QUARTERLY REPORT

August 31, 2002

[GRAPHIC]

Managed Municipals  
Portfolio Inc.

Dear Shareholder:

We are pleased to provide the quarterly report for the Managed Municipals Portfolio Inc. ("Fund") for the three months ended August 31, 2002. In this report, we summarize what we believe to be the period's prevailing economic and market conditions and outline our investment strategy. A detailed summary of the Fund's performance can be found in the appropriate sections that follow. We hope you find this report to be useful and informative.

Special Notice to Shareholders

We are pleased to report that R. Jay Gerken, a managing director of Salomon Smith Barney Inc., has been elected Chairman, President and Chief Executive Officer of the board of the Fund replacing Heath B. McLendon, who has been appointed chairman of Salomon Smith Barney Inc.'s new Equity Research Policy Committee. Previously, Jay managed the Smith Barney Growth and Income Fund for six years; developed and managed the Smith Barney Allocation Series Inc. from inception in 1996 through the end of 2001; and was responsible for the investment design and implementation of Citigroup Asset Management's college savings programs with the states of Illinois and Colorado.

Shareholder Dividend Notice

On August 23, 2002, the Fund announced dividend distribution dates for September, October and November 2002 for an ordinary income dividend of \$0.055 per share for each month. The dividend distribution schedule appears below:

	Ex-dividend	Record	Payable
	-----	-----	-----
September	9/20/02	9/24/02	9/27/02
October	10/18/02	10/22/02	10/25/02
November	11/21/02	11/25/02	11/29/02

[GRAPHIC]

1

Performance Review/1/

During the period ended August 31, 2002, the Fund distributed income dividends to shareholders totaling \$0.16 per share. The table below shows the annualized distribution rates and three-month total return based on the Fund's August 31, 2002 net asset value ("NAV") per share and its New York Stock Exchange ("NYSE") closing price./2/

Price Per Share	Annualized Distribution Rate/3/	Three-Month Total Return/3/
\$12.08 (NAV)	5.46%	4.82%
\$10.94 (NYSE)	6.03%	4.98%

In comparison, the Fund's Lipper Inc. ("Lipper")/4/ peer group of closed-end general municipal debt funds (leveraged) returned 4.33% based on NAV for the same period.

-----

1Past performance is not indicative of future results.

2NAV is calculated by subtracting total liabilities and outstanding preferred stocks from the closing value of all securities held by the Fund (plus all other assets) and dividing the result (total net assets of common stockholders) by the total number of the Fund's common shares outstanding. The NAV fluctuates with changes in the market prices of securities in which the Fund has invested. However, the price at which an investor may buy or sell shares of the Fund is at their market (NYSE) price as determined by supply of and demand for the Fund's shares.

3Total returns are based on changes in NAV or the market price, respectively. Total returns assume the reinvestment of all dividends and/or capital gains distributions in additional shares. Annualized distribution rate is the Fund's current monthly income dividend rate, annualized, and then divided by the NAV or the market price noted in this report. The annualized distribution rate assumes a current monthly income dividend rate of \$0.055 for twelve months. This rate is as of August 31, 2002 and is subject to change. The important difference between a total return and an annualized distribution rate is that the total return takes into consideration a number of factors including the fluctuation of the NAV or the market price during the period reported. The NAV fluctuation includes the effects of unrealized appreciation or depreciation in the Fund. Accordingly, since an annualized distribution rate only reflects the current monthly income dividend rate annualized, it should not be used as the sole indicator to judge the return you receive from your Fund investment.

4Lipper is an independent mutual-fund tracking organization. Average annual returns are based on the three-month period ended August 31, 2002, calculated among 55 funds in the closed-end general municipal debt funds (leveraged) fund category.

