FORWARD-LOOKING STATEMENTS

We have included or incorporated by reference in this prospectus statements that may constitute forward-looking statements within the meaning of the safe harbor provisions of The Private Securities Litigation Reform Act of 1995. These forward-looking statements are not historical facts but instead represent only our belief regarding future events, plans, goals, expectations and estimates, many of which, by their nature, are inherently uncertain and outside of our control. It is possible that our actual results may differ, possibly materially, from the anticipated results indicated in or implied by these forward-looking statements. See *Risk Factors* below for information regarding important risk factors that could cause actual results to differ, perhaps materially, from those in our forward-looking statements.

Forward-looking statements are statements that are not a representation of historical information but rather are related to future operations, strategies, financial results, or other developments. The words believe, expect, anticipate, intend, estimate, should, is likely, will, going forward, and other expressions that indicate future events and trends identify forward-looking statements. Forward-looking statements are necessarily based upon estimates and assumptions that are inherently subject to significant business, operational, economic and competitive uncertainties and contingencies, many of which are beyond a company's control, and many of which, with respect to future business decisions and actions (including acquisitions and divestitures), are subject to change. Examples of uncertainties and contingencies include, among other important factors, global, general and local economic and business conditions, including economic recession or depression; the level and length of deterioration in the residential housing and commercial real estate markets; potential requirements for First Horizon to repurchase previously sold or securitized mortgages or securities based on such mortgages; potential claims relating to the foreclosure process; expectations of and actual timing and amount of interest rate movements, including the slope of the yield curve, which can have a significant impact on a financial services institution; market and monetary fluctuations, including fluctuations in mortgage markets; inflation or deflation; customer, investor, regulatory, and legislative responses to any or all of these conditions; the financial condition of borrowers and other counterparties; competition within and outside the financial services industry; geopolitical developments including possible terrorist activity; natural disasters; effectiveness and cost-efficiency of First Horizon's hedging practices; technological changes; fraud, theft, or other incursions through conventional, electronic, or other means; demand for First Horizon's product offerings; new products and services in the industries in which First Horizon operates; and critical accounting estimates. Other factors are those inherent in originating, selling, servicing, and holding loans and loan-based assets, including prepayment risks, pricing concessions, fluctuation in U.S. housing and other real estate prices, fluctuation of collateral values, and changes in customer profiles. Additionally, the actions of the Securities and Exchange Commission (SEC), the Financial Accounting Standards Board, the Office of the Comptroller of the Currency (OCC), the Board of Governors of the Federal Reserve System (Federal Reserve), the Federal Deposit Insurance Corporation (FDIC), Financial Industry Regulatory Authority, the Consumer Financial Protection Bureau, the Financial Stability Oversight Council, and other regulators and agencies; regulatory, administrative, and judicial proceedings and changes in laws and regulations applicable to First Horizon; and First Horizon's success in executing its business plans and strategies and managing the risks involved in the foregoing, could cause actual results to differ, perhaps materially, from those contemplated by the forward-looking statements. First Horizon assumes no obligation to update any forward-looking statements that are made from time to time. Actual results could differ, possibly materially, because of several factors, including those presented in this Forward-Looking Statements section, in other sections of this prospectus or any applicable prospectus supplement and in documents incorporated herein by reference.

The following table sets forth information regarding our consolidated ratio of earnings to fixed charges and consolidated ratio of earnings to combined fixed charges and preferred stock dividends for the periods shown. For purposes of determining the below ratios, earnings consist of pre-tax income from continuing operations before adjustment for income or loss from equity investees, fixed charges, amortization of capitalized interest, distributed income of equity investees and our share of pre-tax losses of equity investees for which charges arising from guarantees are included in fixed charges, and adjusted for interest capitalized, preference security dividend requirements of consolidated subsidiaries and non-controlling interest in pre-tax income of subsidiaries that have not incurred fixed charges. Fixed charges consist of interest expensed and capitalized, amortized premiums, discounts and capitalized expenses related to indebtedness, an estimate of the interest within rental expense, and preference security dividend requirements of consolidated subsidiaries.

DESCRIPTION OF DEBT SECURITIES

Senior and Junior Subordinated Debt Securities

As used in this prospectus, debt securities means the debentures, notes, bonds and other evidences of indebtedness that we may issue from time to time. The debt securities will either be senior debt securities or junior subordinated debt securities.

As required by U.S. federal law for all bonds and notes of companies that are publicly offered, our debt securities will be governed by a document called an indenture. Senior debt securities will be issued under the senior indenture and junior subordinated debt securities will be issued under the junior subordinated indenture, in each case with the specific terms and conditions set forth in a supplemental indenture or an officers certificate. Each indenture is a contract between us and The Bank of New York Mellon Trust Company, N.A., as the initial trustee.

The trustee has two main roles:

First, the trustee can enforce your rights against us if we default. There are some limitations on the extent to which the trustee acts on your behalf, described later under *Default and Related Matters* .

Second, the trustee performs administrative duties for us, such as sending interest payments, if any, and sending notices. Unless otherwise indicated in a prospectus supplement, The Bank of

New York
Mellon Trust
Company,
N.A. will
perform these
administrative
duties.

This prospectus sometimes refers to the senior indenture and the junior subordinated indenture collectively as the indentures. The indentures and their associated documents, including the debt securities themselves and a supplemental indenture or an officers' certificate relating to a particular series of debt securities, contain the full text of the matters summarized in this section and any accompanying prospectus supplement. The forms of the indentures and forms of debt securities are filed as exhibits to the registration statement of which this prospectus forms a part, and the debt securities and supplemental indentures and officers' certificates will be filed as exhibits with future SEC filings from time to time. See *Where You Can Find More Information* above for information on how to obtain copies. Section references in the description that follows relate to the indentures.

General

Unless otherwise specified in a prospectus supplement, the debt securities will be direct unsecured obligations of First Horizon National Corporation. The senior debt securities will rank equally with any of our other unsubordinated and unsecured debt. The junior subordinated debt securities will be subordinate and rank junior in right of payment and priority to any senior debt, as defined, and described more fully, under *Subordination* to the extent and in the manner set forth in the junior subordinated indenture.

The indentures do not limit the aggregate principal amount of debt securities that we may issue and provide that we may issue debt securities from time to time in one or more series, in each case with the same or various maturities, at par or at a discount. Unless indicated in a prospectus supplement, we may issue additional debt securities of a particular series without the consent of the holders of the debt securities of such series outstanding at the time of the issuance. Any such additional debt securities, together with all other outstanding debt securities of that series, will constitute a single series of debt securities under the applicable indenture and will be equal in ranking.

This Section Is Only a Summary

The statements and descriptions in this prospectus or in any prospectus supplement regarding provisions of the indentures and debt securities are summaries, do not purport to be complete and are subject to, and are qualified in their entirety by reference to, all the provisions of the indentures (and any amendments or supplements entered into by us from time to time) and the debt securities, including the definitions therein of certain terms. We will include in a supplement to this prospectus the specific terms of each series of debt securities being offered, including the terms, if any, on

which a series of debt securities may be convertible into or exchangeable for shares of our common stock, preferred stock or other debt securities. The indentures (together with any related amendments or supplements thereto) and the debt securities, and not our summary of the terms, will govern the rights of holders of the debt securities.

In addition, if specified in the applicable prospectus supplement, we may sell debt securities bearing no interest or interest at a rate that at the time of issuance is below the prevailing market rate or at a discount below their stated principal amount. We will describe in the applicable prospectus supplement any material special federal income tax considerations applicable to any such discounted debt securities.

