404,400 Shares

Common Stock

This prospectus relates to resales of up to 404,400 shares of our common stock, par value \$.01 per share, by the selling stockholders listed in this prospectus starting on page 33.

Subject to the terms and conditions of the underwriting agreement described in this prospectus, Wedbush Morgan Securities has agreed as underwriter to purchase from Ralph Bartel, our Chief Executive Officer, 350,000 shares of common stock owned by him. Such shares are being sold pursuant to this prospectus in blocks of not more than 1,000 and not less than 100 shares. In connection with such underwriting arrangements, Mr. Bartel has agreed to issue to Wedbush Morgan Securities a warrant to purchase up to 30,000 additional shares of our common stock at a purchase price equal to 120% of the price to the public hereunder. The shares offered hereby include the shares issuable upon exercise of that warrant. Wedbush Morgan Securities is not purchasing the shares of common stock offered by selling stockholders other than Mr. Bartel. See Plan of Distribution Underwriting beginning on page 37.

The selling stockholders other than Ralph Bartel or their transferees may sell their shares of common stock from time to time in accordance with the plan of distribution described in this prospectus. See Plan of Distribution Selling Stockholders Other than Mr. Bartel beginning on page 38.

Our shares are included in the OTC Bulletin Board under the symbol TVZO. On October 20, 2003, the last reported sale price of our common stock was \$7.00 per share. We have submitted an application for listing on the NASDAQ SmallCap Market under the symbol TZOO. This offering is intended primarily to allow Travelzoo to satisfy the requirement for listing on the NASDAQ SmallCap Market that we have 300 round lot holders of our common stock. A qualifying round lot holder is a stockholder who owns at least 100 shares of Travelzoo stock. There can be no assurance that we will satisfy all of the other requirements for listing on the NASDAQ SmallCap Market or that our shares will be listed on the NASDAQ SmallCap Market upon consummation of this offering or ever. See Risk Factors beginning on page 6.

Investing in these securities involves risks. You should carefully consider the risk factors beginning on page 6 of this prospectus before purchasing the common stock.

	Per Share	Total
Price to the public (1)	\$ 3.25	\$1,137,500
Underwriting discount (1)	.23	79,625
Proceeds to the selling stockholder (1)(2)(3)	3.02	1,057,875

- (1) This refers only to the shares covered by the underwriting agreement with Wedbush Morgan Securities which are held by Ralph Bartel. The shares of the other selling stockholders may be sold at varying prices from time to time, as described under Plan of Distribution.
- (2) Ralph Bartel has granted Wedbush Morgan Securities an option for 45 days to purchase up to an additional 52,500 shares of common stock held by Mr. Bartel at the public offering price per share, less the underwriting discount, solely to cover overallotments. If such option is exercised in full, the total proceeds to the selling stockholder will be \$1,216,556. See Plan of Distribution Underwriting.
- (3) We intend to pay the expenses of the offering, which are estimated to be \$265,000.

Neither the Securities and Exchange Commission nor any state securities commission has approved or disapproved of these securities or passed upon the adequacy or accuracy of this prospectus. Any representation to the contrary is a criminal offense.

The date of this prospectus is October 27, 2003.

To facilitate this offering, the Underwriter may engage in transactions that stabilize, maintain or otherwise affect the market price of our common stock, including overallocating shares of our common stock in connection with this offering and bidding for and purchasing shares of our common stock at a level above that which might otherwise prevail in the open market. Such stabilizing, if commenced, may be discontinued at any time. See Plan of Distribution -- Underwriting.

SUMMARY

This summary highlights selected information contained elsewhere in this prospectus. This summary does not contain all of the information you should consider before making an investment decision. You should read the entire prospectus carefully, including Risk Factors beginning on page 6, before making an investment decision.

TRAVELZOO INC.

Overview

We are an Internet media company that publishes online advertisements of sales and specials for hundreds of travel companies. We provide airlines, hotels, cruise lines, vacation packagers, and other travel companies with a fast, flexible, and cost-effective way to reach millions of potential consumers. While our products provide advertising opportunities for travel companies, they also provide Internet users with a free source of information on current sales and specials from hundreds of travel companies.

Our products include the *Travelzoo* website, the *Travelzoo Top 20* e-mail newsletter, and the *Weekend.com* e-mail newsletter. Our *Travelzoo* website at <http://www.travelzoo.com> lists sales and specials from approximately 200 travel companies and reaches 5.1 million Internet users per month. Our *Travelzoo Top 20* is a free weekly e-mail newsletter that highlights attractive sales and specials from selected travel companies. As of September 30, 2003, the *Travelzoo Top 20* newsletter had 5,482,000 subscribers. Our *Weekend.com* newsletter is a free weekly e-mail newsletter that features ideas and travel opportunities for weekends. We launched this product in November 2002 and as of September 30, 2003, it had 1,585,000 subscribers.

More than 200 companies purchase our advertising services, including American Airlines, American Express, Alamo Rent-A-Car, Avis Rent-A-Car, British Airways, Carnival Cruise Lines, Liberty Travel, Delta Air Lines, Expedia, Fairmont Hotels & Resorts, Hilton Hotels, JetBlue Airways, Marriott Hotels, Park Place Entertainment, Southwest Airlines, Starwood Hotels & Resorts Worldwide, Royal Caribbean, United Airlines, and US Airways.

Our revenues are generated from advertising sales. Our revenues have grown rapidly since we began operations in 1998, primarily driven by an increasing number of travel companies listing their sales and specials on the *Travelzoo* website and in the *Travelzoo Top 20* newsletter. For the year ended December 31, 2002, revenues were \$9.8 million compared to \$6.1 million in 2001, an increase of 60%. Net income for 2002 was \$853,071 versus \$363,735 in the prior year. For the six months ended June 30, 2003, revenues increased 92% to \$8.0 million compared to \$4.2 million for the same period last year. For the six months ended June 30, 2003, net income increased to \$981,010 from \$281,620 for the same period last year, an increase of 248%. For the year ended December 31, 2002, our two largest clients accounted for 15% and 14% of our revenues. In the six months ended June 30, 2003, we acquired 1,472,000 new subscribers for our *Travelzoo Top 20* newsletter in addition to the 2,385,000 new subscribers we acquired in 2002.

Our Industry

According to the Newspaper Association of America, travel companies spent \$1.4 billion in 2002 on national advertising in newspapers. We believe that newspapers are currently the main medium for travel companies to advertise their sales and specials. However, we believe that travel companies will increase their spending on Internet advertising of sales and specials due to the following factors: first, market research shows that the Internet has become consumers' preferred information source for travel; second, Internet advertising provides travel companies advantages compared to print advertising such as real-time listings, real-time updates, and performance tracking; third, the Internet allows travel companies to advertise their sales and specials in a fast, flexible, and cost-effective manner that has not been possible before; and fourth, we believe that many travel suppliers prefer to sell their travel services directly to consumers, as an alternative to distribution through travel agents.

1

Competitive Strengths

We have developed our company to be a leader in the field of online advertising for travel companies. We provide travel companies with the following key features:

- *Real-Time Listings of Special Offers.* Our technology allows travel companies to advertise new special offers on a real-time basis.

Edgar Filing: TRAVELZOO INC - Form 424B4

- *Real-Time Updates.* Our technology allows travel companies to update their listings on a real-time basis.
- *Real-Time Performance Reports.* We provide travel companies with real-time tracking of the performance of their advertising campaigns. Our solution enables travel companies to optimize their campaigns by removing or updating unsuccessful listings and further promoting successful listings.
- *Access to Millions of Consumers.* We provide travel companies fast access to millions of travel shoppers.
- *National Reach.* We offer travel companies access to Internet users across the U.S.

Furthermore, our products and services provide consumers information on current special offers with the following key features:

- *Aggregation of Offers from Many Companies.* Our *Travelzoo* website and our *Travelzoo Top 20* e-mail newsletter aggregate information on current special offers from approximately 200 travel companies. This saves the consumer time when searching for travel sales and specials.
- *Current Information.* Compared to newspaper ads, we provide consumers with more current information, since our technology enables travel companies to update their listings on a real-time basis.
- *Search Tools.* We provide consumers with the ability to search for specific special offers.

Growth Strategy

Our objective is to become the largest online publisher of sales and specials for travel companies. Key elements of our strategy include:

- *Build Strong Brand Awareness.* We believe that it is essential to establish a strong brand with Internet users and within the travel industry. We currently utilize an online marketing program to promote our brands to Internet users. In addition, we believe that we build brand awareness by product excellence that is promoted by word-of-mouth. We utilize sponsorships at industry conferences and public relations to promote our brands within the travel industry.
- *Increase Reach.* In order to attract more users to our products, we intend to expand our advertising campaigns as our business grows. We believe that we can also attract more users by product excellence that is promoted by word-of-mouth.
- *Maintain Quality User Base.* We believe that, in addition to increasing our reach, we need to maintain the quality of our user base by producing high quality content.
- *Increase Number of Advertising Clients.* We intend to continue to grow our advertising client base by expanding the size of our sales force.
- *Provide Excellent Service.* We believe it is important to provide our advertising clients with excellent service in terms of the development and placement of their advertisements.

Corporate Information

Our principal business office is located at 590 Madison Avenue, 21st Floor, New York, New York 10022 and our telephone number is (212) 521-4200. Our website is <http://www.travelzoo.com>. Additionally, we have offices in Chicago, Miami, and Mountain View (California). Our local presence in these regions allows us to better source and publish information on travel specials which are relevant to each regional market. In addition, these regional offices provide local proximity for our sales force to better service advertisers.

Common Stock Ownership and Netsurfer Shares

Travelzoo was originally incorporated as Travelzoo.com Corporation (Travelzoo Bahamas) in the Commonwealth of The Bahamas. In a Netsurfer Stockholder offering, Travelzoo Bahamas issued approximately 2.6 million shares of its common stock to approximately 700,000 visitors who registered on the *Travelzoo* website. No cash payments were required or received for any of the stock issued pursuant to the Netsurfer Stockholder offering. The number of shares issued was doubled as a result of a subsequent two-for-one stock split. In a series of transactions completed in 2002, Travelzoo Bahamas was merged into Travelzoo Inc., a Delaware corporation, and each share of Travelzoo Bahamas was converted into the right to receive one share of common stock of Travelzoo Inc. As of September 30, 2003, 129,664 former stockholders of Travelzoo Bahamas have taken the steps necessary to receive their shares in Travelzoo Inc., and 7,157,932 shares of common stock have been issued. If all former stockholders of Travelzoo Bahamas accept their shares in Travelzoo Inc., an additional 4,137,942 shares of common stock will be issued. These shares are reported as outstanding in our financial statements.

RISK FACTORS

You should carefully consider the risks described below and all other information contained in this prospectus before making an investment decision. If any of the following risks, or other risks and uncertainties that are not yet identified or that we currently think are immaterial, actually occur, our business, financial condition and results of operations could be materially and adversely affected. In that event, the trading price of our shares could decline, and you may lose part or all of your investment.

Risks Related to Our Financial Condition and Business Model

Our limited operating history makes our business difficult to evaluate.

We were incorporated and began generating revenues in May 1998. Accordingly, we have only a limited operating history for you to consider in evaluating our business. As a young company, we face risks and uncertainties relating to our ability to successfully implement our business plan. You must consider the risks, expenses and uncertainties which can materially affect the business of an early stage company like ours. These risks include uncertainty whether we will be able to:

- increase awareness of the *Travelzoo* brand;
- attract and retain additional travel companies to list their special offers with us;
- attract additional Internet users to the *Travelzoo* website;
- increase the functionality of our products and services;
- maintain our current business relationships and develop new ones;
- respond effectively to competitive pressures; and
- continue to develop and upgrade our technology.

Our limited operating history makes our business difficult to evaluate.

6

We cannot assure you that we will sustain profitability.

Although we have been profitable in the past, there is no assurance that we will continue to be profitable. We forecast our future expense levels based on our operating plans and our estimates of future revenues. We may find it necessary to accelerate expenditures relating to our sales and marketing efforts or otherwise increase our financial commitment to creating and maintaining brand awareness among travel companies and Internet users. If our revenues grow at a slower rate than we anticipate, or if our spending levels exceed our expectations or cannot be adjusted to reflect slower revenue growth, we may not generate sufficient revenues to sustain profitability. In this case, the value of Travelzoo's shares could be reduced.

Fluctuations in our operating results may negatively impact our stock price.

Our quarterly operating results may fluctuate significantly in the future due to a variety of factors that could affect our revenues or our expenses in any particular quarter. You should not rely on quarter-to-quarter comparisons of our results of operations as an indication of future performance. Factors that may affect our quarterly results include:

- mismatches between resource allocation and client demand due to difficulties in predicting client demand in a new market;
- changes in general economic conditions that could affect marketing efforts generally and online marketing efforts in particular;
- the magnitude and timing of marketing initiatives;
- the maintenance and development of our strategic relationships;
- the introduction, development, timing, competitive pricing and market acceptance of our products and services and those of our competitors;
- our ability to attract and retain key personnel;
- our ability to manage our anticipated growth and expansion;

6

- our ability to attract traffic to our website; and
- technical difficulties or system downtime affecting the Internet generally or the operation of our products and services specifically.

In addition, we plan to significantly increase our operating expenses to expand our sales and marketing, and production departments. If revenues fall below our expectations in any quarter and we are unable to quickly reduce our spending in response, our operating results would be lower than expected and our stock price may fall.

In addition, we are required under generally accepted accounting principles to review our intangible assets for impairment when events or changes in circumstances indicate the carrying value may not be recoverable. We may be required to record a significant expense or charge to earnings in our financial statements in the period any impairment of intangible assets is determined.

We depend on two clients for a substantial part of our revenues.

In the six months ended June 30, 2003, two clients accounted for 13% and 10%, respectively, of our revenues. In the fiscal year ended December 31, 2002, two clients accounted for 15% and 14%, respectively, of our revenues. The loss of one client or both clients may result in a significant decrease in our revenues and results of operations, which could have a material adverse effect on our business.

Our business model is unproven and may not be adaptable to a changing market.

Our current revenue model depends on advertising fees from travel companies using our products. If current clients decide not to continue advertising their sales and specials with us and we are unable to replace them with new clients, our business may be adversely affected. To be successful, we must provide online marketing solutions that achieve broad market acceptance by travel companies. In addition, we must attract sufficient Internet users with attractive demographic characteristics to our products. It is possible that we will be required to further adapt our business model in response to changes in the online advertising market or if our current business model is not successful. If we are not able to anticipate changes in the online advertising market or if our business model is not successful, our business could be materially adversely affected, which could reduce the value of your shares.

We may not be able to obtain sufficient funds to grow our business and any additional financing may be on terms adverse to your interests.

