PROXY STATEMENT
FOR 2013 ANNUAL MEETING OF SHAREHOLDERS

PROCEDURAL MATTERS

General

The enclosed proxy is solicited by and on behalf of the Board of Directors of Daktronics, Inc., a South Dakota corporation, for use at our Annual Meeting of Shareholders to be held on Wednesday, August 21, 2013 at Daktronics, Inc., 201 Daktronics Drive, Brookings, South Dakota at 7:00 p.m. Central Daylight Time, and at any adjournment or postponement thereof (the “Annual Meeting”), for the purposes set forth herein and in the accompanying Notice of Annual Meeting of Shareholders. This Proxy Statement and the accompanying form of proxy, together with our fiscal year 2013 Annual Report to Shareholders, are being made available to shareholders on the Internet or are being mailed on or about July 8, 2013 to all shareholders entitled to vote at the Annual Meeting.

In this Proxy Statement, “Daktronics”, “Company”, “registrant”, “we”, “us” and “our” refer to Daktronics, Inc.

Shareholders Entitled to Vote; Record Date

Only shareholders of record at the close of business on June 24, 2013 (the “Record Date”) are entitled to notice of and to vote at the meeting. As of the Record Date, there were 42,497,499 shares of our common stock outstanding and entitled to vote held by 1,293 shareholders of record.

Notice of Internet Availability of Proxy Materials

We are making proxy materials for the Annual Meeting available over the Internet. Therefore, we are mailing to the majority of our shareholders a notice about the Internet availability of the proxy materials instead of a paper copy of the proxy materials. The notice is entitled “Notice of Internet Availability of Proxy Materials.” All shareholders receiving the notice will have the ability to access the proxy materials over the Internet and to request to receive a paper copy of the proxy materials by mail. Instructions on how to access the proxy materials over the Internet or to request a paper copy may be found on the notice. Our proxy materials may also be accessed on our website at <http://www.daktronics.com> by selecting “Investors” and then “Annual Report and Proxy” under “Shareholder Tools.” We are providing some of our shareholders, including shareholders who have previously requested to receive paper copies of the proxy materials, with paper copies of the proxy materials instead of the Notice of Internet Availability of Proxy Materials.

Voting at the Annual Meeting; Vote Requirements

The holders of a majority of the shares of common stock issued and outstanding and entitled to vote at the Annual Meeting, present in person or represented by proxy, will constitute a quorum for the transaction of business. If a quorum is not present, the Annual Meeting may be adjourned from time to time until a quorum is present. Abstentions and broker non-votes will be treated as shares that are present and entitled to vote for purposes of determining the presence of a quorum. Each share is entitled to one vote on all matters submitted to a vote. However, with respect to the election of Directors, every shareholder will have the right to cast a number of votes equal to the number of Directors to be elected at the Annual Meeting multiplied by the number of shares the shareholder is entitled to vote. Shareholders may cast all votes for one nominee or divide the votes as they choose among two or three nominees. Shares abstaining will be treated as not voted.

A plurality of the votes cast is required for the election of Directors. This means that the Director nominee with the most votes for a particular slot is elected for that slot. Only votes “for” or “withheld” affect the outcome. Abstentions are

not counted for purposes of the election of Directors. The affirmative vote of a majority of the shares of common stock represented at the Annual Meeting, either in person or by proxy, assuming a quorum is present, is required to approve any of the other proposals. If an executed proxy is returned and the shareholder has abstained from voting on any matter, the shares represented by such proxy will be considered present at the Annual Meeting for purposes of determining a quorum and for purposes of calculating the vote, but they will not be considered to have been voted in favor of such matter. If a signed proxy is returned by a broker holding shares in "street name," and it indicates that the broker does not have discretionary authority to vote certain shares on one or more matters, such shares will be considered present at the Annual Meeting for purposes of determining a quorum but will not be considered to be represented at the Annual Meeting for purposes of calculating the vote with respect to such matter.

Counting Votes

The inspector of election appointed for the meeting will count the votes cast by proxy or in person at the Annual Meeting.

Brokers who hold shares in street name for customers will not be able to vote the shares without instructions from their customers with respect to any of the proposals, other than the proposal to ratify the selection of our auditors (Proposal Four of this Proxy Statement). Shares for which brokers have not received instructions, and which therefore are not voted, with respect to a particular proposal are

Table of Contents

referred to as “broker non-votes” with respect to that proposal. Abstentions from voting on a proposal described in this proxy statement and broker non-votes will not affect the outcome of the vote on that proposal.

How Votes are Submitted

If the shares of our common stock are held directly in the name of the shareholder, he or she can vote on matters to come before the meeting:

- by completing, dating and signing the proxy card and returning it to us in the postage-paid envelope provided for that purpose, if the shareholder has received a paper copy of a proxy card;
- by written ballot at the meeting;
- by telephone, by calling 1-800-690-6903; or
- by Internet, at <http://www.proxyvote.com>.

Shareholders whose shares of our common stock are held in “street name” must either direct the record holder of their shares as to how to vote their shares of common stock or obtain a proxy from the record holder to vote at the meeting. “Street name” shareholders should check the voting instruction cards used by their brokers or nominees for specific instructions on methods of voting, including by telephone or using the Internet.

Participants in the Daktronics, Inc. 401(k) Plan (the “401(k) Plan”) who hold our common stock in the 401(k) Plan are entitled to instruct the trustee of the 401(k) Plan as to how to vote their shares. Each participant will receive a Notice of Internet Availability of Proxy Materials, similar to the Notice received by the registered holders described above. Each participant will have the ability to access the proxy materials over the Internet and request to receive a paper copy of the proxy materials by mail. Instructions on how to access the proxy materials over the Internet or to request a paper copy may be found on the notice as described above. The participants can vote on matters as described above. The votes will then be tabulated and submitted for vote by the trustee. If a participant does not timely vote, the trustee will vote the shares allocated to that participant in the same proportion as the shares that are voted by all other participants under the 401(k) Plan.

