AIRGATE PCS, INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

December 31, 2004

(unaudited)

(1) Business, Basis of Presentation and Liquidity

(a) Business and Basis of Presentation

The accompanying unaudited consolidated financial statements of AirGate PCS, Inc. and subsidiaries (the Company or AirGate or AirGate PCS) are presented in accordance with the rules and regulations of the Securities and Exchange Commission (SEC) and do not include all of the disclosures normally required by accounting principles generally accepted in the United States of America. In the opinion of management, these statements reflect all adjustments, which are of a normal recurring nature, necessary for a fair presentation of the consolidated financial statements for the interim periods. The consolidated financial statements should be read in conjunction with the audited consolidated financial statements and notes thereto contained in the Company's Annual Report on Form 10-K (the Annual Report) for the fiscal year ended September 30, 2004, which are filed with the SEC and may be accessed via EDGAR on the SEC's website at <http://www.sec.gov>. The results of operations for the quarter ended December 31, 2004 are not necessarily indicative of the results that can be expected for the entire fiscal year ending September 30, 2005. Management of the Company has made a number of estimates and assumptions relating to the reporting of assets and liabilities and the disclosure of contingent liabilities at the dates of the consolidated balance sheets and revenues and expenses during the reporting periods to prepare these consolidated financial statements in conformity with accounting principles generally accepted in the United States of America. Actual results could differ from those estimates. All significant intercompany accounts and transactions have been eliminated in consolidation.

AirGate PCS, Inc. and its subsidiaries were created for the purpose of providing wireless Personal Communication Services (PCS). The Company is a network partner of Sprint with the right to market and provide Sprint PCS products and services using the Sprint brand names in a defined territory. The accompanying consolidated financial statements include the accounts of AirGate PCS, Inc. and its wholly-owned restricted subsidiaries, AGW Leasing Company, Inc., AirGate Service Company, Inc. and AirGate Network Services, LLC for all periods presented.

On October 17, 2003, the Company irrevocably transferred all of its shares of common stock of iPCS, Inc. and its subsidiaries (iPCS) to a trust for the benefit of the Company's stockholders of record as of the date of the transfer. On the date of the transfer, the iPCS investment (\$184.1 million credit balance carrying amount) was eliminated and recorded as a non-monetary gain on disposal of discontinued operations. The Company's consolidated financial statements reflect the results of iPCS as discontinued operations (described below in Note 8).

On February 13, 2004, the Company effected a 1-for-5 reverse stock split and stockholders received one share of common stock, and cash resulting from the elimination of any fractional shares, in exchange for each five shares of common stock then outstanding. All share and per share amounts have been restated to give retroactive effect to the reverse stock split.

(b) Liquidity

The PCS market is characterized by significant risks as a result of rapid changes in technology, intense competition and the costs associated with the build-out, on-going operation and growth of a PCS network. The Company's operations are dependent upon Sprint's ability to perform its obligations under the agreements between the Company and Sprint (see Note 5) under which the Company has agreed to construct and manage its Sprint PCS network (the

Sprint Agreements).

Since inception, the Company has financed its operations through debt financing and proceeds generated from public offerings of its common stock and cash provided from operations. The proceeds from these transactions and cash provided from operations have been used to fund the build-out of the Company's portion of the PCS network of Sprint, subscriber acquisition costs and working capital. Since inception, the Company has invested over \$300 million in capital expenditures.

As of December 31, 2004, the Company had cash and cash equivalents of \$15.9 million and short-term investment securities of \$94.1 million included in working capital of \$86.0 million. The Company's ability to borrow additional funds is limited by the terms of its outstanding notes. As a result, the Company is completely dependent on available cash and operating cash flow to pay debt service and meet its other capital needs. If such sources are not sufficient, alternative funding sources may not be available. The Company believes that cash on hand and short-term investment securities plus the additional liquidity that it expects to generate from operations will be sufficient to fund expected capital expenditures and to cover its working capital and debt service requirements for at least the next 12 months.

The Company's future liquidity will be dependent on a number of factors influencing its projections of operating cash flow, including those related to subscriber growth, retention and credit quality, revenue growth and the Company's ability to manage operating expenses. Should actual results differ significantly from these assumptions, the Company's liquidity position could be

Table of Contents

adversely affected and it could be in a position that would require it to raise additional capital which may or may not be available on terms acceptable to the Company, if at all. The Company's ability to raise capital when needed could have a material adverse effect on the Company's ability to achieve its intended business objectives.

(2) Stock-based Compensation Plans

The Company has elected to continue to account for our stock-based compensation plans under APB Opinion No. 25, Accounting for Stock Issued to Employees, and disclose pro forma effects of the plans on a net income (loss) and earnings (loss) per share basis as provided by SFAS No. 123, Accounting for Stock-Based Compensation. The Company did not recognize compensation expense with respect to options that had an exercise price equal to the fair market value of the Company's common stock on the date of grant. Had compensation expense for these options been recognized based on fair value at the grant dates under the related provisions of SFAS No. 123, the pro forma loss from continuing operations and net income (loss) and earnings (loss) per share during the quarters ended December 31, 2004 and 2003 would have been as follows:

	For the Quarters Ended December 31,	
	2004	2003
	(Dollars in thousands, except per share data)	
Loss from continuing operations, as reported	\$ (15,264)	\$ (11,110)
Add: stock based compensation expense included in determination of loss from continuing operations	497	106
Less: stock based compensation expense determined under the fair value based method	(615)	(2,383)
Pro forma, loss from continuing operations	\$ (15,382)	\$ (13,387)
Basic and diluted loss from continuing operations per share:		
As reported	\$ (1.30)	\$ (2.14)
Pro forma	\$ (1.31)	\$ (2.58)

