetables, refrigerated and frozen dough products, dessert and baking mixes, frozen pizza and pizza snacks, grain, fruit and savory snacks, microwave popcorn, and a wide variety of organic products including soup, granola bars, and cereal.

Our International segment is largely made up of retail businesses outside of the United States. In Canada, our major product categories are ready-to-eat cereals, shelf stable and frozen vegetables, dry dinners, refrigerated and frozen dough products, dessert and baking mixes, frozen pizza snacks, and grain, fruit and savory snacks. In markets outside the United States and Canada, our product categories include super-premium ice cream, granola and grain snacks, shelf stable and frozen vegetables, dough products, and dry dinners. Our International segment also includes products manufactured in the United States for export internationally, primarily in Caribbean and Latin American markets, as well as products we manufacture for sale to our joint ventures internationally. Revenues from export activities are reported in the region or country where the end customer is located.

In our Bakeries and Foodservice segment, we sell branded cereals, snacks, dinner and side dish products, refrigerated and soft-serve frozen yogurt, frozen dough products, branded baking mixes, and custom food items. Our customers include foodservice distributors and operators, convenience stores, vending machine operators, quick service chains and other restaurants, and business and school cafeterias in the United States and Canada. In addition, mixes and unbaked and fully baked frozen dough products are marketed throughout the United States and Canada to retail, supermarket, and wholesale bakeries.

Operating profit for these segments excludes unallocated corporate items (variances to planned corporate overhead expenses, variances to planned domestic employee benefits and incentives, all stock compensation costs, annual contributions to the General Mills Foundation, and other items that are not part of our measurement of segment operating performance, including gains and losses arising from the revaluation of our grain inventories and gains and losses from commodity derivatives entered into after May 27, 2007, until passed back to our operating segments in accordance with our internal hedge documentation as discussed in Note 6), and restructuring, impairment, and other exit costs. These items affecting operating profit are centrally managed at the corporate level and are excluded from the measure of segment profitability reviewed by executive management. Under our supply chain organization, our manufacturing, warehouse, and distribution activities are substantially integrated across our operations in order to maximize efficiency and productivity. As a result, fixed assets and depreciation and amortization expenses are neither maintained nor available by operating segment. Our operating segment results were as follows:

Restructuring, impairment, and other exit costs (income)	5.0	0.7	22.3	(2.3)
Operating profit	\$ 695.4	\$ 486.1	\$ 1,892.6	\$ 1,652.1

## (18) New Accounting Pronouncements

In the first quarter of fiscal 2008, we adopted Staff Accounting Bulletin No. 108 – Considering the Effects of Prior Year Misstatements when Quantifying Misstatements in Current Year Financial Statements (SAB 108). SAB 108 provides interpretive guidance on the process and diversity in practice of quantifying financial statement misstatements resulting in the potential carryover of improper amounts on the balance sheet. The SEC believes that registrants should quantify errors using both a balance sheet and income statement approach and evaluate whether either approach results in quantifying a misstatement that, when all relevant quantitative and qualitative factors are considered, is material. The adoption of SAB 108 did not have a material impact on our results of operations or financial condition.

Also in the first quarter of fiscal 2008, we adopted SFAS No. 155, Hybrid Instruments (SFAS 155). SFAS 155 amends SFAS No. 133 Accounting for Derivative Instruments and Hedging Activities and SFAS No. 140, Accounting for Transfers and Servicing of Financial Assets and Extinguishments of Liabilities. SFAS 155 is effective for all financial instruments acquired or issued after May 27, 2007. The adoption of SFAS 155 did not have any impact on our results of operations or financial condition.

In September 2006, the FASB ratified the consensus of Emerging Issues Task Force Issue No. 06-5, Accounting for Purchases of Life Insurance-Determining the Amount That Could Be Realized in Accordance with FASB Technical Bulletin No. 85-4 (EITF 06-5). EITF 06-5 requires that a policyholder consider any additional amounts included in the contractual terms of the policy in determining the amount that could be realized under the insurance contract on a policy by policy basis. We adopted EITF 06-5 in the first quarter of fiscal 2008, and it did not have any impact on our results of operations or financial condition.

## Edgar Filing: GENERAL MILLS INC - Form 10-Q

### Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations.

#### INTRODUCTION

This Management's Discussion and Analysis of Financial Condition and Results of Operations (MD&A) should be read in conjunction with the MD&A included in our Annual Report on Form 10-K for the fiscal year ended May 27, 2007, for important background regarding, among other things, our key business drivers. Significant trademarks and service marks used in our business are set forth in *italics* herein. Certain terms used throughout this report are defined in a glossary on pages 34-35 of this report.

#### CONSOLIDATED RESULTS OF OPERATIONS

##### Third Quarter Results

For the third quarter of fiscal 2008, we reported diluted earnings per share of \$1.23, up 66.2 percent from \$0.74 per share earned in the same period last year. Net earnings were \$430.1 million in the quarter, up 60.8 percent from \$267.5 million last year. Net sales grew 11.5 percent to \$3,405.6 million and total segment operating profit of \$594.5 million was 13.8 percent higher than \$522.6 million in the third quarter of fiscal 2007. (See page 34 for a discussion of this measure not defined by generally accepted accounting principles (GAAP)).

**Net sales** growth of 11.5 points for the third quarter of fiscal 2008 was the result of 6.1 points of combined segment volume growth, 3.7 points of growth from net price realization and product mix, and 1.7 points of favorable foreign currency exchange. Pricing actions driven by higher input costs contributed to the growth in net sales. We voluntarily recalled one flavor of *Progreso* soup during the third quarter of fiscal 2008. The recall did not significantly impact our net sales for the quarter.

##### **Components of net sales growth**

**Third quarter of fiscal 2008 vs.  
third quarter of fiscal 2007**

	<b>U.S. Retail</b>	<b>International</b>	<b>Bakeries and Foodservice</b>	<b>Combined Segments</b>
Volume growth (a)	7.8 pts	4.4 pts	Flat	6.1 pts
Net price realization and product mix	1.4 pts	5.5 pts	12.8 pts	3.7 pts
Foreign currency exchange	NA	10.3 pts	NA	1.7 pts
<b>Net sales growth</b>	<b>9.2 pts</b>	<b>20.2 pts</b>	<b>12.8 pts</b>	<b>11.5 pts</b>

(a) Measured in tons based on the stated weight of our product shipments.

**Cost of sales** increased \$69.5 million from the third quarter of fiscal 2007 to \$2,051.4 million. Higher volume drove \$102.2 million of this increase. Higher input costs and changes in mix increased cost of sales by \$132.9 million. We recorded \$103.8 million of mark-to-market net gains on our commodity derivatives in the third quarter of fiscal 2008 according to our policy described in Note 6 on page 10. Of these net gains, \$87.2 million relate to hedges on open commodity positions that will mitigate future input cost inflation. We recorded a \$64.0 million gain from the revaluation of our grain inventories to market. In addition, our *La Salteña* pasta manufacturing plant in Argentina was destroyed by a fire during the third quarter of fiscal 2008, resulting in the write off of \$8.2 million of property, plant, and equipment, and \$2.7 million of inventory. We also recorded \$5.4 million of severance expense related to this event. These costs were partially offset by \$15.0 million of insurance recovery proceeds.