## Edgar Filing: MANAGED MUNICIPALS PORTFOLIO INC - Form N-30D

### Investment Strategy

The Fund seeks to maximize current interest income, which is excluded from gross income for regular federal income tax purposes to the extent consistent with prudent investment management and the preservation of capital./5/

The Fund invests at least 80% of its assets in municipal securities, which are rated investment-grade at the time of investment or are determined to be of equivalent quality. Municipal securities include securities issued by any of the 50 states and certain other municipal issuers, political subdivisions, agencies and public authorities that pay interest which is excluded from gross income for federal income tax purposes. The Fund focuses primarily on intermediate-term and long-term municipal securities, which have remaining maturities at the time of purchase of from three to more than 30 years. The Fund can invest up to 20% of its assets in below investment-grade/6/ or in unrated securities of equivalent quality (commonly known as "junk bonds"). Investment-grade bonds are those rated in any of the four highest long-term rating categories, or if unrated, of comparable quality.

Shareholder Notice: The following significant event occurred prior to the inception of the period and subsequent to the merger of Managed Municipal Portfolio II Inc. with and into the Fund, which was completed as of the close of business on April 26, 2002 (with shareholders of Managed Municipals Portfolio II Inc. becoming shareholders of the Fund): The Fund issued \$250 million in municipal auction rate cumulative preferred stock on May 22, 2002. This offering enabled the Fund to invest proceeds of the offering into additional securities that met the Fund's objectives. In general, leveraging techniques (such as this) may be beneficial in periods when interest rates are declining and short-term rates are substantially lower than intermediate- and long-term rates, as leveraging potentially tends to enhance both net asset value and yield. In periods of rising interest rates, however, the opposite typically happens: drops in per share net asset value are magnified, as falling prices on the increased asset base are spread over the same amount of common shares outstanding. Additionally, in this latter scenario, the yield advantage diminishes as short-term rates rise closer to the yields of the Fund's longer-term holdings.

-----  
5Certain investors may be subject to the Federal Alternative Minimum Tax ("AMT"), and state and local taxes may apply. Capital gains, if any, are fully taxable.

6Investment-grade bonds are those rated AAA, Aa, A and Baa by Moody's Investors Service or AAA, AA, A and BBB by Standard & Poor's Ratings Service, or that have an equivalent rating by any nationally recognized statistical rating organization, or are determined by the Manager to be of comparable quality.

3

### Portfolio Manager Market and Portfolio Overview

Throughout most of the reporting period, we generally maintained a favorable view of bonds mainly because of the economic environment in the U.S. In our opinion, low inflation, an extremely accommodative U.S. Federal Reserve Board ("Fed"), among other factors, were supportive of the fixed-income securities markets. However, we believe the bond markets were influenced not only by the economic and interest rate environments, but also by the effects of human

## Edgar Filing: MANAGED MUNICIPALS PORTFOLIO INC - Form N-30D

emotion, particularly by investors' concerns that the equity market was volatile. It seemed to us that as the stock market fell, in an almost knee-jerk reaction, the bond market rose. So, not only do we feel many bond market fundamentals look strong, but we also believe that many investors have turned to government and municipal bonds simply as an emotional response to volatility in the stock market.

In terms of our investment strategy, we have been repositioning the Fund in an effort to take advantage of a potential improvement in the U.S. economy, which we anticipate will gradually occur into next year followed by a more powerful economic recovery moving into 2004. For example, we have reallocated capital away from some of the Fund's more aggressive positions, such as bonds with extremely long maturities, into those fixed-income securities that we consider to be slightly more conservative alternatives.

### Portfolio Manager Market and Portfolio Outlook

In our view, the municipal bond market offers many favorable investment opportunities, as municipal securities with longer-term maturities offered yields as high as 95% of those on U.S. Treasury bonds with comparable maturities during the period. We anticipate that yields on municipals relative to those on U.S. Treasuries will remain in this territory in the foreseeable future.

We believe the Federal Open Market Committee ("FOMC")<sup>7/</sup> will likely refrain from taking any action on maneuvering its short-term interest rate target. In our view, there are two basic developments that the FOMC would

-----

<sup>7</sup>The FOMC is a policy-making body of the Federal Reserve System responsible for the formulation of a policy designed to promote economic growth, full employment, stable prices, and a sustainable pattern of international trade and payments.

<sup>8</sup>The fed funds rate is the interest rate that banks with excess reserves at a Federal Reserve district bank charge other banks that need overnight loans. The fed funds rate often points to the direction of U.S. interest rates.

