*The information in this prospectus is not complete and may be changed. These securities may not be sold until the registration statement filed with the Securities and Exchange Commission is effective. This prospectus is not an offer to sell these securities and it is not soliciting an offer to buy these securities in any state where the offer or sale is not permitted.*

**Subject to completion, dated April 15, 2005**

**PROSPECTUS**

**ELECTRIC CITY CORP.**

**9,965,334 Shares of Common Stock**

This prospectus relates to up to 9,965,334 shares of our common stock, par value \$0.0001 per share, which may be offered for sale by selling stockholders named in this prospectus. The selling stockholders can sell these shares on any exchange on which the shares are listed, in privately negotiated transactions or by any other legally available means, whenever they decide and at the prices they set. We may issue up to 1,061,875 of these shares upon exercise of common stock warrants issued by the Company held by some of the selling stockholders, 1,904,762 of these shares upon conversion of convertible debt and up to 6,713,200 of these shares are issuable upon conversion of our Series E Convertible Preferred Stock. We will not receive any of the proceeds from the sale of these shares of our Common Stock, but may receive proceeds from the exercise of any of such warrants, but not from the conversion of convertible debt or shares of Series E Preferred Stock.

Our Common Stock is quoted on the American Stock Exchange under the symbol ELC. On April 12, 2005, the closing sale price for shares of our Common Stock was \$0.99 per share.

Our principal executive office is located at 1280 Landmeier Road, Elk Grove Village, Illinois, 60007. Our telephone number at that address is (847) 437-1666. Our web site is located at <http://www.elccorp.com>.

***Investing in our Common Stock involves risks described beginning on page 4.***

***Neither the Securities and Exchange Commission nor any state securities commission has approved or disapproved of these securities or passed upon the adequacy or accuracy of this prospectus. Any representation to the contrary is a criminal offense.***

The date of this prospectus is April 15, 2005.

**ABOUT THIS PROSPECTUS**

This prospectus is a part of a registration statement that we have filed with the Securities and Exchange Commission ( SEC or Commission ) using a shelf registration process. You should rely only on the information provided in this prospectus or any supplement or amendment. We have not authorized anyone else to provide you with additional or different information. You should not assume that the information in this prospectus or any supplement or amendment is accurate as of any date other than the date on the front of this prospectus or any supplement or amendment.

Unless the context otherwise requires, Electric City, the Company, we, our, us and similar expressions refers Electric City Corp. and its subsidiaries, and the term Common Stock means Electric City Corp.'s common stock, par value \$0.0001 per share.

**WHERE YOU CAN FIND MORE INFORMATION**

We file reports, proxy statements and other information with the SEC. Information filed with the SEC by us can be inspected and copied at the public reference room maintained by the SEC at 450 Fifth Street, N.W., Room 1024, Washington, D.C. 20549. You may also obtain copies of this information by mail from the Public Reference Section of the SEC, 450 Fifth Street, N.W., Washington, D.C. 20549, at prescribed rates. Further information on the operation of the SEC's public reference room in Washington, D.C. can be obtained by calling the SEC at 1-800-SEC-0330.

The SEC also maintains a web site that contains reports, proxy statements and other information about issuers, such as us, who file electronically with the SEC. The address of that site is <http://www.sec.gov>.

Our Common Stock is listed on the American Stock Exchange (AMEX: ELC), and reports, proxy statements and other information concerning us can also be inspected at the offices of the American Stock Exchange at 86 Trinity Place, New York, New York 10006. Our web site address is <http://www.elccorp.com>. The information on our web site, however, is not, and should not be deemed to be, a part of this prospectus.

**INCORPORATION OF CERTAIN DOCUMENTS BY REFERENCE**

The rules of the SEC allow us to incorporate by reference information into this prospectus, which means that we can disclose important information to you by referring you to another document filed separately with the SEC. The information incorporated by reference is deemed to be part of this prospectus, and later information that we file with the SEC will automatically update and supersede that information. This prospectus incorporates by reference the documents set forth below that we have previously filed with the SEC. These documents contain important information about us.

our Annual Report on Form 10-K for the year ended December 31, 2004 (filed with the SEC on March 31, 2005);

the amendment to our Annual Report on Form 10-K/A for the year ended December 31, 2004 (filed with the SEC on April 13, 2005);

**Table of Contents**

our preliminary Proxy Statement for the 2005 meeting of stockholders (filed with the SEC on March 31, 2005);

our definitive Proxy Statement for the 2005 meeting of stockholders (filed with the SEC April 15, 2005);

our Form 8-K (filed with the SEC on January 4, 2005);

our Form 8-K (filed with the SEC on March 4, 2005);

our Form 8-K (filed with the SEC on March 8, 2005);

all documents filed by us with the SEC pursuant to Sections 13(a), 13(c), 14 or 15(d) of the Securities Exchange Act after the date of this prospectus and before the termination of the offering.

You may request a free copy of any of the documents incorporated by reference in this prospectus (other than exhibits, unless they are specifically incorporated by reference in the documents) by writing or telephoning us at the following address:

Electric City Corp.  
Attn: Investor Relations  
1280 Landmeier Road  
Elk Grove Village, IL 60007-2410

Telephone: (847) 437-1666

You should rely only on the information provided or incorporated by reference in this prospectus or in the applicable supplement to this prospectus. You should not assume that the information in this prospectus and the applicable supplement is accurate as of any date other than the date on the front cover of the document.

**CAUTIONARY NOTE REGARDING FORWARD-LOOKING STATEMENTS**

This prospectus includes forward-looking statements within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934 that reflect our current expectations and projections about our future results, performance, prospects and opportunities. We have tried to identify these forward-looking statements by using words such as may, will, should, expect, hope, anticipate, believe, intend, plan, similar expressions. These forward-looking statements are based on information currently available to us and are subject to a number of risks, uncertainties and other factors, including the factors set forth under Risk Factors, that could cause our actual results, performance, prospects or opportunities in 2005 and beyond to differ materially from those expressed in, or implied by, these forward-looking statements. These factors include, without limitation, our limited operating history, our history of operating losses, fluctuations in retail electricity rates, our reliance on licensed technologies, customers acceptance of our new and existing products, the risk of increased competition, our ability to successfully integrate acquired businesses, products and technologies, our ability to manage our growth, our need for additional financing and the terms and conditions of any financing that is consummated, the possible volatility of our stock price, the concentration of ownership of our stock and the potential fluctuation in our operating results. Although we believe that the expectations reflected in these forward-looking statements are reasonable and achievable, such statements involve risks and uncertainties and no assurance can be given that the actual results will be consistent with these forward-looking statements. Except as otherwise required by Federal securities laws, we undertake no obligation to publicly update or revise any forward-looking statements,

## **Table of Contents**

whether as a result of new information, future events, changed circumstances or any other reason, after the date of this prospectus.

## **PROSPECTUS SUMMARY**

The following summary is qualified in its entirety by the more detailed information appearing elsewhere in this prospectus.

### **Our Company**

We were organized as Electric City LLC, a Delaware limited liability company, on December 5, 1997. On June 5, 1998 we merged Electric City LLC with and into Electric City Corp., a Delaware corporation. On June 10, 1998, we issued approximately six (6%) percent of our then issued and outstanding Common Stock to the approximately 330 stockholders of Pice Products Corporation ( Pice ), an inactive, unaffiliated company with minimal assets, pursuant to the merger of Pice with and into Electric City. This merger facilitated the establishment of a public trading market for our Common Stock. Trading in our Common Stock commenced on August 14, 1998 through the OTC Bulletin Board under the trading symbol ECCC . Since December 12, 2000, our Common Stock has traded on the American Stock Exchange under the trading symbol ELC .