	For the Quarters Ended December 31,	
	2004	2003
	(Dollars in thousands, except per share data)	
Net income (loss), as reported	\$ (15,264)	\$ 173,005
Add: stock-based compensation expense included in determination of net income (loss)	497	106
Less: stock based compensation expense determined under the fair value based method	(615)	(2,383)
Pro forma net income (loss)	\$ (15,382)	\$ 170,728

Basic and diluted earnings (loss) per share:

As reported	\$	(1.30)	\$	33.32
Pro forma	\$	(1.31)	\$	32.88

(3) Significant New Accounting Pronouncements

In December 2003, the FASB revised Interpretation No. 46, Consolidation of Variable Interest Entities, an interpretation of Accounting Research Bulletin (ARB) No. 51 (FIN 46R). This Interpretation addresses the consolidation by business enterprises of variable interest entities as defined in the Interpretation. FIN 46R replaces FASB Interpretation No. 46, Consolidation of Variable Interest Entities, which was issued in January 2003. This Interpretation applies immediately to variable interest entities created or acquired after January 31, 2003, and to special purpose entities for the quarter ended after December 15, 2003. The Interpretation is generally effective for interim periods ending after March 15, 2004 for all variable

Table of Contents

interest entities created or acquired prior to January 31, 2003. The Company does not have any variable interest entity arrangements.

(4) Merger Agreement with Alamosa Holdings, Inc.

On December 7, 2004, the Company entered into an Agreement and Plan of Merger (the **Merger Agreement**) with Alamosa Holdings, Inc. (**Alamosa**) and A-Co. Merger Sub, Inc., a direct wholly-owned subsidiary of Alamosa (**Merger Sub**). The description of the Merger Agreement set forth below is qualified in its entirety by reference to the actual terms of the Merger Agreement.

Pursuant to the Merger Agreement, the Company will merge (the **Merger**) with and into Merger Sub with Merger Sub surviving. After the Merger, the Company will be a subsidiary of Alamosa. Under the terms of the Merger Agreement, Company stockholders will receive 2.87 Alamosa shares for every share of Company common stock they hold. In addition, Company stockholders will have the option to elect cash consideration in place of Alamosa stock, up to an aggregate amount of \$100 million, with the per share cash consideration (the **Per Share Cash Consideration**) based on the average closing price of Alamosa stock in the ten trading days prior to the completion of the transaction multiplied by 2.87 (the **Per Share Amount**). The Per Share Cash Consideration is subject to proration to ensure that Alamosa exchanges no more than \$100 million in aggregate cash consideration.

Immediately prior to the effective time of the Merger, all outstanding options for our common stock will become vested in full and the Company will pay the holders an amount in cash equal to the number of shares of our common stock issuable thereunder times the amount, if any, by which the Per Share Amount exceeds the exercise price of the options. All outstanding restricted stock units (**RSUs**) will be terminated, and the Company will pay the holder an amount in cash equal to the Per Share Amount for each RSU held. Outstanding warrants for our common stock will become exercisable for Alamosa common stock and cash in the same proportion as our shareholders receive in the aggregate in the Merger.

The completion of the Merger is subject to certain conditions, including obtaining the approval of the Company's and Alamosa's stockholders and the consent of Sprint. The Company received Sprint's consent on January 25, 2005. In the event of a termination of the Merger Agreement under certain circumstances, the Company or Alamosa may be required to pay the other a termination fee as set forth in the Merger Agreement.

Pursuant to the Merger Agreement, Alamosa has agreed to assume our obligations with respect to certain currently effective registration statements covering our outstanding Notes (as defined below) and warrants. In addition, the Indentures governing our outstanding 9 3/8% Senior Subordinated Discount Notes due 2009 (the **9 3/8% Notes**) and our First Priority Senior Secured Floating Rate Notes due 2011 (the **Floating Rate Notes**) (collectively, the **Notes**), provide that the Company may be required to effect a repurchase offer of such Notes upon a change of control of the Company. Pursuant to the Merger Agreement, Alamosa has agreed that it shall, or shall cause Merger Sub, to effect such repurchase offers, if so required by the Indentures.

On January 11, 2005, the Company began soliciting consents from holders of its Notes to proposed amendments to certain provisions of the Indentures governing the Notes. The consent solicitation is related to amendments to the Indentures governing the Notes so that neither AirGate nor Alamosa will be required to make a repurchase offer for the Notes upon completion of the merger. On January 25, 2005, the consent solicitation expired and the Company received consents representing 97% and 92% of the aggregate principal amount of outstanding 9 3/8% Notes and Floating Rates Notes, respectively. As a result, the Company has received the necessary approval of the holders of each series of Notes to the proposed amendment to each of the respective Indentures under which the Notes were issued.

(5) Sprint Agreements

Under our agreements with Sprint, Sprint is obligated to provide the Company with significant support services such as billing, collections, long distance, customer care, network operations support, inventory logistics support, use of Sprint brand names, national advertising, national distribution and product development. Additionally, the Company derives substantial roaming revenue and expense when Sprint's and Sprint's network partners' wireless subscribers incur minutes of use in the Company's territories and when the Company's subscribers incur minutes of use in Sprint and other Sprint network partners' PCS territories. These transactions are recorded as roaming and wholesale revenue, cost of service and roaming, cost of equipment, and selling and marketing expense in the accompanying consolidated statements of operations. Cost of service and roaming transactions include an 8% affiliation fee, long distance charges, roaming expense and costs of service such as billing, collections, customer service and pass-through expenses. Cost of equipment transactions relate to inventory purchased by the Company from Sprint under the Sprint Agreements. Selling and marketing transactions relate to subsidized costs on handsets and commissions paid by the Company under Sprint's national distribution programs.

