**PROXY STATEMENT
FOR ANNUAL MEETING OF STOCKHOLDERS
MAY 8, 2007**

GENERAL

This proxy statement is furnished in connection with the solicitation of proxies by the Board of Directors in connection with the 2007 Annual Meeting of Stockholders of Basic Energy Services, Inc., a Delaware corporation (the *Company*), to be held at the Hilton Midland Plaza, located at 117 W. Wall St., Midland, Texas 79701, on Tuesday, May 8, 2007, at 10:00 a.m. local time. Stockholders of record at the close of business on March 26, 2007, are entitled to notice of, and to vote at, the meeting and at any postponement or adjournment.

When a properly executed proxy is received prior to the meeting, the shares represented will be voted at the meeting in accordance with the directions noted on the proxy. A proxy may be revoked at any time before it is exercised by submitting a written revocation or a later-dated proxy to the Secretary of the Company at the mailing address provided below or by attending the meeting in person and so notifying the inspector of elections.

Management does not intend to present any business for a vote at the meeting, other than (i) the election of directors, and (ii) the ratification of KPMG LLP as the Company's independent auditor for fiscal year 2007. **Unless stockholders specify otherwise in their proxy, their shares will be voted FOR the election of the nominees listed in this proxy statement, and FOR the ratification of the independent auditor.** If other matters requiring the vote of stockholders properly come before the meeting, it is the intention of the persons named in the enclosed proxy card to vote proxies held by them in accordance with their judgment.

The complete mailing address of the Company's executive offices is 400 W. Illinois, Suite 800, Midland, Texas 79701. The approximate date on which this proxy statement and the accompanying proxy card are being sent or given to the stockholders of the Company is April 9, 2007.

VOTING PROCEDURES

A majority of the outstanding shares of our common stock present or represented by proxy at the 2007 Annual Meeting constitutes a quorum for the transaction of business. ADP Investor Communication Services will tabulate all votes cast, in person or by submission of a properly executed proxy, before the closing of the polls at the meeting. The Company will appoint an inspector of elections at the meeting.

The affirmative vote of holders of a plurality of our common stock present or represented by proxy at the meeting and entitled to vote is required for the election of each nominee. Therefore, abstentions and broker non-votes will not be taken into account in determining the outcome of the election of directors.

For ratification of the independent auditor and any other matters presented for a vote of stockholders, the affirmative vote of holders of a majority of our common stock present or represented by proxy at the meeting and entitled to vote is required. Therefore, on any such matters, abstentions have the effect of a negative vote, and broker non-votes will not be taken into account.

Stockholders who send in proxies but attend the meeting in person may vote directly if they prefer and withdraw their proxies or may allow their proxies to be voted with the similar proxies sent in by other stockholders.

Table of Contents**VOTING SECURITIES**

On March 26, 2007, the record date, there were outstanding 40,416,426 shares of our common stock held of record by approximately 422 persons. Stockholders are entitled to one vote, exercisable in person or by proxy, for each share of our common stock held on the record date. Stockholders do not have cumulative voting rights.

PROPOSAL 1:**ELECTION OF DIRECTORS**

Board of Directors. The Company's Bylaws provide for the Board of Directors to serve in three classes having staggered terms of three years each. Two Class II directors will be elected at the 2007 Annual Meeting to serve for a three-year term expiring at the Annual Meeting of Stockholders in 2010. Pursuant to Delaware law, in the event of a vacancy on the Board of Directors, a majority of the remaining directors will be empowered to elect a successor, and the person so elected will hold office for the remainder of the full term of the director whose death, retirement, resignation, removal, disqualification or other cause created the vacancy and thereafter until the election of a successor director.

Recommendation; Proxies. **The Board of Directors recommends a vote FOR each of the nominees named below.** The persons named in the enclosed proxy card will vote all shares over which they have discretionary authority FOR the election of the nominees named below. Although the Board of Directors of the Company does not anticipate that any of the nominees will be unable to serve, if such a situation should arise prior to the meeting, the appointed persons will use their discretionary authority pursuant to the proxy and vote in accordance with their best judgment.

BOARD OF DIRECTORS AND COMMITTEES OF THE BOARD

Board of Directors

Meetings. During fiscal 2006, the Board of Directors held four meetings of the full Board and 15 meetings of committees. The Nominating and Corporate Governance Committee held four meetings, the Compensation Committee held five meetings and the Audit Committee held six meetings during fiscal 2006. In addition, the Company's independent auditors and management meet with the Audit Committee Chairman prior to the issuance of earnings press releases, and the other members of the Audit Committee are invited to attend these meetings. Each director attended at least 75% of the aggregate of (1) the total number of meetings of the Board of Directors (held during the period for which he has been a director) and (2) the total number of meetings of committees of the Board on which he served (during the periods that he served). Our non-management directors meet at regularly scheduled executive sessions presided over by our Chairman, Mr. Webster. Additionally, our independent directors meet at least once a year without members of management or non-independent directors present.