Additional Mechanics

Form

The debt securities will be initially issued as a registered global security as described below under *What Is a Global Security?* unless otherwise specified in the applicable prospectus supplement. If any debt securities cease to be issued in registered global form, they will be issued in fully registered form without coupons (*Section 302*), although we may issue the debt securities in bearer form if so specified in the applicable prospectus supplement. Debt securities will be issued in denominations of \$1,000 and any integral multiple thereof, unless otherwise specified in the applicable prospectus supplement. (*Section 302*)

Exchange and Transfer

You may have fully registered debt securities broken into more debt securities of smaller denominations (but not into denominations smaller than any minimum denomination applicable to the debt securities) or combined into fewer debt securities of larger denominations, as long as the total principal amount is not changed. This is called an exchange . (*Section 305*)

You may exchange or transfer your fully registered debt securities at the corporate trust office of the registrar. The registrar acts as our agent for registering debt securities in the names of holders and for transferring and exchanging debt securities, as well as maintaining the list of registered holders. The paying agent acts as the agent for paying interest, principal and any other amounts on debt securities. Unless otherwise specified in the applicable prospectus supplement, the trustee will perform the roles of registrar and paying agent, and will perform other administrative functions. We may change these appointments to another entity or perform them ourselves. *(Section 305)*

We may designate additional or alternative registrars or paying agents, acceptable to the trustee, and they would be named in the applicable prospectus supplement. We may cancel the designation of any particular registrar or paying agent. We may also approve a change in the office through which any registrar or paying agent acts. We must maintain a paying agent office at the place of payment for each series of debt securities. *(Sections 305 and 1002)*

There is no service charge for exchanges and transfers. You will not be required to pay a service charge to transfer or exchange debt securities, but you may be required to pay a sum sufficient to cover any tax or other governmental charge that may be imposed in connection with the exchange or transfer. *(Section 305)*

At certain times, you may not be able to transfer or exchange your debt securities. If we redeem any series of debt securities, or any part of any series, then we may prevent you from transferring or exchanging these debt securities for certain periods. We may do this during the period beginning 15 days before the day we mail the notice of redemption and ending at the close of business on the day of that mailing, in order to freeze the list of holders so we can prepare the mailing. We may refuse to register transfers or exchanges of debt securities selected for redemption, except that we will continue to permit transfers and exchanges of the unredeemed portion of any security being partially redeemed. We may also refuse to issue, register transfers or exchange debt securities that has been surrendered for repayment, except the portion that is not to be repaid. *(Section 305)*

Replacing Your Lost or Destroyed Certificates

If you bring a mutilated certificate to the registrar, we will issue a new certificate to you in exchange for the mutilated one. *(Section 306)*

If you claim that a certificate has been lost, completely destroyed, or wrongfully taken from you, then the trustee will give you a replacement certificate if you meet our and the trustee's requirements, including satisfactory evidence of loss, destruction or theft. Also, we and the trustee may require you to provide reasonable security or indemnity to protect us and the trustee from any loss we may incur from replacing your certificates. *(Section 306)*

In either case, we may also charge you for our expenses in replacing your security and for any tax or other governmental charge that may be incurred. *(Section 306)*

Payment and Paying Agents

We will pay interest to you if you are a direct holder listed in the registrar's records at the close of business on a particular day in advance of each due date for interest, even if you no longer own the security on the interest payment date. That particular day is called the regular record date and is stated in the applicable prospectus supplement. *(Section 307)*. Holders buying and selling debt securities must work out between them how to compensate for the fact that we will pay all the interest for an interest period to the one who is the registered holder on the record date.

We will pay interest, principal and any other money due on the debt securities of a series at the place of payment specified in the applicable prospectus supplement for that series. You must make arrangements to have your payments picked up at that office. We may also choose to pay interest by mailing checks. If we have designated additional paying agents, they will be named in the applicable prospectus supplement. We may cancel the designation of any particular paying agent or approve a change in the office through which any paying agent acts, but we must have a

paying agent in each place of payment for the debt securities. (*Section 1002*)

All money we forward to the trustee or a paying agent that remains unclaimed will, at our request, be repaid to us at the end of two years after the amount was due to the direct holder. After that two-year period, you may look only to us as an unsecured general creditor for payment and not to the trustee, any other paying agent or anyone else. (*Section 1003*)

We will make payments on a global debt security in accordance with the applicable policies of the depositary as in effect from time to time. Under those policies, we will pay directly to the depositary, or its nominee, and not to any indirect owners who own beneficial interests in the global debt security. An indirect owner's right to receive those payments will be governed by the rules and practices of the depositary and its participants, as described below in the section entitled *What Is a Global Security?*

Street name and other indirect holders should consult their banks or brokers for information on how they will receive payments.

Notices

We and the trustee will send notices regarding the debt securities only to direct holders, using their addresses as listed in the register kept at the office of the registrar. (*Section 106*)

Special Situations

Mergers and Similar Transactions

We are generally permitted to consolidate or merge with or into another company. We are also permitted to convey, transfer or lease our properties and assets substantially as an entirety to another company. However, we may not take any of these actions unless we certify to the trustee that the following conditions are met:

the successor
company (if
any) or the
Person which
acquires our
properties
and assets is a
corporation,
partnership or
other entity,
and is
organized and
validly
existing
under the
laws of the
United States
of America,
any State
thereof or the
District of
Columbia and
it expressly

assumes our obligations on the debt securities;

immediately after giving effect to the transaction, no event of default (and no event which, after notice or lapse of time or both, would become an event of default) shall have happened and be continuing; and

if as a result of such transaction, properties or assets of ours would become subject to a mortgage, pledge, lien, security interest or other encumbrance not permitted by the indenture, we or our successor will take such steps as may be necessary to secure the debt securities

equally and
ratably with
all debt
secured
thereby.

(Section 801)

Modification and Waiver of Your Contractual Rights

Under certain circumstances, we can make changes to the indentures and the debt securities. Some types of changes require the approval of each security holder affected, some require approval by a vote of the holders of not less than a majority in principal amount of the outstanding debt securities of the particular series affected, and some changes do not require any approval at all. *(Sections 901 and 902)*

Changes Requiring Your Approval. First, there are changes that cannot be made to debt securities without the consent of each holder affected. These include changes that:

reduce the
percentage
of holders
of debt
securities
who must
consent to a
waiver or
amendment
of the
indenture;

reduce the
rate of
interest on
any debt
security or
change the
time for
payment of
any interest;

reduce the
principal or
premium
due on any
debt
security or
change the
stated
maturity
date of any
security;

reduce the amount of, or postpone the date fixed for, the payment of any sinking funds;

change the place or currency of payment on a debt security;

change the right of holders to waive an existing default by majority vote;

modify the provisions of the junior subordinated indenture with respect to the subordination of the junior subordinated debt securities in a manner adverse to you;

impair your right to sue for payment;
or

make any change to this list of changes that requires your specific approval.

(Section 902)

Changes Requiring a Vote of Not Less Than a Majority. The second type of change to the indentures and the debt securities requires a vote in favor by security holders owning not less than a majority of the principal amount of the

particular series affected. Most changes fall into this category, except for clarifying changes and certain other specified changes that would not adversely affect holders of the debt securities in any material respect (see *Changes Not Requiring Vote of Holders*). Not less than a majority vote is also required to waive any past default, except a failure to pay principal or interest and default in the certain covenants and provisions of the indenture that cannot be amended without the consent of the holder of each security. (*Sections 513 and 902*)

Changes Not Requiring Vote of Holders. The third type of change to the indentures and the debt securities do not require a vote of any holders. These include changes that:

evidence the
succession of
another
person to First
Horizon;

add to the
covenants of
First Horizon
for the benefit
of the holders;

add any
additional
events of
default for the
benefit of the
holders;

permit or
facilitate the
issuance of
debt securities
in bearer
form,
registrable or
not
registrable,
and with or
without
interest
coupons;

permit or
facilitate the
issuance of
securities in
uncertificated
form;

add
guarantees for
the benefit of
the holders;

secure the
debt
securities;

evidence and
provide for
the
acceptance of
appointment
by a successor
trustee;

change any
provisions to
comply with
the rules or
regulations on
any securities
exchange or
automated
quotation
system on
which any
debt securities
may be listed
or traded;

cure any
ambiguity,
correct or
supplement
any provision
which may be
defective or
inconsistent
with other
provisions in
the indenture;

do not
adversely
affect holders
of the debt
securities in
any material
respect; and

permit or
facilitate the
satisfaction
and discharge
or defeasance
or covenant
defeasance.

(Section 901)

Further Details Concerning Voting. When taking a vote, we will use the following rules to decide how much principal amount to attribute to a debt security:

For original
issue discount
debt
securities, we
will use the
principal
amount that
would be due
and payable
on the date in
question if the
maturity of
the debt
securities
were
accelerated to
that date
because of a
default.

For debt
securities the
principal
amount of
which is not
determinable,
an amount
determined in
the manner
prescribed for
such debt
security.

For debt
securities
denominated
in one or
more foreign

currencies,
currency units
or composite
currencies, we
will use the
U.S. dollar
equivalent
determined on
the date of
original
issuance of
these debt
securities.

Debt securities will not be considered outstanding, and therefore not eligible to vote, if we have deposited or set aside in trust for you money for their payment or redemption. (*Section 101*)

We will generally be entitled to set any day as a record date for the purpose of determining the holders of outstanding debt securities that are entitled to vote or take other action under the

indenture. If we set a record date for a vote or other action to be taken by holders of a particular series, that vote or action may be taken only by persons who are holders of outstanding debt securities of that series on the record date and must be taken within 180 days following the record date. (*Section 104*)

Street name and other indirect holders, including holders of any debt securities issued as a global security, should consult their banks or brokers for information on how approval may be granted or denied if we seek to change the indenture or the debt securities or request a waiver.

Subordination

In the case of junior subordinated debt securities, the payment of principal, any premium and interest on the debt securities will be subordinated in right of payment to the prior payment in full of all our senior debt. This means that in certain circumstances where we may not be making payments on all of our senior debt as they come due, the holders of all our senior debt will be entitled to receive payment in full of all amounts that are due or will become due on the senior debt before you and the other holders of junior subordinated debt securities will be entitled to receive any amounts on such debt securities. These circumstances include:

Any
liquidation,
dissolution or
winding up of
our company.