**Selling, general, and administrative (SG&A) expenses** were up \$68.9 million in the third quarter of fiscal 2008 versus the same period in fiscal 2007. SG&A expense as a percent of net sales in fiscal 2008 was flat compared with fiscal 2007. The increase in SG&A expense was primarily driven by a 12.6 percent increase in consumer marketing expense.

---

#### Table of Contents

**Restructuring, impairment, and other exit costs (income)** were \$5.0 million of expense for the third quarter of fiscal 2008 and \$0.7 million of expense for the same period of fiscal 2007, comprised of the following:

## Edgar Filing: GENERAL MILLS INC - Form 10-Q

In millions	Quarter Ended	
	Feb. 24, 2008	Feb. 25, 2007
Closure of Allentown, Pennsylvania frozen waffle plant	\$ 0.7	\$
Closure of Trenton, Ontario frozen dough plant	1.3	
Expense related to sale of previously closed plant in San Adrian, Spain		0.5
Charges associated with restructuring actions previously announced	3.0	0.2
Total	\$ 5.0	\$ 0.7

During the third quarter of fiscal 2008, we recorded an additional charge of \$2.8 million related to previously announced Bakeries and Foodservice segment restructuring actions. This amount consisted entirely of employee severance for 38 employees.

**Interest, net** for the third quarter of fiscal 2008 totaled \$102.6 million, a \$4.2 million decrease from the same period of fiscal 2007. Average interest bearing instruments increased \$164.0 million leading to a \$2.6 million increase in net interest, while average interest rates decreased 40 basis points generating a \$6.8 million decrease in net interest. Average debt balances increased due to higher working capital requirements.

The **effective tax rate** for the third quarter of fiscal 2008 was 32.5 percent compared to 33.6 percent for the third quarter of fiscal 2007. The 1.1 percentage point decrease in the effective tax rate is primarily due to a favorable U.S. Federal District Court decision on an uncertain tax matter, which more than offset an increase in the rate as more income was earned in higher tax jurisdictions. The Internal Revenue Service (IRS) has appealed the District Court decision, and accordingly, its ultimate resolution is subject to change.

**After-tax earnings from joint ventures** increased \$14.1 million from the third quarter of fiscal 2007, to \$29.7 million. Net sales for Cereal Partners Worldwide (CPW) increased 21.4 percent driven by higher volume. CPW recorded a gain related to a previously announced restructuring action, primarily related to the sale of a manufacturing facility during the third quarter. Our after-tax share of that net gain was \$14.2 million. In addition, CPW recorded new restructuring and impairment charges during the third quarter. Our after-tax share of those charges was \$3.1 million of expense. Net sales for our Häagen-Dazs ice cream joint ventures in Asia grew 9.9 percent as an increase in sales volume was partially offset by unfavorable foreign exchange. During the third quarter, the 8<sup>th</sup> Continent soy milk business was sold. Our 50 percent share of the after-tax gain on the sale was \$2.2 million of which \$1.7 million was recorded in the third quarter. We will record an additional gain in the first quarter of fiscal 2010 if certain conditions related to the sale are satisfied.

**Average diluted shares outstanding** decreased by 10.2 million in the third quarter of fiscal 2008 from the same period a year ago due primarily to the repurchase of 32.0 million shares of our common stock since the end of the third quarter of fiscal 2007. This was partially offset by the issuance of 14.3 million shares in the second quarter of fiscal 2008 to settle the forward contract with Lehman Brothers Holdings, Inc. (Lehman Brothers), the issuance of shares upon stock option exercises, the issuance of annual stock awards, and the vesting of restricted stock units.

---

### Table of Contents

### Nine-month Results

For the nine-month period ended February 24, 2008, we reported diluted earnings per share of \$3.19, up 25.1 percent from \$2.55 per share earned in the same period last year. Net earnings were \$1,109.5 million, up 20.6 percent from \$919.8 million last year. Net sales for the nine-month period grew 8.5 percent to \$10.2 billion and total segment operating profit increased 6.8 percent to \$1,888.9 million (see page 34 for a discussion of this measure not defined by GAAP).

**Net sales** growth during the nine-month period ended February 24, 2008, was the result of 2.7 points of combined segment volume growth, 4.3 points of growth from net price realization and product mix, and 1.5 points of favorable foreign currency exchange. We recorded volume growth in our U.S. Retail and International operating segments, while Bakeries and Foodservice volumes declined, including the effects of divested product lines in fiscal 2007. During the second quarter of fiscal 2008, we voluntarily recalled all pepperoni varieties of *Totino's* and *Jeno's* frozen pizzas manufactured on or before October 30, 2007 due to potential contamination. This recall and the third-quarter soup recall described on page 21 did not significantly impact our net sales for the nine-month period ended February 24, 2008.

# Edgar Filing: GENERAL MILLS INC - Form 10-Q

## Components of net sales growth

Nine-month period ended Feb. 24, 2008 vs.  
nine-month period ended Feb. 25, 2007

	U.S. Retail	International	Bakeries and Foodservice	Combined Segments
Volume growth (a)	2.7 pts	7.0 pts	-2.0 pts	2.7 pts
Net price realization and product mix	3.4 pts	4.6 pts	8.5 pts	4.3 pts
Foreign currency exchange	NA	8.8 pts	NA	1.5 pts
Net sales growth	6.1 pts	20.4 pts	6.5 pts	8.5 pts

(a) Measured in tons based on the stated weight of our product shipments.

**Cost of sales** increased \$373.8 million from the nine-month period ended February 25, 2007, to \$6,339.4 million. Higher volume drove \$153.0 million of this increase. Higher input costs and changes in mix increased cost of sales by \$397.0 million. We recorded \$145.9 million of mark-to-market net gains on our commodity derivatives in the nine-month period ended February 24, 2008 according to our policy described in Note 6 on page 10. Of these net gains, \$99.3 million relate to hedges on open commodity positions that will mitigate future input cost inflation. We also recorded a \$68.8 million gain from the revaluation of our grain inventories to market. In addition, we recorded \$17.4 million of accelerated depreciation on long-lived assets associated with our previously announced restructuring action at our plant in Trenton, Ontario. During the third quarter, our *La Salteña* pasta manufacturing plant in Argentina was destroyed by a fire resulting in the write off of \$8.2 million of property, plant, and equipment and \$2.7 million of inventory. We also recorded \$5.4 million in severance expense related to this event. These costs were offset by \$15.0 million of insurance recovery proceeds. Cost of sales through nine months also include \$21.0 million of costs, including product write offs, logistics, and other costs, related to the voluntary frozen pizza and soup recalls.