Compensation. Directors who are our employees do not receive a retainer or fees for service on the board or any committees. We pay non-employee members of the board for their service as directors. For 2006, directors who were not employees received an annual fee of \$30,000. In addition, the chairman of each committee received the following annual fees: Audit Committee \$10,000; Compensation Committee \$6,000; and Nominating and Corporate Governance Committee \$6,000. Directors who were not employees received a fee of \$2,000 for each board meeting attended in person, and a fee of \$1,000 for attendance at a board meeting held telephonically. For committee meetings, directors who were not employees received a fee of \$3,000 for each committee meeting attended in person, and a fee of \$1,500 for attendance at a committee meeting held telephonically. In addition, each non-employee director has received, upon election to the board, a stock option to purchase 37,500 shares of our common stock at the market price on the date of grant, and the option vests ratably over three years.

For 2007, our Compensation Committee, based in part on a review and recommendations by Pearl Meyer & Partners, our independent compensation consultants, adjusted the compensation for our non-employee directors. For additional information regarding fees earned for services as a director effective beginning in 2007, see Compensation Discussion and Analysis Board Process Compensation of Directors. Directors are reimbursed for reasonable out-of-pocket expenses incurred in attending meetings of the board or committees and for other reasonable expenses related to the performance of their duties as directors.

Independence. Our board of directors currently consists of eight members, including five members determined by our Board to be independent Messrs. D Agostino, Chiles, Johnson, Moore and Wommack.

The Board has determined that Messrs. D Agostino, Chiles, Johnson, Moore and Wommack are independent as that term is defined by rules of the New York Stock Exchange and, in the case of the Audit Committee, rules of the Securities and Exchange Commission. In determining that each of these directors is independent, the Board considered that the Company and its subsidiaries in the ordinary course of business sell products and services to other companies, including those at which certain directors serve (or recently served) as executive officers or directors. In particular, Carrizo Oil & Gas, Inc., a company on which Mr. Johnson serves as President, Chief Executive Officer and a Director, uses the services of the Company, but such services represent less than 2% of Carrizo's revenues. Also, although Mr. Wommack was previously deemed by the Board not to be independent due to his service as a current employee of a company that made payments to Basic during 2003 in excess of 2% of the company's consolidated gross revenues, as of January 1, 2007, the three-year test under Section 303A.02(b)(v) of the NYSE Listed Company Manual no longer prohibits such determination of independence. Accordingly, as of January 1, 2007, our Board

determined that Mr. Wommack was independent. In each case, the transactions and contributions did not automatically disqualify the directors from being considered independent under the NYSE rules. The Board also determined that these transactions were not otherwise material to the Company or to the other company involved in the transactions and that none of our directors had a material interest in the transactions with these companies.

Table of Contents

Based upon its review, the Board of Directors has affirmatively determined that each of these directors are independent and that none of these independent directors has a material relationship with the Company.

Shareholder and Interested Party Communications with the Board of Directors. Shareholders and interested parties may communicate directly with the Board or a particular director by sending a letter to the attention of the Board or non-management directors, as applicable, c/o Secretary, Basic Energy Services, Inc., 400 W. Illinois, Suite 800, Midland, Texas 79701. Shareholder communications must contain a clear notation on the mailing envelope indicating that the enclosed letter is a Shareholder-Board Communication or Shareholder-Director Communication. Additionally, if the enclosed letter is from an interested party, the mailing envelope must contain a clear notation indicating that it is an Interested Party-Board Communication or an Interested Party-Director Communication, as applicable. All such letters must identify the author as a shareholder and/or interested party and clearly state whether the intended recipients are all members of the Board or just certain specified individual directors or group of directors, such as the non-management directors. The Secretary will make copies of all such letters and circulate them to the appropriate director or directors.

All of the directors on our audit committee, nominating and corporate governance committee and compensation committee are currently independent in compliance with the requirements of the Sarbanes Oxley Act of 2002, the NYSE listing standards and SEC rules and regulations. The Nominating and Corporate Governance Committee has not established any minimum qualifications for non-employee director candidates that it recommends for nomination.

The Nominating and Corporate Governance Committee has established procedures for identifying and evaluating nominees. First, the Committee considers the Board's needs. Candidates will first be interviewed by the Committee. If approved by the Committee, candidates will then be interviewed by all other members of the Board. The full Board, with such interested directors recusing themselves as appropriate, will approve all final nominations after considering the recommendations of the Committee. The Chairman of the Board, acting on behalf of the other members of the Board, will extend the formal invitation to an approved candidate to stand for election to the Board.