An
assignment or
marshalling
of our assets
and liabilities
for the benefit
of our
creditors.

We file for
bankruptcy or
certain other
events in
bankruptcy,
insolvency or
similar
proceedings
occur.

The maturity
of the junior
subordinated
debt securities
is accelerated.
For example,
the entire
principal

amount of a series of debt securities may be declared to be due and immediately payable or may be automatically accelerated due to an event of default.

(Sections 1402 and 1403)

The applicable prospectus supplement relating to any offering of junior subordinated debt securities will describe the specific subordination provisions. However, unless otherwise noted in the applicable prospectus supplement, junior subordinated debt securities will be subordinate and junior in right of payment to any existing and outstanding senior debt of First Horizon National Corporation.

In addition, we are not permitted to make payments of principal, any premium or interest on the junior subordinated debt securities if we default in our obligation to make payments on senior debt and do not cure such default, or if an event of default that permits the holders of senior debt to accelerate the maturity of the senior debt occurs. *(Sections 1401, 1402 and 1404)*

These subordination provisions mean that if we are insolvent a holder of our senior debt may ultimately receive out of our assets more than a holder of the same amount of junior subordinated debt securities and a creditor of ours that is owed a specific amount but who owns neither our senior debt nor the junior subordinated debt securities may ultimately receive less than a holder of the same amount of senior debt.

The junior subordinated indenture defines *senior debt*, with respect to any series of junior subordinated debt securities, as the principal of (and premium, if any) and interest, on debt, which includes, among other items, all indebtedness and obligations of, or guaranteed or assumed by, First Horizon National Corporation for borrowed money or evidenced by bonds, debentures, notes or other similar instruments, whether incurred on or prior to the date of the junior subordinated indenture or thereafter incurred; provided, however, that senior debt shall not be deemed to include any debt that by its terms is subordinate to, or ranks equally with, the subordinated debt securities of such series. *(Section 101)*

Restrictive and Maintenance Covenants

We will describe any material restrictive covenants for any series of debt securities in the applicable prospectus supplement. Unless otherwise indicated in the applicable prospectus

supplement, the debt securities will not be entitled to have the benefit of any covenant that restricts or limits our business or operations.

Discharge and Defeasance of Our Obligations

The following discussion of full defeasance and covenant defeasance will be applicable to your series of debt securities only if we choose to have them apply to that series. If we do so choose, we will state that in the applicable prospectus supplement. (*Section 1301*)

Full Defeasance

If there is a change in federal tax law, as described below, we can legally release ourselves from any payment or other obligations on the debt securities, called full defeasance, if we put in place the following other arrangements for you to be repaid:

We must deposit in trust for your benefit and the benefit of all other direct holders of the debt securities a combination of money and U.S. government or U.S. government agency notes or bonds that will generate enough cash to make interest, principal and any other payments on the debt securities on their various due dates.

There must be a change in current federal tax law or an

IRS ruling that lets us make the above deposit without causing you to be taxed on the debt securities any differently than if we did not make the deposit and just repaid the debt securities in the ordinary course.

We must deliver to the trustee a legal opinion of our counsel confirming the tax law change described above.

(Sections 1302 and 1304)

If we accomplish full defeasance, as described above, you would have to rely solely on the trust deposit for repayment on the debt securities. You could not look to us for repayment in the event of any shortfall. In the case of defeasance of the junior subordinated debt securities, you would also be released from the subordination provisions of those debt securities.

Covenant Defeasance

Under current federal tax law, we can make the same type of deposit described above and be released from some of the restrictive covenants in the debt securities. This is called "covenant defeasance". In that event, you would lose the protection of those restrictive covenants but would gain the protection of having money and/or U.S. government or agency securities set aside in trust to repay the debt securities and, in the case of junior subordinated debt securities, you would be released from the subordination provisions of those debt securities. In order to achieve covenant defeasance, we must do the following:

We must deposit in trust for your benefit and the benefit of all other direct holders of the debt securities a combination of money and U.S. government or U.S. government agency notes or bonds that will generate enough cash to make interest, principal and any other payments on the debt securities on their various due dates.

We must deliver to the trustee a legal opinion of our counsel confirming that under current federal income tax law we may make the above deposit without causing you to be taxed on the debt securities any

differently
than if we
did not make
the deposit
and just
repaid the
debt
securities
ourselves.

If we accomplish covenant defeasance, the following provisions of the indenture and the debt securities would no longer apply:

Any
covenants
applicable to
the series of
debt
securities and
described in
the
applicable
prospectus
supplement.

The events of
default
relating to
breach of
covenants
and
acceleration
of the
maturity of
other debt.

The defaults
relating to
breach of
covenants as
applicable to
junior
subordinated
debt
securities.

The
subordination
provisions on
the junior
subordinated
debt
securities.

If we accomplish covenant defeasance, you can still look to us for repayment of the debt securities if a shortfall in the trust deposit occurs. In fact, if one of the remaining events of default occurred (such as our bankruptcy) and the debt securities become immediately due and payable, there may be such a shortfall. Depending on the event causing the default, you may not be able to obtain payment of the shortfall. (*Sections 1303 and 1304*)

Redemption

We May Choose to Redeem Your Debt Securities

We may be able to redeem your debt securities before their normal maturity. If we have this right with respect to your specific debt securities, the right will be described in the applicable prospectus supplement. It will also specify when we can exercise this right and how much we will have to pay in order to redeem your debt securities.

If we choose to redeem your debt securities, we will mail written notice to you not less than 30 days nor more than 60 days prior to redemption (*Section 1104*). Also, you may be prevented from exchanging or transferring your debt securities when they are subject to redemption, as described under *Additional Mechanics Exchange and Transfer* above. (*Section 305*)

Default and Related Matters

Ranking Compared to Other Creditors

The debt securities are not secured by any of our property or assets. Accordingly, your ownership of debt securities means you are one of our unsecured creditors. The senior debt securities will not be subordinated to any of our other debt obligations and therefore rank equally with all our other unsecured and unsubordinated indebtedness. The junior subordinated debt securities will be subordinate and junior in right of payment to any of our senior debt. The trustee has a right to receive payment for its administrative services prior to any payment to security holders after a default. (*Section 506*)

Events of Default Senior Debt Securities

You will have special rights if an event of default occurs and is not cured, as described in this subsection. The term event of default with respect to any series of senior debt securities means any of the following:

We fail to
make any
interest
payment on
any senior debt
security of that
series when
such interest

becomes due,
and we do not
cure this
default within
30 days.

We fail to
make any
payment of
principal or
premium on
any senior debt
security of that
series when it
is due at the
maturity.

We do not
deposit a
sinking fund
payment with
regards to any
senior debt
security of that
series on the
due date, but
only if the
payment is
required under
provisions
described in
the applicable
prospectus
supplement.

We fail to
comply with
covenants or
warranties in
the senior
indenture
(other than a
covenant or
warranty
solely for the
benefit of the
senior debt
securities other
than that
series), and
after we have

been notified of the default by the trustee or holders of not less than 25% in principal amount of that series, we do not cure the default within 30 days.

We or one of our significant subsidiaries (as defined below) default on any indebtedness having an aggregate amount of at least \$100,000,000, this default is either the payment of principal or results in acceleration of the indebtedness, and after we have been notified of the default by the trustee or holders of 25% in principal amount of the series we do not cure the default within 30 days.

We file for bankruptcy, or other events in bankruptcy, insolvency or

reorganization
occur.

Any other event of default provided with respect to senior debt security of that series as described in the prospectus supplement, subject to any applicable cure period. (*Section 501*)

A significant subsidiary is a subsidiary having, as of the last day of the most recent calendar quarter ended at least 30 days prior to the date of such determination (or if the most recent calendar quarter ended 30 days or less prior to the date of such determination, as of the preceding recent calendar quarter), total assets equal to or exceeding 20% of the total assets of First Horizon and our subsidiaries on a consolidated basis.

The senior indenture provides that, if any event of default for senior debt securities of any series outstanding occurs and is continuing, either the trustee or the holders of not less than 25% in principal amount of the outstanding senior debt securities of that series may declare the principal amount (or, if the debt securities of that series are original issue discount debt securities, such principal amount portion as the terms of that series specify) of all senior debt securities of that series to be due and payable immediately. However, no such declaration is required upon certain bankruptcy events. In addition, upon fulfillment of certain conditions, this declaration may be annulled and past defaults waived by the holders of not less than a majority in principal amount of the outstanding senior debt securities of that series on behalf of all senior debt securities holders of that series. (*Sections 502 and 513*)

The senior indenture contains a provision entitling the trustee, acting under the required standard of care, to be indemnified by the holders of any outstanding senior debt securities series before proceeding to exercise any right or power under the senior indenture at the holders' request. (*Section 603*) The holders of a majority in principal amount of outstanding senior debt securities of any series may direct the time, method and place of conducting any proceeding for any remedy available to the trustee, or exercising any trust or other power conferred on the trustee, with respect to the senior debt securities of such series. The trustee, however, may decline to act if that direction is contrary to law or the senior indenture. (*Section 512*)

Street name and other indirect holders should consult their banks or brokers for information on how to give notice or direction to or make a request of the trustee and how to make or cancel a declaration of acceleration.