### **Our Products**

We are a developer, manufacturer and integrator of energy saving technologies and building automation controls as well as an independent developer of scalable, negative power systems. Our premier energy saving product is the EnergySaver system, which reduces energy consumed by lighting, typically by 20% to 30%, with minimal lighting level reduction. This technology has applications in commercial buildings, factories and office structures, as well as street lighting and parking lot lighting. Our GlobalCommander integrates with the EnergySaver allowing us to link multiple EnergySaver units together and to provide remote communications, measurement and verification of energy savings. The combined technology of the EnergySaver and GlobalCommander led to the development of our Virtual Negawatt Power Plan ( VNPP ), which is essentially a negative power system which we market primarily to utilities as a demand response system, although we have not yet recognized any revenue from our VNPP efforts. In addition to our EnergySaver system, we also provide, through our subsidiary, Great Lakes Controlled Energy Corporation ( Great Lakes ), integrated building and environmental control solutions for commercial and industrial facilities. Until June 1, 2003, we also manufactured custom electrical switchgear through Switchboard Apparatus Inc. ( Switchboard ), a wholly owned subsidiary located in Broadview, Illinois. In an effort to refocus our resources and shed the continuing losses from the switchgear business, we sold the operating assets of Switchboard to a group of investors, including the President of Switchboard, effective as of May 31, 2003.

Our EnergySaver product line is manufactured at our facilities in Elk Grove Village, Illinois, with manufacturing and assembly scaled to order demand. Building and environmental control services and solutions provided by Great Lakes are based out of a separate facility also located in Elk Grove Village, Illinois.

Giorgio Reverberi has patented in the United States and Italy certain technologies underlying the EnergySaver products. We have entered into a license agreement and series of agreements with Mr. Reverberi and our founder, Mr. Joseph Marino, relating to the license of the EnergySaver technology in the United States and certain other markets.

**Table of Contents**

We are pursuing a multi-channel marketing and sales distribution strategy to bring our energy saving products to market. Our multi-channel approach includes the use of a direct sales force, distributors and manufacturers representatives.

**The Offering**

|                                 |   |
|---------------------------------|---|
| Securities Offered.             | The selling stockholders are offering up to 9,965,334 shares of our Common Stock.   |
| Terms of the Offering.          | We have agreed to use our best efforts to keep this registration statement effective until all the shares of the selling stockholders registered under this registration statement have been sold or may be sold without volume restrictions pursuant to Rule 144(k) under the Securities Act.      |
| Use of Proceeds.                | We will not receive any of the proceeds from any sale of the shares offered by this prospectus by the selling stockholders. To the extent the selling stockholders exercise their warrants for cash, we intend to use the proceeds we receive from such exercise(s) for general corporate purposes. |
| American Stock Exchange Symbol. | ELC   |

**RISK FACTORS**

We caution you that the following risk factors may not be exhaustive. We operate in a continually changing business environment and may as a result enter into new businesses and product lines. We cannot predict new risk factors that may arise in the future, and we cannot assess the impact, if any, of these new risk factors on our businesses or the extent to which any factor, or combination of factors, may cause actual results to differ materially from those projected in any forward-looking statements. Accordingly, you should not rely on forward-looking statements as a prediction of actual results. In addition, our estimates of future operating results are based on our current complement of businesses, which is constantly subject to change as we continue to assess and refine our business strategy. If any of the following risks actually occur, our business, results of operations, and financial condition could be adversely affected in a material manner and could negatively affect the value of your investment.

**Risks Related to Our Business**

*We have a limited operating history upon which to evaluate our potential for future success.*

We were formed in December 1997. To date, we have generated limited revenues from the sale of our products and do not expect to generate significant revenues until we sell a significantly larger number of our products. Accordingly, we have only a limited operating history upon which you can base an evaluation of our business and prospects. The likelihood of our success must be considered in light of the risks and uncertainties frequently encountered by early stage companies like ours in an evolving market. If we are unsuccessful in addressing these risks and uncertainties, our business will be materially harmed.

**Table of Contents**

***We have incurred significant operating losses since inception and may not achieve or sustain profitability in the future.***

We have experienced operating losses and negative cash flow from operations since our inception and we currently have an accumulated deficit. These factors raise substantial doubt about our ability to continue as a going concern. Our ability to continue as a going concern is ultimately dependent on our ability to obtain additional funding and increase sales to a level that will allow us to operate profitably and sustain positive operating cash flows. We are in the process of negotiating additional funding through the issuance of additional equity and we are continuing our efforts to improve profitability through expansion of our business in both current and new markets. We must overcome significant manufacturing and marketing hurdles to sell large quantities of our products. In addition, we may be required to reduce the prices of our products in order to increase sales. If we reduce product prices, we may not be able to reduce product costs sufficiently to achieve acceptable profit margins. As we strive to grow our business, we expect to spend significant funds (1) for general corporate purposes, including working capital, marketing, recruiting and hiring additional personnel; and (2) for research and development. To the extent that our revenues do not increase as quickly as these costs and expenditures, our results of operations and liquidity will be materially adversely affected. If we experience slower than anticipated revenue growth or if our operating expenses exceed our expectations, we may not achieve profitability. Even if we achieve profitability in the future, we may not be able to sustain it.

***Our independent certified public accountants have issued a going concern opinion raising doubt about our financial viability.***

As a result of our continuing losses and negative cash flows, our independent registered public accounting firm, BDO Seidman, LLP, issued a going concern opinion in connection with their audit of our financial statements for the year ended December 31, 2004. This opinion expressed substantial doubt as to our ability to continue as a going concern. The going concern opinion could have an adverse impact on our ability to execute the business plan, result in the reluctance on the part of certain suppliers to do business with us, or result in the loss of new business due to potential customers' concern about our ability to deliver product.

***A decrease in electric retail rates could lessen demand for our EnergySaver products.***

Our principal products, our EnergySaver products, have the greatest profit potential in areas where commercial electric rates are relatively high. However, retail electric rates for commercial establishments in the United States may not remain at their current levels. Due to a potential overbuilding of power generating stations throughout certain regions of the United States, wholesale power prices may decrease in the future. Because the price of commercial retail electric power is largely attributed to the wholesale cost of power, it is reasonable to expect that commercial retail rates may decrease as well. In addition, much of the wholesale cost of power is directly related to the price of certain fuels, such as natural gas, oil and coal. If the prices of those fuels decrease, the prices of the wholesale cost of power may also decrease. This could result in lower electric retail rates and reduced demand for energy saving devices such as our EnergySaver products.

***We have a license under certain patents and our ability to sell our products may be adversely impacted if the license expires or is terminated.***

We have entered into a license agreement with Messrs. Giorgio Reverberi and Joseph Marino. Mr. Reverberi holds a U.S. patent and has applied for several patents in other countries. Pursuant to the terms of the license, we have been granted the exclusive right to manufacture and sell products containing the load reduction technology claimed under Mr. Reverberi's U.S. patent or any other related patent held by him in the U.S., the remainder of North America, parts of South America and parts of Africa. However, the exclusive rights that we received may not have any value in territories where Mr. Reverberi does not have or does not obtain protectable rights. The term of the license expires

when the last of these patents expires. We expect that these patents will expire or around November 2017. The license agreement may be terminated if we materially breach its terms and fail to cure the breach within 180 days after we are notified of the breach. If our license is terminated it could impact our ability to manufacture, sell or otherwise commercialize products in those countries where Mr. Reverberi holds valid patents relating to our products, including the United States.