Stockholders may nominate director candidates in accordance with the Company's Bylaws. To summarize, such nominations must be made in writing to the Company's Secretary at the Company's principal executive offices. The

recommendation must set forth certain information about both the nominee and the nominating stockholder(s). The foregoing is a summary, and the specific requirements and procedures of the Bylaws, including timing of proposals, control.

The stockholder's notice must set forth as to each nominee all information relating to the nominee that may be required under United States securities laws to be disclosed in solicitations of proxies for the election of directors, including the written consent of the person being recommended as a director candidate to being named in the proxy statement as a nominee and to serving as a director if elected. The Committee will not alter the manner in which it evaluates candidates, including the minimum criteria set forth above, based on whether or not the candidate was recommended by a stockholder.

COMPENSATION DISCUSSION AND ANALYSIS

Overview of Our Compensation Policies and Objectives. The Company's intent regarding compensation of its senior executive officers is to provide salary levels and compensation incentives (1) that are competitive within the market in which positions are located, (2) that attract and retain individuals of outstanding ability in these key positions and (3) that are designed to align the executives' incentives with the Company's short- and long-term goals, including strong pay-for-performance recognition for both individual performance and the Company's performance relative to the performance of other companies of comparable size, complexity and quality. In addition, the Compensation Committee considers the anticipated tax treatment of the Company's executive compensation program.

Elements of Compensation. During 2006, the executive compensation program for our named executive officers and other senior executives included four principal elements that, taken together, constitute a flexible and balanced method of establishing total compensation. These elements are:

base salary;

quarterly incentive bonus plan cash awards to certain executive offices (excluding our CEO and CFO);

annual cash incentive bonuses; and

long-term incentive awards, which during 2006 consisted solely of stock option grants.

The compensation program for our named executive officers during 2006 included only very limited additional perquisites not offered to employees generally.

Selection of Elements to Provide Competitive Levels of Compensation. The Compensation Committee generally attempts to provide the Company's senior executives with a total compensation package that is competitive and reflective of the performance achieved by the Company compared to the performance achieved by the Company's peers. During 2006, the Compensation Committee attempted to weight compensation generally toward long-term incentives, with base compensation targeted in the range of the 25th to 50th percentile of the compensation peer group considered by the Committee. The Committee determined a competitive level of compensation for each executive based on information drawn from a variety of sources, including proxy statements of other companies and surveys. The Company engaged Pearl Meyer & Partners during 2005 to perform an executive compensation review. This review was completed in December 2005. The peer group was comprised of a combination of the Company's direct competitors and other energy and energy services companies that experience similar market forces and are looked at similarly by the investment community. Compensation norms for the group were adjusted for comparability of revenue size to the Company. This review was used by the Compensation Committee in establishing 2006 executive base salaries, the range for potential 2006 cash incentive bonuses to be paid in 2007, and aggregate long-term incentive plan payouts and equity awards. During 2006, the Company elected to make equity grant levels somewhat higher than the median in order to address certain retention pressures in the market. Total cash compensation levels were found near the norm, and increased generally to move executives closer to the median where applicable and in accordance with anticipated normal industry increases (which increases were higher than prior-year normal increases due to competition and activity in the sector). While the targeted value of an executive's compensation package may be competitive, its actual value may exceed or fall below market average levels depending on performance, as discussed below.

The Company also engaged Pearl Meyer & Partners during 2006 to review the terms of the employment agreements for its named executive officers and other senior executives, and to recommend changes to these agreements. New agreements with the executive officers were entered into effective December 31, 2006. The principal effect of these new agreements was to streamline severance and non-competition provisions among our executive officers into three tiers, with our CEO in one tier, our CFO and Senior Vice President Rig and Truck Operations in a second tier, and our other Vice Presidents in a third tier. Severance benefits are discussed below under Severance Benefits.

Base Salaries. The Compensation Committee periodically reviews and establishes executive base salaries. Generally, base salaries are based on (1) the scope and complexity of the position held, (2) market

Table of Contents

survey data from comparable companies and (3) the incumbent's competency level based on overall experience and past performance. All of the executives employed by the Company during 2005 who were expected to continue service during 2006 received salary increases for fiscal 2006, including Mr. Huseman. The base salaries of Messrs. Huseman, Krenek and Tyner were also increased by the Compensation Committee for 2007 based on the Compensation Committee's review of its peer group and anticipated design for the overall 2007 compensation program for executive officers.

Quarterly Incentive Bonus Plans. During 2006, the Company maintained three individual Quarterly Incentive Bonus Plans for management and administrative personnel. These plans address (1) area-level personnel, (2) region- and division-level personnel and (3) corporate-level personnel, except for the CEO and CFO. During 2006, the Company also maintained an annual incentive bonus plan for executive officers. Employees participating under these plans were eligible for cash bonuses. Compensation potential and actual compensation received from all the plans are part of the cash compensation review process.