Events of Default - Junior Subordinated Debt Securities

The principal payment on junior subordinated debt securities may be accelerated only upon an event of default. There is no acceleration right in the case of a default in the payment of interest or principal prior to the maturity date or a default if we fail to perform any covenant in the junior subordinated indenture, unless a specific series of junior subordinated debt securities provides otherwise, which will be described in the relevant prospectus supplement.

Events of Default: The junior subordinated indenture defines an event of default as certain events involving our bankruptcy, insolvency or reorganization and any other event of default provided for the junior subordinated debt securities of that series. (*Section 501*). You will have special rights if an event of default occurs and is not cured, as described in the next paragraph.

If an event of default with respect to junior subordinated debt securities of any series occurs and is continuing, either the trustee or the holders of not less than 25% in principal amount of the outstanding junior subordinated debt securities of that series may declare the principal amount (or, if the debt securities of that series are original issue discount debt securities, such principal amount portion as the terms of that series specify) of all junior subordinated debt securities of that series to be due and payable immediately. The holders of not less than a majority in principal amount of the outstanding junior subordinated debt securities of that series may waive an event of default resulting in acceleration of the junior subordinated debt securities of such series, but only if all payments due on the junior subordinated debt securities of that series (other than those due as a result of acceleration) have been made, all defaults with respect to junior subordinated debt securities of that series have been remedied and certain other conditions have been met. (*Section 502*)

Subject to junior subordinated indenture provisions relating to the trustee's duties, in case a default shall occur and be continuing, the trustee will be under no obligation to exercise any of its rights or powers under the junior subordinated indenture at the holders' request or direction, unless

such holders shall have offered to the trustee reasonable indemnity. (*Section 603*) Subject to such indemnification provisions, the holders of a majority in principal amount of the outstanding junior subordinated debt securities of that series will have the right to direct the time, method and place of conducting any proceeding for any remedy available to the trustee or exercising any trust or power conferred on the subordinated trustee. (*Section 512*)

Street name and other indirect holders should consult their banks or brokers for information on how to give notice or direction to or make a request of the trustee and how to make or cancel a declaration of acceleration.

We Will Give the Trustee Information About Defaults Annually

Every year we will give to the trustee a written statement of one of our officers certifying that to the best of his or her knowledge we are in compliance with the indenture and the debt securities, or else specifying any default. (*Section 1004*)

Original Issue Discount Debt Securities

The debt securities may be issued as original issue discount debt securities, which will be offered and sold at a discount from their principal amount. Only a discounted amount will be due and payable when the trustee declares the acceleration of the maturity of these debt securities after an event of default has occurred and continues, as described under *Default and Related Matters* above.

Conversion of Convertible Junior Subordinated Debt Securities

Your junior subordinated debt securities may be convertible into shares of our common stock, preferred stock or other debt securities if the applicable prospectus supplement so provides. If your junior subordinated debt securities are convertible or exchangeable, the applicable prospectus supplement will include provisions as to whether conversion or exchange is mandatory, at your option or at our option. The applicable prospectus supplement would also include provisions regarding the adjustment of the number of shares of our common stock, preferred stock or other debt securities you will receive upon conversion or exchange. In addition, the applicable prospectus supplement will contain the conversion price or exchange price and mechanisms for adjusting this price.

Governing Law

The indentures and debt securities will be governed by, and construed in accordance with, the laws of the State of New York.

Regarding the Trustee

The senior indenture and the junior subordinated indenture provide that, except during the continuance of an event of default, the trustee will perform only such duties as are specifically set forth therein. Each indenture and the provisions of the Trust Indenture Act of 1939 (the "TIA") contain limitations on the rights on the trustee, should it become a creditor of ours, to obtain payment of claims in certain cases or to realize on certain property received by it in respect of any such claims, as security or otherwise. The trustee is permitted to engage in other transactions; provided, however, that if it becomes subject to any conflicting interest (as defined under the TIA), it must eliminate such conflict or resign.

Legal Ownership of Debt Securities

Unless the applicable prospectus supplement specifies otherwise, we will issue debt securities initially in the form of a global security. However, we may elect to issue debt securities in fully registered or bearer form or both. We refer to those who have debt securities registered in their own names on the books that we or our agent maintain for this

purpose, as the holders of those

debt securities. These persons are the legal holders of the debt securities. We refer to those who, indirectly through others, own beneficial interests in debt securities that are not registered in their own names as indirect holders of those debt securities. As we discuss below, indirect holders are not legal holders, and investors in debt securities issued in book-entry form or in street name will be indirect holders.

Street Name Holders

In the future we may terminate a global security under the circumstances specified under *What is a Global Security? Special Situations When a Global Security Will Be Terminated* or issue debt securities initially in non-global form. In these cases, investors may choose to hold their debt securities in their own names or in street name. Debt securities held by an investor in street name would be registered in the name of a bank, broker or other financial institution that the investor chooses, and the investor would hold only a beneficial interest in those debt securities through an account he or she maintains at that institution.

For debt securities held in street name, we will recognize only the intermediary banks, brokers and other financial institutions in whose names the debt securities are registered as the holders of those debt securities and we will make all payments on those debt securities to them. These institutions pass along the payments they receive to their customers who are the beneficial owners, but only because they agree to do so in their customer agreements or because they are legally required to do so. Investors who hold debt securities in street name will be indirect holders, not legal holders, of those debt securities.

Legal Holders

Our obligations, as well as the obligations of the trustee and those of any third parties employed by us or the trustee, run only to the legal holders of the debt securities. We do not have obligations to investors who hold beneficial interests in global debt securities, in street name or by any other indirect means. This will be the case whether an investor chooses to be an indirect holder of a debt security or has no choice because we are issuing the debt securities only in global form.

For example, once we make a payment or give a notice to the holder, we have no further responsibility for the payment or notice even if that holder is required, under agreements with depositary participants or customers or by law, to pass it along to the indirect holders but does not do so. Similarly, if we want to obtain the approval of the holders for any purpose for example, to amend the applicable indenture or to relieve us of the consequences of a default or of our obligation to comply with a particular provision of the applicable indenture we would seek approval only from the holders, and not the indirect holders, of the debt securities. Whether and how the holders contact the indirect holders is up to the holders.

When we refer to you, we mean those who invest in the debt securities being offered by this prospectus, whether they are the holders or only the indirect holders of those debt securities. When we refer to your debt securities, we mean the debt securities in which you hold a direct or indirect interest.

Special Considerations for Indirect Holders

If you hold debt securities through a bank, broker or other financial institution, either in book-entry form or in street name, you should check with your own institution to find out:

how it
handles
debt
securities

payments
and
notices;

whether it
imposes
fees or
charges;

how it
would
handle a
request
for the
holders
consent, if
ever
required;

how it
would
exercise
rights
under the
debt
securities
if there
were a
default or
other
event
triggering
the need
for
holders to
act to
protect
their
interests;
and

if the debt securities are in book-entry form, how the depositary's rules and procedures will affect these matters.

Book-Entry Holders

If we issue debt securities in global i.e., book-entry form, the debt securities will be represented by one or more global debt securities registered in the name of a financial institution that holds them as depositary on behalf of other financial institutions that participate in the depositary's book-entry system. These participating institutions, in turn, hold beneficial interests in the debt securities on behalf of themselves or their customers.

For registered debt securities, only the person in whose name a debt security is registered is recognized under the indenture as the holder of that debt security. Debt securities issued in global form will be issued in the form of a global security registered in the name of the depositary or its nominee. Consequently, for debt securities issued in global form, we will recognize only the depositary as the holder of the debt securities and we will make all payments on the debt securities to the depositary. The depositary passes along the payments it receives to its participants, which in turn pass the payments along to their customers who are the beneficial owners. The depositary and its participants do so under agreements they have made with one another or with their customers; they are not obligated to do so under the terms of the indenture.

As a result, investors in a book-entry security will not own debt securities directly. Instead, they will own beneficial interests in a global security, through a bank, broker or other financial institution that participates in the depositary's book-entry system or holds an interest through a participant. As long as the debt securities are issued in global form, investors will be indirect holders, and not holders, of the debt securities.

What Is a Global Security?