Proxies

All shares entitled to vote and represented by properly submitted proxies received before the Annual Meeting will be voted at the Annual Meeting in accordance with the instructions indicated on those proxies if they are not revoked before the vote as described below. If no instructions are indicated on a properly submitted proxy, the shares represented by that proxy will be voted as recommended by the Board of Directors. If any other matters are properly presented for consideration at the Annual Meeting, the proxy holders will have discretion to vote on those matters in accordance with their best judgment.

Revocability of Proxies

Any proxy given pursuant to this solicitation may be revoked by the person giving it at any time before it is voted. A proxy may be revoked by:

- delivering a written notice of revocation to the Secretary of the Company;
- submitting another proxy bearing a later date;
- voting by telephone or via the Internet after a prior telephone or Internet vote; or
- attending the Annual Meeting and voting in person (although attendance at the Annual Meeting alone will not itself revoke a proxy).

Expenses of Solicitation

All expenses of this solicitation, including the cost of preparing and mailing this Proxy Statement, will be borne by us. We may reimburse brokerage firms, custodians, nominees, fiduciaries and other persons representing beneficial

owners of stock for their reasonable expenses in forwarding solicitation material to such beneficial owners. Our Directors, officers and employees may also solicit proxies in person or by telephone, e-mail, letter or facsimile. Such Directors, officers and employees will not be additionally compensated, but they may be reimbursed for reasonable out-of-pocket expenses in connection with such solicitation.

Procedure for Submitting Shareholder Proposals

Shareholders may present proper proposals for inclusion in our proxy materials for consideration at the next annual meeting of our shareholders by submitting their proposals to us in a timely manner. In order to be included in our proxy materials for the next annual meeting, shareholder proposals must be received by us no later than March 10, 2014 and must otherwise comply with the requirements of Rule 14a-8 under the Securities Exchange Act of 1934. If a shareholder wants to nominate a Director or bring other business before the shareholders at the next annual meeting of our shareholders without including the proposal in our proxy statement, we must receive notice of the proposal on or before May 24, 2014, and the shareholder must otherwise comply with Rule 14a-4(c) under the Securities Exchange Act of 1934. Notices of intention to present proposals at the 2014 annual meeting of shareholders should be addressed to Corporate Secretary, Daktronics, Inc., 201 Daktronics Drive, Brookings, South Dakota 57006.

Table of Contents

At the date of this Proxy Statement, management knows of no other business that may properly come before the Annual Meeting. However, if any other matters properly come before the Annual Meeting, the individuals named in enclosed form of the proxy will vote the proxies received in response to this solicitation in accordance with their best judgment on such matters.

PROPOSAL TWO

APPROVE AN AMENDMENT TO OUR AMENDED AND RESTATED ARTICLES OF INCORPORATION TO REDUCE THE MINIMUM NUMBER OF DIRECTORS FROM NINE TO SEVEN

Background of Proposal

The purpose of this proposed amendment to our Articles is to change the minimum number of directors on our Board from nine to seven, to allow more flexibility in the structure of the Board.

For most of the company's history, the Board of Directors has consisted of 6 independent directors and 3 nonindependent directors. This amendment would allow the Board to reduce the number of nonindependent directors in the future if appropriate.

The Board of Directors has amended the Bylaws to require a minimum of seven directors, conditioned upon approval by the shareholders of this proposed amendment to the Articles.

The Board of Directors will continue to follow rules promulgated by the NASDAQ Stock Market and the Securities and Exchange Commission regarding Board structure and governance and director independence.

The Board of Directors and the executive team support this amendment and recommend approval to the shareholders.

Vote Required

Approval of this proposal requires the affirmative vote of a majority of the votes entitled to vote at the Annual Meeting assuming a quorum is present.

The Board of Directors recommends a vote "FOR" the approval of the Amendment to our Amended and Restated Articles of Incorporation.

PROPOSAL THREE

ADVISORY (NON-BINDING) VOTE ON THE COMPENSATION PAID
TO OUR NAMED EXECUTIVE OFFICERS

The foundation of our executive compensation program is to pay for performance. Base compensation for our executive officers is set relatively low as compared to our peer groups, and a meaningful portion of the compensation paid to our executive officers is based on long-term equity incentive compensation and annual non-equity incentive compensation, which is focused on the key results and strategic drivers of our business. We believe that our executive compensation program aligns our incentive compensation with the long-term interests of our shareholders because it is designed to motivate our executives to deliver long-term sustainable growth and shareholder value and to provide retention incentives.

Our Chief Executive Officer (“CEO”) and all of the other executive officers named in the Summary Compensation Table appearing later in this proxy statement (collectively, the “Named Executive Officers”) are subject to at-will employment consistent with state law. There are no specific employment agreements in place with any of the Named Executive Officers. We also do not maintain any supplemental executive retirement plans for our executive officers, and our Named Executive Officers participate in a retirement program that is open to all of our U.S. employees. We generally do not provide significant perquisites and other personal benefits.

We urge you to read the Compensation Discussion and Analysis section of this proxy statement for additional details on our executive compensation, including our compensation philosophy and objectives and the fiscal 2013 compensation of our Named Executive Officers. We believe that, viewed as a whole, our compensation practices and policies are appropriate and are fair to both the Company and its executives.

Proposal

The U.S. Congress has enacted requirements commonly referred to as the “say-on-pay” rules. As required by those rules, we are asking you to vote on the adoption of the following resolution:

BE IT RESOLVED by the shareholders of Daktronics, Inc., that the shareholders approve the compensation of the Company's Named Executive Officers as disclosed pursuant to Item 402 of Regulation S-K in the Company's proxy statement for the 2013 Annual Meeting.