[GRAPHIC]

4

like to see become apparent before it would consider raising its target for the federal funds rate ("fed funds rate")<sup>8/</sup>. First, we believe the FOMC wants firm evidence that the U.S. economy is well on the road to recovery. Second, we believe the FOMC is waiting until the enormous amount of capital currently invested in short-term instruments, such as money market funds and certificates of deposit ("CDs"), begins to be re-allocated back into the stock market, long-term bond market and the general economy. In our view, this stockpiling of assets in extremely short-term investments reflects investors' concerns about the stock markets. A similar type of build-up in short-term investments occurred in the early 1980s, although short-term rates during that particular period were extremely high. However, with current short-term rates hovering at historically low levels, in our opinion, much of this flight to short-term investments does not appear justified.

In our view, the U.S. economy appears to have bottomed out. Barring any further terrorism attacks or acts of war, we believe the economy may recover faster than what many people expect. Going forward, our plan entails focusing on municipal securities with higher credit ratings in an effort to avoid

Edgar Filing: MANAGED MUNICIPALS PORTFOLIO INC - Form N-30D

assuming any substantial credit risk.

Looking for Additional Information?

The Managed Municipals Portfolio Inc. is traded on the New York Stock Exchange under the symbol "MMU" and its closing market price is available in most newspapers under the New York Stock Exchange listings. Daily net asset value closing prices are available online under symbol "XMMUX". Barron's and The Wall Street Journal's Monday editions carry closed-end fund tables that provide weekly net asset value per share information. In addition, the Fund issues a quarterly allocation press release that can be found on most major financial web sites.

Take Advantage of the Fund's Dividend Reinvestment Plan!

Did you know that Fund investors may reinvest their dividends in an effort to take advantage of what can be one of the most effective wealth-building tools available today? When the Fund achieves its objectives, systematic investments by shareholders put time to work for them through the strength of compounding.

As an investor in the Fund, you can participate in its Dividend Reinvestment Plan ("Plan"), a convenient, simple and efficient way to reinvest your dividends and capital gains, if any, in additional shares of the Fund. Below is a short summary of how the Plan works.

Plan Summary

Edgar Filing: MANAGED MUNICIPALS PORTFOLIO INC - Form N-30D

If you are a Plan participant who has not elected to receive your dividends in the form of a cash payment, then your dividend and capital gain distributions will be reinvested automatically in additional shares of the Fund.

The number of common stock shares in the Fund you will receive in lieu of a cash dividend is determined in the following manner. If the market price of the common stock is equal to or exceeds 98% of the net asset value per share ("NAV") on the determination date, you will be issued shares by the Fund at a price reflecting the NAV, or 95% of the market price, whichever is greater.

If the market price is less than 98% of the NAV at the time of valuation (the close of business on the determination date), PFPC Global Fund Services ("Plan Agent"), will buy common stock for your account in the open market.

If the Plan Agent begins to purchase additional shares in the open market and the market price of the shares subsequently rises above the previously determined NAV before the purchases are completed, the Plan Agent will attempt to terminate purchases and have the Fund issue the remaining dividend or distribution in shares at the greater of the previously determined NAV or 95% of the market price. In that case, the number of Fund shares you receive will be based on the weighted average of prices paid for shares purchased in the open market and the price at which the Fund issues the remaining shares.

A more complete description of the current Plan appears in this report beginning on page 35.

To find more detailed information about the Plan and about how you can participate, please call PFPC Global Fund Services at (800) 331-1710.

- (a) All ratings are by Standard & Poor's Ratings Service, except for those which are identified by an asterisk (\*), are rated by Moody's Investor's Service.
  - (b) All or a portion of this security has been segregated by the custodian for futures contract commitments.
  - (c) Income from this issue is considered a preference item for purposes of calculating the alternative minimum tax.
  - (d) Pre-Refunded bonds escrowed by U.S. government securities and bonds escrowed to maturity by U.S. government securities are considered by manager to be triple-A rated even if issuer has not applied for new ratings.
  - (e) Security is exempt from registration under Rule 144A of the Securities Act of 1933. This security may be resold in transactions that are exempt from registration, normally to qualified institutional buyers.
  - (f) Security is in default
  - (g) Variable rate obligation payable at par on demand at any time on no more than seven days notice.
- \*\* Aggregate cost for Federal income tax purposes is substantially the same.