The purpose of the area-, region-, and division-level plans is to tie the compensation of the respective employees directly to the financial return on assets employed within their particular operations. During 2006, corporate-level bonuses were tied to the Company's net income.

Messrs. Huseman and Krenek did not participate in any of the Quarterly Incentive Bonus Plans during 2006 and received only an annual cash bonus in early 2007. Mr. Swift participated in the division-level Quarterly Incentive Bonus Plan for the first three quarters of 2006 and received an annual cash bonus in early 2007. Messrs. Harrison and Tyner each participated in the Quarterly Incentive Bonus Plans.

Annual Cash Bonuses and Non-Equity Incentive Plan Compensation. The purpose of annual cash bonuses under our Second Amended and Restated 2003 Incentive Plan is to provide motivation toward, and reward the accomplishment of, corporate annual objectives and to provide a competitive compensation package that will attract, reward and retain individuals of the highest quality. The cash bonus awards to our named executive officers for 2006 were paid as non-equity incentive plan compensation based upon the achievement of corporate performance objectives.

During 2006, the Compensation Committee of the Company utilized a set of metrics, which we refer to as our 2006 annual incentive compensation plan, for determining aggregate annual bonuses for our senior executive officers, including each of our named executive officers, consisting of (including relative weighting):

EBITDA return on capital employed (EBITDA/ net debt and equity)(40%);

accident frequency rates (20%);

revenue growth (15%);

return on equity (15%); and

individual performance, including extraordinary efforts and results (10%).

Target bonus award levels for the Company's executive officers during 2006 were established by senior management working with the Compensation Committee. Target levels represent the award level attainable when the plans are performed fully to expectations or plan and individual performance is rated accordingly. Potential annual cash awards for 2006 ranged from zero to 100% of base salary, with a target level of 75% based on the Company's annual budgeted revenue, plus 10%, plus acquisition-related revenue at budgeted performance. Payments made under our Quarterly Incentive Bonus Plans offset the annual bonus awards. The maximum target bonus is granted if total points for the

metrics equal or exceed 2.4 out of a maximum of 3.0 points. The greatest weight is given to EBITDA return on capital employed. The threshold level for the maximum bonus level on this metric was below our 2005 and 2006 actual performance, which actual performance continued to exceed historical levels. During 2006, the Company exceeded the maximum threshold level for targeted return on equity, but it did not exceed the maximum threshold level for either accident record or revenue growth. All of the executive officers received the maximum annual cash bonus for 2006, equal to 100% of their base salary as of December 31, 2006, which cash bonuses were paid during the

Table of Contents

first quarter of 2007. Payments under these metrics were not qualified performance based compensation within the meaning of Section 162(m) of the Code.

In addition to the foregoing cash awards, the Compensation Committee used these metrics to determine the potential value of equity incentive rewards in the form of options or restricted stock, which targeted a range from zero to 250% for our CEO, 200% for our CFO and Senior Vice President Rig and Truck Operations, and 100% for other executive officers. These awards were issued in March 2007 based on 2006 performance.

During 2007, the Compensation Committee of the Company has discussed, but not yet formally adopted, a set of performance-based metrics for determining annual bonuses for our senior executive officers, including each of our named executive officer, consisting of:

EBITDA return on capital employed (EBITDA/ net debt and equity);

accident record, including both the overall frequency rates and levels of preventable accidents;

revenue growth;

return on equity; and

individual performance, including extraordinary efforts and results.

The final weight and 2007 target bonus award levels for the Company's executive officers will be established by senior management working with the Compensation Committee later in 2007. Target levels will represent the award level attainable when the plans are performed fully to expectations or plan and individual performance will be rated accordingly.

Potential annual cash awards for 2007 are expected to range from zero to 100% of base salary, with a target level of 75% based on the Company's annual budgeted revenue, plus 5%, plus acquisition-related revenue at budgeted performance. The potential value of equity incentive rewards in the form of options or restricted stock is expected to range from zero to 250% for our CEO, 200% for our CFO and Senior Vice President Rig and Truck Operations, and 100% for other executive officers.

The Company's annual performance measures for officers during 2006 were recommended by the Chief Executive Officer and approved by the Compensation Committee. The Compensation Committee also requested and received a recommendation from the CEO, based on the report from Pearl Meyer, regarding the CEO's compensation. Annual cash bonuses for fiscal 2006 were paid to each of our executive officers during 2007. The Company's annual performance measures for officers for 2007 other than the Chief Executive Officer have been recommended by the Chief Executive Officer and are expected to be approved by the Compensation Committee. The Compensation Committee will base its determination of CEO levels of performance measures on the report from Pearl Meyer.