**Table of Contents**

***If we are not able to protect our intellectual property rights against infringement or others obtain intellectual property rights relating to energy management technology, we could lose our competitive advantage in the energy management market.***

We regard our intellectual property rights, such as patents, licenses of patents, trademarks, copyrights and trade secrets, as important to our success. Although we entered into confidentiality and rights to inventions agreements with our non-union employees and consultants during March 2001 (and non-union employees hired since March 2001 have also signed these agreements), the steps we have taken to protect our intellectual property rights may not be adequate. Third parties may infringe or misappropriate our intellectual property rights or we may not be able to detect unauthorized use and take appropriate steps to enforce our rights. Failure to take appropriate protective steps could materially adversely affect our competitive advantage in the energy management market. Furthermore, our license to use Mr. Reverberis patents may have little or no value to us if Mr. Reverberis patents are not valid. In addition, patents held by third parties may limit our ability to manufacture, sell or otherwise commercialize products and could result in the assertion of claims of patent infringement against us. If that were to happen, we could try to modify our products to be non-infringing, but we might not be successful or such modifications might not avoid infringing on the intellectual property rights of third parties.

Claims of patent infringement against us, regardless of merit, could result in the expenditure of significant financial and managerial resources by us. We may be forced to seek to enter license agreements with third parties (other than Mr. Reverberis) to resolve claims of infringement by our products of the intellectual property rights of third parties. These licenses may not be available on acceptable terms or at all. The failure to obtain such licenses on acceptable terms could have a negative effect on our business.

***The loss of key personnel may harm our ability to obtain and retain customers, manage our growth and compete effectively.***

Our future success will depend significantly upon the continued contributions of certain members of our senior management, including John P. Mitola, our Chief Executive Officer, because we believe he is critical to obtaining and retaining customers, managing our growth and the future development of our VNPP concept. Our future success will also depend upon our ability to attract and retain highly qualified technical, operating and marketing personnel. We believe that there is intense competition for qualified personnel in the energy management industry. If we cannot hire, train and retain qualified personnel or if a significant number of our current employees depart, we may be unable to successfully manufacture and market our products.

***If we are unable to manage our growth, it will adversely affect our business, the quality of our products and our ability to attract and retain key personnel.***

We are subject to the risks inherent in the expansion and growth of a business enterprise. Growth in our business will place a strain on our operational and administrative resources and increase the level of responsibility for our existing and new management personnel. To manage our growth effectively, we will need to:

further develop and improve our operating, information, accounting, financial and other internal systems and controls on a timely basis;

improve our business development, marketing and sales capabilities; and

expand, train, motivate and manage our employee base.

**Table of Contents**

Our current senior management has limited experience managing a publicly traded company. Our systems currently in place may not be adequate if we continue to grow and may need to be modified and enhanced. The skills of management currently in place may not be adequate if we experience significant growth.

***If our management fails to properly identify companies to acquire and to effectively negotiate the terms of these acquisition transactions, our growth may be impaired.***

As part of our growth strategy we intend to seek to acquire companies with complementary technologies, products and/or services. Our management, including our Board of Directors, will have discretion in identifying and selecting companies to be acquired by us and in structuring and negotiating these acquisitions. In general, our common stockholders may not have the opportunity to approve these acquisitions (The holders of Series E Convertible Preferred Stock have certain rights to approve acquisitions). In addition, in making acquisition decisions, we will rely, in part, on financial projections developed by our management and the management of potential target companies. These projections will be based on assumptions and subjective judgments. The actual operating results of any acquired company or the combination of us and an acquired company may fall significantly short of projections.

We may be unable to acquire companies that we identify for various reasons, including:

our inability to interest such companies in a proposed transaction;

our inability to agree on the terms of an acquisition;

incompatibility between our management and management of a target company; and

our inability to obtain required approvals of the holders of the Series E Convertible Preferred Stock.

If we cannot consummate acquisitions on a timely basis or agree on terms at all, or if we cannot continue to acquire companies with complementary technologies, products and/or services on terms acceptable to us, our future growth may be impaired.

***Our growth may be impaired and our current business may suffer if we do not successfully address risks associated with acquisitions.***

During our limited operating history, we have acquired two companies; Switchboard Apparatus and Great Lakes Controlled Energy, one of which (Switchboard Apparatus) we have subsequently sold and we are currently negotiating the purchase of another company: Maximum Performance Group, Inc. Our future growth may depend, in part, upon our ability to successfully acquire and operate other complementary businesses. We may encounter problems associated with such acquisitions, including the following:

difficulties in integrating acquired operations and products with our existing operations and products;

difficulties in meeting operating expectations for acquired businesses;

diversion of management's attention from other business concerns;

adverse impact on earnings of amortization or write-offs of goodwill and other intangible assets relating to acquisitions; and

issuances of equity securities that may be dilutive to existing stockholders to pay for acquisitions.

***If our EnergySaver products do not achieve or sustain market acceptance, our ability to compete will be adversely affected.***

**Table of Contents**

To date, we have not sold our EnergySaver product line in very large quantities and a sufficient market may not develop for it. Significant marketing will be required in order to establish a sufficient market for the EnergySaver products. The technology underlying these products may not become a preferred technology to address the energy management needs of our customers and potential customers. Failure to successfully develop, manufacture and commercialize products on a timely and cost-effective basis will have a material adverse effect on our ability to compete in the energy management market.

***Failure to meet customers' expectations or deliver expected technical performance could result in losses and negative publicity.***

Customer engagements involve the installation of energy management equipment that we design to help our clients reduce energy/power consumption. We rely on outside contractors to install our EnergySaver products. Any defects in this equipment and/or its installation or any other failure to meet our customers' expectations could result in:

delayed or lost revenues due to adverse customer reaction;

requirements to provide additional products and/or services to a customer at no charge;

negative publicity regarding us and our products, which could adversely affect our ability to attract or retain customers; and

claims for substantial damages against us, regardless of our responsibility for such failure.

***If sufficient additional funding is not available to us, the commercialization of our products and our ability to grow may be hindered.***

Our operations have not generated positive cash flow since the inception of the Company in 1997. We have funded our operations through the issuance of common and preferred stock and secured debt. Our ability to continue to operate until our cash flow turns positive may depend on our ability to continue to raise funds through the issuance of equity or debt. If we are not successful in raising additional funds, we might have to significantly scale back or delay our growth plans, or possibly cease operations altogether. Any reduction or delay in our growth plans could materially adversely affect our ability to compete in the marketplace, take advantage of business opportunities and develop or enhance our products. Our pending acquisition of Maximum Performance Group, Inc. is in part contingent on our raising \$2.4 million in new capital through the issuance of additional debt or equity, which we are currently seeking.

***Raising additional capital or consummation of additional acquisitions through the issuance of equity or equity-linked securities could dilute your ownership interest in us.***

It is likely that we will need to obtain additional funds in the future to grow our product development, manufacturing, marketing and sales activities at the pace that we intend, to continue to fund operating losses until our cash flow turns positive, or to fund acquisitions. If we determine that we do need to raise additional capital in the future and we are not successful in doing so, we might have to significantly scale back or delay our growth plans, reduce staff and delay planned expenditures on research and development and capital expenditures in order to continue as a going concern. Any reduction or delay in our growth plans could materially adversely affect our ability to compete in the marketplace, take advantage of business opportunities and develop or enhance our products.