We intend to continue to grow our business, and intend to fund our current operations and our anticipated growth from the cash flow generated from our operations and our retained earnings. However, these sources may not be sufficient to meet our needs. We may not be able to obtain additional financing on commercially reasonable terms, or at all.

We depend on two clients for a substantial part of our revenues.

If additional financing is not available when required or is not available on acceptable terms, we may be unable to fund our expansion, successfully promote our brand name, develop or enhance our products and services, take advantage of business opportunities or respond to competitive pressures, any of which could have a material adverse effect on our business and the value of your shares.

If we choose to raise additional funds through the issuance of equity securities, you may experience significant dilution of your ownership interest, and holders of the additional equity securities may have rights senior to those of the holders of our common stock. If we obtain additional financing by issuing debt securities, the terms of these securities could restrict or prevent us from paying dividends and could limit our flexibility in making business decisions.

Our business may be sensitive to recessions.

The demand for online advertising may be linked to the level of economic activity and employment in the U.S. and abroad. Specifically, our business is dependent on the spending of travel companies. The current recession has decreased consumer travel and caused travel companies to reduce or postpone their marketing spending generally, and their online marketing spending in particular. If the current economic downturn continues or worsens in the U.S. or abroad, our business and financial condition could be materially adversely affected, which could reduce the value of your shares.

7

We may face significant costs with respect to the delivery of paper copies of reports to our stockholders.

The Securities Exchange Act of 1934 requires us to provide paper copies of certain reports to our stockholders who do not consent to receiving electronic delivery. If a significant number of our stockholders do not consent to electronic delivery of stockholder communications or revoke such consent, we may face significant costs related to the printing and mailing of such reports. These costs may drain our resources and may have a material adverse effect on our business and the value of our shares.

Risks Related to Our Markets and Strategy

The Internet is not a proven marketing medium.

The future of our business is dependent on the ongoing acceptance by travel companies of the Internet as an effective marketing tool, and on the ongoing acceptance by consumers of the Internet as a source for information on offers from travel companies. The adoption of online marketing by travel companies, particularly among those that have historically relied upon traditional advertising methods, requires the acceptance of a new way of conducting business, marketing and advertising. Many of our potential clients have little or no experience using the Internet as a marketing tool, and not all Internet users have experience using the Internet to look for travel offers. As a result, we cannot be sure that we will be able to effectively compete with traditional advertising methods. If we are unable to compete with traditional advertising methods, our business and results of operations could be materially adversely affected.

We may experience reduced visitor traffic, reduced revenue and harm to our reputation in the event of unexpected network interruptions caused by system failures.

Our servers and software must be able to accommodate a high volume of traffic. Any substantial increase in demands on our servers will require us to expand and adapt our network infrastructure. If we are unable to add additional software and hardware to accommodate increased demand, we could experience unanticipated system disruptions and slower response times. Any catastrophic failure at our co-location facility could prevent us from serving our web traffic for up to several days, and any failure of our Internet service provider may adversely affect our network's performance. Our clients may become dissatisfied by any system failure that interrupts our ability to provide our products and services to them or results in slower response times. We do not maintain business interruption insurance. Any system failure, including network, software or hardware failure, that causes an interruption in the delivery of our products and services or a decrease in responsiveness of our services could result in reduced revenue and could materially adversely affect our reputation and brand.

We may not be able to develop awareness of our brand name.

We believe that continuing to build awareness of the *Travelzoo* and the *Weekend.com* brand names is critical to achieving widespread acceptance of our business. Brand recognition is a key differentiating factor among providers of online advertising opportunities, and we believe it could become more important as competition in our industry increases. In order to maintain and build brand awareness, we must succeed in our marketing efforts, provide high quality service and increase the number of Internet users with favorable demographics using *Travelzoo* and *Weekend.com*. If we fail to successfully promote and maintain our brands, incur significant expenses in promoting our brands and fail to generate a corresponding increase in revenue as a result of our branding efforts, or encounter legal obstacles which prevent our continued use of our brand names, our business and the value of your shares could be materially adversely affected.

We may not be able to develop awareness of our brand name.

The adoption of legislation regarding the use of pop-up or pop-under ads or the adoption of filter software could adversely affect our business.

As part of our strategy, we currently utilize an online marketing program, including the use of pop-up and pop-under advertisements, to promote our brands to Internet users and sign up subscribers for

8

our e-mail newsletters. To date, governmental regulations have not materially restricted the use of such online marketing. However, the legal and regulatory environment that pertains to the Internet is uncertain and may change. In addition, if filter software programs that limit or prevent advertising from being delivered to an Internet user's computer are widely adopted, our online marketing programs, and in turn our business, could be materially adversely affected.

Our business may be sensitive to events affecting the travel industry in general.

Events like the war with Iraq or the terrorist attacks on the United States in 2001 have a negative impact on the travel industry. We are not in a position to evaluate the net effect of these circumstances on our business. In the longer term, our business might be negatively affected by financial pressures on the travel industry. If the events result in a long-term negative impact on the travel industry, such impact could have a material adverse effect on our business and the value of your shares.

We will not be able to attract travel companies or Internet users if we do not continually enhance and develop the content and features of our products and services.

To remain competitive, we must continually improve the responsiveness, functionality and features of our products and services. We may not succeed in developing features, functions, products or services that travel companies and Internet users find attractive. This could reduce the number of travel companies and Internet users using our products and materially adversely affect our business and the value of your shares.

We may lose business if we fail to keep pace with rapidly changing technologies and clients' needs.

Our success is dependent on our ability to develop new and enhanced software, services and related products to meet rapidly evolving technological requirements for online advertising. Our current technology may not meet the future technical requirements of travel companies. Trends that could have a critical impact on our success include:

- rapidly changing technology in online advertising;
- evolving industry standards, including both formal and de facto standards relating to online advertising;
- developments and changes relating to the Internet;
- competing products and services that offer increased functionality; and
- changes in travel company and Internet user requirements.

If we are unable to timely and successfully develop and introduce new products and enhancements to existing products in response to our industry's changing technological requirements, our business and the value of your shares could be materially adversely affected.

Our business and growth will suffer if we are unable to hire and retain highly skilled personnel.

Our future success depends on our ability to attract, train, motivate and retain highly skilled employees. We may be unable to retain our skilled employees or attract, assimilate and retain other highly skilled employees in the future. We have from time to time in the past experienced, and we expect to continue to experience in the future, difficulty in hiring and retaining highly skilled employees with appropriate qualifications. If we are unable to hire and retain skilled personnel, our growth may be restricted, which could adversely affect our future success and the value of your shares.

We may not be able to effectively manage our expanding operations.

We have recently experienced a period of rapid growth. In order to execute our business plan, we must continue to grow significantly. As of September 30, 2003, we had 37 employees. We expect that the number of our employees will continue to increase for the foreseeable future. This growth has placed, and our anticipated future growth combined with the requirements we face as a public company will continue to place, a significant strain on our management, systems and resources. We expect that we will need to

9

We may not be able to effectively manage our expanding operations.

9

continue to improve our financial and managerial controls and reporting systems and procedures. We will also need to continue to expand and maintain close coordination among our technical, accounting, finance and sales and marketing departments. We may not succeed in these efforts. Our inability to expand our operations in an efficient manner could cause our expenses to grow disproportionately to revenues, our revenues to decline or grow more slowly than expected and otherwise have a material adverse effect on our business and the value of your shares.

Intense competition may adversely affect our ability to achieve or maintain market share and operate profitably.

We compete with large Internet portal sites, such as About.com, America Online, Lycos, MSN and Yahoo!, that offer listings or other advertising opportunities for travel companies. These companies have significantly greater financial, technical, marketing and other resources and larger client bases than we do. In addition, we compete with newspapers, magazines and other traditional media companies that provide online advertising opportunities. We expect to face additional competition as other established and emerging companies, including print media companies, enter the online advertising market.

We believe that there will be rapid business consolidation in the online advertising industry. Accordingly, new competitors may emerge and rapidly acquire significant market share. The development of competing technologies by market participants or the emergence of new industry standards may also adversely affect our competitive position. Competition could result in reduced margins on our services, loss of market share or less use of *Travelzoo* by travel companies and consumers. If we are not able to compete effectively with current or future competitors as a result of these and other factors, our business could be materially adversely affected.

Loss of any of our key management personnel could negatively impact our business.

Our future success depends to a significant extent on the continued service and coordination of our management team, particularly Ralph Bartel, our Chairman, President, Chief Executive Officer, Chief Financial Officer and Secretary. The loss or departure of any of our officers or key employees could materially adversely affect our ability to implement our business plan. We do not maintain key person life insurance for any member of our management team. In addition, we expect new members to join our management team in the future. These individuals will not previously have worked together and will be required to become integrated into our management team. If our key management personnel are not able to work together effectively or successfully, our business could be materially adversely affected.

We may not be able to access third-party technology upon which we depend.

We use technology and software products from third parties including Microsoft. Technology from our current or other vendors may not continue to be available to us on commercially reasonable terms, or at all. Our business will suffer if we are unable to access this technology, to gain access to additional products or to integrate new technology with our existing systems. This could cause delays in our development and introduction of new services and related products or enhancements of existing products until equivalent or replacement technology can be accessed, if available, or developed internally, if feasible. If we experience these delays, our business and the value of your shares could be materially adversely affected.

Risks Related to the Market for our Shares

We cannot be sure that an active market for our shares will develop or be maintained in the future.

On August 28, 2002, our shares commenced trading on the OTC Bulletin Board. However, there has been only limited trading in the shares since that time, at widely varying prices, and the trading to date has not resulted in an active market for our shares. We cannot assure you that an active market for our shares will be established or maintained in the future. If such market is not established or maintained, stockholders will not be able to readily sell their shares.

We cannot be sure that our application for listing on the NASDAQ SmallCap Market will be approved.

We have submitted an application for listing on the NASDAQ SmallCap Market under the symbol TZOO. Even if we meet the requirement for 300 round lot holders of our common stock upon consummation of this offering, we would still need to meet the remaining NASDAQ SmallCap Market listing requirements, including our common stock having a minimum bid price of \$4.00 per share. There can be no assurance that our shares will be listed on the NASDAQ SmallCap Market upon consummation of this offering or ever. In the event our shares are not listed on the NASDAQ SmallCap Market, our shares will continue to trade on the OTC Bulletin Board.

We are controlled by a principal stockholder.

Ralph Bartel, who founded Travelzoo and who is our Chairman of the Board, President, Chief Executive Officer, Chief Financial Officer and Secretary, is our largest stockholder, holding approximately 72% of our outstanding shares with options to increase his percentage ownership to 74% on a fully-diluted basis, assuming all former stockholders of Travelzoo Bahamas receive shares of Travelzoo Inc. Based on the number of shares issued as of September 30, 2003 in the merger with Travelzoo Bahamas, Mr. Bartel's shares represent 92% of the outstanding shares. Assuming Mr. Bartel sells all of the shares offered by him hereunder, Mr. Bartel will hold approximately 70% of our outstanding shares, with options to increase his percentage ownership to 72% on a fully-diluted basis. Through his share ownership, he is in a position to control Travelzoo and to elect our entire board of directors.

Investors may face significant restrictions on the resale of our stock due to federal penny stock regulations.

If our shares trade at less than five dollars per share, since the shares are not listed on a recognized national exchange or on NASDAQ, our common stock may be deemed to be a penny stock under Rule 3a51-1 under the Securities Exchange Act of 1934. Compliance with the requirements governing penny stocks may make it more difficult for investors in our common stock to resell their shares to third parties or to otherwise dispose of them.

Section 15(g) of the Exchange Act and Rule 15g-2 under the Exchange Act require broker-dealers dealing in penny stocks to provide potential investors with a document disclosing the risks of penny stocks and to obtain a manually signed and dated written receipt of the document before effecting any transaction in a penny stock for the investor's account. Moreover, Rule 15g-9 promulgated under the Securities Exchange Act of 1934 requires broker-dealers in penny stocks to approve the account of any investor for transactions in such stocks before selling any penny stock to that investor. These requirements significantly increase the time necessary for a broker-dealer to sell a stock and limit the available purchasers for a stock.

Risks Related to Legal Uncertainty

We may become subject to burdensome government regulations and legal uncertainties affecting the Internet which could adversely affect our business.

To date, governmental regulations have not materially restricted use of the Internet in our markets. However, the legal and regulatory environment that pertains to the Internet is uncertain and may change. Uncertainty and new regulations could increase our costs of doing business, prevent us from delivering our products and services over the Internet or slow the growth of the Internet. In addition to new laws and regulations being adopted, existing laws may be applied to the Internet. New and existing laws may cover issues which include:

- user privacy;
- consumer protection;
- copyright, trademark and patent infringement;

11

- pricing controls;
- characteristics and quality of products and services;
- sales and other taxes; and
- other claims based on the nature and content of Internet materials.

We may be unable to protect our registered trademark or other proprietary intellectual property rights.

Our success depends to a significant degree upon the protection of the *Travelzoo* brand name. We rely upon a combination of copyright, trade secret and trademark laws and non-disclosure and other contractual arrangements to protect our intellectual property rights. The steps we have taken to protect our proprietary rights, however, may not be adequate to deter misappropriation of proprietary information.

The U.S. Patent and Trademark Office registered the trademark for *Travelzoo* on January 23, 2001. If we are unable to protect our rights in the mark, a key element of our strategy of promoting *Travelzoo* as a brand could be disrupted and our business could be adversely affected. We may not be able to detect unauthorized use of our proprietary information or take appropriate steps to enforce our intellectual property rights. In addition, the validity, enforceability and scope of protection of intellectual property in Internet-related industries is uncertain and still evolving. The laws of other countries in which we may market our services in the future are uncertain and may afford little or no effective protection of our intellectual property. The unauthorized reproduction or other misappropriation of our proprietary technology could enable third parties to benefit from our technology and brand name without paying us for them. If this were to occur, our business could be materially adversely affected.

We may face liability from intellectual property litigation that could be costly to prosecute or defend and distract management's attention with no assurance of success.

We cannot be certain that our products, content and brand names do not or will not infringe valid patents, copyrights or other intellectual property rights held by third parties. While we have a trademark for Travelzoo, many companies in the industry have similar names including the word travel. We expect that infringement claims in our markets will increase in number as more participants enter the markets. We may be subject to legal proceedings and claims from time to time relating to the intellectual property of others in the ordinary course of our business. We may incur substantial expenses in defending against these third party infringement claims, regardless of their merit, and such claims could result in a significant diversion of the efforts of our management personnel. Successful infringement claims against us may result in monetary liability or a material disruption in the conduct of our business.

We may be liable as a result of information retrieved from or transmitted over the Internet.