Shareholder Approval

Proxies will be voted in favor of the resolution unless shareholders specify otherwise in their proxies and except for broker non-votes. The affirmative vote of at least a majority of the voting power of the shares present, in person or by proxy, and entitled to vote (excluding broker non-votes) is required for advisory approval of our executive compensation. As an advisory vote, this proposal is non-binding. However, the Board and our Compensation Committee, which is responsible for designing and overseeing the administration of our executive compensation program, values the opinions of our shareholders and will consider the outcome of the vote when making future compensation decisions for our Named Executive Officers.

THE BOARD OF DIRECTORS RECOMMENDS THAT THE SHAREHOLDERS VOTE FOR PROPOSAL THREE, THE APPROVAL OF THE COMPENSATION OF OUR NAMED EXECUTIVE OFFICERS AS DISCLOSED IN THE PROXY STATEMENT PURSUANT TO THE SEC’S COMPENSATION DISCLOSURE RULES.

PROPOSAL FOUR

RATIFICATION OF APPOINTMENT OF INDEPENDENT REGISTERED
PUBLIC ACCOUNTING FIRM

The Audit Committee of the Board of Directors has appointed Ernst & Young LLP as our independent registered public accounting firm to examine our consolidated financial statements and internal controls over financial reporting for fiscal 2014 and recommends that the shareholders vote for ratification of such appointment. Ernst & Young LLP has acted as our independent registered public accounting firm since fiscal year 2003. A representative of Ernst & Young LLP is expected to be present at the Annual Meeting, will have the opportunity to make a statement, and is expected to be available to respond to appropriate questions.

Audit and Other Professional Fees

The aggregate fees billed for professional services rendered by Ernst & Young LLP for the last two fiscal years are set forth in the following table:

	Fiscal Year Ended	
	April 27, 2013	April 28, 2012
Audit fees ⁽¹⁾	\$547,800	\$519,175
Audit-related fees ⁽²⁾	24,673	27,442
Tax fees ⁽³⁾	—	27,000
All other fees ⁽⁴⁾	1,995	1,995
Totals	\$574,468	\$575,612

(1) Audit fees consist of fees related to professional services rendered in connection with the audit of our annual financial statements, the audit of our internal control over financial reporting, the reviews of the interim financial statements included in our Quarterly Reports on Form 10-Q and other professional services provided in connection with statutory and regulatory filings or engagements.

(2) Audit-related fees are fees for assurance and related services performed by Ernst & Young LLP that are reasonably related to the performance of the audit or review of the Company's financial statements.

(3) Tax fees are fees for professional services performed by Ernst & Young LLP with respect to tax compliance, tax advice and tax planning. This includes preparation of original and amended tax returns for us, any refund claims, payment planning, tax audit assistance, tax advice related to mergers and acquisitions, and tax work stemming from audit-related items.

(4) All other fees are fees for other permissible work performed by Ernst & Young LLP that does not meet the above category descriptions.

As provided in the Audit Committee's charter, all engagements for any non-audit services by our independent registered public accounting firm must be approved by the Audit Committee before the commencement of any such services. The Audit Committee may designate a member or members of the Audit Committee to represent the entire Audit Committee for purposes of approving non-audit services, subject to review by the full Audit Committee at the next regularly scheduled meeting.

The Audit Committee considers the provision of services by Ernst & Young LLP to us, over and above the external audit fees, to be compatible with the ability of Ernst & Young LLP to maintain its independence.

Shareholder Approval

The affirmative vote of a majority of the shares of our common stock represented at the Annual Meeting, either in person or by proxy, assuming a quorum is present, is required to ratify the appointment by the Audit Committee of the Board of Directors of Ernst & Young LLP as our independent registered public accounting firm for the fiscal year ending April 26, 2014. If the shareholders do not approve the selection of Ernst & Young LLP, the Audit Committee

will reconsider its selection.

THE BOARD OF DIRECTORS RECOMMENDS THAT THE SHAREHOLDERS VOTE “FOR” THE RATIFICATION OF THE APPOINTMENT OF ERNST & YOUNG LLP AS THE COMPANY’S INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM FOR THE FISCAL YEAR ENDING APRIL 26, 2014 AS SET FORTH IN PROPOSAL FOUR.

CORPORATE GOVERNANCE

Board Leadership Structure

The Board of Directors adheres to governance principles that assure the integrity and continued viability of the Company. The Board has responsibility for risk management oversight and for providing strategic guidance to the Company. The Board believes that it must stay well-informed about the issues, challenges and opportunities facing Daktronics so that the Board members can properly exercise their fiduciary responsibilities to our shareholders. As part of this process, the Board is kept informed of our business through discussion with the Chief Executive Officer and other officers, by reviewing material provided to them and by participating in meetings of the Board and its Committees.

Dr. Aelred Kurtenbach, one of our founders and our former Chief Executive Officer, serves as Chairman of the Board. Mr. James Morgan, who joined Daktronics in 1969, was named Chief Executive Officer in 2001. This separation of the positions of Chairman and Chief Executive Officer has served the Company and our shareholders well. In addition, Ms. Nancy Frame has served as our Lead Independent Director since 2005.

We believe that we are best served at this time by separating the roles of the Chief Executive Officer and the Chairman of the Board. This separation allows us to benefit from the long-term history of managing the Company that the Chairman brings to the discussion and which complements the understanding of the current challenges and opportunities that the Chief Executive Officer brings to the Board. The Board believes that the continued Board leadership by our current chairman and the continued contribution of our outgoing Chief Executive Officer will be beneficial to the new Chief Executive Officer in his transition and as well as beneficial to the Board in its understanding and analysis of the Company's risks and opportunities.