See pages 21 and 22 for definitions of ratings and certain security descriptions.

BOND RATINGS  
(unaudited)

The definitions of the applicable rating symbols are set forth below:

Standard & Poor's Ratings Service ("Standard and Poor's") -- Ratings from "AA" to "B" may be modified by the addition of a plus (+) or minus (-) sign to show relative standings within the major rating categories.

- AAA --Bonds rated "AAA" have the highest rating assigned by Standard & Poor's. Capacity to pay interest and repay principal is extremely strong.
- AA --Bonds rated "AA" have a very strong capacity to pay interest and repay principal and differ from the highest rated issue only in a small degree.
- A --Bonds rated "A" have a strong capacity to pay interest and repay principal although they are somewhat more susceptible to the adverse effects of changes in circumstances and economic conditions than debt in higher rated categories.
- BBB --Bonds rated "BBB" are regarded as having an adequate capacity to pay interest and repay principal. Whereas they normally exhibit adequate protection parameters, adverse economic conditions or changing circumstances are more likely to lead to a weakened capacity to pay interest and repay principal for bonds in this category than in higher rated categories.
- BB and B --Bonds rated "BB" and "B" are regarded, on balance, as predominantly speculative with respect to the issuer's capacity to pay interest and repay principal in accordance with the terms of the obligation. "BB" indicates the lowest degree of speculation and "B" the highest degree of speculation. While such bonds will likely have some quality and protective characteristics, these are outweighed by large uncertainties or major risk exposures to adverse conditions.

Edgar Filing: MANAGED MUNICIPALS PORTFOLIO INC - Form N-30D

Moody's Investors Service ("Moody's") -- Numerical modifiers 1, 2 and 3 may be applied to each generic rating from "Aa" to "Ba," where 1 is the highest and 3 the lowest ranking within its generic category.

- Aaa --Bonds rated "Aaa" are judged to be of the best quality. They carry the smallest degree of investment risk and are generally referred to as "gilt edge." Interest payments are protected by a large or by an exceptionally stable margin and principal is secure. While the various protective elements are likely to change, such changes as can be visualized are most unlikely to impair the fundamentally strong position of such issues.
- Aa --Bonds rated "Aa" are judged to be of high quality by all standards. Together with the "Aaa" group they comprise what are generally known as high grade bonds. They are rated lower than the best bonds because margins of protection may not be as large in "Aaa" securities or fluctuation of protective elements may be of greater amplitude or there may be other elements present which make the long-term risks appear somewhat larger than in "Aaa" securities.
- A --Bonds rated "A" possess many favorable investment attributes and are to be considered as upper medium grade obligations. Factors giving security to principal and interest are considered adequate but elements may be present which suggest a susceptibility to impairment some time in the future.
- Baa --Bonds rated "Baa" are considered as medium grade obligations, i.e., they are neither highly protected nor poorly secured. Interest payments and principal security appear adequate for the present but certain protective elements may be lacking or may be characteristically unreliable over any great length of time. Such bonds lack outstanding investment characteristics and in fact have speculative characteristics as well.
- Ba --Bonds rated "Ba" are judged to have speculative elements; their future cannot be considered as well assured. Often the protection of interest and principal payments may be very moderate thereby not well safeguarded during both good and bad times over the future. Uncertainty of position characterizes bonds in this class.
- NR --Indicates that the bond is not rated by Standard & Poor's or Moody's.

21

[GRAPHIC]

SHORT-TERM SECURITY RATINGS  
(unaudited)

- SP-1 --Standard & Poor's highest rating indicating very strong or strong capacity to pay principal and interest; those issues determined to possess overwhelming safety characteristics are denoted with a plus (+) sign.
- A-1 --Standard & Poor's highest commercial paper and variable-rate demand obligation (VRDO) rating indicating that the degree of safety regarding timely payment is either overwhelming or very strong; those issues determined to possess overwhelming safety characteristics are denoted with a plus (+) sign.
- VMIG 1 --Moody's highest rating for issues having a demand feature -- VRDO.
- P-1 --Moody's highest rating for commercial paper and for VRDO prior to the advent of the VMIG 1 rating.

