PEABODY ENERGY CORPORATION
 PROXY STATEMENT
 FOR THE
 2002 ANNUAL MEETING OF STOCKHOLDERS

QUESTIONS AND ANSWERS ABOUT THE ANNUAL MEETING AND VOTING

Q: WHY DID I RECEIVE THIS PROXY STATEMENT?

Edgar Filing: PEABODY ENERGY CORP - Form DEF 14A

A: Because you are a stockholder of Peabody Energy Corporation as of the record date and are entitled to vote at the 2002 Annual Meeting of Stockholders, the Board of Directors is soliciting your proxy to vote at the meeting.

This Proxy Statement summarizes the information you need to know to vote at the Annual Meeting. This Proxy Statement and proxy card were first mailed to stockholders on or about March 29, 2002.

Q: WHAT AM I BEING ASKED TO VOTE ON?

A: You are being asked to vote on the following item:

- Election of three Class I Directors for terms of three years, including Roger H. Goodspeed, Felix P. Herlihy and James R. Schlesinger, PhD.

Q: WHAT ARE THE VOTING RECOMMENDATIONS OF THE BOARD OF DIRECTORS?

A: THE BOARD OF DIRECTORS RECOMMENDS A VOTE "FOR" EACH OF THE CLASS I DIRECTOR NOMINEES.

Q: WILL ANY OTHER MATTERS BE VOTED ON?

A: We are not aware of any other matters that will be brought before the stockholders for a vote at the Annual Meeting. If any other matter is properly brought before the meeting, your signed or voted proxy gives authority to Irl F. Engelhardt, Richard M. Whiting and Fredrick D. Palmer to vote on such matters in their discretion.

Q: WHO IS ENTITLED TO VOTE?

A: Stockholders of record as of the close of business on March 15, 2002 are entitled to vote at the Annual Meeting. Each share of Common Stock is entitled to one vote. As of March 15, 2002, there were 52,020,274 shares of Common Stock outstanding.

Q: HOW DO I VOTE?

A: If you are a stockholder of record or hold stock through the Peabody Holding Company, Inc. Employee Retirement Account (or other 401(k) plans sponsored by the Company or its subsidiaries), you may vote using any of the following methods:

- Via the Internet, by going to the website <http://eproxyvote.com/btu> and following the instructions for Internet voting on your proxy card;
- If you reside in the United States, Canada or Puerto Rico, by dialing 1-877-PRX-VOTE (1-877-779-8683) and following the instructions for telephone voting on your proxy card;
- By completing and mailing your proxy card; or
- By casting your vote in person at the Annual Meeting.

If you return your signed proxy card or vote by Internet or telephone, your shares will be voted as you indicate. If you return your proxy card but do not indicate your voting preferences, the proxies will vote your shares FOR the election of the Class I Director nominees named in this Proxy Statement.

If your shares are held in a brokerage account in your broker's name (also

Edgar Filing: PEABODY ENERGY CORP - Form DEF 14A

known as "street name"), you should follow the voting directions provided by your broker or nominee. You may complete and mail a voting instruction card to your broker or nominee or, if your broker allows, submit voting instructions by Internet or telephone. If you provide specific voting instructions by mail, telephone or Internet, your broker or nominee will vote your shares as you have directed. Please note that shares in the Peabody Energy Corporation Employee Stock Purchase Plan are held in street name by A. G. Edwards, the plan administrator.

Ballots will be passed out during the Annual Meeting to anyone who wants to vote in person at the meeting. If you hold your shares in street name, you must request a confirmation of beneficial ownership from your broker to vote in person at the meeting.

Q: CAN I CHANGE MY VOTE?

A: Yes. If you are a stockholder of record, you can change your vote or revoke your proxy any time before the Annual Meeting by:

- Submitting a valid, later-dated proxy;
- Notifying the Company's Secretary in writing that you have revoked your proxy; or
- Completing a written ballot at the Annual Meeting.

