**TOWERS WATSON & CO.**

**Notes to the Condensed Consolidated Financial Statements**

(Tabular amounts are in thousands, except per share data)

(Unaudited)

**Note 1 Organization and Basis of Presentation.**

On January 1, 2010, pursuant to the Agreement and Plan of Merger, as amended by Amendment No. 1 (the Merger Agreement), Watson Wyatt Worldwide, Inc. (Watson Wyatt) and Towers, Perrin, Forster & Crosby, Inc. (Towers Perrin) combined their businesses through two simultaneous mergers (the Merger) and became wholly-owned subsidiaries of Jupiter Saturn Holding Company, which subsequently changed its name to Towers Watson & Co. (Towers Watson, the Company or we).

Although the business combination of Watson Wyatt and Towers Perrin was a merger of equals, generally accepted accounting principles require that one of the combining entities be identified as the acquirer by reviewing facts and circumstances as of the acquisition date. Watson Wyatt was determined to be the accounting acquirer. This conclusion is primarily supported by the facts that Watson Wyatt shareholders owned approximately 56 percent of all Towers Watson common stock after the redemption of Towers Watson Class R common stock and that Watson Wyatt's Chief Executive Officer became the Chief Executive Officer of Towers Watson. Watson Wyatt is the accounting predecessor in the Merger and as such, the historical results of Watson Wyatt through December 31, 2009 have become those of the new registrant, Towers Watson. Towers Watson's condensed consolidated financial statements as of and for the three and six months ended December 31, 2010 include the results of Towers Perrin's operations. The condensed consolidated financial statements of Towers Watson as of and for the three and six months ended December 31, 2009 include only the financial statements of Watson Wyatt.

The accompanying unaudited quarterly condensed consolidated financial statements of Towers Watson & Co. and our subsidiaries are presented in accordance with the rules and regulations of the Securities and Exchange Commission (SEC) for quarterly reports on Form 10-Q and therefore do not include all of the information and footnotes required by U.S. generally accepted accounting principles. In the opinion of management, these condensed consolidated financial statements reflect all adjustments, consisting only of normal recurring adjustments, which are necessary for a fair presentation of the condensed consolidated financial statements and results for the interim periods. All intercompany accounts and transactions have been eliminated in consolidation. The condensed consolidated financial statements should be read together with the Towers Watson audited consolidated financial statements and notes thereto contained in its Annual Report on Form 10-K for the fiscal year ended June 30, 2010, which was filed with the SEC and may be accessed via EDGAR on the SEC's web site at [www.sec.gov](http://www.sec.gov). Balance sheet data as of June 30, 2010 was derived from Towers Watson's audited financial statements.

Our fiscal year 2011 began July 1, 2010 and ends June 30, 2011.

The results of operations for the three and six months ended December 31, 2010 are not indicative of the results that can be expected for the entire fiscal year ending June 30, 2011. The results reflect certain estimates and assumptions made by management including those estimates used in calculating Merger consideration and fair value of tangible and intangibles, estimated bonuses and anticipated tax liabilities that affect the amounts reported in the condensed consolidated financial statements and related notes.

**Note 2 Mergers and Acquisitions.**

**Merger with Towers Perrin**

Watson Wyatt and Towers Perrin merged to form Towers Watson to combine the strengths and a strong set of complementary services of the legacy firms to drive growth and result in a larger global presence and market share gains across all of our business lines.

***Consideration Exchanged***

The consummation of the Merger resulted in the following:

Each share of Watson Wyatt Class A common stock, par value \$0.01 per share issued and outstanding immediately prior to the Merger was converted into the right to receive one (1) share of Towers Watson Class A common stock, par value \$0.01 per share (the Class A Common Stock). In addition, outstanding deferred rights to receive Watson Wyatt Class A common stock were converted into the right to receive an

equal number of shares of Towers Watson Class A common stock, and outstanding options to purchase Watson Wyatt Class A common stock were assumed by Towers Watson and converted on a one-for-one basis into fully vested options to purchase shares of Towers Watson Class A common stock with the same exercise price as the underlying Watson Wyatt options.

**Table of Contents**

Each share of Towers Perrin common stock, par value \$0.50 per share, issued and outstanding immediately prior to the Merger was converted into the right to receive 545.627600377 fully paid and nonassessable shares of Towers Watson common stock, which ratio was determined at the time of the Merger in accordance with the Merger Agreement. Shares of Towers Watson common stock issued to Towers Perrin shareholders (other than 209,013 shares issued to Towers Perrin shareholders located in certain countries (as detailed below) and other than shares issued to Towers Perrin shareholders who elected to receive a portion of their Merger Consideration as shares of Towers Watson's Class R common stock, par value \$0.01 per share) were divided among four series of non-transferable Towers Watson common stock, Classes B-1, B-2, B-3 and B-4, each with a par value of \$0.01 per share. Outstanding shares of Towers Watson Class B common stock generally will automatically convert on a one-for-one basis into shares of freely transferable shares of Towers Watson Class A common stock on the following timetable:

Class B-1 common stock- January 1, 2011

Class B-2 common stock- January 1, 2012

Class B-3 common stock- January 1, 2013

Class B-4 common stock- January 1, 2014

In accordance with the Merger Agreement, to provide immediate liquidity to certain Towers Perrin shareholders located in countries where the Merger consideration may be subject to current tax, such Towers Perrin shareholders received a portion of their merger consideration in the form of unrestricted shares of Towers Watson Class A Common Stock instead of shares of Towers Watson Class B Common Stock.

Certain Towers Perrin shareholders who met defined age and service criteria elected to terminate their employment no later than January 31, 2010 (except as extended by Towers Watson's executive committee) and received a portion of their Merger consideration in shares of Towers Watson Class R Common Stock, which subsequently were automatically redeemed for equal amounts of cash and subordinated one-year promissory notes (such election, a "Class R Election"). The amount of cash and principal amount of Towers Watson notes issued in exchange for each share of Towers Watson Class R Common Stock was determined based on the Exchange Ratio and the average closing price per share of Watson Wyatt Common Stock for the 10 trading days ending on December 28, 2009, the second trading day immediately prior to the closing of the Merger, which was \$46.79. Class R Elections were prorated so that the amount of cash and notes payable on the automatic conversion of the shares of Towers Watson Class R common stock would not exceed \$400 million, shareholders who made valid Class R Elections received shares of Towers Watson Class B-1 common stock in exchange for their shares of Towers Perrin common stock that were not exchanged for shares of Towers Watson Class R common stock due to proration or because the Towers Perrin shareholder elected to receive less than 100% of his or her Merger consideration in the form of Towers Watson Class R common stock. Shares of Towers Watson Class B-1 common stock converted into freely tradable shares of Towers Watson Class A Common Stock on January 1, 2011.

Prior to the Merger, Towers Perrin issued awards of restricted stock units to certain Towers Perrin employees, which were exchanged in the Merger for shares of Towers Watson Class A common stock, generally subject to a three-year contractual vesting schedule and other restrictions ("Restricted Towers Watson Class A Common Stock"). At the time of the Merger, the restricted stock units were converted using the Merger Agreement exchange ratio (545.627600377) into Towers Watson Restricted Class A common stock. The restriction on the underlying shares lapses over the service period for the employees, which is from grant date in October 2009 to January 1, 2011 through 2013, annually. The Towers Watson Restricted Class A common stock is held by an administrator or in a trust and the dividends accrue and the shares are voted in blocks according to provisions in the Merger Agreement.

In summary, as a result of closing of the Merger, all outstanding Towers Perrin and Watson Wyatt common stock, restricted stock units and derivative securities were converted into the right to receive the following forms of consideration:

Edgar Filing: Towers Watson & Co. - Form 10-Q

46,911,275 shares of Towers Watson Class A Common Stock (less a number of shares that were withheld for tax purposes in respect of Watson Wyatt deferred stock units and deferred shares), including 4,248,984 shares of Restricted Towers Watson Class A Common Stock:

29,483,008 shares of Towers Watson Class B Common Stock, including:

12,798,118 shares of Class B-1 Common Stock (which was subsequently reduced by 2,267,265 shares related to our tender offer in June 2010 and 4,921,001 shares related to our secondary offering in September 2010, further described in Note 10);

5,561,630 shares of Class B-2 Common Stock;

5,561,630 shares of Class B-3 Common Stock;

**Table of Contents**

5,561,630 shares of Class B-4 Common Stock; and  
 8,548,835 shares of Towers Watson Class R Common Stock, which subsequently were redeemed automatically in exchange for the right to receive:  
 \$200 million in cash (subject to applicable tax withholding and gross-up adjustments); and

Towers Watson Notes in an aggregate principal amount of \$200 million.

In addition, on January 1, 2010, Towers Watson issued shares of Class F stock, no par value, pro rata to all holders of Towers Perrin common stock, which shares represent only the contingent right to receive, three years after the Merger, a pro rata portion of a number of shares of Towers Watson Class A common stock equal to the number of shares of Restricted Towers Watson Class A common stock forfeited by former Towers Perrin employees plus a number of shares of Towers Watson Class A common stock with a value equivalent to the amount of dividends attributed to such forfeited shares.

The Towers Watson common stock and Towers Watson Notes issued in conjunction with the Merger were registered under the Securities Act of 1933, as amended, pursuant to Towers Watson's Registration Statement on Form S-4/A (Registration No. 333-161705) filed with the SEC, and declared effective on November 9, 2009. The Class A Common Stock is listed on The New York Stock Exchange and The NASDAQ Global Select Market under the ticker symbol **TW**, and began trading on January 4, 2010.

***Fair Value of Consideration***

The Merger has been accounted for using the acquisition method of accounting as prescribed in ASC 805, *Business Combinations*. The total consideration of \$1.8 billion is comprised of \$200 million of cash and \$200 million of notes payable to Class R shareholders and of stock consideration for the following: Class A shares for certain foreign shareholders of \$9.9 million, Restricted Class B-1, B-2, B-3 and B-4 shares of \$1.3 billion and Restricted Class A shares of \$43.7 million.

The consideration given in the form of cash and notes payable was measured in the amount of cash paid and notes payable issued. According to ASC 805 the fair value of the securities traded in the market the day before the Merger is consummated is used to determine the fair value of the equity consideration. As accounting predecessor, Watson Wyatt's closing share price on the NYSE on December 31, 2009 of \$47.52 was used to determine the fair value of equity consideration. The equity consideration for the Class A shares to certain foreign shareholders of \$9.9 million is valued at \$47.52 multiplied by 209,013, the number of shares issued. The estimated fair value of the restricted Class B1-B4 shares of \$1.3 billion was calculated at \$47.52 multiplied by 29,483,008, the number of shares issued and applying a discount to approximate the fair value of the one-, two-, three- and four-year period of restriction lapse until the shares are converted into freely tradable Towers Watson Class A common stock. The estimated fair value of the Restricted Class A shares of \$43.7 million includes (i) the vested portion of the Towers Perrin restricted stock units, which was earned by employees related to the service condition from grant date in October 2009 until January 1, 2010, the date of the Merger, valued at \$47.52 per share and (ii) 10% of the unvested portion of the Towers Perrin restricted stock units, which is the estimate of forfeitures that will result from employees not fulfilling the service condition during the three year vesting post-Merger, which will be proportionately distributed to Class F shareholders, the Towers Perrin shareholders as of the Merger date.

***PCIC***

As of December 31, 2009, Towers Perrin and Watson Wyatt each owned a 36.4% equity investment in Professional Consultants Insurance Company ( **PCIC** ). PCIC is a captive insurance company that provides professional liability insurance on a claims-made basis. Watson Wyatt applied the equity method of accounting for its investment in PCIC through December 31, 2009. As of December 31, 2009, Watson Wyatt's investment in PCIC was \$13.7 million. Towers Watson's financial statements as of and for the three and six month periods ended December 31, 2009, included herein, reflect Watson Wyatt's equity method of accounting for PCIC, which resulted in recording a loss from affiliates of \$1.4 million and \$0.3 million for the three and six month periods ended December 31, 2010, respectively. As a result of the Merger, Towers Watson has a majority ownership interest in PCIC and consequently retained a majority of the economic risks and rewards of PCIC. As a result, Towers Watson now consolidates PCIC's financial position and results of operations in its consolidated financial statements beginning January 1, 2010. All intercompany accounts and transactions have been eliminated in consolidation.

***Fair value of net assets acquired and intangibles***

According to ASC 805, the assets acquired and liabilities of Towers Perrin assumed by Towers Watson were recorded at their respective fair values as of January 1, 2010, the Merger's effective date. The valuation and determination of estimated fair value include significant estimates and assumptions. Management also evaluated the methodology and valuation models to determine the estimated useful lives and amortization method.

## **Table of Contents**

### *Customer relationships*

A customer relationship intangible asset was identified separate from goodwill based on determination of the length, strength and contractual nature of the relationship that Towers Perrin shared with its clients. This customer relationship information was analyzed via the application of the multi-period excess earnings method, an income approach. Significant assumptions used in the income approach are revenue growth, retention rate, operating expenses, charge for contributory assets and trade name and the discount rate used to calculate the present value of the cash flows. The customer relationship, valued at \$140.8 million, is amortized on an accelerated amortization basis over the estimated useful life of 12 years which correlated to the years of material results included in the income approach model.

### *Trademarks and trade names*

The Towers Perrin trade name was identified as an intangible asset separate from goodwill based on evaluation of the importance of the Towers Perrin trade name to the Towers Perrin business through understanding the brand recognition in the market, importance of the trade name to the customer, and the amount of revenue associated with the trade name. In developing the estimated fair value, the trade name was valued utilizing the relief from royalty method, an income approach. Significant assumptions used in the relief from royalty method were revenue growth, royalty rate, and discount rate used to calculate the present value of cash flows. The Towers Perrin trade name, valued at \$275.5 million, has an estimated indefinite lived asset and is not amortized but tested annually for impairment or if factors exist to indicate impairment.

### *Developed technology*

Developed technology identified separately from goodwill as an intangible asset consists of intellectual property such as proprietary software used internally for revenue producing activities or by clients. Developed technology can provide significant advantages to the owner in terms of product differentiation, cost advantages and other competitive advantages. Three external-use technologies of Towers Perrin: MoSes, EVALUE and the Global Compensation technology are offered for sale or subscription and have associated revenue streams. In addition, 22 internally developed technology applications were identified as primary applications used in Towers Perrin's business but did not have associated revenue streams. The external-use technologies, for which revenue sources were directly identified, were valued by applying the multi-period excess earnings method, an income approach. The internal-use technologies were valued by applying the cost to replicate method, a cost approach. Significant assumptions used in the multi-period excess earnings method were revenue growth, decay rate, cost of revenue, operating expenses, charge for use of contributory assets and trade name and discount rate used to calculate the present value of the cash flows. The external-use technology, valued at \$58.2 million, is amortized on an accelerated basis over a weighted-average useful life of 3.6 years. Significant assumptions used in the cost to replicate method were cost to replace including the number and skill level of man hours and cost per hour based on fully burdened salary of staff; profit margin if the work were performed by a third party; and obsolescence factor. The internal-use technology, valued at \$67.2 million, is amortized on a straight-line basis over the weighted-average estimated useful life of 4.2 years.

### *Favorable and unfavorable lease contracts*

Assets and liabilities for favorable and unfavorable lease contracts were identified separately from goodwill related to Towers Perrin's real estate lease agreements. The assets and liabilities were valued by comparing cash obligations for lease agreements to the estimated market rent at the time of the transactions. The resulting favorable or unfavorable positions are recorded gross as assets or liabilities on the balance sheet. Significant assumptions used in the valuation were market rent, annual escalation percentages based on current inflation rates and a discount rate used to calculate the present value of the cash flows. Both the assets for favorable lease agreements, valued at \$11.1 million, and the liabilities for unfavorable lease agreements, valued at \$28.6 million, are amortized on a straight-line basis over the life of the respective lease to occupancy costs. The weighted-average estimated useful life for the leases is 7.3 years.

### *Measurement period*

As of the date of the filing of this quarterly report, the accounting for this business combination is complete. During the six months ended December 31, 2010, we identified the following adjustments to the initial fair value of the opening balance sheet of Towers Perrin to increase non-current deferred tax asset by \$10.5 million, decrease to non-current assets by \$0.9 million, decrease fixed assets by \$0.5 million, increase accounts payable, accrued liabilities

and deferred income by \$0.2 million, resulting in a decrease to goodwill of \$8.9 million. Our June 30, 2010 comparative balance sheet has been retrospectively adjusted to reflect these adjustments.

**Table of Contents**

The table below sets forth the Merger consideration transferred to Towers Perrin shareholders and the tangible and intangible net assets received in the Merger:

	January 1, 2010	
	(In thousands, except share and per share data)	
<i>Calculation of Consideration Transferred</i>		
Cash paid		\$ 200,000
Notes payable issued to Towers Perrin shareholders		200,000
Towers Perrin shares converted to Towers Watson shares	42,489,840	
Less Class R shares	(8,548,835)	
Less 10% of consideration in RSUs	(4,248,984)	
Shares of Towers Watson stock issued	29,692,021	
Closing price of Watson Wyatt stock, December 31, 2009	\$ 47.52	
Average discount for restricted stock	7%	
Aggregate fair value of the Towers Watson common stock issued		1,313,650
Fair value of RSUs assumed in the Merger		43,729
Total consideration transferred		\$ 1,757,379
<i>Tangible and Intangible Net Assets:</i>		
Current assets	\$ 1,002,567	
Other non-current assets	219,755	
Identifiable intangible assets	552,785	
Deferred tax asset, net	149,381	
Current liabilities	(672,033)	
Other long-term liabilities	(760,708)	
Goodwill	1,265,632	
Total tangible and intangible net assets		\$ 1,757,379

**Table of Contents**

The unaudited pro forma combined statements of operations are as follows:

	<b>Six Months Ended December 31,</b>	
	<b>2010</b>	<b>2009</b>
	<b>(In thousands)</b>	
Revenue	\$ 1,542,105	\$ 1,627,046
Costs of providing services:		
Salaries and employee benefits	991,106	1,131,425
Professional and subcontracted services	118,141	118,625
Occupancy	71,815	74,824
General and administrative expenses	130,003	119,324
Depreciation and amortization	61,405	67,783
	1,372,470	1,511,981
Income from operations	169,635	115,065
Income/(loss) from affiliates	285	(101)
Interest income	2,584	2,321
Interest expense	(6,828)	(6,529)
Other non-operating income	3,610	8,181
Income before income taxes	169,286	118,937
Provision for income taxes	63,574	31,111
Net income before non-controlling interests	105,712	87,826
Less: Net income/(loss) attributable to non-controlling interests	965	(502)
Net income/(loss) attributable to controlling interests	\$ 104,747	\$ 88,328

**Acquisitions**

During the second and third quarters of fiscal 2011, we completed two acquisitions. These acquisitions individually or combined were insignificant for pro forma and other disclosures required by accounting for business combinations. The following summary is provided to give our investors better understanding of our recent strategic acquisitions. On December 31, 2010, Towers Watson purchased Aliquant, a privately-held, full-service health and welfare benefits administration outsourcing firm for \$68.1 million. The Aliquant business complements our Technology and Administration Solutions practice in our Benefits segment. Aliquant's clients range from 1,000 to 100,000 employees and span a variety of industries. It had recorded revenues of \$32 million for their fiscal year ended September 30, 2010. As the acquisition closed on the last day of the current quarter, the preliminary estimate of consideration transferred and allocation of the fair value to tangible and intangible assets received and liabilities assumed is not yet complete. We expect to record these preliminary estimates in the third quarter of fiscal 2011. We expect the fair value allocation to include customer related intangibles, developed technology, fixed assets, and deferred revenue. As of December 31, 2010, the fair value of the net assets acquired equal to the consideration paid \$68.1 million was

recorded preliminarily as goodwill.

*Subsequent to the quarter ended December 31, 2010:*

On January 31, 2011, Towers Watson purchased EMB, a non-life consulting and software company. The EMB business complements our Risk Consulting and Software practice in our Risk and Financial Services segment. EMB was founded in 1993 in the U.K. as the first actuarial consultancy dedicated to non-life insurance and the development of high-performance actuarial software. EMB advised 28 of the top 30 non-life insurance companies in the world. It had approximately \$68 million of revenue for their fiscal year ended April 30, 2010. At the time of the acquisition, it has software products that include EMB Igloo, EMB Emblem and EMB ResQ, which are licensed to 4,000 users in 53 countries. The acquisition closed subsequent to the current quarter. We paid £44 million cash and issued common stock valued at £7,770,000 consisting of 113,858 shares of Class B-3 and 113,858 shares of Class B-4 common stock. The number of shares was determined at a price of £34.1209 per share based on the average closing price for our publicly-traded Class A common stock for the five trading days preceding January 31, 2011, converted to pounds sterling at an agreed-upon exchange rate. We have not yet determined the acquisition accounting estimate for the potential additional consideration which consists of a not-to-exceed deferred payment of £16.1 million and earn out of £12 million. We expect to record the preliminary fair value of intangibles (customer related intangibles, developed technology, trademark and trade name) and tangible assets received and liabilities assumed and preliminary estimate of consideration transferred in the third quarter of fiscal 2011.