If we receive additional funds through the issuance of equity securities or convertible debt securities, our existing stockholders will likely experience dilution of their present equity ownership position and voting rights. Depending on the number of shares issued and the terms and conditions of the issuance, new equity securities could have rights, preferences, or privileges senior to those of our common stock.

**Table of Contents**

***Failure to effectively market our energy management products could impair our ability to sell significant quantities of these products.***

One of the challenges we face in commercializing our energy management products is demonstrating the advantages of our products over more traditional products and competitive products. To do this, we will need to further develop our marketing and sales force. In addition to our internal sales force, we rely on third parties to market and sell our products. We currently maintain a number of relationships and have a number of agreements with third parties regarding the marketing and distribution of our EnergySaver products and depend to some degree upon the efforts of these third parties in marketing and selling these products. Maintenance of these relationships is based primarily on an ongoing mutual business opportunity and a good overall working relationship. The current contracts associated with certain of these relationships allow the distributors to terminate the relationship upon 30 days' written notice. Without these relationships, our ability to market and sell our EnergySaver products could be harmed and we may need to divert even more resources to increasing our internal sales force. If we are unable to expand our internal sales force and maintain our third party marketing relationships, our ability to generate significant revenues may be harmed.

The distribution rights we have granted to third parties in specified geographic territories may make it difficult for us to grow our business in such territories if those distributors do not successfully market and support our products in those territories. We have in the past been and may in the future be, involved in disputes with distributors that have distribution rights in specified geographic territories, but are not achieving our goals. During 2000, we repurchased for cash and stock consideration the distribution rights from three distributors that were not meeting our sales goals. We recently settled a dispute with a former distributor to avoid the cost of further litigation. We may have to expend additional funds, incur debt or issue additional securities in the future to repurchase other distribution rights or pursue legal action to enforce our rights under distributor agreements that we have granted or may grant in the future.

***If our Virtual Negawatt Power Plan concept is unsuccessful, distribution of our EnergySaver product line may be impaired and our growth could suffer.***

During 2001, we announced our Virtual Negawatt Power Plan concept. The VNPP is intended to allow a utility to remotely control commercial, industrial and government lighting systems over a managed and secure IP network. It is envisioned that through the use of the EnergySaver/ GlobalCommander system, a utility will be able to reduce electric demand requirements during periods of peak demand, providing nearly instantaneous control, measurement and verification of load reduction. The successful implementation of the VNPP concept could significantly increase the sales and profitability of our EnergySaver product line. In 2003, we announced an agreement with Commonwealth Edison to implement a 50-Megawatt VNPP system in northern Illinois. A VNPP agreement was executed with ComEd during the third quarter of 2003 and we began installing product under the program in late 2003, but we have not yet recognized revenue under this program.

While we have made progress in implementing this program with ComEd, we still have a number of hurdles to clear related to this program. Also, if we fail to recruit enough customers to participate in the program we may not be able to deliver 50MW of demand curtailment, which would result in less revenue from the program than we expect. If our attempts to advance the VNPP concept are unsuccessful, our plans to significantly increase the distribution of our EnergySaver product line may not develop and our growth may be impaired.

## **Table of Contents**

***If we do not successfully compete with others in the very competitive energy management market, we may not achieve profitability.***

In the energy management market, we compete with other manufacturers of traditional energy management products that are currently used by our potential customers. Many of these companies have substantially greater financial resources, larger research and development staffs and greater manufacturing and marketing capabilities than us. Our competitors may provide energy management products at lower prices and/or with superior performance. If we are unable to successfully compete with conventional and new technologies our business may be materially harmed.

***Product liability claims could result in losses and could divert our management's time and resources.***

The manufacture and sale of our products creates a risk of product liability claims. Any product liability claims, with or without merit, could result in costly litigation and reduced sales, cause us to incur significant expenses and divert our management's time, attention and resources. We do have product liability insurance coverage; however, there is no assurance that such insurance is adequate to cover all potential claims. The successful assertion of any large claim against us could materially harm our liquidity and operating results.

***Our current internal manufacturing capacity is limited and if demand for our products increases significantly and we are unable to increase our capacity quickly and efficiently our business could suffer.***

Our EnergySaver products are manufactured at our facilities. To be financially successful, we must manufacture our products, including our EnergySaver products, in substantial quantities, at acceptable costs and on a timely basis. While we have produced approximately 1,200 EnergySaver units over the past six years, we have never approached what we believe is our production capacity. To produce larger quantities of our EnergySaver products at competitive prices and on a timely basis, we will have to further develop our processing, production control, assembly, testing and quality assurance capabilities. We also intend to hire contract manufacturers and outsource the manufacturing of some or all of our products. We have had discussions with several potential contract manufacturers and they have produced units on a trial basis, but their ability to deliver significant quantities of product in a timely manner is still unproven. We may be unable to manufacture our EnergySaver products in sufficient volume and may incur substantial costs and expenses in connection with manufacturing larger quantities of our EnergySaver products. If we are unable to make the transition to large-scale commercial production successfully, our business will be negatively affected. We could encounter substantial difficulties if we decide to outsource the manufacturing of our products, including delays in manufacturing and poor production quality.

## **Risks Related to this Offering**

***Due to the current market price of our common stock, in conjunction with the fact that we are a relatively small company with a history of operating losses, the future trading market for our stock may not be active on a consistent basis, which may make it difficult for you to sell your shares.***

The trading volume of our stock in the future will depend in part on our ability to increase our revenue and reduce or eliminate our operating losses, which should increase the attractiveness of our stock as an investment, thereby leading to a more liquid market for our stock on a consistent basis. If an

**Table of Contents**

active and liquid trading market does not exist for our common stock, you may have difficulty selling your shares.

***The need to raise additional capital will most likely be dilutive to our current stockholders and could result in new investors receiving rights that are superior to those of existing stockholders.***

Since September 2001, we have issued shares of our preferred stock that are currently convertible into 22,475,200 shares of our common stock (including shares issued as dividends). These shares of preferred stock are currently accruing dividends at the rate of 6% per year, though prior to March 22, 2004 they were accruing at the rate of 10% per year. To date we have issued shares of convertible preferred stock in satisfaction of accrued dividends convertible into 7,016,510 shares of Common Stock. The preferred stockholders all have rights that are superior to the rights of our common stockholders, including:

- § a liquidation preference of \$200 per share (under our Series E Preferred which was issued on March 22, 2004 in a 1 for 10 exchange for the outstanding Series A, C and D Preferred shares. See Liquidity and Capital Resources.);
- § special approval rights in respect of certain actions by the Company, including any issuance of shares of capital stock by the Company that would have the right to receive dividends or the right to participate in any distribution upon liquidation which was senior to or equal to the rights of the Series E Preferred (other than to pay dividends on the preferred and under certain other limited exceptions such as conversion of outstanding convertible securities) and any acquisition, sale, merger, joint venture, consolidation or reorganization involving the Company or any of its subsidiaries;
- § a conversion price that may be below the market price of our common stock;
- § the right to elect up to four directors;
- § the right to vote with the holders of common stock on an as converted basis on all matters on which holders of our common stock are entitled to vote, except with respect to the election of directors or as otherwise provided by law;
- § a right of first offer on the sale of equity by the Company in a private transaction; and
- § anti-dilution protection that would adjust the conversion price on their preferred shares and the exercise price on their warrants in the event we issue equity at a price which is less than the conversion price or exercise price of their securities.

These rights associated with our preferred stock are substantially different than the rights of our common stockholders and may materially decrease the value of our common stock.