Q: IS MY VOTE CONFIDENTIAL?

A: Yes. All proxies, ballots and vote tabulations that identify how individual stockholders voted will be kept confidential and not be disclosed to the Company's directors, officers or employees, except in limited circumstances, including (i) when disclosure is mandated by law; (ii) during any contested solicitation of proxies; or (iii) when written comments by a stockholder appear on a proxy card or other voting material.

Q: WHAT WILL HAPPEN IF I DO NOT VOTE MY SHARES?

A: If your shares are held in street name, your broker may vote your shares on those proposals where it has discretion to vote. Brokers and banks are allowed to vote shares held on behalf of beneficial owners who do not provide voting instructions at least ten days before the Annual Meeting, provided such votes relate to matters deemed "routine" by the New York Stock Exchange. The proposal specified in the Notice of Annual Meeting and this Proxy Statement is considered "routine" under New York Stock Exchange rules.

On non-routine matters, brokers and other nominees cannot vote without instructions from the beneficial owner, resulting in so-called "broker non-votes." Broker non-votes have no effect on the outcome of any matters specified in the Notice of Annual Meeting of Stockholders and this Proxy Statement.

Q: HOW WILL MY COMPANY STOCK IN THE PEABODY HOLDING COMPANY, INC. EMPLOYEE RETIREMENT ACCOUNT OR OTHER 401(K) PLANS SPONSORED BY THE COMPANY OR ITS SUBSIDIARIES BE VOTED?

A: The plan trustee, Vanguard Fiduciary Trust Company, will vote your shares in accordance with your instructions if you send in a completed proxy card or vote by telephone or the Internet. The plan trustee will vote allocated shares of Company Common Stock for which it has not received direction, as well as shares not allocated to individual participant accounts, in the same proportion as directed shares are voted.

Edgar Filing: PEABODY ENERGY CORP - Form DEF 14A

Q: HOW MANY SHARES MUST BE PRESENT TO HOLD THE ANNUAL MEETING?

A: Holders of a majority of the shares of outstanding Common Stock as of the record date must be represented in person or by proxy at the Annual Meeting in order to conduct business. This is called a quorum. If you vote, your shares will be part of the quorum. Abstentions, "withhold" votes and broker non-votes also will be counted in determining whether a quorum exists, but will not be counted as votes cast.

2

Q: WHAT VOTE IS REQUIRED TO APPROVE THE PROPOSAL?

A: In the election of directors, the three nominees receiving the highest number of "FOR" votes will be elected.

Q: WHAT DOES IT MEAN IF I RECEIVE MORE THAN ONE PROXY CARD?

A: It means that your shares are held in more than one account at the transfer agent and/or with banks or brokers. Please vote all of your shares.

Q: WHO CAN ATTEND THE ANNUAL MEETING?

A: All Peabody Energy Corporation stockholders as of the close of business on March 15, 2002 may attend the Annual Meeting.

Q: WHAT DO I NEED TO DO TO ATTEND THE ANNUAL MEETING?

A: If you are a stockholder of record or a participant in the Peabody Holding Company, Inc. Employee Retirement Account (or other 401(k) plans sponsored by the Company or its subsidiaries), your admission card is attached to your proxy card or voting instruction form. You will need to bring this admission card with you to the Annual Meeting.

If you own shares in street name, you will need to ask your bank or broker for an admission card in the form of a confirmation of beneficial ownership. You will need to bring a confirmation of beneficial ownership with you to vote at the Annual Meeting. If you do not receive your confirmation of beneficial ownership in time, bring your most recent brokerage statement with you to the Annual Meeting. We can use that to verify your ownership of Common Stock and admit you to the meeting; however, you will not be able to vote your shares at the meeting without a confirmation of beneficial ownership.

Q: WHERE CAN I FIND THE VOTING RESULTS OF THE ANNUAL MEETING?

A: We plan to announce preliminary voting results at the Annual Meeting and to publish final results in our Quarterly Report on SEC Form 10-Q for the Quarter Ended June 30, 2002.