A global security is a security that represents one or more debt securities and is held by a depositary. Generally, all debt securities represented by the same global securities will have the same terms.

Each debt security issued in book-entry form will be represented by a global security that we deposit with and register in the name of a financial institution that we select or its nominees. The financial institution that we select for this purpose is called the depositary. Unless we specify otherwise in the applicable prospectus supplement, The Depository Trust Company, New York, New York, known as *DTC*, will be the depositary for all debt securities issued in book-entry form.

A global security may not be transferred to or registered in the name of anyone other than the depositary, its nominee or a successor depositary, unless special termination situations arise. We describe those situations below under *Special Situations When a Global Security Will Be Terminated*. As a result of these arrangements, the depositary, or its nominee, will be the sole registered owner and holder of all debt securities represented by a global security, and investors will be permitted to own only beneficial interests in a global security. Beneficial interests must be held by means of an account with a broker, bank or other financial institution that in turn has an account with the depositary or

with another institution that does. Thus, an investor whose security is represented by a global security will not be a holder of the debt security, but only an indirect holder of a beneficial interest in the global security.

If the applicable prospectus supplement for a particular debt security indicates that the debt security will be issued in global form only, then the debt security will be represented by a global security at all times unless and until the global security is terminated. We describe the situations in which this can occur below under *Special Situations When a Global Security Will Be Terminated* .

DTC has advised us as follows: DTC is a limited-purpose trust company organized under the New York Banking Law, a banking organization within the meaning of the New York Banking Law, a member of the Federal Reserve System, a clearing corporation within the meaning of the New York Uniform Commercial Code and a clearing agency registered pursuant to the provisions of Section 17A of the Exchange Act. DTC holds securities that DTC participants deposit with DTC.

DTC also facilitates the post-trade settlement among DTC participants of sales and other securities transactions in deposited securities through electronic computerized book-entry transfers and pledges between DTC participants accounts. This eliminates the need for physical movement of securities certificates. DTC participants include both U.S. and non-U.S. securities brokers and dealers, banks, trust companies, clearing corporations, and certain other organizations. DTC is a wholly owned subsidiary of The Depository Trust & Clearing Corporation (DTCC). DTCC is the holding company for DTC, National Securities Clearing Corporation and Fixed Income Clearing Corporation, all of which are registered clearing agencies. DTCC is owned by the users of its regulated subsidiaries. Indirect access to the DTC system is also available to others such as both U.S. and non-U.S. brokers and dealers, banks, trust companies and clearing corporations that clear through or maintain a custodial relationship with a DTC participant, either directly or indirectly. The rules applicable to DTC participants are on file with the SEC.

Special Considerations for Global Securities

As an indirect holder, an investor's rights relating to a global security will be governed by the account rules of the investor's financial institution and of the depository, as well as general laws relating to debt securities transfers. We do not recognize this type of investor as a holder of debt securities and instead deal only with the depository that holds the global security.

If debt securities are issued only in the form of a global security, an investor should be aware of the following:

An investor cannot cause the debt securities to be registered in his or her name, and cannot obtain nonglobal certificates for his or her interest in the debt securities, except in the special situations we describe below;

An investor will be an indirect holder and must look to his or her own bank or broker for payments on the debt securities and protection of his or her legal rights relating to the

debt securities,
as we describe
under *Legal
Ownership of
Debt
Securities*
above;

An investor
may not be able
to sell interests
in the debt
securities to
some insurance
companies and
to other
institutions that
are required by
law to own their
debt securities
in
non-book-entry
form;

An investor
may not be able
to pledge his or
her interest in a
global security
in
circumstances
where
certificates
representing the
debt securities
must be
delivered to the
lender or other
beneficiary of
the pledge in
order for the
pledge to be
effective;

The depositary's
policies, which
may change
from time to
time, will
govern
payments,

transfers,
exchanges and
other matters
relating to an
investor's
interest in a
global security.
We and the
trustee have no
responsibility
for any aspect
of the
depository's
actions or for its
records of
ownership
interests in a
global security.
We and the
trustee also do
not supervise
the depository
in any way;

The depository
may (and we
understand that
DTC will)
require that
those who
purchase and
sell interests in
a global
security within
its book-entry
system use
immediately
available funds
and your broker
or bank may
require you to
do so as well;
and

Financial
institutions that
participate in
the depository's
book-entry
system, and
through which

an investor holds its interest in a global security, may also have their own policies affecting payments, notices and other matters relating to the debt securities. There may be more than one financial intermediary in the chain of ownership for an investor. We do not monitor and are not responsible for the actions of any of those intermediaries.

Special Situations When a Global Security Will Be Terminated

In the special situations described below, the global security will terminate and interests in it will be exchanged for physical certificates representing those interests. After that exchange, the choice of whether to hold debt securities directly or in street name will be up to the investor. Investors must consult their own bank or brokers to find out how to have their interests in debt

securities transferred to their own name, so that they will be direct holders. We have described the rights of holders and street name investors above under *Legal Ownership of Debt Securities* .

The global security will terminate when the following special situations occur:

if the
depository
notifies us
that it is
unwilling,
unable or
no longer
permitted
under
applicable
law to
continue as
depository
for that
global
security and
we do not
appoint
another
institution
to act as
depository
within 90
days;

if we notify
the trustee
that we
wish to
terminate
that global
security; or

if an event
of default
has
occurred
with regard
to debt
securities
represented
by that
global
security and
has not

been cured
or waived.
We discuss
defaults
above under
*Default
and Related
Matters* .

The applicable prospectus supplement may also list additional situations for terminating a global security that would apply only to the particular series of debt securities covered by the prospectus supplement. When a global security terminates, the depository and not we or the trustee is responsible for deciding the names of the institutions that will be the initial direct holders. (*Section 305*)

DESCRIPTION OF COMMON STOCK

The following information outlines some of the provisions in First Horizon's charter and bylaws and the Tennessee Business Corporation Act (the TNBC Act). This information is qualified in all respects by reference to the provisions of First Horizon's restated charter (Charter), which is incorporated by reference into this prospectus by reference to First Horizon's Current Report on Form 8-K filed on April 20, 2011, and bylaws, as amended and restated (Bylaws), which are incorporated by reference into this prospectus by reference to First Horizon's Current Report on Form 8-K filed on October 17, 2012 (see *Where You Can Find More Information*).

Authorized Common Stock

Our authorized common stock consists of 400,000,000 shares of common stock, par value \$0.625 per share. As of September 30, 2012, 247,133,973 shares of common stock were issued and outstanding and approximately 23.2 million shares were reserved for issuance under various employee plans. Our common stock is listed on the New York Stock Exchange under the symbol FHN .

General

Subject to the prior rights of any holders of our preferred stock then outstanding, common shareholders are entitled to receive such dividends as our board of directors may declare out of funds legally available for these payments. In the event of liquidation, dissolution or winding up of First Horizon, common shareholders are entitled to receive our net assets remaining after paying all liabilities and after paying all preferred stockholders the full preferential amounts to which those holders are entitled.

Subject to the prior rights of any preferred stockholders, common shareholders have all voting rights, each share being entitled to one vote on all matters requiring shareholder action. There is no cumulative voting in the election of directors and the affirmative vote of a majority of the votes cast is required to elect the nominees as directors. Common shareholders have no preemptive, subscription or conversion rights. All of the outstanding shares of common stock are, and any common stock issued and sold pursuant to this prospectus and the applicable prospectus supplement will be, fully paid and nonassessable.

Wells Fargo Shareowner Services is the transfer agent and dividend disbursement agent for the common stock.

Anti-takeover Provisions and Statutory Restrictions

Existence of the provisions below could result in First Horizon being less attractive to a potential acquirer, or result in our shareholders receiving less for their shares of common stock than otherwise might be available if there is a takeover.

Our Charter and Bylaws

Our Charter and Bylaws contain various provisions which may discourage or delay attempts to gain control of us. Our Charter provisions include:

empowering
the board of
directors to
fill any
newly
created
directorships
resulting
from an
increase in
the number
of directors;

providing
that only the
board of
directors may
fill vacancies
on the board,
including
those caused
by an
increase in
the size of
the board,
except for
vacancies on
the board
resulting
from a
director s
removal
(which
shareholders
may choose
to fill);

providing
that

shareholders
may remove
a director
only for
cause by the
affirmative
vote of at
least a
majority of
the voting
power of all
outstanding
voting stock;
and

requiring the
affirmative
vote by
holders of at
least 80% of
the voting
power of all
outstanding
voting stock
to alter any
of the above
provisions.

Our Bylaws include provisions

authorizing
only the
board of
directors or
the chairman
of the board
of directors to
call a special
meeting of
shareholders;

requiring
timely notice
before a
shareholder
may
nominate a
director or
propose other
business to be
presented at

shareholders
meetings; and

requiring the
affirmative
vote by
holders of at
least 80% of
the voting
power of all
outstanding
voting stock
to alter any of
the above
provisions.