NOTES TO FINANCIAL STATEMENTS  
(unaudited)

1. SIGNIFICANT ACCOUNTING POLICIES

## Edgar Filing: MANAGED MUNICIPALS PORTFOLIO INC - Form N-30D

Managed Municipals Portfolio Inc. ("Fund"), a Maryland corporation, is registered under the Investment Company Act of 1940, as amended, as a non-diversified, closed-end management investment company.

The significant accounting policies consistently followed by the Fund are: (a) security transactions are accounted for on trade date; (b) securities are valued at the mean between bid and ask prices provided by an independent pricing service that are based on transactions in municipal obligations, quotations from municipal bond dealers, market transactions in comparable securities and various relationships between securities; (c) securities maturing within 60 days or less are valued at cost plus accreted discount, or minus amortized premium, which approximates value; (d) gains or losses on sale of securities are calculated by using the specific identification method; (e) interest income, adjusted for amortization of premium and accretion of discount, is recorded on an accrual basis; (f) dividends and distributions to shareholders are recorded on the ex-dividend date; (g) the Fund intends to comply with the applicable provisions of the Internal Revenue Code of 1986, as amended, pertaining to regulated investment companies and to make distributions of taxable income sufficient to relieve it from substantially all Federal income and excise taxes; (h) the character of income and gains to be distributed are determined in accordance with income tax regulations which may differ from accounting principles generally accepted in the United States of America. At May 31, 2002, reclassifications were made to the Fund's capital accounts to reflect permanent book/tax differences and income and gains available for distributions under income tax regulations. Accordingly, a portion of overdistributed net investment income amounting to \$13,447 was reclassified from paid-in capital. Net investment income, net realized gains and net assets were not affected by this adjustment; and (i) estimates and assumptions are required to be made regarding assets, liabilities and changes in net assets resulting from operations when financial statements are prepared. Changes in the economic environment, financial markets and any other parameters used in determining these estimates could cause actual results to differ.

In November 2000, the American Institute of Certified Public Accountants ("AICPA") issued a revised Audit and Accounting Guide for Investment Companies ("Guide"). This revised version is effective for financial statements issued for fiscal years beginning after December 15, 2000. The revised Guide requires the Fund to amortize premium and accrete all discounts on all fixed-income securities. The Fund adopted this requirement effective April 1, 2001. This change does not affect the Fund's net asset value, but does change the classification of certain amounts in the statement of operations. For the three

### NOTES TO FINANCIAL STATEMENTS (unaudited) (continued)

months ended August 31, 2002, interest income decreased by \$19,228, net realized loss increased by \$695 and the change in net unrealized appreciation of investments decreased by \$19,923. In addition, on May 31, 2002, the Fund recorded adjustments to increase the cost of securities and increase accumulated undistributed net investment income by \$59,169 to reflect the cumulative effect of this change up to the date of the adoption.

# Edgar Filing: MANAGED MUNICIPALS PORTFOLIO INC - Form N-30D

## 2. EXEMPT-INTEREST DIVIDENDS AND OTHER DISTRIBUTIONS

The Fund intends to satisfy conditions that will enable interest from municipal securities, which is exempt from regular Federal income tax and from designated state income taxes, to retain such tax-exempt status when distributed to the shareholders of the Fund.

Capital gain distributions, if any, are taxable to shareholders, and are declared and paid at least annually.

## 3. INVESTMENT ADVISORY AGREEMENT, ADMINISTRATION AGREEMENT AND OTHER TRANSACTIONS

Smith Barney Fund Management LLC ("SBFM"), a subsidiary of Salomon Smith Barney Holdings Inc., which, in turn, is a subsidiary of Citigroup Inc. ("Citigroup"), acts as investment adviser to the Fund. The Fund pays SBFM a fee calculated at an annual rate of 0.70% of the average daily total net assets of the Fund. This fee is calculated daily and paid monthly.

SBFM also acts as the Fund's administrator for which the Fund pays a fee calculated at an annual rate of 0.20% of the average daily total net assets. This fee is calculated daily and paid monthly.