***Due to the concentration of holdings of our stock, three investors may be able to control matters requiring stockholder approval or could cause our stock price to decline through future sales because they beneficially own a large percentage of our common stock.***

There are 41,828,310 shares of our common stock outstanding as of April 13, 2005, of which Joseph C. Marino beneficially owns approximately 18%, Richard Kiphart beneficially owns approximately 19% and Security Benefit beneficially owns approximately 18% (each of the aforementioned percentages includes stock options and warrants that are currently exercisable and in the case of Mr. Kiphart include stock issuable upon conversion of Series E Convertible Preferred Stock). As a result of their significant ownership, Mr. Marino, Mr. Kiphart and Security Benefit may have the ability to exercise a controlling influence over our business and corporate actions requiring stockholder

approval, including the election of our directors (other than those directors to be chosen by the holders of our preferred stock), a sale of substantially all of our assets, a merger between us and another entity or an amendment to our certificate of incorporation. This concentration of ownership could delay, defer or prevent a change of control and could adversely affect the price investors might be willing to pay in the

**Table of Contents**

future for shares of our common stock. Also, in the event of a sale of our business, Mr. Marino and Mr. Kiphart and Security Benefit could elect to receive a control premium to the exclusion of other stockholders.

A significant percentage of the outstanding shares of our common stock, including the shares beneficially owned by Mr. Marino, Mr. Kiphart or Security Benefit, can be sold in the public market from time to time, subject to limitations imposed by Federal securities laws, and in the case of Mr. Kiphart, by trading agreements entered into with us. The market price of our common stock could decline as a result of sales of a large number of our presently outstanding shares of common stock by Mr. Marino, Mr. Kiphart, Security Benefit or other stockholders in the public market or due to the perception that these sales could occur. This could also make it more difficult for us to raise funds through future offerings of our equity securities.

***Provisions of our charter and by-laws, in particular our blank check preferred stock, could discourage an acquisition of our company that would benefit our stockholders.***

Provisions of our charter and by-laws may make it more difficult for a third party to acquire control of our company, even if a change in control would benefit our stockholders. In particular, shares of our preferred stock have been issued and may be issued in the future without further stockholder approval and upon those terms and conditions, and having those rights, privileges and preferences, as our Board of Directors may determine. The rights of the holders of our common stock will be subject to, and may be adversely affected by, the rights of the holders of any of our preferred stock which is currently outstanding or which may be issued in the future. The issuance of our preferred stock, while providing desirable flexibility in pursuing possible additional equity financings and other corporate purposes, could have the effect of making it more difficult for a third party to acquire control of us. This could limit the price that certain investors might be willing to pay in the future for shares of our common stock and discourage these investors from acquiring a majority of our common stock. In addition, the price that future investors may be willing to pay for our common stock may be lower due to the conversion price and exercise price granted to investors in any such private financing.

**USE OF PROCEEDS**

We will not receive any of the proceeds from any sale of the shares offered by this prospectus by the selling stockholders. If and when the selling stockholders exercise their common stock warrants, we may receive up to \$1,299,125 from the issuance of shares of Common Stock to those selling stockholders. Under such warrants, the selling stockholders have exercise prices ranging from \$1.00 to \$2.10 per common share. Some of the selling stockholders' common stock warrants contain cashless exercise options, which permit the holder to surrender a portion of the shares issuable upon exercise of the warrant as payment of the exercise price. To the extent the holder of the warrant elects the cashless exercise option the cash received by us and the number of shares issued upon exercise of the warrant will be reduced. Shares of Series E Preferred are convertible into our Common Stock at no additional cost to the holders thereof. Any cash received as a result of the exercise of any of the warrants will be used by the Company for general corporate purposes.

**Table of Contents**

**PLAN OF DISTRIBUTION**

We have agreed to register for public resale shares of our Common Stock which have been issued to the selling stockholders or may be issued in the future to selling stockholders upon the exercise of warrants or conversion of the convertible debt or the Series E Preferred shares. We have agreed to use our best efforts to keep this registration statement effective until all the shares of the selling stockholders registered hereunder have been sold or may be sold without volume restrictions pursuant to Rule 144(k) under the Securities Act. The aggregate proceeds to the selling stockholders from the sale of shares offered pursuant to this prospectus will be the prices at which such securities are sold, less any commissions. The selling stockholders may choose to not sell any or all of the shares of our Common Stock offered pursuant to this prospectus.

The selling stockholders may, from time to time, sell all or a portion of the shares of our Common Stock at fixed prices, at market prices prevailing at the time of sale, at prices related to such market prices or at negotiated prices. The selling stockholders may offer their shares of our Common Stock at various times in one or more of the following transactions:

on any national securities exchange or market on which our Common Stock may be listed at the time of sale;

in an over-the counter market in which the shares are traded;

through block trades in which the broker or dealer so engaged will attempt to sell the shares as agent, but may purchase and resell a portion of the block as principal to facilitate the transaction;

through purchases by a broker or dealer as principal and resale by such broker or dealer for its account pursuant to this prospectus;

in ordinary brokerage transactions and transactions in which the broker solicits purchasers;

through options, swaps or derivatives;

in privately negotiated transactions;

in transactions to cover short sales; and

through a combination of any such methods of sale.

The selling stockholders may also sell their shares of our Common Stock in accordance with Rule 144 under the Securities Act, rather than pursuant to this prospectus.

The selling stockholders may sell their shares of our Common Stock directly to purchasers or may use brokers, dealers, underwriters or agents to sell such shares. In effecting sales, brokers and dealers engaged by the selling stockholders may arrange for other brokers or dealers to participate. Brokers or dealers may receive commissions, discounts or concessions from a selling stockholder or, if any such broker-dealer acts as agent for the purchaser of such shares, from a purchaser, in amounts to be negotiated. Such compensation may, but is not expected to, exceed that which is customary for the types of transactions involved. Broker-dealers may agree with a selling stockholder to sell a specified number of such shares at a stipulated price per share, and, to the extent a broker-dealer is unable to do so acting as agent for a selling stockholder, to purchase as principal any unsold shares at the price required to fulfill the broker-dealer commitment to the selling stockholder. Broker-dealers who acquire shares as principal may thereafter resell such shares from time to time in transactions which may involve block transactions and sales to and through other broker-dealers, including transactions of the nature described above, in the

**Table of Contents**

over-the-counter market or otherwise, at prices and on terms then prevailing at the time of sale, at prices then related to the then-current market price or in negotiated transactions. In connection with such resales, broker-dealers may pay to or receive from the purchasers of such shares commissions as described above.

From time to time the selling stockholders may engage in short sales, short sales against the box, puts, calls and other hedging transactions in our securities, and may sell and deliver their shares of our Common Stock in connection with such transactions or in settlement of securities loans. These transactions may be entered into with broker-dealers or other financial institutions. In addition, from time to time a selling stockholder may pledge its shares pursuant to the margin provisions of its customer agreements with its broker-dealer. Upon default by a selling stockholder, the broker-dealer or financial institution may offer and sell such pledged shares from time to time.

The selling stockholders and any broker-dealer participating in the distribution of the shares of Common Stock may be deemed to be underwriters within the meaning of the Securities Act, and any commissions paid, or any discounts or concessions allowed to any such broker-dealer may be deemed to be underwriting commissions or discounts under the Securities Act. At the time a particular offering of the shares of Common Stock is made, a prospectus supplement, if required, will be distributed which will set forth the aggregate amount of shares of Common Stock being offered and the terms of the offering, including the name or names of any broker-dealers or agents, any discounts, commissions and other terms constituting compensation from the selling stockholders and any discounts, commissions or concessions allowed or reallocated or paid to broker-dealers.