**Table of Contents****Note 3 Fixed Income Securities.**

We hold available-for-sale and held-to-maturity fixed income securities comprised of corporate bonds. The fixed income securities are classified either as short-term investments or non-current assets depending on the date of their maturity. Additional information on fixed income security balances is provided in the following table as of December 31, 2010 and June 30, 2010:

	<b>December 31, 2010</b>			<b>June 30, 2010</b>		
	<b>Amortized Cost</b>	<b>Unrealized Gains / (Losses)</b>	<b>Estimated Fair Value</b>	<b>Amortized Cost</b>	<b>Unrealized Gains / (Losses)</b>	<b>Estimated Fair Value</b>
Short-term investments:						
due in one year or less	\$ 38,527	\$ 292	\$ 38,819	\$ 50,585	\$ 424	\$ 51,009
Non-current assets: due						
in one through five years	72,945	1,384	74,329	60,142	1,956	62,098

Proceeds from sales of investments for fixed income securities during the six months ended December 31, 2010 were \$8.5 million, resulting in a gain of \$0.02 million. There were no investments that have been in a continuous loss position for more than one year, and there have been no other-than-temporary impairments recognized.

**Note 4 Goodwill and Intangible Assets.**

The components of goodwill and intangible assets are outlined below for the six months ended December 31, 2010:

	<b>Risk and Financial</b>	<b>Talent and Rewards</b>	<b>All Other</b>	<b>Total</b>
Balance as of June 30, 2010	\$ 1,151,681	\$ 459,373	\$ 105,909	\$ 1,718,177
Goodwill acquired	68,338		2,006	70,344
Translation adjustment	49,211	17,604	4,276	71,091
Balance as of December 31, 2010	\$ 1,269,230	\$ 476,977	\$ 112,191	\$ 1,859,612

Included in goodwill acquired in the Benefits segment is \$68.1 million of consideration preliminarily recorded to goodwill related to the Aliquant acquisition which closed on December 31, 2010. The initial allocation of fair value to tangible assets and liabilities and intangible assets separate from goodwill was not yet determined as of December 31, 2010, but is expected to be estimated and recorded in the third quarter of fiscal year 2011.

The following table reflects changes in the net carrying amount of the components of intangible assets for the six months ended December 31, 2010:

	<b>Trademark &amp; trade name</b>	<b>Customer related intangible</b>	<b>Core/ developed technology</b>	<b>Favorable lease Agreements</b>	<b>Total</b>
Balance as of June 30, 2010	\$ 366,793	\$ 188,806	\$ 118,726	\$ 9,162	\$ 683,487
Intangible assets acquired during the period					
Amortization		(13,838)	(9,637)	(1,548)	(25,023)
Translation adjustment	4,076	9,043	30	214	13,363
Balance as of December 31, 2010	\$ 370,869	\$ 184,011	\$ 109,119	\$ 7,828	\$ 671,827

An intangible unfavorable lease liability of \$25.2 million was recorded as a result of acquisition accounting as of June 30, 2010, with a reduction to rent expense of \$2.2 million and translation of \$0.2 million for the six months ended December 31, 2010, for an ending balance of \$23.2 million as of December 31, 2010.

Components of the change in the gross carrying amount of trademark and trade name, customer related intangibles, core/developed technology and favorable and unfavorable lease agreements reflect foreign currency translation adjustments between June 30, 2010 and December 31, 2010. These intangible assets and liabilities are denominated in the currencies of our subsidiaries outside the United States, and are translated into our reporting currency, the U.S. dollar, based on exchange rates at the balance sheet date.

**Table of Contents**

The following table reflects the carrying value of intangible assets and liabilities as of December 31, 2010 and June 30, 2010:

	<b>Fiscal Year 2011</b>		<b>Fiscal Year 2010</b>	
	<b>Gross Carrying Amount</b>	<b>Accumulated Amortization</b>	<b>Gross Carrying Amount</b>	<b>Accumulated Amortization</b>
Intangible assets:				
Trademark and trade name	\$ 371,271	\$ 402	\$ 367,195	\$ 402
Customer related intangibles	246,567	62,557	237,072	48,266
Core/developed technology	148,694	39,575	148,664	29,938
Non-compete agreements	1,275	1,275	1,275	1,275
Favorable lease agreements	10,952	3,123	10,657	1,495
Total intangible assets	\$ 778,759	\$ 106,932	\$ 764,863	\$ 81,376

Certain trademark and trade-name intangibles have indefinite useful lives and are not amortized. The weighted average remaining life of amortizable intangible assets and liabilities at December 31, 2010, was 8.2 years. The following table reflects 1) future estimated amortization expense for amortizable intangible assets and 2) the rent offset resulting from the amortization of the net lease intangible assets and liabilities for the remainder of fiscal 2011 and for subsequent fiscal years as follows:

<b>Fiscal year ending June 30,</b>	<b>Amortization</b>	<b>Rent Offset</b>
2011	\$ 25,361	\$ (941)
2012	48,801	(2,844)
2013	44,482	(2,499)
2014	38,083	(2,141)
2015	31,088	(1,906)
Thereafter	105,315	(5,014)
Total	\$ 293,130	\$ (15,345)

**Note 5 Fair Value Measurements.**

We have categorized our financial instruments into a three-level fair value hierarchy. The fair value hierarchy gives the highest priority to quoted prices in active markets for identical assets and liabilities (Level 1) and lowest priority to unobservable inputs (Level 3). In some cases, the inputs used to measure fair value might fall into different levels of the fair value hierarchy. In such cases, for disclosure purposes, the level in the fair value hierarchy within which the fair value measurement in its entirety falls is determined based on the lowest level input that is significant to the fair value measurement in its entirety.

Financial assets recorded in the accompanying condensed consolidated balance sheets are categorized based on the inputs in the valuation techniques as follows:

*Level 1* Financial assets and liabilities whose values are based on unadjusted quoted prices for identical assets or liabilities in an active market.

*Level 2* Financial assets and liabilities whose values are based on the following:

- a) Quoted prices for similar assets or liabilities in active markets;
- b) Quoted prices for identical or similar assets or liabilities in non-active markets;

- c) Pricing models whose inputs are observable for substantially the full term of the asset or liability; and
- d) Pricing models whose inputs are derived principally from or corroborated by observable market data through correlation or other means for substantially the full asset or liability.

*Level 3* Financial assets and liabilities whose values are based on prices, or valuation techniques that require inputs that are both unobservable and significant to the overall fair value measurement. These inputs reflect management's own assumptions about the assumptions a market participant would use in pricing the asset or liability.

The following presents our assets and liabilities measured at fair value on a recurring basis as of December 31, 2010:

**Table of Contents****Fair Value Measurements on a Recurring Basis at  
December 31, 2010**

	<b>Level 1</b>	<b>Level 2</b>	<b>Level 3</b>	<b>Total</b>
<b>Assets:</b>				
Short-term investments	\$ 6,075 (a), (c)	\$ 32,766 (a)	\$	\$ 38,841
Other current assets		2,904 (b)		2,904
Other non-current assets	9,605 (c)	72,301 (a)		81,906

**Liabilities:**

Accounts payable, accrued liabilities and deferred income		1,414 (b)		1,414
---	--	-----------	--	-------

The following presents our assets and liabilities measured at fair value on a recurring basis as of June 30, 2010:

**Fair Value Measurements on a Recurring Basis at  
June 30, 2010**

	<b>Level 1</b>	<b>Level 2</b>	<b>Level 3</b>	<b>Total</b>
<b>Assets:</b>				
Short-term investments	\$ 6,196 (a), (c)	\$ 44,813 (a)	\$	\$ 51,009
Other current assets		768 (b)		768
Other non-current assets	6,278 (c)	62,098 (a)		68,376

**Liabilities:**

Accounts payable, accrued liabilities and deferred income		4,277 (b)		4,277
---	--	-----------	--	-------

(a) Fixed income available-for-sale and held-to-maturity securities consist of US treasury securities, commercial paper and corporate fixed income securities.

(b) Consists of foreign exchange forward contracts and foreign exchange options.

(c) Consists of available-for-sale equity securities invested in mutual funds and common stock.

We recorded a gain of \$0.6 million and \$0.3 million, respectively, for the three and six months ended December 31, 2010, under general and administrative expenses in the condensed consolidated statements of operations related to the changes in the fair value of our financial instruments for foreign exchange forward contracts and foreign exchange options accounted for as foreign currency hedges, which are still held at December 31, 2010. There was no material gain or loss recorded in the condensed consolidated statements of operations for available-for-sale or held-to-maturity securities still held at December 31, 2010.

To determine the fair value of our foreign exchange forward contracts and foreign exchange options, we receive a quoted value from the counterparty for each contract. The quoted price we receive is a Level 2 valuation based on observable quotes in the marketplace for the underlying currency. We use these underlying values to estimate amounts that would be paid or received to terminate the contracts at the reporting date based on current market prices for the underlying currency.

The available-for-sale and held-to-maturity securities are valued using quoted market prices as of the end of the trading day. We monitor the value of the investments for other-than-temporary impairment on a quarterly basis.

**Note 6 Derivative Financial Instruments.**

We are exposed to market risk from changes in foreign currency exchange rates. To manage this exposure, we enter into various derivative transactions. These instruments have the effect of reducing our exposure to unfavorable changes in foreign currency rates. We do not enter into derivative transactions for trading purposes.

Our reinsurance intermediary subsidiary in the United Kingdom receives revenues in currencies (primarily in U.S. dollars) that differ from its functional currency. As a result, the foreign subsidiary's functional currency revenue will fluctuate as the currency exchange rates change. To reduce this variability, we use foreign exchange forward contracts and over-the-counter options to hedge the foreign exchange risk of the forecasted collections. We have designated these derivatives as cash flow hedges of its forecasted foreign currency denominated collections. We also use derivative financial contracts, principally foreign exchange forward contracts, to hedge non-functional currency obligations. Primarily, these exposures arise from intercompany lending between entities with different functional currencies. At December 31, 2010, the longest outstanding maturity was twenty-three months. As of December 31, 2010, a net \$0.2 million pretax gain has been deferred in other comprehensive income. A pretax gain of \$1.0 million is expected to be

**Table of Contents**

recognized in general and administrative expenses during the next twelve months when the hedged revenue is recognized. During the three and six months ended December 31, 2010, we recognized no material gains or losses due to hedge ineffectiveness.

As of December 31, 2010 and June 30, 2010, we had cash flow hedges with a notional value of \$68.2 million and \$87.7 million, respectively, to hedge revenue cash flows. We determine the fair value of our foreign currency derivatives based on quoted prices received from the counterparty for each contract, which we evaluate using pricing models whose inputs are observable. The net fair value of all derivatives held as of December 31, 2010 and June 30, 2010 was an asset/(liability) of \$1.5 and (\$3.5) million, respectively. See Note 5, *Fair Value Measurements*, for further information regarding the determination of fair value.

The fair value of our derivative instruments held at of December 31, 2010 and their location in the condensed consolidated balance sheet are as follows:

	Asset derivatives		Liability derivatives	
	Balance sheet location	Fair value	Balance sheet location	Fair value
<i>Derivatives designated as hedging instruments:</i>				
Foreign exchange forwards	Other current assets	\$ 1,305	Accounts payable, accrued liabilities and deferred income	\$ (1,324)
Total derivatives designated as hedging instruments		1,305		(1,324)
<i>Derivatives not designated as hedging instruments:</i>				
Foreign exchange forwards	Other current assets	1,599	Accounts payable, accrued liabilities and deferred income	(90)
Total derivatives not designated as instruments		1,599		(90)
Total derivatives		\$ 2,904		\$ (1,414)

The fair value of our derivative instruments held at June 30, 2010 and their location in the condensed consolidated balance sheet are as follows:

	Asset derivatives		Liability derivatives	
	Balance sheet location	Fair value	Balance sheet location	Fair value
<i>Derivatives designated as hedging instruments:</i>				
Foreign exchange forwards	Other current assets	\$ 731	Accounts payable, accrued liabilities and deferred income	\$ (4,100)
Foreign exchange options	Other current assets	37	Accounts payable, accrued liabilities and deferred	(94)

		income	
Total derivatives designated as hedging instruments	768		(4,194)
<i>Derivatives not designated as hedging instruments:</i>			
	Other current assets	Accounts payable, accrued liabilities and deferred income	
Foreign exchange options			(83)
Total derivatives not designated as instruments			(83)
Total derivatives	\$ 768		\$ (4,277)

**Table of Contents**

The effect of derivative instruments that are designated as hedging instruments on the consolidated statement of operations and the consolidated statement of changes in stockholders' equity for the six months ended December 31, 2010 is as follows:

	Gain	Location of loss	Loss	Location of gain recognized in income (ineffective portion and amount excluded from effectiveness testing)	Gain recognized in income (ineffective portion and amount excluded from effectiveness testing)
Derivatives designated as hedging instruments:	recognized in OCI (effective portion)	reclassified from OCI into income (effective portion) General and administrative expenses	reclassified from OCI into income (effective portion)		
Foreign exchange forwards	\$ 2,716		\$ (542)	General and administrative expenses	\$ 30
Foreign exchange options		General and administrative expenses	(207)		
Total	\$ 2,716		\$ (749)		\$ 30

As of December 31, 2010 and June 30, 2010, we had \$86.6 million and \$1.5 million, respectively, of notional value of derivatives, as economic hedges primarily to hedge intercompany loans denominated in currencies other than the functional currency. The effect of derivatives that have not been designated as hedging instruments on the condensed consolidated statement of operations for the three and six months ended December 31, 2010 is as follows:

	Location of gain (loss) recognized	Three months ended December 31, 2010	Six months ended December 31, 2010
Derivatives not designated as hedging instruments:	in income General and administrative expenses	Gain recognized in income	Gain recognized in income
Foreign exchange forwards		\$ 2,880	\$ 1,879
Total		\$ 2,880	\$ 1,879

**Note 7 Retirement Benefits.**

***Defined Benefit Plans***

Towers Watson sponsors both qualified and non-qualified defined benefit pension plans and other post-retirement benefit plan or OPEB plans in North America and Europe. As of June 30, 2010, these funded and unfunded plans represented 98 percent of total Towers Watson's pension obligations and as a result are disclosed herein. Towers Watson also sponsors funded and unfunded defined benefit pension plans in certain other countries as well, representing the remaining 2 percent of the liability.

Under the legacy Watson Wyatt plans in North America, benefits are based on the number of years of service and the associate's compensation during the five highest paid consecutive years of service. The non-qualified plan, included only in North America, provides for pension benefits that would be covered under the qualified plan but are limited by the Internal Revenue Code. The non-qualified plan has no assets and therefore is an unfunded arrangement. Beginning January 2008, Watson Wyatt made changes to the plan in the U.K. related to years of service used in calculating benefits for associates. Benefits earned prior to January 2008 are based on the number of years of service and the associate's compensation during the three years before leaving the plan and benefits earned after January 2008 are based on the number of years of service and the associate's average compensation during the associate's term of service since that date. The plan liabilities in Germany were a result of Watson Wyatt's acquisition of Heissmann GmbH in 2007. A significant percentage of the liabilities represent the grandfathered pension benefit for employees hired prior to a July 1991 plan amendment. The pension plan for those hired after July 1991 is a defined contribution type arrangement. In the Netherlands, the pension benefit is a percentage of service and average salary over the working life of the employee, where salary includes allowances and bonuses up to a set maximum salary and is offset by the current social security benefit. The benefit liability is reflected on the balance sheet. The measurement date for each of the plans is June 30.

The legacy Towers Perrin pension plans in the U.S. accrue benefits under a cash-balance formula for associates hired or rehired after 2002 and for all associates for service after 2007. For associates hired prior to 2003 and active as of January 2003, benefits prior to 2008 are based on a combination of a cash balance formula, for the period after 2002, and a final average pay formula based on years of plan service and the highest five consecutive years of plan compensation prior to 2008. Under the cash balance formula benefits are based on a percentage of each year of the employee's plan compensation. The Canadian Retirement Plan provides a choice of a defined benefit approach or a defined contribution approach. The non-qualified plans in North America provide for pension benefits that would be covered under the qualified plan in the respective country but are limited by statutory maximums. The non-qualified plans have no assets and therefore are unfunded arrangements. The U.K. Plan provides predominantly lump sum benefits. Benefit

**Table of Contents**

accruals under the U.K. plan ceased on March 31, 2008. The plans in Germany mostly provide benefits under a cash balance benefit formula. Benefits under the Netherlands plan accrue on a final pay basis on earnings up to a maximum amount each year. The benefit assets and liabilities are reflected on the balance sheet. The measurement date for each of the plans had historically been December 31 but has been changed to June 30 as a result of the Merger.

The compensation committee of our board of directors approved an amendment to the terms of the existing U.S. qualified and non-qualified defined benefit pension plans, postretirement benefit plans and defined contribution plans which was communicated in September 2010. Effective December 31, 2010, the existing U.S. qualified and non-qualified pension plans were frozen to new participants, and benefit accruals will be frozen under the current benefit formulas effective December 31, 2011. New pension benefits will accrue beginning on January 1, 2012 under a new stable value pension design for qualified and non-qualified pension plans maintained for U.S. associates, including U.S. named executive officers. Retiree medical benefits provided under our U.S. postretirement benefit plans will be frozen to new hires effective January 1, 2011. Life insurance benefits under the same plans will be frozen with respect to service, eligibility and amounts as of January 1, 2012 for active associates. As a result of these changes to the U.S. pension and post-retirement benefit plans, there were remeasurements of the legacy Watson Wyatt U.S. plans and the legacy Towers Perrin post-retirement benefit plan as of September 30, 2010. The legacy Towers Perrin pension plan was not required to be remeasured due to the plan design.

*Components of Net Periodic Benefit Cost for Defined Benefit Pension Plans*

The following tables set forth the components of net periodic benefit cost for the Company's defined benefit pension plan for North America and Europe for the three and six month periods ended December 31, 2010 and 2009:

	<b>Three Months Ended December 31,</b>			
	<b>2010</b>		<b>2009</b>	
	<b>North America</b>	<b>Europe</b>	<b>North America</b>	<b>Europe</b>
Service Cost	\$ 13,872	\$ 3,336	\$ 5,884	\$ 1,945
Interest Cost	34,952	9,520	12,481	5,931
Expected Return on Plan Assets	(39,933)	(9,889)	(11,549)	(5,172)
Settlement/(curtailment)	1,422			
Amortization of Net Loss	5,821	1,377	3,759	682
Amortization of Prior Service (Credit)/Cost	(2,007)	10	(406)	11
Net Periodic Benefit Cost	\$ 14,127	\$ 4,354	\$ 10,169	\$ 3,397

	<b>Six Months Ended December 31,</b>			
	<b>2010</b>		<b>2009</b>	
	<b>North America</b>	<b>Europe</b>	<b>North America</b>	<b>Europe</b>
Service Cost	\$ 29,428	\$ 6,671	\$ 11,881	\$ 3,891
Interest Cost	70,542	19,039	24,791	11,863
Expected Return on Plan Assets	(78,531)	(19,778)	(23,116)	(10,345)
Settlement/(curtailment)	3,645			
Amortization of Net Loss	12,164	2,753	7,307	1,364
Amortization of Prior Service (Credit)/Cost	(2,412)	20	(812)	21
Net Periodic Benefit Cost	\$ 34,836	\$ 8,705	\$ 20,051	\$ 6,794

The assumptions used to determine net periodic benefit cost for the fiscal years ended June 30, 2010, 2009 and 2008 were as follows:

	<b>2010</b>		<b>Year Ended June 30, 2009</b>		<b>2008</b>	
	<b>North America</b>	<b>Europe</b>	<b>North America</b>	<b>Europe</b>	<b>North America</b>	<b>Europe</b>
Discount rate	6.43%	6.03%	6.91%	6.47%	6.25%	5.72%
Expected long-term rate of return on assets	8.11%	6.48%	8.61%	6.53%	8.61%	6.74%
Rate of increase in compensation levels	3.93%	5.09%	4.08%	5.36%	3.84%	4.73%
		18				

---

**Table of Contents**

The following table presents the assumptions used in the valuation to determine the projected benefit obligation for the fiscal years ended June 30, 2010 and 2009:

	<b>June 30, 2010</b>		<b>June 30, 2009</b>	
	<b>North</b>		<b>North</b>	
	<b>America</b>	<b>Europe</b>	<b>America</b>	<b>Europe</b>
Discount rate	5.86%	5.25%	7.21%	6.29%
Rate of increase in compensation levels	3.88%	3.88%	3.29%	5.15%

For the 2011 fiscal year, the discount rate used to determine net periodic benefit cost was initially based on the rates in the table shown above for the determination of the projected benefit obligation as of June 30, 2010, which included a 5.86% rate for North America. As a result of plan changes adopted during the first quarter of fiscal year 2011, the legacy Watson Wyatt U.S. Pension Plans were remeasured as of September 30, 2010. Upon remeasurement the discount rate assumption was changed for these plans and the net periodic benefit cost for the 2011 fiscal year is now calculated using a weighted average discount rate of 5.79% for North America.