In addition, in certain instances, the ability of our board to issue authorized but unissued shares of common stock or preferred stock may have an anti-takeover effect.

Regulatory Restrictions

The Change in Bank Control Act of 1978, as amended (the Change in Bank Control Act), prohibits a person, acting directly or indirectly or through or in concert with one or more other persons, from acquiring control of a bank holding company, such as us, unless

the Federal
Reserve has
been given
60 days prior
written notice
of the
proposed
acquisition;
and

within that
time period,
the Federal
Reserve has
not issued a
notice
disapproving
the proposed
acquisition or
extending for
up to another
30 days the
period during
which such a
disapproval
may be

issued.

An acquisition may be made before expiration of the disapproval period if the Federal Reserve issues written notice that it intends not to disapprove the action. The acquisition of 10% or more of a class of voting stock of a bank holding company with publicly held securities, such as First Horizon, is generally presumed to constitute the acquisition of control.

Under the BHC Act, any company (which is broadly defined in the BHC Act) would be required to obtain Federal Reserve approval before acquiring control over us. Control generally means

the
ownership or
control of
25% or more
of a class of
voting
securities,

the ability to
elect a
majority of
the directors,
or

the ability
otherwise to
exercise a
controlling
influence
over
management
or policies;
this is a test
that has been
broadly
applied by
the Federal
Reserve.

Upon the acquisition of control, a company would be regulated as a bank holding company under the BHC Act with respect to First Horizon. In addition, if the acquiror is a bank holding company (or a foreign bank subject to the International Banking Act of 1978, as amended (the IBA)), approval is required before acquiring more than 5% of our outstanding common stock.

Tennessee Law

The Tennessee Business Combination Act contains business combination statutes that protect domestic corporations from hostile takeovers, and from actions following such a takeover, by prohibiting some transactions once an acquiror has gained a significant holding in the corporation.

DESCRIPTION OF PREFERRED STOCK

The following information is a description of certain general terms of First Horizon's preferred stock. The specific terms of a series of preferred stock will be contained in the prospectus supplement relating to that series of preferred stock. The following description of the preferred stock and any description of preferred stock in a prospectus supplement may not be complete and is subject to and qualified in all respects by reference to the articles of amendment to the Charter relating to each series of preferred stock, which we will file with the SEC in connection with the public offering of any preferred stock.

General

Under our Charter, our board of directors is authorized, without stockholder approval, to adopt resolutions providing for the issuance of up to 5,000,000 shares of preferred stock, no par value, in one or more series. No shares of preferred stock were outstanding as of the date of this prospectus.

The board of directors is authorized to determine the voting powers (if any), designation, preferences and relative, participating, optional and/or other special rights, and the qualifications, limitations or restrictions thereof, for each series of preferred stock that may be issued, and to fix the number of shares of each such series.

Prior to the issuance of any series of preferred stock, the board of directors will adopt resolutions creating and designating the series as a series of preferred stock, and the articles of amendment setting forth the preferences, rights, limitations and other terms of such series will be filed with the Secretary of State of Tennessee.

The preferred stock will have the dividend, redemption, liquidation and voting rights set forth below unless otherwise described in a prospectus supplement relating to a particular series of the preferred stock. The applicable prospectus supplement will describe the following terms of the preferred stock:

the title of such preferred stock and the number of shares or fractional interests therein offered;

the amount of liquidation preference per share;

the initial public offering price at which such preferred stock will be issued;

the dividend rate or method of calculation,

the payment dates for dividends and the place or places where the dividends will be paid, whether dividends will be cumulative or noncumulative, and, if cumulative, the dates from which dividends will begin to accumulate;

any redemption or sinking fund provisions;

any conversion or exchange rights;

any voting rights;

any listing of such preferred stock on any securities exchange;

whether we have elected to offer depositary shares representing fractional interests in the preferred stock, as described below; and

any other rights, preferences, privileges,

limitations and
restrictions that
are not
inconsistent
with the terms
of our Charter.

When we issue and receive payment for shares of preferred stock, the shares will be fully paid and nonassessable, which means that its holders will have paid their purchase price in full and that we may not ask them to surrender additional funds. Holders of preferred stock will not have any preemptive or subscription rights to acquire more of our stock. Unless otherwise specified in the prospectus supplement relating to a particular series of preferred stock, each series of preferred stock will rank equally in all respects with each other series of preferred stock and prior to our common stock as to dividends and any distribution of our assets. In addition, unless the applicable prospectus supplement indicates otherwise, we may reopen a previous issue of a series of preferred stock by issuing additional preferred stock of such series.

The rights of holders of the preferred stock offered may be adversely affected by the rights of holders of any shares of preferred stock that may be issued in the future. Our board of directors may cause shares of preferred stock to be issued in public or private transactions for any proper corporate purpose and may include issuances to obtain additional financing in connection with acquisitions, and issuances to officers, directors and employees pursuant to benefit plans. Our board of directors' ability to issue shares of preferred stock may discourage attempts by others to acquire control of us without negotiation with our board of directors, as it may make it difficult for a person to acquire us without negotiating with our board of directors.

Dividends

Holders of each series of preferred stock will be entitled to receive, when, as and if declared by the board of directors out of funds legally available for payment, cash dividends, payable at such dates and at such rates as described in the applicable prospectus supplement. Such rates may be fixed or variable or both. Each declared dividend shall be payable to holders of record as they appear at the close of business on our stock books on such record dates as are determined by the board of directors. Dividends on any series of preferred stock may be cumulative or noncumulative, as described in the applicable prospectus supplement.

We may not declare, pay or set apart funds for payment of dividends on a particular series of preferred stock unless full dividends on any other series of preferred stock that ranks equally with or senior to the series of preferred stock have been paid or sufficient funds have been set apart for payment for either of the following:

all prior
dividends
periods of the
other series of
preferred stock
if it pays
dividends on a
cumulative
basis; or

the
immediately
preceding
dividend
period of the
other series of
preferred stock
if it pays
dividends on a
noncumulative
basis.

Partial dividends declared on shares of any series of preferred stock and other series of preferred stock ranking on an equal basis as to dividends will be declared pro rata. A pro rata declaration means that the ratio of dividends declared per share to accrued dividends per share will be the same for each series of preferred stock.

Our ability to pay dividends on our preferred stock is subject to policies established by the Federal Reserve.

Redemption

If specified in an applicable prospectus supplement, a series of preferred stock may be redeemable at any time, in whole or in part, at our option or the holder's, and may be redeemed mandatorily.

Any restriction on the repurchase or redemption by us of our preferred stock, including while there is an arrearage in the payment of dividends, will be described in the applicable prospectus supplement.

Any partial redemptions of our preferred stock will be made in a way that our board of directors decides is equitable.

Unless we default in the payment of the redemption price, dividends will cease to accrue after the redemption date on shares of our preferred stock called for redemption and all rights of holders of these shares will terminate except for the right to receive payment of the redemption price.

Liquidation Preference

Upon any voluntary or involuntary liquidation, dissolution or winding up of First Horizon, holders of each series of preferred stock will be entitled to receive distributions upon liquidation in the amount described in the applicable prospectus supplement, plus an amount equal to any accrued and unpaid dividends. These distributions will be made before any distribution is made on any

securities ranking junior to the preferred stock with respect to liquidation, including our common stock. If the liquidation amounts payable relating to the preferred stock of any series and any other securities ranking on a parity regarding liquidation rights are not paid in full, the holders of the preferred stock of that series and the other securities will share in any distribution of our available assets on a ratable basis in proportion to the full liquidation preferences (which includes declared and unpaid dividends in the case of non-cumulative stock and unpaid, accrued, cumulative dividends, whether or not declared, in the case of cumulative stock) of each security. Holders of the preferred stock will not be entitled to any other amounts from us after they have received their full liquidation preference.

Voting

The holders of preferred stock of each series will have no voting rights, except:

as stated in
the
applicable
prospectus
supplement
and in the
articles of
amendment
establishing
the series; or

as required
by
applicable
law.

Under Federal Reserve regulations, if the holders of the preferred stock become entitled to vote as a class for the election of any directors, the preferred stock may then be deemed a class of voting securities. In that event, a holder of 25% or more of the preferred stock (or 5% or more if the holder exercises a controlling influence over First Horizon, a test that has been broadly defined by the Federal Reserve) that is a company (as broadly defined in the BHC Act) or a holder of 5% or more of the preferred stock that is otherwise a bank holding company (or a foreign bank subject to the IBA) would then be required to obtain the approval of the Federal Reserve to continue to hold that position (and may not be able to vote the stock before receiving approval). In addition, any such company that is not already a bank holding company may then be regulated as a bank holding company with respect to First Horizon in accordance with the BHC Act.