Under the securities laws of some states, the shares of Common Stock may be sold in such states only through registered or licensed brokers or dealers. In addition, in most states the shares of Common Stock may not be sold unless such shares have been registered or qualified for sale in such state or an exemption from registration or qualification is available and is complied with.

There can be no assurance that any selling stockholders will sell any or all of the shares of Common Stock registered pursuant to the registration statement of which this prospectus forms a part.

The selling stockholders and any other person participating in such distribution will be subject to applicable provisions of the Exchange Act and the rules and regulations thereunder, including, without limitation, Regulation M of the Exchange Act, which may limit the timing of purchases and sales of any of the shares of Common Stock by the selling stockholders and any other participating person.

Regulation M may also restrict the ability of any person engaged in the distribution of the shares of Common Stock to engage in market-making activities with respect to the shares of Common Stock. All of the foregoing may affect the marketability of the shares of Common Stock and the ability of any person or entity to engage in market-making activities with respect to the shares of Common Stock.

A portion of the shares of Common Stock which are being registered hereunder may be issued upon exercise of warrants which we have issued to the selling stockholders. This prospectus does not cover the sale or transfer of any such warrants. If the selling stockholders transfer any of those warrants prior to exercise thereof, the transferee(s) may not sell the shares of Common Stock issuable upon exercise of such warrants under the terms of this prospectus unless we first amend or supplement this prospectus to cover such shares and such sellers.

We are required to pay all fees and expenses incident to the registration of the shares of our Common Stock offered hereby (other than broker-dealer discounts and commissions) which we estimate to be \$12,208 in total, including, without limitation, Securities and Exchange Commission filing fees, expenses of compliance with state securities or blue sky laws, legal fees and transfer agent fees relating

**Table of Contents**

to sales pursuant to this prospectus; provided, however, that the selling stockholders will pay all underwriting discounts and selling commissions, if any. We have agreed to indemnify the selling stockholders against certain losses, claims, damages and liabilities, including liabilities under the Securities Act of 1933, as amended.

Once sold under the registration statement of which this prospectus forms a part, the shares of Common Stock will be freely tradable in the hands of persons other than our affiliates.

**Table of Contents****SELLING STOCKHOLDERS**

The shares of Common Stock being offered by the selling stockholders represent 9,965,334 shares that have been issued or are issuable upon exercise of warrants owned by the selling stockholders or upon conversion of shares of Series E Convertible Preferred Stock into Common Stock. We are registering the shares of Common Stock so that the selling stockholders may offer the shares for resale from time to time, subject to the terms of specific stock trading agreements to which certain selling stockholders are parties. In addition, securities which have been acquired directly from the Company in a transaction not involving any public offering are usually considered restricted securities. The sale of restricted securities is generally restricted by the Securities Act of 1933, as amended. Rule 144 under the Securities Act of 1933 provides certain conditions under which restricted securities may be sold. During any 90 day period the sale of restricted securities by those shareholders who are deemed to be affiliates of the Company is limited by Rule 144, to the greater of one percent (1%) of the outstanding shares of the Company's Common Stock, or the average weekly trading volume of the Company's Common Stock during the preceding four week period. The term affiliate is defined in Rule 144 as a person that directly or indirectly controls, is controlled by, or is under common control with, the issuer. In addition, for any sale by a shareholder who is deemed to be an affiliate of the Company, the restricted securities must have been held by the selling stockholder for at least one year and they must be sold in brokers' transactions (as defined in Rule 144). The foregoing trading restrictions of Rule 144 continue to apply to affiliates for a period of three months following the date on which the shareholder no longer is considered an affiliate of the Company. Richard Kiphart is a holder of at least 10% of our Common Stock and may be considered an affiliate by reason of holding such shares, as well as by reason of his being able to elect one of the four directors which the Series E Preferred holders may elect. In addition, Delano Group Securities and Switchboard Distribution are each considered affiliates by virtue of the seats their principal owners occupy on the Company's Board of Directors, and are subject to such limitations. All of the shares of Common Stock being offered are restricted securities, but for those selling stockholders which are not affiliates of the Company, Rule 144 permits sales after the restricted securities have been held for one year, subject to certain restrictions. Rule 144(k) permits sales without such restrictions if the securities have been held two years or more and the seller is not and has not been an affiliate for at least three months. Once the registration statement of which this prospectus forms a part is declared effective, the selling stockholders will be able to sell the shares covered hereby without complying with Rule 144, provided that the current prospectus is delivered as required by SEC rules and the Securities Act of 1933.

In addition to the trading restriction of Rule 144, the owners of a majority of the shares being registered herein are parties to various trading agreements which are generally more restrictive than the restrictions imposed by Rule 144 by limiting the amount of shares they may sell in any publicly traded transaction on any given day and within certain longer periods of time. The trading restrictions imposed by Rule 144 and the trading agreements with respect to sales in publicly traded transactions do not transfer to a buyer of the securities being offered.

The table below lists the selling stockholders and other information regarding the beneficial ownership of the Common Stock by each of the selling stockholders. The first column lists, for each selling stockholder, the number of shares of Common Stock held by such stockholder including shares issuable (pursuant to warrants or conversion of Series E Preferred Stock) to such stockholder. The second column lists the shares of Common Stock (including shares issued or issuable upon exercise of warrants or conversion of Series E Preferred Stock) being offered by this prospectus by each selling stockholder. The column titled Ownership After Offering assumes the sale of all of the shares offered by each selling stockholder, although each selling stockholder may sell all, some or none of his or its shares in this offering.

**Table of Contents**

| Selling Stockholder                     | Ownership Prior to Offering |         | Securities Being Offered | Ownership After Offering |         |

- (11) Includes 563,594 shares of Common Stock, 8,142,500 shares of Common Stock issuable upon conversion of 81,425 shares of Series E Convertible Preferred Stock and 1,127,928 shares of Common Stock issuable upon exercise of warrants.
- (12) Includes 772,100 shares of Common Stock issuable upon conversion of 7,721 shares of Series E Convertible Preferred Stock.
- (13) Laurus Master Fund Ltd. ( Laurus ) holds notes that are convertible into 2,274,756 shares of Common Stock and warrants to purchase 420,000 shares of Common Stock. These notes and warrants contain provisions known as exercise caps which prohibit the holder of the notes and warrants (and its affiliates) from converting such notes or exercising such warrants to the extent that giving effect to such conversion or exercise, such holder would beneficially own in excess of 4.99% of the Company's outstanding Common Stock. The holder can waive the 4.99% limit, but such waiver will not become effective until the 76th day after such notice is delivered to the Company. These limits will not restrict the number of shares of Common Stock which a holder may receive or beneficially own in order to determine the amount of securities or other consideration that such holder may receive in the event of a merger or other business combination or reclassification involving the Company. The figures set forth above as the ownership prior to the offering and the ownership after the offering reflect the operation of such exercise caps in that we have not included 501,351 shares of Common Stock issuable pursuant to such convertible notes and warrants as Laurus has advised us that it does not beneficially own such shares due to the fact that it cannot exercise its right to receive these shares at this time. In the absence of such caps, Laurus would have the right to receive all the shares issuable upon conversion of the notes and exercise of the warrants and would have a beneficial ownership percentage of 6.061%.
- (14) Includes 1,904,762 issuable upon conversion of convertible debt and interest thereon (see below for a description of these securities).
- (15) Includes 183,222 shares of Common Stock, 1,843,700 shares of Common Stock issuable upon conversion of 18,437 shares of Series E Convertible Preferred Stock and 421,875 shares of Common Stock issuable upon exercise of warrants.
- (16) Includes warrants to purchase 100,000 shares of Common Stock.
- (17) Includes 40,108 shares of Common Stock and 1,750,100 shares of Common Stock issuable upon conversion of 17,501 shares of Series E Convertible Preferred Stock.