**SG&A expenses** were up \$161.5 million in the nine-month period ended February 24, 2008, versus the same period in fiscal 2007. SG&A expenses as a percent of net sales in fiscal 2008 increased 10 basis points from fiscal 2007 to 18.9 percent. This increase was primarily driven by an 11.2 percent increase in consumer marketing expense and \$10.9 million of costs associated with the remarketing of the Class A and Series B-1 Interests of our subsidiary General Mills Cereals, LLC (GMC).

## Table of Contents

**Restructuring, impairment, and other exit costs (income)** were \$22.3 million of expense for the nine-month period ended February 24, 2008, and \$2.3 million of income for the same period last year, comprised of the following:

Expense (income), in millions	Nine-Month Period Ended	
	Feb. 24, 2008	Feb. 25, 2007
Closure of Poplar, Wisconsin plant	\$ 2.7	\$
Closure of Allentown, Pennsylvania frozen waffle plant	10.8	
Closure of Trenton, Ontario frozen dough plant	9.8	
Restructuring of production scheduling and discontinuation of cake products line at Chanhassen, Minnesota plant	3.0	
Gain on sale of previously closed Vallejo, California plant	(7.1)	
Gain on sale of previously closed plant in San Adrian, Spain		(8.1)
Impairment of long-lived assets and write off of associated goodwill related to par-baked bread line, including its plants in Chelsea, Massachusetts and Tempe, Arizona		5.9
Charges associated with restructuring actions previously announced	3.1	(0.1)
Total	\$ 22.3	\$ (2.3)

## Edgar Filing: GENERAL MILLS INC - Form 10-Q

During the nine-month period ended February 24, 2008, we took additional restructuring actions beyond the items described in our Third Quarter Results section on page 22. We approved a plan to transfer *Old El Paso* production from our Poplar, Wisconsin facility to other plants and close the Poplar facility to improve capacity utilization and reduce costs. This action affects 113 employees at the Poplar facility, and resulted in a charge of \$2.7 million consisting entirely of employee severance. Due to declining financial results, we decided to exit our frozen waffle product line (retail and foodservice) and close our frozen waffle plant in Allentown, Pennsylvania, affecting 111 employees. We recorded a charge of \$10.8 million related to this closure, consisting mainly of \$3.9 million of employee severance and a \$6.2 million non-cash impairment charge against long-lived assets at the plant. We also completed an analysis of the viability of our Bakeries and Foodservice frozen dough facility in Trenton, Ontario, and decided to close the facility, affecting 470 employees. We recorded a \$9.8 million charge largely for employee severance expenses and curtailment charges associated with a defined benefit pension plan. These actions, including the anticipated timing of the disposition of the plants we will close, are expected to be completed by February 28, 2009. We also restructured our production scheduling and discontinued our cake product line at our Chanhassen, Minnesota Bakeries and Foodservice plant. These actions affected 125 employees, and we recorded a charge for employee severance of \$3.0 million. These actions are expected to be completed by the end of fiscal 2008.

Collectively, the charges we expect to incur with respect to these fiscal 2008 restructuring actions total approximately \$73.0 million, of which \$50.0 million is expected to be recognized in fiscal 2008. This includes a \$17.4 million non-cash charge related to accelerated depreciation on long-lived assets at our Trenton, Ontario plant. The accelerated depreciation charge is recorded in cost of sales in our Consolidated Statements of Earnings and in unallocated corporate expenses in our segment results.

During the nine-month period ended February 24, 2008, we sold our previously closed Vallejo, California plant and received \$10.6 million in proceeds.

24

---

### Table of Contents

In the nine-month period ended February 25, 2007, we sold our previously closed plant in San Adrian, Spain for proceeds of \$9.5 million. We also received net proceeds of \$11.7 million from the divestiture of our par-baked bread product line.

**Interest, net** for the nine-month period ended February 24, 2008, totaled \$331.8 million, a \$9.5 million increase from the same nine-month period last year. Average interest bearing instruments increased \$558.2 million leading to a \$26.1 million increase in net interest, while average interest rates decreased 30 basis points generating a \$16.6 million decrease in net interest. Average debt balances increased due to higher working capital requirements as well as to fund share repurchases.

The **effective tax rate** for the nine-month period ended February 24, 2008, was 34.0 percent compared to 35.2 percent for the same period of fiscal 2007. The 1.2 percentage point decrease in the effective tax rate is primarily the result of the favorable District Court decision referred to in the discussion of third quarter results.

**After-tax earnings from joint ventures** increased \$21.6 million from the nine-month period ended February 25, 2007, to \$79.7 million. Net sales for CPW increased 22.8 percent driven by higher volume, including 2.6 points of growth from the acquisition of Uncle Tobys. CPW recorded a gain related to a previously announced restructuring action, primarily related to the sale of a manufacturing facility during the third quarter. Our after-tax share of that net gain was \$11.3 million. In addition, CPW recorded new restructuring and impairment charges during the third quarter. Our after-tax share of those charges was \$3.1 million of expense. Net sales for our Häagen-Dazs ice cream joint ventures in Asia increased 4.1 percent driven by favorable foreign exchange. 8<sup>th</sup> Continent recorded a 2.3 percent net sales increase in the nine-month period. During the third quarter, the 8<sup>th</sup> Continent soy milk business was sold. Our 50 percent share of the after-tax gain on the sale was \$2.2 million of which \$1.7 million was recorded in the third quarter. We will record an additional gain in the first quarter of fiscal 2010 if certain conditions related to the sale are satisfied.

**Average diluted shares outstanding** decreased by 14.4 million in the nine-month period ended February 24, 2008, from the same period a year ago due primarily to the repurchase of 32.0 million shares of our common stock since the end of the third quarter of fiscal 2007, 23.8 million shares of which were purchased in the nine-month period of fiscal 2008, partially offset by the issuance of 14.3 million shares to settle the forward contract with Lehman Brothers, the issuance of shares upon stock option exercises, the issuance of annual stock awards, and the vesting of restricted stock units.

### SEGMENT OPERATING RESULTS

#### U.S. Retail Segment Results

## Edgar Filing: GENERAL MILLS INC - Form 10-Q

Net sales for our U.S. Retail operations grew 9.2 percent in the third quarter of fiscal 2008, to \$2,300.8 million. Net sales increased across all of our U.S. Retail divisions. Volume on a tonnage basis increased net sales by 7.8 percentage points. Net price realization and product mix drove 1.4 points of growth.

Net sales for our U.S. Retail operations were up 6.1 percent in the nine-month period ended February 24, 2008 to \$6,853.5 million. Volume on a tonnage basis increased net sales by 2.7 percentage points. Net price realization and product mix drove 3.4 points of growth.