However, effective upon the issuance of the Fund's preferred shares, SBFM agreed to reduce its aggregate investment advisory and administrative fees to an aggregate annual rate of 0.65% on those assets of the Fund equal to the product of the number of preferred shares outstanding multiplied by the liquidation value of such shares.

All officers and one Director of the Fund are employees of Citigroup or its affiliates.

## 4. INVESTMENTS

During the three months ended August 31, 2002, the aggregate cost of purchases and proceeds from sales of investments (including maturities, but excluding short-term securities) were as follows:

Purchases	\$132,915,964
Sales	44,064,073

[GRAPHIC]

27

[GRAPHIC]

## NOTES TO FINANCIAL STATEMENTS (unaudited) (continued)

At August 31, 2002, aggregate gross unrealized appreciation and depreciation of investments for Federal income tax purposes were substantially as follows:

Edgar Filing: MANAGED MUNICIPALS PORTFOLIO INC - Form N-30D

Gross unrealized appreciation	\$ 40,931,641
Gross unrealized depreciation	(12,686,923)
-----	
Net unrealized appreciation	\$ 28,244,718
-----	

5. FUTURES CONTRACTS

Initial margin deposits made upon entering into futures contracts are recognized as assets. Securities equal to the initial margin amount are segregated by the custodian in the name of the broker. Additional securities are also segregated up to the current market value of the futures contracts. During the period the futures contract is open, changes in the value of the contract are recognized as unrealized gains or losses by "marking-to-market" on a daily basis to reflect the market value of the contract at the end of each day's trading. Variation margin payments are received or made and recognized as assets due from or liabilities due to broker, depending upon whether unrealized gains or losses are incurred. When the contract is closed, the Fund records a realized gain or loss equal to the difference between the proceeds from (or cost of) the closing transactions and the Fund's basis in the contract.

The Fund enters into such contracts to hedge a portion of its portfolio. The Fund bears the market risk that arises from changes in the value of the financial instruments and securities indices (futures contracts).

At August 31, 2002, the Fund had the following open futures contracts:

	# of Contracts	Expiration	Basis Value	Market Value	Unrealized Loss
-----					
To					
Sell:					
U.S.					
Treasury					
Bond	700	9/02	\$75,003,438	\$77,612,500	\$(2,609,062)
-----					

6. SECURITIES TRADED ON A WHEN-ISSUED BASIS

In a when-issued transaction, the Fund commits to purchasing securities for which specific information is not yet known at the time of the trade. Securities purchased on a when-issued basis are not settled until they are delivered to the Fund. Beginning on the date the Fund enters into the when-issued transaction, the custodian maintains cash, U.S. government securities or other liquid high grade debt obligations in a segregated account equal in value to the purchase price of the when-issued security. These transactions are subject to market fluctuations and their current value is determined in the same manner as for other securities.

[GRAPHIC]

[GRAPHIC]

## Edgar Filing: MANAGED MUNICIPALS PORTFOLIO INC - Form N-30D

At August 31, 2002, the Fund did not hold any when-issued securities.

### 7. AUCTION RATE CUMULATIVE PREFERRED STOCK

On May 22, 2002, the Fund issued 2,000 shares of Series M, Series T, Series W, Series Th and Series F, respectively, of Auction Rate Cumulative Preferred Stock ("ARCPS"). The underwriting discount of \$2,500,000 and offering expenses of \$293,000 associated with the ARCPS offering were recorded as a reduction of the capital paid in excess of par value of common stock. The ARCPS' dividends are cumulative at a rate determined at an auction and the dividend period is typically 7 days. The dividend rates ranged from 1.10%-1.55% for the three months ended August 31, 2002.

The ARCPS are redeemable under certain conditions by the Fund, or subject to mandatory redemption (if the Fund is in default of certain coverage requirements) at a redemption price equal to \$25,000 per share plus accumulated and unpaid dividends. ARCPS have a liquidation preference of \$25,000 per share plus accumulated and unpaid dividends. The Fund is required to maintain certain asset coverages with respect to the ARCPS under the Investment Company Act of 1940.