**Table of Contents**

- (18) Mr. Michael Stelter is the president and primary owner for Switchboard Distribution. Mr. Stelter has been a director of the Company since June 1998.
- (19) Includes 1,044,252 shares of Common Stock and 65,000 shares of Common Stock issuable upon exercise of warrants.
- (20) Includes 65,000 shares of Common Stock issuable upon exercise of warrants.
- (21) Includes 175,000 shares of Common Stock issuable upon exercise of warrants.
- (22) Mr. Valentine has been a director of the Company since May 2004.
- (23) Includes 133,300 shares of Common Stock issuable upon conversion of 1,333 shares of Series E Convertible Preferred Stock and 75,000 shares of Common Stock issuable upon exercise of options.
- (24) Includes 133,300 shares of Common Stock issuable upon conversion of 1,333 shares of Series E Convertible Preferred Stock.
- (25) Party to stock trading agreement, which among other things, places restrictions on the number of shares the holder can sell publicly at any given time and from time to time under certain conditions, until September 7, 2007.
- (26) Includes warrants to purchase 100,000 shares of Common Stock

**Description of Convertible Notes**

The Company has a credit facility with Laurus Master Fund, Ltd. which initially included a \$1,000,000 convertible term loan and a \$2,000,000 convertible revolving line of credit. The revolving credit facility provides for borrowings of up to the lesser of (i) \$2 million or (ii) 90% of the Company's eligible accounts receivable. The revolving credit facility had an initial term of two years, but on August 31, 2004 the maturity date on the facility was extended to September 1, 2006. The revolving credit facility accrues interest on outstanding balances at the rate of prime (5.75% as of April 13, 2005) plus 1.75%. Laurus had the option to convert all or a portion of the advances under any secured convertible revolving note into shares of the Company's common stock at any time, subject to certain limitations, at an initial fixed conversion price of \$2.12 per share.

On February 28, 2005, the Company and Laurus entered into an amendment to the revolving credit facility which among other things permits the Company to borrow an amount in excess of the amount supported by the borrowing base (an Overadvance), up to the \$2 million limit of the facility, and reduced the fixed conversion price on the revolving credit line to \$1.05 per share. The Company may remain in the Overadvance position until January 1, 2006 (the Overadvance Period). Prior to the end of the Overadvance Period the Company can repay the Overadvance in cash at 125% of the principal amount. The Overadvance Period will be extended on a month to month basis if the average closing price of the Company's stock for the five last trading days of the prior month are greater than or equal to \$1.16 (110% of the fixed conversion price). If the Overadvance Period is not extended, the Company will be required to repay the Overadvance at 100% of the principal amount at the end of the Overadvance Period. If at any time after the date the shares underlying the revolving credit facility are registered and the average closing price of the Company's common stock for an eleven day period exceeds \$1.21 per share (115% of the fixed conversion price), Laurus will be required to convert to common stock the lesser of the outstanding balance of revolving credit line or 25% of the average aggregate dollar weighted trading

## **Table of Contents**

volume of the Company's common stock for the eleven days prior to the conversion (a Mandatory Conversion). Only one Mandatory Conversion can be effected in any 22 day period.

The Term Loan had an initial term of two years and was scheduled to amortize at the rate of \$50,000 per month beginning February 1, 2004, if not offset by the conversion of all or a portion of the loan prior to the due date of the amortization payment. On August 31, 2004, in exchange for reducing the conversion price on the Term Loan to \$1.64 per share the maturity date for the Term Loan was extended to September 1, 2006 and the amortization schedule was modified to defer the first principal payment to February 1, 2005 and reduce the monthly payments to \$35,000 per month, with a final payment of \$11,790 due on September 1, 2006, if not offset by the conversion of all or a portion of the loan prior to the due date of the amortization payment. The Term Loan accrues interest at the greater of prime (5.75% as of April 13, 2005) plus 1.75%, or 6%, and is payable monthly in arrears. The Company has the option of paying scheduled interest and principal, or prepaying all or a portion of the Term Loan with shares of its common stock at the fixed conversion price of \$1.64 per share, provided that the closing price of the common stock is greater than \$1.89 per share for the 11 trading days immediately preceding the payment date and that the shares are registered with the Securities and Exchange Commission. Laurus also has the option to convert all or a portion of the Term Loan into shares of the Company's common stock at any time, subject to certain limitations, at a fixed conversion price of \$1.64 per share. The Term Loan is secured by a blanket lien on all of the Company's assets, except for its real estate. The outstanding balance on the Term Loan as of April 13, 2005 was \$571,790.

## **LEGAL MATTERS**

Certain legal matters in connection with the shares of Common Stock offered hereby will be passed upon for Electric City by Schwartz, Cooper, Greenberger & Krauss, Chtd. of Chicago, Illinois.

## **EXPERTS**

The financial statements and schedule incorporated by reference in this Prospectus and in the Registration Statement have been audited by BDO Seidman, LLP, an independent registered public accounting firm, to the extent and for the periods set forth in their report (which contains an explanatory paragraph regarding the company's ability to continue as a going concern) incorporated by reference herein and in the Registration Statement, and are incorporated in reliance upon such report given upon the authority of said firm as experts in auditing and accounting.

## **MATERIAL CHANGE**

On March 4, 2005, the Company signed a letter of intent to acquire all the outstanding stock of Maximum Performance Group (MPG), Inc. for up to \$7.5 million in total consideration in the form of cash and common stock. The letter of intent contains several contingencies including completion of definitive purchase documents and a requirement that Electric City complete a private placement of securities to fund the cash portion of the purchase price and provide working capital to the combined entity. The Company anticipates closing on the acquisition during the second quarter of 2005.

MPG is a technology based, provider of energy and asset management products and services. It currently manufactures and markets its eMAC<sup>™</sup> line of controllers for HVAC and lighting applications and its Maximum Performance Software for coordination and control of central cooling plants. The eMAC<sup>™</sup> line of controllers provide intelligent control and continuous monitoring of HVAC and lighting equipment via wireless paging technology to reduce energy usage and improve system reliability. If we are successful in closing the acquisition with MPG, we intend to incorporate the eMAC<sup>™</sup> line of controllers into our VNPP program in order to curtail air conditioning

demand during peak demand periods. MPG has offices in College Point, NY and San Diego, CA.

**Table of Contents****INFORMATION NOT REQUIRED IN PROSPECTUS****Item 14. Other Expenses Of Issuance And Distribution.**

The following table sets forth the costs and expenses payable by the registrant in connection with the sale of the Common Stock being registered. All of the amounts shown are estimates except the Securities and Exchange Commission (the Commission) registration fee.

**Item 15. Indemnification of Directors and Officers**

Subsection (a) of Section 145 of the Delaware General Corporation Law empowers a corporation to indemnify any person who was or is threatened to be made a party to any threatened, pending or completed action, suit or proceeding, whether civil, criminal, administrative or investigative (other than an action by or in the right of the corporation) by reason of the fact that he or she is or was a director, officer, employee or agent of the corporation, or is or was serving at the request of the corporation as a director, officer, employee or agent of another corporation, partnership, joint venture, trust or other enterprise, against expenses (including attorneys' fees), judgments, fines and amounts paid in settlement actually and reasonably incurred by him or her in connection with such action, suit or proceeding if he or she acted in good faith and in a manner he or she reasonably believed to be in or not opposed to the best interests of the corporation, and, with respect to any criminal action or proceeding, had no reasonable cause to believe his or her conduct was unlawful.