The Chairman conducts the Board meetings, and the Lead Independent Director presides over executive sessions of the independent Directors. The Lead Independent Director also serves as chairperson of the Nominating and Corporate Governance Committee. In this dual role, the Lead Independent Director is able to bring to the Board a special focus on governance issues. She also facilitates the ability of non-management Directors to fulfill their responsibilities, builds consensus among Board members and provides a structure for communicating any concerns the non-management Directors may have directly to our executive management.

Our governance practices are compliant with the NASDAQ Listing Rules and the corporate governance regulations of the Sarbanes-Oxley Act of 2002. Among other things, these practices include the following:

The Nominating and Corporate Governance Committee reviews with the Board annually the composition of the Board as a whole, including the Directors' independence, skills, experience, age, diversity and availability of service to the Company.

The Nominating and Corporate Governance Committee recommends Director candidates for approval by the Board and election by the shareholders, taking into account the Company's need for diverse skills, professional experiences, backgrounds and other qualities to ensure a variety of viewpoints.

The Board conducts periodic self-evaluations facilitated by the Nominating and Corporate Governance Committee. The independent Directors meet in conjunction with regularly scheduled quarterly Board meetings and at other appropriate times.

The Board and all Board Committees are authorized to hire their own advisors as they deem to be necessary or advisable to fulfill their obligations.

Meetings of the Board of Directors and Committees

During fiscal 2013, the Board of Directors held four regularly scheduled meetings and three special meetings, the Audit Committee met eight times, the Compensation Committee met three times, and the Nominating and Corporate

Governance Committee met three times. All of the Directors attended at least 75 percent of the aggregate of all meetings of the Board of Directors and Committees upon which they served and the annual meeting of shareholders held in 2012.

Executive Sessions of the Board

The Board has formally adopted a policy of meeting in executive session and then with independent Directors only, in conjunction with each Board meeting. The independent Directors met seven times in fiscal 2013.

Annual Meeting Attendance Policy

As set forth in our Corporate Governance Guidelines, members of the Board of Directors are expected to devote sufficient time and attention to prepare for, attend and participate in Board meetings, shareholder meetings and meetings of Committees of the Board on which they serve.

Board's Role in Risk Oversight

The Board takes an active role in risk oversight both as a full Board and through its Committees. The Company's management team attends a portion of each regular Board meeting, and the Board engages management in a review of the business with respect to our

Table of Contents

strategies and risks. Such risks include those inherent in our businesses as well as the risks from external sources such as competitors, the economy, credit markets and regulatory and legislative developments.

The various Committees of the Board are also responsible for specific areas of risks. The Audit Committee meets regularly with management and our independent registered public accounting firm to oversee our financial risk management processes, controls and capabilities. The Audit Committee also oversees and reviews with management certain aspects of our credit, litigation, and currency risks and other finance matters. In addition, the Audit Committee reviews and monitors our procedures regarding the receipt, retention and treatment of complaints regarding internal accounting, accounting controls or audit matters. The Compensation Committee oversees our executive compensation arrangements and certain benefit plans. This includes the identification and management of risks that may arise from our compensation policies and practices. The Nominating and Corporate Governance Committee has oversight of corporate governance, including practices and procedures that promote good governance and thus mitigate governance risk, and it is also responsible for reviewing the performance of the Board, its Committees and their members. These Committees report to the full Board on these topics, including risks, as they deem to be necessary or advisable.

Code of Conduct

The Board of Directors has adopted our Code of Conduct, which applies to all of our employees, officers and Directors as described in our Annual Report to Shareholders. Included in the Code of Conduct are ethics provisions that apply to our Chief Executive Officer, Chief Financial Officer, and all other financial and accounting management employees. Copies of the Code of Conduct are available on our website at <http://www.daktronics.com>. The Nominating and Corporate Governance Committee reviews the Code of Conduct annually and oversees its implementation.

Policy and Procedures with Respect to Related Person Transactions

Our Board of Directors has adopted a written policy and procedure with respect to related person transactions, which the Audit Committee oversees. Under the policy, a “related party transaction” is a transaction, arrangement or relationship in which the Company was, is or will be a participant, the amount involved exceeds \$120,000, and in which any “related person” had, has or will have a direct or indirect material interest. The policy generally defines a “related person” as a Director, executive officer or beneficial owner of more than five percent of any class of our voting securities and any immediate family member of any of the foregoing persons.

The Audit Committee reviews and, if appropriate approves, any potential related person transaction. On an annual basis, the Audit Committee reviews any previously approved related person transaction that is ongoing.

Committees of the Board of Directors

The Board of Directors currently has three standing Committees: an Audit Committee, a Compensation Committee and a Nominating and Corporate Governance Committee.

Audit Committee. During fiscal 2013, our Audit Committee consisted of Mr. Mulligan (Chairperson), Mr. Vellenga and Mr. Tobin (except during the period of September through November 2012, as Mr. Tobin took a special consultant assignment and our lead independent director Ms. Frame temporarily served as an Audit Committee member.) The Board of Directors has determined that each Audit Committee member is independent as defined under Rule 5605(a)(2) of the NASDAQ Listing Rules and Rule 10A-3 under the Securities Exchange Act of 1934 (“Exchange Act”). The Board has determined that Mr. Mulligan and Mr. Tobin are qualified as “audit committee financial experts,” as that term is defined in Item 407(d)(5)(ii) of Regulation S-K. The Audit Committee assists the Board of Directors in fulfilling its oversight responsibilities concerning the quality and integrity of our financial reports and related filings with the SEC. In fulfilling this role, the Audit Committee, among other things, oversees the accounting and financial reporting process and audits of the financial statements and related SEC filings, appoints and provides for the compensation of our independent registered public accounting firm, reviews the scope and findings of

the audit, reviews the adequacy and effectiveness of our accounting policies and system of internal accounting controls, and oversees our policy and procedures with respect to related person transactions. The Audit Committee's Charter is available on our website at <http://www.daktronics.com>.