25

### Table of Contents

#### U.S. Retail Net Sales Percentage Change by Division

	Quarter Ended	Nine-Month Period Ended
	Feb. 24, 2008	Feb. 24, 2008
Snacks	16.4 %	14.7 %
Baking Products	15.8	7.4
Yoplait	13.5	9.4
Pillsbury	8.0	3.5
Meals	7.5	4.5
Big G	3.1	3.7
Small Planet Foods	13.9	8.7
Total	9.2 %	6.1 %

During the third quarter of fiscal 2008, Snacks net sales grew 16.4 percent driven by continued strong sales for *Nature Valley* grain snacks, *Fiber One* bars, and fruit snacks. Baking Products net sales rose 15.8 percent due to significant volume growth. Yoplait recorded net sales growth of 13.5 percent, reflecting net price realization, continued strong performance from *Yoplait Light* yogurt, and introductory shipments of new products, including *Yo-Plus* and *Fiber One* yogurt. Pillsbury net sales increased 8.0 percent, driven by refrigerated dough products and *Totino's* pizza rolls. The Meals division recorded a 7.5 percent net sales increase, led by *Progresso* ready-to-serve soups and *Green Giant* frozen vegetables. Net sales for Big G cereals grew 3.1 percent, driven mainly by pricing and package size changes on established cereal brands led by *Cheerios* varieties and the *Fiber One* brand.

Operating profits for the third quarter of fiscal 2008 increased 8.8 percent to \$486.2 million from \$447.0 million in the same period a year ago. Volume growth increased operating profit by \$45.1 million. Increased supply chain costs of \$33.4 million and an 11.4 percent increase in consumer marketing expenses were offset by favorable net price realization and product mix.

Operating profits for the nine-month period ended February 24, 2008, improved 3.6 percent to \$1,543.3 million from \$1,489.9 million in the same period a year ago. Volume growth increased operating profit by \$50.5 million. Increased supply chain costs of \$129.3 million, and a 9.2 percent increase in consumer marketing expenses were more than offset by favorable net price realization and product mix. Voluntary product recalls reduced operating profits by \$21.9 million.

#### International Segment Results

Net sales for our International segment were up 20.2 percent in the third quarter of fiscal 2008 to \$612.8 million. This growth was driven by a 4.4 point increase in sales volume, 10.3 points of favorable foreign exchange, and 5.5 points of net price realization and product mix. Net sales were up 20.4 percent in the nine-month period ended February 24, 2008, to \$1,877.9 million. This growth was driven by a 7.0 point increase in sales volume, 8.8 points of favorable foreign exchange, and 4.6 points of net price realization and product mix. Net sales increased across all of our geographic regions.

#### International Net Sales Percentage Change by Geographic Region

# Edgar Filing: GENERAL MILLS INC - Form 10-Q

	Quarter Ended	Nine-Month Period Ended
	Feb. 24, 2008	Feb. 24, 2008
Europe	17.3 %	17.8 %
Canada	13.3	13.5
Asia/Pacific	30.0	23.9
Latin America and South Africa	27.0	36.1
Total	20.2 %	20.4 %

26

## Table of Contents

For the third quarter of fiscal 2008, net sales in Europe grew 17.3 percent reflecting strong performance from *Green Giant*, *Betty Crocker* and *Nature Valley*, especially in the United Kingdom. Net sales in Canada increased 13.3 percent primarily due to favorable foreign exchange. In the Asia/Pacific region, net sales grew 30.0 percent led by strong growth for *Häagen-Dazs* and *Wanchai Ferry* products in China. Latin America and South Africa net sales increased 27.0 percent reflecting pricing actions taken in key countries. The loss of our *La Salteña* pasta manufacturing plant in Argentina to fire in the third quarter of fiscal 2008 did not have a significant effect on net sales or operating profit.

Operating profits for the third quarter of fiscal 2008 improved 23.7 percent to \$52.2 million from \$42.2 million in the same period a year ago, with foreign currency exchange contributing 8.5 points of that growth. The growth was also driven by a \$5.8 million increase from higher volumes resulting from increases in consumer marketing spending. Net price realization offset supply chain and administrative cost increases.

Operating profits for the nine-month period ended February 24, 2008, improved 29.7 percent to \$207.5 million from \$160.0 million in the same period a year ago, with foreign currency exchange contributing 8.4 points of that growth. The growth was also driven by a \$33.7 million increase from higher volumes resulting from increases in consumer marketing spending. Net price realization offset supply chain and administrative cost increases.

## Bakeries and Foodservice Segment Results

Net sales for our Bakeries and Foodservice segment increased 12.8 percent to \$492.0 million in the third quarter of fiscal 2008. The increase in net sales was driven by a 12.8 point benefit from price increases taken to counter rising input costs and changes in product mix. Volume was flat including the effects of the frozen pie line divested in fiscal 2007.

Net sales for our Bakeries and Foodservice segment increased 6.5 percent to \$1,449.6 million in the nine-month period ended February 24, 2008. The increase in net sales was driven mainly by 8.5 points of benefit from net price realization and product mix. This was partially offset by a 2.0 point decline in volume, mainly in the distributors and restaurants customer channel, and included the effects of frozen pie and par-baked bread product lines divested in fiscal 2007.

## **Bakeries and Foodservice Net Sales Percentage Change by Customer Segment**

	Quarter Ended	Nine-Month Period Ended
	Feb. 24, 2008	Feb. 24, 2008
Distributors and restaurants	1.3 %	0.2 %
Bakery channels	29.8	14.5
Convenience stores and vending	2.6	4.3

Total	12.8 %	6.5 %
-------	--------	-------

Operating profits for the segment for the third quarter of fiscal 2008 were \$56.1 million, up from \$33.4 million in the third quarter of fiscal 2007. For the nine-month period ended February 24, 2008, operating profits for the segment were \$138.1 million, up from \$118.5 million in the same period a year ago. The increases for the quarter and nine-month period were largely driven by grain merchandising activities and benefits from prior restructuring activities, as net price realization offset higher input costs.

## Table of Contents

### Unallocated Corporate Items

For the third quarter, unallocated corporate items totaled \$105.9 million of income in the third quarter of fiscal 2008 compared to \$35.8 million of expense in the same period in fiscal 2007. We recorded net mark-to-market gains of \$87.2 million related to hedges on open commodity positions that will offset future input cost inflation, and \$64.0 million from the revaluation of our grain inventories to market.

For the nine-month period ended February 24, 2008, unallocated corporate items totaled \$26.0 million of income, compared to \$118.6 million of expense for the same period last year. We recorded net mark-to-market gains of \$99.3 million related to hedges on open commodity positions that will offset future input cost inflation and \$68.8 million from the revaluation of our grain inventories to market. We also recognized a previously deferred gain on the sale of a corporate investment of \$10.8 million in fiscal 2008. These items were partially offset by \$17.4 million of accelerated depreciation on long-lived assets associated with our previously announced restructuring action at our plant in Trenton, Ontario and \$10.9 million of costs related to the remarketing of the Class A and Series B-1 interests in GMC.