***Employer Contributions***

The Company made \$32.8 million in contributions to the North American plans during the first six months of fiscal year 2011 and anticipates making \$5.8 million in contributions over the remainder of the fiscal year. The Company made \$9.8 million in contributions to Europe plans during the first six months of fiscal year 2011 and anticipates making \$11.5 million in contributions over the remainder of the fiscal year.

***Defined Contribution Plans***

Under the legacy Watson Wyatt plan, we sponsor a savings plan that provides benefits to substantially all U.S. associates. We match associate contributions at a rate of 50% of the first 6% up to \$60,000 of associates' eligible compensation. We will also make an annual profit sharing contribution to the plan in an amount that is dependent upon our financial performance during the fiscal year.

The legacy Watson Wyatt U.K. pension plan has a money purchase section to which we make core contributions plus additional contributions matching those of the participating associates up to a maximum rate. Contribution rates are dependent upon the age of the participant and on whether or not they arise from salary sacrifice arrangements through which an individual has taken a reduction in salary and we have paid an equivalent amount as pension contributions. Core contributions amount to 2-6% of pensionable salary with additional matching contributions of a further 2-6%. The legacy Towers Perrin plans consist of sponsoring savings plans in 21 countries that provide benefits to substantially all associates within those countries. Certain of these plans provide for a Company match to associate contributions at various rates. In the United States, we provide a matching contribution of 100% of the first 5% of associate contributions. We make contributions of 10% of pay to the legacy Towers Perrin U.K. plan.

Effective January 1, 2011, all eligible employees hired subsequent to that date will participate in a new savings plan design which will provide for 100% match on the first 2% of pay and 50% match on the next 4% of pay, and vesting at 100% upon two years of service for employer contributions. All other associates will continue participating in their respective legacy plans until January 1, 2012 at which time the legacy plans will be frozen to new contributions and the associates will begin participation in the new savings plan design.

Contributions to the various defined contribution plans for the six months ended December 31, 2010 were \$11.9 million compared to \$4.8 million for the six months ended December 31, 2009.

***Health Care Benefits***

In the legacy Watson Wyatt and Towers Perrin U.S. plans, we sponsor a contributory health care plan that provides hospitalization, medical and dental benefits to substantially all U.S. associates. We accrue a liability for estimated incurred but unreported claims based on projected use of the plan as well as prior plan history.

***Postretirement Benefits***

Under both the legacy Watson Wyatt and legacy Towers Perrin plans, we provide certain health care and life insurance benefits for retired associates. The principal plans cover associates in the U.S. and Canada who have met certain eligibility requirements. Our principal post-retirement benefit plans are primarily unfunded. We accrue a liability for these benefits. Retiree medical benefits provided under our U.S. postretirement benefit plans will be

frozen to new hires effective January 1, 2011. Life insurance benefits under the same plans will be frozen with respect to service, eligibility and amounts as of January 1, 2012 for active associates.

**Table of Contents*****Components of Net Periodic Benefit Cost for Other Postretirement Plans***

The following table sets forth the components of net periodic benefit cost for the Company's healthcare and post-retirement plans for the three and six months ended December 31, 2010 and 2009:

	<b>Three Months Ended December 31,</b>		<b>Six Months Ended December 31,</b>	
	<b>2010</b>	<b>2009</b>	<b>2010</b>	<b>2009</b>
Service cost	\$ 994	\$ 295	\$ 2,549	\$ 594
Interest cost	2,733	654	6,286	1,309
Expected return on plan assets	(33)		(66)	
Settlement/(curtailment)	(1,284)		(3,386)	
Amortization of net loss/(gain)	445	(275)	533	(550)
Amortization of prior service cost	(1,780)	(143)	(1,909)	(285)
Net periodic benefit cost	\$ 1,075	\$ 531	\$ 4,007	\$ 1,068

**Note 8 Debt, Commitments and Contingent Liabilities**

The debt commitment and contingencies described below are currently in effect and would require Towers Watson, or domestic subsidiaries including, Towers Watson Delaware and Towers Watson Pennsylvania as guarantors, to make payments to third parties under certain circumstances. In addition to commitments and contingencies specifically described below, Towers Watson and its historical predecessor companies, Watson Wyatt and Towers Perrin, have historically provided guarantees on an infrequent basis to third parties in the ordinary course of business.

***Subordinated Notes due January 2011***

On December 30, 2009, in connection with the Merger and the Class R Elections as described in Note 2, Towers Watson entered into an indenture with the trustee for the issuance of Towers Watson Notes due January 2011 in the aggregate principal amount of \$200 million. The Towers Watson Notes due January 2011 were issued on January 6, 2010, bearing interest from January 4, 2010 at a fixed per-annum rate of 2.0%, and matured on January 1, 2011. The indenture contained limited operating covenants, and obligations under the Towers Watson Notes due January 2011 were subordinated to and junior in right of payment to the prior payment in full in cash of all Senior Debt (as defined in the indenture) on the terms set forth in the Indenture. On January 3, 2011 (the first business day following the note maturity date), Towers Watson repaid both principal and interest on the Notes which was funded in part by a \$75 million borrowing under our Senior Credit Facility.

***Subordinated Notes due March 2012***

On June 15, 2010, in connection with an offer to exchange shares of Class B-1 Common Stock for unsecured subordinated notes, Towers Watson entered into an indenture with the trustee for the issuance of Towers Watson Notes due March 2012 in the aggregate principal amount of \$97.3 million. The Towers Watson Notes due March 2012 were issued on June 29, 2010, bearing interest from June 15, 2010 at a fixed per annum rate, compounded quarterly on the interest reset dates, equal to the greater of (i) 2.0%, or (ii) 120.0% of the short-term applicable federal rate listed under the quarterly column, in effect at the applicable interest reset date. The Towers Watson Notes due March 2012 will mature on March 15, 2012 and are included in the other non-current liabilities balance on our consolidated balance sheet as of December 31, 2010. Obligations under the Towers Watson Notes due March 2012 are subordinated to and junior in right of payment to the prior payment in full in cash of all Senior Debt (as defined in the indenture).

***Towers Watson Senior Credit Facility***

On January 1, 2010, in connection with the Merger, Towers Watson and certain subsidiaries entered into a three-year, \$500 million revolving credit facility with a syndicate of banks (the Senior Credit Facility). Borrowings under the Senior Credit Facility bear interest at a spread to either Libor or the Prime Rate. We are charged a quarterly commitment fee, currently 0.5% of the Senior Credit Facility, which varies with our financial leverage and is paid on the unused portion of the Senior Credit Facility. Obligations under the Senior Credit Facility are guaranteed by

Towers Watson and all of its domestic subsidiaries (other than PCIC) and are secured by a pledge of 65% of the voting stock and 100% of the non-voting stock of Towers Perrin Luxembourg Holdings S.A.R.L.

The Senior Credit Facility contains customary representations and warranties and affirmative and negative covenants.

The Senior Credit Facility requires Towers Watson to maintain certain financial covenants that include a minimum Consolidated Interest Coverage Ratio and a maximum Consolidated Leverage Ratio (which terms in each case are defined in the Senior Credit Facility). In addition, the Senior Credit Facility contains restrictions on the ability of Towers Watson and its subsidiaries to, among other things, incur additional indebtedness; pay dividends; make distributions; create liens on assets; make investments, loans or advances; make

## **Table of Contents**

acquisitions; dispose of property; engage in sale-leaseback transactions; engage in mergers or consolidations, liquidations and dissolutions; engage in certain transactions with affiliates; and make changes in lines of businesses. As of December 31, 2010, we are in compliance with our covenants.

As of December 31, 2010 and 2009, Towers Watson had no borrowings outstanding under the Senior Credit Facility.

### ***Letters of Credit under the Senior Credit Facility***

As of December 31, 2010, Towers Watson had standby letters of credit totaling \$24.9 million associated with our captive insurance companies in the event that we fail to meet our financial obligations. Additionally, Towers Watson had \$0.5 million of standby letters of credit covering various other existing or potential business obligations. The aforementioned letters of credit are issued under the Senior Credit Facility, and therefore reduce the amount that can be borrowed under the Senior Credit Facility by the outstanding amount of these standby letters of credit.

### ***Additional Borrowings, Letters of Credit and Guarantees not part of the Senior Credit Facility***

Towers Watson Consultoria Ltda. (Brazil) has a bilateral credit facility with a major bank totaling Brazilian Real (BRL) 6.5 million (U.S. \$3.9 million). As of December 31, 2010, a total of BRL 5.7 million (U.S. \$3.4 million) was outstanding under this facility.

Towers Watson has also provided a \$5.0 million Australian dollar-denominated letter of credit (U.S. \$5.1 million) to an Australian governmental agency as required by the local regulations. The estimated fair market value of these letters of credit is immaterial because they have never been used, and we believe that the likelihood of future usage is remote.

Towers Watson also has \$3.9 million of letters of guarantee from major banks in support of office leases and performance under existing or prospective contracts.

### ***Indemnification Agreements***

Towers Watson has various agreements that provide that it may be obligated to indemnify the other party with respect to certain matters. Generally, these indemnification clauses are included in contracts arising in the normal course of business and in connection with the purchase and sale of certain businesses. Although it is not possible to predict the maximum potential amount of future payments under these indemnification agreements due to the conditional nature of Towers Watson's obligations and the unique facts of each particular agreement, Towers Watson does not believe that any potential liability that might arise from such indemnity provisions is probable or material. There are no provisions for recourse to third parties, nor are any assets held by any third parties that any guarantor can liquidate to recover amounts paid under such indemnities.

### ***Legal Proceedings***

From time to time, Towers Watson and its subsidiaries, including Watson Wyatt and Towers Perrin, are parties to various lawsuits, arbitrations or mediations that arise in the ordinary course of business. The matters reported on below are the most significant pending or potential claims against Towers Watson and its subsidiaries. We also receive subpoenas in the ordinary course and, from time-to-time, receive requests for information in connection with government investigations.

Before the Merger, Watson Wyatt and Towers Perrin each carried substantial professional liability insurance with a self-insured retention of \$1 million per claim, which provided coverage for professional liability claims including the cost of defending such claims. These policies remained in force subsequent to the Merger. We reserve for contingent liabilities based on ASC 450, *Contingencies*, when it is determined that a liability, inclusive of defense costs, is probable and reasonably estimable. The contingent liabilities recorded are primarily developed actuarially. Litigation is subject to many factors which are difficult to predict so there can be no assurance that in the event of a material unfavorable result in one or more claims, we will not incur material costs. Our professional liability insurance coverage beyond our self-insured retention was written by PCIC, an affiliated captive insurance company, with reinsurance and excess insurance attaching at \$26 million provided by various unaffiliated commercial insurance carriers. Post-Merger, Towers Watson has a 72.86% ownership interest in PCIC and as a result, PCIC's results are consolidated in Towers Watson's operating results. Although the PCIC insurance policies will continue to cover professional liability claims above a \$1 million per claim self-insured retention for claims reported during the periods these policies were in effect, the consolidation of PCIC will effectively result in self-insurance for the first \$25 million of aggregate loss for each of Watson Wyatt and Towers Perrin above the \$1 million per claim self-insured retention.

As a result of consolidating PCIC's results of operations in our consolidated financial statements, the impact of PCIC's reserve development also may result in fluctuations in Towers Watson's earnings.

PCIC ceased issuing insurance policies effective July 1, 2010 and at that time entered into run-off mode of operation. We have established a new wholly-owned captive insurance company, Stone Mountain Insurance Company (SMIC), from which we are obtaining similarly structured insurance effective July 1, 2010. SMIC provides us with \$50 million of coverage per claim and in the aggregate on a claims-made basis. SMIC has secured reinsurance coverage providing \$25 million excess of the \$25 million retained

## **Table of Contents**

layer for the current policy period. This structure effectively results in self-insurance for the first \$25 million of loss per occurrence or in the aggregate for Towers Watson above the \$1 million per claim self-insured retention. As a wholly-owned captive insurance company, SMIC is consolidated into our financial statements.

### *ExxonMobil Superannuation Plan (Australia)*

In March 2007, the Trustees of the ExxonMobil (Australia) Superannuation Plan commenced a legal proceeding in the Supreme Court of Victoria against Towers Perrin and the plan sponsors, Esso (Australia) and ExxonMobil (Australia), commenced a similar legal proceeding against Towers Perrin in April 2007 (collectively the 2007 actions ). On May 15, 2009, as the time was expiring to add any additional contributing parties, Towers Perrin filed third-party claims against Watson Wyatt, the successor actuary and Plan administrator. The professional advisors other than Towers Perrin who are named as defendants in the 2007 actions have commenced a separate legal proceeding against Watson Wyatt seeking indemnification and contribution (the contribution action ).

The complaints in the 2007 actions allege that while performing administrative and actuarial services for the Superannuation Plan during the period from mid-1990 to 1995, Towers Perrin failed to detect drafting errors made by previous plan advisors including attorneys, when these advisors prepared certain amendments to the Superannuation Plan Deed. These amendments were adopted before Towers Perrin commenced its engagement. Watson Wyatt succeeded Towers Perrin as the plan administrator and plan actuary in 1996 and continues to serve in those capacities. The previous plan advisors are also named as defendants in the 2007 actions.

Plaintiffs allege that the faulty drafting resulted in the grant of additional, but unintended and unauthorized benefits, to certain Superannuation Plan participants. Plaintiffs further allege that because Towers Perrin failed to detect the drafting error, benefits were not properly administered and the plan was not properly funded. Towers Perrin administered and valued the plan benefits consistent with what the plan sponsors contend was intended. Watson Wyatt continued to administer and value the benefits in the same manner when it succeeded Towers Perrin in 1996. The most recent estimate of the value of the allegedly unintended benefits is AU\$510 million.

The Trustee and plan sponsors have been engaged since 2001 in a separate legal proceeding (the rectification action ) which seeks an interpretation of the relevant portions of the plan Deed and, if necessary, modification to conform those portions to reflect the manner in which the benefits were intended to be, and were, administered during both the Towers Perrin and Watson Wyatt engagements. The parties to the rectification action (which did not include Towers Perrin and Watson Wyatt) have reached an agreement to settle that matter by agreeing to provide a compromise benefit to plan participants, the net present value of which was approximately AU\$143.3 million as of October 2009. This settlement has been approved by the Court. In light of the resolution of the rectification action, the plan sponsor has requested that the five defendants originally named in the 2007 actions (which include Towers Perrin but not Watson Wyatt) consider a compromise resolution of those actions. The Company has taken the request under advisement.

### *Former Towers Perrin shareholder litigation*

On December 9, 2009, Watson Wyatt was informed by Towers Perrin of a settlement demand from the plaintiffs in a putative class action lawsuit filed by certain former shareholders of Towers Perrin (the *Dugan Action* ). Although the complaint in the *Dugan Action* does not contain a quantification of the damages sought, plaintiffs' settlement demand, which was orally communicated to Towers Perrin on December 8, 2009 and in writing on December 9, 2009, sought a payment of \$800 million to settle the action on behalf of the proposed class. Plaintiffs requested that Towers Perrin communicate the settlement demand to Watson Wyatt.

The *Dugan Action* previously was reported in Amendment No. 3 to the Registration Statement on Form S-4/A (File No. 333-161705) filed on November 9, 2009 by the Jupiter Saturn Holding Company (the Registration Statement ). As reported in the Registration Statement, the complaint was filed on November 5, 2009 against Towers Perrin, members of its board of directors, and certain members of senior management in the United States District Court for the Eastern District of Pennsylvania.

Plaintiffs in this action are former members of Towers Perrin's senior management, who left Towers Perrin at various times between 1995 and 2000. The *Dugan* plaintiffs seek to represent a class of former Towers Perrin shareholders who separated from service on or after January 1, 1971, and who also meet certain other specified criteria.

On December 17, 2009, four other former Towers Perrin shareholders, all of whom voluntarily left Towers Perrin in May or June 2005 and all of whom are excluded from the proposed class in the *Dugan Action*, commenced a separate legal proceeding (the *Allen Action*) in the United States District Court for the Eastern District of Pennsylvania alleging the same claims in substantially the same form as those alleged in the *Dugan Action*. These plaintiffs are proceeding in their individual capacities and do not seek to represent a proposed class.

On January 15, 2010, another former Towers Perrin shareholder who separated from service with Towers Perrin in March 2005 when Towers Perrin and EDS launched a joint venture that led to the creation of a corporate entity known as ExcellerateHRO (eHRO), commenced a separate legal proceeding (the *Pao Action*) in the United States District Court of the Eastern District of Pennsylvania also alleging the same claims in substantially the same form as those alleged in the *Dugan Action*. Towers Perrin contributed its

## Table of Contents

Towers Perrin Administrative Solutions ( TPAS ) business to eHRO and formerly was a minority shareholder (15%) of eHRO. *Pao* seeks to represent a class of former Towers Perrin shareholders who separated from service in connection with Towers Perrin's contribution to eHRO of its TPAS business and who are excluded from the proposed class in the *Dugan Action*. Towers Watson is also named as a defendant in the *Pao Action*.

Pursuant to the Towers Perrin Bylaws in effect at the time of their separations, the Towers Perrin shares held by each of these plaintiffs were redeemed by Towers Perrin at book value at the time these individuals separated from employment. The complaints allege variously that there either was a promise that Towers Perrin would remain privately owned in perpetuity (*Dugan Action*) or that in the event of a change to public ownership plaintiffs would receive compensation (*Allen* and *Pao Actions*). Plaintiffs allege that by agreeing to sell their shares back to Towers Perrin at book value upon retirement, they and other members of the putative classes relied upon these alleged promises, which they claim were breached as a result of the consummation of the Merger between Watson Wyatt and Towers Perrin. The complaints assert claims for breach of contract, breach of express trust, breach of fiduciary duty, promissory estoppel, quasi-contract/unjust enrichment, and constructive trust, and seek equitable relief including an accounting, disgorgement, rescission and/or restitution, and the imposition of a constructive trust. On January 20, 2010, the court consolidated the three actions for all purposes.

On February 22, 2010, defendants filed a motion to dismiss the complaints in their entirety. By order dated September 30, 2010, the court granted the motion to dismiss plaintiffs' claim for a constructive trust and denied the motion with respect to all other claims alleged. Pursuant to the court's September 30 order, defendants also filed answers to plaintiffs' complaints on October 22, 2010. The parties are currently engaged in fact discovery.

Towers Watson continues to believe the claims in these lawsuits are without merit and intends to defend against them vigorously. However, the cost of defending against the claims could be substantial and the outcome of these legal proceedings is inherently uncertain and could be unfavorable to Towers Watson.

### Acument Global Technologies, Inc.

In a letter to the Company dated January 26, 2011, Acument Global Technologies, Inc. ( Acument ) and the Acument Global Technologies, Inc. Pension Plan (the Plan ) claim that Towers Watson breached its fiduciary duties under the Employee Retirement Income Security Act of 1974 ( ERISA ) in connection with advice provided to Acument relating to investment of certain assets of the Plan in the Westridge Capital Management Enhancements Funds (the Westridge Funds ). Acument and the Plan demand that the Company make the Plan whole for losses and damages allegedly sustained as a result of Acument's decision to invest in the Westridge Funds. Watson Wyatt Investment Consulting, Inc. ( WWIC ), now known as Towers Watson Investment Services, Inc. ( TWIS ), provided investment consulting services to Acument between December 1, 2007 and April 30, 2010. In connection with those services, WWIC recommended an investment in the Westridge Funds. In July 2008, Acument made a \$47 million investment in the Westridge Funds. During the period December 1, 2008 through January 22, 2009, Acument made additional investments of \$9.5 million, bringing the aggregate investment of the Plan's assets in the Westridge Funds to \$56.5 million.