Compensation Committee. During fiscal 2013, our Compensation Committee consisted of Mr. Dutcher (Chairperson), Mr. Anderson and Ms. Frame. All of the Compensation Committee members satisfy the independence requirements of the NASDAQ Listing Rules, as determined by the Board of Directors. The Compensation Committee annually reviews and approves the Chief Executive Officer's and other executives' compensation packages, and acts upon management's recommendations for executives concerning employee equity incentives, bonuses and other compensation and benefit plans. The Compensation Committee's Charter is available on our website at <http://www.daktronics.com>.

Nominating and Corporate Governance Committee. During fiscal 2013, our Nominating and Corporate Governance Committee (the "Nominating Committee") consisted of Ms. Frame (Chairperson), Mr. Anderson and Mr. Vellenga. The Board of Directors has determined that all of the Nominating Committee members satisfy the independence requirements of the NASDAQ Listing Rules. Our Nominating Committee advises and makes recommendations to the Board of Directors on all matters concerning the selection of candidates as nominees for election as Directors, develops and recommends to the Board of Directors corporate governance guidelines, oversees our

Table of Contents

Code of Conduct, and provides oversight with respect to corporate governance and ethical conduct. It also facilitates the annual review of the performance of the Board of Directors. The Nominating Committee's Charter and our Corporate Governance Guidelines are available on our website at <http://www.daktronics.com>.

The information below describes the criteria and process that the Nominating Committee uses to evaluate future candidates to the Board of Directors:

Director Qualification

When Board candidates are considered, they are evaluated based upon various criteria, such as their broad-based business and professional skills and experiences, experience serving as management or on the board of directors of other organizations, concern for the long-term interests of the shareholders, technology company experience, financial literacy, personal integrity in judgment and their willingness to be prepared and active participants at Board and Committee meetings. The Nominating and Corporate Governance Committee and the Board seek to attract and retain highly qualified Directors who have sufficient time to attend to their duties and responsibilities to the Company.

The Nominating and Corporate Governance Committee and the Board seek members who will contribute to our overall corporate goals, taking into account:

- The Company's responsibility to its key stakeholders, which include shareholders, customers, suppliers, community and employees, industry leadership.

- Integrity in financial reporting and business conduct. Candidates are selected based upon their potential contributions to the long-term interests of shareholders.

- Diversity of a candidate's skills and experiences are considered as part of the nomination process.

Each candidate for Director must possess the following specific minimum qualifications:

- Demonstrated integrity and ethics in his or her professional life and an established record of professional accomplishment in his or her chosen field.

- Absence of any material personal, financial or professional interest in any present or potential competitor of the Company.

- Ability to participate fully in activities of the Board of Directors, including active membership in at least one Committee of the Board of Directors (in the case of independent Directors) and attendance at, and active participation in, meetings of the Board of Directors and the Committee(s) of the Board of which he or she is a member.

Shareholder Proposals for Nominees

The Nominating and Corporate Governance Committee will consider written proposals from shareholders for nominees for Director. Any such nominations should be submitted to the Nominating and Corporate Governance Committee in the care of our Corporate Secretary and should include (at a minimum) the following information: (a) all information relating to such nominee that is required to be disclosed in Schedule 14A under the Exchange Act (including appropriate biographical information); (b) other board memberships; (c) such person's written consent to being named in the proxy statement as a nominee and to serving as a Director, if elected; (d) the name(s) and address(es) of the shareholder(s) making the nomination and the number of shares of our common stock which are owned beneficially and of record by such shareholder(s); and (e) a statement as to the qualifications of the nominee. Shareholder proposals should be submitted by the March 10, 2014 deadline described in this proxy statement under the caption, "Procedural Matters – Procedure for Submitting Shareholder Proposals" above.

The Nominating Committee will not change the manner in which it evaluates candidates for Board nominees, including the applicable criteria set forth above, based on whether the candidate was recommended by a shareholder. To date, we have not received any shareholder proposals to nominate a Director.

Board of Directors' Evaluation

On an ongoing basis, the Nominating Committee facilitates a process to determine whether the Board of Directors and its Committees are functioning effectively. The results of this process are reported to the Board for discussion.

How to Contact the Board of Directors

Shareholders wishing to contact our Directors may do so by writing to them at the following address: Corporate Secretary, Daktronics, Inc., 201 Daktronics Drive, Brookings, South Dakota 57006. All letters received will be forwarded to the Directors.

Compensation Committee Interlocks and Insider Participation

Such Directors, executive officers and 10% Shareholders are also required by rules of the SEC to furnish us with copies of all Section 16(a) forms that they file. To our knowledge, based solely on a review of copies of such forms submitted to us and on written representations from our reporting persons, we believe all required reports were filed on a timely basis during fiscal 2013. COMPENSATION DISCUSSION AND ANALYSIS

Introduction

The following discussion should be read in conjunction with the various tables and accompanying narrative disclosure appearing in this proxy statement. Those tables and narrative disclosure provide more detailed information regarding the compensation and benefits awarded to, earned by, or paid to our Named Executive Offices, as well as the plans in which those officers are eligible to participate. At last year’s annual meeting, our shareholders provided an advisory “say-on-pay” vote indicating their overwhelming support of the Company’s compensation program for our Named Executive Officers. Our shareholders also previously voted that such say-on-pay votes be held annually. As a result, Proposal Three presented in this proxy statement again seeks our shareholders’ input on our executive compensation program. This Compensation Discussion and Analysis, the compensation tables and the narrative disclosures that accompany the tables provide information that will assist our shareholders in deciding how to vote on Proposal Three.