The Audit Committee is comprised solely of independent directors, as required by New York Stock Exchange rules, and operates under a written charter that has been adopted by the entire Board of Directors. A copy of the Audit Committee charter is attached as Exhibit A to this Proxy Statement.

REPORT OF THE AUDIT COMMITTEE

The Audit Committee has reviewed and discussed the Company's audited financial statements for the nine-month period ended December 31, 2001 with management and Ernst & Young LLP, the Company's independent external auditor. Management is responsible for the Company's internal controls, financial reporting processes and financial statements, while Ernst & Young is responsible for expressing an opinion on the Company's financial statements in accordance with generally accepted accounting principles.

The Audit Committee reviewed with Ernst & Young the overall scope and plans for their audit of the Company's financial statements. The Audit Committee also discussed with Ernst & Young matters relating to the quality and acceptability of the Company's accounting principles, as applied in its financial reporting processes, as required by Statement of Auditing Standards (SAS) No. 61 and SAS No. 90. In addition, the Audit Committee reviewed and discussed with Ernst & Young the auditor's independence from management and the Company, as well as the matters included in written disclosures received from Ernst & Young as required by Independence Standards Board Standard No. 1, Independence Discussions with

Edgar Filing: PEABODY ENERGY CORP - Form DEF 14A

Audit Committees. As part of its review, the Audit Committee reviewed fees paid to Ernst & Young and considered whether Ernst & Young's performance of non-audit services for the Company was compatible with the auditor's independence. During the nine-month period ended December 31, 2001, Ernst & Young performed internal audit services in addition to expressing an opinion on the Company's financial statements. The Audit Committee recently decided that the internal audits and external audits would be performed by separate firms as soon as practicable.

7

Based on the reviews and discussions referred to above, the Audit Committee recommended to the Board of Directors that the audited financial statements be included in the Company's Annual Report on Form 10-K for the nine months ended December 31, 2001 for filing with the Securities and Exchange Commission.

MEMBERS OF THE AUDIT COMMITTEE:

WILLIAM C. RUSNACK, CHAIRMAN
BERNARD J. DUROC-DANNER, PhD
JAMES R. SCHLESINGER, PhD

APPOINTMENT OF INDEPENDENT AUDITORS AND FEES

Ernst & Young LLP served as the Company's independent auditors for the nine months ended December 31, 2001 and has been appointed to serve in that capacity again for fiscal 2002. The Board of Directors anticipates that representatives of Ernst & Young will be present at the Annual Meeting to respond to appropriate questions and to make a statement if they so desire.

The following fees were paid to Ernst & Young for services rendered during the nine months ended December 31, 2001:

- Audit Fees: \$529,000 for services rendered for the audit of the Company's financial statements and reviews of SEC Forms 10-Q and 10-K.
- Financial Information Systems Design and Implementation Fees: No fees were paid for services rendered in connection with the design or implementation of hardware or software systems that aggregate source data underlying the financial statements or generate information that is significant to the financial statements taken as a whole.
- All Other Fees: \$1,189,000 for audit related services including financial due diligence procedures associated with registration statements and mergers and acquisitions, internal audit services, litigation support services, and audits of benefit plans; \$996,000 for other services including tax compliance and consulting services and health care advisory services.

COMPENSATION OF DIRECTORS

Directors who are employees of the Company or Lehman Brothers receive no additional pay for serving as directors. Each director who is not an employee of the Company or Lehman Brothers (a "non-employee director") is paid an annual cash retainer of \$30,000. Committee chairpersons receive an additional \$3,500 annual cash retainer. Each non-employee director also receives a fee of \$1,500 for each day that he or she attends Board and/or committee meetings. The Company pays the travel and accommodation expenses of directors to attend meetings and other corporate functions.