As the result of information obtained during an investigation of Westridge Capital Management, its affiliates WG Trading Investors, L.P. and WG Trading Company, L.P. (collectively referred to as Westridge ) and their principals, commenced by the National Futures Association on February 5, 2009, the Commodities Future Trading Commission ( CFTC ) filed suit against Westridge and its principals alleging violations of the Commodity Exchange Act. This resulted in a court-supervised receivership of the assets of Westridge. The Securities Exchange Commission filed a separate suit on February 25, 2009 against Westridge and its principals alleging violations of the federal securities laws. In its complaint, the SEC alleges that Westridge had become a fraudulent investment scheme by which its principals purportedly misappropriated approximately \$553 million from a number of highly sophisticated institutional investors, including public pension and retirement plans and educational institutions, some of which were investing in Westridge as late as February 6, 2009. To date, Acument has recovered approximately \$9.5 million of its investment in the Westridge Funds from the receivership. Distributions from the receivership have not yet been completed and Acument could recover additional sums. The Company plans to decline Acument's demand for compensation and plans to defend vigorously against any legal proceedings that may ensue.

### **Note 9 Comprehensive (Loss)/Income.**

Comprehensive (loss)/income includes net income, additional minimum pension liability, unrealized loss on available for sale securities, hedge effectiveness and changes in the cumulative translation adjustment gain or loss. For the three months ended December 31, 2010, comprehensive income totaled \$49.3 million compared with comprehensive income of \$23.9 million for the three months ended December 31, 2009. For the six months ended December 31, 2010, comprehensive income totaled \$256.4 million compared with comprehensive income of \$49.1 million for the six months ended December 31, 2009.

**Note 10 Restricted Stock.**

In conjunction with the Merger, shares of Towers Watson common stock issued to Towers Perrin shareholders have been divided among four series of non-transferable Towers Watson common stock, Classes B-1, B-2, B-3 and B-4, each with a par value of \$0.01 per share. The shares listed in the table below reflect a reduction of shares for our tender offer and our secondary public offering and by the acceleration of vesting due to involuntary associate terminations detailed below. Outstanding shares of Towers Watson Class B common stock generally will automatically convert on a one-for-one basis into shares of freely transferable shares of Towers Watson Class A common stock on the following timetable:

Stock Class	Number of Shares	Conversion Date
B-1	5,642,302	January 1, 2011
B-2	5,561,630	January 1, 2012
B-3	5,561,630	January 1, 2013
B-4	5,369,048	January 1, 2014

On January 1, 2011, the 5,642,302 shares of Class B-1 common stock listed in the table above converted to freely tradable Class A common stock.

On September 22, 2010, we completed a secondary public offering of our Class A common stock. This offering allowed certain existing holders of the Company's outstanding Class B-1 common stock to convert and sell 4,279,233 shares of Class A common stock at \$46.00 and granted the underwriters an option to purchase up to 641,768 additional shares to cover any overallocments. On October 1, 2010, we completed the exercise in full of such overallocment option. Towers Watson did not receive any of the proceeds from the sale of shares, and there was no dilution of shares currently outstanding.

At a special meeting of stockholders held on September 9, 2010, Towers Watson's stockholders approved a proposal to eliminate a restriction in the Company's certificate of incorporation on the number of shares of Class B common stock that the Board of Directors can convert into shares of Class A common stock. This amendment was required to conduct the offering and provides the Company

**Table of Contents**

with the flexibility to release converted shares of Class B common stock into the public market if the Board of Directors determines that such action is advisable.

On June 29, 2010, we completed a tender offer to exchange shares of our Class B-1 common stock, par value \$.01 per share, for unsecured subordinated notes in the aggregate principal amount of \$97.3 million due March 15, 2012. Each note had a principal amount equal to the product of the number of shares of Class B-1 common stock tendered and \$43.43, the exchange ratio.

The purpose of the tender offer was to enable us to acquire shares of Class B-1 common stock in an orderly fashion to reduce the impact of any sales or potential sales that may occur in the future on the market price of Class A common stock. As a result of the tender offer, we repurchased 2,267,265 shares of Class B-1 common stock in exchange for notes payable to Class B-1 shareholders in the aggregate principal amount of \$97.3 million.

The Towers Perrin restricted stock unit ( RSU ) holders received 10% of the total consideration issued to Towers Perrin shareholders in conjunction with the Merger. The RSUs were converted into 4,248,984 Towers Watson Restricted Class A shares, of which an estimated 10%, or 424,898 shares, are expected to be forfeited by current associate Restricted Class A shareholders who are subject to a service condition. The service condition is fulfilled from grant date through each of the three annual periods from January 1, 2010 until December 31, 2012. The restriction lapses annually on January 1 and the Restricted Class A shares become freely tradable shares of Class A common stock on such dates. Forfeited shares will be distributed to Towers Perrin shareholders as of December 31, 2009 in proportion to their ownership in Towers Perrin on the date of the Merger. Shareholders of Restricted Class A shares have voting rights and receive dividends upon annual vesting of the shares. Dividends on forfeited shares are distributed with the associated shares on January 1, 2013. The shares listed in the table below reflect a reduction of shares for forfeitures and acceleration of vesting due to voluntary and involuntary associated terminations and reflect the outstanding Restricted Class A shares as of December 31, 2010. The shares listed in the table do not reflect the vesting that occurred on January 1, 2011.

Stock Class	Number of Shares	Conversion Date
A	1,277,618	January 1, 2011
A	1,277,618	January 1, 2012
A	1,277,618	January 1, 2013

For the three and six months ended December 31, 2010, we recorded \$24.2 million and \$47.9 million, respectively, of non-cash share-based compensation expense in connection with the issuance of Towers Watson Restricted Class A common stock to Towers Perrin RSU holders in the Merger. There was no such expense for the three and six months ended December 31, 2009. The graded method of expense methodology assumes that the restricted shares are issued to Towers Perrin RSU holders in equal amounts of shares which vest over one year, two years and three years.

**Note 11 Share-based Compensation.**

In connection with the Merger, Towers Watson assumed the amended and restated Watson Wyatt 2001 Employee Stock Purchase Plan and the Watson Wyatt 2000 Long-Term Incentive Plan, and created the Towers Watson & Co. 2009 Long-Term Incentive Plan. Towers Watson did not assume the Watson Wyatt 2001 Deferred Stock Unit Plan for Selected Employees or the Watson Wyatt Amended Compensation Plan for Outside Directors.

***Towers Watson & Co. Employee Stock Purchase Plan***

Towers Watson assumed the amended and restated Watson Wyatt 2001 Employee Stock Purchase Plan (the Stock Purchase Plan ) which enables associates to purchase shares of Towers Watson Class A common stock at a 5% discount. The Stock Purchase Plan is a non-compensatory plan under generally accepted accounting principles of stock-based compensation. As a result, no compensation expense is recognized in conjunction with this plan. Watson Wyatt originally registered 750,000 shares of its Class A common stock on December 19, 2001 and an additional 1,500,000 shares of its Class A common stock on December 16, 2003, of which 196,424 shares remained available for issuance immediately prior to the Merger, at which time 4,500,000 additional shares were added. Towers Watson filed a Form S-8 Registration Statement in the third quarter of fiscal 2010 registering the 4,696,424 shares available for issuance under the Stock Purchase Plan.

***Towers Watson & Co. 2009 Long-Term Incentive Plan***

In January 2010, Towers Watson filed a Form S-8 Registration Statement to register 12,500,000 shares of Towers Watson Class A common stock that may be issued pursuant to the Towers Watson & Co. 2009 Long-Term Incentive Plan (the 2009 Plan ) and 125,648 shares of Class A common stock that may be issued upon exercise of the unvested stock options previously granted under the Watson Wyatt 2000 Long-Term Incentive Plan. The Watson Wyatt 2000 Long-term Incentive Plan was assumed by Towers Watson and the registered shares for the Watson Wyatt 2000 Long-term Incentive Plan are limited to exercise of awards that were outstanding at the time of the Merger. The assumed options were exercisable for shares of Towers Watson Class A common stock based on the

## **Table of Contents**

exchange ratio of one share of Watson Wyatt Class A common stock underlying the options for one share of Towers Watson Class A common stock. The 2009 Plan was approved by Watson Wyatt shareholders on December 18, 2009.

### *Restricted Stock Units*

#### *Executives and Employees*

In September 2010, the Compensation Committee of our Board of Directors approved the form of performance-vested restricted stock unit ( RSU ) award agreement, pursuant to the 2009 Plan. RSUs are designed to provide us an opportunity to offer long-term incentives and to provide key executives with a long-term stake in our success. RSUs are notional, non-voting units of measurement based on our common stock. Under the RSU agreement, participants become vested in a number of RSUs based on the achievement of specified levels of financial performance during the performance period set forth in the agreement, provided that the participant remains in continuous service with us through the end of the performance period. The targets reflect an emphasis on continued profitability growth through successful integration, despite the difficult economic environment. Any RSUs that become vested are payable in shares of our Class A Common Stock. Dividend equivalents will accrue on RSUs and vest to the same extent as the underlying shares.

During the three months ended September 30, 2010, 125,192 RSUs were granted to certain of our executive officers for the 2010 to 2013 performance period. Awards are based on the value of the executive officer's annual base salary and a multiplier, which is then converted into a target number of RSUs based on our closing stock price as of the date of grant \$45.25. Between 0% and 204% of the target number of RSUs will vest based on the extent to which specified performance metrics are achieved over the three year performance period from July 1, 2010 to June 30, 2013, subject to their continued employment with us through the end of the performance period. The Compensation Committee approved the grants and established adjusted EBITDA margin for the six-month period ending June 30, 2013 and revenue growth during the performance period (based on fiscal year 2013 revenue versus fiscal year 2010 revenue) as the performance metrics for the awards. For the three and six months ended December 31, 2010, we recorded \$0.5 million of stock-based compensation related to this grant.

During the three and six months ended December 31, 2010, 28,500 and 38,916 RSUs were granted to certain employees that vest equally on January 1, 2011, 2012 and 2013 based on continued employment through each vesting period. For the three and six months ended December 31, 2010, we recorded \$1.1 million and \$1.2 million, respectively, of stock-based compensation related to these grants.

#### *Outside Directors*

In May 2010, the board of directors approved the Towers Watson & Co. Compensation Plan for Non-Employee Directors which provides for cash and stock compensation for outside directors. During the three and six months ended December 31, 2010, 0 and 24,710 restricted stock units were granted, respectively, for the annual award for outside directors for service on the board of directors in equal quarterly installments over the fiscal year 2011. In fiscal year 2010, 22,149 restricted stock units were granted for the initial award for outside directors for service on the board of directors which vest in equal annual installments over a three year period ending January 1, 2013. For the three and six months ended December 31, 2010, we recorded \$425,000 and \$1.1 million, respectively, of non-cash stock-based compensation related to these awards for outside directors.

### *Stock Options*

There were no grants of stock options during the three and six months ended December 31, 2010 under the 2009 Plan. During the three and six months ended December 31, 2009, 0 and 125,648 stock options, respectively, were granted under the Watson Wyatt 2000 Long-term Incentive Plan with an exercise price equal to the grant date market price of Watson Wyatt's common stock of \$42.47 with a three-year vesting term. All outstanding Watson Wyatt stock options became fully vested at the time of the Merger with the exercise price as of the original grant date and the unamortized grant date fair value of the options was recorded as expense. As a result, we recorded stock-based compensation of \$1.3 million during fiscal year 2010.

The weighted-average fair value of the stock option grants under both plans was calculated using the Black-Scholes formula and are included in the valuation assumptions table below. In addition, a post-vesting discount was calculated using 1.4%, the risk-free interest rate of a three-year bond, compounded over three years. The post-vesting discount was used to estimate fair value as there is a transfer restriction for three years of the stock option's underlying shares

once vested. Compensation expense is recorded over a three-year graded vesting term as if one-third of the options granted to a participant are vested over one year, one-third are vested over two years and the remaining one-third are vested over three years.

**Table of Contents**

	<b>Six Months Ended December 31, 2009</b>
Stock option grants:	
Risk-free interest rate	1.4%
Expected lives in years	3
Expected volatility	37.0%
Dividend yield	0.7%
Weighted-average grant date fair value of options granted	\$ 10.21
Number of shares granted	125,648

***Former Watson Wyatt Plans and Change of Control Provisions***

The following former Watson Wyatt Plans were not assumed by Towers Watson and all obligations under the plans have been met. The following is disclosed as these plans had activity in the three and six months ended December 31, 2009.

***Restricted Stock Units***

The Watson Wyatt 2001 Deferred Stock Unit Plan for Selected Employees was intended to provide selected associates with additional incentives by permitting Watson Wyatt to grant them an equity interest in the form of restricted stock units, in lieu of a portion of their annual fiscal year end bonus. Shares under this plan are awarded during the first quarter of each fiscal year. During the three months ended September 30, 2009, 219,751 shares of common stock were awarded at an average market price of \$44.08 for a total fair value of \$9.7 million.

***Deferred Stock Units***

Under the Watson Wyatt 2001 Deferred Stock Unit Plan for Selected Employees, there were Performance Share Bonus Incentive Programs ( SBI ), which consisted of grants of deferred stock units based on either salary or on the value of the cash portion of the eligible participant's fiscal year-end bonus target and a multiplier, which was then converted into a target number of deferred stock units based upon Watson Wyatt's stock price as of the quarter end prior to grant. Participants vested between zero and 170% of the target number of deferred stock units or between zero and 100% based on the extent to which financial and strategic performance metrics were achieved over three fiscal year periods. The financial and strategic performance metrics were established at the beginning of each performance period. For the performance periods covering fiscal years 2007 through 2009, 2008 through 2010, and 2009 through 2011, the vesting criteria are based upon growth specific metrics such as earnings per share, net operating income and revenue.

During the three months ended September 30, 2009, 94,906 shares vested, of which 66,605 were deferred and 28,841 were awarded at a market price of \$44.07 to certain senior executive officers under the SBI 2007 plan, which represented vesting at 135% of the target number of deferred stock units.

Expenses for this plan were recognized when awards met the criteria of both probable and reasonably estimable. Stock-based compensation related to these performance awards is recorded as a component of salaries and employee benefits. Historically, Watson Wyatt's management periodically reviewed conditions that would affect the vesting of performance-based awards and adjusted compensation expense, if necessary, based on achievement of financial performance metrics set by the Compensation Committee of Watson Wyatt. The SBI 2008 and 2009 plan documents stated that the Watson Wyatt Compensation Committee had the discretion to accelerate the vesting of awards under the SBI Program in connection with a change in control. Based on available plan performance information, the Watson Wyatt Compensation Committee concluded that (i) no payout would be made under the SBI 2008 plan upon the date of the Merger, and (ii) it would settle the SBI 2009 plan at 100% of target to take into account that the performance period would only be halfway completed as of the closing date of the Merger. During the first quarter of fiscal 2010, Watson Wyatt's management evaluated the performance metrics of the SBI 2008 for Select Associates, and based on an update to the forecast for the remaining performance period, a \$599,000 reversal of compensation expense was recorded. As a result, compensation expense recorded was \$256,000 and (\$343,000) in the three and six

months ended December 31, 2009.

*Amended Compensation Plan for Outside Directors*

Historically, Watson Wyatt provided for cash and stock compensation for outside directors under the Amended Compensation Plan for Outside Directors, which was approved by the board of directors of Watson Wyatt in November 2001. The total number of shares reserved for issuance under the Amended Compensation Plan for Outside Directors was 150,000. The Amended Compensation Plan for Outside Directors was not assumed by Towers Watson. Under this plan, outside Watson Wyatt directors were initially paid in shares of Watson Wyatt's common stock, or in a combination of cash and shares, quarterly, at the completed quarter-end share price (which approximates fair value), for services provided during the preceding quarter. During the three and six months ended December 31, 2009, approximately \$100,000 and \$200,000 of compensation expense was recorded in conjunction with this plan.

**Table of Contents****Note 12 Income Taxes.**

As of December 31, 2010, our gross liability for income taxes associated with uncertain tax positions was \$33.7 million. This liability can be reduced by \$7.6 million of offsetting deferred tax benefits associated with foreign tax credits and the federal tax benefit of state income taxes. The net difference of \$26.1 million, if recognized, would have a favorable impact on our effective tax rate.

Interest and penalties related to income tax liabilities are included in income tax expense. As of December 31, 2010, we had accrued interest of \$3.1 million and penalties of \$0.4 million, totaling \$3.5 million.

We believe it is reasonably possible that there will be a \$4.1 million decrease in the gross tax liability for uncertain tax positions within the next 12 months based upon potential settlements and the expiration of statutes of limitations in various tax jurisdictions.

Provision for income taxes for three and six months ended December 31, 2010 was \$22.8 million and \$47.9 million, respectively, compared to \$22.1 million and \$37.5 million, respectively, for the three and six months ended December 31, 2009. The effective tax rate was 36.8% for the six months ended December 31, 2010 and 41.1% for the six months ended December 31, 2009. The prior year tax rate was higher primarily due to a 6.5% increase in the effective tax rate associated with the impact of German tax law changes on certain German deferred tax assets in relation to the Merger with Towers Perrin. Towers Watson records a tax benefit on net operating loss carryovers and deferred expenses only if it is more likely than not that a benefit will be realized.

The Company and its subsidiaries file income tax returns in the U.S. federal jurisdiction and various state and foreign jurisdictions. We are currently under income tax examinations in the U.S. for the tax years 2002-2008 in connection with amended returns that were filed to claim foreign tax credits. We are also under income tax examinations in certain states for tax years ranging from 2003 to 2008. The statute of limitation in certain states extends back to tax year 1998 as a result changes to taxable income resulting from prior year federal tax examinations. A summary of the tax years that remain open to tax examination in our major tax jurisdictions are as follows:

	<b>Open Tax Years (fiscal year ending in)</b>
United States federal	2002 and forward
United States various states	1998 and forward
Canada federal	2003 and forward
Germany	2004 and forward
The Netherlands	2008 and forward
United Kingdom	2009 and forward

**Note 13 Segment Information.**

Towers Watson has three reportable operating segments or practice areas:

- (1) Benefits
- (2) Risk and Financial Services
- (3) Talent and Rewards

Towers Watson's chief operating decision maker is the chief executive officer. It was determined that Towers Watson operational data used by the chief operating decision maker is that of the new segments. Management bases strategic goals and decisions on these segments and the data presented below is used to assess the adequacy of strategic decisions, the method of achieving these strategies and related financial results. Historically Watson Wyatt had five reportable segments which have been retrospectively adjusted to the new post-Merger segments. The Benefits and Technology and Administrative Solutions segments were combined and reclassified into the Benefits segment. The Investment Consulting and Insurance & Financial Services segments were combined and reclassified into the Risk and Financial Services segment while the Human Capital Group became the Talent and Rewards segment.

Management evaluates the performance of its segments and allocates resources to them based on net operating income on a pre-bonus, pre-tax basis. Revenue includes amounts that were directly incurred on behalf of our clients and

reimbursed by them (reimbursable expenses).

**Table of Contents**

The table below presents specified information about reported segments as of and for the three months ended December 31, 2010:

	<b>Benefits</b>	<b>Risk and Financial Services</b>	<b>Talent and Rewards</b>	<b>Total</b>

Total assets	\$ 4,726,872	\$ 1,564,317	\$ 4,726,872	\$ 1,564,317

- (1) Depreciation, general and administrative, pension, and medical costs are allocated to our segments based on budgeted expenses determined at the beginning of the fiscal year as management believes that these costs are largely uncontrollable to the segment. To the extent that the actual expense base upon which allocations are made differs from the forecast/budget amount, a reconciling item will be created between internally allocated expenses and the actual expense that we report for GAAP purposes.
- (2) Total segment receivables, which reflect the receivable balances used by management to make business decisions, are included for management reporting purposes net of deferred revenue

**Table of Contents****Note 14 Earnings Per Share.**

We adopted guidance under ASC 260, *Earnings per Share*, relating to the two-class method of presenting EPS. This guidance addresses whether awards granted in share-based transactions are participating securities prior to vesting and therefore need to be included in the earning allocation in computing earnings per share using the two-class method. ASC 260-10-45-60 requires non-vested share-based payment awards that have non-forfeitable rights to dividends or dividend equivalents to be treated as a separate class of securities in calculating earnings per share. Our participating securities include non-vested restricted stock. The adoption had no impact on previously reported basic or diluted EPS. The components of basic and diluted earnings per share are as follows:

<b>Three Months Ended December 31,</b>						
<b>2010</b>			<b>2009</b>			
	<b>Income</b>	<b>Shares</b>	<b>Per Share Amount</b>	<b>Income</b>	<b>Shares</b>	<b>Per Share Amount</b>

#### **Note 15 Recent Accounting Pronouncements.**

##### *Adopted*

ASC 810, *Amendments to FASB Interpretation No. 46 (R)*, amends the evaluation criteria to identify the primary beneficiary of a variable interest entity provided by FASB Interpretation 46(R), *Consolidation of Variable Interest Entities – An Interpretation of ARB No. 51*. Additionally, the provisions require ongoing assessment of whether an enterprise is the primary beneficiary of the variable interest entity. We adopted these provisions on July 1, 2010 and the provisions did not have a material impact on our financial position or results of operations.