The Compensation Committee periodically monitors the award target levels and variances to assure their competitiveness and that they mesh with compensation strategy for incentives and for total compensation.

Long-Term Incentive Program. The long-term incentive program is used to focus management attention on Company performance over a period of time longer than one year in recognition of the long-term horizons for return on investments and strategic decisions in the energy services industry. The program is designed to motivate management to assist the Company in achieving a high level of long-term performance and serves to link this portion of executive compensation to long-term stockholder value. The Compensation Committee generally attempts to provide the

Company's executives, including Mr. Huseman, with a total compensation package that is competitive and reflective of the performance achieved by the Company compared to its peers, and is typically weighted toward long-term incentives. Aggregate stock or option holdings of the executive have no bearing on the size of a performance award.

The Company's Second Amended and Restated 2003 Incentive Plan (the "2003 Incentive Plan"), which was adopted by the board and has been approved by the Company's stockholders as amended, covers stock awards issued under the Company's original 2003 Incentive Plan and predecessor equity plan. The 2003

Table of Contents

Incentive Plan permits the granting of any or all of the following types of awards: stock options; restricted stock; performance awards; phantom shares; other stock based awards; bonus shares; and cash awards. In fiscal 2006, the Committee made grants of stock options, which vest ratably over a four-year period beginning January 1, 2008.

All non-employee directors and employees of, or consultants to, the Company or any of its affiliates are eligible for participation under the 2003 Incentive Plan. The 2003 Incentive Plan is administered by the Compensation Committee. The Compensation Committee directly oversees the plan as it relates to officers of the Company and oversees the plan in general, its funding and award components, the type and terms of the awards to be granted and interprets and administers the 2003 Incentive Plan for all participants. No awards may be granted under the 2003 Incentive Plan after April 12, 2014.

Options granted pursuant to the 2003 Incentive Plan may be either incentive options qualifying for beneficial tax treatment for the recipient as incentive stock options under Section 422 of the Code or non-qualified options. No person may be issued incentive stock options that first become exercisable in any calendar year with respect to shares having an aggregate fair market value, at the date of grant, in excess of \$100,000. No incentive stock option may be granted to a person if at the time such option is granted the person owns stock representing more than 10% of the total combined voting power of all classes of the Company's stock or any of its subsidiaries as defined in Section 424 of the Code, unless at the time incentive stock options are granted the purchase price for the option shares is at least 110% of the fair market value of the option shares on the date of grant and the incentive stock options are not exercisable after five years from the date of grant.

The 2003 Incentive Plan permits the payment of qualified performance based compensation within the meaning of Section 162(m) of the Code, which generally limits the deduction that the Company may take for compensation paid in excess of \$1,000,000 to certain of the Company's covered officers in any one calendar year unless the compensation is qualified performance based compensation within the meaning of Section 162(m) of the Code. Prior stockholder approval of the 2003 Incentive Plan (assuming no further material modifications of the plan) will satisfy the stockholder approval requirements of Section 162(m) for the transition period beginning with the Company's initial public offering in December 2005 and ending not later than the Company's annual meeting of stockholders in 2009. While the Compensation Committee reserves the right to grant ad hoc or special awards at any time that are subject to the limits of deductibility, the main awards under the plan are administered consistent with the requirements of 162(m) for performance based compensation.

Perquisites. The Company provides limited perquisites to its senior executives. Perquisites may include vehicle allowances, club memberships and long-term disability insurance. During 2006, these perquisites were provided to senior management based on individual employment agreements.

Mix and Allocation of Compensation Components. As noted above, the salary for our named executive officers can represent 100% of compensation in any given year when incentives do not pay out or long-term awards are not made. However, the general mix of compensation for target-level performances in the annual incentive plans, plus the net annualized present value of long-term compensation grants, can range as follows, depending upon the executive. The following general percentage mix would apply to the general approach in establishing the total compensation for the Company's executives at 2006 target performance. It is important to note that the influences of the timing of awards, availability of stock, company financial performance and stock price performance could significantly change the basic mix of compensation components as a percentage of total compensation:

For the CEO:

Base pay = 25% to 30%

Bonus compensation at target = 25% to 30%

Long-term compensation annualized = 40% to 50%

For the other named executives:

Base pay = 35% to 40%

Bonus compensation at target = 20% to 25%

Long-term compensation annualized = 30% to 45%

2006 Compensation for our Named Executive Officers. The 2006 and current 2007 salaries of our named executive officers, including our CEO, were established by the entire Board of Directors at the recommendation of the Compensation Committee. The basis for selecting the severance benefits of each of the named executive officers, including our CEO, as of December 31, 2006 is discussed below under Severance Benefits.

