TOOTSIE ROLL INDUSTRIES, INC. AND SUBSIDIARIES  
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS  
MARCH 29, 2003  
(in thousands except per share amounts) (UNAUDITED)

- Note 1 - Foregoing data has been prepared from the unaudited financial records of the Company and in the opinion of management all adjustments necessary for a fair statement of the results for the interim period have been reflected. All adjustments were of a normal and recurring nature. Certain reclassifications have been made to the prior year financial statements to conform to the current year presentation. These consolidated financial statements should be read in conjunction with the consolidated financial statements and the related notes included in the Company's 2002 Annual Report on Form 10-K.
- Note 2 - The Company's unshipped orders amounted to \$16,600 and \$14,300, at March 29, 2003 and March 30, 2002, respectively.
- Note 3 - Average shares outstanding for the period ended March 29, 2003 reflects stock repurchases of 473 shares for \$13,865 and a 3% stock dividend distributed on April 16, 2003. Average shares outstanding for the period ended March 30, 2002 reflects stock repurchases of 285 for \$11,228 and a 3% stock dividend distributed on April 17, 2002.
- Note 4 - Results of operations for the period ended March 29, 2003 are not necessarily indicative of results to be expected for the year to end December 31, 2003 because of the seasonal nature of the Company's operations. Historically, the Third Quarter has been the Company's largest sales quarter due to Halloween sales.
- Note 5 - In June 2002, the FASB issued Statement of Financial Accounting Standards No. 146, "Accounting for Costs Associated with Exit or Disposal Activities" (SFAS No. 146). The provisions of SFAS No. 146 are effective for exit or disposal activities that are initiated after

## Edgar Filing: TOOTSIE ROLL INDUSTRIES INC - Form 10-Q/A

December 31, 2002. The adoption of this statement did not have a significant impact on the Company's financial statements.

-5-

Note 6 - In November 2002, the FASB issued Interpretation No. 45, "Guarantor's Accounting and Disclosure Requirements for Guarantees, Including Indirect Guarantees of Indebtedness of Others." This Interpretation elaborates on the disclosures to be made by a guarantor in its interim and annual financial statements about its obligations under certain guarantees that it has issued. It also clarifies that a guarantor is required to recognize, at the inception of a guarantee, a liability for the fair value of the obligation undertaken in issuing the guarantee. The Company has no significant guarantees which would need to be recognized and measured under the Interpretation and no significant guarantees which meet the disclosure requirements as of March 29, 2003.

Edgar Filing: TOOTSIE ROLL INDUSTRIES INC - Form 10-Q/A

-5A-

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF  
FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following is Management's discussion of the company's operating results and analysis of factors which have affected the accompanying Statement of Earnings.

NET SALES:

	First Quarter	First Quarter, 2003
		vs.
	2003	2002
	2002	First Quarter, 2002
\$75,570	\$78,991	-4.3%

First Quarter 2003 net sales of \$75,570, were down 4.3% from First Quarter 2002 net sales of \$78,991. The decline in net sales is due to the timing of the Easter seasonal product shipments, reduced shipping days in the quarter, and higher sales in the fourth quarter of 2002 resulting from some advance buy-in in December 2002 in anticipation of January 2003 price increases. The increase in April 2003 sales exceeded the sales shortfall in First Quarter 2003 which reflects the timing of shipments as discussed above. Lower Mexican sales also contributed to the sales decline in First Quarter 2003.

First Quarter 2003 net sales of \$75,570 were down from Fourth Quarter 2002 net sales of \$90,766. This is not considered unusual as the First Quarter of the year is historically the Company's lowest sales quarter.

COST OF SALES:

	First Quarter	Cost of Sales as a
		Percentage of Net Sales
	2003	2002
	2002	1st Qtr. 2003
\$42,627	\$43,160	1st Qtr. 2002
		56.4%
		54.6%

Cost of sales as a percentage of net sales increased from from 54.6% for First Quarter 2002 to 56.4% for First Quarter 2003. This adverse increase reflects higher ingredient costs and lower sales volume as discussed above. The Company has experienced higher ingredient costs for almost all of its principal ingredients, including sugar, corn syrup, vegetable oil, cocoa and chocolate. Although price increases were initiated for many of the Company's products in January 2003, additional price increases and bag weight declines (indirect selling price increases) on certain items are being further phased-in throughout the balance of 2003 to mitigate some of these higher costs.

-6-

NET EARNINGS:

	First Quarter	First Quarter, 2003
		vs.
	2003	2002
	2002	First Quarter, 2002
\$10,909	\$12,772	-14.6%

## Edgar Filing: TOOTSIE ROLL INDUSTRIES INC - Form 10-Q/A

First Quarter earnings from operations were \$15,415 and \$18,335 in 2003 and 2002, respectively. The decrease in operating earnings principally results from higher ingredient costs and the effects of lower sales volume, as discussed above, as well as an additional \$0.5 million pre-tax provision for a customer bankruptcy.