ASC 810, *Noncontrolling Interests in Consolidated Financial Statements – an amendment of ARB No. 51*, requires the recognition of a noncontrolling interest (minority interest) as equity in the consolidated financial statements and separate from the parent's equity. The amount of net income attributable to the noncontrolling interest will be included in consolidated net income. It also amends certain consolidation procedures for consistency with the requirements of ASC 805, *Business Combinations*. The provisions also include expanded disclosure requirements regarding the interests of the parent and its noncontrolling interest. We adopted these provisions on July 1, 2009. As a result, our non-controlling interest of \$1.0 million as of June 30, 2009, which was previously included in other non-current liabilities, was reclassified to non-controlling interest in total equity. In addition, our non-controlling interest of \$1.1 million as of December 31, 2009, which was previously included in (loss)/income from affiliates, was reclassified to net (loss)/income attributable to non-controlling interests in our results of operations.

**Table of Contents**

*Not yet adopted*

On December 17, 2010, the FASB issued ASU 2010-28, which (1) does not prescribe a specific method of calculating the carrying value of a reporting unit in the performance of step 1 of the goodwill impairment test and (2) requires entities with a zero or negative carrying value to assess, considering qualitative factors such as but not limited to those listed in ASC 350-20-35-30 whether it is more likely than not that a goodwill impairment exists. If an entity concludes that it is more likely than not that an impairment of goodwill exists, the entity must perform step 2 of the goodwill impairment test. These provisions are effective for impairment tests performed in our fiscal year 2012, beginning July 1, 2011. Upon adoption, if any of our reporting units have a zero or negative carrying value, we must assess, on the basis of current facts and circumstances, whether it is more likely than not that an impairment of our goodwill exists. If so, we would perform step 2 of the goodwill impairment test on the day of adoption and record the impairment charge, if any, as a cumulative-effect adjustment through beginning retained earnings. We are currently evaluating the impact, if any, on our financial position or results of operations of adopting this provision.

**Note 16 Subsequent Events.**

Acquisitions

During the second and third quarters of fiscal 2011, we completed two acquisitions. These acquisitions individually or combined were insignificant for pro forma and other disclosures required by accounting for business combinations. The summary in Note 2, Mergers and Acquisitions in this filing is provided to give our investors better understanding of our recent strategic acquisitions of Aliquant and EMB.

Note repayment

In January 2010, we repaid the principal and interest owed on the \$200 million of Towers Watson notes payable to Class R shareholders issued in the Merger.

Acument Global Technologies, Inc.

In a letter to the Company dated January 26, 2011, Acument Global Technologies, Inc. ( Acument ) and the Acument Global Technologies, Inc. Pension Plan (the Plan ) claim that Towers Watson breached its fiduciary duties under the Employee Retirement Income Security Act of 1974 ( ERISA ) in connection with advice provided to Acument relating to investment of certain assets of the Plan in the Westridge Capital Management Enhancements Funds (the Westridge Funds ). Acument and the Plan demand that the Company make the Plan whole for losses and damages allegedly sustained as a result of Acument's decision to invest in the Westridge Funds. Watson Wyatt Investment Consulting, Inc. ( WWIC ), now known as Towers Watson Investment Services, Inc. ( TWIS ), provided investment consulting services to Acument between December 1, 2007 and April 30, 2010. In connection with those services, WWIC recommended an investment in the Westridge Funds. In July 2008, Acument made a \$47 million investment in the Westridge Funds. During the period December 1, 2008 through January 22, 2009, Acument made additional investments of \$9.5 million, bringing the aggregate investment of the Plan's assets in the Westridge Funds to \$56.5 million.

As the result of information obtained during an investigation of Westridge Capital Management, its affiliates WG Trading Investors, L.P. and WG Trading Company, L.P. (collectively referred to as Westridge ) and their principals, commenced by the National Futures Association on February 5, 2009, the Commodities Future Trading Commission ( CFTC ) filed suit against Westridge and its principals alleging violations of the Commodity Exchange Act. This resulted in a court-supervised receivership of the assets of Westridge. The Securities Exchange Commission filed a separate suit on February 25, 2009 against Westridge and its principals alleging violations of the federal securities laws. In its complaint, the SEC alleges that Westridge had become a fraudulent investment scheme by which its principals purportedly misappropriated approximately \$553 million from a number of highly sophisticated institutional investors, including public pension and retirement plans and educational institutions, some of which were investing in Westridge as late as February 6, 2009. To date, Acument has recovered approximately \$9.5 million of its investment in the Westridge Funds from the receivership. Distributions from the receivership have not yet been completed and Acument could recover additional sums. The Company plans to decline Acument's demand for compensation and plans to defend vigorously against any legal proceedings that may ensue.

**ITEM 2: MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS.**

**Executive Overview**

**The Merger**

On January 1, 2010, pursuant to the Agreement and Plan of Merger, as amended by Amendment No. 1 (the "Merger Agreement"), Watson Wyatt Worldwide, Inc. ("Watson Wyatt") and Towers, Perrin, Forster & Crosby, Inc. ("Towers Perrin") combined their businesses through two simultaneous mergers (the "Merger") and became wholly-owned subsidiaries of Jupiter Saturn Holding Company, which subsequently changed its name to Towers Watson & Co. ("Towers Watson", the "Company" or "we"). Since the consummation of the Merger, Towers Perrin changed its name to Towers Watson Pennsylvania Inc.; and Watson Wyatt changed its name to Towers Watson Delaware Holdings Inc. However, for ease of reference, we continue to use the legacy Towers Perrin and Watson Wyatt names throughout this Report.

Although the business combination of Watson Wyatt and Towers Perrin was a merger of equals, generally accepted accounting principles require that one of the combining entities be identified as the acquirer by reviewing facts and circumstances as of the acquisition date. Watson Wyatt was determined to be the accounting acquirer. This conclusion is primarily supported by the facts that Watson Wyatt shareholders owned approximately 56 percent of all Towers Watson common stock after the redemption of Towers Watson Class R common stock and that Watson Wyatt's chief executive officer became the chief executive officer of Towers Watson. Watson Wyatt is the accounting predecessor in the Merger and as such, the historical results of Watson Wyatt through December 31, 2009 have become those of the new registrant, Towers Watson and are presented in this filing. Towers Watson's condensed consolidated financial statements as of and for the three and six months ended December 31, 2010 include the results of Towers Perrin's operations beginning January 1, 2010. The condensed consolidated financial statements of Towers Watson as of and for the three and six months ended December 31, 2009 include only the financial statements of Watson Wyatt.

**General**

Towers Watson's history, which is primarily that of our predecessor companies since the Merger occurred on January 1, 2010, is summarized below.

Watson Wyatt traces its roots back to the actuarial firm R. Watson & Sons, founded in 1878 in the U.K. In 1946, The Wyatt Company was established as an actuarial consulting firm in the U.S. Over the next few decades, the U.S.-based firm branched out into such other services as health care and compensation consulting and broadened its global reach, establishing offices throughout Canada, Europe, Latin America and Asia. In 1995, the two firms formed a global alliance and began operating as Watson Wyatt Worldwide. In 2000, the U.S.-based arm of the alliance completed a successful initial public offering and began trading on the New York Stock Exchange under the symbol WW. In August 2005, the two firms formally combined into one.

Towers Perrin's predecessor firm, Henry W. Brown & Co., was founded in 1871. Towers, Perrin, Forster & Crosby, Inc., was incorporated in Philadelphia, Pennsylvania, on February 13, 1934. The firm opened for business with 26 employees and initially operated a Reinsurance Division and Life Division. The firm eventually began to specialize in pensions and other employee benefit plans. Over the decades, the firm grew, diversified, globalized and was renamed Towers Perrin in 1987.

At Towers Watson, we bring together professionals from around the world experts in their areas of specialty to deliver the perspectives that give organizations a clear path forward. We do this by working with clients to develop solutions in the areas of employee benefits, risk and capital management, and talent and rewards.

We help our clients enhance business performance by improving their ability to attract, retain and motivate qualified employees. We focus on delivering consulting services that help organizations anticipate, identify and capitalize on emerging opportunities in human capital management. We also provide independent financial advice regarding all aspects of life assurance and general insurance, as well as investment advice to help our clients develop disciplined and efficient strategies to meet their investment goals.

As leading economies worldwide become more service-oriented, human resources and financial management have become increasingly important to companies and other organizations. The heightened competition for skilled employees, unprecedented changes in workforce demographics, regulatory changes related to compensation and

retiree benefits, and rising employee-related costs have increased the importance of effective human capital management. Insurance and investment decisions have become increasingly complex and important in the face of changing economies and dynamic financial markets. Towers Watson helps its clients address these issues by combining expertise in human capital and financial management with consulting and technology solutions, to improve the design and implementation of various human resources and financial programs, including compensation, retirement, health care, and insurance and investment plans.

**Table of Contents**

The human resources consulting industry, although highly fragmented, is highly competitive. It is composed of major human capital consulting firms, specialty firms, consulting arms of accounting firms and information technology consulting firms.

In the short term, Towers Watson's revenue will be driven by many factors, including the general state of the global economy and the resulting level of discretionary spending, the continuing regulatory compliance requirements of its clients, changes in investment markets, the ability of our consultants to attract new clients or provide additional services to existing clients, the impact of new regulations in the legal and accounting fields and the impact of our ongoing cost saving initiatives. In the long term, we expect that our financial results will depend in large part upon how well we succeed in deepening our existing client relationships through thought leadership and a focus on developing cross-practice solutions, actively pursuing new clients in our target markets, cross selling and making strategic acquisitions. We believe that the highly fragmented industry in which we operate offers us growth opportunities, because we provide a unique business combination of benefits and human capital consulting, as well as risk and capital management and strategic technology solutions.

**Overview of Towers Watson**

Towers Watson is a global consulting firm focusing on providing human capital and financial consulting services. Towers Watson provides services in three principal practice areas: Benefits, Risk and Financial Services, and Talent and Rewards operating from 146 offices in 36 countries throughout North America, Europe, Asia-Pacific and Latin America. Towers Watson employed approximately 12,395 and 12,750 full-time associates as of December 31, 2010 and June 30, 2010, respectively, in the following practice areas:

	<b>December 31, 2010</b>	<b>June 30, 2010</b>
Benefits	6,100	6,165
Risk and Financial Services	2,055	2,030
Talent and Rewards	1,985	1,990
Other	255	215
Business Services (incl. Corporate and field support)	2,000	2,350
Total associates	12,395	12,750

**Segments**

We provide services in three business segments: Benefits; Risk and Financial Services; and Talent and Rewards.

**Benefits Segment.** The Benefits segment is our largest and most established segment. This segment has grown through business combinations as well as strong organic growth. It helps clients create and manage cost-effective benefits programs that help them attract, retain and motivate a talented workforce.

The Benefits segment provides benefits consulting and administration services through four primary lines of business:

- Retirement;

- Health and Group Benefits;

- Technology and Administration Solutions; and

- International Consulting.

Retirement supports organizations worldwide in designing, managing, administering and communicating all types of retirement plans. Health and Group Benefits provides advice on the strategy, design, financing, delivery, ongoing plan management and communication of health and group benefit programs. Through our Technology and Administration Solutions line of business, we deliver cost-effective benefit outsourcing solutions. The International Consulting Group provides expertise in dealing with international human capital management and related benefits and compensation

advice for corporate headquarters and their subsidiaries. A significant portion of the revenue in this segment is from recurring work, driven in large part by the heavily regulated nature of employee benefits plans and our clients' annual needs for these services. For the six months ended December 31, 2010, the Benefits segment contributed 58% of our segment revenue. For the same period, approximately 45% of the Benefits segment's revenue originates from outside the United States and is thus subject to translation exposure resulting from foreign exchange rate fluctuations.

## **Table of Contents**

**Risk and Financial Services Segment.** Within the Risk and Financial Services segment, our second largest segment, we have three primary lines of business:

Risk Consulting and Software ( RCS );

Investment Consulting and Solutions ( Investment ); and

Reinsurance and Insurance Brokerage ( Brokerage ).

The Risk and Financial Services segment accounted for 23% of our segment revenue for the six months ended December 31, 2010. Approximately 63% of the segment's revenue originates from outside the United States and is thus subject to translation exposure resulting from foreign exchange rate fluctuations. The segment has a strong base of recurring revenue, driven by long-term client relationships in reinsurance brokerage services, retainer investment consulting relationships, consulting services on financial reporting, and actuarial opinions on property/casualty loss reserves. Some of these relationships have been in place for more than 20 years. A portion of the revenue is related to project work, which is more heavily dependent on the overall level of discretionary spending by clients. This work is favorably influenced by strong client relationships, particularly related to mergers and acquisitions consulting. Major revenue growth drivers include changes in regulations, the level of mergers and acquisitions activity in the insurance industry, growth in pension and other asset pools, and reinsurance retention and pricing trends.

**Talent and Rewards Segment.** Our third largest segment, Talent and Rewards, is focused on three primary lines of business:

Executive Compensation;

Rewards, Talent and Communication; and

Data, Surveys and Technology.

The Talent and Rewards segment accounted for approximately 19% of our segment revenue for the six months ended December 31, 2010. Few of the segment's projects have a recurring element. As a result, this segment is most sensitive to changes in discretionary spending due to cyclical economic fluctuations. Approximately 49% of the segment's revenue originates from outside the United States and is thus subject to translation exposure resulting from foreign exchange rate fluctuations. Revenue for Talent and Rewards consulting has minimal seasonality, with a small degree of heightened activity in the second half of the fiscal year during the annual compensation, benefits and survey cycles. Major revenue growth drivers in this group include demand for workforce productivity improvements and labor cost reductions, focus on high performance culture, globalization of the workforce, changes in regulations and benefits programs, mergers and acquisitions activity, and the demand for universal metrics related to workforce engagement.

## **Financial Statement Overview**

Towers Watson's fiscal year ends June 30.

The financial statements contained in this quarterly report reflect Condensed Consolidated Balance Sheets as of the end of the second quarter of fiscal year 2011 (December 31, 2010) and as of the end of fiscal year 2010 (June 30, 2010), Condensed Consolidated Statements of Operations for the three and six month periods ended December 31, 2010 and 2009, Condensed Consolidated Statements of Cash Flows for the six months ended December 31, 2010 and 2009 and a Condensed Consolidated Statement of Changes in Stockholders' Equity for the six months ended December 31, 2010.

Shown below are Towers Watson's top five markets based on percentage of consolidated revenue. The six months ended December 31, 2010 and the fiscal year ended June 30, 2010 include data of Towers Watson's geographic regions. The fiscal year ended June 30, 2009 includes only data of historical Watson Wyatt's geographic regions.

	Six Months 2011	Fiscal Year 2010	2009
United States	49%	52%	43%

## Edgar Filing: Towers Watson & Co. - Form 10-Q

United Kingdom	22	22	32
Canada	6	6	4
Germany	5	4	4
Netherlands	3	3	3

We derive the majority of our revenue from fees for consulting services, which generally are billed at standard hourly rates and expense reimbursement, which we refer to as time and expense, or on a fixed-fee basis. Management believes the approximate percentages for time and expense and fixed-fee engagements are 60% and 40%, respectively. Clients are typically invoiced on a

## **Table of Contents**

monthly basis with revenue generally recognized as services are performed. No single client accounted for more than 1% of our consolidated revenues for any of our most recent three fiscal years.

Our most significant expense is compensation to associates, which typically comprises approximately 70% of total costs of providing services. We compensate our directors and select executives with incentive stock-based compensation plans from time to time. When granted, awards are governed by the Towers Watson & Co. 2009 Long Term Incentive Plan, which provides for the awards to be valued at their grant date fair value which is amortized over the expected term of the awards, generally three years. In connection with the issuance of Towers Watson restricted Class A common stock to Towers Perrin RSU holders in the Merger, we expect the total non-cash compensation expense relating to Towers Watson restricted Class A common stock for the three year period will be \$158.4 million. This estimate was determined assuming a 10% annual forfeiture rate based on actual and expected attrition and the graded method of expense methodology. This expense methodology assumes that the restricted shares were issued to Towers Perrin RSU holders in equal amounts of shares that vest over one year, two years and three years giving the effect of more expense in the first year than the second and third. In the event that an associate is involuntarily terminated other than for cause, vesting is accelerated and expense is recorded immediately.

Salaries and employee benefits are comprised of wages paid to associates, related taxes, severance, benefit expenses such as pension, medical and insurance costs, and fiscal year-end incentive bonuses.

Professional and subcontracted services represent fees paid to external service providers for employment, marketing and other services. For the most recent three fiscal years, approximately 40 to 60% of the professional and subcontracted services for Watson Wyatt were directly incurred on behalf of clients and were reimbursed by them, with such reimbursements being included in revenue. For the six months ended December 31, 2010 for Towers Watson, approximately 40% of professional and subcontracted services represent these reimbursable services.

Occupancy includes expenses for rent and utilities.

General and administrative expenses includes legal, marketing, human resources, finance, research, technology support, supplies, telephone and other costs to operate office locations as well as professional fees and insurance, including premiums on excess insurance and losses on professional liability claims, non-client-reimbursed travel by associates, publications and professional development. This line item also includes miscellaneous expenses, including gains and losses on foreign currency transactions.

Depreciation and amortization includes the depreciation of fixed assets and amortization of intangible assets and internally-developed software.

Transaction and integration expenses include fees and charges associated with the Merger and with our other acquisitions. Transaction and integration expenses principally consist of investment banker fees, contract termination fees, regulatory filing expenses, integration consultants, as well as legal, accounting, marketing, and information technology integration expenses.

### **Critical Accounting Policies and Estimates**

The preparation of consolidated financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Our estimates, judgments and assumptions are continually evaluated based on available information and experience. Because of the use of estimates inherent in the financial reporting process, actual results could differ from those estimates. The areas that we believe are critical accounting policies include revenue recognition, valuation of billed and unbilled receivables from clients, discretionary compensation, income taxes, pension assumptions, incurred but not reported claims, and goodwill and intangible assets. The critical accounting policies discussed in our annual report on Form 10-K involve making difficult, subjective or complex accounting estimates that could have a material effect on our financial condition and results of operations. These critical accounting policies require us to make assumptions about matters that are highly uncertain at the time of the estimate or assumption. Different estimates that we could have used, or changes in estimates that are reasonably likely to occur, may have a material effect on our financial condition and results of operations.

### ***Pension Assumptions***

We sponsor both qualified and non-qualified defined benefit pension plans and other post-retirement benefit plan or OPEB plans in North America and Europe. These plans represented 98% of our total pension obligations as of June 30, 2010. We also sponsor funded and unfunded defined benefit pension plans in certain other countries representing the remaining 2% of the liability.

Under the legacy Watson Wyatt plans in North America, benefits are based on the number of years of service and the associate's compensation during the five highest paid consecutive years of service. The non-qualified plan, included only in North America, provides for pension benefits that would be covered under the qualified plan but are limited by the Internal Revenue Code. The non-

**Table of Contents**

qualified plan has no assets and therefore is an unfunded arrangement. Beginning January 2008, Watson Wyatt made changes to the plan in the United Kingdom related to years of service used in calculating benefits for associates. Benefits earned prior to January 2008 are based on the number of years of service and the associate's compensation during the three years before leaving the plan and benefits earned after January 2008 are based on the number of years of service and the associate's average compensation during the associate's term of service since that date. The plan liabilities in Germany were a result of Watson Wyatt's acquisition of Heissmann GmbH in 2007. A significant percentage of the liabilities represent the grandfathered pension benefit for associates hired prior to a July 1991 plan amendment. The pension plan for those hired after July 1991 is a defined contribution type arrangement. In the Netherlands, the pension benefit is a percentage of service and average salary over the working life of the associate, where salary includes allowances and bonuses up to a set maximum salary and is offset by the current social security benefit. The benefit liability is reflected on the balance sheet. The measurement date for each of the plans is June 30. The legacy Towers Perrin pension plans in the United States accrue benefits under a cash-balance formula for associates hired or rehired after 2002 and for all associates for service after 2007. For associates hired prior to 2003 and active as of January 2003, benefits prior to 2008 are based on a combination of a cash balance formula, for the period after 2002, and a final average pay formula based on years of plan service and the highest five consecutive years of plan compensation prior to 2008. Under the cash balance formula benefits are based on a percentage of each year of the associate's plan compensation. The Canadian Retirement Plan provides a choice of a defined benefit approach or a defined contribution approach. The non-qualified plans in North America provide for pension benefits that would be covered under the qualified plan in the respective country but are limited by statutory maximums. The non-qualified plans have no assets and therefore are unfunded arrangements. The U.K. Plan provides predominantly lump sum benefits. Benefit accruals under the U.K. Plan ceased on March 31, 2008. The plans in Germany mostly provide benefits under a cash balance benefit formula. Benefits under the Netherlands plan accrue on a final pay basis on earnings up to a maximum amount each year. The benefit assets and liabilities are reflected on the balance sheet. The measurement date for each of the plans has historically been December 31, but has been changed to June 30 as a result of the Merger. The determination of our pension benefit obligations and related benefit expense under the plans is based on a number of assumptions that, given the longevity of the plans, are long-term in focus. A change in one or a combination of these assumptions could have a material impact on our pension benefit obligation and related expense. For this reason, management employs a long-term view so that assumptions do not change frequently in response to short-term volatility in the economy. Any difference between actual and assumed results is amortized into our pension expense over the average remaining service period of participating associates. We consider several factors prior to the start of each fiscal year when determining the appropriate annual assumptions, including economic forecasts, relevant benchmarks, historical trends, portfolio composition and peer comparisons.