Non-employee directors receive options to purchase 1,000 shares of Company Common Stock and a grant of restricted stock valued at \$50,000 when they are

Edgar Filing: PEABODY ENERGY CORP - Form DEF 14A

first elected to the Board of Directors. Non-employee directors also receive annual stock option grants valued at \$25,000 (based on Black-Scholes methodology). The shares subject to the restricted stock awards vest after three years if the recipient continues to serve on the Board of Directors. All non-employee director stock options are granted at an exercise price equal to the fair market value of the Company's Common Stock on the date of grant. These options vest in one-third increments over three years and expire ten years after grant. In the event of a change of control of the Company, any previously unvested options will vest and all restrictions related to the restricted stock awards will lapse.

PENSION BENEFITS

The Company's Salaried Employees Retirement Plan, or pension plan, is a "defined benefit" plan. The pension plan provides a monthly annuity to salaried employees when they retire. A salaried employee must have at least five years of service to be vested in the pension plan. A full benefit is available to a retiree at age 62. A retiree can begin receiving a benefit as early as age 55; however, a 4% reduction factor applies for each year a retiree receives a benefit prior to age 62.

An individual's retirement benefit under the pension plan is equal to the sum of (1) 1.112% of the highest average monthly earnings over 60 consecutive months up to the "covered compensation limit" multiplied by the employee's years of service, not to exceed 35 years, and (2) 1.5% of the average monthly earnings over 60 consecutive months over the "covered compensation limit" multiplied by the employee's years of service, not to exceed 35 years.

12

The Company announced in February 1999 that the pension plan would be phased out beginning January 1, 2001. Certain transition benefits were introduced based on the age and service of the employee at December 31, 2000: (1) employees age 50 or older will continue to accrue service at 100%; (2) employees between the ages of 45 and 49 or under age 45 with 20 years or more of service will accrue service at the rate of 50% for each year of service worked after December 31, 2000; and (3) employees under age 45 with less than 20 years of service will have their pension benefits frozen. In all cases, final average earnings for retirement purposes will be capped at December 31, 2000 levels.

Edgar Filing: PEABODY ENERGY CORP - Form DEF 14A

The estimated annual pension benefits payable upon retirement at age 62, the normal retirement age, for the Chief Executive Officer and the other named executive officers are as follows:

Irl F. Engelhardt.....	\$490,008
Richard M. Whiting.....	264,786
Roger B. Walcott, Jr.	24,663
Richard A. Navarre.....	37,993
Paul H. Vining.....	61,170

The Company has one supplemental defined benefit retirement plan that provides retirement benefits to executives whose pay exceeds legislative limits for qualified defined benefit plans.

EMPLOYMENT AGREEMENTS

The Company has entered into employment agreements with each of the named executive officers and with certain other key executives. The Chief Executive Officer's employment agreement provides for a three-year term that extends day-to-day so that there is at all times a remaining term of three years. Other executives' employment agreements have either one-year or two-year terms which extend day-to-day so that there is at all times a remaining term of one or two years, respectively. Following a termination without cause or resignation for good reason, the Chief Executive Officer is entitled to a lump sum payment equal to three years' base salary and three times the higher of (1) his target annual bonus or (2) the average of the actual annual bonuses paid to him in the three prior years. The Chief Executive Officer is also entitled to a one-time prorated bonus for the year of termination (based on the Company's actual performance multiplied by a fraction, the numerator of which is the number of business days the Chief Executive Officer was employed during the year of termination, and the denominator of which is the total number of business days during that year), payable when bonuses, if any, are paid to other executives. The Chief Executive Officer will also receive qualified and nonqualified pension, life insurance, medical and other benefits for three years. The other key executives are entitled to the following benefits, payable in equal installments over one or two years: (1) one or two times base salary and (2) one or two times the higher of (A) the target annual bonus or (B) the average of the actual annual bonuses paid in the three prior years. In addition, the other executives are entitled to (1) a one-time prorated bonus for the year of termination (based on the Company's actual performance multiplied by a fraction, the numerator of which is the number of business days the executive officer was employed during the year of termination, and the denominator of which is the total number of business days during that year), payable when bonuses, if any, are paid to the Company's other executives, and (2) qualified and nonqualified pension, life insurance, medical and other benefits for the one or two-year period, as applicable, following termination. However, the Company is not obligated to provide any benefits under tax qualified plans that are not permitted by the terms of each plan or by applicable law or that could jeopardize the plan's tax status. Continuing benefit coverage will terminate to the extent an executive (including the Chief Executive Officer) is offered or obtains comparable coverage from any other employer. The employment agreements provide for confidentiality during and following employment, and include a noncompetition and nonsolicitation agreement that is effective during and for one year following employment. If an executive (including the Chief Executive Officer) breaches any of his or her confidentiality, noncompetition or nonsolicitation agreements, the executive will forfeit any unpaid amounts or benefits. To the extent that excise taxes are incurred by an executive (including the Chief Executive Officer) as a result of "excess parachute payments," as defined by