We may be sued for defamation, negligence, copyright or trademark infringement or other legal claims relating to information that is published or made available in our products. These types of claims have been brought, sometimes successfully, against online services in the past. The fact that we distribute information via e-mail may subject us to potential risks, such as liabilities or claims resulting from unsolicited e-mail or spamming, lost or misdirected messages, security breaches, illegal or fraudulent use of e-mail or interruptions or delays in e-mail service. In addition, we could incur significant costs in investigating and defending such claims, even if we ultimately are not liable. If any of these events occur, our business and the value of your shares could be materially adversely affected.

CAUTIONARY STATEMENT REGARDING FORWARD-LOOKING INFORMATION

The information in this prospectus contains forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. Such statements are based upon current expectations, assumptions, estimates and projections about us and our industry. These forward-looking statements are subject to the many risks and uncertainties that exist in our operations and business environment that may cause our actual results, performance or achievements to be different from those expected or anticipated in the forward-looking statements. Any statements contained herein that are not statements of historical fact may be deemed to be forward-looking statements. For example, words such as may, will, should, estimates, predicts, potentially, continue, strategy, believes, anticipates, plans, expects, intends, and similar expressions are intended to identify forward-looking statements. Actual results and the timing of certain events could differ significantly from those anticipated in such forward-looking statements. Factors that might cause or contribute to such a discrepancy include, but are not limited to, those discussed elsewhere in this prospectus in the section entitled Risk Factors and the risks discussed in our other Securities and Exchange Commission (SEC) filings. The forward-looking statements included in this prospectus reflect the beliefs of our management on the date of this report. We undertake no obligation to update publicly any forward-looking statements for any reason, even if new information becomes available or other events or circumstances occur in the future.

USE OF PROCEEDS

We will not receive any proceeds from the sale of shares sold by the selling stockholders listed in this prospectus under Principal and Selling Stockholders beginning on page 33.

SELECTED FINANCIAL DATA

You should read the following selected financial data along with Management's Discussion and Analysis of Financial Condition and Results of Operations and our consolidated financial statements and the notes to those financial statements beginning on page F-1. We derived the selected financial data as of and for each of the four years ended December 31, 2002 and the period ended December 31, 1998 from our audited financial statements. We derived the selected financial data as of and for each of the six month periods ended June 30, 2003 and June 30, 2002 from our unaudited financial statements. In our opinion, the unaudited financial information includes all adjustments, consisting only of normal recurring adjustments, considered necessary for a fair presentation of that information. Our results of operations for the six month period ended June 30, 2003 are not necessarily indicative of the results that we may achieve for the full year.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following discussion and analysis of our financial condition and results of operations should be read in conjunction with, and is qualified in its entirety by reference to, the consolidated financial statements and the notes to those statements beginning on page F-1.

Overview

Travelzoo Inc. is an Internet media company that publishes online advertisements of sales and specials for hundreds of travel companies. As the Internet is becoming consumers' preferred medium to search for travel offers, we provide airlines, hotels, cruise lines, vacation packagers, and other travel companies with a fast, flexible, and cost-effective way to reach millions of potential consumers. Our products include the *Travelzoo* website, the *Travelzoo Top 20* newsletter, and the *Weekend.com* newsletter.

Our revenues are primarily derived from the sale of advertising on our *Travelzoo* website and in our *Travelzoo Top 20* e-mail newsletter.

Critical Accounting Policies

We believe that there are a number of accounting policies that are critical to understanding our historical and future performance, as these policies affect the reported amounts of revenue and the more significant areas involving management's judgments and estimates. These significant accounting policies relate to revenue recognition and the provision for doubtful accounts. These policies, and our procedures related to these policies, are described in detail below.

Revenue Recognition

Substantially all of our revenues are advertising revenues, consisting of fees paid by travel companies to advertise their special offers on the *Travelzoo* website, the *Travelzoo Top 20* e-mail newsletter, and the *Weekend.com* e-mail newsletter. Listing fees are based on placement, number of listings, number of impressions, or number of clickthroughs. Banner advertising rates are based on CPM rates (cost per thousand impressions). Smaller advertising agreements typically \$2,000 or less per month typically renew automatically each month if they are not terminated by the client. Larger agreements are typically related to advertising campaigns and are not automatically renewed.

Edgar Filing: TRAVELZOO INC - Form 424B4

We recognize advertising revenues in the period in which the advertisement is displayed, provided that evidence of an arrangement exists, the fees are fixed and determinable, no significant obligations remain at the end of the period, and collection of the resulting receivable is deemed probable. If fixed-fee advertising is displayed over a term greater than one month, revenues are recognized ratably over the period. To the extent that any minimum guaranteed impressions are not met during the contract period, we defer recognition of the corresponding revenues until the guaranteed impressions are achieved. Fees for banner advertising and other variable-fee advertising arrangements are recognized based on the number of impressions displayed or clicks delivered during the period.

Under these policies, no revenue is recognized unless persuasive evidence of an arrangement exists, delivery has occurred, the fee is fixed or determinable, and collection is deemed probable. We evaluate each of these criteria as follows:

- *Evidence of an arrangement.* We consider a non-cancelable insertion order signed by the client to be evidence of an arrangement.
- *Delivery.* Delivery is considered to occur when the advertising has been displayed and, if applicable, the clickthroughs have been delivered.

15

- *Fixed or determinable fee.* We consider the fee to be fixed or determinable if the fee is not subject to refund or adjustment.
- *Collection is deemed probable.* We conduct a credit review for all significant transactions at the time of the arrangement to determine the credit-worthiness of the client. Collection is deemed probable if we expect that the client will be able to pay amounts under the arrangement as payments become due. If we determine that collection is not probable, then we recognize the revenue upon cash collection, provided that the other criteria for revenue recognition have been met.

Provision for Doubtful Accounts

We initially record a provision for doubtful accounts based on our historical experience of write-offs and then adjust this provision at the end of each reporting period based on a detailed assessment of our accounts receivable and allowance for doubtful accounts. In estimating the provision for doubtful accounts, management considers the age of the accounts receivable, our historical write-offs, the credit-worthiness of the client, the economic conditions of the client's industry, and general economic conditions, among other factors. Should any of these factors change, the estimates made by management will also change, which could impact the level of our future provision for doubtful accounts. Specifically, if the financial condition of our clients were to deteriorate, affecting their ability to make payments, additional provision for doubtful accounts may be required.

Results of Operations

The following table sets forth, as a percentage of total revenues, the results of our operations for the years ended December 31, 2002, 2001 and 2000 and the six-month periods ended June 30, 2003 and 2002.

Six Months Ended June 30, 2003 and June 30, 2002

Acquisition of Subscribers

In the six months ended June 30, 2003, we acquired 1,472,000 new subscribers for our *Travelzoo Top 20* product through advertising campaigns for the *Travelzoo* brand. Subscription to the *Travelzoo Top 20* e-mail newsletter is free. However, we believe that these additional subscribers add significant value to our company because the additional subscribers may allow us to increase our advertising rates in the future.

The cost related to the acquisition of the new subscribers is included in our advertising expenses. Advertising expenses are included in sales and marketing expenses. For the six months ended June 30, 2003, our advertising expenses were \$2.9 million.

16

Revenues

Our total revenues increased to \$4.3 million for the three months ended June 30, 2003, from \$2.2 million for the three months ended June 30, 2002. Our total revenues increased to \$8.0 million for the six months ended June 30, 2003, from \$4.2 million for the six months ended June 30, 2002. The increase in our total revenues was due to signing on new clients and increased spending from existing clients. During the three months ended June 30, 2003, we recognized revenue of \$95,000 related to advertising delivered in the first quarter of 2003 for which collectibility was not probable and therefore recognized on a cash-received basis. During the three months ended June 30, 2003, we did not recognize revenue related to \$35,000 of advertising delivered in the quarter that will be recognized on a cash-received basis since collectibility is not probable.

Cost of Revenues

Cost of revenues consists of network expenses, including fees we pay for co-location services, depreciation of network equipment and salary expenses associated with network operations staff. Our cost of revenues decreased to \$81,000 for the three months ended June 30, 2003, from \$86,000 for the three months ended June 30, 2002. Our cost of revenues decreased to \$164,000 for the six months ended June 30, 2003, from \$172,000 for the six months ended June 30, 2002. As a percentage of revenue, cost of revenues decreased to 2% for the six months ended June 30, 2003 from 4% for the six months ended June 30, 2002. The decrease resulted primarily from an increase in revenues that was not offset by an increase in our network operations costs.

Operating Expenses

- Sales and Marketing.** Sales and marketing expenses consist primarily of advertising and promotional expenses, public relations expenses, conference expenses, commission expenses, and salary expenses associated with sales and marketing staff. Sales and marketing expenses increased to \$2.3 million for the three months ended June 30, 2003 from \$1.3 million for the three months ended June 30, 2002. Sales and marketing expenses increased to \$4.2 million for the six months ended June 30, 2003 from \$2.3 million for the six months ended June 30, 2002. The increase in sales and marketing expenses was primarily due to the increase in sales and marketing personnel and an increase of our advertising of the *Travelzoo* brand. In the six months ended June 30, 2003 and 2002, advertising expenses accounted for 69% and 67%, respectively, of sales and marketing expenses. Advertising activities during the two periods were of the same type (i.e., online advertising). During the six months ended June 30, 2003 and 2002, \$236,000 and \$226,000, respectively, of advertising services were purchased from our clients under non-barter arrangements.
- General and Administrative.** General and administrative expenses consist primarily of compensation for administrative and executive staff, fees for professional services, rent, bad debt expense, amortization of intangible assets and general office expense. General and administrative expenses increased to \$903,000 for the three months ended June 30, 2003 from \$562,000 for the three months ended June 30, 2002. General and administrative expenses increased to \$2.0 million for the six months ended June 30, 2003 from \$1.1 million for the six months ended June 30, 2002. General and administrative expenses increased primarily due to an increase in expenses for office space and an increase in expenses for professional services.
- Merger Expenses.** Merger expenses consist of expenses relating to the registration statement and proxy statement filed with the SEC relating to the merger of *Travelzoo.com Corporation* into *Travelzoo Inc.* Merger expenses were \$-0- for both the three months ended June 30, 2003 and June 30, 2002. There were no merger expenses for the six months ended June 30, 2003 compared to \$55,000 for the six months ended June 30, 2002 as the merger was completed in 2002. The expenses consisted mostly of fees for professional legal and accounting services.

Income Taxes

For the three months ended June 30, 2003, we recorded an income tax provision of \$419,000. For the three months ended June 30, 2002, we recorded an income tax provision of \$101,000. For the six months ended June 30, 2003, we recorded an income tax provision of \$687,000. For the six months ended June 30, 2002, we recorded an income tax provision of \$234,000. Our income is generally taxed in the U.S. and our income tax provision reflects federal and state statutory rates applicable to our levels of income and the effect of non-deductible merger expenses in 2002.

Fiscal Years Ended December 31, 2002, 2001 and 2000

Acquisition of Subscribers

In 2002, we acquired 2,385,000 new subscribers for our *Travelzoo Top 20* product through advertising campaigns for the *Travelzoo* brand. Subscription to the *Travelzoo Top 20* e-mail newsletter is free. However, we believe that these additional subscribers add significant value to our company because the additional subscribers allow us to increase our advertising rates.

The cost related to the acquisition of the new subscribers is included in our expenses for advertising campaigns for the *Travelzoo* brand. For the year 2002, our total advertising expenses were \$3.9 million.

Revenues

Our total revenues increased to \$9.8 million for the year ended December 31, 2002 from \$6.1 million for the year ended December 31, 2001 and \$3.9 million for the year ended December 31, 2000. The increase in our total revenues was due to an increase in advertising revenues. Advertising revenue increased to \$9.8 million for the year ended December 31, 2002 from \$6.1 million for the year ended December 31, 2001 and \$3.9 million for the year ended December 31, 2000. The increases resulted primarily from an increase in the number of travel companies advertising on the *Travelzoo* website and in the *Travelzoo Top 20* newsletter.

Cost of Revenues

Cost of revenues consists of network expenses, including fees we pay for co-location services, depreciation of network equipment and salary expenses associated with network operations staff. Our cost of revenues increased to \$351,000 for the year ended December 31, 2002 from \$304,000 for the year ended December 31, 2001 and \$282,000 for the year ended December 31, 2000. As a percentage of revenue, cost of revenues decreased to 4% for the year ended December 31, 2002 from 5% for the year ended December 31, 2001 and 7% for the year ended December 31, 2000. The decreases resulted primarily from an increase in revenues that was not offset by an increase in our network operations costs.

Operating Expenses

- *Sales and Marketing.* Sales and marketing expenses consist primarily of advertising and promotional expenses, public relations expenses, conference expenses, and salary expenses associated with sales and marketing staff. Sales and marketing expenses increased to \$5.7 million for the year ended December 31, 2002 from \$3.3 million for the year ended December 31, 2001 and \$1.5 million for the year ended December 31, 2000. The increases in sales and marketing expenses was due to the decision by our management to hire more experienced sales personnel and increases of our advertising of the *Travelzoo* brand. For the years ended December 31, 2002 and 2001, advertising expenses accounted for 69% and 69%, respectively, of sales and marketing expenses. Advertising activities during the two periods were of the same type (i.e., online advertising).
 - *General and Administrative.* General and administrative expenses consist primarily of compensation for administrative and executive staff, fees for professional services, rent, bad debt expense, amortization of intangible assets and general office expense. General and administrative expenses increased to \$2.3 million for the year ended December 31, 2002 from \$1.4 million for the year ended December 31, 2001 and \$1.2 million for the year ended December 31, 2000. General and administrative expenses increased primarily due to increases in expenses for office space. General and administrative expenses for the year ended December 31, 2001 include a credit of \$128,000 for a reduction to the bad debt reserve principally due to the collection of a doubtful account.
- 18
- *Merger Expenses.* Merger expenses consist of expenses relating to the registration statement and proxy statement filed with the SEC relating to the merger of Travelzoo.com Corporation into Travelzoo Inc. Merger expenses decreased to \$55,000 for the year ended December 31, 2002 from \$333,000 for the year ended December 31, 2001 and \$231,000 for the year ended December 31, 2000. The expenses consisted mostly of fees for professional services, primarily legal and accounting.

Intangible Assets

As of December 31, 2002, our long-lived assets included intangible assets of \$212,000. The intangible assets consist of the weekend.com and the weekends.com Internet domain names. During 2002, we evaluated the recoverability of our intangible assets in accordance with Statement of Financial Accounting Standards No. 144, Impairment of Long-Lived Assets, which required us to assess these assets for recoverability when events or circumstances indicate a potential impairment by estimating the undiscounted cash flows to be generated from the use of these assets. No impairment losses were recorded related to intangible assets in 2002. Any future impairment losses recorded in the future could have a material adverse impact on our financial conditions and results of operations.