CEO Compensation. A separate, formal process of evaluating Mr. Huseman was conducted for purposes of determining his 2006 annual bonus paid during March 2007. Specifically, the Committee's considerations included: (1) our EBITDA return on capital employed (EBITDA/ net debt and equity); (2) our accident frequency rates; (3) our revenue growth; (4) our return on equity; and (5) whether Mr. Huseman achieved his individual goals for fiscal 2006. The Committee did not base its considerations on any single factor but assigned the greatest relative weight to our EBITDA return on capital employed. Based on these considerations, Mr. Huseman was granted an annual cash bonus for 2006 performance of \$400,000, equal to 100% of his base salary in effect on December 31, 2006, which bonus was paid during the first quarter of 2007.

Compensation of Other Named Executive Officers. The Committee reviewed the recommendations of the CEO regarding 2006 bonuses and awards. The Committee's considerations included the same general Company performance-based factors as well as the individual performance of each of the officers. As noted above, the annual cash bonuses paid to each of the other named executive officers for 2006 performance was equal to 100% of his base salary in effect on December 31, 2006.

During 2006 and in prior years, long-term incentive awards to our executive officers have consisted primarily of grants of options to purchase our common stock. In 2007, the Committee elected to use restricted stock awards as the primary component of long-term compensation for our executive officers, with certain of our executive officers also receiving grants of options to purchase our common stock. The rationale behind this shift towards increased restricted stock awards is that we believe that restricted stock awards provide stronger retention benefits than stock options, especially in slower economic markets. Also, we believe that restricted stock awards closer align the interests of management with the interests of our other shareholders. Finally, we undertake to provide a compensation package to our executive officers that is competitive with our peers, and the use of restricted stock as long-term incentive compensation is increasing among our peer group.

Severance Benefits. We entered into amended and restated employment agreements with each of our named executive officers as of December 31, 2006. Pursuant to these agreements, each of the named executive officers are entitled to severance payments in the event the officer is terminated at any time by us without Cause as defined in the agreements or by the officer for Good Reason. In addition, each of the named executive officers is entitled to severance payments in the event of a change-in-control if the officer's employment is terminated for certain reasons within the six months preceding or the twelve months following a change in control of our company.

The severance payments outside a change-in-control are based on a multiple (for Mr. Huseman 3.0 times; for Messrs. Krenek and Swift 1.5 times; and for Messrs. Harrison and Tyner 0.75 times) of the sum of the officer's base salary plus his current annual incentive target bonus for the full year in which the termination of employment occurred.

The severance payments associated with a change-in-control are based on a multiple (for Mr. Huseman 3.0 times; for Messrs. Krenek and Swift 2.0 times; and for Messrs. Harrison and Tyner 1.0 times) of the sum of the officer's base salary plus the higher of (i) his current annual incentive target bonus for the full year in which the termination of employment occurred or (ii) the highest annual incentive bonus received by him for any of the last three fiscal years. Mr. Huseman's new agreement reduced his previous enhanced change-in-control benefit level that was agreed upon while the Company was a private, controlled company prior to its initial public offering.

The officers' employment agreements are effective through December 31, 2007 (other than Mr. Huseman's, which is effective through December 31, 2009) and will automatically renew for subsequent one year periods unless notice of termination is properly given by us or the officer. In the event that the employment agreement of Messrs. Huseman, Krenk or Swift is not renewed by us and a new employment agreement has

Table of Contents

not been entered into, the officer will be entitled to the same severance benefits described above. We believe this severance requirement is reasonable and not uncommon for persons in the offices and rendering the level of services performed by these individuals.

We selected higher multiples for terminations associated with a change-in-control to provide additional reasonable protections and benefits to the officers in such event, while basing these change-in-control termination payments on a double trigger requiring additional reasons such as Good Reason or the officer being terminated without Cause. We believe that providing higher multiples for change-in-control terminations for up to a one-year period after a change in control will provide for their commitment to the Company or its potential acquirer through a change-in-control event providing a continuity of leadership and preserving the shareholders' interests before and after a transaction.

The employment agreements for Messrs. Huseman, Krenek and Swift also provide for gross up payments to the extent Section 280G of the Internal Revenue Code would apply to such payments as excess parachute payments. The employment agreements for the other executive officers do not contain these provisions.

Board Process. The Compensation Committee of the Board of Directors reviews all compensation and awards to executive officers. The Compensation Committee on its own, based on input from the Nominating and Governance Committee and discussions with other persons and advisors as it deems appropriate, reviews the performance and compensation of the CEO and approves his level of compensation. For the other executive officers, the Compensation Committee receives recommendations from the CEO. These recommendations are generally approved with minor adjustments. The Compensation Committee grants options and restricted stock, generally based on recommendations from the CEO, pursuant to its authority under the Compensation Committee Charter and the Company's 2003 Incentive Plan.