The compensation committee of our board of directors approved an amendment to the terms of the existing U.S. qualified and non-qualified defined benefit pension plans, postretirement benefit plans and defined contribution plans which was communicated in September 2010. Effective December 31, 2010, the existing U.S. qualified and non-qualified pension plans have been frozen to new participants, and benefit accruals will be frozen under the current benefit formulas effective December 31, 2011. New pension benefits will accrue beginning on January 1, 2012 under a new stable value pension design for qualified and non-qualified pension plans maintained for U.S. associates, including U.S. named executive officers. Retiree medical benefits provided under our U.S. postretirement benefit plans will be frozen to new hires effective January 1, 2011. Life insurance benefits under the same plans will be frozen with respect to service, eligibility and amounts as of January 1, 2012 for active associates. As a result of these changes to the U.S. pension and post-retirement benefit plans, there were remeasurements of the legacy Watson Wyatt U.S. plans and the legacy Towers Perrin post-retirement benefit plan as of September 30, 2010. The legacy Towers Perrin pension plan was not required to be remeasured due to the plan design.

*Assumptions Used in the Valuations of the Defined Benefit Pension Plans*

The following assumptions were used in the valuations of Towers Watson's defined benefit pension plans. The assumptions presented for the North American plans represent the weighted-average of rates for all U.S. and Canadian plans. The assumptions presented for Towers Watson's European plans represent the weighted-average of rates for the U.K., Germany and Netherlands plans. In relation to the acquisition of Towers Perrin on January 1, 2010, the legacy

plans of Towers Perrin have been included in the assumptions as of and for the year ended June 30, 2010. The assumptions as of and for the years ended June 30, 2009 and 2008 represent only the legacy Watson Wyatt plans.

**Table of Contents**

The assumptions used to determine net periodic benefit cost for the fiscal years ended June 30, 2010, 2009 and 2008 were as follows:

	Year Ended June 30,					
	2010		2009		2008	
	North America	Europe	North America	Europe	North America	Europe
Discount rate	6.43%	6.03%	6.91%	6.47%	6.25%	5.72%
Expected long-term rate of return on assets	8.11%	6.48%	8.61%	6.53%	8.61%	6.74%
Rate of increase in compensation levels	3.93%	5.09%	4.08%	5.36%	3.84%	4.73%

The following table presents the assumptions used in the valuation to determine the projected benefit obligation for the fiscal years ended June 30, 2010 and 2009:

	June 30, 2010		June 30, 2009	
	North America	Europe	North America	Europe
Discount rate	5.86%	5.25%	7.21%	6.29%
Rate of increase in compensation levels	3.88%	3.88%	3.29%	5.15%

For the 2011 fiscal year, the discount rate used to determine net periodic benefit cost was initially based on the rates in the table shown above for the determination of the projected benefit obligation as of June 30, 2010, which included a 5.86% rate for North America. As a result of plan changes adopted during the first quarter of fiscal year 2011, the legacy Watson Wyatt U.S. Pension Plans were remeasured as of September 30, 2010. Upon remeasurement the discount rate assumption was changed for these plans and the net periodic benefit cost for the 2011 fiscal year is now calculated using a weighted average discount rate of 5.79% for North America.

Towers Watson's discount rate assumptions were determined by matching expected future pension benefit payments with current AA corporate bond yields from the respective countries for the same periods. In the United States, specific bonds were selected to match plan cash flows. In Canada, yields were taken from a corporate bond yield curve. In Europe, the discount rate was set based on yields on European AA corporate bonds at the measurement date. The expected rates of return assumptions at 8.11% and 6.48% per annum for North America and Europe, respectively, were supported by an analysis performed by Towers Watson of the weighted-average yield expected to be achieved with the anticipated makeup of investments.

The following information illustrates the sensitivity to a change in certain assumptions for the North American pension plans for fiscal year 2011:

Change in Assumption	Effect on FY 2011 Pre-Tax Pension Expense
25 basis point decrease in discount rate	+\$3.0 million
25 basis point increase in discount rate	-\$2.9 million
25 basis point decrease in expected return on assets	+\$2.8 million
25 basis point increase in expected return on assets	-\$2.8 million

The above sensitivities reflect the impact of changing one assumption at a time. Economic factors and conditions often affect multiple assumptions simultaneously and the effects of changes in key assumptions are not necessarily linear.

The following information illustrates the sensitivity to a change in certain assumptions for the European pension plans for fiscal year 2011:

Change in Assumption	Effect on FY 2011 Pre-Tax Pension Expense
25 basis point decrease in discount rate	+\$2.7 million

25 basis point increase in discount rate	-\$2.6 million
25 basis point decrease in expected return on assets	+\$1.0 million
25 basis point increase in expected return on assets	-\$1.0 million

The sensitivities reflect the effect of assumption changes occurring after acquisition accounting has been applied. The differences in the discount rate and compensation level assumption used for the North American and European plans above can be attributed to the differing interest rate environments associated with the currencies and economies to which the plans are subject. The differences in the

**Table of Contents**

expected return on assets are primarily driven by the respective asset allocation in each plan, coupled with the return expectations for assets in the respective currencies.

**Results of Operations**

Watson Wyatt is the accounting predecessor in the Merger; as such, the historical results of Watson Wyatt have become those of Towers Watson and are presented herein as historical results. The condensed consolidated statement of operations of Towers Watson for the three and six months ended December 31, 2010 includes the results of Towers Perrin's operations beginning January 1, 2010. The condensed consolidated statement of operations of Towers Watson for the three and six months ended December 31, 2009 includes only the financial results of Watson Wyatt.

In addition to the historical analysis of results of operations, we have prepared unaudited supplemental pro forma results of operations for the three and six month periods ended December 31, 2010 and 2009 as if the Merger had occurred at the beginning of the periods presented and analysis of the pro forma results of operations by line item. The pro forma analysis is prepared and presented to aid in explaining the results of operations of the merged Towers Watson.

As a result of the Merger, Towers Watson aligned and grouped general and administrative accounts using a natural account methodology. The accounting predecessor, Watson Wyatt, allocated certain support service charges to general and administrative expenses from specific offices, teams and accounts. The results of operations for the three and six months ended December 31, 2009 have been retrospectively realigned to the new general and administrative expense methodology.

**Table of Contents**

The table below sets forth our condensed consolidated statements of operations, on a historical basis, and data as a percentage of revenue for the period indicated:

**Condensed Consolidated Statements of Operations**  
**(Thousands of U.S. dollars)**  
**(Unaudited)**

	<b>Three Months Ended December 31,</b>		<b>2010</b>		<b>2009</b>		<b>Six Months Ended December 31,</b>		<b>2010</b>		<b>2009</b>

**Historical Results of Operations for the Three and Six Months Ended December 31, 2010 Compared to the Three and Six Months Ended December 31, 2009.**

Revenue for the three months ended December 31, 2010 was \$790.7 million, an increase of \$358.1 million, or 83%, compared to \$432.6 million for the three months ended December 31, 2009. Revenue for the six months ended December 31, 2010 was \$1.5 billion, an increase of \$708.1 million, or 85%, compared to \$834.0 million for the six months ended December 31, 2009. These increases were primarily a result of the Merger combining Towers Perrin's and Watson Wyatt's operations as of January 1, 2010.

Salaries and employee benefits was 63% and 62% of revenue for the three months ended December 31, 2010 and 2009, respectively. Included in salaries and employee benefits is stock-based compensation of \$26.2 million recorded in the second quarter of fiscal year 2011, which primarily related to the vesting of Restricted A shares issued to Towers Perrin employees in the Merger. Exclusive of this expense, we experienced a reduction in salaries and employee benefits as a percentage of revenue for the three months ended December 31, 2010 compared to 2009 due to cost savings related to synergies achieved in the four quarters since the merger. Professional and subcontracted services were 8% of revenue for the three months ended December 31, 2010, an increase of 2%, from 6% of revenue for the three months ended December 31, 2009. Included in other non-operating income for the three months ended December 31, 2010 was a \$9.4 million deferred payment we received related to a divestiture by Towers Perrin in June 2009 in anticipation of the Merger. There were no other significant increases or decreases of more than one percent comparing the statements of operations line items as a percent of revenue period over period for the three months ended December 31, 2010 and 2009.

**Table of Contents**

Salaries and employee benefits was 64% of revenue for the six months ended December 31, 2010, an increase of 1%, from 63% of revenue for the six months ended December 31, 2009. This increase is the result of stock-based compensation of \$50.5 million recorded in the first two quarters of fiscal year 2011, which primarily related to the vesting of Restricted A shares issued to Towers Perrin employees in the Merger. This increase is offset by a reduction in salaries and employee benefits as a percentage of revenue for the six months ended December 31, 2010 compared to 2009 due to cost savings related to synergies achieved in the three quarters since the merger. Professional and subcontracted services were 8% of revenue for the six months ended December 31, 2010, an increase of 2%, from 6% of revenue for the six months ended December 31, 2009. Included in other non-operating income for the six months ended December 31, 2010 was a \$9.4 million deferred payment we received related to a divestiture by Towers Perrin in June 2009 in anticipation of the Merger. There were no other significant increases or decreases of more than one percent comparing the statements of operations line items as a percent of revenue period over period for the six months ended December 31, 2010 and 2009.

Provision for income taxes for three months ended December 31, 2010 was \$22.8 million, compared to \$22.1 million for the three months ended December 31, 2009. The effective tax rate was 32.0% for the three months ended December 31, 2010 and 48.0% for the three months ended December 31, 2009. The prior year tax rate was higher primarily due to a 12.8% increase in the effective tax rate associated with the impact of German tax law changes on certain German deferred tax assets in relation to the Merger with Towers Perrin. In addition, the effective tax rate for the three months ended December 31, 2010 includes a deferred income tax benefit from the impact of a tax restructuring in Japan of 1.5%.

Provision for income taxes for six months ended December 31, 2010 was \$47.9 million, compared to \$37.5 million for the six months ended December 31, 2009. The effective tax rate was 36.8% for the six months ended December 31, 2010 and 41.1% for the six months ended December 31, 2009. The prior year tax rate was higher due to a 6.5% increase associated with German tax law changes on certain German deferred tax assets in relation to the Merger with Towers Perrin.

Towers Watson has not provided U.S. deferred taxes on cumulative earnings of foreign subsidiaries that have been reinvested indefinitely, with the exception of Towers Watson Canada Inc. We will continue to provide deferred taxes on Canadian earnings for the foreseeable future.

*Net income attributable to controlling interests.*

Net income attributable to controlling interests for the three months ended December 31, 2010 was \$48.1 million, an increase of \$24.2 million, or 101.5%, compared to \$23.9 million for the three months ended December 31, 2009. The increase was primarily due to an increase of income from operations in connection with the Merger. Net income attributable to controlling interests is inclusive of the amortization of Merger-related intangible assets, deductible and non-deductible transaction and integration expenses including severance, stock-based compensation related to Restricted Class A shares (recorded in salaries and employee benefits), and other Merger-related tax items.

Net income attributable to controlling interests for the six months ended December 31, 2010 was \$81.3 million, an increase of \$27.7 million, or 51.6%, compared to \$53.7 million for the six months ended December 31, 2009. The increase was primarily due to an increase of income from operations in connection with the Merger. Net income attributable to controlling interests is inclusive of the amortization of Merger-related intangible assets, deductible and non-deductible transaction and integration expenses including severance, stock-based compensation related to Restricted Class A shares (recorded in salaries and employee benefits), and other Merger-related tax items.

*Earnings per share.*

Diluted earnings per share for the three months ended December 31, 2010 was \$0.65 compared to \$0.56 for the three months ended December 31, 2009. Diluted earnings per share for the six months ended December 31, 2010 was \$1.09, compared to \$1.26 for the six months ended December 31, 2009.

***Non-U.S. GAAP Measures***

Diluted earnings per share exclusive of the certain Merger-related items: amortization of intangible assets, transaction and integration expenses including severance (deductible and non-deductible for taxes), stock-based compensation related to Restricted Class A shares (recorded in salaries and employee benefits) and other tax items ( adjusted diluted earnings per share ), resulted in adjusted diluted earnings per share, a non-generally accepted accounting principle in

the U.S. ( non-U.S. GAAP measure ), for the three months ended December 31, 2010 of \$1.11.

We use EBITDA, Adjusted EBITDA, Adjusted Net Income Attributable to Controlling Interests and Adjusted Diluted Earnings Per Share, non-U.S. GAAP measures, to evaluate our financial performance and separately evaluate our performance of the transaction and integration activities as well as changes in tax law. We believe these measures are useful in evaluating our results of operations and in providing a baseline for the evaluation of future operating results. We define EBITDA as net income before non-controlling interests adjusted for provision for income taxes, interest, net and depreciation and amortization. Reconciliation of EBITDA and

**Table of Contents**

Adjusted EBITDA to net income before non-controlling interests, Adjusted Net Income Attributable to Controlling Interests to net income attributable to controlling interests and Adjusted Diluted Earnings Per Share to diluted earnings per share are included in the tables below. These non-U.S. GAAP measures are not defined in the same manner by all companies and may not be comparable to other similarly titled measures of other companies. Non-U.S. GAAP measures should be considered in addition to, and not as a substitute for, the information contained within our financial statements.

	<b>Three Months Ended December 31, 2010                  2009 (in thousands)</b>	
Reconciliation of EBITDA and Adjusted EBITDA to net income before non-controlling interests:		
Net income before non-controlling interests	\$ 48,581	\$ 23,980
Provision for income taxes	22,817	22,113
Interest, net	2,186	415
Depreciation and amortization	30,525	18,251
EBITDA	104,109	64,759
Transaction and integration expenses	30,702	16,727
Stock-based compensation (a)	24,191	
Other non-operating income (b)	(11,531)	(699)
Adjusted EBITDA	\$ 147,471	\$ 80,787

(a) Stock-based compensation is included in salary and employee benefits expense and relates to Restricted A shares held by our current associates which were awarded to them as former Towers Perrin employees in connection with the Merger.

(b) Other non-operating income includes income from affiliates, and other non-operating income.

A reconciliation of net income attributable to controlling interests, as reported under generally accepted accounting principles, to adjusted net income attributable to controlling interests, and of diluted earnings per share as reported under generally accepted accounting principles to adjusted diluted earnings per share is as follows:

	<b>Three Months Ended December 31, 2010 (In thousands, except share and per share amounts)</b>	
Net income attributable to controlling interests	\$	48,103
Adjusted for certain Merger-related items (c):		
Amortization of intangible assets		7,717
Transaction and integration expenses including severance (d)		18,409
Stock-based compensation (e)		14,705
Deferred payment from divestiture (f)		(5,614)
Other tax items		(1,081)
Adjusted net income attributable to controlling interests	\$	82,239

Weighted average shares of common stock    diluted (000)		74,335
Earnings per share    diluted, as reported	\$	0.65
Adjusted for certain Merger-related items:		
Amortization of intangible assets		0.10
Transaction and integration expenses including severance		0.25
Stock-based compensation		0.20
Deferred payment from divestiture		(0.08)
Other tax items		(0.01)
Adjusted earnings per share    diluted	\$	1.11

**Table of Contents**

- (c) The adjustments to net income attributable to controlling interests and diluted earnings per share of certain Merger-related items are net of tax. In calculating the net of tax amounts, the effective tax rate for amortization of intangible assets was 33.9%, transaction and integration expenses including severance was 40.0%, stock-based compensation was 39.2% and deferred payment was 40.0%. Included in other tax items was a \$1.1 million benefit resulting from a tax restructuring in Japan, which is included in the consolidated statement of operations under provision for income taxes.
- (d) Included in transaction and integration expenses including severance is approximately \$1.0 million of expenses related to the recent acquisitions of Aliquant and EMB which was completed in the second quarter and subsequently in the third quarter of fiscal 2011.
- (e) Stock-based compensation relates to Restricted A shares held by our current associates which were awarded to them as former Towers Perrin employees in connection with the Merger.
- (f) The deferred payment from divestiture received this quarter related to a divestiture by former Towers Perrin in June 2009 in anticipation of the Merger which is included in non-operating income.

**UNAUDITED SUPPLEMENTAL PRO FORMA CONDENSED COMBINED STATEMENTS OF OPERATIONS**

The following unaudited supplemental pro forma condensed combined statements of operations have been provided to present illustrative combined unaudited statements of operations for the three and six months ended December 31, 2010 and 2009, giving effect to the business combination as if it had been completed on July 1, 2009. The pro forma condensed combined statement of operations for the three months ended December 31, 2009 combines Watson Wyatt's historical unaudited condensed consolidated statement of operations for the three months ended December 31, 2009 with Towers Perrin's historical unaudited condensed consolidated statement of operations for the three months ended December 31, 2009. The pro forma condensed combined statement of operations for the six months ended December 31, 2009 combines Watson Wyatt's historical unaudited condensed consolidated statement of operations for the six months ended December 31, 2009 with Towers Perrin's historical unaudited condensed consolidated statement of operations for the six months ended December 31, 2009. The unaudited pro forma condensed combined financial statements should be read together with the respective historical financial statements and related notes of Towers Perrin and Watson Wyatt included in prior reports filed with the SEC.

The unaudited pro forma condensed combined statements of operations give effect to the Merger including:  
related Merger consideration;

adjustments made to record the assets and liabilities of Towers Perrin at their estimated fair values;

reclassifications made to conform Towers Perrin's and Watson Wyatt's historical financial statement presentation to Towers Watson's; and

the consolidation of Professional Consultants Insurance Company, Inc., which we refer to as PCIC.

Prior to the Merger, Towers Perrin was a private, employee-owned corporation. As a result, Towers Perrin's historical unaudited condensed consolidated statement of operations for the three and six months ended December 31, 2009 does not reflect the level of net income that Towers Perrin contributes to Towers Watson, as a public company.

Further, the revenue growth that we expect Towers Watson to achieve from strengthening core services and expanding the existing portfolio of services is not reflected in the unaudited pro forma condensed combined financial statements.

The unaudited pro forma condensed combined statements of operations for the three and six months ended December 31, 2009, do not reflect certain financial targets relating to the Merger, such as our targeted synergy cost savings, reductions in compensation and benefits expense resulting from the retirement of Class R participants, and a further targeted reduction in compensation expense resulting from the elimination of the principal bonus payments historically paid to legacy Towers Perrin Principals.

Pro forma earnings per share reflect the impact of significant non-cash and non-recurring expenses resulting from the Merger, including compensation expense incurred as a result of the issuance of Towers Watson restricted Class A common stock to Towers Perrin restricted stock unit (RSU) holders and the incremental amortization of acquired intangible assets.

Towers Watson is implementing an integration plan that may affect how the assets acquired, including intangibles, will be utilized. If assets in the combined company are phased out or no longer used, additional amortization, depreciation and/or impairment charges would be recorded.

The following unaudited pro forma condensed combined statements of operations are provided for informational purposes only. They do not purport to represent what Towers Watson's results of operations would have been had the Merger been completed as of the date indicated and do not purport to be indicative of the results of operations that Towers Watson may achieve in the future.