Although the Company acknowledges its responsibility for all of its internal controls, the Company relies upon Sprint as a service provider to provide accurate information for the settlement of revenue and certain expense items. The Company makes estimates used in connection with the preparation of financial statements based on the financial and statistical information provided by

The Sprint Agreements require the Company to maintain certain minimum network performance standards and to meet other performance requirements. The Company believes it was in compliance in all material respects with these requirements as of December 31, 2004.

(6) Legal Matters

In May 2002, putative class action complaints were filed in the United States District Court for the Northern District of Georgia against AirGate PCS, Inc., Thomas M. Dougherty, Barbara L. Blackford, Alan B. Catherall, Credit Suisse First Boston, Lehman Brothers, UBS Warburg LLC, William Blair & Company, Thomas Wiesel Partners LLC and TD Securities. The complaints do not specify an amount or range of damages that the plaintiffs are seeking. The complaints seek class certification and allege that the prospectus used in connection with the secondary offering of Company stock by certain former stockholders of iPCS, a former subsidiary of the Company, on December 18, 2001 contained materially false and misleading statements and omitted material information necessary to make the statements in the prospectus not false and misleading. The alleged omissions included: (i) failure to disclose that in order to complete an effective integration of iPCS, drastic changes would have to be made

Table of Contents

to the Company's distribution channels, (ii) failure to disclose that the sales force in the acquired iPCS markets would require extensive restructuring and (iii) failure to disclose that the churn or turnover rate for subscribers would increase as a result of an increase in the amount of sub-prime credit quality subscribers the Company added from its merger with iPCS. On July 15, 2002, certain plaintiffs and their counsel filed a motion seeking appointment as lead plaintiffs and lead counsel. Subsequently, the court denied this motion without prejudice and two of the plaintiffs and their counsel filed a renewed motion seeking appointment as lead plaintiffs and lead counsel. On September 12, 2003, the court again denied that motion without prejudice and on December 2, 2003, certain plaintiffs and their counsel filed a modified renewed motion seeking appointment as lead plaintiffs and lead counsel. On August 17, 2004 the court granted the plaintiff's motion.

Pursuant to a consent scheduling order agreed to by the parties, lead plaintiffs filed a consolidated amended class action complaint on October 15, 2004 (the Consolidated Complaint). As did the original complaints filed in these actions, the Consolidated Complaint alleges that the Company's registration statement and prospectus relating to the December 2001 offering misrepresented and/or omitted adverse facts regarding the anticipated effects of the Company's acquisition of iPCS. The Consolidated Complaint also asserts that the registration statement/prospectus was false and misleading in certain other respects not previously alleged. The legal claims asserted in the Consolidated Complaint remain the same as those in the original complaints, i.e. the registration statement/prospectus violated Sections 11, 12(a)(2) and 15 of the Securities Act of 1933. In addition, the class that lead plaintiffs seek to represent remains the same, and the named defendants remain the same.

Defendants' responses to the Consolidated Complaint were due on or before December 17, 2004. In the event that any defendant moves to dismiss, lead plaintiffs were to serve their opposition by January 21, 2005, and defendants' reply briefs are due on or before February 22, 2005. On December 30, 2004, defendants filed motions to dismiss the consolidated complaint. The lead plaintiffs have not yet responded to the motions to dismiss, which have not yet been ruled upon by the court and remain pending.

iPCS Bankruptcy

On February 23, 2003, iPCS and its two subsidiaries, iPCS Wireless, Inc. and iPCS Equipment, Inc. (the Debtors) filed voluntary petitions for relief under Chapter 11 of the Bankruptcy Code. During the bankruptcy cases, iPCS filed a motion and obtained an order authorizing it to assume a management agreement between iPCS, AirGate PCS and AirGate Services Co., as amended. The Company subsequently filed an administrative expense priority claim for amounts that the Company contends are owed by the Debtors under the assumed management agreement. The claim is for amounts that the Company is or might be liable to certain third party vendors for goods and services provided by such vendors to or for the benefit of the Debtors. In their disclosure statement, the Debtors indicated that they might seek to defend against the claim by arguing, among other things, that the Company has failed to disgorge an alleged preferential transfer in the amount of approximately \$3.1 million and that the Company, its affiliates, officers, and directors may be subject to claims of the Debtors for mismanagement, breach of fiduciary duties, officer and director liability, and similar claims. iPCS has not yet named the Company as a defendant in a preference action. The parties are currently engaged in settlement discussions in an effort to resolve all of the disputes between them.

Indemnity under Sprint Management Agreement

As part of our management agreement with Sprint, the Company has agreed to indemnify Sprint and related parties of Sprint against any and all claims arising from our violation of any law, a breach by us of any representation, warranty or covenant contained in our management agreement or any other agreement between us and Sprint, the actions or the failure to act of anyone employed or hired by us in the performance of any work under the management agreement, except the Company will not indemnify Sprint for any claims arising solely from the negligence or willful misconduct of Sprint.

The Company is also subject to a variety of other claims and suits that arise from time to time in the ordinary course of business. While management currently believes that resolving all of these matters (including all matters discussed above), individually or in the aggregate, will not have a material adverse impact on our liquidity, financial condition or results of operations, the litigation and other claims noted above are subject to inherent uncertainties and management's view may change in the future. If an unfavorable outcome were to occur, there exists the possibility of a material adverse impact on our liquidity, financial condition and results of operations.

