Item 2.02 Results of Operation and Financial Condition.

On January 25, 2006, LSI Logic Corporation (referred to here as "LSI Logic" or the "Company") issued a news release regarding its financial results for the fourth quarter ended December 31, 2005. A copy of the news release is furnished as Exhibit 99.1 to this Form 8-K and is incorporated by reference herein.

Use of Non-GAAP Financial Information

LSI Logic has referenced non-GAAP financial information in the news release. LSI Logic management believes that the results of operations excluding special items presented herein for the three- and 12-month periods ended December 31, 2005 and December 31, 2004, and the three-month period ended October 2, 2005 provide useful information to investors regarding results of operations, as they exclude charges, expenses, gains, and losses that are not directly related to the Company's ongoing business results and/or stem from purchase business combinations. These business results are used by management for evaluating historical performance in addition to being used for the Company's forecasting and planning for future periods. Restructuring of operations, acquisition-related amortization including intangibles and non-cash deferred stock compensation and other special items are examples of charges that are not directly related to the Company's ongoing business results and/or stem from purchase business combinations. For a complete reconciliation of special items excluded from our results of operations for the three- and 12-month periods ended December 31, 2005 and December 31, 2004, and the three-month period ended October 2, 2005, refer to the tables furnished in the news release attached as Exhibit 99.1.

Results of operations excluding special items for the periods presented are provided for illustrative purposes only and should be read in conjunction with the comparable information presented in accordance with generally accepted accounting principles in the United States and the Company's most recent annual report on Form 10-K for the twelve months ended December 31, 2004.

Item 8.01 Other Events.

The Company reported revenues of \$506 million in the fourth quarter of 2005, compared to revenues of \$482 million reported in the third quarter of 2005, and a 21 percent increase compared to the \$420 million reported in the fourth quarter of 2004.

Fourth quarter net income was \$38 million or 9 cents per diluted share. The fourth quarter 2005 results compare to third quarter 2005 net loss of \$73 million or 19 cents per diluted share. The third quarter 2005 net loss was primarily attributable to the \$91 million restructuring charge associated with the planned sale of the Company's Gresham, Oregon manufacturing facility. Fourth quarter 2004 net loss was \$197 million or 51 cents per diluted share, and included a \$178 million non-cash charge for the impairment of the Gresham, Oregon facility.

Cash and short-term investments totaled \$939 million at the end of the fourth quarter of 2005.

The Company recorded 2005 revenues of \$1.92 billion, a 13 percent increase compared to \$1.70 billion in 2004.