Conversion or Exchange Rights

The terms, if any, on which preferred stock of any series may be converted into or exchangeable for another class or series of our securities will be set forth in the applicable prospectus supplement.

Transfer Agent, Registrar and Dividend Disbursement Agent

The transfer agent, registrar and dividend disbursement agent for each series of preferred stock will be described in the related prospectus supplement.

DESCRIPTION OF DEPOSITARY SHARES

The following briefly summarizes the provisions of the depositary shares and depositary receipts that we may issue from time to time. The prospectus supplement will also state whether any of the generalized provisions summarized below do not apply to the depositary shares or depositary receipts being offered. The following description and any description in a prospectus supplement may not be complete and each is subject to, and qualified in its entirety by reference to the terms and provisions of the form of deposit agreement, which we will file with the SEC in connection with any issuance of depositary shares and depositary receipts.

General

We may choose to offer fractional shares or some multiple of shares of our preferred stock, rather than whole individual shares. If we decide to do so, we will issue the preferred stock in the form of depositary shares. Each depositary share would represent a fraction or multiple of a share of the preferred stock and would be evidenced by a depositary receipt. We will issue depositary shares under a deposit agreement between a depositary, which we will appoint in our discretion, and us.

Deposit Agreement

We will deposit the shares of preferred stock to be represented by depositary shares under a deposit agreement. The parties to the deposit agreement will be:

The First
Horizon
National
Corporation;

a bank or
other
financial
institution
selected by
us and
named in the
applicable
prospectus
supplement,
as preferred
stock
depositary;
and

the holders
from time to
time of
depositary
receipts
issued under
that
depositary
agreement.

Each holder of a depositary share will be entitled to all the rights and preferences of the underlying preferred stock, including, where applicable, dividend, voting, redemption, conversion and liquidation rights, in proportion to the applicable fraction or multiple of a share of preferred stock represented by the depositary share. The depositary shares will be evidenced by depositary receipts issued under the deposit agreement. The depositary receipts will be distributed to those persons purchasing the fractional or multiple shares of preferred stock. A depositary receipt may evidence any number of whole depositary shares.

We will file the deposit agreement, including the form of depositary receipt, with the SEC, either as an exhibit to an amendment to the registration statement of which this prospectus forms a part or as an exhibit to a current report on Form 8-K. See *Where You Can Find More Information* above for information on how to obtain a copy of the form of deposit agreement.

Dividends and Other Distributions

The preferred stock depositary will distribute any cash dividends or other cash distributions received in respect of the deposited preferred stock to the record holders of depositary shares relating to the underlying preferred stock in

proportion to the number of depositary shares owned by the holders. The preferred stock depositary will distribute any property received by it other than cash to the record holders of depositary shares entitled to those distributions, unless it determines that the distribution cannot be made proportionally among those holders or that it is not feasible to make a distribution. In that event, the preferred stock depositary may, with our approval, sell the property and distribute the net proceeds from the sale to the holders of the depositary shares in proportion to the number of depositary shares they own.

The amounts distributed to holders of depositary shares will be reduced by any amounts required to be withheld by the preferred stock depositary or by us on account of taxes or other governmental charges.

Redemption of Preferred Stock

If we redeem preferred stock represented by depositary shares, the preferred stock depositary will redeem the depositary shares from the proceeds it receives from the redemption, in whole or in part, of the preferred stock. The preferred stock depositary will redeem the depositary shares at a price per share equal to the applicable fraction or multiple of the redemption price per share of preferred stock. Whenever we redeem shares of preferred stock held by the preferred stock depositary, the preferred stock depositary will redeem as of the same date the number of depositary shares representing the redeemed shares of preferred stock. If fewer than all the depositary shares are to be redeemed, the preferred stock depositary will select the depositary shares to be redeemed by lot or ratably or by any other equitable method it chooses.

After the date fixed for redemption, the depositary shares called for redemption will no longer be deemed to be outstanding, all dividends with respect to such shares will cease to accrue after the redemption date, and all rights of the holders of those shares will cease, except the right to receive the amount payable and any other property to which the holders were entitled upon the redemption. To receive this amount or other property, the holders must surrender the depositary receipts evidencing their depositary shares to the preferred stock depositary. We will be entitled to receive, from time to time, from the preferred stock depositary any interest accrued on such funds, and the holders of any depositary shares called for redemption shall have no claim to any such interest. Any

funds that we deposit with the preferred stock depositary for any depositary shares that the holders fail to redeem will, to the extent permitted by law, be returned to us after a period of two years from the date we deposit the funds.

Withdrawal of Preferred Stock

Unless the related depositary shares have previously been called for redemption, any holder of depositary shares may receive the number of whole shares of the related series of preferred stock and any money or other property represented by those depositary receipts after surrendering the depositary receipts at the principal office of the preferred stock depositary, paying any taxes, charges and fees provided for in the deposit agreement and complying with any other requirement of the deposit agreement. Holders of depositary shares making these withdrawals will be entitled to receive whole shares of preferred stock, but holders of whole shares of preferred stock will not be entitled to deposit that preferred stock under the deposit agreement or to receive depositary receipts for that preferred stock after withdrawal. If the depositary shares surrendered by the holder in connection with withdrawal exceed the number of depositary shares that represent the number of whole shares of preferred stock to be withdrawn, the preferred stock depositary will deliver to that holder at the same time a new depositary receipt evidencing the excess number of depositary shares.

Voting Deposited Preferred Stock

When the preferred stock depositary receives notice of any meeting at which the holders of any series of deposited preferred stock are entitled to vote, the preferred stock depositary will mail the information contained in the notice to the record holders of the depositary shares relating to the applicable series of preferred stock. Each record holder of the depositary shares on the record date, which will be the same date as the record date for the preferred stock, may instruct the preferred stock depositary to vote the amount of the preferred stock represented by the holder's depositary shares. To the extent possible, the preferred stock depositary will vote the amount of the series of preferred stock represented by depositary shares in accordance with the instructions it receives. We will agree to take all reasonable actions that the preferred stock depositary determines are necessary to enable the preferred stock depositary to vote as instructed. If the preferred stock depositary does not receive specific instructions from the holders of any depositary shares representing a series of preferred stock, it will not vote the shares of that series held by it relating to those depositary shares.

Conversion of Preferred Stock

If the prospectus supplement relating to the depositary shares says that the deposited preferred stock is convertible into or exercisable or exchangeable for common stock, preferred stock of another series or other securities of First Horizon or debt or equity securities of one or more third parties, the following will apply. The depositary shares, as such, will not be convertible into or exercisable or exchangeable for any securities of First Horizon or any third party. Rather, any holder of the depositary shares may surrender the related depositary receipts to the preferred stock depositary with written instructions to instruct us to cause conversion, exercise or exchange of the preferred stock represented by the depositary shares into or for whole shares of common stock, shares of another series of preferred stock or other securities of First Horizon or debt or equity securities of the relevant third party, as applicable. Upon receipt of those instructions and any amounts payable by the holder in connection with the conversion, exercise or exchange, we will cause the conversion, exercise or exchange using the same procedures as those provided for conversion, exercise or exchange of the deposited preferred stock. If only some of the depositary shares are to be converted, exercised or exchanged, a new depositary receipt or receipts will be issued for any depositary shares not to be converted, exercised or exchanged.

Amendment and Termination of the Deposit Agreement

We may amend the form of depositary receipt evidencing the depositary shares and any provision of the deposit agreement at any time and from time to time by agreement with the preferred stock depositary. However, any amendment that imposes additional charges or materially and adversely alters the rights of the holders of depositary shares will not be effective unless the holders of at least a majority (or, in the case of an amendment that would under the articles of amendment establishing the underlying preferred stock require a greater vote if the holder of the depositary shares directly held the shares of such preferred stock represented thereby, such greater vote required by the articles of amendment) of the affected depositary shares then outstanding approve the amendment. We will make no amendment that impairs the right of any holder of depositary shares, as described above under *Withdrawal of Preferred Stock*, to receive shares of the related series of preferred stock and any money or other property represented by those depositary shares, except in order to comply with mandatory provisions of applicable law or the rules and regulations of any governmental body, agency or commission, or applicable securities exchange. Holders who retain or acquire their depositary receipts after an amendment becomes effective will be deemed to have agreed to the amendment and will be bound by the amended deposit agreement.

The deposit agreement may be terminated by the depositary if:

all outstanding
depositary
shares have
been redeemed
or converted
or exchanged
for any other
securities into
which they or
the underlying
preferred stock
are convertible
or
exchangeable;
or

a final
distribution in
respect of the
preferred stock
has been made
to the holders
of depositary
shares in
connection
with any
liquidation,
dissolution or
winding up of
First Horizon.