Subsection (b) of Section 145 empowers a corporation to indemnify any person who was or is a party or is threatened to be made a party to any threatened, pending or completed action or suit by or in the right of the corporation to procure a judgment in its favor by reason of the fact that he or she is or was a director, officer, employee or agent of the corporation, or is or was serving at the request of the corporation as a director, officer, employee or agent of another corporation, partnership, joint venture, trust or other enterprise, against expenses (including attorneys' fees) actually and reasonably incurred by him or her in connection with the defense or settlement of such action or suit if he or she acted in good faith and in a manner he or she reasonably believed to be in or not opposed to the best interests of the corporation and except that no indemnification shall be made in respect of any claim, issue or matter as to which such person shall have been adjudged to be liable to the corporation unless and only to the extent that the Court of Chancery or the court in which such action or suit was brought shall determine upon application that, despite the adjudication of liability but in view of all of the circumstances of the case, such person is fairly and reasonably entitled to indemnity for such expenses which the Court of Chancery or such other court shall deem proper.

Section 145 further provides that to the extent a director or officer of a corporation has been successful in the defense of any action, suit or proceeding referred to in subsection (a) and (b) or in the defense of any claim, issue or matter therein, he or she shall be indemnified against expenses (including attorneys' fees) actually and reasonably

incurred by him or her in connection therewith; that the

II-1

---

**Table of Contents**

indemnification provided by Section 145 shall not be deemed exclusive of any other rights to which the indemnified party may be entitled; and that the scope of indemnification extends to directors, officers, employees, or agents of a constituent corporation absorbed in a consolidation or merger and persons serving in that capacity at the request of the constituent corporation for another. Section 145 also empowers a corporation to purchase and maintain insurance on behalf of a director or officer of the corporation against any liability asserted against him or her or incurred by him or her in any such capacity or arising out of his or her status as such whether or not the corporation would have the power to indemnify him or her against such liabilities under Section 145.

Article VIII of Electric City's By-laws specifies that Electric City shall indemnify its directors, officers, employees and agents to the full extent that such right of indemnity is permitted by law. This provision of the By-laws is deemed to be a contract between Electric City and each director and officer who serves in such capacity at any time while such provision and the relevant provisions of the Delaware General Corporation Law are in effect, and any repeal or modification thereof shall not offset any right to indemnification in respect of action, suit or proceeding theretofore or thereafter brought or threatened based in whole or in part upon any such state of facts. The amendment or repeal of such provision of the By-Laws may be effected by the affirmative vote of the holders of a majority in interest of all outstanding capital stock of Electric City entitled to vote, in person or by proxy, at any annual or special meeting in which a quorum is present. The By-Laws may also be amended, adopted or repealed in whole or in part by actions of the majority of the whole board of directors. In certain circumstances, 75% of the voting power of all outstanding shares of the Series E Convertible Preferred Stock of Electric City is also required to approve any amendment of the By-Laws.

Electric City has executed indemnification agreements with certain officers pursuant to which Electric City has agreed to indemnify such parties to the full extent permitted by law, subject to certain exceptions, if they become subject to an action because of serving as a director, officer, employee, agent or fiduciary of Electric City.

Section 102(b)(7) of the Delaware General Corporation Law enables a corporation in its certificate of incorporation to limit the personal liability of members of its board of directors for violation of a director's fiduciary duty of care. This section does not, however, limit the liability of a director for breaching his or her duty of loyalty, failing to act in good faith, engaging in intentional misconduct or knowingly violating a law, authorizing unlawful payments of dividends or unlawful redemptions or stock purchases as contemplated by Section 174 of Delaware General Corporation Law, or from any transaction in which the director derived an improper personal benefit. This section also will have no effect on claims arising under the federal securities laws.

Electric City's Certificate of Incorporation, as amended, limits the liability of its directors as authorized by Section 102(b)(7). The affirmative vote of the holders of a majority of the voting power of all outstanding shares of the capital stock of Electric City, and, in certain circumstances, 75% of the voting power of all outstanding shares of the Series E Convertible Preferred Stock of Electric City, is required to amend such provisions.

Electric City has obtained liability insurance for the benefit of its directors and officers which provides coverage for losses of directors and officers for liabilities arising out of claims against such persons acting as directors or officers of Electric City (or any subsidiary thereof) due to any breach of duty, neglect, error, misstatement, misleading statement, omission or act done by such directors and officers, except as prohibited by law.

\* Filed herewith

(1) Incorporated herein by reference to Electric City Corp's registration statement on Form S-3 filed March 18, 2005 (No. 333-123437)

**Item 17. Undertakings**

(a) The undersigned registrant hereby will

(1) File, during any period in which it offers or sells securities, a post-effective amendment to this registration statement to:

- (i) Include any prospectus required by Section 10(a)(3) of the Securities Act;
- (ii) Reflect in the prospectus any facts or events which, individually or together, represent a fundamental change in the information in the registration statement. Notwithstanding the foregoing, any increase or decrease in volume of securities offered (if the total dollar value of securities offered would not exceed that which was registered) and any deviation from the low or high end of the estimated maximum offering range may be reflected in the form of prospectus filed with the Commission pursuant to Rule 424(b) if, in the aggregate, the changes in volume and price represent no more than 20 percent change in the maximum aggregate offering price set forth in the Calculation of Registration Fee table in the effective registration statement; and

(iii) Include any additional or changed material information on the plan of distribution; provided, however, that paragraphs (i) and (ii) do not apply if the information required to be included in a post-effective amendment thereby is contained in periodic reports filed by the registrant pursuant to Section 13 or Section 15(d) of the Securities Exchange Act that are incorporated by reference in the registration statement.

(2) For determining liability under the Securities Act, treat each such post-effective amendment as a new registration statement of securities offered, and the offering of the securities at that time shall be deemed to be the initial bona fide offering; and

**Table of Contents**

(3) File a post-effective amendment to remove from registration any of the securities that remain unsold at the termination of the offering.

(b) The undersigned registrant undertakes that, for purposes of determining any liability under the Securities Act, each filing of the Company's annual report pursuant to Section 13(a) or Section 15(d) of the Exchange Act (and, where applicable, each filing of an employee benefit plan's annual report pursuant to Section 15(d) of the Exchange Act) that is incorporated by reference in the registration statement shall be deemed to be a new registration statement relating to the securities offered therein, and the offering of such securities at that time shall be deemed to be the initial bona fide offering thereof.

(c) Insofar as indemnification for liabilities arising under the Securities Act may be permitted to directors, officers and controlling persons of the registrant pursuant to the foregoing provisions, or otherwise, the registrant has been advised that in the opinion of the Securities and Exchange Commission such indemnification is against public policy as expressed in such Securities Act and is, therefore, unenforceable. In the event a claim against the registrant for indemnification against such liabilities (other than the payment by the registrant of expenses incurred or paid by a director, officer or controlling person of the registrant in the successful defense of any action, suit or proceeding) is asserted by such director, officer or controlling person in connection with the securities being registered, the registrant will, unless in the opinion of its counsel the matter has been settled by controlling precedent, submit to a court of appropriate jurisdiction the question whether such indemnification by it is against public policy as expressed in the Securities Act and will be governed by the final adjudication of such issue.