### LIQUIDITY

During the nine-month period ended February 24, 2008, our operations generated \$913.9 million of cash compared to \$1,151.0 million of cash in the same period last year. The \$237.1 million decrease in cash from operations was driven primarily by increased working capital (inventory and other current liabilities). Included in the increase in working capital is the \$151.2 million of mark-to-market gains on our commodity derivatives and revaluation of our grain inventory. In addition, cash taxes paid in fiscal 2008 increased \$101.8 million primarily driven by the increase in earnings in the nine-month period of fiscal 2008 versus the same period in fiscal 2007, and cash tax payments to settle various prior year income tax matters arising from IRS and related audits.

During the nine-month period ended February 24, 2008, inventory was a \$442.9 million use of cash, mainly due to inflation in commodity prices and higher levels of raw material inventories.

Cash used by investing activities decreased \$120.9 million from the nine-month period ended February 25, 2007. Last year's period included the acquisition of the Uncle Tobys business by our CPW joint venture. This was partially offset by increased purchases of land, buildings, and equipment of \$50.5 million in the nine-month period ended February 24, 2008 versus the same period last year.

Financing activities used \$446.9 million of cash in the nine-month period ended February 24, 2008. Net cash provided by notes payable was \$1,171.4 million. We used a significant amount of cash flows from notes payable to finance share repurchases and our repurchases of the Series B-1 interests in GMC and the Series A preferred stock of General Mills Capital, Inc. (GM Capital). We used the \$700.0 million proceeds from the issuance of long-term debt to reduce outstanding commercial paper balances. Also, during fiscal 2008, we received \$750.0 million as part of the settlement of a forward contract with Lehman Brothers and used the cash to reduce outstanding commercial paper balances.

On August 7, 2007, we repurchased for a net amount of \$843.0 million all of the outstanding Series B-1 Interests in GMC as part of a required remarketing of those interests. The purchase price reflected the Series B-1 Interests' original capital account balance of \$835.0 million and \$8.0 million of capital account appreciation attributable and paid to the third party holder of the Series B-1 Interests. The capital appreciation paid to the third party holder of the Series B-1 Interests was recorded as a reduction to retained earnings, a component of stockholders' equity, on the Consolidated Balance Sheets, and reduced net earnings available to common stockholders in our basic and diluted earnings per share (EPS) calculations.

## Edgar Filing: GENERAL MILLS INC - Form 10-Q

### Table of Contents

We and the third party holder of all of GMC's outstanding Class A limited membership interests (Class A Interests) agreed to reset, effective on June 28, 2007, the preferred rate of return applicable to the Class A Interests to the sum of 3 month LIBOR plus 65 basis points. On June 28, 2007, we sold \$92.3 million of additional Class A Interests to the same third party. There was no gain or loss associated with these transactions. As of February 24, 2008, the carrying value of all outstanding Class A Interests on our Consolidated Balance Sheets was \$242.3 million, and the capital account balance of the Class A Interests, upon which preferred distributions are calculated, was \$248.1 million.

On June 28, 2007, we repurchased for \$150.0 million all of the outstanding Series A preferred stock of our subsidiary GM Capital using proceeds from the sale of the Class A Interests and commercial paper. There was no gain or loss associated with this repurchase.

During the nine-month period ended February 24, 2008, we repurchased 23.8 million shares of common stock for \$1,380.6 million.

The Board of Directors approved the retirement of 125.0 million shares of common stock in treasury effective December 10, 2007. This action reduced common stock by \$12.5 million, reduced additional paid-in capital by \$5,068.3 million, and reduced common stock in treasury by \$5,080.8 million on our Consolidated Balance Sheets. In addition, on March 10, 2008, our Board of Directors approved a quarterly dividend of \$0.40 per share, payable on May 1, 2008, to shareholders of record on April 10, 2008. During the nine-month period ended February 24, 2008, we paid \$395.0 million in dividends compared to \$376.7 million in the same period last year.

### CAPITAL RESOURCES

Our capital structure was as follows:

In millions	Feb. 24, 2008	May 27, 2007
Notes payable	\$ 2,434.5	\$ 1,254.4
Current portion of long-term debt	1,578.0	1,734.0
Long-term debt	3,600.7	3,217.7
 Total debt	 7,613.2	 6,206.1
Minority interests	242.3	1,138.8
Stockholders' equity	5,926.8	5,319.1
 Total capital	 \$ 13,782.3	 \$ 12,664.0

Commercial paper is a continuing source of short-term financing. We issue commercial paper in the United States, Canada, and Europe. Our commercial paper borrowings are supported by fee-paid committed credit lines consisting of a \$1.9 billion facility expiring in October 2012 and a \$1.1 billion facility expiring in October 2010. As of February 24, 2008, we did not have any outstanding borrowings under these agreements.

On March 17, 2008, we completed the sale of \$750.0 million of 5.2 percent fixed-rate notes due March 17, 2015. The proceeds of the notes were used to repay outstanding commercial paper. Interest on the notes is payable semi-annually in arrears. The notes may be redeemed at our option at any time for a specified make-whole amount. The notes are senior unsecured, unsubordinated obligations and contain a change of control provision, as defined in the instruments governing the notes.

As of October 25, 2007, we terminated our credit agreement dated August 3, 2007, which provided an aggregate revolving commitment of \$750.0 million and was scheduled to expire on December 6, 2007.

On October 15, 2007, we and Lehman Brothers settled the forward contract established between the parties in October 2004 in conjunction with the issuance by Lehman Brothers of \$750.0 million of notes that were mandatorily exchangeable for shares of our common stock. In settlement of that forward contract, we issued 14.3 million shares of our common stock and received \$750.0 million in cash from Lehman Brothers. We used the cash received to reduce outstanding commercial paper balances.

Table of Contents

On October 9, 2007, we entered into a new five-year credit agreement with an initial aggregate revolving commitment of \$1.9 billion which is scheduled to expire in October 2012. As of February 24, 2008, we do not have any outstanding borrowings under this agreement or any other credit facility. Concurrent with the execution of the new credit agreement, we terminated our five-year credit agreement dated January 20, 2004, which provided \$750.0 million of revolving credit and was scheduled to expire in January 2009, and our amended and restated credit agreement dated October 17, 2006, which provided \$1.1 billion of revolving credit and was scheduled to expire in October 2007.

On August 29, 2007, we completed the sale of \$700.0 million of 5.65 percent fixed-rate notes due September 10, 2012. The proceeds of the notes were used to repay outstanding commercial paper. Interest on the notes is payable semi-annually in arrears. The notes may be redeemed at our option at any time for a specified make-whole amount. The notes are senior unsecured, unsubordinated obligations and contain a change of control provision, as defined in the instruments governing the notes.

Our credit facilities, certain of our long-term debt agreements, and our minority interests contain restrictive covenants. As of February 24, 2008, we were in compliance with all of these covenants.

We have \$1.6 billion of long-term debt maturing in the next 12 months and classified as current, including \$1.3 billion that may mature based on the put rights of the note holders. We also have classified \$146.4 million of long-term debt as current based on our intention to redeem the debt within the next 12 months. We believe that cash flows from operations, together with available short- and long-term debt financing, will be adequate to meet our liquidity and capital needs for at least the next 12 months.

