FOR IMMEDIATE RELEASE

UNIVERSAL STAINLESS REPORTS RECORD SALES AND EARNINGS FOR THIRD QUARTER 2006
- EPS REACHES \$0.86 ON \$55 MILLION IN SALES -

BRIDGEVILLE, PA, OCTOBER 19, 2006 - UNIVERSAL STAINLESS & ALLOY PRODUCTS, INC. (NASDAQ: USAP) reported today that net income for the third quarter of 2006 rose 73% to a record \$5.7 million, or \$0.86 per diluted share, on a 28% increase in sales, which reached a record \$55.1 million. This compares with net income of \$3.3 million, or \$0.51 per diluted share, and sales of \$43.1 million reported in the third quarter of 2005.

Third quarter 2006 results exceeded the Company's forecast of diluted EPS of \$0.65 to \$0.70 and sales of \$45 to \$50 million.

Net income for the nine-month period ended September 30, 2006 rose 50% to a record \$14.2 million, or \$2.15 per diluted share, on a 16% increase in sales, which reached a record \$148.1 million. In the prior year period net income was \$9.5 million, or \$1.47 per diluted share, and sales were \$128.0 million.

President and CEO Mac McAninch commented: "Continued robust aerospace demand, coupled with strong petrochemical and power generation markets, enabled us to achieve record results for the third quarter of 2006. Sales were further accelerated by the rapid increase in the cost of nickel, a major component of stainless steel, which increased the prices of our products due to the effect of the surcharge mechanism. Our Dunkirk operation also benefited from continued workforce additions, the timing of feedstock procurement and effective cost management. As a result, Dunkirk's sales reached \$20 million and its operating margin rose to a record 19% of sales."

USAP REPORTS RECORD 2006 THIRD QUARTER RESULTS

- PAGE 2 -

Mr. McAninch continued: "Our investment in a sixth vacuum—arc remelt (VAR) furnace and the addition of milling machines and a plate flattener in Bridgeville enabled us to take advantage of our market opportunity and work down some of our substantial backlog. We completed installation of a seventh VAR furnace ahead of schedule this summer and expect to see a full-quarter benefit in the first quarter of 2007."

Mr. McAninch concluded: "We remain optimistic about the balance of the year even though we expect to see the normal seasonal patterns come into play in December and have developed our forecast accordingly. We see favorable conditions in our end markets continuing into 2007 and beyond."

SEGMENT REVIEW

In the third quarter of 2006, the Universal Stainless & Alloy Products segment had record sales of \$47.2 million and operating income of \$4.0 million, yielding an operating margin of 9%. This compares with third quarter 2005 sales of \$40.0 million and operating income of \$4.0 million, or 10% of sales. In the second quarter of 2006, sales were \$45.7 million and operating income was \$5.8 million, or 13% of sales. The reduction in operating margin in the 2006 third quarter is primarily due to higher material costs incurred in comparison to prior quarters.

The 18% increase in sales from the 2005 third quarter reflects the contribution of the new vacuum—arc remelt furnace installed in December 2005 and additional milling machines and a plate flattener added in the 2006 first quarter. It also was due to higher product prices and a favorable product mix, including growth in shipments to forgers and of bar and plate products to service centers and OEMs. The 3% sales increase over the 2006 second quarter mainly reflected increased shipments of semi-finished product to rerollers and forgers and of bar products to service centers offset by lower shipments of tool steel plate to service centers.

The Dunkirk Specialty Steel segment reported record sales for the 2006 third quarter of \$19.8 million and record operating income of \$3.8 million, resulting in an operating margin of 19%. This compares with sales of \$14.0 million and operating income of \$1.8 million, or 13% of sales, in the third quarter of 2005. In the second quarter of 2006 sales were \$16.2 million and operating income of \$2.3 million, resulting in an operating margin of 14%.

USAP REPORTS RECORD 2006 THIRD QUARTER RESULTS

- PAGE 3 -

Dunkirk's sales increased 42% over the 2005 third quarter and 23% over the 2006 second quarter. Operating income increased 117% from the prior year third quarter and rose 69% from the 2006 second quarter. The growth in sales and profitability was due to the previously mentioned factors, including the effect of the surcharge mechanism, workforce additions that helped increase throughput and effective cost management. In addition to increased sales to service centers and OEMs in the 2006 third quarter, Dunkirk's sales to redrawers rose substantially from the previous quarter due to a large shipment of rod product requiring special chemistry.

BUSINESS OUTLOOK

The following statements are based on the Company's current expectations. These statements are forward-looking, and actual results may differ materially.

The Company estimates that fourth quarter 2006 sales will range from \$45\$ to \$50 million and that diluted EPS will range from \$0.70\$ to \$0.75. This compares with sales of \$42.0 million and diluted EPS of \$0.55 in the fourth quarter of 2005.

The following factors were considered in developing these estimates:

- o The Company's total backlog at September 30, 2006 remained at high levels, approximating \$124 million compared to \$128 million at June 30, 2006.
- o Despite continued strong end market demand, the Company expects normal year-end plant closings and inventory adjustments by its customers as well as trucking constraints to impact its sales company-wide. In line with this, sales from the Dunkirk Specialty Steel segment are expected to approximate \$17 million in the fourth quarter of 2006.

WEBCAST

A simultaneous Webcast of the Company's conference call discussing the third quarter of 2006 and the fourth quarter outlook, scheduled at 10:00 a.m. (Eastern) today, will be available on the Company's website at www.univstainless.com, and thereafter archived on the website. A telephone replay of the conference call will be available beginning at 12:00 noon (Eastern) today and continuing through October 26th. It can be accessed by dialing 706-645-9291, passcode 7722080. This is a toll call.