(7) Income Taxes

Income taxes are accounted for under the asset and liability method. Deferred income tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases and operating loss and tax credit carryforwards. Deferred income tax assets and liabilities are measured using enacted tax rates applied to expected taxable income for the years in which those temporary differences are expected to be recovered or settled. The effect on deferred income tax assets and liabilities for a change in tax rates is recognized as income or expense in the period that includes the enactment date. A valuation allowance is provided for deferred income tax assets based upon the Company's assessment of whether it is more likely than not that the deferred income tax assets will be

Table of Contents

realized. The ultimate realization of deferred tax assets is dependent upon the generation of future taxable income during the periods in which those temporary differences become deductible. Management considers the scheduled reversal of deferred tax liabilities, projected future taxable income, and tax planning strategies in making this assessment.

During the quarters ended December 31, 2004 and 2003, the Company did not recognize income tax expense or a benefit on continuing operations. A full valuation allowance has been provided as management believes it is not more likely than not that the income tax benefit would be realized.

(8) Discontinued Operations

On November 30, 2001, the Company acquired iPCS, another Sprint network partner. The transaction was accounted for under the purchase method of accounting.

Subsequent to the acquisition of iPCS, the results of operations and accounts of iPCS were consolidated with the Company in accordance with generally accepted accounting principles. On February 23, 2003, iPCS filed for Chapter 11 bankruptcy for the purpose of effecting a court administered reorganization. Subsequent to February 23, 2003, the Company no longer consolidated the accounts and results of operations of iPCS and the accounts of iPCS were recorded as an investment using the cost method of accounting.

On October 17, 2003, the Company irrevocably transferred all of its shares of iPCS common stock to a trust for the benefit of the Company's stockholders of record on the date of the transfer. On the date of the transfer, the iPCS investment (\$184.1 million credit balance carrying amount) was eliminated and recorded as a non-monetary gain on disposal of discontinued operations. The Company's consolidated financial statements reflect the results of iPCS as discontinued operations.

(9) Condensed Consolidating Financial Statements

AGW Leasing Company, Inc. (AGW) is a wholly-owned restricted subsidiary of the Company. AGW has fully and unconditionally guaranteed the 9 3/8% Notes and the Floating Rate Notes. AGW was formed to hold the real estate interests for the Company's PCS network and retail operations. AGW also was a registrant under the Company's registration statement declared effective by the Securities and Exchange Commission on September 27, 1999.

AirGate Network Services LLC (ANS) is a wholly-owned restricted subsidiary of the Company. ANS has fully and unconditionally guaranteed the 9 3/8% Notes and the Floating Rate Notes. ANS was formed to provide construction management services for the Company's PCS network.

AirGate Service Company, Inc. (Service Co) is a wholly-owned restricted subsidiary of the Company. Service Co has fully and unconditionally guaranteed the 9 3/8% Notes and the Floating Rate Notes. Service Co was formed to provide management services to the Company and iPCS. Subsequent to September 30, 2003, such services were discontinued and were performed directly by the respective entity.

The following shows the unaudited condensed consolidating financial statements for the Company and its guarantor subsidiaries, as listed above, as of December 31, 2004 and September 30, 2004 and for the quarters ended December 31, 2004 and 2003 (dollars in thousands):

(10) Basic and Diluted Earnings (Loss) Per Share

Basic earnings (loss) per share is computed by dividing net income (loss) by the weighted-average number of common shares outstanding during the period. Potentially dilutive securities of 185,517 and 3,588 for the quarters ended December 31, 2004 and 2003 respectively, have been excluded from the computation of dilutive earnings (loss) per share for the periods because the Company has a loss from continuing operations and their effect would have been antidilutive.

(11) Issuance of Floating Rate Notes

On October 25, 2004, the Company issued \$175.0 million of first priority senior secured floating rate notes due 2011 at par value. The notes bear interest at a rate equal to the three-month London Interbank Borrowed Rate (LIBOR) plus 3.75%, reset quarterly. Proceeds from the notes were used to repay and terminate the Company's \$131.2 million senior

credit facility (also at LIBOR plus 3.75%), redeem the Company's \$1.8 million 13/2% senior subordinated discount notes due 2009, and for general corporate purposes. In October 2004, the Company incurred and capitalized \$4.7 million of fees and expenses related to the \$175 million note offering and expensed previously paid transaction fees related to the credit facility and the 13 1/2% notes totaling \$3.0 million recorded as loss on early extinguishment of debt during the quarter ended December 31, 2004.

Each of our subsidiaries jointly, severally and unconditionally guarantee the notes on a senior secured basis. The notes and the guarantees constitute senior debt. They rank equally in right of payment with all of our and the guarantors existing and future senior debt and senior in right of payment to all of our and the guarantors existing and future subordinated debt, including our 9 3/8% Notes and the related guarantees.

The notes contain covenants, subject to certain exceptions, that restrict the Company's ability to, among other things, incur more debt; create liens; repurchase stock and make certain investments; pay dividends, make loans or transfer property or assets; enter into sale and leaseback transactions; transfer or dispose of substantially all of the Company's assets; or engage in transactions with affiliates. Notwithstanding the covenants restricting the ability of the Company to incur debt, the Company is permitted to, among other things, incur up to \$50.0 million of additional indebtedness, including additional notes, and other obligations that may also be secured by liens on the collateral that are pari passu with the first priority liens securing the \$175.0 million Floating Rate Notes. If the Company undergoes a change of control (as defined in the indenture that governs the notes), then it must make an offer to repurchase the notes at 101% of their principal amount, plus accrued and unpaid interest. At December 31, 2004, the Company was in compliance in all material respects with covenants contained in the note indenture.