IRS regulations, the Company will pay additional amounts up to \$10 million, in the aggregate, so that executives would be in the same financial condition as if the excise taxes were not incurred.

REPORT OF THE COMPENSATION COMMITTEE

The Compensation Committee is comprised entirely of non-employee directors and has the responsibility for reviewing and approving changes to the Company's executive compensation policies and programs. The Compensation Committee also approves all compensation payments to the Chief Executive Officer and the other named executive officers, including annual and long-term incentive awards.

COMPENSATION PHILOSOPHY

The fundamental objective of the Company's executive compensation program is to attract, retain and motivate key executives to enhance long-term profitability and stockholder value.

The Company's compensation program is based on the following policies and objectives:

- Programs will have a clear link to stockholder value.
- Programs will be designed to support achievement of the Company's business objectives.
- Total compensation opportunities will be established at levels which are competitive with marketplace practices and other pertinent criteria, taking into account such factors as executive performance, level of experience and retention value.
- Variable incentive pay will constitute a significant portion of each executive's compensation.
- Incentive pay will be designed to:
 - Reflect company-wide, business unit and individual performance, based on each individual's position and level; and
 - Incorporate "absolute" (internal) and "relative" (external) performance measures.
- Programs will be communicated so that participants understand how their decisions affect business results and their compensation.

With these policies and objectives in mind, the Compensation Committee has designed a pay structure for the named executive officers that incorporates three key components: base salary, annual incentive payments, and long-term incentive compensation consisting of stock options and performance units.

COMPENSATION PROGRAM COMPETITIVENESS STUDY

Prior to the Company's initial public offering in May 2001, the Compensation Committee commissioned an in-depth compensation analysis conducted by an independent third party to determine whether the Company's executive compensation programs were consistent with those of other publicly held companies of similar size and in a similar industry. The Compensation Committee will continue to periodically review the Company's executive compensation

Edgar Filing: PEABODY ENERGY CORP - Form DEF 14A

programs to ensure that such programs remain competitive and continue to meet their objectives.

ANNUAL BASE SALARY

Based upon the above-referenced study, the Compensation Committee established the base salaries of the Company's executive officers to ensure competitiveness in the marketplace. The Compensation Committee will continue to review the base salaries of the named executive officers to ensure salaries continue to reflect marketplace practices and take into account performance, experience and retention value.

14

ANNUAL INCENTIVE PLAN

The Company's annual incentive compensation plan provides opportunities for key executives to earn annual cash incentive payments tied to the successful achievement of pre-established objectives.

All annual incentive plan participants are assigned threshold, target and maximum incentive percentages. If performance does not meet the threshold level, no incentive is earned. At threshold levels, the incentive that can be earned generally equals 50% of the target incentive. The target incentive represents the level of compensation that is considered to be required to stay competitive with the desired pay position in the market. Target incentive payments generally are received for achieving budgeted financial goals and meeting personal performance goals. Maximum incentive payments generally are received when both budgeted financial and personal performance goals are significantly exceeded. A participant's annual incentive opportunity is based upon his or her level of participation in the incentive plan. The incentive opportunity increases based upon an executive's potential to affect operations or profitability.