Executive Summary

Our executive compensation program, developed by management and approved by the Compensation Committee of the Board of Directors (the “Committee”), is intended to be simple, focused on a few key performance metrics and balanced among:

Employees, managers and executives
Long-term and short-term objectives
Financial and stock performance
Cash and equity compensation

The compensation program is designed to align the interests of the executive team with the interests of our shareholders. The plan uses salary, benefits, and a non-equity-based and equity-based incentive program to achieve these goals, with a focus on tying compensation to corporate performance. Retention of top talent and achievement of corporate objectives measure the effectiveness of our compensation plan.

The Company's financial performance for the fiscal year ended April 27, 2013, included strong sales and net income. We delivered a 7.2 percent return on assets and a 11.9 percent return on beginning shareholders' equity. Sales were up 5.9 percent and net income rose 168 percent from the levels in fiscal 2012 and operating income as a percentage of sales improved from approximately two percent in fiscal

Table of Contents

2012 to approximately six percent in fiscal 2013. We believe our historical investment in lean manufacturing practices and improved economies, along with strong management, have contributed to our strong performance in recent periods.

Changes to executive compensation levels during the current fiscal year were mainly due to maintaining competitiveness as the economy improved and the results of our benchmarking analysis.

Role of Compensation Committee, Philosophy and Objectives

The Compensation Committee has responsibility for guiding our executive compensation philosophy and overseeing the design of executive compensation programs. In arriving at the appropriate levels of pay and incentive opportunities, the Committee reviews our compensation philosophy and trends in our industry to ensure that our executive compensation program is competitive to effectively recruit and retain talented management, focuses our executives to achieve short and long-range corporate objectives, and aligns the interests of the executives with the interests of our shareholders.

The Committee bases its executive compensation decisions on the following philosophies:

• Executive compensation should be appropriate to successfully recruit and retain high-performing executives, taking into account executive pay at comparable companies and our pay practices for non-executive employees.

• An individual executive's compensation should be based on the executive's responsibility level, capability, and performance.

• The executive team's compensation should include a significant component that is based on the Company's overall financial performance, to encourage the executive team to focus collectively on overall Company success.

• Our executives should receive few perquisites, if any, other than those provided to all employees.

The Committee annually reviews each executive's compensation. The Committee has determined that our executives' compensation will include: base salary, non-equity-based incentive pay, and equity-based incentive pay in the form of options and restricted stock units. We view the various components of compensation as related but distinct. Although the Committee reviews and considers total compensation for each executive officer and for all executive officers as a group, we do not believe that significant compensation derived from one component of compensation should necessarily negate or reduce compensation from other components.

We determine the appropriate level for each executive compensation component based in part, but not exclusively, on the following factors:

• internal equity and consistency;

• individual performance;

• the executive compensation paid by other companies with which we compete for executive talent; and

• Company performance.

The base salary reflects the pay that the Committee believes is appropriate for each executive's responsibility, capability, and performance. The non-equity-based variable compensation is designed to focus the executive team on the Company-wide goals and objectives, which focus on growth in revenue and reductions in cost in order to achieve and sustain a target operating margin. The Committee has not adopted any formal policies or guidelines for allocating compensation between long-term and currently paid-out compensation, between cash and non-cash compensation, or among different forms of non-cash compensation, although it has a preference for a material amount of "at risk" compensation, the amount of which is based on our financial results. The equity-based compensation plan is designed to encourage executives to also own stock in the Company, and thereby more directly align executives' interests with our shareholder interests.

The Committee considers both internal equity and market competitiveness. We compare executive pay to other key managers and to employees at the Company. We also compare overall executive compensation to comparison companies and to salary database information. The Committee believes that equitable and competitive compensation, as well as leader development and promotion-from-within, is essential to retain high-performing executives. The average number of years of experience with Daktronics of our currently employed named executives is 28 years.

For fiscal 2013, our named executive officers were Dr. Aelred J. Kurtenbach, Chairman of the Board, James B. Morgan, President and Chief Executive Officer, Sheila M. Anderson, Chief Financial Officer, and Treasurer; William R. Retterath, former Chief Financial Officer, and Treasurer; Reece A. Kurtenbach, Executive Vice President, and Bradley T. Wiemann, Executive Vice President (the “Named Executive Officers.”)

Role of Executive Officers in Compensation Decisions

Our Chief Executive Officer and Vice President of Human Resources present to the Compensation Committee their recommendation for the salary, non-equity-based incentive compensation, and equity-based compensation grants for the Named Executive Officers and selected other executives. The Committee considers these recommendations and accepts or adjusts them, in whole or in part, at a meeting

Table of Contents

generally held in November of each year. The Chief Executive Officer and Vice President of Human Resources are not present for the discussions or determinations about their own compensation, but they generally participate in the discussions regarding other executive officers' compensation. The Chair of the Compensation Committee presents the Committee's findings regarding compensation for executive officers to the Board of Directors. Based on such input, the Board of Directors approves and adopts the executives' compensation plan.

Benchmarking

In making decisions regarding elements and amounts of compensation, the Committee considers the compensation paid to executive officers at similar levels, with similar responsibilities, at public companies in our geographical area (South Dakota, North Dakota, Minnesota, Iowa, and Nebraska), with revenues of between \$250 million and \$750 million and with a focus on manufacturing or technology.