Income Taxes

For the year ended December 31, 2002, we recorded an income tax provision of \$573,000. For the years ended December 31, 2001 and 2000, we recorded income tax provisions of \$521,000 and \$388,000, respectively. Our income is generally taxed in the U.S. and our income tax provision reflects federal and state statutory rates applicable to our levels of income and the effect of non-deductible merger expenses in 2000, 2001 and 2002.

Quarterly Financial Information

The following table sets forth, for the periods indicated, our consolidated financial information for the last ten quarters. We prepared this information using our unaudited interim consolidated financial statements that, in our opinion have been prepared on a basis consistent with our annual consolidated financial statements. We believe that these interim consolidated financial statements include all adjustments, consisting only of normal recurring adjustments, necessary for a fair presentation of this information when read in conjunction with our financial statements and notes to financial statements. The operating results for any quarter do not necessarily indicate the results expected for any future period.

Liquidity and Capital Resources

As of June 30, 2003, we had \$2.3 million in cash and cash equivalents. Cash and cash equivalents increased from \$1.3 million on December 31, 2002, primarily as a result of operating income and an increase in accrued expenses offset by an increase in accounts receivable. Cash and cash equivalents increased from \$610,000 on December 31, 2001 primarily as a result of operating income and an increase in accounts payable and accrued expenses offset by income tax payments and an increase in accounts receivable. Cash and cash equivalents increased to \$610,000 on December 31, 2001 from \$46,000 on December 31, 2000 primarily as a result of operating income and an increase in accrued expenses and income tax payable offset by an increase in accounts receivable and deposits. We expect that cash flows generated from operations will continue to be sufficient to provide for our working capital needs in the near future.

Net cash provided by operating activities in the six months ended June 30, 2003 was \$1.1 million. Net cash used in operating activities in the six months ended June 30, 2002 was \$132,000. In the six months ended June 30, 2003, net cash provided by operating activities resulted

primarily from operating income and an increase in accrued expenses offset by an increase in accounts receivable. In the six months ended June 30, 2002, net cash used in operating activities resulted primarily from a decrease in income tax payable and an increase in accounts receivable offset by our net income, and an increase in deferred revenue.

Net cash provided by operating activities in the year ended December 31, 2002 was \$769,000. Net cash provided by operating activities in the year ended December 31, 2001 was \$771,000. Net cash provided by operating activities in the year ended December 31, 2000 was \$409,000. In the year ended December 31, 2002, net cash provided by operating activities resulted primarily from operating income and an increase in accounts payable and accrued expenses offset by income tax payments and an increase in accounts receivable. In the year ended December 31, 2001, net cash provided by operating activities resulted primarily from our net income, adjusted for certain non-cash items, and a decrease in prepaid expenses offset by increase in deposits. In the year ended December 31, 2000, net cash provided by operating activities resulted primarily from our net income, adjusted for certain non-cash items, and an increase in income tax payable offset by an increase in accounts receivable.

Net cash used in investing activities was \$19,000 and \$99,000 during the six months ended June 30, 2003 and 2002, respectively. In both periods, net cash was used in investing activities for equipment purchases. Net cash used in investing activities was \$121,000, \$156,000, and \$428,000 during the years ended December 31, 2002, 2001 and 2000, respectively. In all periods, net cash was used in investing activities for equipment purchases, and in 2000 \$125,000 was used for the purchase of a domain name.

There were no cash flows related to financing activities in the six months ended June 30, 2003 and 2002 and the year ended December 31, 2002. Net cash used in financing activities was \$50,000 for the year ended December 31, 2001. Net cash provided by financing activities was \$54,000 for the year ended December 31, 2000. In the year ended December 31, 2001, net cash was used in financing activities for repayment of a loan made to Travelzoo by Ralph Bartel, its principal stockholder. In the year ended December 31, 2000, net cash was provided by a loan by Mr. Bartel and exercise of stock options by an employee.

Our capital requirements will depend on a number of factors, including market acceptance of our products and services, the amount of our resources we devote to the *Travelzoo* website, the *Travelzoo Top 20* newsletter, the *Weekend.com* newsletter and expansion of our operations and the amount of our resources we devote to promoting awareness of the *Travelzoo* brand. Consistent with our growth, we have experienced a substantial increase in our sales and marketing expenses and capital expenditures since inception, and we anticipate that these increases will continue for the foreseeable future. We believe cash on hand and generated during those periods will be sufficient to pay such costs. In addition, we will continue to evaluate possible investments in businesses, products and technologies, the consummation of any of which would increase our capital requirements.

20

Although we currently believe that we have sufficient capital resources to meet our anticipated working capital and capital expenditure requirements beyond the next 12 months, unanticipated events and opportunities may require us to sell additional equity or debt securities or establish new credit facilities to raise capital in order to meet our capital requirements. If we sell additional equity or convertible debt securities, the sale could dilute the ownership of our existing stockholders. If we issue debt securities or establish a new credit facility, our fixed obligations could increase, and we may be required to agree to operating covenants that would restrict our operations. We cannot be sure that any such financing will be available in amounts or on terms acceptable to us.

Quantitative and Qualitative Disclosures About Market Risk

Our accounts receivable are subject, in normal course of business, to collection risks. We regularly assess these risks and have established policies and business practices to minimize the adverse effects of collection risks. As a result, we do not anticipate any material losses in this area.

BUSINESS

Travelzoo Inc. is an Internet media company that publishes online advertisements of sales and specials for hundreds of travel companies. As the Internet is becoming consumers' preferred medium to search for travel offers, we provide airlines, hotels, cruise lines, vacation packagers, and other travel companies with a fast, flexible, and cost-effective way to reach millions of potential consumers. Our products include the *Travelzoo* website, the *Travelzoo Top 20* e-mail newsletter, and the *Weekend.com* e-mail newsletter.

More than 200 companies purchase our services. Our clients include American Airlines, American Express, Alamo Rent-A-Car, Apple Vacations, America West Vacations, Avis Rent-A-Car, British Airways, Carnival Cruise Lines, Liberty Travel, Delta Air Lines, Expedia, Fairmont Hotels & Resorts, Hilton Hotels, JetBlue Airways, Marriott Hotels, Park Place Entertainment, Pleasant Holidays, Spirit Airlines, Funjet Vacations, Southwest Airlines, Starwood Hotels & Resorts Worldwide, Royal Caribbean, United Airlines, and US Airways.

Our revenues are generated from advertising sales. Our revenues have grown rapidly since we began operations in 1998, primarily driven by an increasing number of travel companies listing their sales and specials on the *Travelzoo* website and in the *Travelzoo Top 20* newsletter. Our revenues increased from approximately \$84,000 for the period from May 21, 1998 (inception) to December 31, 1998, to approximately \$9.8 million for the year ended December 31, 2002.

Our principal business office is located at 590 Madison Avenue, 21st Floor, New York, New York 10022. Additionally, we have offices in Chicago, Miami, and Mountain View (California). Our local presence in these regions allows us to better source and publish information on travel specials which are relevant to each regional market. In addition, these regional offices provide local proximity for our sales force to better service advertisers.

Travelzoo was originally incorporated as Travelzoo.com Corporation (Travelzoo Bahamas) in the Commonwealth of The Bahamas. In a Netsurfer Stockholder offering, Travelzoo Bahamas issued approximately 2.6 million shares of its common stock to approximately 700,000 visitors who registered on the *Travelzoo* website. No cash payments were required or received for any of the stock issued pursuant to the Netsurfer Stockholder offering. The number of shares issued was doubled as a result of a subsequent two-for-one stock split.

In a series of transactions completed in 2002, Travelzoo Bahamas was merged into Travelzoo Inc., a Delaware corporation, and each share of Travelzoo Bahamas was converted into the right to receive one share of common stock of Travelzoo Inc. As of September 30, 2003, 129,664 former stockholders of Travelzoo Bahamas have taken the steps necessary to receive their shares in Travelzoo Inc., and 7,157,932 shares of common stock have been issued. If all former stockholders of Travelzoo Bahamas accept their shares in Travelzoo Inc., an additional 4,137,942 shares of common stock will be issued. These shares are reported as outstanding in our financial statements.

In August 2002, Travelzoo commenced trading on the OTC Bulletin Board. Trading has been very limited. We have applied for the listing of our common stock on the NASDAQ SmallCap Market under the symbol TZOO. This offering is intended primarily to allow Travelzoo to satisfy the requirement for listing on the NASDAQ SmallCap Market that we have 300 round lot holders of our common stock. A qualifying round lot holder is a stockholder who owns at least 100 shares of Travelzoo stock. We believe that subject to satisfying the requirement relating to the round lot holders, our application for listing on the NASDAQ SmallCap Market will be approved. However, we cannot provide any assurances in regard to approval of the application. In the event we are unable to obtain approval for listing on the NASDAQ SmallCap Market, our shares of common stock will continue to trade on the OTC Bulletin Board. See Risk Factors.

Our Market

According to the Newspaper Association of America, travel companies spent \$1.4 billion in 2002 on national advertising in newspapers (source: Market and Business Analysis, NAA, 2003). We believe that newspapers are currently the main medium for travel companies to advertise their sales and specials.

We believe that several factors are causing and will continue to cause travel companies to increase their spending on Internet advertising of sales and specials:

- *The Internet Is Consumers' Preferred Information Source.* Market research shows that the Internet has become consumers' preferred information source for travel (source: Forrester Research, 2002).
- *Benefits of Internet Advertising vs. Print Advertising.* Internet advertising provides travel companies advantages compared to print advertising, including real-time listings, real-time updates, and performance tracking. See "- Benefits to Travel Companies."

Edgar Filing: TRAVELZOO INC - Form 424B4

- *New Advertising Opportunities.* The Internet allows travel companies to advertise their sales and specials in a fast, flexible, and cost-effective manner that has not been possible before. We believe this will lead to greater expenditures by travel companies on advertising sales and specials.
- *Suppliers Selling Directly.* We believe that many travel suppliers prefer to sell their travel services directly to consumers, as an alternative to distribution through travel agents. Travel suppliers can sell directly to consumers by advertising sales and specials via the Internet that attract consumers to suppliers' websites.

Problems Travel Companies Face and Limitations of Newspaper Advertising

We believe that travel companies often face the challenge of being able to effectively market and sell excess inventory (i.e., airline seats, hotel rooms, or cruise cabins that are likely to be unfilled). The success of marketing excess inventory can have a substantial impact on a travel company's net income since almost all costs of travel services are fixed, that is, the costs do not vary with sales. A relatively small amount of unsold inventory can have a significant impact on the profitability of a travel company.

Our management believes that travel companies need a fast, flexible, and cost-effective solution for marketing excess inventory. The solution must be fast, because travel services are a quickly expiring commodity. The period between the time when a company realizes that there is excess inventory and the time when the value of the travel service becomes worthless is very short. The solution must be flexible, because the travel industry is dynamic and the demand for excess inventory is difficult to forecast. It is difficult for travel companies to price excess inventory. It is difficult for travel companies to forecast the marketing effort needed to sell excess inventory. The marketing must be cost-effective because excess inventory is often sold at highly discounted prices, which lowers margins.

With respect to advertising excess travel inventory, our management believes that newspaper advertising suffers from a number of limitations which do not apply to the Internet:

- typically ads must be submitted 2 to 5 days prior to the publication date, which makes it difficult to advertise last-minute inventory;
- once an ad is published, it cannot be updated or deleted when an offer is sold out;
- once an ad is published, the travel company cannot change a price;
- in many markets, the small number of newspapers and other print media reduces competition, resulting in high rates for newspaper advertising; and
- newspaper advertising does not allow for detailed performance tracking.

Our Products and Services

We provide airlines, hotels, cruise lines, vacation packagers, and other travel suppliers with a fast, flexible, and cost-effective way to advertise their sales and specials to millions of potential consumers. Our products include the *Travelzoo* website, the *Travelzoo Top 20* newsletter, and the *Weekend.com* newsletter. While our products provide advertising opportunities for travel companies, they also provide Internet users with a free source of information on current sales and specials from hundreds of travel companies.

As travel companies increasingly utilize the Internet to promote their special offers, we believe that our products will enable them to take advantage of the lower cost and real-time communication enabled by the Internet. Our listing management software allows travel companies to add, update, and delete special offer listings on a real-time basis. Our software also provides travel companies with real-time performance tracking, enabling them to optimize their marketing campaigns.

Our *Travelzoo* website at <http://www.travelzoo.com> lists sales and specials from approximately 200 travel companies and it reaches 5.1 million Internet users per month (source: comScore Media Metrix, 3/2003).

Our *Travelzoo Top 20* is a free weekly e-mail newsletter that highlights attractive sales and specials from selected travel companies and as of September 30, 2003 it had 5,482,000 subscribers.

Our *Weekend.com* newsletter is a free weekly e-mail newsletter that features ideas and travel opportunities for weekends. We launched this product in November 2002 and as of September 30, 2003, it had 1,585,000 subscribers.

Benefits to Travel Companies

Key features of our solution for travel companies include:

- *Real-Time Listings of Special Offers.* Our technology allows travel companies to advertise new special offers on a real-time basis.

Edgar Filing: TRAVELZOO INC - Form 424B4

- *Real-Time Updates.* Our technology allows travel companies to update their listings on a real-time basis.
- *Real-Time Performance Reports.* We provide travel companies with real-time tracking of the performance of their advertising campaigns. Our solution enables travel companies to optimize their campaigns by removing or updating unsuccessful listings and further promote successful listings.
- *Access to Millions of Consumers.* We provide travel companies fast access to millions of travel shoppers.
- *National Reach.* We offer travel companies access to Internet users across the U.S.

Benefits to Consumers

Our *Travelzoo* website, our *Travelzoo Top 20* newsletter, and our *Weekend.com* newsletter provide consumers information on current special offers at no cost to the consumer. Key features of our products include:

- *Aggregation of Offers from Many Companies.* Our *Travelzoo* website and our *Travelzoo Top 20* e-mail newsletter aggregate information on current special offers from approximately 200 travel companies. This saves the consumer time when searching for travel sales and specials.
- *Current Information.* Compared to newspaper ads, we provide consumers with more current information, since our technology enables travel companies to update their listings on a real-time basis.

24

- *Search Tools.* We provide consumers with the ability to search for specific special offers.

Our Strategy

Our objective is to become the largest online publisher of sales and specials for travel companies. Key elements of our strategy include:

- *Build Strong Brand Awareness.* We believe that it is essential to establish a strong brand with Internet users and within the travel industry. We currently utilize an online marketing program to promote our brands to Internet users. In addition, we believe that we build brand awareness by product excellence that is promoted by word-of-mouth. We utilize sponsorships at industry conferences and public relations to promote our brands within the travel industry.
- *Increase Reach.* In order to attract more users to our products, we intend to expand our advertising campaigns as our business grows. We believe that we also can attract more users by product excellence that is promoted by word-of-mouth.
- *Maintain Quality User Base.* We believe that, in addition to increasing our reach, we need to maintain the quality of our user base by producing high quality content.
- *Increase Number of Advertising Clients.* We intend to continue to grow our advertising client base by expanding the size of our sales force. See "- Sales and Marketing."
- *Provide Excellent Service.* We believe it is important to provide our advertising clients with excellent service in terms of the execution of their insertion orders.