Salomon Smith Barney Inc. ("SSB"), another subsidiary of Citigroup also currently acts as a broker/dealer in connection with the auction of ARCPS. After each auction, the auction agent will pay to each broker/dealer, from monies the Fund provides a participation fee at the annual rate of 0.25% of the purchase price of the ARCPS that the broker/dealer places at the auction. For the three months ended August 31, 2002, SSB earned \$155,828 as the broker/dealer.

Under Emerging Issues Task Force ("EITF") announcement Topic D-98, Classification and Measurement of Redeemable Securities, which was issued on July 19, 2001, preferred securities that are redeemable for cash or other assets are to be classified outside of permanent equity to the extent that the redemption is at a fixed or determinable price and at the option of the holder or upon the occurrence of an event that is not solely within the control of the issuer.

NOTES TO FINANCIAL STATEMENTS  
(unaudited) (continued)

### 8. TRANSFER OF NET ASSETS

On April 26, 2002, the Fund acquired the assets and certain liabilities of Managed Municipals Portfolio II Inc. pursuant to a plan of reorganization approved by Managed Municipals Portfolio II Inc. shareholders on April 10, 2002. Total shares issued by the Fund and the total net assets of the Managed Municipals Portfolio II Inc. and the Fund on the date of the transfer were as follows:

## Edgar Filing: MANAGED MUNICIPALS PORTFOLIO INC - Form N-30D

Acquired Fund	Shares Issued by the Fund	Total Net Assets of Managed Municipals Portfolio II Inc.	Total Net Assets of the Fund
-----			
Managed Municipals Portfolio II Inc.	10,006,932	\$117,162,040	\$372,831,933
-----			

The total net assets of Managed Municipals Portfolio II Inc. before acquisition included unrealized depreciation of \$2,101,130, accumulated net realized loss of \$5,251,582, and overdistributed net investment income of \$14,313. Total net assets of the Fund immediately after the transfer were \$489,993,973. The transaction was structured to qualify as a tax-free reorganization under the Internal Revenue Code of 1986, as amended.

### 9. CAPITAL LOSS CARRYFORWARD

At May 31, 2002, the Fund had, for Federal income tax purposes, approximately \$18,142,000 of unused capital loss carryforwards available to offset future capital gains. To the extent that these carryforward losses are used to offset capital gains, it is probable that the gains so offset will not be distributed. Expirations occur on May 31 of the years below:

	2006	2007	2008
Carryforward Amounts	\$302,000	\$4,855,000	\$12,985,000
-----			

### 10. CAPITAL SHARES

At August 31, 2002, the Fund had 500,000,000 shares of common stock authorized with a par value of \$0.001 per share.

Operating expenses/(2)/	1.51+	0.52	0.68	0.89	0.94	0.99
Total expenses	1.51+	0.52	0.68	0.89	0.94	0.99
-----						
Portfolio Turnover Rate	6%	39%	58%	35%	23%	87%
-----						
Market Price, End of Period	\$10.94	\$10.57	\$10.67	\$9.375	\$10.375	\$11.00
-----						

- (1) For the three months ended August 31, 2002 (unaudited).  
(2) The investment adviser waived a portion of its fees for the years ended May 31, 2002, 2001 and 2000. In addition, the investment adviser and administrator waived a portion of their fees for the year ended May 31, 1999. If such fees were not waived, the per share decreases in net investment income and actual expense ratios would have been as follows:

Per share decreases in      Expense ratios  
net investment income      without fee waivers

2002	\$0.05	1.01%
2001	0.04	1.01
2000	0.02	1.04
1999	0.01	1.02

- (3) Without the adoption of the change in the accounting method discussed in Note 1 to the financial statements, for the three months ended August 31, 2002, the annualized ratio of net investment income to average net assets would have been 6.25%. Per share, ratios and supplemental data for the periods prior to June 1, 2001 have not been restated to reflect this change in presentation. In addition, the impact of this change to net investment income and net realized and unrealized gain per share was less than \$0.01.  
(4) The total return calculation assumes that dividends are reinvested in accordance with the Fund's dividend reinvestment plan.  
(5) Calculated on basis of average net assets of common shareholders. Ratios do not reflect the effect of dividend payments to preferred shareholders.  
\* Amount represents less than \$0.01 per share.  
++ Total return is not annualized, as it may not be representative of the total return for the year.  
+ Annualized.