The following list sets forth the companies comprising our peer group list:

Apogee Enterprises, Inc.	Hawkins, Inc.
Navarre Corporation	ValueVision Media, Inc.
Techne Corporation	Tennant Company
Winnebago Industries	Lindsay Corporation
Raven Industries	LodgeNet Entertainment Corp.
Graco, Inc.	Hutchinson Technology, Inc.
MTS Systems Corporation	

The Committee also considers compensation data from Salary.com and Economic Research Institute, which takes into consideration company size and geography, and base salary and variable cash compensation, but excludes equity incentive compensation information.

To date, we have not retained consulting firms to assist us in determining executive compensation. The Committee believes that the executive compensation is sufficiently conservative, as well as appropriately competitive, so as not to require an external consultant opinion.

Elements of Compensation

For fiscal 2013, the principal components of our executive compensation program consisted of the following, each of which is addressed below in greater detail:

- base salary;
- non-equity-based incentive compensation plan;
- equity-based compensation program;
- deferred compensation arrangements; and
- benefits.

Base Salary. Executive officers receive a base salary to compensate them for services rendered during each year. Base salary is determined by assessing the executive's sustained performance and his or her individual job responsibilities, including the impact of such performance on our business results, in addition to market data and comparisons to our other officers.

The Committee also takes into account our financial performance, understanding that these measures need to be considered in light of current economic conditions, business opportunities and other factors. The Compensation Committee also considers the recommendations of the Chief Executive Officer for other Named Executive Officers.

During fiscal 2013, the Company determined that it needed to make some salary adjustments throughout the Company in order to maintain competitiveness as the economy improved. Based on the peer group and salary database information, the Committee determined that some adjustments would also be appropriate for the executive team. The Committee determined the adjustments appropriate for the executives based on their responsibilities, performance, and individual pay compared to the peer group and databases. The Chief Executive Officer requested no increase in his pay, which the Compensation Committee approved. The Chief Financial Officer's compensation was determined at the time of her offer in September 2012, and was based on internal equity and market competitiveness for her responsibility and experience.

Non-Equity-Based Incentive Compensation Plan. The purpose of our non-equity-based incentive compensation plan is to focus the executive team on the Company-wide goals and objectives, which focus on growth in revenue and reductions in cost in order to achieve and sustain a target operating margin. The non-equity-based incentive compensation plan is a formula-based variable cash compensation plan, with no payouts if operating margin is less than 2.5 percent, targeted payouts at 10 percent operating margin, and maximum payouts at 12.5 percent operating margin. The targeted level of variable cash compensation varies from an amount equal to three months of base

Table of Contents

salary to 7.5 months of base salary for each executive officer. The maximum level of the variable cash compensation is 120 percent of the targeted level of variable cash compensation.

This level of non-equity compensation takes into account the reference to other incentive non-equity compensation plans at comparable companies and in the databases, as well as the Committee's preference for a material level of variable executive compensation that varies with Company performance. The Compensation Committee selected operating margin as the measure of corporate financial performance to determine variable cash compensation because it believed it was the most appropriate indicator of performance that will drive long-term shareholder value and it was consistent with our corporate strategies.

The various payout percentages based on operating margins are as follows:

Operating Margin	Percentage of Targeted Non-equity Incentive Compensation
Less than 2.5%	—
2.5 to 5.0%	0.0 to 25.0%
5.0 to 7.5%	25.1 to 60.0%
7.5 to 10.0%	60.1 to 100.0%
10.0 to 12.5%	100.1 to 120.0%

We also follow applicable laws and regulations regarding the recovery of any non-equity-based compensation, other incentive-based or equity-based compensation and profits realized from the sale of securities resulting from any misconduct on the part of an executive officer.

During fiscal 2013, the executive officers were eligible for non-equity-based incentive compensation if the maximum payout of 120 percent of target was achieved as follows: Chief Executive Officer - 75 percent of base salary, Chairman of the Board of Directors - 30 percent of base salary, and all other named executives 55 percent of their base salary. The company's performance was less than the threshold for variable compensation in fiscal years 2012 and 2011, and no payout was made for those years. For fiscal 2013, the operating margin resulted in a non-equity-based incentive compensation payout of approximately 38 percent of the target or 31 percent of the maximum payouts.

Equity-Based Compensation Program. Grants of equity awards have been the primary vehicles for offering long-term incentives to our executives, and to aligning the interests of employees more closely with those of our shareholders.

Each year, the Board of Directors, based on recommendations of the Compensation Committee, determines the number of shares that may be subject to equity awards for all employees, including the Named Executive Officers. The total number of shares subject to equity awards is constrained by our Board's desire to limit dilution to shareholders to a level consistent with our historical levels, which generally approximate a dilution of one percent, and to limit the total grant date fair value of the equity awards to a targeted level. The one percent dilution is based on an assessment of a conservative amount relative to high-tech growth companies. The grant date fair value is based on a comparison to the prior years' expense and the current year's estimate of a percentage of total payroll expense.

The Committee also considers trends in equity-based compensation, the mix of the type of equity grants, and the number of our shares that are available for equity grants. Historically, the Compensation Committee has approved approximately 20 percent of the shares for equity grants to be granted to the executive team, and it followed that practice again in fiscal year 2013. The allocation among Named Executive Officers is based on historical grants, the value of past grants and the Company's performance, all of which are subject to the objectives listed under the section titled "Compensation Discussion and Analysis - Role of Compensation Committee, Philosophy and Objectives." To facilitate the grant of stock options to employees and other executive officers, the Board of Directors authorized the Chief Executive Officer to grant individual stock options and restricted stock units during fiscal 2013, subject to the

guidelines and limitations imposed by the Compensation Committee.

For fiscal 2013, the Compensation Committee determined that it would continue to grant restricted stock units as well as incentive stock options in a manner substantially similar to fiscal 2012, except that valuation of the equity grants, based on the grant date fair value as determined under ASC 718, would be limited to approximately \$2.3 million. The number of shares of common stock subject to stock options and restricted stock units granted increased slightly from the prior year. The value of the restricted stock units was equal to 50 percent of the value of the stock options for executives, as determined under the fair value provisions of ASC 718.