Clients

As of December 31, 2002, our client base included approximately 200 travel companies, including airlines, hotels, cruise lines, vacations packagers, tour operators, car rental companies, and travel agents. Some of our clients include:

American Airlines	Lufthansa
American Express	Marriott Hotels
Alamo Rent-A-Car	MyTravel Group
Apple Vacations	Norwegian Cruise Line
America West Vacations	Park Place Entertainment
Avis Rent-A-Car	Pleasant Holidays
British Airways	Spirit Airlines
Budget Rent A Car	Starwood Hotels & Resorts Worldwide
Delta Air Lines	Royal Caribbean
Expedia	Travelocity.com
Funjet Vacations	Southwest Airlines
Hilton Hotels	United Airlines
JetBlue Airways	

In the six months ended June 30, 2003, two clients accounted for 23% of our revenues. For the year ended December 31, 2002, our two largest clients accounted for 15% and 14% of our revenues respectively, compared to 15% and 13% in 2001 and 22% and 11% in 2000, respectively. No other clients accounted for 10% or more of revenues in 2000, 2001, 2002, or the six months ended June 30, 2003.

Sales and Marketing

As of September 30, 2003, our direct sales force consisted of a Senior Vice President of Sales, a Vice President of Business Development and five advertising sales managers.

25

We currently utilize an online marketing program to promote our brands to Internet users. In addition, we believe that we build brand awareness by product excellence that is promoted by word-of-mouth. We utilize sponsorships at industry conferences and public relations to promote our brands within the travel industry.

Technology

We have designed our technology to serve a large volume of web traffic in an efficient and scalable manner. We co-locate our production servers with Cable & Wireless, a global communications company. Cable & Wireless facility includes features such as power redundancy, multiple egress and peering to other ISPs, fire suppression and access to our own separate physical space. We believe our arrangements with Cable & Wireless will allow us to grow without being limited by our own physical and technological capacity, and will also provide us with sufficient bandwidth for our anticipated needs. Because of the design of our website, our users are not required to download or upload large files from or to our website, which allows us to continue increasing the number of our visitors and page views without adversely affecting our performance or requiring us to make significant additional capital expenditures.

Our software is written using open standards, such as Visual Basic Script, and HTML, and interfaces with products from Microsoft. We have standardized our hardware platform on Compaq servers and Cisco switches.

New Products and Services

In June of 2003, we launched *Newsflash*, a new *Travelzoo* e-mail product that allows travel companies to announce time-sensitive and newsworthy sales and specials just as they are released.

Competition

We compete with large Internet portal sites, such as About.com, America Online, Lycos, MSN and Yahoo!, that offer listings or other advertising opportunities for travel companies. We also compete with smaller sites that specialize in listing last-minute offers or list deals for free, such as Smarterliving.com. In addition, we compete with newspapers, magazines and other traditional media companies that operate websites which provide advertising opportunities. We expect to face additional competition as other established and emerging companies, including print media companies, enter our market.

Many of our current and potential competitors have longer operating histories, significantly greater financial, technical, marketing and other resources and larger client bases than we do. In addition, current and potential competitors may make strategic acquisitions or establish cooperative relationships to expand their businesses or to offer more comprehensive solutions.

New technologies could increase the competitive pressures that we face. The development of competing technologies by market participants or the emergence of new industry standards may adversely affect our competitive position. Competition could result in reduced margins on our services, loss of market share or less use of our products by travel companies and consumers. If we are not able to compete effectively with current or future competitors as a result of these and other factors, our business could be materially adversely affected.

Government Regulation and Legal Uncertainties

There are increasing numbers of laws and regulations pertaining to the Internet, including laws and regulations relating to user privacy, liability for information retrieved from or transmitted over the Internet, online content regulation, user privacy and domain name registration. Moreover, the applicability to the Internet of existing laws governing issues such as intellectual property ownership and infringement, copyright, patent, trademark, trade secret, obscenity, libel and personal privacy is uncertain and developing.

26

Privacy Concerns. Government agencies are considering adopting regulations regarding the collection and use of personal identifying information obtained from individuals when using Internet sites or e-mail services. While we have implemented and intend to implement additional programs designed to enhance the protection of the privacy of our users, these programs may not conform to any regulations adopted which may be adopted by these agencies. In addition, these regulatory and enforcement efforts may adversely affect our ability to collect

Edgar Filing: TRAVELZOO INC - Form 424B4

demographic and personal information from users, which could have an adverse effect on our ability to provide advertisers with demographic information. The European Union (the EU) has adopted a directive that imposes restrictions on the collection and use of personal data. The directive could impose restrictions that are more stringent than current Internet privacy standards in the U.S. The directive may adversely affect our activities to the extent that we may seek to collect data from users in EU member countries.

Domain Names. Domain names are the user's Internet addresses. The current system for registering, allocating and managing domain names has been the subject of litigation and of proposed regulatory reform. We own the domain names for travelzoo.com, travelzoo.net, travelzoo.org, travelzoo.ca, travelzoo.co.uk, weekend.com, and weekends.com, and have registered Travelzoo and Weekend.com as trademarks in the U.S. Because of these protections, it is unlikely, yet possible, that third parties may bring claims for infringement against us for the use of our domain name and trademark. In the event such claims are successful, we could lose the ability to use our domain names. There can be no assurance that our domain name will not lose its value, or that we will not have to obtain entirely new domain names in addition to or in lieu of our current domain name if changes in overall Internet domain name rules result in a restructuring in the current system of using domain names which include .com, .net, .gov, .edu and other extensions.

Jurisdictions. Due to the global nature of the Internet, it is possible that, although our transmissions over the Internet originate primarily in California, the governments of other states and foreign countries might attempt to regulate our business activities. In addition, because our service is available over the Internet in multiple states and foreign countries, these jurisdictions may require us to qualify to do business as a foreign corporation in each of these states or foreign countries, which could subject us to taxes and other regulations.

Intellectual Property

Our success depends to a significant degree upon the protection of our brand names, including *Travelzoo*, *Travelzoo Top 20*, and *Weekend.com*. If we were unable to protect the *Travelzoo* and *Travelzoo Top 20* brand names, our business could be materially adversely affected. We rely upon a combination of copyright, trade secret and trademark laws to protect our intellectual property rights. The steps we have taken to protect our proprietary rights, however, may not be adequate to deter misappropriation of proprietary information.

We may not be able to detect unauthorized use of our proprietary information or take appropriate steps to enforce our intellectual property rights. In addition, the validity, enforceability and scope of protection of intellectual property in Internet-related industries is uncertain and still evolving. The laws of other countries in which we may market our services in the future are uncertain and may afford little or no effective protection of our intellectual property.

On June 21, 1999, Mr. Bartel, our founder, filed with the U.S. Patent and Trademark Office (PTO) to register the trademark *Travelzoo* for providing information and news in the field of travel via an on-line global communications network and travel agency services, namely making reservations and booking for transportation, providing information and news in the field of travel via an on-line global communications network and travel agency services, namely making reservations and booking for temporary lodging, and promoting the goods and services of others through the offer of travel goods and services and shopping club services, namely providing information on travel goods and services to members. The PTO published that mark for opposition on October 31, 2000. On January 22, 2001, Mr. Bartel, who filed the trademark application as an individual, transferred the ownership of the pending trademark *Travelzoo* to Travelzoo Inc. The mark was registered by the PTO on January 23, 2001.

27

On November 2, 2000, we filed with the PTO to register the trademark *Weekend.com* for providing information via websites on global computer networks in the field travel, providing information via websites on global computer networks in the fields of entertainment, recreation, and sports, and providing information via websites on global computer networks in the fields of fashion, fitness, health and exercise. The mark was registered by the PTO on November 5, 2002.

On March 18, 2002, we filed with the PTO to register the trademark *Top 20* for promoting the goods and services of others through the offer of travel goods and services and shopping club services, namely providing information on travel goods and services to members, providing information and news in the field of travel via an on-line global communications network and travel agency services namely making reservations and booking for transportation, and providing information and news in the field of travel via an on-line global communications network and travel agency services, namely, making reservations and booking for temporary travel lodging. The mark was registered by the PTO in the Supplemental Register on May 13, 2003.

Employees

As of September 30, 2003, we had 37 employees, of whom 10 worked in sales, business development, and marketing, 20 in production, 2 in network operations and 5 were involved in finance, administration, and corporate operations. None of our employees is represented under collective bargaining agreements. We consider our relations with our employees to be good. Because of our anticipated further growth combined with the requirements we face as a public company, we expect that the number of our employees will continue to increase for the foreseeable

future.

Properties

Our principal offices are located in approximately 2,000 square feet of office space in New York, New York under an operating lease with HQ Global Workplaces, Inc. that expires on June 30, 2004. Our West Coast offices are located in approximately 3,000 square feet of office space in Mountain View, California under an operating lease with HQ Global Workplaces, Inc. that expires on December 31, 2003. Employment Agreements

Ralph Bartel has entered into an employment agreement with us. His current employment agreement became effective on April 1, 2000 and was amended effective July 1, 2003. The agreement provides for an annual salary of \$200,000 and an annual bonus of \$60,000 if our budget goals are met. We may terminate the agreement with or without cause by delivering two weeks advance written notice to Mr. Bartel. He may terminate his employment agreement with or without cause by delivering two weeks advance written notice to us.

Mr. Bartel has agreed not to compete with us, solicit our suppliers or employees or reveal our confidential information during the term of his employment agreement and for one year thereafter. In addition, Mr. Bartel is bound by a proprietary inventions agreement which prohibits him from, among other things, disseminating or using confidential information about our business or clients in any way that would be adverse to us.

Option Grants in Last Fiscal Year

The following table contains information concerning options granted to our executive officers during fiscal year 2002:

**Option Grants In Last Fiscal Year
Individual Grants**

Name	Number of Securities	% of Total Options	Exercise Price (\$/Sh)	Expiration Date	Grant Date Present Value ⁽¹⁾
------	----------------------	--------------------	------------------------	-----------------	---

Edgar Filing: TRAVELZOO INC - Form 424B4

	Underlying Options Granted (#)	Granted to Employees in 2002			(\\$)
Ralph Bartel	5,000	100%	\$ 3.00	3/25/12	\$ 0.06

- (1) The value of the options was derived using the Black-Scholes option pricing model in accordance with rules and regulations of the SEC and is not intended to forecast the market value or future appreciation of our common share price. The Black-Scholes model was used with the following assumptions: dividend yield of 0%; expected volatility of 51%; risk-free interest rate of 4.5%; expected life of 5 years; and an underlying value of the common stock at the date of grant of \$0.56. Such share value was calculated using assumptions approved by our management, which were based on our estimated earnings for 2001 before merger expenses, various assumed multiples of price to earnings per share with different probabilities assigned to each, and also taking into account our estimated book value per share.

Option Exercises and Year-End Values

The following table contains information concerning options exercised by our executive officers during fiscal year 2002 and unexercised options held on December 31, 2002:

Name	Shares Acquired on Exercise	Value Realized (\$)	Number of Securities Underlying Unexercised Options at FY-end		Value of Unexercised in-the- money Options at FY end(\$) ⁽¹⁾	
			Exercisable	Unexercisable	Exercisable	Unexercisable
Ralph Bartel	--	--	2,193,349	0	\$6,540,047	\$ 0

- (1) Calculated by (A) determining the difference between (1) the average of the high and low trading prices per share of Travelzoo's common stock on December 31, 2002 and (2) the exercise price of the option and (B) multiplying such difference by the total number of shares under option, net of the aggregate value of all option exercise proceeds.

Stock Option Plan

We do not currently have any stock option plan or other equity based compensation plans in effect.

CERTAIN TRANSACTIONS BETWEEN TRAVELZOO AND ITS AFFILIATES

Contribution of Shares of Silicon Channels Corporation to Travelzoo

Silicon Channels Corporation (Silicon Channels), formerly an affiliate of Travelzoo Bahamas and now a wholly-owned subsidiary of Travelzoo, was incorporated in California on September 28, 1998 with Ralph Bartel as the sole stockholder. Silicon Channels did business under the name Travelzoo.com Sales, Inc. On January 22, 2001, Mr. Bartel, formerly the sole stockholder of Silicon Channels, and Travelzoo entered into an agreement and completed a transaction in which:

- Mr. Bartel contributed all of the outstanding shares of Silicon Channels to Travelzoo;
- Travelzoo issued an aggregate of 8,129,273 shares of common stock to Mr. Bartel; and

32

- Travelzoo issued to Mr. Bartel options to acquire 2,158,349 shares of common stock of Travelzoo at an exercise price of \$1.00 per share, exercisable at any time during the ten-year period following the date of issuance.

Loan to Silicon Channels Corporation

In 2000, Mr. Bartel loaned Silicon Channels \$50,000 on an unsecured basis. The loan did not bear interest and was repayable on or before December 31, 2000. On December 31, 2000, Mr. Bartel agreed to extend the loan until March 31, 2001. The loan was repaid on March 31, 2001.

PRINCIPAL AND SELLING STOCKHOLDERS

The following table sets forth information regarding the ownership of our common stock by the selling stockholders and the shares being offered under this prospectus.

The shares being offered by Ralph Bartel as shown below are being sold pursuant to an underwriting agreement with Wedbush Morgan Securities, Inc. as described under Plan of Distribution on page 37. The shares held by the other selling stockholders, all of which we believe are charitable organizations, represent shares which were contributed to those organizations by Mr. Bartel.

The percentage owned prior to and after the offering reflects the outstanding common shares at the time of the initial registration statement of which this prospectus is a part. The amount and percentage owned after the offering assumes the sale of all of the common stock being registered on behalf of the selling stockholders.

- (1) Mr. Bartel is our Chief Executive Officer and President. He was also the Chief Executive Officer and President of our predecessor corporation, Travelzoo.com Corporation. If the overallotment option and the warrant held by Wedbush Morgan Securities, Inc. are exercised, Mr. Bartel will own 13,590,374 shares and will hold 70% of our outstanding common stock. Based on the number of shares issued as of September 30, 2003 in the merger with Travelzoo Bahamas, Mr. Bartel's shares represent 92% of the outstanding shares.
- (2) Mr. Bartel granted Wedbush Morgan Securities, Inc. a warrant to purchase 30,000 shares of common stock held by Mr. Bartel, subject to adjustment, at a price per share equal to 120% of the public offering price set forth on the cover page of this prospectus. The warrant is exercisable for any or all of such shares, at any time beginning on the first anniversary of the date of this prospectus and expiring five years from the date of this prospectus. In addition to including such shares in the registration statement relating to this prospectus, Travelzoo has granted Wedbush Morgan Securities, Inc. certain registration rights with respect to such shares. Other than such shares and the shares of our common stock being acquired in this offering, Wedbush Morgan Securities, Inc. currently owns no shares, or rights to acquire shares, of our common stock. See Plan of Distribution.
- (3) These shares were donated by Ralph Bartel to various charitable/civic organizations in the category described. The shares beneficially owned by and offered by the organizations included in each specified category represent, less than one percent of the shares being offered hereby.