Compensation of Directors. The Compensation Committee is also responsible for determining the annual retainer, meeting fees, stock options and other benefits for members of the Board of Directors. The Compensation Committee's objective with respect to director compensation is to provide compensation incentives that attract and retain individuals of outstanding ability.

Director compensation currently in effect for 2007 was based in part on a review and recommendations by Pearl Meyer & Partners.

Employment Agreements

On December 29, 2006, we entered into new employment agreements with certain of our executive officers, each effective as of December 31, 2006. These new agreements contain the current base salaries being paid to the executive officers but amend certain provisions relating to severance and non-competition matters. Pursuant to our employment agreement effective December 31, 2006 with Kenneth V. Huseman, our President and Chief Executive Officer, Mr. Huseman is entitled to an initial annual base salary of \$400,000. Under this employment agreement, Mr. Huseman is eligible from time to time to receive grants of stock options and other long-term equity incentive compensation under our Second Amended and Restated 2003 Incentive Plan. If Mr. Huseman's employment is terminated for certain

reasons, he would be entitled to a lump sum severance payment equal to three times the sum of his base salary plus his current annual incentive target bonus for the full year in which the termination of employment occurred. Additionally, if Mr. Huseman's employment is terminated for certain reasons within the six months preceding or the twelve months following a change in control of our company, he would be entitled to a lump sum severance payment equal to three times the sum of his base salary plus the higher of (i) his current annual incentive target bonus for the full year in which the termination of employment occurred or (ii) the highest annual incentive bonus received by him for any of the last three fiscal years. Mr. Huseman's employment agreement is effective through December 31, 2009 and will automatically renew for subsequent one year periods unless notice of termination is properly given by us or Mr. Huseman. In the event that Mr. Huseman's employment agreement is not renewed by us and a new employment agreement has not been entered into, Mr. Huseman will be entitled to the same severance benefits described above.

We have also entered into employment agreements effective December 31, 2006 with Alan Krenek, our Senior Vice President, Chief Financial Officer, Treasurer and Secretary, and Charles W. Swift, our Senior Vice President - Rig and Truck Operations. Pursuant to these agreements, Mr. Krenek is entitled to an initial base salary of \$240,000 and Mr. Swift is entitled to an initial base salary of \$200,000. Each of Messrs. Krenek and Swift will also be entitled to an annual performance bonus if certain performance criteria are met. Under these employment agreements, the officer is eligible from time to time to receive grants of stock options and other long-term equity incentive compensation under our Second Amended and Restated 2003 Incentive Plan. If the officer's employment is terminated for certain reasons, he would be entitled to a lump sum severance payment equal to 1.50 times the sum of his base salary plus his current annual incentive target bonus for the full year in which the termination of employment occurred. Additionally, if the officer's employment is terminated for

certain reasons within the six months preceding or the twelve months following a change in control of our company, he would be entitled to a lump sum severance payment equal to two times the sum of his base salary plus the higher of (i) his current annual incentive target bonus for the full year in which the termination of employment occurred or (ii) the highest annual incentive bonus received by him for any of the last three fiscal years. The officer's employment agreement is effective through December 31, 2007 and will automatically renew for subsequent one year periods unless notice of termination is properly given by us or the officer. In the event that the officer's employment agreement is not renewed by us and a new employment agreement has not been entered into, the officer will be entitled to the same severance benefits described above.

We have also entered into employment agreements effective December 31, 2006 with the following two other executive officers who were named executive officers as of December 31, 2006, Dub William Harrison, our Vice President Equipment and Safety, and James E. Tyner, our Vice President Human Resources, as well as Thomas Monroe Patterson, our Vice President Corporate Development and Rental & Fishing Tool Services, and Mark David Rankin, our Vice President Risk Management. Pursuant to these agreements, these officers are entitled to the following initial base salaries: Mr. Harrison, \$150,000; Mr. Tyner, \$140,000; Mr. Patterson, \$140,000; and Mr. Rankin, \$130,000. Each of these officers will also be entitled to an annual performance bonus if certain performance criteria are met. Under these employment agreements, the officer is eligible from time to time to receive grants of stock options and other long-term equity incentive compensation under our Second Amended and Restated 2003 Incentive Plan. If the officer's employment is terminated for certain reasons, he would be entitled to a lump sum severance payment equal to 0.75 times the sum of his base salary plus his current annual incentive target bonus for the full year in which the termination of employment occurred. Additionally, if the officer's employment is terminated for certain reasons within the six months preceding or the twelve months following a change in control of our company, he would be entitled to a lump sum severance payment equal to one times the sum of his base salary plus the higher of (i) his current annual incentive target bonus for the full year in which the termination of employment occurred or (ii) the highest annual incentive bonus received by him for any of the last three fiscal years. The officer's employment agreement is effective through December 31, 2007 and will automatically renew for subsequent one year periods unless notice of termination is properly given by us or the officer. In the event that the officer's employment agreement is not renewed by us and a new employment agreement has not been entered into within the six months preceding or the twelve months following a change in control of our company, the officer will be entitled to the same severance benefits described above.