Awards for corporate employees, including the Chief Executive Officer, are based on achievement of corporate and individual performance goals. Awards to operating employees are based on achievement of a combination of corporate, business unit (including safety) and individual performance goals. Achievement of corporate performance is determined by comparing the Company's actual performance against objective and subjective performance measures, which are established by the Compensation Committee at the beginning of each calendar year. In 2001, these performance measures for the named executive officers and their relative weightings were as follows:

- 60% -- earnings before interest, taxes, depreciation, and amortization (EBITDA);
- 20% -- return on invested capital (ROIC); and
- 20% -- individual performance.

All award payments to the named executive officers are subject to the review and approval of the Compensation Committee.

2001 INCENTIVE PAYMENTS

For the nine months ended December 31, 2001, the Company awarded annual incentive payments to the Chief Executive Officer and the other four named executive officers, as reflected in the bonus column of the summary compensation table. Other eligible executives were paid under the same annual incentive plan. Annual incentive payouts for 2001 were based on the Company's achievement of 114% of its EBITDA target and 136% of its ROIC target. These cash awards are

Edgar Filing: PEABODY ENERGY CORP - Form DEF 14A

intended to link executive performance, annual performance measures and long-term stockholder value.

LONG-TERM INCENTIVES

The Compensation Committee has determined that a long-term incentive opportunity will be made available to each of the Company's named executive officers through annual awards of stock options and performance units. The targeted value of these awards generally is split equally between stock options and performance units and ranges from 100 to 150% of base salary for each of the named executive officers. The Compensation Committee intends that these long-term incentive opportunities be competitive and based on actual Company performance.

Stock Options

The Company's stock option program is a long-term plan designed to create a direct link between executive compensation and increased stockholder value. The targeted value of annual option awards to the named executive officers is generally 50% of base salary for senior executives and 75% of base salary for the Chief Executive Officer as described above, but awards can deviate from these guidelines at the discretion of the Compensation Committee. The Company uses a Black-Scholes valuation model to establish the value of its stock option grants. The grants are currently made in the form of nonqualified stock options.

15

All stock options are granted at an exercise price equal to the closing price of the Company's Common Stock on the date of grant. Stock options generally vest in one-third increments over a period of three years; however, options will immediately vest upon a change of control of the Company or upon an employee's death, disability or a recapitalization event. Options expire ten years from the date of grant.

Performance Units

Certain key executives are eligible to receive long-term incentive awards in the form of performance units. Performance units awarded in 2001 will be payable in cash, if earned. For units awarded in 2001, the value of the performance units is tied to the relative performance of the Company's Common Stock. The percentage of the performance units earned is based on the Company's total stockholder return (TSR) over a period beginning with the initial public offering and ending December 31, 2003 relative to both an industry comparator group (the Industry Peer Group) and the S&P Industrial Index. TSR measures cumulative stock price appreciation plus dividends. The Industry Peer Group generally is perceived to be subject to similar market conditions and investor reactions as the Company. For this reason, the Industry Peer Group is weighted at 75% while the S&P Industrial Index is weighted at 25%.

Performance payout formulas are as follows:

- Threshold payouts (equal to 50% of the value of the performance units) begin for TSR performance at the 40th percentile of the Industry Peer Group or the 35th percentile of the S&P Industrial Index.
- Target payouts (equal to 100% of the value of the performance units) are based on performance at the 55th percentile of the Industry Peer Group and 50th percentile of the S&P Industrial Index.
- Maximum payouts (equal to 200% of the value of the performance units) are based on performance at the 80th percentile of the Industry Peer

Edgar Filing: PEABODY ENERGY CORP - Form DEF 14A

Group and the 75th percentile of the S&P Industrial Index.

