Report of Independent Registered Public Accounting Firm

June 13, 2005

To the Pension Plan Administrative Committee
Dietrich Industries, Inc. Salaried Employees Profit Sharing Plan
Blairsville, Pennsylvania

We have audited the accompanying statements of net assets available for benefits of the Dietrich Industries, Inc. Salaried Employees Profit Sharing Plan (the Plan) as of December 31, 2004 and 2003, and the related statement of changes in net assets available for benefits for the year ended December 31, 2004. These financial statements are the responsibility of the Plan s management. Our responsibility is to express an opinion on these financial statements.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. The Plan is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. Our audit included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan s internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2004 and 2003, and the changes in net assets available for benefits for the year ended December 31, 2004 in conformity with accounting principles generally accepted in the United States of America.

Our audits were performed for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplemental Schedule of Assets Held for Investment Purposes at End of Year as of December 31, 2004 is presented for the purpose of additional analysis and is not a required part of the basic financial statements but is supplementary information required by the Department of Labor s Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The supplemental schedule is the responsibility of the Plan s management. The supplemental schedule has been subjected to the auditing procedures applied in the audits of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

I. DESCRIPTION OF PLAN

The following brief description of the Dietrich Industries, Inc. Salaried Employees Profit Sharing Plan (the Plan) is provided for general information purposes only. Participants should refer to the Plan documents for more complete information.

The Plan is a defined contribution plan with a cash or deferred arrangement under Internal Revenue Code Section 401(k). The Plan was established on July 1, 1977, and is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended. Substantially all salaried employees of Dietrich Industries, Inc. and certain participating employers (the Company) are immediately eligible to participate in the Plan.

The Plan is one of six plans within the Worthington Deferred Profit Sharing Plan Master Trust (the Master Trust). The other plans are the Worthington Industries, Inc. Deferred Profit Sharing Plan, the Worthington Steel (Malvern) Union Retirement Savings Plan, the Gerstenslager Deferred Profit Sharing Plan, the Gerstenslager Union Retirement Savings Plan, and the Dietrich Industries, Inc. Hourly 401(k) Plan.

An employee electing to participate in the Plan can elect to contribute 1% to 50% of eligible earnings subject to Internal Revenue Code limitations. Each pay period, the Company will make a matching contribution of 50% of a participant s pre-tax contributions that do not exceed 2% of the participant s eligible pay.

For 2004, the Company will make a safe harbor employer contribution on or about the end of the month following the end of each calendar quarter in an amount equal to 3% of a participant s eligible pay during the quarter. A participant does not need to make pre-tax contributions to the Plan to receive the Company s 3% contribution.

Commencing with the 2004 calendar year, the Plan will permit and accept participant elective transfers of account balances between and among the Plan, the Dietrich Industries, Inc. Hourly 401(k) Plan, and the Worthington Industries, Inc. Deferred Profit Sharing Plan when an Employees status at the Company changes from hourly to salaried or vice-versa or when an employee transfers to or from employment with Worthington Industries, Inc. (or one of its affiliates).

The employer may also be required to make a qualified non-elective contribution which is based on a participant s unused balance of his or her flexible spending plan.

Participants are fully vested at all times in both employee and employer contributions and may elect to withdraw all or a portion of their account, without terminating employment with the Company, upon becoming disabled, reaching age 59 1/2, or under special hardship provisions.

I. DESCRIPTION OF PLAN (Continued)

Participants may elect to invest in various investment options. Individual accounts are established for each plan participant and credited for employee and employer contributions and an allocation of earnings based on the participant's account balance.

Although the Company expects to continue the Plan indefinitely, it maintains the right to terminate the Plan.

All administrative expenses of the Plan including fees paid to the custodian may be charged to the Plan to the extent the expenses are not paid by the Company.

Participants may borrow up to one-half of their non-forfeitable account balances subject to certain minimum and maximum loan limitations. Such loans are repayable over periods not exceeding five years, except that a repayment period of up to ten years will be allowed if the loan is used to acquire a principal residence. The annual interest rate on a loan will be equal to the interest rate charged by persons in the business of making loans to individuals under similar circumstances. Principal and interest are paid ratably through payroll deductions.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting The financial statements of the Plan are prepared under the accrual method of accounting in accordance with accounting principles generally accepted in the United States of America.

Valuation of Investments and Income Recognition Effective March 1, 2004, as amended, the Plan's investments are now held in a Master Trust by Fidelity Investments. The Master Trust's investments are stated at fair value. Investments in registered investment companies are stated at fair value based on publicly quoted market prices. The investments in the common stock fund and common/collective trust are valued at the net asset value of units held by the Plan at year end by the custodian and recordkeeper.

Purchases and sales of investments are recorded on a trade-date basis. Dividend income is recorded on the ex-dividend date and interest income is recorded on the accrual basis. Participant loans are valued at cost, which approximates fair value.

Use of Estimates The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.