We have an effective shelf registration statement on file with the Securities and Exchange Commission (SEC) covering the sale of debt securities, common stock, preference stock, depository shares, securities warrants, purchase contracts, purchase units, and units. As of February 24, 2008, \$3.0 billion remained available under the shelf registration for future use, and following the March 17, 2008 long-term debt issuance, the shelf registration for future use was reduced to \$2.2 billion.

OFF BALANCE-SHEET ARRANGEMENTS AND CONTRACTUAL OBLIGATIONS

There were no material changes outside the ordinary course of our business in our contractual obligations or off-balance-sheet arrangements during the nine-month period of fiscal 2008, except for a new data contract that we entered into in the first quarter of fiscal 2008. We have contractual obligations of \$158.4 million over the eight year life of this contract.

SIGNIFICANT ACCOUNTING ESTIMATES

Our significant accounting policies are described in Note 2 to the Consolidated Financial Statements included in our Annual Report on Form 10-K for the fiscal year ended May 27, 2007. The accounting policies used in preparing our interim fiscal 2008 Consolidated Financial Statements are the same as those described in our Form 10-K, except as discussed in Notes 6, 16, and 18 to our Consolidated Financial Statements for the quarterly and nine-month periods ended February 24, 2008.

Our significant accounting estimates are those that have meaningful impact on the reporting of our financial condition and results of operations. These estimates include our accounting for promotional expenditures, intangible assets, stock compensation, income taxes, and defined benefit pension, other postretirement, and postemployment benefits. Except for changes in these estimates as disclosed below, the assumptions and methodologies used in the determination of those estimates as of February 24, 2008, are the same as those described in our Annual Report on Form 10-K for the fiscal year ended May 27, 2007.

---

Table of Contents

Stock Compensation

We have various stock-based compensation programs under which awards, including stock options, restricted stock, and restricted stock units, may be granted to employees and non-employee directors. Stock option grants are made at 100 percent of the fair market value of our stock at the date of grant. These awards generally vest over four years and have a ten-year and one-month term. The expense recorded in our

## Edgar Filing: GENERAL MILLS INC - Form 10-Q

Consolidated Financial Statements is based on the fair value of the awards.

We estimate the fair value of each option on the grant date using the Black-Scholes option-pricing model, which requires us to make predictive assumptions regarding future stock price volatility, employee exercise behavior, and dividend yield. We estimate our future stock price volatility using the historical volatility over the expected term of the option, excluding time periods of volatility we believe a marketplace participant would exclude in estimating our stock price volatility. For the fiscal 2008 grants, we have excluded historical volatility for fiscal 2002 and prior, primarily because volatility driven by the acquisition of Pillsbury does not reflect what we believe to be expected future volatility. We also have considered, but did not use, implied volatility in our estimate, because trading activity in options on our stock, especially those with tenors of greater than 6 months, is insufficient to provide a reliable measure of expected volatility. Our method of selecting the other valuation assumptions is explained on pages 58 and 59 in our Annual Report on Form 10-K for the fiscal year ended May 27, 2007.

### Intangible Assets

Goodwill represents the difference between the purchase price of acquired companies and the related fair values of net assets acquired. Goodwill is not subject to amortization and is tested for impairment annually and whenever events or changes in circumstances indicate that impairment may have occurred. Impairment testing is performed for each of our reporting units. We compare the carrying value of a reporting unit, including goodwill, to the fair value of the unit. Carrying value is based on the assets and liabilities associated with the operations of that reporting unit, which often requires allocation of shared or corporate items among reporting units. If the carrying amount of a reporting unit exceeds its fair value, we revalue all assets and liabilities of the reporting unit, excluding goodwill, to determine if the fair value of the net assets is greater than the net assets including goodwill. If the fair value of the net assets is less than the net assets including goodwill, impairment has occurred. Our estimates of fair value are determined based on a discounted cash flow model. Growth rates for sales and profits are determined using inputs from our annual long-range planning process. We also make estimates of discount rates, perpetuity growth assumptions, market comparables, and other factors. We periodically engage third-party valuation consultants to assist in this process.

Finite and indefinite-lived assets, primarily intangible assets associated with the *Pillsbury*, *Totino's*, *Progreso*, *Green Giant*, *Old El Paso* and *Häagen-Dazs* brands, are also tested for impairment annually and whenever events or changes in circumstances indicate that their carrying value may not be recoverable. In the third quarter of fiscal 2008, we completed our fiscal 2008 annual assessment of our brand intangibles as of December 1, 2007. Our estimate of the fair value of the brands was based on a discounted cash flow model using inputs which included: (1) projected revenues from our annual long-range plan; (2) assumed royalty rates which could be payable if we did not own the brands; and (3) a discount rate. All brand intangibles had fair values in excess of their carrying values by at least 20 percent, except for the *Pillsbury* brand, which we estimated had a fair value that was three percent higher than its carrying value. This brand comprises nearly one-half of our total indefinite-lived intangible assets.

---

### Table of Contents

If the growth rate for the global revenue from all uses of the *Pillsbury* brand decreases 50 basis points from the current planned growth rate, fair value of the brand would be reduced by approximately \$150 million, assuming all other components of the fair value estimate remain unchanged. If the assumed royalty rate for all uses of the *Pillsbury* brand decreases by 50 basis points, fair value of the brand would be reduced by approximately \$130 million, assuming all other components of the fair value estimate remain unchanged. If the applicable discount rate increases by 50 basis points, fair value of the *Pillsbury* brand would be reduced by approximately \$170 million, assuming all other components of the fair value estimate remain unchanged.

### Income Taxes

We adopted the provisions of Financial Accounting Standards Board (FASB) Interpretation (FIN) No 48, *Accounting for Uncertainty in Income Taxes* an Interpretation of FASB Statement No. 109 (FIN 48), as of the beginning of fiscal 2008. Prior to adoption, our policy was to establish reserves that reflected the probable outcome of known tax contingencies. The effects of final resolution, if any, were recognized as changes to the effective income tax rate in the period of resolution. FIN 48 requires application of a more likely than not threshold to the recognition and derecognition of uncertain tax positions. FIN 48 permits us to recognize the amount of tax benefit that has a greater than 50 percent likelihood of being ultimately realized upon settlement. It further requires that a change in judgment related to the expected ultimate resolution of uncertain tax positions be recognized in earnings in the quarter of such change.

Annually we file more than 350 income tax returns in approximately 100 global taxing jurisdictions. A number of years may elapse before an uncertain tax position is audited and finally resolved. While it is often difficult to predict the final outcome or the timing of resolution of any particular uncertain tax position, we believe that our reserves for income taxes reflect the most likely outcome. We adjust these reserves, as well

as the related interest, in light of changing facts and circumstances. Settlement of any particular position would usually require the use of cash.