DESCRIPTION OF CAPITAL STOCK

The following description of our capital stock is subject to the Delaware General Corporation Law and to provisions contained in our Certificate of Incorporation and By-laws.

General

We are authorized to issue 40,000,000 shares of our common stock, \$.01 par value, and 5,000,000 shares of undesignated preferred stock, \$.01 par value.

Common Stock

The holders of our common stock are entitled to one vote per share on all matters to be voted upon by our stockholders. Subject to preferences that may be applicable to any outstanding preferred stock, the holders of our common stock are entitled to receive such dividends, if any, as may be declared from time to time by our board of directors out of funds legally available for that purpose. In the event of our liquidation, dissolution or winding up, the holders of our common stock are entitled to share ratably in all assets remaining after payment of liabilities, subject to prior distribution rights of our preferred stock, if any, then outstanding. The holders of our common stock have no preemptive or conversion rights or other subscription rights.

Preferred Stock

Our board of directors has the authority, without action by the stockholders, to designate and issue our preferred stock in one or more series and to designate the rights, preferences and privileges of each series, which may be greater than the rights of our common stock. It is not possible to state the actual effect of the issuance of any shares of our preferred stock upon the rights of holders of our common stock until the board of directors determines the specific rights of the holders of our preferred stock. However, the effects might include:

- restricting dividends on our common stock;
- diluting the voting power of our common stock;
- impairing the liquidation rights of our common stock; or
- delaying or preventing a change of control of us without further action by our stockholders.

No shares of our preferred stock are outstanding, and we have no present plans to issue any shares of our preferred stock.

Anti-Takeover Effects of Our Certificate of Incorporation and By-laws and Delaware Law

Some provisions of Delaware law and our certificate of incorporation and by-laws could make the following more difficult:

- acquisition of us by means of a tender offer;
- acquisition of us by means of a proxy contest or otherwise; or
- removal of our incumbent officers and directors.

These provisions are intended to discourage coercive takeover practices and inadequate takeover bids. These provisions also are designed to encourage persons seeking to acquire control of us to first negotiate with our board of directors. We believe that the benefits of increased protection give us the potential ability to negotiate with the proponent of an unfriendly or unsolicited proposal to acquire or restructure us and outweigh the disadvantages of discouraging such proposals because negotiation of such proposals could result in an improvement of their terms.

Stockholder Meetings

Under our by-laws, only our Chairman of the Board, our President or our board of directors may call special meetings of our stockholders.

Delaware Anti-Takeover Law

Section 203 of the Delaware General Corporation Law generally prohibits a publicly held Delaware corporation from engaging in a business combination with an interested stockholder for a period of three years following the date the person became an interested stockholder, unless the business combination or the transaction in which the person became an interested stockholder is approved in a prescribed manner. A business combination includes a merger, asset or stock sale, or other transaction resulting in a financial benefit to the interested stockholder. An interested stockholder is a person or corporation that owns or, within three years prior to the determination of interested stockholder status, did own, 15% or more of a corporation's voting stock, and the associates and affiliates of such person or corporation. Section 203 may have an anti-takeover effect with respect to transactions not approved in advance by our board of directors, and may discourage attempts that might result in a premium over the market price for the shares of common stock held by stockholders.

No Cumulative Voting

Our certificate of incorporation and by-laws do not provide for cumulative voting in the election of directors.

Undesignated Preferred Stock

The authorization of undesignated preferred stock makes it possible for our board of directors to issue our preferred stock with voting or other rights or preferences that could impede the success of any attempt to change control of us. These and other provisions may have the effect of deferring hostile takeovers or delaying changes of control of our management.

PRICE RANGE OF COMMON STOCK AND DIVIDEND INFORMATION

Our common stock is included on the OTC Bulletin Board under the symbol TVZO. The following table shows, for the periods indicated, the high and low bid quotations per share of the common stock. Prices are inter-dealer quotations as reported by NASDAQ and do not necessarily reflect transactions, retail markups, mark downs or commissions. As of September 30, 2003, there were approximately 130,000 holders of our common stock.

Dividends

We have not paid any dividends on our common stock in the past and do not expect to pay dividends in the foreseeable future. We currently intend to retain future earnings to finance the expansion of our business. The payment of dividends will be at the discretion of our board of directors and will depend upon factors such as future earnings, capital requirements, our financial condition and general business conditions.

PLAN OF DISTRIBUTION

Underwriting

Subject to the terms and conditions of the underwriting agreement among the Company, Ralph Bartel, our Chief Executive Officer, and Wedbush Morgan Securities, Inc. (the Underwriter), a copy of which is filed as an exhibit to the registration statement relating to this prospectus, the Underwriter has agreed to purchase from Mr. Bartel and Mr. Bartel has agreed to sell to the Underwriter, an aggregate of 350,000 shares of common stock (Mr. Bartel's Offered Shares). Such shares are being sold pursuant to this prospectus in blocks of not more than 1,000 and not less than 100 shares. The selling stockholders other than Mr. Bartel are not parties to the Underwriting Agreement, and the Underwriter is not purchasing the shares of common stock offered hereby by such other selling stockholders.

The Underwriting Agreement provides that the obligation of the Underwriter to purchase Mr. Bartel's Offered Shares is subject to certain conditions precedent and that the Underwriter will purchase all of Mr. Bartel's Offered Shares if any of such shares are purchased.

Mr. Bartel has granted the Underwriter an option, exercisable not later than 45 days after the date of this prospectus, to purchase up to an additional 52,500 shares of common stock held by Mr. Bartel. This option may be exercised in whole or in part from time to time during the 45-day period after the date of this prospectus. To the extent that the Underwriter exercises such option, Mr. Bartel will be obligated, pursuant to the option, to sell such shares to the Underwriter. The Underwriter may exercise such option only to cover overallocments made in connection with the sale of Mr. Bartel's Offered Shares offered hereby. If purchased, the Underwriter will offer such additional shares on the same terms as those on which Mr. Bartel's Offered Shares are being offered.

The Underwriting Agreement contains covenants of indemnity and contribution among the Company, Mr. Bartel and the Underwriter with respect to certain liabilities, including liabilities under the Securities Act of 1933.

We and Mr. Bartel have been advised by the Underwriter that the Underwriter proposes to offer Mr. Bartel's Offered Shares to the public at the public offering price set forth on the cover page of this prospectus. After this offering, the offering price and other selling terms may be changed by the Underwriter.

In accordance with the Underwriting Agreement, we have agreed to pay or reimburse the Underwriter for certain of the Underwriter's out-of-pocket expenses, including fees and expenses of the Underwriter's counsel. Such expenses are estimated to be approximately \$100,000. In addition, Mr. Bartel has agreed to grant the Underwriter a warrant to purchase 30,000 shares of common stock held by Mr. Bartel, subject to adjustment, at a price per share equal to 120% of the public offering price set forth on the cover page of this prospectus. The warrant is exercisable for any or all of such shares, at any time beginning on the first anniversary of the date of this prospectus and expiring five years from the date of this prospectus. In addition to including such shares in the registration statement relating to this prospectus, the Company has granted the Underwriter certain registration rights with respect to such shares, including certain demand registration rights and piggyback registration rights that will expire no later than five and seven years, respectively, from the date of this prospectus.

(1) Calculated in accordance with Rules of Fair Practice of the National Association of Securities Dealers, Inc., based on the number of shares and exercise price, at 1.93% of the public offering price set forth on the cover page of this prospectus.

To facilitate this offering, the Underwriter may engage in transactions that stabilize, maintain or otherwise affect the market price of our common stock. Specifically, the Underwriter may overallocate shares of our common stock in connection with this offering, thereby creating a short position in the Underwriter's account. Additionally, to cover such overallocations or to stabilize the market price of our common stock, the Underwriter may bid for, and purchase, shares of our common stock at a level above that which might otherwise prevail in the open market. The Underwriter is not required to engage in these activities, and, if commenced, may discontinue such activities at any time. The Underwriter may also reclaim selling concessions allowed to a dealer if the Underwriter repurchases shares distributed by that dealer.

The Underwriter has advised us that it may engage in passive market-making transactions in our common stock in accordance with rules promulgated by the SEC. In general, a passive market-maker may not bid for or purchase shares of common stock at a price that exceeds the highest independent bid. In addition, the net daily purchases made by any passive market-maker generally may not exceed 30% of its average daily trading volume in our common stock during a specified two-month prior period or 200 shares, whichever is greater. A passive market-maker must identify passive market-making bids as such. Passive market-making may have the effect of stabilizing or maintaining the market price of our common stock at a level above that which might otherwise prevail in the open market. The underwriter is not required to engage in passive market-making and, if commenced, may discontinue such activities at any time.

The Company, our directors, officers and certain of our stockholders have agreed that we will not, directly or indirectly, offer, sell or otherwise dispose of, any of our common stock (other than common stock included in this offering) or any securities convertible into or exchangeable for, or any rights to purchase or acquire, common stock of the Company for 180 days after the date of this prospectus without the prior written consent of the Underwriter.

The Underwriter has performed and may continue to perform certain financial advisory services for us and our subsidiaries.

Selling Stockholders other than Mr. Bartel

The shares being offered by the selling stockholders other than Mr. Bartel are not subject to or covered by the underwriting arrangements described above. The selling stockholders other than Mr. Bartel may sell the shares in one or more transactions (which may include block transactions) on the OTC Bulletin Board in negotiated transactions, through the settlement of short sales or in a combination

of such methods of sales, at fixed prices which may be changed, at market prices prevailing at the time of sale, at prices related to such prevailing market prices or at negotiated prices. The selling stockholders other than Mr. Bartel may effect such transactions by selling the shares directly to purchasers, or may sell to or through agents or dealers designated from time to time, and such agents or dealers may receive compensation in the form of discounts, concessions or commissions from the selling stockholders and/or the purchaser(s) for whom they may act as agent or to whom they may sell as principals, or both. The selling stockholders other than Mr. Bartel and any agents or dealers that act in connection with the sale of the shares of our common stock might be deemed to be underwriters within the meaning of Section 2(11) of the Securities Act, and any discount or commission received by them and any profit on the resale of the shares as principal might be deemed to be underwriting discounts or commissions under the Securities Act. To the extent that any persons acting in connection with the sale of such shares

Edgar Filing: TRAVELZOO INC - Form 424B4

are deemed to be underwriters, Travelzoo will not participate in any arrangements which would provide commissions or discounts to such underwriters exceeding 8% of the sale proceeds.

In connection with sales of the remaining shares of common stock or otherwise, the selling stockholders other than Mr. Bartel may enter into hedging transactions with broker-dealers, which may in turn engage in short sales of the common stock in the course of hedging in positions they assume. The selling stockholders other than Mr. Bartel may also sell shares of common stock short and deliver shares of common stock to close out short positions, or loan or pledge shares of common stock to broker-dealers that in turn may sell such shares. If the selling stockholders other than Mr. Bartel effect such transactions by selling shares of common stock to or through underwriters, broker-dealers or agents, such underwriters, brokers-dealers or agents may receive commissions in the form of discounts, concessions or commissions from the selling stockholders or commissions from purchasers of the shares of common stock for whom they may act as agent or to whom they may sell as principal (which discounts, concessions or commissions as to particular underwriters, brokers-dealers or agents may be in excess of those customary in the types of transactions involved). Any commissions, discounts or other fees payable to a broker, dealer, underwriter, agent or market maker in connection with the sale of any of the remaining shares will be borne by the selling stockholders.

At the time a particular offering of the remaining shares of common stock, a prospectus supplement, if required, will be distributed which will set forth the aggregate amount of shares of common stock being offered and the terms of the offering, including the name or names of any broker-dealers or agents, any discounts, commissions and other terms constituting compensation from the selling stockholder and any discounts, commissions or concessions allowed or reallocated or paid to broker-dealers.

Under the securities laws of some states, the shares of common stock may be sold in such states only through registered or licensed brokers or dealers. In addition, in some states the shares of common stock may not be sold unless such shares have been registered or qualified for sale in such state or an exemption from registration or qualification is available and is complied with.

LEGAL MATTERS

Bryan Cave LLP, St. Louis, Missouri, as our counsel, has issued an opinion as to the legality of the common stock. Milbank, Tweed, Hadley & McCloy LLP, Los Angeles, California, will pass upon certain legal matters for the underwriter in connection with this offering.

EXPERTS

The consolidated balance sheets of Travelzoo Inc. and subsidiaries as of December 31, 2002 and 2001, and the related consolidated statements of operations, stockholders' equity, and cash flows for each of the years in the three-year period ended December 31, 2002 have been included herein in reliance upon the report of KPMG LLP, independent certified public accountants, appearing elsewhere herein, and upon the authority of that firm as experts in accounting and auditing.

INDEPENDENT AUDITORS REPORT

The Board of Directors and Stockholders
Travelzoo Inc.

We have audited the accompanying consolidated balance sheets of Travelzoo Inc. and subsidiaries as of December 31, 2002 and 2001, and the related consolidated statements of operations, stockholders' equity, and cash flows for each of the years in the three-year period ended December 31, 2002. These consolidated financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these consolidated financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of Travelzoo Inc. and subsidiaries as of December 31, 2002 and 2001, and the results of their operations and their cash flows for each of the years

Edgar Filing: TRAVELZOO INC - Form 424B4

in the three-year period ended December 31, 2002, in conformity with accounting principles generally accepted in the United States of America.

TRAVELZOO INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

December 31, 2002, 2001, and 2000

(1) Summary of Significant Accounting Policies

(a) Description of Business and Basis of Presentation

The consolidated financial statements include the accounts of Travelzoo Inc. and its wholly-owned subsidiaries (the Company or Travelzoo). All significant intercompany accounts and transactions have been eliminated in consolidation. The Company publishes the *Travelzoo* website, the *Travelzoo Top 20* e-mail newsletter, and the *Weekend.com* e-mail newsletter which provide advertising opportunities for the travel industry.