Table of Contents

On January 11, 2005, the Company began soliciting consents from holders of its notes to proposed amendments to certain provisions of the Indentures governing the notes. The consent solicitation is related to amendments to the Indentures governing the notes so that neither AirGate nor Alamosa will be required to make a repurchase offer for the notes upon completion of the merger. On January 25, 2005, the consent solicitation expired and the Company received consents representing 97% and 92% of the aggregate principal amount of outstanding 9 3/8% Notes and Floating Rates Notes, respectively. As a result, the Company has received the necessary approval of the holders of each series of notes to the proposed amendment to each of the respective Indentures under which the notes were issued.

(12) Acceleration of Employee Stock Options

On August 11, 2004, the Company granted 75,000 options to purchase shares of the Company's common stock in the ordinary course of business to certain key officers of the Company. The original terms of the options called for them to vest ratably over four years on the anniversary of the date of the grant. The Company did not recognize compensation expense with respect to the options since the options had an exercise price equal to the fair market value of the Company's common stock on the date of the grant. On December 21, 2004, the Company's board of directors unanimously approved the immediate acceleration of the vesting of one-half of the options on a pro-rata basis. In accordance with APB No. 25, the accelerated vesting does not represent a modification of the original terms to the awarded option to purchase shares of the Company's common stock and therefore had no impact on the Company's results of operations.

(13) Contractual Agreement with Lucent

On December 7, 2004, the Company entered into an Affiliate Agreement (the Agreement), dated as of December 1, 2004, with Lucent Technologies Inc. (Lucent) pursuant to which the Company will purchase products and services from Lucent for use in connection with the Company's network operations. The Agreement is effective through December 31, 2009. The Agreement requires the Company to purchase a minimum dollar amount of products and services from Lucent from October 1, 2004 to September 30, 2009 in order to continue to receive the discounts provided in the Agreement and to not be required to refund the discounts provided to the Company pursuant to the Agreement. The annual cash payments required under this agreement are approximately \$40.0 million for each of the calendar years ended 2005 and 2006, respectively.

The Company's intent is to utilize the Lucent commitment to expand and upgrade the network, which will result in retiring existing assets before reaching the end of their estimated useful lives. During the quarter ended December 31, 2004, the Company committed to systematically replace many of the Company's existing minicell base stations with an equivalent quantity of current generation multi-carrier capable base stations, or modcells. As of the date of the agreement, the estimated useful life of each existing minicell base station was reduced to reflect the remaining number of months such assets will be in use prior to conversion, thereby accelerating depreciation expense. The impact of this change increased depreciation expense by \$3.8 million for the three months ended December 31, 2004, and is estimated to increase depreciation expense by approximately \$10.5 million for the fiscal year ended September 30, 2005. Under this agreement, all existing equipment will be deinstalled and the new equipment will be installed in the same locations and will include significantly upgraded technology. The Company is committed to convert 611 base stations during the fiscal years 2005 through 2006 at prices fixed in the agreement.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Management's Discussion and Analysis of Financial Condition and Results of Operations (MD&A) contains forward-looking statements. These forward-looking statements are based on current expectations, estimates, forecasts and projections about us, our future performance, our liquidity, the wireless industry, our beliefs and management's

assumptions. In addition, other written and oral statements that constitute forward-looking statements may be made by us or on our behalf. Such forward-looking statements include statements regarding expected financial results and other planned events, including but not limited to, anticipated liquidity, ARPU, churn rates and CPGA (all as defined in the Non-GAAP Financial Measures and Key Operating Metrics), roaming rates, EBITDA, and capital expenditures.

Words such as anticipate, assume, believe, estimate, expect, intend, plan, seek, project, target, g such words and similar expressions are intended to identify such forward-looking statements. These statements are not guarantees of future performance and involve certain risks, uncertainties and assumptions that are difficult to predict. Therefore, actual future events or results may differ materially from these statements. These risks and uncertainties include:

our dependence on the success of Sprint's wireless business;

the competitiveness and impact of Sprint's pricing plans and PCS products and services and introduction of pricing plans and programs that may adversely affect our business;

intense competition in the wireless market and the unsettled nature of the wireless market;

the potential to experience a continued high rate of subscriber turnover;

the ability of Sprint (directly or through third parties) to provide back office billing, subscriber care and other services and the quality and costs of such services or, alternatively, our ability to outsource all or a portion of these services at acceptable costs and the quality of such services;

Table of Contents

subscriber credit quality;

the ability to successfully leverage 3G products and services;

inaccuracies in financial information provided by Sprint;

new charges and fees, or increased charges and fees, imposed by Sprint;

our ability to predict future customer growth, as well as other key operating metrics;

the impact of spending cuts on network quality, customer retention and customer growth;

rates of penetration in the wireless industry;

our significant level of indebtedness and debt covenant requirements;

the impact and outcome of legal proceedings between other Sprint network partners and Sprint;

the potential need for additional sources of capital and liquidity;

risks related to our ability to compete with larger, more established businesses;

anticipated future losses;

rapid technological and market change;

an adequate supply of subscriber equipment;

declines in growth of wireless subscribers;

the volatility of the market price of our common stock;

the future obsolescence of our network assets based on technological changes;

the failure of our or Alamosa's stockholders to approve the merger and/or the failure to obtain approvals from regulators, Sprint or other groups; and

the effect of wireless number portability.