## **Table of Contents**

### **Pro Forma Adjustments**

The pro forma adjustments reflected in the unaudited supplemental pro forma condensed combined financial information are as follows:

- A) Reflects estimated amortization of Towers Perrin's acquired intangible assets on an accelerated amortization basis over their estimated useful lives. Customer-related intangible assets are amortized over a 12-year estimated life and developed technology intangible assets are amortized over a weighted-average four-year estimated life. The trademark and trade names intangible asset has an indefinite life. Also reflects an adjustment to rent expense to approximate fair value of acquired leases.
- B) Reflects non-cash compensation expense in connection with the issuance of Towers Watson restricted Class A common stock to Towers Perrin RSU holders in the Merger. The graded method of expense methodology assumes that the restricted shares are issued to Towers Perrin RSU holders in equal amounts of shares which vest over one year, two years and three years. The current estimate of total non-cash compensation expense relating to Towers Watson restricted Class A common stock for the three-year period is \$158.4 million. This estimate was determined assuming a 10% annual forfeiture rate based on actual and expected attrition.
- C) Reflects interest income forgone as a result of the cash consideration of \$200 million paid to Towers Perrin Class R Participants in conjunction with the redemption of Towers Watson Class R common stock.
- D) Reflects interest accrued on \$200 million principal amount of Towers Watson Notes issued to Towers Perrin Class R Participants. Interest on the Towers Watson Notes accrued at a 2.0% fixed rate per annum, compounded annually.
- E) Reflects the elimination of Merger-related transaction costs (including financial advisory, legal and valuation fees). Because transaction costs will not have a continuing impact, they are not reflected in the unaudited pro forma condensed combined statement of operations.
- F) Reflects the provision for taxes as a result of the Merger. A U.S. statutory rate of 40.0% was used for the fiscal year 2011, except for adjustments related to PCIC for which a 34% statutory rate was used since PCIC would not be included in the U.S. consolidated tax return. For the fiscal year 2010 the U.S. statutory rate of 39.6% was used. For purposes of determining the estimated income tax expense for the adjustments reflected in the unaudited pro forma condensed combined statement of operations, taxes were determined by applying the applicable statutory tax rate for jurisdictions where each pro forma adjustment is expected to be reported. Although not reflected in these unaudited pro forma condensed combined statements of operations, the effective tax rate of the combined company could be significantly different depending on post-acquisition activities, including repatriation decisions, the geographic mix of income, and post-Merger restructuring activities.
- G) Reflects three and six months of amortization of \$5.7 million of bank fees associated with the Towers Watson credit facility, which will be amortized over a three-year period. Also reflects interest accrued on \$97.3 million principal amount of unsecured subordinated notes issued to holders of Class B-1 shares of Towers Watson common stock in conjunction with the tender offer in June 2010.
- H) Reflects the elimination of premium revenue and unearned revenues from Watson Wyatt and Towers Perrin as recorded by PCIC, as well as related expense recorded by Watson Wyatt and Towers Perrin.
- I) Reflects the 27.14% non-controlling interest in PCIC of the remaining minority shareholder.
- J) Reflects the elimination of Watson Wyatt's and Towers Perrin's earnings from PCIC as recorded under the equity method.

- K) Reflects the reduction of revenue for the acquisition fair value adjustment of historical Towers Perrin deferred revenue to reflect the unrecognized revenue relating to the amount of effort that was performed prior to the Merger which would not be subsequently earned under acquisition accounting rules.
- L) Reflects the elimination of merger-related deferred payment on the sale of an investment. Because this deferred payment will not have a continuing impact, it is not reflected in the unaudited pro forma condensed consolidated statement of operations.
- M) Earnings per share calculations for the three and six months ended December 31, 2010 and 2009 are based on Towers Watson's fully diluted shares outstanding as of December 31, 2010.

**Pro Forma Financial Information for the Three and Six Months Ended December 31, 2010  
Compared to the Three and Six Months Ended December 31, 2009**

***Revenue***

Towers Watson pro forma revenue for the second quarter of fiscal year 2011 was \$790.7 million, a decrease of \$53.6 million, or 6%, from \$844.2 million for the second quarter of fiscal year 2010. This decrease in pro forma revenue is due to fewer associates this quarter than the two legacy companies, Watson Wyatt and Towers Perrin, had in the second quarter of last fiscal year. In addition, integration-related transitions have contributed to this decrease. The average exchange rate used to translate our revenues earned in British pounds sterling decreased to 1.5559 for the second quarter of fiscal 2011 from 1.6253 for the second quarter of fiscal 2010, and the average exchange rate used to translate our revenues earned in Euros decreased to 1.3131 for the second quarter of fiscal 2011 from 1.4671 for the second quarter of fiscal 2010.

Constant currency is calculated by translating prior year revenue at the current year average exchange rate.

A comparison of pro forma segment revenue for the three months ended December 31, 2010, as compared to the three months ended December 31, 2009 is as follows:

Benefits revenue decreased 5%, on a constant currency basis, and was \$440.4 million for the second quarter of fiscal 2011 compared to \$461.4 million for the second quarter of fiscal 2010. Revenue decreased on a constant currency basis in our Retirement practice that makes up the majority of the segment's revenue. The Retirement practice's revenue in Asia Pacific was flat and decreased in all other regions. The decrease in the second quarter of fiscal year 2011 is partly attributable to a strong prior year pro forma comparable as legacy Towers Perrin had a 10% constant currency revenue growth for the second quarter of fiscal year 2010 compared to the prior year quarter. Revenue increased on a constant currency basis in our Technology and Administration Solutions practice in Europe and decreased in the U.S. due to slightly less client activity and due to an increase in new project implementations in North America for which revenue recognition is typically deferred until implementation is complete. A decrease in revenues from our Health and Group Benefits practice contributed to the segment decrease.

Risk and Financial Services revenue decreased 7%, on a constant currency basis, and was \$172.8 million and \$185.0 million for the three months ended December 31, 2010 and 2009, respectively. All of our practices experienced constant currency decreases in revenue. Our Risk Consulting and Software practice experienced a decrease in project activity in North America and Asia Pacific which was partially offset by growth in Europe and Latin America. Our Brokerage practice experienced decreases in prices and volume in second quarter similar to first quarter as a result of overall market conditions in the U.S. property and casualty insurance marketplace. U.S. insurance companies are generally retaining more risk and purchasing less reinsurance as opposed to the U.K. where we experienced growth. Our Investment practices experienced constant currency decreases in revenue this quarter due to less activity in North America and due to change in revenue mix in Europe. The decrease in revenue for Investment practice is in part to a strong prior year comparable as legacy Watson Wyatt experienced 19% constant currency growth for the second quarter of fiscal year 2010 compared to the prior year quarter. In addition, some of our integration related transitions have contributed to Risk and Financial Services revenue decrease.

Talent and Rewards revenue decreased 4%, on a constant currency basis, and was \$147.1 million and \$153.9 million for the three months ended December 31, 2010 and 2009, respectively. This decrease was primarily due to a decrease in revenue from our Executive Compensation practice offset by increases in revenue from our Data, Surveys and Technology practice and slight increase in revenue from our Rewards, Talent and Communication practice. The decrease in our Executive Compensation practice is primarily due to the planned transfer of associates to a new Board-focused Executive Compensation boutique, Pay Governance, to help some of our clients address perceived independence issues. After adjusting for the revenue that was transferred to Pay Governance, Talent and Rewards experienced a 3% constant currency revenue growth. The increases in our Data, Surveys and Technology practice are due to increases in all geographic regions and in all three parts of the business. The revenue increase in Rewards, Talent and Communication is largely due to Asia

Pacific whereas Europe experienced decreased revenue from less project-based work.

Towers Watson pro forma revenue for the six months ended December 31, 2010 was \$1.5 billion, a decrease of \$84.9 million, or 5%, from \$1.6 billion for the six months ended December 31, 2009. This decrease in pro forma revenue is due to fewer associates in the first two quarters of fiscal 2011 than the two legacy companies, Watson Wyatt and Towers Perrin, had in the same period in the prior fiscal year. In addition, integration-related transitions and challenging economic conditions have contributed to this decrease.

The average exchange rate used to translate our revenues earned in British pounds sterling decreased to 1.5559 for the six months ended December 31, 2010 from 1.6350 for the six months ended December 31, 2009, and the average exchange rate used to translate our revenues earned in Euros decreased to 1.3131 for the six months ended December 31, 2010 from 1.4472 for the six months ended December 31, 2009.

## **Table of Contents**

Constant currency is calculated by translating prior year revenue at the current year average exchange rate.

A comparison of pro forma segment revenue for the six months ended December 31, 2010, as compared to the six months ended December 31, 2009 is as follows:

Benefits revenue decreased 4%, on a constant currency basis, and was \$865.1 million for the first two quarters of fiscal 2011 compared to \$898.0 million for the first two quarters of fiscal 2010. Revenue decreased on a constant currency basis in our Retirement practice that makes up the majority of the segment's revenue. The Retirement practice in North America experienced decreased revenue in fiscal 2011 compared to the same period in fiscal 2010 because of a strong prior year comparable from project work related to regulatory changes. The Retirement practice in Europe experienced decreased revenue in fiscal 2011 compared to the same period in fiscal 2010 because of decreased activity. Revenue decreased on a constant currency basis in our Technology and Administration Solutions practice due to an increase in new project implementations in North America for which revenue recognition is typically deferred until implementation is complete.

Risk and Financial Services revenue decreased 7%, on a constant currency basis, and was \$339.2 million and \$363.6 million for the six months ended December 31, 2010 and 2009, respectively. This decrease was a result of a constant currency decrease in revenue in all of our practices. Our Risk Consulting and Software practice experienced a decrease in project activity. Our Brokerage practice experienced decreases in pricing and volume in the first two quarters of fiscal 2011 compared to prior fiscal quarters as a result of overall market conditions in the U.S. property and casualty insurance marketplace. U.S. insurance companies are generally retaining more risk and purchasing less reinsurance as opposed to the U.K. where we experienced growth. Our Investment practice experienced decreased revenues the first two quarters of fiscal 2011 due to less activity in North America, a change in revenue mix in Europe and due to a strong Investment practice revenue comparable in the prior year.

Talent and Rewards revenue decreased 3%, on a constant currency basis, and was \$283.3 million and \$291.4 million for the six months ended December 31, 2010 and 2009, respectively. This decrease was primarily due to a constant currency decrease in revenue from our Executive Compensation practice offset by constant currency increase in revenue from our Data, Surveys and Technology practice and a slight increase in revenue from our Rewards, Talent and Communication practice. The decrease in our Executive Compensation practice is primarily due to the planned transfer of associates to a new Board-focused Executive Compensation boutique, Pay Governance, to help some of our clients address perceived independence issues. These increases in our Data, Surveys and Technology practice and Rewards, Talent and Communication practice are due to an increase in activity in all geographic regions.

### ***Salaries and Employee Benefits***

Salaries and employee benefits were \$499.4 million for the second quarter of fiscal year 2011 compared to \$572.5 million for the second quarter of fiscal year 2010, a decrease of \$73.1 million, or 13%. The decrease is principally due to a decrease in base salary expense resulting from a 6% headcount reduction, including retirees, as well as a decrease in discretionary compensation expense and pension expense. As a percentage of revenue, salaries and employee benefits decreased to 63% for the second quarter of fiscal year 2011 from 68% for the second quarter of fiscal year 2010.

Salaries and employee benefits were \$991.1 million for the first six months of fiscal year 2011 compared to \$1.1 billion for the first six months of fiscal year 2010, a decrease of \$140.3 million, or 12%. The decrease is principally due to a decrease in base salary expense resulting from a 6% headcount reduction, including retirees, as well as a decrease in discretionary compensation expense. These decreases are partially offset by an increase in other employee benefits. As a percentage of revenue, salaries and employee benefits decreased to 64% for the first six months of fiscal year 2011 from 70% for the first six months of fiscal year 2010.

### ***Professional and Subcontracted Services***

Professional and subcontracted services for the second quarter of fiscal year 2011 were \$60.1 million, compared to \$66.8 million for the second quarter of fiscal year 2010, a decrease of \$6.7 million, or 10%. This decrease is

principally due to a decrease in the use of external service providers, including the outsourcing of information technology services which Towers Perrin had historically utilized in conjunction with an outsourced information technology infrastructure. In addition, we experienced decreases in reimbursable expenses incurred on behalf of clients primarily due to the current economic environment. As a percentage of revenue, professional and subcontracted services were 8% for the second quarter of fiscal year 2011 and 2010.

Professional and subcontracted services were consistent and were \$118.1 million and \$118.6 million for the first six months of fiscal year 2011 and 2010, respectively. As a percentage of revenue, professional and subcontracted services were 7.7% and 7.3% for the first six months of fiscal year 2011 and 2010, respectively.

## **Table of Contents**

### ***Occupancy***

Occupancy expense for the second quarter of fiscal year 2011 was \$36.3 million compared to \$38.0 million for the second quarter of fiscal year 2010, a decrease of \$1.6 million, or 4%, mainly due to termination and renegotiation of certain leases as the Company integrates its real estate following the Merger. As a percentage of revenue, occupancy expense was consistent at 5% for both periods.

Occupancy expense for the first six months of fiscal year 2011 was \$71.8 million compared to \$74.8 million for the first six months of fiscal year 2010, a decrease of \$3.0 million, or 4%, mainly due to termination and renegotiation of certain leases as the company integrates its real estate following the Merger. As a percentage of revenue, occupancy expense was consistent at 5% for both periods.

### ***General and Administrative Expenses***

General and administrative expenses for the second quarter of fiscal year 2011 were \$71.5 million, compared to \$54.1 million for the second quarter of fiscal year 2010, an increase of \$17.4 million, or 32%. The second quarter of fiscal year 2010 includes the impact of a reduction in our professional liability reserve that did not recur in the second quarter of fiscal year 2011. The current quarter also reflects an increase in travel, hotel and repairs and maintenance expenses which were offset in part by reductions in telephone and publications expense. As a percentage of revenue, general and administrative expenses increased to 9% for the second quarter of fiscal year 2011 from 6% for the second quarter of fiscal year 2010.

General and administrative expenses for the first six months of fiscal year 2011 were \$130.0 million, compared to \$119.3 million for the first six months of fiscal year 2010, an increase of \$10.7 million, or 9%. The second quarter of fiscal year 2010 includes the impact of a reduction in our professional liability reserve that did not recur in fiscal year 2011. The current fiscal year also reflects an increase in travel, hotel and repairs and maintenance expenses which were offset in part by reductions in telephone and publications expense. As a percentage of revenue, general and administrative expenses were 8% and 7% for the first six months of fiscal year 2011 and 2010.

### ***Depreciation and Amortization***

Depreciation and amortization expense for the second quarter of fiscal year 2011 was \$30.5 million, compared to \$34.0 million for the second quarter of fiscal year 2010, a decrease of \$3.4 million, or 10%, principally due to a decrease in depreciation of fixed assets, as well as, a decrease in amortization of internally developed software. As a percentage of revenue, depreciation and amortization expenses were consistent at 4% for both periods.

Depreciation and amortization expense for the first six months of fiscal year 2011 was \$61.4 million, compared to \$67.8 million for the first six months of fiscal year 2010, a decrease of \$6.4 million, or 9%, principally due to a decrease in depreciation of fixed assets, as well as, a decrease in amortization of internally developed software. As a percentage of revenue, depreciation and amortization expenses were consistent at 4% for both periods.

### ***Income From Affiliates***

Income from affiliates for the second quarter of fiscal year 2011 was \$121 thousand compared to loss from affiliates of \$423 thousand for the second quarter of fiscal year 2010. These amounts reflect our portion of Fifth Quadrant's operating results.

Income from affiliates for the first six months of fiscal year 2011 was \$285 thousand compared to loss from affiliates of \$101 thousand for the first six of fiscal year 2010. These amounts reflect our portion of Fifth Quadrant's operating results.

### ***Interest Income***

Interest income was \$1.3 million for the second quarter of fiscal year 2011, compared to \$1.2 million for the second quarter of fiscal year 2010. Interest income was \$2.6 million for the first six months of fiscal year 2011, compared to \$2.3 million for the first six months of fiscal year 2010.

### ***Interest Expense***

Interest expense was \$3.5 million for the second quarter of fiscal year 2011 and 2010. Interest expense was \$6.8 million for the first six months of fiscal year 2011, compared to \$6.5 million for the first six months of fiscal year 2010.

### ***Other Non-Operating Income***

Other non-operating income for the second quarter of fiscal year 2011 was \$2.0 million, compared to \$1.7 million for the second quarter of fiscal year 2010. Other non-operating income for the first six months of fiscal year 2011 was \$3.6 million, compared to \$8.2 million for the first six months of fiscal year 2010.

## **Table of Contents**

### ***Explanatory Note Regarding Pro Forma Financial Information***

The unaudited pro forma combined statements of operations and pro forma analysis above have been provided to present illustrative combined unaudited statements of operations for the three and six months ended December 31, 2010 and 2009, giving effect to the business combination as if it had been completed on July 1, 2009. This presentation was for illustrative purposes only and is not indicative of the results of operations that might have occurred had the business combination actually taken place as of the dates specified, or that may be expected to occur in the future.

### **Historical Results of Towers Watson**

The following sections of Management's Discussion and Analysis are based on actual results of the business and do not contain pro forma information.

### **Liquidity and Capital Resources**

Our most significant sources of liquidity are funds generated by operating activities, available cash and cash equivalents, and our credit facilities. Consistent with our liquidity position, management considers various alternative strategic uses of cash reserves including acquisitions, dividends and stock buybacks, or any combination of these options.

We believe that we have sufficient resources to fund operations beyond the next 12 months, including \$204.0 million payable in January 2011 in principal and interest on the notes issued in connection with the Merger. The key variables that we manage in response to current and projected capital resource needs include credit facilities and short-term borrowing arrangements, working capital and our stock repurchase program.

Our cash and cash equivalents at December 31, 2010 totaled \$620.9 million, compared to \$600.5 million at June 30, 2010. The increase in cash from June 30, 2010 to December 31, 2010 was principally attributable to operating cash flows.

Our cash and cash equivalents balance includes \$67.8 million from the consolidated balance sheets of PCIC and SMIC, which is available for payment of professional liability claims reserves, and \$130.4 million, which is available for payment of reinsurance premiums on behalf of reinsurance clients. As a result, we have a net \$417.0 million of cash that is available for our use.

Our non-U.S. operations are substantially self-sufficient for their working capital needs. As of December 31, 2010, \$191.3 million of Towers Watson's total cash balance of \$620.9 million was held outside of the United States, which we have the ability to utilize, if necessary. There are no significant repatriation restrictions other than local or U.S. taxes associated with repatriation.

While we currently do not foresee a need to repatriate funds, should we require more capital in the U.S. than is generated by our operations locally, we could elect to repatriate funds held in foreign jurisdictions or raise capital in the U.S. through debt or equity issuances. These alternatives could result in higher effective tax rates or increased interest expense.

Assets and liabilities associated with non-U.S. entities have been translated into U.S. dollars as of December 31, 2010, at U.S. dollar rates that fluctuate compared to historical periods. As a result, cash flows derived from changes in the consolidated balance sheets include the impact of the change in foreign exchange translation rates.

Events that could temporarily change the historical cash flow dynamics discussed above include significant changes in operating results, material changes in geographic sources of cash, unexpected adverse impacts from litigation or future pension funding during periods of severe downturn in the capital markets.

### ***Cash Flows From/(Used in) Operating Activities.***

Cash flows from operating activities was \$110.3 million for the first six months of fiscal year 2011 compared to cash flows used in operating activities of \$7.8 million for the first six months of fiscal year 2010. This increase of \$118.1 million is primarily attributable to the following:

- a \$28.6 million increase in net income for the first six months of fiscal year 2011 compared to the same period in 2010;

- an increase in cash due to an increase in non-cash reconciling items of \$79.6 million which consists of \$50.5 million of stock-based compensation, and increases in depreciation and amortization of intangible assets

for the first six months of fiscal year 2011, primarily due to the Merger.

**Table of Contents**

The allowance for doubtful accounts increased \$5.8 million from June 30, 2010 to December 31, 2010. The number of days of accounts receivable increased to 75 at December 31, 2010 compared to 69 at June 30, 2010.

**Cash Flows Used in Investing Activities.**

Cash flows used in investing activities for the first six months of fiscal year 2011 were \$90.9 million, compared to \$17.4 million of cash flows used in investing activities for the first six months of fiscal year 2010. The increase is due to \$67.1 million of cash paid for the acquisition of Aliquant this quarter, less a \$9.4 million deferred payment received from a divestiture by legacy Towers Perrin in June 2009.

**Cash Flows Used in Financing Activities.**

Cash flows used in financing activities for the first six months of fiscal year 2011 were \$7.7 million, compared to cash flows used in financing activities of \$38.0 million for the first six months of fiscal year 2010. This change was primarily attributable to the repurchase of \$35.0 million of Towers Watson's common stock in the first six months of fiscal year 2010.

**Capital Commitments**

Expenditures of capital funds were \$20.8 million for the first six months of fiscal year 2011. Anticipated commitments of capital funds for Towers Watson are estimated at \$72.5 million for the remainder of fiscal year 2011. We expect cash from operations to adequately provide for these cash needs.