We may terminate the deposit agreement at any time and for any reason upon not less than 60 days prior written notice to the preferred stock depositary, and the preferred stock depositary will give notice of that termination to the

record holders of all outstanding depositary receipts not less than 30 days before the termination date. In that event, the preferred stock depositary will deliver or make available for delivery to holders of depositary shares, upon surrender of the depositary receipts evidencing the depositary shares, the number of whole or fractional shares of the related series of preferred stock as are represented by those depositary shares.

Charges of Preferred Stock Depositary; Taxes and Other Governmental Charges

We will pay the fees, charges and expenses of the preferred stock depositary provided in the deposit agreement to be payable by us. Holders of depositary receipts will pay any taxes and governmental charges and any charges provided in the deposit agreement to be payable by them, including a fee for the withdrawal of shares of preferred stock upon surrender of depositary receipts. If the preferred stock depositary incurs fees, charges or expenses for which it is not otherwise liable at the election of a holder of a depositary receipt or other person, that holder or other person will be liable for those fees, charges and expenses.

Resignation and Removal of Depositary

The preferred stock depositary may resign at any time by giving us notice, and we may remove or replace the preferred stock depositary at any time.

Reports to Holders

We will deliver all required reports and communications to holders of the preferred stock to the preferred stock depositary. It will forward those reports and communications to the holders of depositary shares.

Limitation on Liability of the Preferred Stock Depositary

The preferred stock depositary will not be liable if it is prevented or delayed by law or any circumstances beyond its control in performing its obligations under the deposit agreement. The obligations of the preferred stock depositary under the deposit agreement will be limited to performance in good faith of its duties under the agreement, and it will not be obligated to prosecute or defend any legal proceeding in respect of any depositary shares, depositary receipts or shares of preferred stock unless satisfactory and reasonable protection from expenses and liability is furnished. This is called an indemnity. The preferred stock depositary may rely upon written advice of counsel or accountants, upon information provided by holders of depositary receipts or other persons believed to be competent and upon documents believed to be genuine.

PLAN OF DISTRIBUTION

We may sell securities to or through underwriters, including one of our affiliates, to be designated at various times, and also may sell securities directly to other purchasers or through agents. We conduct our investment banking, institutional and capital markets businesses through our various bank, broker-dealer and non-bank subsidiaries, including FTN Financial Securities Corp. and First Tennessee Brokerage, Inc. The distribution of securities may be effected at various times in one or more transactions at a fixed price or prices, which may be changed, or at market prices prevailing at the time of sale, at prices related to such prevailing market prices or at negotiated prices.

The prospectus supplement for the securities we sell will describe that offering, including:

the name or
names of any
underwriters,
managing
underwriters,
dealers or
agents; the
purchase price
and the
proceeds to us
from that sale;

any
underwriting
discounts,
commissions
or agents' fees
and other items
constituting
underwriter's or
agent's
compensation;

any initial
public offering

Item 15. *Indemnification of Directors and Officers.*

Tennessee Code Annotated Sections 48-18-501 through 48-18-509 authorize a corporation to provide for the indemnification of officers, directors, employees and agents in terms sufficiently broad to permit indemnification under certain circumstances for liabilities (including reimbursement for expenses incurred) arising under the Securities Act of 1933, as amended (the Securities Act). We have adopted the provisions of the Tennessee statute pursuant to Article Six of our Bylaws. In addition, we have a directors and officers liability insurance policy which provides coverage sufficiently broad to permit indemnification under certain circumstances for liabilities (including reimbursement for expenses incurred) arising under the Securities Act.

Tennessee Code Annotated, Section 48-12-102, permits the inclusion in the charter of a Tennessee corporation of a provision, with certain exceptions, eliminating the personal monetary liability of directors to the corporation or its shareholders for breach of the duty of care. We have adopted the provisions of the statute as Article 14 of our Charter.

Our shareholders have approved a provision in Article Six of the Bylaws pursuant to which we are required to indemnify each director and any officers designated by the Board of Directors, and advance expenses, to the maximum extent not prohibited by law. In accordance with the foregoing, the Board of Directors is authorized to enter into individual indemnity agreements with the directors and such officers. Such indemnity agreements have been approved for all of the directors and certain officers.

Item 17. Undertakings.

The undersigned registrant hereby undertakes:

(1) To file, during any period in which offers or sales are being made, a post-effective amendment to this registration statement:

(i) To include any prospectus required by Section 10(a)(3) of the Securities Act;

(ii) To reflect in the prospectus any facts or events arising after the effective date of the registration statement (or the most recent post-effective amendment thereof) which, individually or in the aggregate, represent a fundamental change in the information set forth in the registration statement; and

(iii) To include any material information with respect to the plan of distribution not previously disclosed in the registration statement or any material change to such information in the registration statement;

provided, however, that Paragraphs (1)(i), (1)(ii) and (1)(iii) of this section do not apply if the information required to be included in a post-effective amendment by those paragraphs is contained in reports filed with or furnished to the Commission by the Registrant pursuant to Section 13 or Section 15(d) of the Exchange Act that are incorporated by reference in the registration statement, or is contained in a form of prospectus filed pursuant to Rule 424(b) that is part of the registration statement.

(2) That, for the purpose of determining any liability under the Securities Act, each such post-effective amendment shall be deemed to be a new registration statement relating to the securities offered therein, and the offering of such securities at that time shall be deemed to be the initial bona fide offering thereof.

(3) To remove from registration by means of a post-effective amendment any of the securities being registered which remain unsold at the termination of the offering.

(4) That, for the purpose of determining liability under the Securities Act to any purchaser:

(i) Each prospectus filed by the Registrant pursuant to Rule 424(b)(3) shall be deemed to be part of the registration statement as of the date the filed prospectus was deemed part of and included in the registration statement; and

(ii) Each prospectus required to be filed pursuant to Rule 424(b)(2), (b)(5), or (b)(7) as part of a registration statement in reliance on Rule 430B relating to an offering made pursuant to Rule 415(a)(1)(i), (vii), or (x), for the purpose of providing the information required by Section 10(a) of the Securities Act shall be deemed to be part of and included in the registration statement as of the earlier of the date such form of prospectus is first used after effectiveness or the date of the first contract of sale of securities in the offering described in the prospectus. As provided in Rule 430B, for liability purposes of the issuer and any person that is at that date an underwriter, such date shall be deemed to be a new effective date of the registration statement relating to the securities in the registration statement to which that prospectus relates, and the offering of such securities at that time shall be deemed to be the initial bona fide offering thereof. Provided, however, that no statement made in a registration statement or prospectus that is part of the registration statement or made in a document incorporated or deemed incorporated by reference into the registration statement or prospectus that is part of the registration statement will, as to a purchaser with a time of contract of sale prior to such effective date, supersede or modify any statement that was made in the registration statement or prospectus that was part of the registration statement or made in any such document immediately prior to such effective date.

(5) That, for the purpose of determining liability of the Registrant under the Securities Act to any purchaser in the initial distribution of the securities: the undersigned Registrant undertakes that in a primary offering of securities of an

undersigned Registrant pursuant to this registration statement, regardless of the underwriting method used to sell the securities to the purchaser, if the securities are offered or sold to such purchaser by means of any of the

II-3

following communications, the undersigned Registrant will be a seller to the purchaser and will be considered to offer or sell such securities to such purchaser:

- (i) Any preliminary prospectus or prospectus of an undersigned Registrant relating to the offering required to be filed pursuant to Rule 424;
 - (ii) Any free writing prospectus relating to the offering prepared by or on behalf of the undersigned Registrant or used or referred to by the undersigned Registrant;
 - (iii) The portion of any other free writing prospectus relating to the offering containing material information about the undersigned Registrant or its securities provided by or on behalf of the undersigned Registrant; and
 - (iv) Any other communication that is an offer in the offering made by the undersigned Registrant to the purchaser.
- (6) That, for purposes of determining any liability under the Securities Act, each filing of the Registrant's annual report pursuant to Section 13(a) or Section 15(d) of the Exchange Act that is incorporated by reference in the registration statement shall be deemed to be a new registration statement relating to the securities offered therein, and the offering of such securities at that time shall be deemed to be the initial bona fide offering thereof.
- (7) Insofar as indemnification for liabilities arising under the Securities Act may be permitted to directors, officers and controlling persons of the Registrant pursuant to the foregoing provisions, or otherwise, the Registrant has been advised that in the opinion of the Securities and Exchange Commission such indemnification is against public policy as expressed in the Securities Act and is, therefore, unenforceable. In the event that a claim for indemnification against such liabilities (other than the payment by the Registrant of expenses incurred or paid by a director, officer or controlling person of the Registrant in the successful defense of any action, suit or proceeding) is asserted by such director, officer or controlling person in connection with the securities being registered, the Registrant will, unless in the opinion of its counsel the matter has been settled by controlling precedent, submit to a court of appropriate jurisdiction the question whether such indemnification by it is against public policy as expressed in the Securities Act and will be governed by the final adjudication of such issue.