These forward-looking statements involve a number of risks and uncertainties that could cause actual results to differ materially from those suggested by the forward-looking statements. Forward-looking statements should, therefore, be considered in light of various important factors, including those set forth in the Company's Annual Report for the fiscal year ended September 30, 2004, and elsewhere in this report. Moreover, we caution you not to place undue reliance on these forward-looking statements, which speak only as of the date they were made. We do not undertake any obligation to publicly release any revisions to these forward-looking statements to reflect events or circumstances after the date of this report or to reflect the occurrence of unanticipated events. All subsequent forward-looking statements attributable to us or any person acting on our behalf are expressly qualified in their entirety by the cautionary statements contained in or referred to in this report.

For a further listing and description of such risks and uncertainties, see the Company's Annual Report for the fiscal year ended September 30, 2004 and other reports filed by us with the SEC. Except as required under federal securities law and the rules and regulations of the SEC, we do not have any intention or obligation to update publicly any forward looking statements after distribution of this report, whether as a result of new information, future events, changes in assumptions or otherwise.

You should read this discussion in conjunction with our consolidated financial statements and accompanying notes contained in our Annual Report for the fiscal year ended September 30, 2004.

Overview

AirGate PCS, Inc. and its subsidiaries were created for the purpose of providing wireless Personal Communication Services, or (PCS). We are a network partner of Sprint PCS, which is a group of wholly-owned subsidiaries of Sprint Corporation (a diversified telecommunications service provider), that operate and manage Sprint's PCS products and services.

Sprint operates a 100% digital PCS wireless network in the United States and holds the licenses to provide PCS nationwide using a single frequency band and a single technology. Sprint, directly and indirectly through network partners such as us, provides wireless services in more than 4,000 cities and communities across the country. Sprint directly operates its PCS network in major metropolitan markets throughout the United States. Sprint has also entered into independent agreements with various network partners, such as us, under which the network partners have agreed to construct and manage PCS networks in smaller metropolitan areas and along major highways.

During the first quarter of 2005, we continued to stay focused on our key financial and operating performance metrics, including net income and EBITDA. Accomplishments during the first quarter of fiscal 2005, which we believe are important indicators of our overall performance and financial well-being, include:

Loss from continuing operations for the quarter ended December 31, 2004 was \$15.3 million, or \$1.30 per share for both basic and diluted outstanding common shares, compared to a loss of \$11.1 million or \$2.14 per share for the same quarter of the previous year;

Table of Contents

EBITDA, earnings before interest, taxes, depreciation and amortization (as later defined), was \$11.9 million for the quarter ended December 31, 2004, compared to \$11.8 million for the same quarter of the previous year;

Gross subscriber additions were 51,931 for the quarter ended December 31, 2004, compared to 35,601 for the same quarter of the previous year;

Net subscriber additions were 15,775 for the quarter ended December 31, 2004, compared to 438 for the same quarter of the previous year; and

Churn (as later defined) decreased to 2.72% in the quarter ended December 31, 2004, compared to 3.10% for the same quarter of the previous year.

Excluding net purchases of short-term investment securities, the Company generated \$6.4 million in cash from operating activities during the quarter ended December 31, 2004, compared to \$8.3 million for the same period prior year. The Company completed a private placement of floating rate notes of approximately \$175.0 million on October 25, 2004 and used the proceeds to extinguish both the Company's \$131.2 million senior credit facility and \$1.8 million used to redeem the 13 1/2% senior subordinate notes and for general corporate purposes. We believe these results have strengthened our balance sheet by increasing cash, cash equivalents, and short-term investments to \$110.0 million from \$68.5 million in the fourth quarter of fiscal year 2004 and from \$60.0 million from the first quarter of the previous fiscal year.

As of December 31, 2004, the Company had 400,312 subscribers and total network coverage of approximately 6.1 million residents, representing approximately 83% of the 7.4 million residents in its territory.

Sprint Merger with Nextel

On December 15, 2004, Sprint Corporation and Nextel Communications, Inc. (Nextel) announced that their respective Boards of Directors unanimously approved a definitive agreement for a merger of equals. Nextel currently operates a wireless mobility communications network in certain territories in which the Company also provides digital wireless mobility communications network services under the Sprint or affiliated brands.

Assuming that no changes are effected with respect to Sprint's agreements with us, it is possible that Sprint could be in violation of the exclusivity provisions of our agreements with Sprint upon completion of the Sprint-Nextel transaction.

Sprint's agreements with us provide for specific remedies in the event of a material violation by Sprint of such agreements. No determination has been made as to the impact such remedies would have on the Company or whether any such remedy would be more or less favorable to us than are our existing arrangements with Sprint or any renegotiated arrangements with Sprint.

We are committed to working with Sprint to reach mutually agreeable arrangements with respect to these matters. However, there can be no assurance that the Company and Sprint will be able to reach mutually acceptable arrangements or as to the terms of any such arrangements or the likely impact on the Company of any such arrangements.

iPCS, Inc.

On November 30, 2001, we acquired iPCS in a merger. The transaction was accounted for under the purchase method of accounting.

On February 23, 2003, iPCS filed a Chapter 11 bankruptcy petition in the United States Bankruptcy Court for the Northern District of Georgia for the purpose of effecting a court administered reorganization. Subsequent to February 23, 2003, the Company no longer consolidated the accounts and results of operations of iPCS and the accounts of iPCS were recorded as an investment using the cost method of accounting.

To avoid certain adverse tax consequences to iPCS due to the Company's recapitalization plan, on October 17, 2003, the Company irrevocably transferred all of its shares of iPCS common stock to a trust for the benefit of the Company's shareholders of record as of the date of transfer. On October 17, 2003, the iPCS investment (\$184.1 million credit balance carrying amount) was eliminated and recorded as a non-monetary gain on disposal of discontinued operations. The results for iPCS for all periods presented are shown as discontinued operations. The results for AirGate only are shown as continuing operations.