- No payments will be made if TSR is negative and performance is below the 50th percentile of the Industry Peer Group. Also, the maximum payout cannot exceed 150% of the value of the performance units if TSR is negative and performance is above the 50th percentile of the Industry Peer Group.

Performance units are issued at a price that equals the average closing price of the Company's Common Stock during the four weeks of trading immediately following the date of grant. TSR for the Company at the end of the cycle is based on the average closing price during the last four weeks of trading in the performance cycle. Units vest over, and are payable subject to the achievement of performance goals at the conclusion of, the measurement period. Upon a change of control of the Company, a recapitalization event or the executive's death, disability, retirement or termination without cause, payments by the Company will be paid in proportion to the number of vested performance units.

OTHER PLANS

The Company maintains a Deferred Compensation Plan pursuant to which certain executives can defer base, annual incentive and any cash-based long-term incentive compensation. The Company also maintains a defined contribution retirement plan, a defined benefit retirement plan (although the plan is being phased out) and other benefit plans for its employees. Executives participate in these plans on the same terms as other eligible employees, subject to any legal limits on the amount that may be contributed by or paid to executives under the plans. In addition, the Company maintains one excess defined benefit retirement plan and one excess defined contribution plan that provides retirement benefits to executives whose pay exceeds legislative limits for qualified defined benefit plans.

COMPENSATION OF THE CHIEF EXECUTIVE OFFICER

Mr. Engelhardt's base salary is \$725,000. A review of competitive market data conducted in March 2001 supports the competitiveness of this salary.

16

For the nine months ended December 31, 2001, Mr. Engelhardt's maximum incentive opportunity under the Company's annual incentive compensation plan was 175% of his base salary (prorated for the nine-month period ended December 31, 2001 in recognition of the shortened fiscal year) or \$951,563. The maximum incentive opportunity for the other named executive officers was 150% of their base salary (prorated for the nine-month period ended December 31, 2001 in recognition of the shortened fiscal year). Based on Company and individual performance for the nine months ended December 31, 2001, as described above, Mr. Engelhardt was awarded a bonus payout equal to 169% of his nine-month base salary, or \$920,895. In addition, Mr. Engelhardt received a bonus equal to \$350,000 for the successful completion of the Company's initial public offering in May, 2001.

During the nine months ended December 31, 2001, Mr. Engelhardt also received long-term incentive awards consisting of stock options and performance units. These awards were made in accordance with the Compensation Committee's long-term incentive guidelines described above. The specific terms of such awards are outlined in this report under the captions "Long-Term Incentives," "Stock Options" and "Performance Units," and in the Proxy Statement compensation tables.

Lehman Brothers served as the lead underwriter in connection with the initial public offering of Company Common Stock, which was completed in May 2001. Lehman Brothers received customary fees, plus reimbursement of expenses, for those services.

TRANSACTIONS WITH MANAGEMENT

During the fiscal years ended March 31, 1999, 2000 and 2001, some of the Company's executive officers and 18 other employees purchased or were granted shares of Class B Common Stock under the 1998 Stock Purchase and Option Plan for Key Employees. All such Class B shares subsequently converted into Company Common Stock on a one-for-one basis at the time of the Company's initial public offering. In connection with these purchases and grants, the Company, affiliates of Lehman Brothers Holdings and the executives who received Class B Common Stock entered into stockholder agreements providing for certain rights relating to the registration of their shares in connection with certain sales of Company capital stock by affiliates of Lehman Brothers Holdings. The stockholders agreements provide the investors with the right to register and sell their unregistered stock in the event the Company conducts certain types of registered offerings.

Edgar Filing: PEABODY ENERGY CORP - Form DEF 14A

In conjunction with the purchases and grants of Class B Common Stock, the executive officers and employees executed term notes. The term notes related to the grants are due on May 19, 2003 and the term notes executed for purchases were due on February 1, 2006. Subsequently, the term notes executed for purchases were replaced with term notes related to the grants. All of the term notes bear interest at an applicable U.S. federal rate used by the Internal Revenue Service for loans to employees. The maturity of the promissory notes will accelerate upon the occurrence of certain events, including six months following any termination of employment or disposition of the stock.