The Company was formed as a result of a combination and merger of entities founded by the Company's majority stockholder, Mr. Ralph Bartel. In 1998, Mr. Bartel founded Travelzoo.com Corporation, a Bahamas corporation, which also issued 5,155,874 shares via the Internet to approximately 700,000 stockholders (the Netsurfer stockholders) for no cash consideration. In 1998, Mr. Bartel also founded Silicon Channels Corporation, a California corporation, to operate the *Travelzoo* website. During 2001, Travelzoo Inc. was formed as a subsidiary of Travelzoo.com Corporation, and Mr. Bartel contributed all of the outstanding shares of Silicon Channels to Travelzoo Inc. in exchange for 8,129,273 shares of Travelzoo Inc. and options to acquire an additional 2,158,349 shares at \$1.00. The merger was accounted for as a combination of entities under common control using as-if pooling-of-interests accounting. Under this method of accounting, the assets and liabilities of Silicon Channels Corporation and Travelzoo Inc. were carried forward to the combined company at their historical costs. In addition, all prior period financial statements of Travelzoo Inc. were restated to include the combined results of operations, financial position and cash flows of Silicon Channels Corporation.

Edgar Filing: TRAVELZOO INC - Form 424B4

During January 2001, the Board of Directors of Travelzoo.com Corporation proposed that Travelzoo.com Corporation be merged with Travelzoo Inc. whereby Travelzoo Inc. would be the surviving entity. On March 15, 2002, the stockholders of Travelzoo.com Corporation approved the merger with Travelzoo Inc. On April 25, 2002, the certificate of merger was filed in Delaware upon which the merger became effective and Travelzoo.com Corporation was dissolved. Each outstanding share of common stock of Travelzoo.com Corporation was converted into the right to receive one share of common stock of Travelzoo Inc. Stockholders have a period of two years to receive shares of Travelzoo Inc. Travelzoo.com Corporation had 11,295,874 shares outstanding. As of December 31, 2002, 6,791,612 shares of Travelzoo.com Corporation had been exchanged for shares of Travelzoo Inc. The remaining 4,504,262 shares of Travelzoo Inc. that may be exchanged are included in the issued and outstanding common stock of Travelzoo Inc. and earnings per share calculations. The merger was accounted for as a combination of entities under common control using as-if pooling-of-interests accounting. Under this method of accounting, the assets and liabilities of Travelzoo.com Corporation and Travelzoo Inc. were carried forward at their historical costs. In addition, all prior period financial statements of Travelzoo Inc. were restated to include the combined results of operations, financial position and cash flows of Travelzoo.com Corporation. The restated results of Travelzoo Inc. are identical to the combined results of Travelzoo.com Corporation and Travelzoo Inc.

(b) Revenue Recognition

Revenue consists of advertising sales and commissions from e-commerce transactions. Advertising revenues are derived principally from the sale of display advertising, classified advertising, and banner advertising on the *Travelzoo* website and in the *Travelzoo Top 20* e-mail newsletter. Commissions are generated from bookings of travel services through customer advertising on the *Travelzoo* website.

Advertising revenues are recognized in the period in which the advertisement is displayed, provided that evidence of an arrangement exists, the fees are fixed or determinable, no significant obligations remain at the end of the period, and collection of the resulting receivable is deemed probable. If fixed-fee advertising is

F-7

TRAVELZOO INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

displayed over a term greater than one month, revenues are recognized ratably over the period. To the extent that any minimum guaranteed impressions are not met during the contract period, the Company defers recognition of the corresponding revenues until the guaranteed impressions are achieved. Fees for banner advertising and other variable-fee advertising arrangements are recognized based on the number of impressions displayed or clicks delivered during the period.

The Company had outsourced part of its advertising sales and production activities to DoubleClick, Inc. (DoubleClick). Under the terms of the agreement with DoubleClick, the Company received a portion of the revenue received by DoubleClick from customers for the display of advertising on the *Travelzoo* website. The Company recorded these revenues on a net basis. The gross revenue received by DoubleClick from advertising on the *Travelzoo* website was \$82,939, \$600,454, and \$430,130 for the years ended December 31, 2002, 2001, and 2000 respectively. The Company's share of this income, which has been recorded as revenue, was \$38,354, \$332,736, and \$231,885 for the years ended December 31, 2002, 2001, and 2000 respectively. The agreement with DoubleClick was canceled as of August 23, 2002.

Revenues from advertising barter transactions are recognized in the period during which the advertisements are displayed on the *Travelzoo* website. Expenses from barter transactions are recognized in the period during which the advertisements are displayed on the barter partner's website. Barter transactions are recorded at the fair value of the advertising provided based on cash received by the Company for transactions involving similar types of advertising during the six months preceding the transaction in accordance with Emerging Issues Task Force (EITF) Issue No. 99-17, *Accounting for Advertising Barter Transactions*. The amounts included in advertising revenues and sales and marketing expenses for barter transactions were \$-0-, \$-0-, and \$37,000 for the years ended December 31, 2002, 2001, and 2000, respectively.

Commissions are recorded as the net amount received by the Company and are recognized in the period in which the commissions earned are reported to the Company by the e-commerce partner.

(c) Net Income Per Share

Net income per share has been calculated in accordance with SFAS No. 128, *Earnings per Share*. Basic net income per share is computed using the weighted-average number of common shares outstanding for the period. Diluted net income per share is computed by adjusting the weighted-average number of common shares for the effect of potential common shares outstanding during the period. Potential common shares included in the diluted calculation consist of incremental shares issuable upon the exercise of outstanding stock options calculated using the treasury stock method.

TRAVELZOO INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

The following table sets forth the calculation of basic and diluted income per share:

	Year Ended December 31,		
	2002	2001	2000
Basic net income per share:			
Net income	\$ 853,071	\$ 363,735	\$ 361,686
Weighted average common shares	19,425,147	19,425,147	19,372,791
Basic net income per share	\$ 0.04	\$ 0.02	\$ 0.02
Diluted net income per share:			
Net income	\$ 853,071	\$ 363,735	\$ 361,686
Weighted average common shares	19,425,147	19,425,147	19,372,791
Effect of dilutive securities-stock options	471,206		94,019
Weighted average common and potential common shares	19,896,353	19,425,147	19,466,810
Diluted net income per share	\$ 0.04	\$ 0.02	\$ 0.02

For the year ended December 31, 2001, all outstanding stock options were excluded from the calculation of diluted earnings per share because their effect was antidilutive.

(d) Use of Estimates

Management of the Company have made a number of estimates and assumptions relating to the reporting of assets, liabilities, revenues and expenses and the disclosure of contingent assets and liabilities to prepare these financial statements in conformity with accounting principles generally accepted in the United States of America. Actual results could differ from those estimates.

(e) Property and Equipment

Property and equipment consisted of the following:

	December 31,	
	2002	2001
Computer hardware and software	\$ 249,801	\$ 182,461
Office equipment	141,266	95,063

(f) Intangible Assets

Intangible assets consist of the following:

	December 31,	
	2002	2001
Acquired amortized intangible assets:		
Internet domain names	\$ 344,857	\$ 414,286
Less accumulated amortization	132,564	54,048
Total	\$ 212,293	\$ 360,238

Amortization expense was \$78,518, \$50,714, and \$3,333 for the years ended December 31, 2002, 2001 and 2000, respectively.

In October 2001, the Company completed the acquisition of the *Weekends.com* domain name. As consideration for the purchase, the Company paid the seller \$125,000 and agreed to provide a minimum number of clicks to the seller's other websites through advertising placed on the *Travelzoo* website. The fair value of the advertising services of \$89,286 was determined based on the cash price of similar advertising services and recorded as deferred revenue. The revenue was recognized as the clicks were delivered. During the years ended December 31, 2002 and 2001, \$3,410 and \$16,449 of revenues related to this arrangement were recognized. The agreement with the seller to provide advertising services expired on September 30, 2002. As such, \$69,427 of advertising was not delivered and the carrying amounts of the intangible asset and related deferred revenue were reduced accordingly.

Estimated future amortization expense related to intangible assets at December 31, 2002 is as follows:

2003	\$ 65,500
2004	65,500
2005	62,167
2006	19,126
	<hr/>
	\$ 212,293

(g) Advertising Costs

Advertising costs (including barter advertising) amounted to \$3,960,464, \$2,264,488 and \$1,161,800 for the years ended December 31, 2002, 2001, and 2000, respectively. During the years ended December 31, 2002, 2001 and 2000, \$546,214, \$492,672 and \$256,920, respectively, of advertising services were purchased from the Company's customers under non-barter arrangements.

(h) Income Taxes

Income taxes are accounted for under the asset and liability method. Deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases. Deferred tax assets are recognized for deductible temporary differences, along with net operating loss carryforwards and credit carryforwards, if it is more likely than not that the tax benefits will be realized. To the extent a deferred tax asset cannot be recognized under the preceding criteria, allowances must be established. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled.

(i) Impairment of Long-Lived Assets

The Company accounts for long-lived assets in accordance with the provisions of Statement of Financial Accounting Standards (SFAS) No. 144, *Impairment of Long-Lived Assets*. SFAS No. 144 requires an impairment loss to be recognized on assets to be held and used if the carrying amount of a long-lived asset is not recoverable from its undiscounted cash flows. The amount of the impairment loss is measured as the difference between the carrying amount and the fair value of the asset. Assets to be disposed of are reported at the lower of the carrying amount or fair value less costs to sell.

(j) Stock-Based Compensation

As allowed under SFAS No. 123, *Accounting for Stock-Based Compensation*, the Company has elected to follow Accounting Principles Board (APB) Opinion No. 25, *Accounting for Stock Issued to Employees*, and related interpretations in accounting for fixed plan stock awards to employees. Deferred stock-based compensation for options granted to employees is determined as the excess of the fair value of the common stock over the exercise price on the date options were granted. Stock-based compensation is amortized over the vesting period of the individual award.

Had all stock-based compensation awards granted to employees and directors been accounted for using the fair value based method net income and net income share would have been adjusted to the amounts reported in the following table.

	Year Ended December 31,		
	2002	2001	2000
Net income as reported	\$ 853,071	\$ 363,735	\$ 361,686
Stock-based compensation included in determination of net income			9,221
Stock-based compensation determined under the fair-value based method	(1,908)	(56,182)	(11,765)
Pro-forma net income as if the fair value based method had been applied to all awards	<u>\$ 851,163</u>	<u>\$ 307,553</u>	<u>\$ 359,142</u>
Pro-forma basic and diluted net income per share as if the fair value based method had been applied to all awards	<u>\$ 0.04</u>	<u>\$ 0.02</u>	<u>\$ 0.02</u>

The fair value of options granted was calculated as of the grant date using the Black-Scholes method with the following assumptions:

	2002	2001	2000
Numbers of options granted	33,589	210,000	70,000
Grant date fair value of options	\$ 0.06	\$ 0.27	\$ 0.17

Annual volatility	51%	85%	85%
Risk-free interest rates	4.5%	4.5%	4.5%
Dividend Rate			

(k) Website Development Costs

Prior to June 30, 2000, website development costs were expensed as incurred. The Company adopted EITF Issue No. 00-02, *Accounting for Website Development Costs*, on June 30, 2000. The adoption of EITF

TRAVELZOO INC.

Issue No. 00-02 did not have a significant impact on the combined financial statements. Subsequent to the adoption of EITF No. 00-02, no internal website development costs that qualify for capitalization have been incurred.

(I) Recent Accounting Pronouncements

In July 2001, the Financial Accounting Standards Board (FASB) issued SFAS No. 141, *Business Combinations* and SFAS No. 142, *Goodwill and Other Intangible Assets*. SFAS No. 141 provides guidance on the accounting for a business combination at the date a business combination is completed. The statement requires the use of the purchase method of accounting for all business combinations initiated after June 30, 2001, thereby eliminating use of the pooling-of-interests method. The Company adopted SFAS No. 141 on July 1, 2001. The adoption did not have an effect on the combined financial statements. SFAS No. 142 provides guidance on how to account for goodwill and intangible assets after an acquisition is completed. The most substantive change is that goodwill will no longer be amortized but instead will be tested for impairment periodically. The Company adopted SFAS No. 142 as of the beginning of 2002 and the effect of adoption did not have a material impact on the condensed consolidated financial statements.

In August 2001, the Financial Accounting Standards Board issued SFAS No. 143, *Accounting for Asset Retirement Obligations*. SFAS No. 143 addresses financial accounting and reporting for obligations associated with retirement of tangible long-lived assets and the associated retirement costs. The Company will adopt SFAS No. 143 at the beginning of 2003, and the adoption is not expected to have a material impact on the combined financial statements.

In October 2001, the Financial Accounting Standards Board issued SFAS No. 144, *Impairment of Long-Lived Assets*. SFAS No. 144 supersedes SFAS No. 121, *Accounting for the Impairment of Long-Lived Assets and for Long-Lived Assets to be Disposed of*. SFAS No. 144 retains the requirements of SFAS No. 121 to (a) recognize an impairment loss only if the carrying amount of a long-lived asset is not recoverable from its undiscounted cash flows and (b) measure an impairment loss as the difference between the carrying amount and the fair value of the asset. SFAS No. 144 removes goodwill from its scope. SFAS No. 144 is applicable to the Company's financial statements beginning in 2002. The adoption of this statement did not have a material impact on the consolidated financial statements.

In April 2002, the Financial Accounting Standards Board issued SFAS No. 145, *Rescission of FASB Statements No. 4, 44, and 64, Amendment of FASB Statement No. 13, and Technical Corrections*. SFAS No. 145 rescinds the requirement that all gains and losses from extinguishment of debt be classified as an extraordinary item. Additionally, SFAS No. 145 requires that certain lease modifications that have economic effects similar to sale-leaseback transactions be accounted for in the same manner as sale-leaseback transactions. SFAS No. 145 is effective for the Company beginning in 2003, and the effect of adoption is not expected to have a material impact on the consolidated financial statements.

In July 2002, the FASB issued Statement No. 146, *Accounting for Costs Associated with Exit or Disposal Activities*. This Statement requires recording costs associated with exit or disposal activities at their fair values when a liability has been incurred. Under previous guidance, certain exit costs were accrued upon management's commitment to an exit plan, which is generally before an actual liability has been incurred. The requirements of this Statement are effective prospectively for exit or disposal activities initiated after December 31, 2002; however, early application of the Statement is encouraged. The Company's adoption of Statement 146 will not have a material impact on its historical financial position or results of operations.

In November 2002, the FASB issued Interpretation No. 45, *Guarantors Accounting and Disclosure Requirements for Guarantees, Including Guarantees of Indebtedness of Others* (FIN 45). FIN 45 requires the Company to recognize, at the inception of a guarantee, a liability for the fair value of the obligation undertaken in the issuance of the guarantee. The disclosure requirements effective for the year ending

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

December 31, 2002, expand the disclosures required by a guarantor about its obligation under a guarantee. The adoption of the disclosure requirements of this statement did not impact the Company's financial position, results of operations or cash flows.