The number of years with open tax audits varies depending on the tax jurisdiction. Our major taxing jurisdictions include the United States (federal and state) and Canada. With one exception, we are no longer subject to United States federal examinations by the IRS for fiscal years before 2002. During the third quarter of fiscal 2008, we received a favorable District Court decision on an uncertain tax matter related to the fiscal years prior to 2002 and reduced our liability for uncertain tax positions by \$19.8 million. The IRS has appealed the District Court decision, and accordingly, its ultimate resolution is subject to change. During the third quarter we also concluded various matters for fiscal years 1998-2001 which included a payment of \$31.7 million. The IRS recently concluded field examinations for our 2002 and 2003 fiscal years. A payment of \$24.8 million was made during the first quarter of fiscal 2008 to cover the additional tax liability plus interest related to all agreed adjustments for this audit cycle. The IRS also proposed additional adjustments for the 2002-2003 audit cycle including several adjustments to the tax benefits associated with the sale of minority interests in our GMC subsidiary. We believe we have meritorious defenses and intend to vigorously defend our position. Our potential liability for this matter is significant and, notwithstanding our reserves against this potential liability, an unfavorable resolution could have a material adverse impact on our results of operations and cash flows from operations. We do not expect the amount of our tax reserves for these issues to change in the next 12 months. The IRS initiated its audit of our fiscal 2004 through 2006 tax years during the first quarter of fiscal 2008.

Various tax examinations by United States state taxing authorities could be conducted for any open tax year, which vary by jurisdiction, but are generally from 3 to 5 years. Currently, several state examinations are in progress. The Canada Revenue Agency is conducting an audit of our income tax returns in Canada for fiscal years 2003 (which is our earliest tax year still open for examination) through 2005. We do not anticipate that any United States state tax or Canadian tax adjustments will have a significant impact on our financial position or results of operations.

RECENTLY ISSUED ACCOUNTING PRONOUNCEMENTS

In December 2007, the FASB approved the issuance of Statement of Financial Accounting Standards (SFAS) No. 141 (revised 2007) Business Combinations (SFAS 141R). SFAS 141R establishes principles and requirements for how the acquirer in a business combination recognizes and measures in its financial statements the identifiable assets acquired, the liabilities assumed, and any controlling interest; recognizes and measures the goodwill acquired in the business combination or a gain from a bargain purchase; and determines what information to disclose to enable users of the financial statements to evaluate the nature and financial effects of the business combination. SFAS 141R applies to business combinations for which the acquisition date is on or after December 15, 2008. We are evaluating the impact of SFAS 141R on our results of operations and financial condition.

In December 2007, the FASB approved the issuance of SFAS No. 160 Noncontrolling Interests in Consolidated Financial Statements an amendment to ARB No. 51 (SFAS 160). SFAS 160 establishes accounting and reporting standards that require the ownership interest in subsidiaries held by parties other than the parent be clearly identified and presented in the Consolidated Balance Sheets within equity, but separate from the parent's equity; the amount of consolidated net income attributable to the parent and the noncontrolling interest be clearly identified and presented on the face of the Consolidated Statement of Earnings; and changes in a parent's ownership interest while the parent retains its controlling financial interest in its subsidiary be accounted for consistently. This statement is effective for fiscal years beginning on or after December 15, 2008, which for us is the first quarter of fiscal 2010. We are evaluating the impact of SFAS 160 on our results of operations and financial condition.

In June 2007, the FASB approved the issuance of Emerging Issues Task Force Issue (EITF) No. 07-3, Accounting for Nonrefundable Advance Payments for Goods or Services Received for Use in Future Research and Development Activities (EITF 07-3). EITF 07-3 requires that nonrefundable advance payments for future research and development activities for materials, equipment, facilities, and purchased intangible assets that have an alternative future use be recognized in accordance with SFAS No. 2, Accounting for Research and Development Costs. EITF 07-3 is effective for fiscal years beginning after December 15, 2007, which for us is the first quarter of fiscal 2009. We are evaluating the impact of EITF 07-3 on our results of operations and financial condition.

In June 2007, the FASB approved the issuance of EITF No. 06-11, Accounting for Income Tax Benefits of Dividends on Share-Based Payment Awards (EITF 06-11). EITF 06-11 requires that tax benefits from dividends paid on unvested restricted shares be charged directly to stockholders' equity instead of benefiting income tax expense. EITF 06-11, which will be effective for us in the first quarter of fiscal 2009, is expected to increase our effective income tax rate by approximately 20 basis points.

## Edgar Filing: GENERAL MILLS INC - Form 10-Q

In February 2007, the FASB issued SFAS No. 159, *The Fair Value Option for Financial Assets and Financial Liabilities Including an Amendment of SFAS No. 115* (SFAS 159). This statement provides companies with an option to measure, at specified election dates, many financial instruments and certain other items at fair value that are not currently measured at fair value. A company that adopts SFAS 159 will report unrealized gains and losses on items for which the fair value option has been elected in earnings at each subsequent reporting date. This statement also establishes presentation and disclosure requirements designed to facilitate comparisons between entities that choose different measurement attributes for similar types of assets and liabilities. This statement is effective for fiscal years beginning after November 15, 2007, which for us is the first quarter of fiscal 2009. We are evaluating the impact of SFAS 159 on our results of operations and financial condition.

33

---

### Table of Contents

In September 2006, the FASB issued SFAS No. 157, *Fair Value Measurements* (SFAS 157). This statement provides a single definition of fair value, a framework for measuring fair value, and expanded disclosures concerning fair value. Previously, different definitions of fair value were contained in various accounting pronouncements creating inconsistencies in measurement and disclosures. SFAS 157 applies under those previously issued pronouncements that prescribe fair value as the relevant measure of value, except SFAS 123R and related interpretations and pronouncements that require or permit measurement similar to fair value but are not intended to measure fair value. For financial assets and liabilities, this pronouncement is effective for fiscal years beginning after November 15, 2007, which for us is the first quarter of fiscal 2009. For non-financial assets and liabilities, it is effective for fiscal years beginning after November 15, 2008, which for us is the first quarter of fiscal 2010. We are evaluating the impact of SFAS 157 on our results of operations and financial condition.

### NON-GAAP MEASURES

We have included in this MD&A a measure of financial performance that is not defined by GAAP. This non-GAAP measure should be viewed in addition to, and not in lieu of, the comparable GAAP measure.

### Total Segment Operating Profit

This non-GAAP measure is used in internal management reporting and as a component of the Board of Directors' rating of our performance for management and employee incentive compensation. Management and the Board of Directors believe that this measure provides useful information to investors because it is the profitability measure we use to evaluate segment performance. A reconciliation of this measure to the relevant GAAP measure, operating profit, is included in Note 17 to the Consolidated Financial Statements included in this Form 10-Q.

### GLOSSARY

**Derivatives.** Financial instruments such as futures, swaps and forward contracts that we use to manage our risk arising from changes in commodity prices, interest rates, foreign exchange rates, and stock prices.

**Generally Accepted Accounting Principles (GAAP).** Guidelines, procedures, and practices that we are required to use in recording and reporting accounting information in our published financial statements.

**Goodwill.** The difference between the purchase price of acquired companies and the related fair values of net assets acquired.