**Dividends**

During the six months ended December 31, 2010, our board of directors approved the payment of a quarterly cash dividend in the amount of \$0.075 per share. Total dividends paid in the six months ended December 31, 2010 and 2009 were \$10.5 million and \$6.4 million respectively.

**Off-Balance Sheet Arrangements and Contractual Obligations**

		Remaining payments by fiscal year due as of December 31, 2010			
		Less than 1 Year	1-3 Years	3-5 Years	More Than 5 Years
<b>Contractual Cash Obligations (in thousands)</b>	<b>Total</b>	<b>1 Year</b>	<b>Years</b>	<b>Years</b>	<b>5 Years</b>
Notes Payable and accrued interest*	\$ 302,313	\$ 203,967	\$ 98,346	\$	\$
Lease Commitments (as of June 30, 2010)	628,039	113,771	185,138	133,370	195,760
	\$ 930,352	\$ 317,738	\$ 283,484	\$ 133,370	\$ 195,760

\* The \$204 million was due in January 2011 and the \$98.3 million is due in March 2012.

**Operating Leases:** We lease office space, furniture, cars and selected computer equipment under operating lease agreements with terms typically ranging from one to 10 years. We have determined that there is not a large concentration of leases that will expire in any one fiscal year. Consequently, management anticipates that any increase in future rent expense on leases will be mainly market driven. An intangible asset and liability was recognized for the difference between the contractual cash obligations shown above and the estimated market rates at the time of the acquisition. The resulting intangibles will amortize to rent expense but do not impact the amounts shown above since there is no change to our contractual cash obligations.

**Pension Contributions.** Remaining contributions to our various pension plans for fiscal year 2011 are projected to be approximately \$17.3 million.

**Uncertain Tax Positions.** The table above does not include liabilities for uncertain tax positions under ASC 40, **Income Taxes.** The settlement period for the \$37.3 million noncurrent portion of the liability cannot be reasonably estimated since it depends on the timing and possible outcomes of tax examinations with various tax authorities.

**Subordinated Notes due January 2011**

On December 30, 2009, in connection with the Merger and the Class R Elections as described in Note 2, Towers Watson entered into an indenture with the trustee for the issuance of Towers Watson Notes due January 2011 in the

aggregate principal amount of \$200 million. The Towers Watson Notes due January 2011 were issued on January 6, 2010, bearing interest from January 4, 2010 at a fixed per-annum rate of 2.0%, and matured on January 1, 2011. The indenture contained limited operating covenants, and obligations under the Towers Watson Notes due January 2011 were subordinated to and junior in right of payment to the prior payment in full in

## **Table of Contents**

cash of all Senior Debt (as defined in the indenture) on the terms set forth in the Indenture. On January 3, 2011 (the first business day following the note maturity date), Towers Watson repaid both principal and interest on the Notes.

### ***Subordinated Notes due March 2012***

On June 15, 2010, in connection with an offer to exchange shares of Class B-1 Common Stock for unsecured subordinated notes, Towers Watson entered into an indenture with the trustee for the issuance of Towers Watson Notes due March 2012 in the aggregate principal amount of \$97.3 million. The Towers Watson Notes due March 2012 were issued on June 29, 2010, bearing interest from June 15, 2010 at a fixed per annum rate, compounded quarterly on the interest reset dates, equal to the greater of (i) 2.0%, or (ii) 120.0% of the short-term applicable federal rate listed under the quarterly column, in effect at the applicable interest reset date. The Towers Watson Notes due March 2012 will mature on March 15, 2012 and are included in the other non-current liabilities balance on our consolidated balance sheet as of December 31, 2010. Obligations under the Towers Watson Notes due March 2012 are subordinated to and junior in right of payment to the prior payment in full in cash of all Senior Debt (as defined in the indenture).

### ***Towers Watson Senior Credit Facility***

On January 1, 2010, in connection with the Merger, Towers Watson and certain subsidiaries entered into a three-year, \$500 million revolving credit facility with a syndicate of banks (the Senior Credit Facility). Borrowings under the Senior Credit Facility bear interest at a spread to either Libor or the Prime Rate. We are charged a quarterly commitment fee, currently 0.5% of the Senior Credit Facility, which varies with our financial leverage and is paid on the unused portion of the Senior Credit Facility. Obligations under the Senior Credit Facility are guaranteed by Towers Watson and all of its domestic subsidiaries (other than PCIC) and are secured by a pledge of 65% of the voting stock and 100% of the non-voting stock of Towers Perrin Luxembourg Holdings S.A.R.L.

The Senior Credit Facility contains customary representations and warranties and affirmative and negative covenants. The Senior Credit Facility requires Towers Watson to maintain certain financial covenants that include a minimum Consolidated Interest Coverage Ratio and a maximum Consolidated Leverage Ratio (which terms in each case are defined in the Senior Credit Facility). In addition, the Senior Credit Facility contains restrictions on the ability of Towers Watson and its subsidiaries to, among other things, incur additional indebtedness; pay dividends; make distributions; create liens on assets; make investments, loans or advances; make acquisitions; dispose of property; engage in sale-leaseback transactions; engage in mergers or consolidations, liquidations and dissolutions; engage in certain transactions with affiliates; and make changes in lines of businesses. As of December 31, 2010, we are in compliance with our covenants.

As of December 31, 2010 and 2009, Towers Watson had no borrowings outstanding under the Senior Credit Facility.

### ***Letters of Credit under the Senior Credit Facility***

As of December 31, 2010, Towers Watson had standby letters of credit totaling \$24.9 million associated with our captive insurance companies in the event that we fail to meet our financial obligations. Additionally, Towers Watson had \$0.5 million of standby letters of credit covering various other existing or potential business obligations. The aforementioned letters of credit are issued under the Senior Credit Facility, and therefore reduce the amount that can be borrowed under the Senior Credit Facility by the outstanding amount of these standby letters of credit.

### ***Additional Borrowings, Letters of Credit and Guarantees not part of the Senior Credit Facility***

Towers Watson Consultoria Ltda. (Brazil) has a bilateral credit facility with a major bank totaling Brazilian Real (BRL) 6.5 million (U.S. \$3.9 million). As of December 31, 2010, a total of BRL 5.7 million (U.S. \$3.4 million) was outstanding under this facility.

Towers Watson has also provided a \$5.0 million Australian dollar-denominated letter of credit (U.S. \$5.1 million) to an Australian governmental agency as required by the local regulations. The estimated fair market value of these letters of credit is immaterial because they have never been used, and we believe that the likelihood of future usage is remote.

Towers Watson also has \$3.9 million of letters of guarantee from major banks in support of office leases and performance under existing or prospective contracts.

## **Risk Management**

As a part of our overall risk management program, we purchase customary commercial insurance policies, including commercial general liability and claims-made professional liability insurance. Our professional liability insurance currently includes a self-insured retention of \$1 million per claim, and covers professional liability claims against us, including the cost of defending such claims. Prior to the Merger, Watson Wyatt and Towers Perrin each carried substantial professional liability insurance with a self-insured retention of \$1 million per claim, which policies remained in force subsequent to the Merger through June 30, 2010. We reserve for contingent liabilities based on ASC 450, *Contingencies*, when it is determined that a liability, inclusive of defense costs, is probable and

## **Table of Contents**

reasonably estimable. The contingent liabilities recorded are primarily developed actuarially. Litigation is subject to many factors that are difficult to predict, so there can be no assurance that in the event of a material unfavorable result in one or more claims, we will not incur material costs.

Our professional liability insurance coverage, beyond our self-insured retention, has been written by PCIC, an affiliated captive insurance company owned, prior to the Merger, by Watson Wyatt, Towers Perrin and a non-affiliated company, with \$25 million of reinsurance provided by various commercial reinsurers attaching for claims in excess of \$26 million. In addition, both legacy companies carried excess insurance above the self-insured retention and the coverage provided by PCIC. Prior to the Merger, Watson Wyatt accounted for its share of PCIC's earnings using the equity method. Our ownership interest in PCIC is 72.86% post-Merger. As a consequence, PCIC's results of operations are consolidated into our results of operations. Although the PCIC insurance policies for Towers Watson's fiscal year 2010 continued to cover professional liability claims above a \$1 million per claim self-insured retention (SIR), the consolidation of PCIC will effectively net PCIC's premium income against our premium expense for the first \$25 million of loss above the SIR for each legacy company. Accordingly, the impact of PCIC's reserve development may result in fluctuations in our earnings.

PCIC ceased issuing insurance policies effective July 1, 2010 and at that time entered into a run-off mode of operation. We have established a new Vermont-regulated wholly owned captive insurance company, Stone Mountain Insurance Company (Stone Mountain), through which we obtained similarly structured primary insurance effective July 1, 2010.

In formulating its premium structure, PCIC estimated the amount it expected to pay for losses (and loss expenses) for the member firms as a whole and then allocated that amount to the member firms based on the individual member's expected losses. PCIC based premium calculations, which were determined annually based on experience through March of each year, on relative risk of the various lines of business performed by each of the owner companies, past claim experience of each owner company, growth of each of those companies, industry risk profiles in general and the overall insurance markets.

Our shareholder agreements with PCIC could require additional payments to PCIC if development of claims significantly exceeds prior expectations. If these circumstances were to occur, we would record a liability at the time it becomes probable and reasonably estimable.

We provide for the self-insured retention where specific estimated losses and loss expenses for known claims are considered probable and reasonably estimable. Although we maintain professional liability insurance coverage, this insurance does not cover claims made after expiration of our current policies of insurance. Generally accepted accounting principles require that we record a liability for incurred but not reported (IBNR) professional liability claims if they are probable and reasonably estimable, and for which we have not yet contracted for insurance coverage. We use actuarial assumptions to estimate and record our IBNR liability. As of December 31, 2010, we had a \$226.2 million IBNR liability balance.

As stated above, commencing July 1, 2010, Towers Watson is obtaining primary insurance for errors and omissions professional liability risks from Stone Mountain. Stone Mountain provides us with \$50 million of coverage per claim and in the aggregate on a claims-made basis. Stone Mountain has secured reinsurance for coverage providing \$25 million in excess of the \$25 million retained layer for the current policy period. Stone Mountain has issued a policy of insurance substantially similar to the policies historically issued by PCIC.

Insurance market conditions for us and our industry have varied in recent years, but the long-term trend has been increasing premium cost. Although the market for insurance is presently robust, trends toward higher self-insured retentions, constraints on aggregate excess coverage for this class of professional liability risk and financial difficulties which have, over the past two years, been faced by several longstanding E&O carriers are anticipated to recur periodically, and to be reflected in our future annual insurance renewals. As a result, we will continue to assess our ability to secure future insurance coverage, and we cannot assure that such coverage will continue to be available indefinitely in the event of specific adverse claims experience, adverse loss trends, market capacity constraints or other factors.

In light of increasing litigation worldwide, including litigation against professionals, we have a policy that all client relationships be documented by engagement letters containing specific risk mitigation clauses that were not included

in all historical client agreements. Certain contractual provisions designed to mitigate risk may not be legally enforceable in litigation involving breaches of fiduciary duty or certain other alleged errors or omissions, or in certain jurisdictions. We may incur significant legal expenses in defending against litigation. With the exception of our brokerage business, nearly 100% of our U.S. and U.K. corporate clients have signed engagement letters including some if not all of our preferred risk mitigation clauses, and processes to maintain that protocol in the United States and the United Kingdom, and to complete it elsewhere, are underway.

**Disclaimer Regarding Forward-looking Statements**

This filing contains a number of forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995, including, but not limited to the following: following: Note 7 Retirement Benefits; Note 4 Goodwill and Intangible

**Table of Contents**

Assets; Note 8 Debt, Commitments and Contingent Liabilities; Note 10 Restricted Stock; Note 12 Income Taxes; Management's Discussion and Analysis of Financial Condition and Results of Operations Executive Overview; Critical Accounting Policies and Estimates; the discussion of our capital expenditures; Off-Balance Sheet Arrangements and Contractual Obligations; Liquidity and Capital Resources; Risk Management; and Part II, Item 1 Legal Proceedings. You can identify these statements and other forward-looking statements in this filing by words such as may, will, expect, anticipate, believe, estimate, plan, intend, continue, or similar words, expressions, or the negative of such terms or other comparable terminology. You should read these statements carefully because they contain projections of our future results of operations or financial condition, or state other forward-looking information. A number of risks and uncertainties exist which could cause actual results to differ materially from the results reflected in these forward-looking statements. Such factors include but are not limited to:

the Towers Perrin and Watson Wyatt businesses will not be integrated successfully;

anticipated cost savings and any other synergies from the merger of Towers Perrin and Watson Wyatt may not be fully realized or may take longer to realize than expected;

our ability to reduce our effective tax rate through the restructuring of certain foreign operations of Towers Perrin;

our ability to make profitable acquisitions, on which our growth depends;

our ability to integrate acquired businesses into our own business, processes and systems, and achieve the anticipated results;

the recently announced acquisitions of EMB or Aliquant Corporation are not profitable or are not otherwise successfully integrated;

foreign currency exchange and interest rate fluctuations;

general economic and business conditions, including a significant or prolonged economic downturn, that adversely affect us or our clients;

our continued ability to recruit and retain qualified associates, particularly given recent changes in our associate compensation programs;

the success of our marketing, client development and sales programs after our acquisitions;

our ability to maintain client relationships and to attract new clients after our acquisitions;

declines in demand for our services;

recently implemented SEC rules concerning disclosure on compensation consultant fees, and the potential impact of losses of clients and associates;

outcomes of pending or future litigation and the availability and capacity of professional liability insurance to fund the outcome of pending cases or future judgments or settlements;

our ability to obtain professional liability insurance;

## Edgar Filing: Towers Watson & Co. - Form 10-Q

a significant decrease in the demand for the consulting, actuarial and other services we offer as a result of changing economic conditions or other factors;

actions by competitors, including public accounting and consulting firms, technology consulting firms, insurance consulting firms and Internet/intranet development firms;

our ability to achieve cost reductions after acquisitions;

exposure to liabilities that have not been expressly assumed in our acquisition transactions;

the ability to successfully address issues surrounding the number of company shares that will become freely tradable on January 1, 2012;

our ability to respond to rapid technological changes;

the level of capital resources required for future acquisitions and business opportunities;

## **Table of Contents**

regulatory developments abroad and domestically that impact our business practice;

legislative and technological developments that may affect the demand for or costs of our services; and other factors as discussed under **Risk Factors** in our 2010 Annual Report on Form 10-K filed with the SEC on September 7, 2010. These statements are based on assumptions that may not come true. All forward-looking disclosure is speculative by its nature. The Company undertakes no obligation to update any of the forward-looking information included in this report, whether as a result of new information, future events, changed expectations or otherwise.

### **ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK.**

Towers Watson is exposed to market risks in the ordinary course of business. These risks include interest rate risk, foreign currency exchange and translation risk.

#### **Interest Rate Risk**

The primary objective of our investment activities is to preserve principal while at the same time maximizing yields without significantly increasing risk. To achieve this objective, we maintain our portfolio in mainly short term securities that are recorded on the balance sheet at fair value.

Towers Watson's pension and postretirement plan liabilities and expenses are affected by discount rates that are market-driven. The Company is sensitive to movements in the discount rates, the impact of which are shown in the critical accounting policies and estimates section.

#### **Foreign Currency Risk**

For the six months ended December 31, 2010, 51% of our revenue was denominated in currencies other than the U.S. dollar, typically in the local currency of our foreign operations. These operations also incur most of their expenses in the local currency. Accordingly, our foreign operations use the local currency as their functional currency and our primary international operations use the British pound sterling, Canadian dollar and the Euro. Our international operations are subject to risks typical of international operations, including, but not limited to, differing economic conditions, changes in political climate, differing tax structures, other regulations and restrictions, and foreign exchange rate volatility. Accordingly, our future results could be adversely impacted by changes in these or other factors. As of December 31, 2010, a uniform 10% strengthening in the value of the U.S. dollar relative to the currencies in which our transactions are denominated would result in a decrease in net income attributable to controlling interests of \$7.6 million, or 9%, for the six months ended December 31, 2010. This theoretical calculation assumes that each exchange rate would change in the same direction relative to the U.S. dollar. This calculation is not indicative of our actual experience in foreign currency transactions.

#### **Translation Exposure**

Foreign exchange rate fluctuations may adversely impact our consolidated financial position as well as our consolidated results of operations and may adversely impact our financial position as the assets and liabilities of our foreign operations are translated into U.S. dollars in preparing our condensed consolidated balance sheet. Additionally, foreign exchange rate fluctuations may adversely impact our condensed consolidated results of operations as exchange rate fluctuations on transactions denominated in currencies other than our functional currencies result in gains and losses that are reflected in our condensed consolidated statement of operations. Certain of Towers Watson's foreign brokerage subsidiaries, primarily in the United Kingdom, receive revenue in currencies (primarily in U.S. dollars) that differ from their functional currencies. To reduce this variability, Towers Watson uses foreign exchange forward contracts and over-the-counter options to hedge the foreign exchange risk of the forecasted collections for up to a maximum of two years in the future.

We consolidate our international subsidiaries by converting them into U.S. dollars in accordance with generally acceptable accounting principles of foreign currency translation. The results of operations and our financial position will fluctuate when there is a change in foreign currency exchange rates.

### **ITEM 4. CONTROLS AND PROCEDURES.**

#### **Evaluation of Disclosure Controls and Procedures**

An evaluation was performed under the supervision and with the participation of our management, including the chief executive officer, or CEO, and chief financial officer, or CFO, of the effectiveness of the design and operation of our

disclosure controls and procedures. Based on that evaluation, our management, including the CEO and CFO, concluded that our disclosure controls and procedures were effective as of December 31, 2010.

**Table of Contents**

**Changes in Internal Control Over Financial Reporting**

There were no significant changes in our internal control over financial reporting in the quarter ended December 31, 2010 that materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

**Limitations on the Effectiveness of Controls**

Management, including the CEO and CFO, does not expect that our disclosure controls and procedures will necessarily prevent all error and all fraud. However, management does expect that the control system provides reasonable assurance that its objectives will be met. A control system, no matter how well designed and operated, cannot provide absolute assurance that the control system's objectives will be met. In addition, the design of such internal controls must take into account the costs of designing and maintaining such a control system. Certain inherent limitations exist in control systems to make absolute assurances difficult, including the realities that judgments in decision-making can be faulty, that breakdowns can occur because of a simple error or mistake, and that individuals can circumvent controls. The design of any control system is based in part upon existing business conditions and risk assessments. There can be no assurance that any design will succeed in achieving its stated goals under all potential future conditions. Over time, controls may become inadequate because of changes in business conditions or deterioration in the degree of compliance with policies or procedures. As a result, they may require change or revision. Because of the inherent limitations in a control system, misstatements due to error or fraud may occur and may not be detected. Nevertheless, the disclosure controls and procedures are designed to provide reasonable assurance of achieving their stated objectives, and the CEO and CFO have concluded that the disclosure controls and procedures are effective at a reasonable assurance level.

**PART II. OTHER INFORMATION**

**ITEM 1. LEGAL PROCEEDINGS.**

From time to time, we are a party to various lawsuits, arbitrations or mediations that arise in the ordinary course of business. The disclosure called for by Part II, Item 1, regarding our legal proceedings is incorporated by reference herein from Note 8 Debt, Commitments and Contingent Liabilities, of the Notes to the Condensed Consolidated Financial Statements in this Form 10-Q for the quarter ended December 31, 2010.

**ITEM 1A. RISK FACTORS.**

There are no material changes from risk factors as previously disclosed in our 2010 Annual Report on Form 10-K (File No. 001-34594), filed on September 7, 2010 (10-K). We urge you to read the risk factors contained in such Report.

**ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS.**

**(b) Secondary Public Offering**

On September 22 and October 1, 2010, the Company closed the secondary public offering of its Class A common stock, pursuant to which certain Company stockholders sold shares of the Company's Class B-1 common stock for cash. However, as discussed earlier in this Report, the Company did not receive any of the proceeds from such offering.

**(c) Issuer Purchases of Equity Securities**

Towers Watson will periodically repurchase shares of common stock, one purpose of which is to offset potential dilution from shares issued in connection with its benefit plans. During the third quarter of fiscal year 2010, the Company's Board of Directors approved the repurchase of up to 750,000 shares of our Class A Common Stock. During the second quarter of fiscal year 2011, the Company's Board of Directors approved the repurchase of up to \$100 million of the Company's Class A common stock. This repurchase is in addition to the ongoing stock repurchase program initiated by the Company to offset dilution from employee benefit plans in fiscal year 2010. No shares had been repurchased as of December 31, 2010.

**ITEM 3. DEFAULTS UPON SENIOR SECURITIES.**

None.

**ITEM 4. REMOVED AND RESERVED.**

**ITEM 5. OTHER INFORMATION.**