DIVIDEND REINVESTMENT PLAN  
(unaudited)

Under the Fund's Dividend Reinvestment Plan ("Plan"), a shareholder whose shares of common stock are registered in his own name will have all distributions from the Fund reinvested automatically by PFPC Global Fund Services ("PFPC"), as purchasing agent under the Plan, unless the shareholder elects to receive cash. Distributions with respect to shares registered in the name of a broker-dealer or other nominee (that is, in street name) will be reinvested by the broker or nominee in additional shares under the Plan, unless the service is not provided by the broker or nominee or the shareholder elects to receive distributions in cash. Investors who own common stock registered in street name should consult their broker-dealers for details regarding reinvestment. All distributions to shareholders who do not participate in the Plan will be paid by check mailed directly to the record holder by or under the direction of PFPC as dividend paying agent.

The number of shares of common stock distributed to participants in the Plan in lieu of a cash dividend is determined in the following manner. When the market price of the common stock is equal to or exceeds 98% of the net asset value per share of the common stock on the determination date (generally, the record date for the distribution), Plan participants will be issued shares of common stock by the Fund at a price equal to the greater of net asset value determined as described below under "Net Asset Value" or 95% of the market price of the common stock.

If the market price of the common stock is less than 98% of the net asset value of the common stock at the time of valuation (which is the close of business on the determination date), PFPC will buy common stock in the open market, on the NYSE or elsewhere, for the participants' accounts. If following the commencement of the purchases and before PFPC has completed its purchases, the market price exceeds the net asset value of the common stock as of the valuation time, PFPC will attempt to terminate purchases in the open market and cause the Fund to issue the remaining portion of the dividend or distribution in shares at a price equal to the greater of (a) net asset value as of the valuation time or (b) 95% of the then current market price. In this case, the number of shares received by a Plan participant will be based on the weighted average of prices paid for shares purchased in the open market and the price at which the Fund issues the remaining shares. To the extent PFPC is unable to stop open market purchases and cause the Fund to issue the remaining shares, the average per share purchase price paid by PFPC may exceed the net asset value of the common stock as of the valuation time, resulting in the acquisition of fewer shares than if the dividend or capital gains distribution had been paid in common stock issued by the Fund at such net

DIVIDEND REINVESTMENT PLAN  
(unaudited) (continued)

asset value. PFPC will begin to purchase common stock on the open market as soon as practicable after the determination date for the dividend or capital gains distribution, but in no event shall such purchases continue later than 30 days after the payment date for such dividend or distribution, or the record date for a succeeding dividend or distribution, except when necessary to comply with applicable provisions of the federal securities laws.

PFPC maintains all shareholder accounts in the Plan and furnishes written confirmations of all transactions in each account, including information needed by a shareholder for personal and tax records. The automatic reinvestment of dividends and capital gains distributions will not relieve Plan participants of any income tax that may be payable on the dividends or capital gains distributions. Common stock in the account of each Plan participant will be held by PFPC in uncertificated form in the name of the Plan participant.

Plan participants are subject to no charge for reinvesting dividends and capital gains distributions under the Plan. PFPC's fees for handling the reinvestment of dividends and capital gains distributions will be paid by the Fund. No brokerage charges apply with respect to shares of common stock issued directly by the Fund under the Plan. Each Plan participant will, however, bear a proportionate share of any brokerage commissions actually incurred with respect to any open market purchases made under the Plan.

Experience under the Plan may indicate that changes to it are desirable. The Fund reserves the right to amend or terminate the Plan as applied to any dividend or capital gains distribution paid subsequent to written notice of the change sent to participants at least 30 days before the record date for the dividend or capital gains distribution. The Plan also may be amended or terminated by PFPC, with the Fund's prior written consent, on at least 30 days' written notice to Plan participants. All correspondence concerning the plan should be directed by mail to PFPC Global Fund Services, P.O. Box 8030, Boston, Massachusetts 02266-8030 or by telephone at (800) 331-1710.
