Item 7.01 Regulation FD Disclosure

On November 29, 2016, Healthcare Realty Trust Incorporated (the “Company”) entered into definitive agreements to sell three inpatient rehabilitation facilities for an aggregate sale price of approximately \$68.1 million. The sale of the properties is expected to close in December 2016.

Total dispositions for 2016 are expected to be approximately \$93.0 million at an average capitalization rate of 8.2%, including the three inpatient rehabilitation facilities at an average capitalization rate of 7.6%. The Company’s dispositions in 2016 reflect its continued shift towards outpatient, multi-tenanted properties on leading hospital campuses. In 2006, MOB/outpatient facilities and multi-tenant properties comprised 72% and 55%, respectively, of the Company’s portfolio. Following the sale of the three inpatient rehabilitation facilities, MOB/outpatient facilities and multi-tenant properties will comprise 91% and 84%, respectively.

The Company expects to reinvest the proceeds from the sale of the three facilities in lower-risk, on-campus, multi-tenanted medical office buildings at capitalization rates ranging from 5.5% to 6.0%. The Company anticipates reinvesting the majority of the proceeds by the end of the first quarter of 2017. FFO dilution is expected to be minimal in the fourth quarter and approximately \$0.01 per share in the first quarter. Once the proceeds are fully reinvested FFO dilution is estimated to be approximately \$0.01 per share per year.