The following table sets forth certain information regarding the term notes for the Company's executive officers with aggregate indebtedness in excess of \$60,000.

EXHIBIT A

PEABODY ENERGY CORPORATION AUDIT COMMITTEE CHARTER

ORGANIZATION

This charter governs the operations of the audit committee. The committee shall review and reassess the charter at least annually and obtain the approval of the board of directors. The committee shall be appointed by the board of directors and shall comprise at least three directors, each of whom are independent of management. Members of the committee shall be considered independent if they have no relationship that may interfere with the exercise of their independence from management and the Company. All committee members shall be financially literate, or shall become financially literate within a reasonable period of time after appointment to the committee, and at least one member shall have accounting or related financial management expertise.

STATEMENT OF POLICY

The audit committee shall provide assistance to the board of directors in fulfilling their oversight responsibility to the shareholders, potential shareholders, the investment community, and others relating to the Company's financial statements and the financial reporting process, the systems of internal accounting and financial controls, the internal audit function, the annual independent audit of the Company's financial statements, and the legal compliance and ethics programs as established by management and the board. In so doing, it is the responsibility of the committee to maintain free and open communication between the committee, independent outside auditors, the internal auditors and management of the Company. In discharging its oversight role, the committee is empowered to investigate any matter brought to its attention with full access to all books, records, facilities, and personnel of the Company and the power to retain outside counsel, or other experts for this purpose.

RESPONSIBILITIES AND PROCESSES

The primary responsibility of the audit committee is to oversee the Company's financial reporting process on behalf of the board and report the results of their activities to the board. Management is responsible for preparing the Company's financial statements, and the independent outside auditors are responsible for auditing those financial statements. The committee in carrying out its responsibilities believes its policies and procedures should remain flexible, in order to best react to changing conditions and circumstances. The committee should take the appropriate actions to set the overall corporate "tone" for quality financial reporting, sound business risk practices, and ethical behavior.

The following shall be the principal recurring processes of the audit committee in carrying out its oversight responsibilities. The processes are set forth as a guide with the understanding that the committee may supplement them as appropriate.

- The committee shall have a clear understanding with management and the independent outside auditors that the independent outside auditors are ultimately accountable to the board and the audit committee, as representatives of the Company's shareholders. The committee shall have the ultimate authority and responsibility to evaluate and, where

appropriate, replace the independent outside auditors. The committee shall discuss with the auditors their independence from management and the Company and the matters included in the written disclosures required by the Independence Standards Board. Annually, the committee shall review and recommend the firm of independent outside auditors to the board for selection.

- The committee shall discuss with the internal auditors and the independent outside auditors the overall scope and plans for their respective audits including the adequacy of staffing and compensation. Also, the committee shall discuss with management, the internal auditors, and the independent outside

auditors the adequacy and effectiveness of the accounting and financial controls, including the Company's system to monitor and manage business risk, and legal and ethical compliance programs. Further, the committee shall meet separately with the internal auditors and the independent outside auditors, with and without management present, to discuss the results of their examinations.

- The committee shall review the interim financial statements with management and the independent outside auditors prior to the filing of the Company's Quarterly Report on Form 10-Q. Also, the committee shall discuss the results of the quarterly review and any other matters required to be communicated to the committee by the independent outside auditors under generally accepted auditing standards. The chair of the committee may represent the entire committee for the purpose of this review.
- The committee shall review with management and the independent outside auditors the financial statements to be included in the Company's Annual Report on Form 10-K (or the annual report to shareholders if distributed prior to the filing of Form 10-K), including their judgment about the quality, not just acceptability, of accounting principles, the reasonableness of significant judgments, and the clarity of the disclosures in the financial statements. Also, the committee shall discuss the results of the annual audit and any other matters required to be communicated to the committee by the independent outside auditors under generally accepted auditing standards.