In December 2002, the FASB issued Statement No. 148, *Accounting for Stock-Based Compensation*. This statement provides alternative methods of transition for a voluntary change to the fair value based method of accounting for stock-based employee compensation. In addition, this statement amends the disclosure requirements of Statement 123 to require prominent disclosures in both annual and interim financial statements about the method of accounting for stock-based employee compensation and the effect of the method used on reported results. The Company has adopted the new disclosure requirements of this statement.

In January 2003, the FASB issued Interpretation No. 46, *Consolidation of Variable Interest Entities* (FIN 46). The interpretation provides guidance for determining when a primary beneficiary should consolidate a variable interest entity or equivalent structure, that functions to support the activities of the primary beneficiary. The interpretation is effective as of the beginning of Company's third quarter of 2003 for variable interest entities created before February 1, 2003. The adoption of this statement is not expected to impact the Company's financial position, results of operations or cash flows.

(2) Commitments

The Company leases office space in Mountain View, California, and in New York, New York, under operating leases which expire on December 31, 2003 and June 30, 2004, respectively. The future minimum rental payments under these operating leases as of December 31, 2002, total \$556,940 and \$197,940 for 2003 and 2004, respectively. Rent expense was \$471,766, \$302,355 and \$154,498 for the years ended December 31, 2002, 2001, and 2000, respectively.

No valuation allowance has been recorded for the deferred tax assets because management believes that the Company is more likely than not to generate sufficient future taxable income to realize the related tax benefits.

(5) Stockholders Equity

As of December 31, 2002 the authorized capital stock of Travelzoo Inc. comprised 40,000,000 shares of \$.01 par value common stock and 5,000,000 shares of \$.01 par value preferred stock. As of December 31, 2002 19,425,147 shares of common stock and no shares of preferred stock were issued and outstanding. During 2000, the Company granted to an employee options to purchase 334,676 shares of common stock with an exercise price of \$0.05 and a two-year vesting period. In September 2000, upon the termination of the employee, 70,000 options were fully vested under the original terms of the grant and the remaining unvested options were forfeited. The Company recorded stock-based compensation in 2000 of \$9,221 based on the intrinsic value of the options that vested. The 70,000 vested options were exercised in September 2000.

As described in note 1(a), as part of the consideration exchanged for the outstanding shares of Silicon Channels Corporation, the Company also issued to the majority stockholder in January 2001 fully vested and exercisable options to acquire 2,158,349 shares of common stock. The options have an exercise price of \$1.00 and expire in January 2011.

In October 2001, the Company granted to each director fully vested and exercisable options to purchase 30,000 shares of common stock with an exercise price of \$2.00 for their services as a director in 2000 and 2001. A total of 210,000 options were granted. The options expire in October 2011.

In March 2002, Travelzoo Inc. granted to each director fully vested and exercisable options to purchase 5,000 shares of common stock with an exercise price of \$3.00 for their services as a director in 2002. A total of 35,000 options were granted. In October 2002, 1,411 options were forfeited upon the resignation of a director. All other options are vested as of December 31, 2002. The options expire in March 2012.

(6) Significant Customer Information and Segment Reporting

SFAS No. 131, *Disclosure about Segments of an Enterprise and Related Information*, establishes standards for the reporting by business enterprises of information about operating segments, products and services, geographic areas, and major customers. The method for determining what information to report is based on the way that management organizes the operating segments within a company for making operational decisions and assessing performance. As of December 31, 2002, the Company has one operating segment: online advertising.

Significant customer information is as follows:

Customer	Percentage of Total Revenue			Percent of Accounts Receivable

1) Basis of Presentation

The accompanying unaudited condensed consolidated financial statements have been prepared by Travelzoo Inc. (the Company or Travelzoo) in accordance with the rules and regulations of the Securities and Exchange Commission (SEC). Certain information and footnote disclosure normally included in consolidated financial statements prepared in accordance with generally accepted accounting principles in the United States of America have been condensed or omitted in accordance with such rules and regulations. In the opinion of management, the accompanying unaudited condensed consolidated financial statements reflect all adjustments, consisting only of normal recurring adjustments, necessary to present fairly the financial position of the Company, and its results of operations and cash flows. These condensed consolidated financial statements should be read in conjunction with the Company's audited consolidated financial statements and related notes as of and for the year ended December 31, 2002, included in the Company's Form 10-K filed with the SEC on March 28, 2003.

The consolidated financial statements include the accounts of Travelzoo and its wholly-owned subsidiaries. All significant intercompany accounts and transactions have been eliminated in consolidation.

The results of operations for the six months ended June 30, 2003 are not necessarily indicative of the results that may be expected for the year ending December 31, 2003 or any other future period, and the Company makes no representations related thereto.

During January 2001, the Board of Directors of Travelzoo.com Corporation proposed that Travelzoo.com Corporation be merged with Travelzoo Inc. whereby Travelzoo Inc. would be the surviving entity. On March 15, 2002, the stockholders of Travelzoo.com Corporation approved the merger with Travelzoo Inc. On April 25, 2002, the certificate of merger was filed in Delaware upon which the merger became effective and Travelzoo.com Corporation was dissolved. Each outstanding share of common stock of Travelzoo.com Corporation was converted into the right to receive one share of common stock of Travelzoo Inc. Former stockholders of Travelzoo.com Corporation have a period of two years to receive shares of Travelzoo Inc. Travelzoo.com Corporation had 11,295,874 shares outstanding. As of June 30, 2003, 7,148,184 shares of Travelzoo.com Corporation had been exchanged for shares of Travelzoo Inc. The remaining 4,147,690 shares of Travelzoo Inc. that may be exchanged are included in the issued and outstanding common stock of Travelzoo Inc. and the calculations of basic and diluted earnings per share. The merger was accounted for as a combination of entities under common control using as-if pooling-of-interests accounting. Under this method of accounting, the assets and liabilities of Travelzoo.com Corporation and Travelzoo Inc. were carried forward to the combined company at their historical costs. In addition, all prior period financial statements of Travelzoo Inc. were restated to include the combined results of operations, financial position and cash flows of Travelzoo.com Corporation. The restated results for Travelzoo Inc. are identical to the combined results of Travelzoo.com Corporation and Travelzoo Inc.

2) Revenue Recognition

Substantially all revenue consists of advertising sales. Advertising revenues are derived principally from the sale of advertising on the *Travelzoo* website and in the *Travelzoo Top 20* e-mail newsletter.

Advertising revenues are recognized in the period in which the advertisement is displayed, provided that evidence of an arrangement exists, the fees are fixed and determinable, no significant obligations remain at the end of the period, and collection of the resulting receivable is deemed probable. Where collectibility is not probable, the revenue will be recognized upon cash collection, provided that

the other criteria for revenue recognition have been met. If fixed-fee

F-21

advertising is displayed over a term greater than one month, revenues are recognized ratably over the period. To the extent that any minimum guaranteed impressions are not met during the contract period, the Company defers recognition of the corresponding revenues until the guaranteed impressions are achieved. Fees for banner advertising and other variable-fee advertising arrangements are recognized based on the number of impressions displayed or clicks delivered during the period.

The Company had outsourced part of its advertising sales and production activities to DoubleClick, Inc. (DoubleClick). The agreement with DoubleClick was canceled as of August 23, 2002. Under the terms of the agreement with DoubleClick, the Company received a portion of the revenue received by DoubleClick from clients for the display of advertising on the *Travelzoo* website. The Company records these revenues on a net basis. The gross revenue received by DoubleClick from advertising on the *Travelzoo* website was \$-0- and \$45,521 for the six months ended June 30, 2003 and 2002, respectively. The Company's share of this income, which has been recorded as revenue, was \$-0- and \$20,394 for the six months ended June 30, 2003 and 2002, respectively.

Commissions are recorded as the net amount received by the Company and are recognized in the period in which the commissions earned are reported to the Company by the e-commerce partner.

In October 2001, the Company completed the acquisition of the *Weekends.com* domain name. As consideration for the purchase, the Company paid the seller \$125,000 in cash and agreed to provide a minimum number of clicks to the seller's other websites through advertising placed on the *Travelzoo* website. The fair value of the advertising services of \$89,286 was determined based on the cash price of similar advertising services and recorded as deferred revenue. The revenue is being recognized as the clicks are delivered, and \$3,410 of such revenue was recognized for the six months ended June 30, 2002. The agreement with the seller to provide advertising services expired on September 30, 2002. As such, \$69,427 of advertising was not delivered and the carrying amounts of the intangible asset and related deferred revenue were reduced accordingly.

3) Stock-based Compensation

The Company adopted Statement of Financial Accounting Standards No. 148, *Accounting for Stock-Based Compensation -- Transition and Disclosure*, during the quarter ended March 31, 2003. As required under Statement of Financial Accounting Standards No. 123, *Accounting for Stock-Based Compensation*, and Statement of Financial Accounting Standards No. 148, *Accounting for Stock-Based Compensation Transition and Disclosure*, the pro forma effects of stock-based compensation on net income and net earnings per common share have been estimated at the time of grant using the Black-Scholes option-pricing model.

F-22

For purposes of pro forma disclosures, the estimated fair value of the options is assumed to be amortized to expense over the options vesting periods. The pro forma effects of recognizing compensation expense under the fair value method on net income and net earnings per common share were as follows:

	Six months ended June 30,	
	2003	2002
Net income as reported	\$ 981,010	\$ 281,620
Stock-based compensation included in determination of net income	--	--
Stock-based compensation determined under the fair-value based method	--	(954)
Pro-forma net income as if the fair value based method had been applied to all awards	\$ 981,010	\$ 280,666

Edgar Filing: TRAVELZOO INC - Form 424B4

Pro-forma basic and diluted net income per share as if the fair value based method had been applied to all awards	\$ 0.05	\$ 0.01
---	---------	---------

The fair value of options granted was calculated as of the grant date using the Black-Scholes method with the following assumptions:

	2003	2002
Numbers of options granted	--	33,589
Grant date fair value of options	--	0.06
Grant date fair value of the common stock	\$ --	\$ 0.56
Expected life of the option (in years)	--	5
Annual volatility	--	51%
Risk-free interest rates	--	4.5%
Dividend rate	--	--

4) Net Income Per Share

Net income per share has been calculated under SFAS No. 128, *Earnings per Share*. Basic net income per share is computed by dividing the net income by the weighted-average number of common shares outstanding for the period. Diluted net income per share is computed by dividing net income by the weighted-average number of common shares and potential common shares outstanding during the period. Potential common shares included in the diluted calculation consists of incremental shares issuable upon the exercise of outstanding stock options calculated using the treasury stock method.

F-23

The following table sets forth the calculation of basic and diluted net income per share:

	Three months ended June 30,		Six months ended June 30,	
	2003	2002	2003	2002
Basic net income per share:				
Net income	\$ 596,397	\$ 145,880	\$ 981,010	\$ 281,620
Weighted average common shares	19,425,147	19,425,147	19,425,147	19,425,147
Basic net income per share	\$ 0.03	\$ 0.01	\$ 0.05	\$ 0.01
Diluted net income per share:				
Net income	\$ 596,397	\$ 145,880	\$ 981,010	\$ 281,620
Weighted average common shares	19,425,147	19,425,147	19,425,147	19,425,147
Effect of dilutive securities stock options	1,073,518	--	1,076,455	--
Diluted weighted average common shares	20,498,665	19,425,147	20,501,602	19,425,147
Diluted net income per share	\$ 0.03	\$ 0.01	\$ 0.05	\$ 0.01

Edgar Filing: TRAVELZOO INC - Form 424B4

For the three and six months ended June 30, 2002, all outstanding stock options were excluded from the calculation of diluted earnings per share because their effect was antidilutive.

5) Commitments

The Company leases office space in Mountain View, California, New York, New York and Miami, Florida, under operating leases which expire on December 31, 2003, June 30, 2004 and May 31, 2004, respectively. The future minimum rental payments under these operating leases as of June 30, 2003 and December 31, 2002 total \$626,463 and \$556,940, respectively. The future lease payments consist of \$359,362 of payments due in 2003 and \$267,101 of payments due in 2004.

6) Significant Customer Information and Segment Reporting

SFAS No. 131, *Disclosure about Segments of an Enterprise and Related Information*, establishes standards for the reporting by business enterprises of information about operating segments, products and services, geographic areas, and major customers. The method for determining what information to report is based on the way that management organizes the operating segments within a company for making operational decisions and assessing performance. As of June 30, 2003, the Company has one operating segment.

Significant customer information is as follows:

Customer	Percent of revenues		Percent of accounts receivable	
	Six months ended June 30,		June 30,	
	2003	2002	2003	2002
A	13%	17%	21%	22%
B	--	*	--	12%
C	10%	15%	17%	17%

All of the above customers are located in the United States of America.

* Less than 10%

7) Recent Accounting Pronouncements

In August 2001, the Financial Accounting Standards Board issued SFAS No. 143, *Accounting for Asset Retirement Obligations*. SFAS No. 143 addresses financial accounting and reporting for obligations associated with retirement of tangible long-lived assets and the associated retirement costs. SFAS No. 143 is effective for the Company beginning in 2003 and the adoption of this statement did not have a material impact on the consolidated financial statements.

In April 2002, the Financial Accounting Standards Board issued SFAS No. 145, *Rescission of FASB Statements No. 4, 44, and 64, Amendment of FASB Statement No. 13, and Technical Corrections*. SFAS No. 145 rescinds the requirement that all gains and losses from extinguishment of debt be classified as an extraordinary item. Additionally, SFAS No. 145 requires that certain lease modifications that have economic effects similar to sale-leaseback transactions be accounted for in the same manner as sale-leaseback transactions. SFAS No. 145 is effective for the Company beginning in 2003, and the effect of adoption did not have a material impact on the consolidated financial statements.

In January 2003, the FASB issued Interpretation No. 46, *Consolidation of Variable Interest Entities* (FIN 46). The interpretation provides guidance for determining when a primary beneficiary should consolidate a variable interest entity or equivalent structure, that functions to support the activities of the primary beneficiary. The interpretation is effective as of the beginning of the Company's third quarter of 2003 for variable interest entities created before February 1, 2003. The Company holds no interest in any variable interest entities. Accordingly, the adoption of this statement is currently not expected to have a material impact on the consolidated financial statements.

Edgar Filing: TRAVELZOO INC - Form 424B4

In May 2003, the FASB issued SFAS No. 150, *Accounting for Certain Financial Instruments with Characteristics of both Liabilities and Equity*. The statement improves the accounting for certain financial instruments that, under previous guidance, issuers could account for as equity. The new statement requires that those instruments be classified as liabilities in statements of financial position. This statement is effective for interim periods beginning after June 15, 2003. The Company does not expect that the adoption of SFAS No. 150 will have a material effect on its consolidated financial statements.