**Hedge accounting.** Special accounting for qualifying hedges that allows changes in a hedging instrument's fair value to offset corresponding changes in the hedged item in the same reporting period. Hedge accounting is permitted for certain hedging instruments and hedged items, only if the hedging relationship is highly effective, and only prospectively from the date a hedging relationship is formally documented.

**Interest bearing instruments.** Notes payable, long-term debt, including current portion, minority interests, cash and cash equivalents and certain interest bearing investments classified within prepaid expenses and other current assets and other assets.

**LIBOR.** London Interbank Offered Rate.

**Mark-to-market.** The act of determining a value for financial instruments, commodity contracts, and related assets or liabilities based on the current market price for that item.

**Minority interests.** Preferred stock and interests of subsidiaries held by third parties.

**Net mark-to-market gains related to hedges on open commodity positions.** Realized and unrealized gains and losses on derivative contracts that will be allocated to segment operating profit when the exposure we are hedging affects earnings.

---

Table of Contents

**Net price realization.** The impact of list and promoted price increases, net of trade and other promotion costs.

**Total debt.** Notes payable and long-term debt, including current portion.

**CAUTIONARY STATEMENT RELEVANT TO FORWARD-LOOKING INFORMATION FOR THE PURPOSE OF SAFE HARBOR PROVISIONS OF THE PRIVATE SECURITIES LITIGATION REFORM ACT OF 1995**

This report contains or incorporates by reference forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995 that are based on our management's current expectations and assumptions. We also may make written or oral forward-looking statements, including statements contained in our filings with the SEC and in our reports to stockholders.

The words or phrases "will likely result," "are expected to," "will continue," "is anticipated," "estimate," "plan," "project" or similar expressions identify forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. Such statements are subject to certain risks and uncertainties that could cause actual results to differ materially from historical results and those currently anticipated or projected. We wish to caution you not to place undue reliance on any such forward-looking statements.

In connection with the safe harbor provisions of the Private Securities Litigation Reform Act of 1995, we are identifying important factors that could affect our financial performance and could cause our actual results in future periods to differ materially from any current opinions or statements.

Our future results could be affected by a variety of factors, such as: competitive dynamics in the consumer foods industry and the markets for our products, including new product introductions, advertising activities, pricing actions, and promotional activities of our competitors; economic conditions, including changes in inflation rates, interest rates, or tax rates; product development and innovation; consumer acceptance of new products and product improvements; consumer reaction to pricing actions and changes in promotion levels; acquisitions or dispositions of businesses or assets; changes in capital structure; changes in laws and regulations, including labeling and advertising regulations; impairments in the carrying value of goodwill, other intangible assets, or other long-lived assets, or changes in the useful lives of other intangible assets; changes in accounting standards and the impact of significant accounting estimates; product quality and safety issues, including recalls and product liability; changes in customer demand for our products; effectiveness of advertising, marketing, and promotional programs; changes in consumer behavior, trends, and preferences, including weight loss trends; consumer perception of health-related issues, including obesity; consolidation in the retail environment; changes in purchasing and inventory levels of significant customers; fluctuations in the cost and availability of supply chain resources, including raw materials, packaging, and energy; disruptions or inefficiencies in the supply chain; volatility in the market value of derivatives used to hedge price risk for certain commodities; benefit plan expenses due to changes in plan asset values and discount rates used to determine plan liabilities; failure of our information technology systems; resolution of uncertain income tax matters; foreign economic conditions, including currency rate fluctuations; and political unrest in foreign markets and economic uncertainty due to terrorism or war.

You should also consider the risk factors that we identify on pages 5 through 10 of our Annual Report on Form 10-K for the fiscal year ended May 27, 2007, which could also affect our future results.

We undertake no obligation to publicly revise any forward-looking statements to reflect events or circumstances after the date of those statements or to reflect the occurrence of anticipated or unanticipated events.

---

Table of Contents

## Edgar Filing: GENERAL MILLS INC - Form 10-Q

### Item 3. Quantitative and Qualitative Disclosures About Market Risk.

Our market risks have changed during the nine-month period ended February 24, 2008, as follows: (1) a \$0.6 million increase in commodity risk due to more volatile commodity markets, longer coverage, and higher commodity prices; and (2) a \$4.6 million increase in interest rate risk due to more volatile markets and new interest rate swaps totaling \$500.0 million executed during the third quarter of fiscal 2008. For additional information, see Item 7A of our Annual Report on Form 10-K for the fiscal year ended May 27, 2007.

### Item 4. Controls and Procedures.

We, under the supervision and with the participation of our management, including our Chief Executive Officer and Chief Financial Officer, have evaluated the effectiveness of the design and operation of our disclosure controls and procedures (as defined in Rule 13a-15(e) under the Securities Exchange Act of 1934). Based on that evaluation, our Chief Executive Officer and Chief Financial Officer have concluded that, as of February 24, 2008, our disclosure controls and procedures were effective to ensure that information required to be disclosed by us in reports that we file or submit under the Securities Exchange Act of 1934 is (1) recorded, processed, summarized, and reported within the time periods specified in SEC rules and forms, and (2) accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer, in a manner that allows timely decisions regarding required disclosure.

There were no changes in our internal control over financial reporting (as defined in Rule 13a-15(f) under the Securities Exchange Act of 1934) during our fiscal quarter ended February 24, 2008, that materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

## Part II. OTHER INFORMATION

### Item 2. Unregistered Sales of Equity Securities and Use of Proceeds.

The following table sets forth information with respect to shares of our common stock that we purchased during the fiscal quarter ended February 24, 2008.

Period	Total Number of Shares Purchased (a)	Average Price Paid Per Share	Total Number of Shares Purchased as Part of a Publicly Announced Program (b)	Maximum Number of Shares that may yet be Purchased Under the Program (b)
Nov. 26, 2007- Dec. 30, 2007	199,305	\$ 59.08	199,305	45,463,257
Dec. 31, 2007- Jan. 27, 2008	30,254	\$ 55.31	30,254	45,433,003
Jan. 28, 2008- Feb. 24, 2008	2,564,394	\$ 54.86	2,564,394	42,868,609
Total	2,793,953	\$ 55.17	2,793,953	42,868,609

- (a) The total number of shares purchased includes: (i) 78,193 shares purchased from the ESOP fund of our 401(k) savings plan; and (ii) 176,874 shares of restricted stock withheld for the payment of withholding taxes upon vesting of restricted stock. These amounts include 207 shares acquired at an average price of \$56.90 for which settlement occurred after February 24, 2008.

## Edgar Filing: GENERAL MILLS INC - Form 10-Q

- (b) On December 11, 2006, our Board of Directors approved and we announced an authorization for the repurchase of up to 75,000,000 shares of our common stock. Purchases can be made in the open market or in privately negotiated transactions, including the use of call options and other derivative instruments, Rule 10b5-1 trading plans, and accelerated repurchase programs. The Board did not specify an expiration date for the authorization.