The following description of the Company's business is limited to AirGate alone, and does not reflect the business of iPCS.

Critical Accounting Policies

The Company relies on the use of estimates and makes assumptions that impact its financial condition and results. These estimates and assumptions are based on historical results and trends as well as the Company's forecasts as to how these might change in the future. While we believe that the estimates we use are reasonable, actual results could differ from those estimates. The Company's most critical accounting policies that may materially impact the Company's results of operations include:

Table of Contents*Revenue Recognition*

The Company recognizes revenue when persuasive evidence of an arrangement exists, services have been rendered or products have been delivered, the price to the buyer is fixed and determinable, and collectibility is reasonably assured. Effective July 1, 2003, the Company adopted Emerging Issues Task Force (EITF) No. 00-21, Accounting for Revenue Arrangements with Multiple Element Deliverables. The EITF guidance addresses how to account for arrangements that may involve multiple revenue-generating activities, i.e. the delivery or performance of multiple products, services, and/or rights to use assets. In applying this guidance, separate contracts with the same party, entered into, at or near the same time, will be presumed to be a bundled transaction, and the consideration will be measured and allocated to the separate units based on their relative fair values. The adoption of EITF No. 00-21 has resulted in substantially all of the activation fee revenue generated from Company-owned retail stores and associated costs being recognized at the time the related wireless handset is sold. Previously deferred revenues and costs continue to be amortized over the remaining estimated life of a subscriber, not to exceed 30 months. Revenue and costs for activations at other retail locations will continue to be deferred and amortized over their estimated lives.

The Company recognizes service revenue from its subscribers as they use the service. The Company provides a reduction of recorded revenue for billing adjustments, estimated uncollectible late payment fees and early cancellation fees. The Company also reduces recorded revenue for rebates and discounts given to subscribers on wireless handset sales in accordance with EITF No. 01-9 Accounting for Consideration Given by a Vendor to a Customer (Including a Reseller of the Vendor's Products). For industry competitive reasons, the Company sells wireless handsets at a loss. The Company participates in the Sprint national and regional distribution programs in which national retailers such as Radio Shack and Best Buy sell Sprint PCS products and services. In order to facilitate the sale of Sprint PCS products and services, national retailers purchase wireless handsets from Sprint for resale and receive compensation from Sprint for Sprint PCS products and services sold. For industry competitive reasons, Sprint subsidizes the price of these handsets by selling the handsets at a price below cost. Under the Company's Sprint Agreements, when a national retailer sells a handset purchased from Sprint to a subscriber in the Company's territory, the Company is obligated to reimburse Sprint for the handset subsidy. The Company does not receive any revenue from the sale of handsets and accessories by such national retailers. The Company classifies these handset subsidy charges as a selling and marketing expense for a new subscriber handset sale and classifies these subsidies as a cost of service and roaming for a handset upgrade to an existing subscriber.

The Company records equipment revenue from the sale of handsets and accessories to subscribers in its retail stores upon delivery in accordance with EITF No. 00-21. The Company does not record equipment revenue on handsets and accessories purchased from national third-party retailers such as Radio Shack and Best Buy or directly from Sprint by subscribers in its territory.

Sprint is entitled to retain 8% of net billed service revenue from subscribers based in the Company's markets and from non-Sprint subscribers who roam onto the Company's network. The amount of affiliation fees retained by Sprint is recorded as cost of service and roaming. Revenues derived from the sale of handsets and accessories by the Company and from certain roaming services are not subject to the 8% affiliation fee from Sprint.

Revenue and Cost Data Provided by Sprint

Although the Company recognizes its responsibility for all of its internal controls, we place substantial reliance on the timeliness, accuracy and sufficiency of certain revenue, accounts receivable and cost data provided by Sprint which we use in the preparation of our financial statements and financial disclosures. The data provided by Sprint is the primary source for our recognition of service revenue and a significant portion of our cost of service and roaming, cost of equipment and selling and marketing. At times, we have been invoiced by Sprint for charges that we believed to be incorrect based on our agreements with Sprint. We review all charges from Sprint and dispute charges if appropriate

based upon our interpretation of our agreements with Sprint PCS. When Sprint does not notify us in a timely manner of charges that we have incurred, we record estimates primarily based on our historical trends and our estimate of the amount due to Sprint. When any amounts are in dispute with Sprint they are fully reserved or otherwise provided for.

Allowance for Doubtful Accounts

Estimates are used in determining the allowance for doubtful accounts and are based on historical collection and write-off experience, current trends, credit policies, accounts receivable by aging category and current trends in the credit quality of our subscriber base. In determining these estimates, the Company compares historical write-offs in relation to the estimated period in which the subscriber was originally billed. The Company also looks at the historical and projected average length of time that elapses between the original billing date and the date of write-off in determining the adequacy of the allowance for doubtful accounts by aging category. From this information, the Company provides specific amounts to the aging categories. The Company provides an allowance for substantially all receivables over 90 days old.

Using historical information, the Company provides a reduction in revenues for certain billing adjustments and credits, late payment fees and early cancellation fees that it anticipates will not be collected. The reserves for billing adjustments and credits, late payment fees and early cancellation fees are included in the allowance for doubtful accounts balance. If the allowance for

Table of Contents

doubtful accounts is not adequate, it could have a material adverse affect on the Company's liquidity, financial position and results of operations.

The Company continually evaluates its credit policy and evaluates the impact the subscriber base will have on the business and raises or lowers credit standards periodically, as allowed by Sprint.