First Quarter 2003 net earnings were \$10,909 compared to First Quarter 2002 net earnings of \$12,772. First Quarter 2003 earnings per share were \$0.21, compared to \$.24 per share in the prior year comparative period, a decrease of \$.03 or 12.5%. In addition to the factors discussed above that affected operating earnings, lower investment income also contributed to lower First Quarter 2003 net earnings as compared to First Quarter 2002.

The consolidated effective income tax rate favorably decreased from 34.5% in the First Quarter of 2002 to 33.8% in the First Quarter of 2003. This improvement generally reflects a reduction in state income taxes.

### LIQUIDITY AND CAPITAL RESOURCES:

The Company's current ratio (current assets divided by current liabilities) is 3.0 to 1 as of the end of the First Quarter 2003 as compared to 3.7 to 1 as of the First Quarter 2002 and 3.6 to 1 as of the Fourth Quarter 2002. Net working capital was \$140,832 as of the end of the First Quarter 2003 as compared to \$161,852 and \$170,628 as of the end of the Fourth Quarter 2002 and First Quarter 2002, respectively. These decreases in working capital are principally reflected in long-term investments which were \$131,916 as of the First Quarter 2003 compared to \$116,501 and \$85,977, as of the end of the Fourth Quarter 2002 and First Quarter 2002, respectively. Net cash used in operating activities was \$4,612 for the quarter ended March 29, 2003 and \$4,415 for the quarter ended March 30, 2002. The change primarily reflects increased accounts receivable levels at March 29, 2003, partially offset by changes in other receivables, inventories, accounts payable and accrued liabilities. Capital expenditures for 2003 are anticipated to be generally in line with historical annualized spending and are to be funded from the Company's cash flow from operations and internal sources.

Investments in debt securities that matured during the quarters ended March 29, 2003 and March 30, 2002 were generally replaced with debt securities of similar maturities.

-6A-

The Company repurchased and retired \$13,865 and \$11,228 of its shares outstanding during the First Quarter 2003 and 2002, respectively.

This discussion and certain other sections of this Form 10-Q contain forward-looking statements that are based largely on the Company's current expectations and are made pursuant to the safe harbor provisions of the Private Securities Litigation Reform Act of 1995. Forward-looking statements are subject to certain risks, trends and uncertainties that could cause actual results and achievements to differ materially from those expressed in the forward-looking statements. Such risks, trends and uncertainties, which in some instances are beyond the Company's control, include changes in demand and consumer preferences, including seasonal events such as Halloween; the effect of ingredient costs; the effect of

## Edgar Filing: TOOTSIE ROLL INDUSTRIES INC - Form 10-Q/A

acquisitions on the Company's results of operations and financial condition; the Company's reliance on third-party vendors for various goods and services; changes in the confectionary market place including action taken by major retailers and customer accounts; customer and consumer response to marketing programs and price adjustments; changes in governmental laws and regulations including taxes; and the overall competitive environment. The words "believe," "expect," "anticipate," "estimate," "intend" and similar expressions generally identify forward-looking statements. Readers are cautioned not to place undue reliance on such forward-looking statements, which are as of the date of this filing.

### ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURE OF MARKET RISK:

The Company is exposed to various market risks, including fluctuations in sugar, corn syrup, edible oils, cocoa and packaging costs. The Company also invests in securities with maturities of up to three years, the majority of which are held to maturity, which limits the Company's exposure to interest rate fluctuations. There has been no material change in the Company's market risks that would significantly affect the disclosures made in the Form 10-K for the year ended December 31, 2002.

-6B-

### Item 4. CONTROLS AND PROCEDURES

Under the supervision and with the participation of management, the chief executive officer and chief financial officer of the Company have evaluated the effectiveness of the design and operation of the Company's disclosure controls and procedures within 90 days of the filing date of this quarterly report and, based on their evaluation, the chief executive officer and chief financial officer have concluded that these controls and procedures are effective. There were no significant changes in internal controls or in other factors that could significantly affect these controls subsequent to the date of their evaluation. Disclosure controls and procedures are designed to ensure that information required to be disclosed by the Company in the reports that it files or submits under the Securities Exchange Act of 1934 is recorded, processed, summarized and reported, within the time periods specified in the Securities and Exchange Commission's rules and forms. Disclosure controls and procedures are also designed to ensure that information is accumulated and communicated to management, including the chief executive officer and chief financial officer, as appropriate to allow timely decisions regarding required disclosure.
