  - ☐ Pre-commencement communications pursuant to Rule 13e-4(c) under the Exchange Act (17 CFR 240.13e-4(c))
-

**Item 2.02. RESULTS OF OPERATIONS AND FINANCIAL CONDITION.**

On February 3, 2011, the Company issued a press release regarding the Company's financial results for the period ended December 31, 2010. The full text of the Company's press release is attached hereto as Exhibit 99.1

Certain of the information set forth in the press release may be considered non-GAAP financial measures. We regularly have reported pro forma results for net income and earnings per share in addition to, and not as a substitute for, or superior to, financial measures calculated in accordance with GAAP. The pro forma results exclude merger related non-cash items and other similar costs. Additionally, the discussion surrounding sales performance related to these results excludes the impact of currency fluctuations period over period and acquisitions to measure core sales growth. This growth rate is referred to as organic growth.

Our financial results under GAAP include substantial non-cash charges and tax benefits related to acquired businesses. Our pro forma calculations of net income and earnings per share are limited because they do not reflect the entirety of our business costs. However, management believes that the pro forma presentation is a useful supplemental disclosure to investors as it provides an indication of the profitability and cash flows of the combined businesses apart from the initial and sunk costs of acquisitions. Management believes that this information is therefore useful to investors in analyzing and assessing our past and future operating performance.

In addition to the non-cash charges above, we exclude from our pro forma results the following costs:

Acquisition related amortization, depreciation and fair value remeasurements

In process research and development expenses or impairments

Acquisition and divestiture related gains and losses

Asset impairment charges related to a portfolio review

Business consolidation costs required to realize cost synergies from combining our acquired entities with our existing operations

Charges associated with the early repayment of debt and non-cash interest expense associated with convertible debt bifurcation

Certain significant one time events that are unlikely to recur in the foreseeable future

Tax changes and benefits associated with the above exclusions

Management views these costs as not indicative of the profitability or cash flows of its ongoing or future operations and excludes these costs as a supplemental disclosure to assist investors in evaluating and assessing our past and future operational performance. Management uses non-GAAP earnings as a primary indicator in planning and forecasting for future periods, including trending the Company's core performance period over period. Management uses these non-GAAP earnings to prepare operating budgets and forecasts and uses these results to measure performance at a corporate level. The Company also uses non-GAAP earnings for evaluating management's performance for compensation purposes.

**Item 7.01. REGULATION FD DISCLOSURE.**

See the information set forth under Item 2.02 above and attached as Exhibit 99.1 hereto.

**Item 9.01 FINANCIAL STATEMENTS AND EXHIBITS.**

(d) Exhibits