Valuation and Recoverability of Long-Lived Assets

Long-lived assets such as property and equipment represent approximately 44% of the Company's total assets as of December 31, 2004. Property and equipment are stated at original cost, less accumulated depreciation and amortization. Depreciation is recorded using the straight-line method over the estimated useful lives of up to 15 years for towers, 3 to 5 years for computer equipment, 5 years for furniture, fixtures and office equipment and 5 to 7 years for network assets (other than towers).

The Company reviews long-lived assets for impairment in accordance with the provisions of SFAS No. 144,

Accounting for the Impairment or Disposal of Long-Lived Assets. We review our long-lived assets for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. If the total of the expected undiscounted future cash flows is less than the carrying amount of the asset, a loss, if any, is recognized for the difference between the fair value and the carrying value of the asset. Impairment analyses are based on our current business and technology strategy, our views of growth rates for the business, anticipated future economic and regulatory conditions and expected technological availability. Assets to be disposed of are reported at the lower of the carrying amount or fair value less costs to sell the asset.

Valuation of Income Taxes

Income taxes are accounted for under the asset and liability method. Deferred income tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases and operating loss and tax credit carryforwards. Deferred income tax assets and liabilities are measured using enacted tax rates applied to expected taxable income for the years in which those temporary differences are expected to be recovered or settled. The effect on deferred income tax assets and liabilities for a change in tax rates is recognized as income or expense in the period that includes the enactment date. A valuation allowance is provided for deferred income tax assets based upon the Company's assessment of whether it is more likely than not that the deferred income tax assets will be realized. The ultimate realization of deferred tax assets is dependent upon the generation of future taxable income during the periods in which those temporary differences become deductible. Management considers the scheduled reversal of deferred tax liabilities, projected future taxable income, and tax planning strategies in making this assessment.

Significant New Accounting Pronouncements

See Note 3 to the consolidated financial statements for a description of significant new accounting pronouncements and their impact on the Company.

Results of Operations

For the quarter ended December 31, 2004 compared to the quarter ended December 31, 2003:

Revenues

We derive our revenue from the following sources:

Service. We sell wireless personal communications services. The various types of service revenue associated with wireless communications services include monthly recurring access and feature charges and monthly non-recurring charges for local, wireless long distance and roaming airtime usage in excess of the subscribed usage plan.

Roaming and Wholesale. The Company receives roaming revenue at a per-minute rate from Sprint and other Sprint PCS network partners when Sprint's or its network partner's PCS subscribers from outside of the Company's territory use the Company's network. The Company pays the same reciprocal roaming rate when subscribers from its territories use the network of Sprint or its other PCS network partners. The Company also receives non-Sprint roaming revenue when subscribers of other wireless service providers who have roaming agreements with Sprint roam on the Company's network. Wholesale revenue is derived from resellers of wireless service whose subscribers use the Company's network.

Equipment. We sell wireless personal communications handsets and accessories that are used by our subscribers in connection with our wireless services. Equipment revenue is derived from the sale of handsets and accessories from Company owned stores, net of sales incentives, rebates and an allowance for returns. The Company's handset return policy allows subscribers to return their handsets for a full refund within 14 days of purchase. When handsets are returned to the Company, the Company may be able to reissue the handsets to subscribers at little additional cost. When handsets are returned to Sprint for refurbishing, the Company receives a credit from Sprint.

Table of Contents

	For the Quarters Ended December 31,			
	2004	2003	Increase (Decrease) \$	Increase (Decrease) %
	(Dollars in thousands)			
Service revenue	\$ 65,172	\$ 62,173	\$ 2,999	4.8%
Roaming and wholesale revenue	22,301	16,483	5,818	35.3%
Equipment revenue	4,739	2,847	1,892	66.5%
Total	\$ 92,212	\$ 81,503	\$ 10,709	13.1%

Service Revenue

The increase in service revenue for the quarter ended December 31, 2004 over the same quarter in the previous year reflects higher monthly recurring revenue and feature charges, higher data revenue and marginally higher revenue from minutes over plan, or airtime usage in excess of the subscribed usage plans, partially offset by higher promotional credits.

Roaming and Wholesale Revenue

The increase in roaming and wholesale revenue for the quarter ended December 31, 2004 over the same quarter in the previous year is attributable to increased volume in inbound roaming traffic. Roaming and wholesale revenue was also adversely affected for the quarter ended December 31, 2003 as a result of the \$0.9 million special settlement resulting from a correction to Sprint's billing system with respect to data-related inbound roaming revenues. For the quarter ended December 31, 2004, the Company's roaming and wholesale revenue from Sprint and its PCS network partners was \$21.9 million, or approximately 98% of roaming and wholesale revenue, compared to \$15.7 million or approximately 96% for the quarter ended December 31, 2003.

Equipment Revenue

Equipment revenue for the quarter ended December 31, 2004 increased over the same quarter in the previous year, primarily due to higher gross additions, and higher retail sales of new or upgraded handsets to existing subscribers and higher sales from our distributors offset by higher handset rebates.

Cost of Service and Roaming

Cost of service and roaming principally consists of costs to support the Company's subscriber base including:

Cost of roaming;

Network operating costs (including salaries, cell site lease payments, fees related to the connection of the Company's switches to the cell sites that they support, inter-connect fees and other expenses related to network operations);

Bad debt expense related to estimated uncollectible accounts receivable; and

Other cost of service:

Back office services provided by Sprint such as customer care, billing and activation;

The 8% of net billed service revenue representing the Sprint affiliation fee;

Long distance expense relating to inbound roaming revenue and the Company's own subscriber's long distance usage and roaming expense when subscribers from the Company's territory place calls on Sprint's or its network partners' networks; and

Wireless handset subsidies on existing subscriber retail sales through national third-party retailers.