Historically, the equity grants for executives and employees have been considered at the Board and Compensation Committee meetings generally held in November of that fiscal year. Starting in fiscal 2013, the Board and Compensation Committee determined that it would be more appropriate to approve the grants in conjunction with the August meetings, to coincide with the Director equity grants and the annual shareholder meeting. Equity awards are not typically granted at other times of the year for employees, including new

Table of Contents

employees. The exercise price of all stock options granted is equal to the fair market value of the Company's common stock as reported on The NASDAQ Global Select Market on the date of grant, which is defined in the 2007 Plan as the closing price of the common stock as reported on The NASDAQ Global Select Market on the date of grant. All options also contain five-year vesting provisions, with 20 percent of the shares underlying the stock option vesting each year following the date of grant. The restricted stock units also contain a five-year vesting provisions, with 20 percent of the restricted stock units vesting each year following the date of grant.

Deferred Compensation Arrangements. We have deferred compensation arrangements with James B. Morgan and Dr. Aelred J. Kurtenbach, which were implemented in 1990 to protect the Company from the loss of these key employees during our formative years. Participation in this plan by other executives is not in consideration at this time. The arrangements are designed to fund annual payments upon retirement based on the value of amounts credited to each participant's account. These arrangements are funded through an increase in the cash surrender value of life insurance policies on the lives of the participants. They are evidenced by deferred compensation agreements and are described in the table entitled "Non-qualified Deferred Compensation – Fiscal 2013."

Benefits. Our Named Executive Officers are eligible for all benefits generally available to our full-time employees. Other than the deferred compensation plan described above, we do not provide pension arrangements, post-retirement health coverage, or similar benefits for our executives or employees.

All employees, including the Named Executive Officers, are entitled to participate in the Daktronics, Inc. 401(k) Plan (the "401(k) Plan"), which is qualified under Section 401(k) of the Internal Revenue Code of 1986. At the discretion of the Board of Directors, we may make matching contributions equal to a percentage of the salary deduction contributions or other discretionary amounts. We paid \$1.7 million in matching and discretionary contributions in fiscal 2013, \$1.6 million in fiscal 2012 and \$0.9 million in fiscal 2011. Contributions to the 401(k) Plan on behalf of the Named Executive Officers are described in the table entitled "Summary Compensation Table – Fiscal 2013."

All employees, including the Named Executive Officers, are entitled to participate in the Daktronics, Inc. Employee Stock Purchase Plan ("ESPP"), which is intended to qualify under Section 423 of the Internal Revenue Code of 1986. The ESPP allows employees to purchase shares of our common stock, subject to annual limitations, at a price equal to 85 percent of the lower of the fair market value of the common stock at the beginning or the end of each six-month offering period. See "Executive Compensation – Employee Stock Purchase Plan."

Accounting and Tax Treatment

We account for equity-based compensation paid to employees under ASC 718, Compensation-Stock Compensation promulgated by the Financial Accounting Standards Board, which requires us to estimate and record an expense over the service period of the award. Thus, we may record an expense in one year for awards granted in earlier years. Accounting rules also require us to record cash compensation as an expense at the time the obligation is accrued.

With respect to option awards, we generally can deduct the gain recognized by employees and Directors from non-qualified options. However, to the extent that an option is an incentive stock option, we cannot deduct the gain recognized by the optionee if there is no disqualifying disposition by the optionee.

With respect to restricted stock awards, we generally can deduct the fair market value of the shares vested on the vesting date. Alternatively, if the recipient were to make an election under Section 83(b) of the Internal Revenue Code of 1986, we would be entitled to a deduction on the date of grant equal to the value of the restricted stock on the date of grant.

Section 162(m) of the Internal Revenue Code of 1986 generally disallows a tax deduction to public companies for compensation in excess of \$1 million paid to the companies' chief executive officer and four other most highly-paid

executive officers. Qualifying performance-based compensation will not be subject to the deduction limitation if certain requirements are met. Because the potential amount of base salary and non-equity-based incentive compensation that our executive officers can earn is less than \$1 million, Section 162(m) has not been material to our compensation decisions.

Post-Employment Compensation

Potential Payments upon Termination of Employment or Change in Control

The table below reflects the compensation that would be paid to each of our Named Executive Officers in the event of termination of such executive's employment. The amounts shown assume that such termination was effective as of April 27, 2013, and include estimated amounts earned through such time, and are estimates of the amounts which would be paid out to the executives upon their termination. The actual amounts to be paid can be determined only at the time of such executive's separation from the Company. In addition, there may be re-negotiation of the payments upon any termination of employment or change in control.

Under the 2001 Plan and the 2007 Plan, all options and restricted stock units immediately vest upon a change in control, as that term is defined in the 2001 Plan and the 2007 Plan. Upon a termination of employment for any reason, and consistent with our employment policies which apply to all employees, we are obligated to pay for accrued and unused vacation time, which would then be payable in a lump sum.

Compensation Risk Analysis

The Compensation Committee has established the non-equity incentive program to be based on the same Company-wide measure for each executive. As previously described, the Committee has selected operating margin as the Company-wide measure. Basing the program on the same Company-wide measure for all the executives minimizes the risks associated with individual formulas based on individual actions. The non-equity incentive program is the only formula-based incentive-compensation program in the Company.

Under this procedure, we are delivering only one copy of our Annual Report, this Proxy Statement and our Notice of Internet Availability of Proxy Materials to multiple shareholders who have requested paper copies of the Annual Report and Proxy Statement who share the same address, unless we have received contrary instructions from one or more of the shareholders.