As consideration for us entering into the above employment agreements, Messrs. Huseman, Krenek, Swift, Harrison, Tyner, Patterson and Rankin have each agreed in his employment agreement that, for a period of 6 months following the termination of his employment by us without cause or by him for good reason, and for a period of two years following the termination of his employment for retirement or any other reason, he will not, among other things, engage in any business competitive with ours, render services to any entity who is competitive with us or solicit business from certain of our customers or potential customers. These non-competition restrictions shall not apply in the event that such termination is within 12 months of a change in control of our business. Additionally, the officer has agreed not to solicit any of our employees to reduce or adversely affect their employment with us for a period of two years from such officer's date of termination, for whatever reason. The employment agreements for Messrs. Huseman, Krenek and Swift also provide for gross up payments to the extent Section 280G of the Internal Revenue Code would apply to such payments as excess parachute payments. The employment agreements for the other executive officers do not contain these provisions.

The Board has approved 2007 salaries for each of the named executive officers effective in January 2007 as follows: Huseman \$525,000; Krenek \$260,000; Swift \$200,000; Harrison \$150,000; Tyner \$160,000.

(1) Executive contributions in last fiscal year are included in such executive's salary and bonus amounts, as applicable, as reported in the Summary Compensation Table.

- (2) Registrant contributions in last fiscal year are included in all other compensation in the Summary Compensation Table.

Each of our named executive officers is permitted to participate in our Executive Deferred Compensation Plan. An executive permitted to participate in this plan may defer a portion of his compensation, up to a maximum of 50% of his annual salary and 100% of his annual cash bonus, into his plan account. In addition, the Company makes an annual matching contribution to each executive's plan account, with the Company matching 100% of the first 3% of the executive's salary, and 50% of the next 2% of the executive's salary, up to a plan-year maximum of \$8,800. The Company may also make discretionary contributions into each executive's plan account from time to time as it deems appropriate. Subject to certain exceptions, the Company matching and discretionary contributions vest in one-fourth increments determined by such executive's years of service with the Company, with vesting beginning after two years of service, and full vesting occurring after five years of service. The executive is always fully vested in his own contributions to his plan account. Earnings on an executive's plan account for any given year are dependent upon the investment options chosen by the executive for such plan account. Generally, participants under this plan may elect when and how distributions of vested amounts in a plan account will be made, including whether such distributions are in annual installments or a lump sum. However, certain key employees, including the named executive officers,

Table of Contents

may not receive distributions before a date six months after the date such executive separates service from the Company for any reason other than death or disability.

Potential Payments upon Termination or Change-in-Control

Each of our named executive officers is party to an employment agreement as described above. Pursuant to these agreements, the officers are entitled to certain severance benefits. In addition, the grant agreements relating to our executives' stock option and restricted stock awards provide for accelerated vesting under certain circumstances. The tables below quantify amounts that would have been paid assuming the following events took place on December 29, 2006, the last business day of our fiscal year ended 2006:

We will also provide copies of the Annual Report to brokers, dealers, banks, voting trustee and their nominees for the benefit of their beneficial owners of record. Illinois, Suite 800, Midland, Texas 79701. You may also review the Company's filings with the Securities and Exchange Commission by visiting our website at www.basicenergyservices.com.

The Securities and Exchange Commission has adopted rules that permit companies and intermediaries such as brokers to satisfy delivery requirements for proxy statements with respect to two or more stockholders sharing the same address by delivering a single proxy statement addressed to those shareholders. This process, which is commonly referred to as "householding," potentially provides extra convenience for stockholders and cost savings for companies. Some brokers household proxy materials, delivering a single proxy statement to multiple shareholders sharing an address unless contrary instructions have been received from the affected shareholders. Once you have received notice from your broker that they will be householding materials to your address, householding will continue until you are notified otherwise or until you revoke your consent. If, at any time, you no longer wish to participate in householding and would prefer to receive a separate proxy statement, or if you are receiving multiple copies of the proxy statement and wish to receive only one, please notify your broker.

The Corporate Governance Guidelines, the Code of Ethics and the charters of the Audit Committee, the Nominating and Corporate Governance Committee and the Compensation Committee are also available on the Company's website (www.basicenergyservices.com), and copies of these documents are available to stockholders, without charge, upon request.
