Item 2.02 Results of Operations and Financial Condition

On March 27, 2007, Accenture issued a press release announcing financial results for its second quarter of fiscal year 2007, which fiscal quarter ended on February 28, 2007 .

A copy of the press release is attached hereto as Exhibit 99.1. All information in the press release is furnished but not filed.

Non-GAAP Financial Information

In the attached press release Accenture discloses the following non-GAAP financial measures:

Free cash flow (defined as operating cash flow net of property and equipment additions). Accenture's management believes that this information provides meaningful additional information regarding the company's liquidity.

Percentage changes in revenues before reimbursements on a local currency basis. Accenture's management believes that information regarding changes in its revenues before reimbursements (net revenues) that excludes the effect of fluctuations in foreign currency exchange rates facilitates meaningful comparison of its revenues before reimbursements between periods.

Information regarding expenses, income, provision for income taxes and earnings per share for the three and six months ended February 28, 2006 that reflects adjustments relating to benefits from reductions in reorganization liabilities that were established in connection with Accenture's transition to a corporation structure. Accenture's management believes that because these benefits are not reflective of operations, this information enhances understanding of the company's operating performance.

Information regarding gross margin, sales and marketing and general and administrative expenses, income, provision for income taxes and earnings per share for the three and six months ended February 28, 2006 that reflects the net impact of the National Health Service (NHS) provision recorded in the second quarter of fiscal 2006. Accenture's management believes that this information facilitates an understanding of the impact of this matter on Accenture's operating results and provides an additional meaningful comparison between periods.

Reconciliations of these non-GAAP financial measures to the most directly comparable financial measures calculated and presented in accordance with GAAP are included in the press release. While Accenture's management believes that this non-GAAP financial information is useful in evaluating Accenture's operations, this information should be considered as supplemental in nature and not as a substitute for the related financial information prepared in accordance with GAAP.
